6	2018.16	6/26/2018	Alejo	County Counsel/Auditor-Controller	Girard/Shah	8/28/2018	Update County Travel Policy by County Counsel in coordination with the Auditor-Controller's Office.	<p>Monterey County's travel policy managed by the Auditor-Controller has not been updated in many years and today, it does not compare with current market prices or organizational procedures and may exceed legal requirements. The current policy creates barriers for county staff to be able to effectively represent county business at conferences, trainings or in litigation. This policy also conflicts with another travel policy found in the Personnel Policies and Practices Resolution (PPPR). This referral seeks to update the policies to account for inconsistencies, business needs, efficiency, market prices, whether government rates are available or whether the discounted lodging rooms were secured by conference organizers, such as the California State Association of Counties. This lack in clarity in the existing policy is costing unnecessary staff time and an update would modernize our policy with current standards. The new policy should meet Federal and State law while supporting business efficiency.</p> <p>A revised policy was presented to the Board on November 6, 2018. An updated memo was submitted to the Board. A revised policy will be presented to the Board in May 2021.</p>	Pending

Meanwhile, RMA has coordinated with City staff on their Lincoln Avenue Corridor Master Plan efforts that includes an option for potential reuse of the old jail site. Due to the pandemic the Legislature did not entertain specific budget requests, such as that for the Old Jail. This item is now on hold until the State Budget situation improves	Postponed

12	2020.01	12/14/2019	Alejo	CAO	Woods	7/7/2020	Formula-E Racing at Laguna Seca Raceway	To research and initiate efforts to attract the first Formula-E racing event to the WeatherTech Laguna Seca Raceway, the only event of its kind on the West Coast. The latest innovation in auto racing is electric-battery operated racing vehicles. Formula-E racing is the world's first electric street racing series that was inaugurated in 2014 and is sanctioned by FIA or the Federacion Internationale de l'Automobile headquartered in Paris. Like Formula 1, Formula-E is a racing championship with single-seater, open cockpit vehicles, and can reach 62 mph in 2.8 seconds, similar as their gas-powered counterpart. But their maximum speed is about 174 mph as compared to the Formula 1 cars at 230 mph. Formula-E currently takes place in New York City, Mexico City, Berlin, Seoul, Jakarta, Rome, Santiago, Diriyah, Marrakesh, Sanya, Paris and London. Long Beach was the only prior site on the west coast to hold races in the 2014-15 and 2015-16 racing seasons. With our close proximity to the Silicon Valley and the San Francisco Bay area, Laguna Seca Raceway is ideally located to hold such a global event and attract potential sponsors from the tech and electric-vehicle industry. It could also attract a new generation of fans from the tech sector. E-racing is the future of auto racing in the world and it also promotes cleaner and quieter vehicles/events. An event at Laguna Seca could also showcase the latest manufacturing of electric and hybrid racing and conventional vehicles from California and throughout the world. With the recent development of Stay in Place Order nationwide/worldwide the sport of racing had come to a sudden halt and interest in expansion of most racing series at new circuits was not an industry priority. Until racing, including e-formula resumes established circuit activities expansion is not a priority focus as priority focus will be on reestablishing the sport. Once racing has achieved a successful restart staff will begin exploration of new racing events, including but not limited to e-formula, timeline would be to initiate discussions in early 2021 with a potential deal in 2023. Staff anticipates providing a memorandum to the Board in the near future.	Pending

The referral further requests a robust plan to communicate weekly status towards these six indicators via a digital dashboard that includes, at a minimum, the County staff/departments who are leading action on each indicator, outside agencies who share responsibility, metrics to measure our progress towards goals, and barriers and/or resources needed to make progress. The referral requests that the Board of Supervisors advocate at the Federal Communications Commission (FCC) so that broadband internet access is regulated once again as a utility that is necessary for all Californians' daily lives, and support legislation to reform existing state programs to expand internet access, generate needed revenue and make it easier for local governments to obtain funding to move local projects forward more expeditiously. The referral also requests that Monterey County formally request and sponsor legislation for a universal broadband bond to be placed on the 2022 election ballot to generate the billions needed to address the digital divide in California once and for all. A county-wide community survey is also requested as soon as possible to engage local residents on their needs and concerns regarding the digital divide, online student distance learning, and access to affordable internet service. This referral seeks to create a consistent, apolitical, financial analysis of proposed changes and should consider all potential costs and fiscal impacts to the County and its economy.
