PROGRAM COSTS:

\$2000.00-Outreach in the form of targeted mailers, clinics and partner agency outreach events and opportunities will be utilized to assure that low income households are aware of the availability of the water assistance. The subcontracting agency will coordinate with water companies to refer all customers receiving a second notice on their water bill. Information on the availability of water bill assistance and water conservation education will be included with outreach and educational material provided to eligible low-income households served by both the HEAP and weatherization programs.

\$3000.00-Subcontractor will provide application intake and payment processing services for water assistance bill payments to eligible individuals and families in Monterey County. Payments will be made directly to the water companies.

\$1000.00- Education Subcontractor has extensive experience and current systems in place for conducting community outreach for energy conservation. Water conservation education and bill assistance is being folded into these existing, countywide outreach and intake activities. Subcontractor has added water audits as part of their home inspections currently in place for other energy programs. Faucet aerators, low flow showerheads and optional low flow toilet replacement are part of the existing energy efficiency services provided by the subcontractor.

\$76,800.00 - Water Assistance Payments- The water bill assistance program is being integrated into the current delivery system for gas and electric payment assistance. The process for eligibility determination, benefit application and reporting for water bill assistance mirrors that required for HEAP payment assistance. Using this channel for service delivery allows Monterey County Community Action Partnership to continue this efficient functional program which leverages existing resources and provides the greatest amount of direct benefit to those low-income individuals and families impacted by the drought. The program has been allocated an additional \$22, 800 to provide direct water payment assistance. This is an augmentation to the initial \$60,000.

Goal 6: Low-income people, especially vulnerable populations, achieve their potential by strengthening family and other supportive environments.

Supplemental to NPI 6.2: Emergency Assistance for Drought Water Assistance Program

Program Activities and Delivery Strategies: (If additional space is needed, please attach a separate sheet.)
 Through the Central Coast Energy Services (CCES) agency, the Monterey County Community Action Partnership will provide outreach to inform impacted individuals and families about the Drought Water Assistance Program. CCES will conduct intake and eligibility screening of participants in coordination with local water utilities to facilitate water bill payment assistance. Services will include cash benefits for water utility expenses and education on water conservation practices to increase a household's water usage efficiency and minimize waste. These services will be provided to all CSBG Federal Poverty level eligible Monterey County residents.
