Title

Approve and authorize the Purchasing Manager for Natividad Medical Center (NMC) to execute an Agreement with Intelligent Medical Objects, Inc. (IMO) for Software Subscription, Software Implementation, Migration and Software Maintenance Services at NMC in an amount not to exceed \$109,800 for the period January 28, 2014 to January 6, 2017.

Report

RECOMMENDATION:

It is recommended the Board of Supervisors approve and authorize the Purchasing Manager for Natividad Medical Center (NMC) to execute an Agreement with Intelligent Medical Objects, Inc. (IMO) for Software Subscription, Software Implementation, Migration and Software Maintenance Services at NMC in an amount not to exceed \$109,800 for the period January 28, 2014 to January 6, 2017.

SUMMARY/DISCUSSION:

Intelligent Medical Object's (IMO)'s Clinical Interface Terminology is a software suite of vocabulary products that provide electronic mapping and standard nomenclature to help NMC manage the complexities of searching and obtaining the myriad of codes from most code standards. Using

standard nomenclature is necessary to effectively build reports and meet the requirements of Meaningful Use Stage 2 by October 2014, as dictated by Centers of Medicare and Medicaid Services (CMS) and the Health Information and Technology for Economic Health Act (HITECH; See attachment *Explanation of Meaningful Use*). Using electronic mapping and standard nomenclature is also critical for revenue recoupment with the required implementation of International Statistical Classification of Diseases and Related Health Problems (ICD-10) in October 2014.

MEDITECH, NMC's Electronic Health Record, has collaborated with IMO to incorporate IMO's mapping software into NMC's new Client/Server version 5.66 upgrade. MEDITECH subsequently has required all Client/Server facilities, including NMC, to purchase IMO. MEDITECH is not accommodating other mapping and standard nomenclature vendors and IMO is the required vendor pursuant to MEDITECH's contracts and rules.

IMO provides mapping dictionaries that allow for user-friendly vocabularies that contain user-specific and familiar words and phrases, enabling clinicians and information management professionals to find and record the terms they need quickly and easily. IMO then crosslinks to required standardized vocabularies such as Systematized Nomenclature of Medicine (SNOMED) and ICD-9 and 10 codes that help to connect to the patient record, administrative information, academic references, and consumer information. IMO then allows for appropriate electronic mapping for decision support, billing and information for providers and patients.

The project is proposed to begin in January 2014. There will be significant MEDITECH software dictionary clean-up and mapping in all MEDITECH modules to be completed during a 6 month period from January 2014 - June 2014. The Go Live date is targeted for July 1, 2014. Year One, IMO software and implementation fees are approximately \$46,600 which includes the initial implementation and subscription fees. There will subsequently be subscription and maintenance fees annually for the term of the agreement in the amount of \$31,600. Subject Matter Expert (SME) support for dictionary clean up and mapping will be resourced by Beacon Partners. Please see Beacon Partners Amendment No. 7, Agreement A-11879 passed and adopted October 1, 2013. SME support is estimated at \$163,200 for the period between January and June 2014.

Business Automobile Insurance Exemption

Business Automobile Liability Insurance requirements are waived for this vendor under this Agreement. There is no risk or exposure regarding vehicles. The Contractor does not travel onto County property with vehicles.

OTHER AGENCY INVOLVEMENT:

County Counsel has reviewed and approved this Agreement as to legal form and risk provisions. Auditor-Controller has reviewed and approved this Agreement as to fiscal provisions. The Agreement has also been reviewed and approved by Natividad Medical Center's Board of Trustees.

FINANCING:

The cost for this Agreement is \$109,800 over three years. \$46,600 is included in the Fiscal Year 2013/2014 Adopted Budget. Amounts for remaining years of the Agreement will be included in those budgets as appropriate. There is no impact to the General Fund.

NMC's annual IMO subscription fee during the term of the Agreement is based on NMC's published Net Patient Revenue (NPR) volume as specified by the American Hospital Directory. If NMC's NPR patient volume changes more than 5% annually, IMO has the right to adjust the annual subscription

fee on the anniversary of the Effective Date of the Agreement. This type of increase is limited to 5% or the percentage increase provided by the Medical Services Index of the Consumer Price Index, whichever is greater; IMO must provide 90 days prior written notice to NMC/County of Monterey for this type of increase. IMO additionally has the right to adjust the annual subscription fee if there is a change in the number of facilities that utilize IMO. If the subscription fee is adjusted NMC will return to the Board of Supervisors.

Explanation of Meaningful Use

The Centers for Medicare and Medicaid Services (CMS) have developed incentive programs to help hospitals and physicians establish and use electronic health records as dictated by the Health Information Technology for Economic and Clinical Health Act (HITECH Act). To receive these incentive payments, hospitals and physicians (providers) have to show that they are “meaningfully using” the technology by meeting goals for a number of specific performance measures. The Meaningful Use incentive programs are offered to hospitals and providers who participate in either the Medicare or Medicaid (Medi-Cal) program, and in Natividad Medical Center’s (NMC) case both.

Thus far CMS has set up the incentives in three different stages. Each one is more advanced than the other in the required technology and how it is used in patient care:

- The first stage helps providers develop basic methods for capturing and sharing patient care information
- The second stage helps providers use the patient care data to better communicate patient care information with other providers
- The third stage helps providers use this information to actually show improvements in the care of patients.

These stages are being phased in over a multiyear schedule, giving hospitals and doctors two or three years in each stage before moving to the next level. CMS is now working with hospitals and providers to help them receive the most benefit from these government incentives. NMC began its Medicare reporting in federal fiscal year 2013, the last year possible to report without incurring CMS penalties rather than incentive payments. NMC has thus far attested for Medicare Stage 1 in September 2013. NMC’s future timeline for meaningful use reporting is Medicare Stage 1 Year 2 reporting July 1- Sept 30, 2014 and Medicare Stage 2 reporting October 1, 2014- September 30, 2015. See the attached spreadsheet for current and future reporting periods. Medicaid (Medi-Cal) reporting is on a slightly different timeline and is dependent upon Medicare reporting and attestation.

IMO LICENSE AGREEMENT

THIS LICENSE AGREEMENT ("Agreement") is made and entered into this 28th day of JANUARY, 2014, by and between County of Monterey, a political subdivision of the State of California, on behalf of Natividad Medical Center, an acute care hospital located at 1441 Constitution Blvd. Salinas, CA. 93906 (NMC) ("*Client*"), and Intelligent Medical Objects, Inc. having an address of 60 Revere Drive, Suite 360, Northbrook, IL 60062 ("IMO").

BACKGROUND

IMO has developed enhancement products known as IMO® Problem **IT1**®, IMO® Procedure **IT1**®, IMO® Allergen **IT1**®, and IMO® Nomenclature **IT1**® which incorporate linkages to and data from the National Library of Medicine's MeSH database, UMLS, CPT®, and SNOMED® CT. *Client* and IMO (collectively the "Parties" or individually "Party") desire to enter into a non-exclusive relationship whereby *Client* will license IMO's intellectual property, described in Schedule I, to use as an integral part of *Client's* Medical Information Technology, Inc. Electronic Medical Record system ("Meditech") on end-users' computer systems and make available the Service to End-Users.

In consideration of the foregoing, the mutual covenants contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereto, intending to be legally bound hereby, agree as follows:

1. DEFINITIONS

Effective Date means the earliest date the IMO Content is made accessible to *Client* via either (i) IMO Appliance; (ii) Meditech's EMR solution; or (iii) branded portal link provided by IMO to *Client*.

End-User means any person authorized by *Client* to use the Service that is either a direct employee or directly affiliated with the *Client* and bound by *Client's* non-disclosure and confidentiality agreements.

IMO Appliance means the IMO® Appliance that is selected and paid for by *Client* in Schedule I of this Agreement.

IMO Content means the IMO® Problem **IT1**®, IMO® Procedure **IT1**®, IMO® Allergen **IT1**®, and IMO® Nomenclature **IT1**® terminologies (as defined in Section I(A)(1)(ii) of Schedule I of this Agreement) and all Content Updates and furthermore, any other IMO specific proprietary content that is necessary to effectuate the timely fulfillment of these contractual obligations.

IMO Software Image means the IMO® Software Image that consists of the necessary software for the delivery and access to IMO Content that is loaded on either (i) the IMO® Appliance; (ii) dedicated hardware comparable to the minimum requirements listed in Schedule III; or (iii) dedicated virtual environment comparable to the minimum requirements listed in Schedule III.

Service means the IMO Content on the (i) IMO Appliance; (ii) IMO Software Image; or (iii) IMO's cloud-based hosting environment that is accessed by End-Users either (i) directly through a web-based portal; or (ii) through the Meditech EMR solution.

Term means the Term of this Agreement.

2. TERM AND TERMINATION

- A. The Term of this Agreement shall commence on the Effective Date and shall continue for three (3) years, with the option to extend the agreement(s) by mutual agreement of the Parties in writing. An electronic notice will be sent to the *Client's* Primary and Billing Contact one-hundred and twenty (120) days prior to the end of the then current licensing year.

- B. Either party may terminate this Agreement by written notice to the other if the other party: (i) breaches this Agreement; and (ii) fails to cure such breach within thirty (30) days after written notification of such breach. Upon termination of this Agreement for any reason, *Client* shall, within ten (10) business days, return to IMO, delete, or destroy all documents, software and other materials or deliverables, excluding hardware component of the IMO Appliance, received from IMO or containing any of IMO's products or trade secrets, in whole or in part (and all copies thereof) and pay all outstanding fees owed under this Agreement. If *Client* has purchased an IMO Appliance, *Client* agrees to completely wipe clean the IMO Appliance upon termination of this Agreement. If so requested by IMO, *Client* shall deliver to IMO a certificate executed by one of its duly authorized officers confirming compliance with the return or destruction obligations set forth herein.
- C. During the Term of this Agreement, either party may terminate the Agreement for any reason by giving at least thirty (30) days written notice of termination to the other party. If this Agreement is terminated under this section, *Client* shall not be entitled to a refund of any fees it paid to IMO.

3. LICENSE GRANT

IMO grants to *Client* a non-exclusive, non-transferable license to use the Service worldwide, except as specifically noted on Schedule I, during the Term, provided that *Client* assumes all responsibility to assure that the use of the Service is appropriate for the applicable Meditech systems. This license shall include the right to: (i) use the Service by End-Users solely as permitted by this Agreement; (ii) use the Service for internal purposes in a non-clinical setting for backup, archival, support, testing, training and demonstration purposes; (iii) install and configure the Service for use by End-Users; and (iv) demonstrate the Service to End-Users.

The Service is for use by *Client* and End-Users only as allowed by this Agreement. *Client* shall not, other than as specifically allowed by this Agreement, cause or permit others to copy, distribute, publish, license or otherwise transfer or commercially exploit the Service, in whole or part. *Client* shall not prepare derivative works or incorporate the Service, in whole or part, in any other system or work or reverse engineer, translate, or modify the Service, in whole or part, other than as is specifically allowed by this Agreement.

4. OWNERSHIP AND USE

IMO owns exclusive title to all its products, including the IMO Content and IMO Software Image and of all of its sub-parts and components, and all updates, modifications, alterations, customizations, derivative works, revisions or enhancements thereof, and all software, source code, and proprietary research, equations, screens, techniques, methodology, analysis, programming or know-how thereof. If *Client* requests that terms be added to the IMO Content and IMO approves such additions for inclusion in the Service, such additions will be part of the derivative work and shall be owned by IMO with all rights assigned by *Client* to IMO. *Client* will not be charged for regular inclusion of term requests. *Client* will have a perpetual, non-exclusive license to use these additional terms without additional IMO content.

5. CLIENT RESPONSIBILITIES

Subject to the terms and conditions of this Agreement, *Client* shall:

- A. Support the Service and any necessary training for End-Users during the Term of this Agreement, subject to IMO's obligations as set forth herein.
- B. Comply with the reporting and payment requirements set forth in Schedules I and II.
- C. Acknowledge that access to the Service is dependent upon *Client's* concurrent active licensure of the Meditech EMR and any other software necessary to run the Service.
- D. *Client* agrees to the provisions identified in Schedule IV for the use of CPT® within the IMO® Procedure (IT)® product.
- E. Establish the appropriate firewalls and security systems, including antivirus software, so the Service is accessed only by defined End-Users and is not used in an unauthorized manner. IMO strongly recommends and

approves that *Client* installs commercial antivirus software onto either (i) the IMO Software Image; or (ii) the IMO Appliance.

F. If applicable, identify IMO as the source and copyright holder of the Service. Further, *Client* agrees not to obscure IMO copyright notices in any instance.

G. Use the IMO® Appliance for all access to the Service by the Meditech EMR solution during the initial implementation and testing until *Client* is live in a production environment and has been approved by IMO, at which point *Client* may choose to either (i) continue use of the IMO® Appliance or (ii) use other dedicated hardware or a dedicated virtual environment comparable to the minimum requirements listed in Schedule III.

H. Provide IMO with the ability to connect for the purposes of remote support to either (i) the IMO® Appliance; or if *Client* elects to host the Service pursuant to Section 5(G), (ii) the IMO Software Image loaded onto *Client's* dedicated hardware or dedicated virtual environment comparable to the minimum requirements listed in Schedule III.

I. Provide IMO the ability to retrieve from *Client's* environment any activity log files natively generated by a locally hosted IMO Software Image or IMO Appliance for support, troubleshooting and potential usability improvements.

J. Not install any software not approved by IMO, except for commercial anti-virus software, onto either (i) the *Client* environment that contains the IMO Software Image; or (ii) the IMO Appliance.

K. Have the option to self-report its Net Patient Revenue ("NPR") to IMO in lieu of IMO relying on *Client's* published NPR volume as specified by the American Hospital Directory. Should *Client* elect to self-report, *Client* shall, on an annual basis, provide IMO with *Client's* published NPR volume as contained in the *Client's* audited financial statement and any updates to the appropriate information requested by Schedule I of this Agreement. If the *Client's* reported NPR varies by more than ten percent (10%) with *Client's* published NPR volume as specified by the American Hospital Directory (<http://ahd.com>), *Client* shall provide IMO with documentation that supports the reported NPR. In the event that *Client* cannot substantiate its reported NPR, IMO may use the greater of the two NPR's in determining *Client's* annual license fees.

6. IMO RESPONSIBILITIES

Subject to the terms and conditions of this Agreement, IMO shall:

A. Provide *Client* with access to the Service within five (5) business days, excluding major U.S. holidays, of full execution of this Agreement by both Parties.

B. Provide IMO Content updates, enhancements, material data updates and new versions ("Content Updates") to *Client* in accordance with IMO's published release schedule http://www.e-imo.com/release_schedule.aspx. In addition, IMO will provide *Client* with any updates, enhancements and new versions to the IMO Software Image ("Software Updates") as they become generally available. This Section 6(B) encompasses all IMO deliverables furnished to *Client* during the Term of this Agreement.

C. Comply with all applicable local, state, and United States laws and regulations.

D. Compile the Service in a professional and workman like manner.
