Bid/Proposal Attachment regarding the Darfur Contracting Act of 2008

Effective January 1, 2009, all Invitations for Bids (IFB) or Requests for Proposals (RFP) for goods or services must address the requirements of the Darfur Contracting Act of 2008 (Act). (Public Contract Code sections 10475, et seq.; Stats. 2008, Ch. 272). The Act was passed by the California Legislature and signed into law by the Governor to preclude State agencies generally from contracting with "scrutinized" companies that do business in the African nation of Sudan (of which the Darfur region is a part), for the reasons described in Public Contract Code section 10475.

A scrutinized company is a company doing business in Sudan as defined in Public Contract Code section 10476. Scrutinized companies are ineligible to, and cannot, bid on or submit a proposal for a contract with a State agency for goods or services. (Public Contract Code section 10477(a)).

Therefore, Public Contract Code section 10478 (a) requires a company that currently has (or within the previous three years has had) business activities or other operations outside of the United States to certify that it is not a "scrutinized" company when it submits a bid or proposal to a State agency. (See # 1 on the sample Attachment).

A scrutinized company may still, however, submit a bid or proposal for a contract with a State agency for goods or services if the company first obtains permission from the Department of General Services (DGS) according to the criteria set forth in Public Contract Code section 10477(b). (See # 2 on the sample Attachment).

The following sample Attachment may be included in an IFB or RFP to satisfy the Act's certification requirements of bidders and proposers.

Exhibit E - DARFUR CONTRACTING ACT

Pursuant to Public Contract Code section 10478, if a bidder or proposer currently or within the previous three years has had business activities or other operations outside of the United States, it must certify that it is not a "scrutinized" company as defined in Public Contract Code section 10476.

Therefore, to be eligible to submit a bid or proposal, please complete only one of the following three paragraphs (via initials for Paragraph # 1 or Paragraph # 2, or via initials and certification for Paragraph # 3): YOUR BID OR PROPOSAL WILL BE DISQUALIFIED UNLESS YOUR BID OR PROPOSAL INCLUDES THIS FORM WITH EITHER PARAGRAPH #1 OR #2 INITIALED OR PARAGRAPH #3 INITIALED AND CERTIFIED.

OR

6. Jurisdiction Table

List All Waterbodies That Are In Your Jurisdiction and Fill in the Chart for Each

Waterbody	Size (area)	Boating activities (fishing, watersports, paddlecraft, etc.)	How many hours/year is this waterbody patrolled by your agency. If seasonal, list active months	Do you share jurisdiction on this waterbody	If shared jurisdiction, list other agency(s)
NACIMIENTO LAKE	5000 surface acres	wakeboarding, fishing, slalom course, skiing, swimming,	1200	Yes	San Luis Obispo County Sheriff
SAN ANTONIO LAKE	5720 surface acres	wakeboarding, fishing, skiing, swimming	400	Yes	Monterey County Sheriff

7. **Clearly identify the top three safety issues in your jurisdiction and describe how the requested grant will address these issues.**

The top 3 safety issues at Lake Nacimiento and Lake San Antonio are:

1. **Boating Under the Influence:** With the new patrol vessel and it being more reliable, it will allow us to spend more time on the water being proactive and conducting more BUI Investigations and faster response so the offenders are at a lower risk of causing an accident.
2. **Invasive Species Control:** The new patrol boat will offer a more dependable vessel that we can spend more time on the water patrolling and conducting vessel stops. At all vessels stops compliance with invasive species screening policies and laws are verified protecting the fragile ecology of both Lake San Antonio and Lake Nacimiento. Currently there is not infestation of the mussels and we want to keep it clear for future generations.
3. **EMS Response:** Without a reliable vessel you may not be able to respond or have a delayed response to an accident or injury on the water. We have many prop-cuts, head injuries, and fatalities which makes it critical o have a dependable operating vessel. Rangers will utilize the new patrol vessel to transport victims to the marina where the ambulance or helicopter is waiting to transport the victim to the hospital.

- 10 a. Describe exactly what you are requesting and how this equipment will help mitigate the boating safety issues you identified in Question 7.**

We are requesting a 23-25 ft. aluminum patrol vessel, Boulton Sentinel XL, with an inboard Hamilton Jet propeller. A patrol vessel will allow us to more effectively patrol the two lakes that lie within our jurisdiction (Lake Nacimiento and Lake San Antonio). This will ultimately allow our officers to generate safety awareness through boater education. Additionally, it will allow us to effectively protect our resources through invasive species compliance checks, and create a safer recreational environment through BUI enforcement.

- 10 b. Describe any negative impacts to boating safety and/or boating enforcement if you do not get this grant.**

Monterey County Rangers are the primary agency responsible for performing law enforcement and emergency medical functions on both Lake San Antonio and Lake Nacimiento. Both lakes are popular recreation destinations that attract heavy usage and boating traffic throughout the spring and summer seasons. Located in a remote and rural area of the Central Coast, our role is of paramount importance, as emergency and law enforcement services from allied agencies have extended time in their response.

We are unable to rely on the Sheriff's Department aiding in routine patrols because of budget constraints. This makes us the primary public safety agency responsible for providing a safe recreational environment.

Effective public safety operations require reliable equipment. The current state of our aging patrol vessels can no longer ensure an immediate response to medical emergencies or other critical incidents. Mechanical issues frequently plague our fleet, and occasionally delay our response. In our line of business, minutes or even seconds can be the difference between life or death. We believe our patrons deserve the highest standard of service and level of care.

Proactivity in public safety is a crucial element to the prevention of accidents and injuries. It bears noting that we are the **sole law enforcement agency that performs routine marine enforcement patrols**. Nacimiento has been known as a "party lake" and we frequently make arrests for BUI's and enforce other local, county, and state ordinances. This includes invasive species prevention through vessel inspection compliance checks. Rangers are also the authority in vessel accident investigations.

Our officers make over 50 vessel stops on a typical weekend and issue several citations for various infractions/misdemeanors each week. We also utilize patrol vessels for marking our lakes with appropriate regulatory buoys, shallow water indicators, and removing hazards and debris.

- 10 c. Classify this request by choosing one of the following options and present a strong justification for the**

request.

Classify this request by choosing one of the following options.

- "Critical" (operations would cease without it)
- "Increased efficiency" (if it would save staff time, identify how much time)
- "Convenience" (it would make life a little easier)
- "Protection" of existing equipment (ex: shade structure, hoists to get the vessels out of the water, etc. to extend longevity)

Justification - include the percentage of time on the water this vessel will be used for boating safety activities and the percentage of time on the water it will be used for search and rescue activities. (max. 300 characters)

Vessel usage is 7 days per week, approximately 8-10 hours per day.

This vessel will be used approximately 80% of its time on the water for boating safety enforcement and education of boaters through enforcement stops. The other 20% would be classified as search and rescue/medical response. Without a dependable updated patrol vessel, it will cause downtime for repairs and maintenance that will reduce the amount of time that the officers are on the water and available to respond in a timely and prudent manner. Keeping the lake's clear of mussels is crucial and compliance checks out on the water are one of the most important aspects for the fight to keep the mussels out.

The vessels we have in our fleet need constant repair and are not reliable. We need one reliable vessel to get on the water when required for critical medicals and BUI enforcement as we strive to keep our waters safe and enjoyable for our patrons.

- 10 d. If you are not awarded your full request, would your agency be able to supplement the difference? Yes No

If yes, what percentage can you supplement?

- 10 e. **How and why did you select this particular vessel? Explain if this is a standard patrol boat or do you need something specialized for your waterbody to meet your agency's needs? List less expensive models considered and explain why they are not being requested. List other funding sources available to your agency that could be used to purchase or partially purchase this equipment.**

Vessel choice of an aluminum vessel is consistent with our previous choices since 2000. An aluminum hull is necessary to withstand the rigors associated with the high volume of vessel stops we conduct, and the rough water conditions created by high boating traffic/wind. A Jet Drive option is necessary as we frequently operate in shallow draft conditions which could not be navigated with a prop style drive. Jet drives are also much safer around bathers. While fiberglass would be a cheaper alternative, it structurally could not handle the rigors of our day-to-day operations.

10 f. Patrol Boat - Informational

- 10 f. What body(s) of water will this boat be used on? Lake Nacimiento and Lake San Antonio

- 10 g. List how many hours per month will this equipment be used for Boating Safety Enforcement from May - September. 160

List how many hours per month will this equipment be used for Boating Safety Enforcement from November - April. 80

- 10 h.

Will this equipment be used for anything besides Recreational Boating Safety Enforcement (ie. Junior lifeguard, swimming rescues, enforcing commercial activities, etc.)? Yes No

If so, list activities and percentage of time vs. Recreational Boating Safety Enforcement (max. 1024 characters) Vessel will be used for invasive species compliance checks, lake hazard marking and identification, public education, public boating safety awareness at local events to promote safer boating and swimming practices.

10 i. Upload boat/trailer specifications for review. [29297_0_490_Specifications 21-22 Patrol Boat.pdf](#)
The Specification Guidelines are in the 'Show Documents' area. You cannot proceed without attaching specs.

10 j. Estimate the cost of the patrol boat and trailer 138,378.21

10 k. Attach two quotes. If you cannot provide a quote now, you must provide if you are awarded a grant.

10 l. Will this replace an existing boat? Yes No

Year, make and CF # of boat being replaced. 2001 Jetcraft 4792XC

10 m. Has the vessel being replaced ever had it's engine or electronics replaced? Yes No

If yes, how many times? Explain. (max. 1024 characters) In 2011 the vessel was reconditioned with a BW grant. Total was \$38535.65. The Trimtabs have been replaced in 2001. Starter replaced in 2002. Impeller was replaced in 2004 and 2007. Seats replaced in 2006. Transducer replaced in 2007. Sirens, speakers, lights and "D" bumpers replaced in 2004 and 2006. Water pump replaced in 2006. Steering crank and silent coupling replaced 2005. Started replaced in 2002. We have been patching this vessel to keep it going for many years and it is just to old for reconditioning.

10 n. Explain why you are not requesting a repower of this vessel. (max. 1024 characters)

This vessel is over the life expectancy of 15 years. Being so old the hull is compromised from the continuous chop of the waves and wind. Engine, floor and Impeller are in desperate need of replacing again. Seats are old and worn without needed support as they have broken down over the years. Canvas top is old and in need of replacing and mechanic stated so in maintenance check of vessel in 2008. New "D" rails are needed as they are worn, torn and falling off of the boat.
