SUMMARY/DISCUSSION:

The Action Council provides a free home-visitation program that provides support and guidance to expecting parents and parents with children ages 0 to 5. In addition, the Action Council provides connections to community resources and screenings to assess the child's overall developmental as well as health, hearing and vision. South Monterey County is in need of early childhood development programs and services to individuals who may not have access to care because of their socioeconomic status. South Monterey County has suitable clinic space and equipment for provision of these services and is able to allow Action Council to utilize such facilities for the benefit of the local community.

The term of this Agreement is retroactive to January 1, 2016, to accommodate the Action Council's program with an in-door facility during the rainy season since the program was operating outdoors.

This Agreement contains the County's standard 30-day "no cause" provision a "good cause" provision effective immediately (Section 4.03).

This work supports the Monterey County Health Department 2011-2015 strategic plan initiative: 1) Empower the community to improve health through programs, policies, and

activities. It also supports two of the ten essential public health services, specifically: 3) Inform, educate, and empower people about health issues, and 4) Mobilize community partnerships and action to identify and solve health problems.
