Thoughts on PBC's Inclusionary Housing Proposal

Rick Verbanec – 13 June 2016

There has been much angst expressed publicly about forest/habitat impacts, traffic impacts, wildlife impacts, and water impacts from this project, but I believe those arguments are not compelling and, apparently, neither do the Planning Commissioners. There are, however, some legitimate planning considerations which were not aired at the PC hearing and which have lasting effects on the people involved and property values of the surrounding neighborhoods.

Pebble Beach Company, understandably, has pursued a path of least governmental resistance with their proposal, providing an executable option in the same cost regime as the statutory *in lieu* fee alternative. However, the insertion of multi-family, attached, rental units in the midst of single-family, detached, units will destroy any semblance of neighborhood integrity. Instead, it creates a discriminant that will be easily identifiable to both the SFD neighbors and the tenants.

There are at least two desirable land use planning factors competing for attention in this proposal: 1) creation of low cost housing for local workers, a very pressing need as everyone agrees, and 2) protection of neighborhood integrity, which everyone should agree is one of the central purposes of a planning department. I suggest here some enhancement features relating to both the people and the structures which, if added, would reduce the proposal's adverse impact on the neighborhoods while still providing needed housing.

Regarding the people, PBC has offered to give first priority for the housing to income-eligible PBC employees. The housing would thus be an employment benefit, giving tenants some economic incentive to maintain day-to-day neighborhood integrity, otherwise missing in rental housing. While such an incentive is not as compelling as home ownership, it is certainly something real and valuable and should be explicitly incorporated.

This concept should be extended to require employees of other Del Monte Forest employers to be considered for eligibility before offering potential vacancies to non-DMF workers, thus enlarging the pool of benefitted local workers. This is consistent with the County intent of locating workforce housing near the jobs and adds some level of long term persistence to the notion of "local" employment and rule out the absurd situation of occupancy by non-local workers having to commute *out* for jobs.

This enlargement would also provide some insulation from uncertain but potential future changes in the rental situation. There is no way to predict changes in the government's income standards for eligibility, PBC employee wage structure, or other PBC ownership options. As a private development, much flexibility exists in creating deed restriction language to constrain the rental property to local employment and the details should be

worked out in advance. The desire is to prevent a long term neighborhood degeneration as is so evident in poorly restricted, low cost rental housing in cities across the country.

To enhance this concept further, some visible and neighborhood-friendly mechanism should be incorporated to hold at risk a tenant's continued eligibility for occupancy in the low cost housing based on legitimate neighborhood complaints about a tenant's behavior. A local mechanism to hear and determine legitimacy of complaints, and initiate enforcement action, would be more suitable and less cumbersome than one based on the County's overloaded enforcement staff or left to lengthy and awkward community court actions. The eviction conditions and process should be simple and clearly spelled out as part of the plan.

Regarding the structures used for rental, PBC has designed units with efficiency and manageability in mind. The result, while attractive as rental units, *look* like rental units, providing a visual discriminant that is undesirable for both the neighborhood and the tenants.

The proposal would be enhanced by configuring the rental units in structures which are sized and styled more like the houses presently in the surrounding neighborhoods, i.e., structures with varied orientations and architectural elevations of about 3000-3500 sq. ft. This could be achieved, for example, with triplex units of 1000-1300 sq. ft. each, about the same size as those in the proposal. This architecture would reduce the obvious visual discriminant of how "different" the new enclave would be, alleviating at least some of the downward pressure on neighborhood property values. It would also reduce any potential sense of community isolation from that "difference" felt by the tenants and add to their incentive for maintenance of the visual curb appeal of the neighborhood.

While still a clustered development, this arrangement would necessarily occupy a little more of the available 6+ acres of Area D than the existing proposal, but an ample buffer around the complex would remain available for tree replacement, walking paths, landscaping, etc. It would still impact the forested nature of the area less than that which would occur with the construction of single family homes on ¼ acre lots like the immediate Del Monte Forest neighborhood.

By addressing both tenant behavioral issues and visible architectural discriminant issues, as described above, the worst of the impacts would be reduced. Construction of inclusionary housing is a worthwhile mandate for the DMF Plan and I have no doubt that PBC will build a high quality facility no matter the configuration. But protection of neighborhood integrity should be held in some substantial regard while in the pursuit of low cost housing objectives.

Bcc: Debra Huntsinger djhuntsinger@comcast.net, Jim Hemphill jhemphil@apr.com, Jim Huntsinger jehuntsinger@gmail.com

Dear Supervisors,

On June 8th, The Monterey County Planning Commission was swayed into approving an affordable housing project proposed to be located in a forest very close to residences in Pacific Grove and relatively close to streets and residences in Pebble Beach. The location, known as Area D, is adjacent to Congress Road. The proposal was approved primarily based on the merits for affordable housing without much regard for the (poor) choice of the location. Affordable housing is a very hot topic these days, one which we all support.

At the meeting there was a great amount of opposition to the project from affected residents of Pacific Grove and affected residents of Pebble Beach. All the opponents of this project support affordable housing although the siting must be appropriate. Virtually all the supporters of the project were NOT nearby residents but were there to support affordable housing. It was apparent that the applicant, The Pebble Beach Company, had gathered support for this project based on the affordable housing aspect, not on the location.

There are far better locations that will not have the tremendous opposition that Area D has. It seems to me that the \$7,000,000 that The Pebble Beach Company Plans to spend on this project would be much better used if applied to an affordable housing project where they do not have to tear up such a large amount of forest . Most likely, a location outside of Pebble Beach, but still located in or near Monterey would end up being more acceptable and have much greater, positive community impact. The theory espoused by the applicant, The Pebble Beach Company, is that their employees would be able to walk to their jobs or at least have a shorter commute than they currently have. A suitable site near Monterey would satisfy that concern. If that is not possible, there are sites that the EIR identified in Pebble Beach that are more acceptable than Area D.

We sincerely hope that you can separate the affordable housing aspect from the location aspect and reject this proposal as it currently stands. We support affordable housing but oppose this location.

Thanks you for your consideration. We look forward to attending the Supervisor meeting that will address our appeal to you. We also hope that we have adequate time to speak about our concerns at the meeting (the Planning Commission was a bit rude to speakers at their session, first allowing 3 minutes per speaker, then reducing the time to 2 minutes, then to 1 minute, and then not allowing anyone else to speak). This area is extremely important to many nearby residents and we hope to be able to properly voice our concerns to you.

Re: Pebble Beach Company's Inclusionary Housing Development (PLN130447)

Dear Members of the Board of Supervisors:

The City Council and residents of Pacific Grove are not opposed to inclusionary housing developments. However, the Pacific Grove City Council has concerns regarding the Pebble Beach Company's proposed Inclusionary Housing Development PLN130447 at its proposed location within a forest abutting the community.

For your consideration, we offer the following concerns and suggested modifications:

- Our citizens emphatically state they do not want development in this location. They feel that two other environmentally superior locations are offered within the Environmental Impact Report.
- Avoid the destruction of a forest and resulting negative impact on a low density single-family neighborhood within the City of Pacific Grove by considering alternatives.
- Insist upon a more compelling discussion of specific reasons of how the destruction of 700 trees and the impact to our Del Monte neighborhood is a better choice both environmentally and fiscally than alternate locations.
- If site relocation is not possible, consider abandonment of the current suburban-style monolithic "apartment complex" design, and replace it with a series of one and two story cottages arranged around central courtyards. This type of design has been successfully executed in other California locations, and provides a much more humane environment for the residents who live there. This type of smaller-scale approach would also alleviate the need for mass grading and removal of 700 trees and would fit better within our Del Monte neighborhood, which abuts the proposed project site.

Gail T. Borkowski
Clerk of the Board of Supervisors
Page 2

- If site relocation is not possible, insist upon adequate parking and traffic mitigation measures that addresses Pacific Grove's Del Monte neighborhood that will be impacted by this project.

Thank you for this opportunity to provide feedback. Our comments do not oppose the project, rather the inadequacy of analysis and mitigations contained within the environmental impact report. As Monterey County continues to urbanize, we want to remain vigilant in protecting those small remaining places that make this area so special.

Sincerely,

Bill Kampe
Mayor
City of Pacific Grove

Subject: Pebble Beach "afordable" housing project

Recent newspaper reports indicate there is re-newed discussion about Pebble Beach plans to build employee housing on a beautiful section of Del Monte Forest. May I suggest an alternate location. At the corner of Forest Lake Rd. and 17 Mile Drive, opposite the Peter Hay golf course and the new Golf Academy, there is a huge, denuded parcel of land where once there grew many trees. This land is now designated as "Caddy Parking." It is also home to tent cities when the AT&T is here. What more perfect location could there be for this housing project. There are no more trees to cut down, no walking/hiking space to disturb. Surely a parking area could be constructed on the

ground floor with many, many apartments above. There would be many advantages: Employees could walk to work thus cutting down on the growing PB traffic problems, Attractive buildings would surely be an improvement over the current barren, wasteland parking. Facilities for the temporary pleasure tents put up there for various events could easily be accommodated inside the new structures.

And for a further suggestion, should there be concern for Spanish Bay employees, why not build additional housing units where the unused Spanish Bay tennis courts are located? Easy walk for employees, again less forest traffic. If thought really necessary, tennis courts could be placed on top of the new structures. Many places I know of have tennis courts located on top of buildings, they seem to work very well.

And just think - 700 beautiful trees left to help retain our forest; many Pacific Grove people much happier and an eye sore parking lot transformed into a thing of beauty!

Respectfully submitted,

Phillips Wylly

Re: **PLN 130447, SCH # 2014081052 - Pebble Beach Company Inclusionary Housing Project**
Final Environmental Impact Report

Dear Supervisors,

The mission of the Alliance of Monterey Area Preservationists (AMAP) is "to educate the community about the value of recognizing, preserving, securing, and displaying the Monterey area's historic assets for public benefit; to support activities which interpret and share the Monterey area's rich cultural heritage..." The California Office of Historic Preservation has encouraged and emphasized the importance of the preservation of Cultural Landscapes. The County of Monterey is required under the California Environmental Quality Act to identify significant environmental effects, including the loss of Cultural Landscapes, and to avoid them where feasible. AMAP considers Area D, the location chosen by Pebble Beach Co. for their inclusionary housing project, is qualified as a Cultural Landscape because it has been actively used and enjoyed by its neighbors as a natural wildlife recreational area for many generations. Our concern for the Area D Forest is its heritage value to the surrounding communities of Pebble beach and Pacific Grove.

Attached are comments from the neighbors of Area D as an example of why AMAP considers this small portion of the Del Monte Forest as an important Cultural Landscape. In their letter of August 22, 2014 opposing the building of this project in Area D, the Mayor and City Council of Pacific Grove stated, "This forested area is part of the Pacific Grove heritage and beloved by generations... Nearby P.G. residents feel the character of the Del Monte Park neighborhood would be radically changed (by the project)."

AMAP strongly encourages the Pebble Beach Company and the County of Monterey to choose one of the alternative locations for this housing project. Already de-forested land exists in the Pebble Beach Corporation Yard and the Spanish Bay Parking Lot where neighboring residents will not lose the peaceful harmony with nature and wildlife that Area D provides. The Alternative location at 17 Mile and Sunset Drive is in need of re-development and closer to shopping, schools and public transportation. The FEIR identified the Collins Residential Area as the environmentally superior alternative location. Why choose to de-forest Area D which is so beloved and used by its neighbors?

AMAP asks you to recognize that Area D has been functioning as an historic community and cultural asset over many decades now. For its neighbors, preserving it is both a heritage and a quality of life issue. We believe the surrounding community's heartfelt desire to keep this forest safe from harm is grounded in their family and community histories and in the culture the forest has helped to foster.

From the testimony and letters from Pebble Beach and Pacific Grove neighbors of Area D, it is clear that this small area of the Del Monte Forest has been depended upon to provide identity as a neighborhood, education for children, and recreation through peaceful harmony with nature. AMAP strongly encourages the Pebble Beach Company to choose an alternative location for their housing project and add Area D to the acres of Open Space that they so graciously maintain in the Del Monte Forest.

Thank you for recognizing the long historic use of Area D as a cultural landscape resource.
Sincerely,

Nancy Runyon, President

The following sentiments from neighbors to the Del Monte Forest Area D are quite typical of how it has come to be regarded:

"I'm a 40 year resident of Pacific Grove. Our forest is at the end of the street. I raised my children in this neighborhood and we always went down to the forest. Then when my children grew up and came to visit with my grandchildren, first thing in the morning while their parents slept, I would sneak in to get my grandchildren and take them down to the forest where their eyes lit up in awe. The continuing value of this forest to our area is beyond description." **Lynn Mason**

"The Monterey Peninsula has been my home since 1942. I've lived in this neighborhood since 1975. I raised my kids here and they played all the time in this forest. I always knew they were safe going in there. When my children would come home from college they would take their friends into this forest and show them their hometown in this way. When my grandchildren, 5 of them, have come to visit me they've always spent time in the forest." **Cam Schure**

"Growing up near Area D, the forest was for my discovery. A place to see wildlife in action. Once, I saw a red tail hawk dive down and catch its prey with its sharp talons. What a sight! I would search for frogs in the night. I would hear the birds sing and animals rustle in the bushes..." **David Lemon**

"My wife's family has been here for 3 generations. This forest is absolutely one of our primary assets in this area. There are only three places in the world where this rare Monterey Pine habitat exists, and we have always been in amongst this nature. It's a wildlife corridor here right next to our homes - so nature can survive. This forest has been an important part of our lives." **Peter Mathews**

"As a member of the Select State Senate Environmental Committee ...as a 30 year resident of this neighborhood I've witnessed the Pebble Beach Company for their treatment of the environment - their stripping of pristine forest. There used to be a lovely stream down here where we used to hear frogs... no more. My kids are among many kids in this neighborhood who have grown up with the woods and have demonstrated the value of growing up by the woods. We want to keep future generations growing up with this paradise right next door." **Craig Coffin**

"We bought our home new in 1984, because we were told by the Pebble Beach Company that this forest would never be developed. I was new to the area and young so I never got anything in writing." **George Mckchenie**

"I'm a 3rd generation resident of Pebble Beach and one of the things that my family and I have always loved about the area and felt fortunate to live here is because of the nature and because of the forest. We owe an incredible debt of gratitude to Samuel F.B. Morse because he had a vision of having a community located in a forest with wildlife that respected nature ... lots of forest space was left between lots... I've always enjoyed that these wildlife corridors like this, which were part of the original planning, connect vast networks of Pebble Beach greenbelts... permeating the community so we can enjoy nature and it can survive here." **Thaleia Widenmann**

"We're really concerned about the quality of life after all these years and this is what we expected to be seeing in all of our days... these trees... in our retirement. This is what we were all told when we bought our houses here." **James McClure**

"This beautiful forest has been a bounty for us over the years. We consider it to have been an important amenity." **Kathleen Davis**

"I spend a lot of time right here in these woods and there are a number of beautiful animals that live here. One of my favorites is a family of red shouldered hawks. I keep a reservoir of water in my backyard. Deer come out from the forest daily to drink from it..." **John Honeywell**

"We love the trees in this area and that was the factor that made us buy our home. I always bicycle down to the ocean through this forest. After reading about SFB Morse... he would not be happy with what has already been done to the Del Monte Forest." **Michelle Raine**

"My family used to walk here in the 1980's. This was never touched by any sort of road or anything like that ... such a beautiful forest that we always thought would remain..." **Carol McCarthy**

"This development was already approved at another location with the destruction of about 7000 trees for it. That was supposed to be Pebble Beach's final build-out. After it was already approved they moved it here where they will be killing hundreds more trees ... it's just not necessary to take away our local forest as well." **Cosmo Bua**

"We were attracted to the neighborhood because we thought it would be forest and trails. That's how we met our neighbors, bumping into them on the trails." **Margaret Butterfield**

RE: **PLN130447**/OFG petition packets:

Dear Ms. Borkowski,

This letter of inquiry is on behalf of the Old Forest Group. Last year, we hand-delivered packets containing more than 1,000 signed petitions in support of saving the forest, in Area D. These packets of petitions were to be delivered, to each Board of Supervisor and Planning Commission member. Consequently, (prior to the June 8th 2016 Planning Commission meeting), Joe Sidor acknowledged receipt of those packets.

Therefore, I am likewise inquiring to confirm that each member of the Board did receive their packet. These petitions are to be used as evidence before the upcoming Board meeting, August 23rd. We want to make certain that they have been filed prior to the time of the hearing, and/or will be presented to the Board, at the time of the hearing.

We very much appreciate your assistance with this inquiry.

Sincerely,

[Deborah Kenwood/dk9@sbcglobal.net](mailto:Deborah.Kenwood/dk9@sbcglobal.net)

Deborah Kenwood

c.c. Old Forest Group

November 6th, 2015

Dear Representative:

You are receiving the enclosed petition from the Old Forest Group, a local organization primarily composed of Pacific Grove and Pebble Beach residents. The twelve hundred and eighteen signatories to our petition are asking that you help save a beloved old growth forest, which is currently functioning as an essential wildlife corridor as well as a buffer between our two built-out communities.

You can read the text of our petition on the next facing page.

The pending destruction of this forest, Area D, proposed by the Pebble Beach Company for the purpose of building housing is completely unnecessary. This developer owns numerous suitable, already-deforested properties which could be utilized for this project. Further, in California's current environmental context of losing millions of trees annually to drought and fires, the idea of destroying an old growth forest comprised of endangered coast live oaks and Monterey pines, which is providing valuable habitat to a large number of wildlife species, is completely unacceptable.

Whether or not you are in decision making authority in relation to the heartbreaking destruction so cavalierly planned for this project, please heed these hundreds of voices asking for your help in stopping it.

Sincerely,
The Old Forest Group
oldforestgroup@gmail.com
oldforestgroup.org

change.org

Recipient: Monterey County Board of Supervisors, Monterey County Planning Commission,
Pebble Beach Company, and State Rep. Mark Stone

Letter: Greetings,

SAVE BELOVED OLD GROWTH FOREST - Reject plans for development of Area
D by Pebble Beach Company.

SAVE BELOVED OLD GROWTH FOREST - Reject plans for development of Area D by Pebble Beach Company.

There is a gorgeous old growth forest in Pebble Beach, which is a refuge of open space, wildlife, and tranquility, enjoyed by hundreds of neighbors for generations. Pebble Beach Company has a plan to develop in this old growth forest of 9.19 acres, also known as Area D for inclusionary housing, even though they had previously promised it would remain a preservation area! Development will destroy this forest which has valuable botanical species such as rare native Monterey Pine trees, coast live oak and wildlife habitat for birds, foxes, raccoons, gray squirrel, and frogs! It's estimated that the destruction of this forest would kill well over 700 coastal live oaks and mature Monterey Pines. It is also an important wildlife corridor for deer and transitory species. And it's a natural forest canopy for many migratory and cavity nesting birds.

Background:

Native groves of Monterey pine trees occur naturally in only five places in the world: three populations in Central California and on two small Mexican Islands. Ecologists have surmised that the extent of Monterey Pine Forest in the three native populations along California's coast was approximately 23,900 acres at the time of first European contact. Today only approximately 60 percent of that acreage remains and only 10,173 acres are undeveloped native forest in a natural setting. Protected Monterey Pine Forest acreage is an even smaller 4,793 acres. (Bates, Dalessio, Nedeff and Stevens. The Monterey Pine Forest. Pine Nut Press, 2012)

Development will create more fragmentation of the Del Monte Forest!

Deforestation will threaten the native grove of rare Monterey Pines!

Deforestation will destroy habitat and displace all its wildlife.

Development will disrupt the natural watershed and aquifer absorption.

Development will increase traffic hazards to wildlife, increase noise & light pollution, and increase particulate matter along S.F.B. Morse Drive.

The nearby cities of Pacific Grove and Monterey have both opposed destroying this forest, pointing out that there are other suitable locations to build housing nearby. It is completely unnecessary to destroy this forest for high-density housing that can easily be better and more safely situated on sites already deforested by the same developer, the Pebble Beach Co.

This old growth forest must be preserved! I urge the Monterey County Board of Supervisors to reject plans of the Pebble Beach Company to develop Area D. There are alternate, already deforested areas with water rights, access to public transportation and close proximity to schools that can be used for this development. Areas of consideration can be the corner of 17 Mile Drive & Sunset Drive and the employee parking lot on 17-Mile Drive, directly across from the Inn at Spanish Bay.
