

AGREEMENT FOR PETROLEUM AND GEOTHERMAL PROPERTY SALES STUDY

THIS Agreement is made effective November 1, 2016, by, between and among the CALIFORNIA ASSESSORS' ASSOCIATION, a non-profit corporation ("Assessors" Association), HAROLD W. BERTHOLF, INC., a California professional corporation ("Contractor"), and the Assessors of the Counties of Contra Costa, Fresno, Humboldt, Kern, Kings, Los Angeles, Madera, Mono, Monterey, Orange, Sacramento, San Luis Obispo, Santa Barbara, Sutter, Ventura and Yolo, all elected officers of political subdivisions of the State of California (the "Assessors" or "Participating Assessors").

WHEREAS:

- (a) Under the provisions of Revenue and Taxation Code Sections 441-454 and 480-484, a County Assessor has authority to gather confidential information from property owners necessary and relevant to the determination of the fair market value of property for purposes of property taxation within that Assessor's County; and
- (b) Under the provisions of Revenue and Taxation Code Section 408(b), upon request, a County Assessor may disclose confidential appraisal data received from taxpayers to other Assessors if they deem such information relevant and necessary for the accurate appraisal of property; and
- (c) The participating Assessors in Counties containing oil, gas and geothermal energy-producing properties regularly exchange relevant valuation information on an individual basis and are in need of a means to gather, coordinate and analyze sales and property information data from oil, gas and geothermal energy-producing property sales throughout California. This is necessary to provide individual Assessors an appropriate data base of sales and an analysis of the income projections, cost projections, capital improvement projections and

discount rates used in such sales to assist in the determination of the fair market value of such properties in their respective Counties while maintaining the confidentiality of taxpayer property and business information as required by Revenue and Taxation Code Sections 408, 451 and 481; and

- (d) The Assessors' Association is composed of all California County Assessors and is willing to serve as the coordinator of the collective efforts of the Participating Assessors to gather and analyze relevant property valuation information and to coordinate the exchange of the gathered analyzed information among the Participating Assessors while maintaining the confidentiality required by Revenue and Taxation Code Sections 408, 451, 481 and 674; and
- (e) Contractor is willing to use its ability and expertise to help the Participating Assessors gather relevant sales information concerning oil, gas and geothermal energy-producing properties and to provide analysis of such transactions. This information is useful to the Assessors in performing fair market value appraisals of oil, gas and geothermal energy-producing properties within their respective Counties. Contractor has outlined a plan of action to gather and analyze relevant sales for the Assessors, under the coordinating auspices of the Assessors' Association, and to deliver the results of the sales analysis to the individual Participating Assessors, while maintaining full confidentiality of the taxpayers' information as required by law; and
- (f) The Assessors of Contra Costa, Fresno, Humboldt, Kern, Kings, Los Angeles, Madera, Mono, Monterey, Orange, Sacramento, San Luis Obispo, Santa Barbara, Sutter, Ventura, and Yolo Counties are members of the Assessors' Association and have agreed to enter into this Agreement with the Assessors' Association and Contractor. They have done so to gather and analyze relevant oil, gas and geothermal energy-producing property sales within each of their respective Counties, to share the information and analysis among themselves for purposes of property tax appraisals, to maintain necessary taxpayer confidentiality as required

by Revenue and Taxation Code Sections 408, 451, 481 and 674, and to share, on a proportionate basis as set forth herein below, the costs of the individual Assessors and Contractor gathering this information from each participating County and the analysis of this information by Contractor.

NOW THEREFORE, in consideration of the mutual promises of performance set forth, the parties agree as follows:

1. TERM: The term of this Agreement is from November 1, 2016, through and including October 31, 2018.
