Monterey County Board of Supervisors

Board Order

168 West Alisal Street,
1st Floor
Salinas, CA 93901
831.755.5066
www.co.monterey.ca.us

A motion was made by Supervisor Chris Lopez, seconded by Supervisor Mary L. Adams to:

Agreement No.: A-15537

- a. Approve a Reimbursement Agreement between the County and the Big Sur Land Trust (BSLT) to provide for County reimbursement to BSLT of costs incurred by BSLT for Carmel River Floodplain Restoration and Environmental Enhancement (CRFREE) Project restoration design and implementation activities, for a total amount not to exceed \$487,050, through use of grant funds from the Wildlife Conservation Board; and
- b. Authorize the Director of Housing and Community Development or designee to execute the Reimbursement Agreement.

CEQA Action: Consider the previously certified Environmental Impact Report/Environmental Assessment (EIR/EA) for the CRRFREE Project.

PASSED AND ADOPTED on this 14th day of September 2021, by roll call vote:

AYES: Supervisors Alejo, Phillips, Lopez, Askew and Adams

NOES: None

ABSENT: None

(Government Code 54953)

I, Valerie Ralph, Clerk of the Board of Supervisors of the County of Monterey, State of California, hereby certify that the foregoing is a true copy of an original order of said Board of Supervisors duly made and entered in the minutes thereof of Minute Book 82 for the meeting September 14, 2021.

Dated: September 17, 2021
File ID: A 21-211
Agenda Item No.: 39

Valerie Ralph, Clerk of the Board of Supervisors
County of Monterey, State of California

Julian Lorenzana, Deputy

**REIMBURSEMENT AGREEMENT
BETWEEN COUNTY OF MONTEREY AND
BIG SUR LAND TRUST
FOR
RESTORATION DESIGN AND IMPLEMENTATION WORK FOR THE CARMEL
RIVER FLOODPLAIN RESTORATION AND ENVIRONMENTAL ENHANCEMENT
(CRFREE) PROJECT**

THIS REIMBURSEMENT AGREEMENT, hereinafter, “**AGREEMENT**”, is made and entered by and between the County of Monterey, a political subdivision of the State of California, (“**COUNTY**”) and Big Sur Land Trust, a California nonprofit public benefit corporation, (“**BSLT**”) with reference to the following facts and circumstances:

RECITALS

A. The Carmel River Floodplain Restoration and Environmental Enhancement (“**CRFREE**”) Project (“**PROJECT**”) is located on portions of real property owned by BSLT, Monterey Peninsula Regional Park District (MPRPD), and California State Parks, hereinafter separately referred to as “BSLT Property”, “MPRPD Property” and “State Parks Property”, and collectively as “Project Property”, all at the downstream end of the Carmel River Watershed, approximately half a mile from the Carmel River’s mouth.

B. The goal of the PROJECT is to improve flood control and to restore native riparian and floodplain habitat and hydrologic function to a portion of the lower floodplain along the Carmel River.

C. BSLT is an implementing partner and co-sponsor with COUNTY on the PROJECT.

D. BSLT and COUNTY have agreed that it is necessary and desirable for COUNTY to coordinate all planning, permitting, and construction activities associated with PROJECT, and for BSLT along with other Project Property owners and other interested third parties to have long term habitat management responsibilities and to coordinate restoration design and implementation activities associated with the PROJECT located on Project Property.

E. BSLT and COUNTY intend that PROJECT shall be grant funded to the greatest extent feasible and, except as otherwise specifically provided herein, the COUNTY and BSLT shall not be obligated to fund any portion of the costs associated with the PROJECT.

F. COUNTY has received a grant from the Wildlife Conservation Board (“**WCB Grant**”) to pay for a portion of the PROJECT’s restoration design and implementation. The WCB Grant is attached hereto as Exhibit 1 and incorporated herein by reference.

G. Per the terms of the WCB Grant, the COUNTY cannot transfer the grant to BSLT without the prior written consent of WCB but may contract with BSLT for work performed

within the scope of the WCB Grant and reimburse BSLT for such work performed in accordance with the WCB Grant.

H. COUNTY and BSLT propose that BSLT develop the PROJECT restoration design and implementation activities under one or more contracts that BSLT will manage with one or more consultants to be chosen by BSLT, and the COUNTY will reimburse BSLT for said work using funds from the WCB Grant held by COUNTY. The restoration design and implementation work subject to reimbursement under this AGREEMENT shall be referred to herein as “**Restoration Work**”.

I. BSLT’s Restoration Work subject to reimbursement under this AGREEMENT will take place on BSLT Property within the Project Property and on three acres of MPRPD Property within the Project Property. MPRPD has authorized BSLT to do the planning and restoration work on these three acres of MPRPD property, with the understanding that BSLT will consult with MPRPD in preparing the restoration plan for this three-acre site.

J. The COUNTY has certified an Environmental Impact Report/Environmental Assessment (EIR/EA) for the CRFREE Project. This AGREEMENT requires no additional environmental review, as it is a fiscal activity implementing a portion of the project analyzed in the EIR/EA. It does not require revision of the EIR/EA, as it involves no substantial changes in the PROJECT, no substantial changes in circumstances, and no significant new information that would involve new significant environmental impacts or increased severity of environmental impacts.

NOW, THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES CONTAINED IN THIS AGREEMENT, BSLT AND COUNTY AGREE AS FOLLOWS:

1. BSLT Consultant Contract. BSLT shall select and contractually engage one or more consultants (hereinafter “**BSLT Consultant**”) under one or more contracts for Restoration Work in accordance with the terms of the WCB Grant. Throughout this AGREEMENT the term “BSLT Consultant” shall include the singular and the plural, and “contract” shall include the singular and the plural. BSLT Consultant shall be responsible only to BSLT under said contract. Nothing in this AGREEMENT or in the BSLT Consultant contract shall impose upon BSLT Consultant any obligation to COUNTY, nor shall it impose upon COUNTY any obligation to or responsibility for BSLT Consultant. BSLT shall provide all needed direction and guidance to BSLT Consultant. COUNTY shall not provide direction and/or guidance to BSLT Consultant in respect to the BSLT Consultant contract, except as requested by BSLT and as agreed by COUNTY, and in no event shall COUNTY have any liability associated with the BSLT Consultant, except as otherwise provided in this AGREEMENT.

2. Consultation with COUNTY. BSLT agrees that BSLT shall consult with COUNTY and obtain County’s approval on the design of the restoration components of the Restoration Work under this AGREEMENT. BSLT shall ensure that the Restoration Work performed by BSLT and BSLT Consultant complies with the WCB Grant and is consistent with all then current PROJECT permits and entitlements. COUNTY approval shall not be unreasonably withheld, nor

cause delay in PROJECT, nor increase cost of PROJECT, provided that the Restoration Work proposed and performed by BSLT and BSLT Consultant complies with the WCB Grant and is consistent with all then current PROJECT permits and entitlements.

3. Reimbursement

a. BSLT Consultant Invoices, Certification & Payment. BSLT shall require that BSLT Consultant invoices include a detailed breakdown of the time worked on each task, expenses, receipts for all materials and supplies, and any other further information required by the terms of the WCB Grant. Upon receipt of BSLT Consultants invoice(s), BSLT shall review and certify the fees charged by BSLT Consultant in accordance with the terms of BSLT Consultant contract (“**Certified Invoice**”), and BSLT shall pay BSLT Consultant in accordance with the Certified Invoices. COUNTY shall reimburse BSLT for Certified Invoices paid by BSLT up to the Maximum Reimbursement amount allowed by this AGREEMENT. This AGREEMENT is not subject to the 10% retention included in the WCB Grant.

b. Maximum Reimbursement Under AGREEMENT. The Maximum Reimbursement which COUNTY will reimburse to BSLT under this AGREEMENT is \$487,050.00 (four hundred eighty-seven thousand fifty dollars).

c. Reimbursement Procedures

i. BSLT shall submit an invoice to COUNTY (“**BSLT Invoice**”) on a monthly basis, beginning upon execution of BSLT Consultant contract, and thereafter, not later than the last day of each following month. BSLT Invoices shall set forth and include:

- (1) a copy of each Certified Invoice including amount paid, detailed breakdown of the time worked on each task, expenses, and receipts for all materials and supplies;
- (2) evidence that each such Certified Invoice has been processed and paid by BSLT;
- (3) a progress report detailing the activities accomplished under the BSLT Consultant contract in that billing period; and
- (4) all other information and supporting documentation required by the terms of the WCB Grant and COUNTY.

ii. Upon receipt of a BSLT Invoice, including all required supporting documentation as described above, COUNTY shall verify and certify the invoice and shall promptly submit such COUNTY certified invoice to the County Auditor-Controller for payment. COUNTY, through the County Auditor-Controller, shall pay the amount certified within 30 days of receiving the COUNTY certified invoice.

d. Grant Compliance

i. COUNTY's obligation to reimburse BSLT under this AGREEMENT is conditioned upon BSLT, and invoiced work under the BSLT Consultant contract, being in compliance with applicable terms of the WCB Grant, including without limitation the following provisions:

(1) Section 4.3 of the Grant Agreement – BSLT will provide the specified documentation and information which County will need from BSLT in order for County to request disbursement of WCB grant funds for the work;

(2) Section 6.1 of the Grant Agreement – Restoration Work must be consistent with the applicable portion(s) of the Work Plan attached to the Grant;

(3) Section 8.2 of the Grant Agreement – the auditors of the State of California shall have the right to examine the records of BSLT relative to the goods, services, equipment, materials, supplies, or other assistance provided to County for the Restoration Work.

ii. BSLT shall be responsible to ensure that BSLT and invoiced work under BSLT Consultant contract are in compliance with all WCB Grant terms.

e. Grant Repayment Obligation

i. BSLT and COUNTY will cooperate to: work with WCB to resolve any delay in or failure of disbursement/reimbursement by WCB due to noncompliance with grant terms; and work with WCB to resolve any circumstances which have or may trigger grant reimbursement or repayment obligation, as described in Sections 4 and 7 of the WCB Grant.

ii. In the event that a repayment obligation is triggered due solely to BSLT's noncompliance, then BSLT shall reimburse COUNTY for the amount COUNTY is required to repay to WCB.

iii. In the event that a repayment obligation is triggered due solely to COUNTY's noncompliance, then COUNTY shall solely pay the amount it is required to repay to WCB.

iv. In the event that a repayment obligation is triggered due to BSLT and COUNTY joint noncompliance, then COUNTY and BSLT shall share the cost of the repayment obligation in proportion to their respective responsibility for noncompliance.

v. BSLT and COUNTY agree to meet and confer in good faith when there is a disagreement as to which party caused the repayment obligation.

vi. In the event that a repayment obligation is triggered, but BSLT and COUNTY do not agree and there is no clear fault by either party, COUNTY and BSLT shall engage in a dispute resolution process to address the repayment obligation.

4. Term. This AGREEMENT shall become effective upon latest date of signature hereto and continue until BSLT has been fully reimbursed pursuant to the terms of this AGREEMENT, unless terminated pursuant to Paragraph 5 of this AGREEMENT.

5. Termination. This AGREEMENT shall terminate upon full reimbursement of BSLT pursuant to the terms of this AGREEMENT but may be terminated earlier by BSLT or COUNTY, by giving thirty (30) days' written notice to the other. Upon such early termination, COUNTY shall pay BSLT Invoices for any BSLT Consultant contract work performed by BSLT Consultant through effective date of termination. The obligation of County to pay amounts due with respect to periods prior to the termination shall survive any termination of this AGREEMENT.

6. Entire Agreement. This AGREEMENT and its attachments constitute the entire agreement between the BSLT and COUNTY respecting the matters set forth herein. COUNTY and BSLT each represent that neither has relied on any promise, inducement, representation, or other statement made in connection with this AGREEMENT that is not expressly contained herein.

7. Negotiated Agreement. It is agreed and understood by BSLT and COUNTY that this AGREEMENT has been arrived at through negotiations and that neither is deemed the party which prepared this AGREEMENT within the meaning of Civil Code Section 1654.

8. Assignment. Neither COUNTY nor BSLT shall have the right to assign its respective rights and obligations hereunder without the written consent of the other party. This AGREEMENT shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns.

9. Amendment. This AGREEMENT may be amended, modified or supplemented only in writing and signed by both COUNTY and BSLT.

10. Contracting Officer. The contracting officer of COUNTY, and the only entity authorized by law to make or amend this AGREEMENT on behalf of COUNTY, is the Board of Supervisors of the County of Monterey.

11. Waiver. The failure of a party hereto at any time or times to require performance of any provision hereof shall in no manner affect its right at a later time to enforce the same. No waiver by a party of any condition or of any breach of any term contained in this AGREEMENT shall be effective unless in writing, and no waiver in any one or more instances shall be deemed to be a further or continuing waiver of any such condition or breach in any other instance or a waiver of any other condition or breach of any other term.

12. Governing Law. This AGREEMENT shall be governed by, construed, interpreted and applied in accordance with the laws of the State of California.

13. Construction. The language in all parts of this AGREEMENT shall be construed, in all cases, according to its fair meaning. The parties acknowledge that each party has reviewed and revised this AGREEMENT and that the normal rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of this AGREEMENT.

14. Conflict with BSLT Consultant Contract. BSLT shall make best efforts to ensure that its BSLT Consultant contract for the Restoration Work subject to reimbursement under this AGREEMENT is consistent with the terms of this AGREEMENT. In the event of a conflict between the provisions of this AGREEMENT and said BSLT Consultant contract, the provisions of this AGREEMENT shall govern.

15. Relationship of Parties. The parties agree that this AGREEMENT establishes only a reimbursement arrangement between the parties, and that, notwithstanding any terms to the contrary, the parties are not partners or joint venturers.

16. Indemnification. County and BSLT agree that each will be responsible for its own acts and the results thereof and shall not be responsible for the acts of the other party hereto or the results thereof. Each party ("Indemnifying Party") to this AGREEMENT shall indemnify, defend, and hold harmless the other party, its officers, agents, and employees ("Indemnified Party"), from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this AGREEMENT, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the Indemnifying Party's approval of this AGREEMENT or performance pursuant to this AGREEMENT, but only to the extent such claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) are caused by or result from the negligent or intentional acts or omissions of the Indemnifying Party, its officers, employees, and agents. "Performance pursuant to this AGREEMENT" includes action or inaction of either the Indemnifying Party or the action or inaction of the Indemnifying Party's officers, employees, agents, contractors, and subcontractors. In the event of a claim or litigation brought against a party or the parties by a third party challenging the approval of this AGREEMENT, the parties agree to cooperate in the defense of said claim or litigation.

Further, in accordance with Section 8.3 of the Grant Agreement, to the fullest extent permitted by law, BSLT shall indemnify, protect, and hold harmless the Wildlife Conservation Board and the State of California, and their respective members, officers, agents, employees and representatives, from and against any and all claims, demands, damages, losses, costs (including attorneys' fees), expenses, and liability of any nature (Claims) arising out of or incident to the Restoration Work, BSLT's entry upon and use of the Project Property, and the performance of,

or failure to observe or perform, any obligations of the BSLT under this AGREEMENT. The obligations of BSLT under this include, without limitation, Claims resulting from the generation, use, storage, disposal, release or threatened release of any hazardous or toxic substance, material or waste; petroleum or petroleum products and other substances that present a threat to human health or the environment.

17. Notices. Notice required under this AGREEMENT shall be delivered personally or by first class, postage pre-paid mail addressed as follows:

TO COUNTY: Erik V. Lundquist, AICP, Director
Housing and Community Development
County of Monterey
1441 Schilling Place, South 2nd Floor
Salinas, California 93901-4527

TO BSLT: Jeannette Tuitele-Lewis, President/CEO
Big Sur Land Trust
PO BOX 4071
Monterey CA 93942

18. Authority. Any individual executing this AGREEMENT on behalf of the COUNTY or BSLT represents and warrants hereby that he or she has the requisite authority to enter into this AGREEMENT on behalf of such party and bind the party to the terms and conditions of this AGREEMENT.

19. Counterparts. This AGREEMENT may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same Agreement.

20. Severability. If any provision of this AGREEMENT is deemed by a court of competent jurisdiction to be unenforceable under applicable law, the remaining provisions shall in no way be affected and shall remain in full force.

IN WITNESS WHEREOF, BSLT and COUNTY have executed this AGREEMENT to be effective on the latest date written below.

1. SCOPE OF AGREEMENT

Pursuant to the Wildlife Conservation Law of 1947, Chapter 4.1 (California Riparian Habitat Conservation Program) of Division 2, (commencing with Section 1385) of the California Fish and Game Code; and the approval granted by the Wildlife Conservation Board on February 26, 2020, the Wildlife Conservation Board (Grantor) hereby grants to County of Monterey (Grantee), a sum not to exceed two million five hundred thousand dollars (\$2,500,000.00) (Grant Funds), upon and subject to the terms and conditions of this Grant Agreement (Agreement).

2. PURPOSES OF GRANT

Grantor is entering into this Agreement, and the Grant Funds shall be used, only for the purpose of assisting Grantee with the project generally described as riparian and floodplain habitat restoration (Project) on approximately 135 acres of publicly- and privately-owned land located in Monterey County, California (Property). The Property is generally shown on the attached Exhibit A - LOCATION MAP. The Big Sur Land Trust, California Department of Parks and Recreation, and the Monterey Peninsula Regional Park District are the fee owners of the Property.

3. CONDITIONS OF GRANT

Grantor's obligation to disburse Grant Funds under this Agreement is conditioned upon and subject to the satisfactory completion of all of the following conditions:

- 3.1 Grantor shall have reviewed and approved all documents pertaining to the Project, including, without limitation, feasibility and planning studies, designs, plans, budgets, cost estimates, timelines, and agreements. Such review and approval by Grantor will be for compliance with this Agreement as well as funding and other requirements applicable to Grantor and shall not be unreasonably withheld.
- 3.2 Grantor shall have reviewed and approved a certified resolution or other appropriate action of the governing board or governing body of Grantee, authorizing the execution and performance of this Agreement and the carrying out of the Project by Grantee.
- 3.3 Grantee shall have disclosed all funding sources for the Project, including all amounts applied for or obtained from sources other than Grantor. These amounts shall be reflected in the attached Exhibit B – BUDGET (Budget) by Budget category. As between Grantor and Grantee, Grantee shall be responsible for any and all Project costs that exceed the amount of the Grant Funds provided under this Agreement.
- 3.4 The grant proposal shall have been approved by the Wildlife Conservation Board at a public meeting, this Agreement shall have been fully executed by Grantor and Grantee, and Grantee shall have received a written "Notice to Proceed" from Grantor. The approval of the grant proposal by the Wildlife Conservation Board, if such approval is given, shall not constitute authorization for the commencement of the Project or expenditure of Grant Funds. No expenditure made or activity initiated prior to Grantee's receipt of a written Notice to Proceed from Grantor will be eligible for reimbursement by Grantor.

4. DISBURSEMENTS

- 4.1 Upon satisfaction of all of the Conditions of Grant set forth in Section 3, above, and so long as Grantee is not in breach or default under this Agreement, Grantor agrees to disburse the Grant Funds to Grantee, in arrears, in installments as set forth in this Section 4. Disbursements shall be made not more frequently than monthly and disbursements of less than \$5000.00 should be made not more frequently than quarterly. All disbursements shall be subject to the availability of funds for purposes of the Project as provided in Section 4.8.
- 4.2 Grantee shall request disbursement of Grant Funds by submitting a disbursement request to Grantor for approved budgeted work performed on the Project in accordance with Section 4.3. Disbursement shall be contingent upon approval of the disbursement request by Grantor.
- 4.3 The disbursement request must be submitted on Grantee's letterhead, signed by an authorized representative of Grantee, and include a written description of the work completed during the period of the disbursement request. Requests for disbursement must be itemized using the same categories included in the attached Budget. Exhibit C – DISBURSEMENT REQUEST TEMPLATE provides the format to use for submitting disbursement requests to Grantor. Each disbursement request shall contain supporting or back-up documentation for all amounts shown on the request, including receipts for all materials and supplies, all Grantee staff time shown by number of hours worked and hourly rate, and all contractor or sub-contractor services.
- 4.4 Grantor may withhold ten percent (10%) of the total approved amount from each disbursement (Retained Grant Funds) until Grantor has approved the completion of the Project, the final report required by Section 6.4, and the final request for disbursement.
- 4.5 Upon completion of Project activities, Grantee may request disbursement of the Retained Grant Funds. Grantee shall submit this request no later than thirty (30) days after the Projected Completion Date (as defined in Section 6.1)
- 4.6 Please submit disbursement requests electronically to WCB at WCB Clerical@wildlife.ca.gov and WCB Project Manager Cara Allen, (Cara.Allen@wildlife.ca.gov) with "Project ID 2017070 Invoice No. ____" in the subject line.

Alternatively, hard copy requests for disbursement can be sent to:

Wildlife Conservation Board
P.O. Box 944209
Sacramento, California 94244-2090
Attn: Cara Allen

- 4.7 Grantee shall reimburse Grantor for any erroneous disbursement of Grant Funds under this Agreement. Reimbursement shall occur within 30 days of written demand by Grantor. Interest shall accrue at the highest rate allowed by law from the time that reimbursement becomes due and owing until received by Grantor.

- 4.8 Despite any contrary provision of this Agreement, Grantor shall not be obligated to disburse any remaining unpaid portion of the Grant Funds unless and until sufficient funds identified for allocation to the Project (as further specified in the Funding Certification attached to this Agreement) are released by the State Treasurer's Office to Grantor for expenditure for this grant. No request for disbursement submitted prior to the release of such funds to Grantor shall be effective.
- 4.9 With the final invoice, Grantee shall provide a completed Final Cost Share Accounting Form (Exhibit D – FINAL COST SHARE TEMPLATE) when work is completed. The completed Final Cost Share Accounting Form shall identify and delineate all cost share funds expended and in-kind services provided during the Grant term before Project completion and will be consistent with Exhibit B – BUDGET.

5. BUDGET AND INDIRECT COSTS

- 5.1 The attached Budget is an estimate of the Grantee's anticipated costs for the Project and discloses all funding sources for the Project, including all amounts applied for or obtained from sources other than Grantor. Should the Budget not disclose all funding sources for the Project, Grantor may refer this grant to the Department of Finance for a Project audit. Grantee may seek additional funding from sources other than Grantor, with Grantor's approval, to cover cost increases or to reduce Grantor's cost share. Should Grantee obtain additional funds from sources other than Grantor, Grantee shall promptly notify Grantor of the amounts and sources of the additional funding and submit a proposed new budget reflecting any changes to Grantor for its approval.

When actual Project costs indicate that the costs of certain Budget categories payable by Grantor are higher than estimated, and these higher costs are offset by lower costs in other Budget categories payable by Grantor, the Grantee may submit a written request to Grantor to shift funds between such Budget categories. Contingencies shall be used only upon written approval by Grantor. Grantor shall approve or deny a requested Budget revision or use of contingencies in writing within 10 business days of receipt of Grantee's written request.

- 5.2 Indirect cost rates are limited to 20 percent of the total direct WCB Grant Funds minus subcontractor and equipment costs. Any amount over 20 percent will not be funded but may be used as cost share. If Grantee seeks to recover indirect or administrative costs, this item should be included as a line item in the Budget. Any cost that is billed as a direct cost may not be included in indirect cost rates. Indirect costs include, but are not limited to, the following: workers compensation insurance, utilities, office space rental, phone, and copying which is directly related to completion of the Project.

Costs for subcontractors and purchase of equipment cannot be included in the calculation of indirect costs in the Budget. It is the responsibility of the Grantee to keep documentation for all indirect costs claimed in Exhibit B. For all indirect costs claimed, Grantee must keep backup documents in audit-ready files (these documents are not provided to WCB).

6. GRANTEE'S COVENANTS

In consideration of this Agreement, Grantee hereby covenants and agrees as follows:

- 6.1. Grantee will complete or cause to be completed all Project activities in accordance with Grantee's proposed design and specifications submitted to Grantor, a copy of which is attached as Exhibit E - WORK PLAN and incorporated herein by this reference, on or before November 30, 2024 (Projected Completion Date). The Project will be considered complete when all Project activities have been completed and Grantor has approved the completion of the Project, the final report required by Section 6.4, and the final request for disbursement.
- 6.2. Grantee is responsible for obtaining all necessary permits and approvals for the Project (including its construction, management, monitoring, operation, use and maintenance), and complying with all federal, state and local statutes, laws, regulations, ordinances, orders and other governmental and quasi-governmental requirements that apply to the Project (including its construction, management, monitoring, operation, use and maintenance).
- 6.3. Grantee shall recognize the cooperative nature of the Project and shall provide credit to the Grantor on signs, demonstrations, promotional materials, advertisements, publications and exhibits prepared or approved by Grantee referencing the Project. Any sign installed on the Property referencing the Project shall be subject to the mutual agreement of Grantor, Grantee and Landowner regarding text, design and location and shall display the logo of Grantor.
- 6.4. Not later than 30 days following the completion of all Project activities Grantee will submit either five hard copies or one hard copy and one digital copy of a final report of accomplishments, including pre- and post-Project photographs and a final design or site plan of the Project, to Grantor.
- 6.5. Grantee shall ensure that the Property restored with funds provided by Grantor is operated, used and maintained throughout the Project Life consistent with the Purposes of Grant and in accordance with the long-term management plan for the Project attached as Exhibit F – MANAGEMENT PLAN. Grantee may contract with Landowner to manage the Project on behalf of Grantee, however, as between Grantor and Grantee such management will remain the responsibility of Grantee.
- 6.6. The Grantee shall cause the Landowner to permit Grantor, the California Department of Fish and Wildlife, and their respective members, officers, employees, agents and representatives, to access the Property at least once every twelve months from the date of Grantor's Notice to Proceed through the end of the Project Life for purposes of inspections and monitoring. Such access shall be at times reasonably acceptable to the Landowner and the requester following written or verbal request to the Grantee.

7. BREACH AND REMEDIES

- 7.1 In the event of a breach of Grantee's obligations under this Agreement, Grantor shall give notice to Grantee describing the breach. If Grantee does not cure the breach described in the Grantor's notice within 90 days after the date of Grantor's notice (or, if the breach cannot reasonably be cured within 90 days, Grantee does not commence

the cure within the 90-day period and diligently pursue it to completion), then Grantee shall be in default of this Agreement.

- 7.2 In the event of a default by Grantee before the Project is complete then, in addition to any and all other remedies available at law or in equity, Grantor may seek specific performance of this Agreement. Grantee agrees that specific performance is an appropriate remedy because the benefits to Grantor from Grantee's completion of the Project in accordance with this Agreement, as described in Section 2 (Purposes of Grant), are unique and damages would not adequately compensate Grantor for the loss of such benefits.
- 7.3 In the event of a default by Grantee, in addition to any and all other remedies available at law or in equity, Grantor may withhold Grant Funds from Grantee or may require reimbursement of Grant Funds that were disbursed in error due to a breach of the Grant terms, including incorrect billing of indirect costs as identified in Section 5.2.
- 7.4 In the event of a default by Grantee, in addition to any and all other remedies available under this Agreement, at law or in equity, Grantor may require Grantee to reimburse the Grant Funds to Grantor in an amount determined by application of the following Reimbursement Formula:

"Reimbursement Formula"

Formula: Dollar amount of Grant Funds divided by Project Life, times the number of years remaining in the Project Life.

Example: Grantor grants \$50,000.00 to Grantee for the restoration and enhancement of wetland and riparian habitat, and the Project Life is 25 years. With 10.5 years remaining on the Project Life, the Grantee is in default under the Agreement. The reimbursement amount would be \$21,000, calculated as follows:

$$(\$50,000.00 \div 25 \text{ years}) \times 10.5 \text{ years} = \$21,000$$

Reimbursement shall be due from Grantee immediately upon written demand by Grantor. Interest shall accrue at the highest rate allowed by law from the time that the reimbursement becomes due until it is actually received by Grantor.

- 7.5 Any costs incurred by Grantor, where Grantor is the prevailing party, in enforcing the terms of this Agreement, including but not limited to costs of suit, attorneys' and experts' fees, at trial and on appeal, and costs of enforcing any judgment, shall be borne by Grantee.
- 7.6 Waiver of any breach or default by Grantee shall not be deemed to be a waiver of any subsequent breach or default, nor shall it constitute a modification of this Agreement.

8. ADDITIONAL TERMS AND CONDITIONS

8.1 Grantee Responsible for Project

While the Grantor undertakes to assist the Grantee with the Project by providing a grant pursuant to this Agreement, the Project itself remains the sole responsibility of the

Grantee. Grantor undertakes no responsibilities to the Grantee, the Landowner, or any third party, other than as expressly set out in this Agreement. The responsibility for implementing the Project is solely that of the Grantee, as is the responsibility for any claim or suit of any nature by any third party related in any way to the Project.

8.2 Contracts

All agreements between Grantee and any third party related to the Project must be in writing and contain language that establishes the right of the auditors of the State of California to examine the records of the third party relative to the goods, services, equipment, materials, supplies or other assistance provided to Grantee for the Project. Grantee shall provide a complete copy of each agreement over \$10,000.00 to Grantor prior to commencing work.

8.3 Indemnification

To the fullest extent permitted by law, Grantee shall indemnify, protect, and hold harmless the Wildlife Conservation Board and the State of California, and their respective members, officers, agents, employees and representatives, from and against any and all claims, demands, damages, losses, costs (including attorneys' fees), expenses, and liability of any nature (Claims) arising out of or incident to the Project, Grantee's entry upon and use of the Property, and the performance of, or failure to observe or perform, any obligations of the Grantee under this Agreement. The obligations of Grantee under this Section 8.3 include, without limitation, Claims resulting from the generation, use, storage, disposal, release or threatened release of any hazardous or toxic substance, material or waste; petroleum or petroleum products and other substances that present a threat to human health or the environment.

8.4 Amendment; Severability

This Agreement may be modified only by a written amendment signed by Grantor, Grantee and Landowner. No oral or written understanding or agreement not incorporated in this document shall be binding on the parties.

If any provision of this Agreement or the application thereof to any person or circumstance is held to be invalid or unenforceable, that shall not affect any other provision of this Agreement or applications of the Agreement that can be given effect without the invalid provision or application. To this end the provisions of this Agreement are severable.

8.5 Independent Capacity of Grantee; Withholding and Payments

Grantee, its members, officers, directors, employees, agents, and representatives, is each acting in an independent capacity in entering into and carrying out this Agreement, and not as a partner, member, officer, agent, employee, or representative of Grantor. Grantee is responsible for withholding and paying employment taxes, insurance and deductions of any kind required by federal, state, or local laws.

8.6 No Assignment or Transfer

This Agreement is not assignable or transferable by Grantee, either in whole or in part, without the prior written consent of Grantor which Grantor may grant or withhold in Grantor's discretion.

8.7 Accounting/Records/Audits

Grantee shall maintain complete and accurate records of its actual Project costs, in accordance with generally accepted accounting principles and practices, and shall retain said records for at least three years after final disbursement by Grantor. During such time, Grantee shall make said records available (or cause them to be made available) to the State of California for inspection and audit purposes during normal business hours. Expenditures not documented, and expenditures not allowed under this Agreement or otherwise authorized in writing by Grantor shall be borne by Grantee. The audit shall be confined to those matters connected with this Agreement, including but not limited to administration and overhead costs.

8.8 Use of Grant Funds to Secure Additional Funding

Grantee agrees that the funding provided under this Agreement shall not be used as cost share for other grants, or to secure loans or other monetary awards without written approval from the Executive Director, Wildlife Conservation Board. Such approval shall not be unreasonably withheld as long as the purposes for which the grant was awarded are maintained.

8.9 Termination or Suspension of Agreement

At any time before Grantee has broken ground on the Project Grantor may terminate this Agreement for any reason by providing Grantee not less than 30 days written notice of termination. In addition, Grantor may suspend this Agreement at any time upon written notice to Grantee. In either case, Grantee shall immediately stop work under this Agreement and take all reasonable measures to prevent further costs to Grantor. The Grantor shall be responsible for reasonable and non-refundable obligations or expenses incurred by the Grantee under this Agreement prior to the date of the notice to terminate or suspend, but only up to the undisbursed balance of funding authorized in this Agreement. Any notice suspending work under this Agreement shall remain in effect until Grantor authorizes work to resume by giving further written notice to Grantee.

8.10 Resolution of Disputes

The State Project Representative is identified on Page i of this Agreement. The State Project Representative has initial jurisdiction over each controversy arising under or in connection with the interpretation or performance of this Agreement or disbursement of Grant Funds. The Grantee will diligently pursue with the State Project Representative a mutually agreeable settlement of any such controversy.

If the controversy cannot be resolved between Grantee and the State Project Representative, the Grantee must direct the grievance together with any evidence, in writing, to the Executive Director of the Wildlife Conservation Board. The grievance must state the issues in the dispute, the legal authority or other basis for the Grantee's position and the relief sought.

The Executive Director or designee shall meet with a representative of the Grantee to review the issues. A written decision signed by the Executive Director or designee shall be returned to the Grantee within twenty (20) working days of the conclusion of this meeting.

8.11 Drug-Free Workplace Certification

By signing this Agreement, Grantee hereby certifies under penalty of perjury under the laws of the State of California that Grantee will comply with the requirements of the Drug-Free Workplace Act of 1990 (Government Code Section 8350 et seq.) and will provide a drug-free workplace by taking the following actions:

- 8.11.1 Publish a statement notifying employees that unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited and specifying actions to be taken against employees for violations, as required by Government Code Section 8355(a).
- 8.11.2 Establish a Drug-Free Awareness Program as required by Government Code Section 8355(b) to inform employees about all of the following:
 - a) the dangers of drug abuse in the workplace;
 - b) the person's or organization's policy of maintaining a drug-free workplace;
 - c) any available counseling, rehabilitation, and employee assistance programs; and,
 - d) penalties that may be imposed upon employees for drug abuse violations.
- 8.11.3 Provide, as required by Government Code Section 8355(c), that every employee who works on the proposed contract:
 - a) will receive a copy of the company's drug-free policy statement; and,
 - b) will agree to abide by the terms of the company's statement as a condition of employment on the contract.

Failure to comply with these requirements may result in suspension of disbursements under this Agreement or termination of the Agreement or both and Grantee may be ineligible for award of any future state contracts if the Grantor determines that any of the following has occurred: (1) Grantee has made false certification, or (2) Grantee violates the certification by failing to carry out the requirements as noted above.

8.12 Union Organizing

By signing this Agreement, the Grantee hereby acknowledges the applicability to this Agreement of Government Code Sections 16645 through 16649, and certifies that:

- 8.12.1 No state funds disbursed by this grant will be used to assist, promote, or deter union organizing;
- 8.12.2 Grantee shall account for state funds disbursed for a specific expenditure by this grant, to show those funds were allocated to that expenditure;
- 8.12.3 Grantee shall, where state funds are not designated as described in 8.12.2 above, allocate, on a pro-rata basis, all disbursements that support the grant program; and
- 8.12.4 If Grantee makes expenditures to assist, promote or deter union organizing, Grantee will maintain records sufficient to show that no state funds were used for those expenditures, and that Grantee shall provide those records to the Attorney General upon request.

8.13 Labor Code Requirements; Prevailing Wage

State grants may be subject to California Labor Code requirements, which include prevailing wage provisions. Certain State grants administered by the California Wildlife Conservation Board and the California Department of Fish and Wildlife are not subject to Chapter 1 (commencing with Section 1720) of Part 7 of Division 2 of the Labor Code. For more details, please refer to California Fish and Game Code Section 1501.5 and to the Department of Industrial Relations (DIR) website at <http://www.dir.ca.gov>. Grantee shall pay prevailing wage to all persons employed in the performance of any part of the Project if required by law to do so.

8.14 Disposition of Equipment

Title or ownership of equipment with a unit cost of \$5,000 or more may be retained by Grantee or Grantor upon end of the grant cycle; final disposition will be coordinated by WCB's Grant Manager.

8.15 Informational Products

All informational products (e.g. data, studies, findings, management plans, manuals, photos etc.) relating to California's natural environment and produced with the use of public funds shall be cataloged in the California Geoportal (<http://portal.gis.ca.gov/geoportal/catalog/main/home.page>), maintained by the California Department of Technology.

8.16 Non-Discrimination

During the performance of this Agreement, Grantee shall not unlawfully discriminate against, harass, or allow harassment against any employee or applicant for employment because of race, religion, color, national origin, ancestry, physical disability (including HIV and AIDS), mental disability, medical condition, marital status, age (over 40), sex, sexual orientation, or use of family-care leave, medical-care leave, or pregnancy-disability leave. Grantee shall take affirmative action to ensure that the evaluation and treatment of its employees and applicants for employment are free of such discrimination and harassment. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Grantee shall comply with the provisions of the Fair Employment and Housing Act (Government Code Section 12900 (a-f) et seq.), and applicable regulations (California Code of Regulations, Title 2, Section 7285 et seq.). The regulations of the Fair Employment and Housing Commission regarding Contractor Nondiscrimination and Compliance (Chapter 5 of Division 4 of Title 2 of the California Code of Regulations) are incorporated by reference into this Agreement. Grantee shall give written notice of its obligations under this non-discrimination clause to labor organizations with which Grantee has a collective bargaining or other agreement and shall post in conspicuous places available to employees and applicants for employment, notice setting forth the provisions of this section. Grantee shall also include the nondiscrimination and compliance provisions of this Agreement in all contracts related to the Project.

9. NOTICE OF AGREEMENT

The terms, conditions and restrictions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their personal representatives, heirs, successors, and assigns and shall continue as a servitude running with the Property for the Project Life.

Grantee and Landowner each agrees to sign, have acknowledged by a Notary Public, and deliver to Grantor for recording a separate document, in a form substantially as shown in Exhibit G - NOTICE OF UNRECORDED GRANT AGREEMENT, to provide constructive notice of this Agreement.

10. AUTHORIZATION

The signature of the Executive Director certifies that at the meeting of the Wildlife Conservation Board held on February 26, 2020, the Board authorized the award of a grant of up to \$2,500,000.00 to Grantee for the Project.

11. EFFECTIVENESS OF AGREEMENT

This Agreement shall be deemed executed and effective when fully signed by authorized representative(s) of each of Grantor, Grantee and Landowner. Each party shall sign five original counterparts of this Agreement. Each fully executed counterpart shall be deemed an original. Grantee and Landowner(s) shall each receive one fully executed original and Grantor shall receive one fully executed original.

12. EXHIBITS

Each of the Exhibits referenced in this Agreement is incorporated by reference as though set forth in full herein. The following Exhibits are attached to this Agreement:

- Exhibit A** – Location Map
- Exhibit B** – Budget
- Exhibit C** – Disbursement Request Template
- Exhibit D** – Final Cost Share Template
- Exhibit E** – Work Plan
- Exhibit F** – Management Plan
- Exhibit G** – Form of Notice of Unrecorded Grant Agreement

NOTES

- 1 ** This column will be the same as WCB Disbursement Template, "Cost Share, Cumulative", and should be identical to cost share presented in Grant Exhibit B.
- 2 Cost share backup documents to include: invoices, timesheets, or time estimates with justification. Grantee will keep backup documents for audit-ready files (backup documents will not be provided to WCB).
- 3 This EXHIBIT D - FINAL COST SHARE ACCOUNTING FORM should be included with the final invoice when work is completed, in advance of retention release invoice.
- 4 If Project has numerous partners with small cost share items, these may be consolidated into one column. Please discuss with WCB Project Manager.

*Carmel River Floodplain Restoration and Enhancement, Monterey County
Grant Agreement Number WC-1947CA
Project ID 2017070*

Exhibit E

WORK PLAN

The primary purpose of the Carmel River Floodplain Restoration and Enhancement (CRFREE) project is to restore hydrologic function across the entire 135-acre project site and restore connectivity between the lower Carmel River and its southern floodplain for both habitat restoration and flood protection purposes.

The Wildlife Conservation Board (WCB) is only funding work associated with floodplain restoration of the overall project, including final design, floodplain restoration construction, which includes an agricultural preserve and regional trail elements, and habitat restoration (Project). Full completion of the CRRFREE project includes construction of a new causeway on State Route 1 (SR 1) which will be funded separately by other partners.

The Project is an integral part of ongoing restoration efforts for the lower Carmel River region that began in 1998. The California Department of Parks and Recreation (State Parks) completed the Carmel River Lagoon Enhancement project in 2004 with support from WCB at the historical Carmel River Lagoon site west of SR 1. State Parks and the California Department of Transportation also completed habitat restoration activities at the Carmel River Lagoon and in associated wetland areas west of SR 1 and created the Carmel River Mitigation Bank.

The Project received funding from WCB in 2010 for project management, design, permitting and environmental review only. No implementation activities were completed during this project.

The primary objectives of the Project are to address the long-standing problems of flood management and floodplain habitat loss along lower Carmel River.

The key components of the Project's objectives are as follows:

- Recover the natural functions and values of the Carmel River floodplain.
- Establish native vegetation typical of river corridor environments and provide a denser and more diverse riparian habitat.
- Restore approximately 80 acres of riparian and upland habitats within the historic floodplain thereby providing important habitat for sensitive species including the federally listed California red-legged frog.
- Utilize the improved connectivity between the main channel and southern floodplain to reduce flooding hazards along the developed areas located north of the river.
- Increase flow conveyance and habitat connectivity between the Project site and Carmel River Lagoon Enhancement Project through the reconnection of the Project site with the adjacent floodplain, benefiting habitat for the federally listed, south/central California Coast Steelhead.
- Provide storage and recharge of groundwater on the restored floodplain.
- Improve quality of water entering the Carmel Lagoon by providing additional storage and filtration for sediment and nutrients through a functioning floodplain and associated riparian habitat.

*Carmel River Floodplain Restoration and Enhancement, Monterey County
Grant Agreement Number WC-1947CA
Project ID 2017070*

Exhibit E

The Project will result in a more regular flooding regime with lateral connectivity between the river channel and floodplain, and longitudinal connectivity between the floodplain and the lagoon. Reconnecting the floodplain with both the river and lagoon will enable hydrologic and geomorphic processes to improve overall river and floodplain function and support a mosaic of biologically and physically diverse ecological communities. Floodplain connectivity under the proposed SR 1 causeway will enhance wildlife movement and facilitate future recreational access to Carmel River State Beach from Palo Corona Regional Park and the public South Bank Trail.

Task 1 – Project Management

Grantee will manage all consultant and construction contracts using standard contracting and project oversight procedures. Grantee will prepare quarterly progress reports and reimbursement requests with a brief description of the work and activities performed, milestones achieved, any accomplishments, and any challenges encountered in the performance of the work during the reporting period. Upon completion of the project, a final written report will be prepared that would include, but not be limited to, a description of conditions before the project was executed, summary of the completed project, site restoration and techniques used, description of the results of the project, analysis of the techniques used, description of planned long-term monitoring and adaptive management, and photographs on-site before, during, and after implementation that document project conditions. Project administration activities also include coordination with other agencies and Project partners.

No funds are being requested from WCB for this task.

**Deliverables:*

- *Quarterly progress reports*
- *Draft and Final Floodplain Restoration Project Report*

Task 2 – Floodplain Designs

Complete final designs, construction plans, specifications, and estimates for floodplain restoration construction. Execute memorandum of understanding (MOU) with each landowner that establishes roles and responsibilities of each party for floodplain construction activities including habitat restoration.

**Deliverables:*

- *100% designs for floodplain restoration*
- *Copies of draft and executed MOU(s) for construction activities.*

Task 3 – Floodplain Construction

Clear, grade, excavate, and salvage trees within the historic floodplain. Approximately 100 acres of existing farmland will be graded to create the topographic characteristics necessary to support the restoration of native floodplain habitats and to elevate the approximately 23-acre agricultural preserve. The majority of grading activities will occur on the project's east side, with some lesser grading occurring west of SR 1. Grading activities will lower the south bank levee in multiple locations on the upstream end of the project site to an elevation that will allow 5-year flood events to access the floodplain and alleviate flood pressure on adjacent developed areas. Salvageable riparian trees and rootwads will be replanted on the Project's east side.

*Carmel River Floodplain Restoration and Enhancement, Monterey County
Grant Agreement Number WC-1947CA
Project ID 2017070*

Exhibit E

Braided distributary channels will be excavated within the floodplain to convey flood flows from the levee breaches. The floodplain will be graded with a gentle slope to convey flood flows downstream and will include shallow depressional features designed to reduce flow velocities and capture sediment and organic material. Large portions of the floodplain adjacent to the braided distributary channels will be graded as low as possible for dual purposes: to provide flood capacity and to support the establishment of riparian vegetation by decreasing the depth to groundwater. Small portions of the floodplain will be graded at higher relative elevations to direct flood flows into the distributary channels. These higher elevation areas will offer topographic complexity and wildlife refugia when the site floods, but they will be further from groundwater and therefore will be planted with more drought tolerant riparian species. These design features will introduce subtle variation in topography to the floodplain, which will be subject to episodic inundation and deposition of sediment and organic material.

Most of the soil excavated during floodplain reconfiguration will be placed on the agricultural preserve in the southern portion of the Project site to the east of SR 1. A channel for an intermittent drainage will be constructed to capture runoff from the slopes of the adjacent Palo Corona Regional Park and hillside seeps and convey these flows toward the downstream portion of the floodplain. This intermittent drainage channel will be graded with benches and gentle bank slopes to allow for establishing a corridor of riparian habitat. A remnant stock pond located along a drainage just upslope from the levee breaches will be left intact, but site grading will broaden the pond's berm to spread overflow across a broad slope that will support new riparian vegetation.

**Deliverables:*

- *As-builts for floodplain construction*
- *Pre- and post-pictures of salvaged trees (include in quarterly reports)*

Task 4 – Habitat Restoration

Following grading, the Project site will be actively revegetated on the west and east sides. Revegetation on the west side will be guided by the *Restoration and Management Plan for the Carmel River Floodplain Restoration and Environmental Enhancement Project* (H.T. Harvey & Associates, November 2016) (RMP).

A Habitat Management Plan (HMP) will be developed for at least 80 acres on the east side of SR 1. The HMP will also incorporate the processes and functions of levee breaches into the basis of design. Pilot plantings will be installed east of SR 1 immediately following floodplain construction to help inform the HMP and adaptive management of the entire Project site. Active revegetation during the grant term will be described and quantified in the Draft HMP and may include areas that correspond to the high flow conveyance channels, the intermittent drainage channel, slopes below the remnant stock pond, and or the elevated areas between the conveyance channels, see Attachment 1. Seed collection and propagation and plant procurement will occur to facilitate significant progress towards planting at least half of the total revegetation identified in the HMP during the grant term.

The draft and final HMP will include, but is not limited to, the following:

- Identification of contours, design plan, plant palette, watering needs, planting schedule, criteria for survivorship and cover, and long-term maintenance for

Exhibit E

revegetation on lands east of SR 1 that are owned by BSLT and Monterey Peninsula Regional Park District.

- Implementation plan and timeline for initial 40 acres of the project site.
- Implementation plan and timeline for remaining 40 acres of vegetation acreage.
- Refined survival and cover metrics to be met at project's end for the initial 40 acres.
- Plantings for the initial 40 acres on the east of SR 1 will be installed at least two years prior to the grant's end date. Additional time may be considered as needed.

Plant establishment will be facilitated by a combination of precipitation, surface and groundwater and irrigation. An above-ground irrigation system will be installed in specific areas on the east and west sides of SR 1 with a site-specific controller and valves. A bubbler system will be connected to plantings that are identified in the HMP as needing supplemental watering for establishment. The irrigation system will use existing wells on both sides of SR 1 and the Project site. The irrigation system will be maintained and repaired until the plants have established and supplemental watering is no longer needed.

During the plant establishment period (approximately 3 years following plant installation) installed plants will be irrigated, any dead plants will be replaced, and browsing and nonnative plants will be controlled. The plant establishment period will be extended beyond 3 years if significant plant replacement is required.

Grantee will enter into a long-term maintenance agreement/MOU with each Project partner that will delineate the parties' role and responsibility for long-term (25 years) and adaptive management activities post-construction of the Project. Public access and its management will also be included in the applicable MOU(s).

**Deliverables:*

- *Updates to RMP, including survivorship and cover criteria to be met at project close*
- *Draft HMP at least 30 days before Final HMP, include bulleted criteria above*
- *Final HMP (expected completion by August 2022) incorporating comments from WCB and partners as needed*
- *Photo documentation of installed irrigation system (include in quarterly reports)*
- *Biological as-built report for revegetation on west side of SR 1*
- *Restored native habitat that includes, at a minimum:*

West of SR 1

- *14.2 acres of willow and cottonwood riparian forest*
- *0.5-acre of mixed riparian forest*
- *565 plants of coastal scrub*

East of SR 1

- *Successful implementation of 40-acre restoration based on metrics identified in HMP. Implementation timing may be adapted following discussion with WCB.*

Management Plan

The duration of the Management Plan is 25 years (Project Life). The Grantee will ensure that the Project site restored with funds provided by the Grantor is operated, used and maintained throughout the Project Life consistent with the Purposes of the Grant and in accordance with the guidance documents outlined below.

The project partners (Big Sur Land Trust [BSLT], Monterey County Resource Management Agency, Monterey County Water Resources Agency, California State Parks, Monterey Peninsula Regional Park District [MPRPD], and Monterey Peninsula Water Management District) will develop a distinct Memorandum of Understanding (MOU) to address long-term maintenance. The MOU(s) will be executed prior to November 30, 2024 and be between all parties responsible for long-term maintenance of the floodplain and habitat restoration. Public access and its management will also be outlined in the MOU(s).

BSLT has established a \$2 million endowment fund for the Carmel River Floodplain Restoration and Environmental Enhancement Project that will be used for habitat restoration on the project site east of State Route 1 (SR-1) and its long-term management.

The long-term management of the floodplain and habitat restoration will be conducted according to the *Restoration and Management Plan for the Carmel River Floodplain Restoration and Environmental Enhancement*, prepared by H.T. Harvey and Associates (November, 2016) (RMP) and will also be addressed in the Habitat Management Plan (HMP) being prepared for the east side of SR-1 as part of the grant, expected completion in 2022. The RMP will be amended during final design to update any changed environmental conditions that may have occurred since the original plan was prepared and to include provisions for a 25-year maintenance and monitoring program for floodplain and habitat restoration.

The precise acreage of revegetation on the east side will be described and generally delineated in the HMP. The goal of revegetation on the east side is to establish a mosaic of natural communities that will provide for higher ecological and habitat values than the existing ruderal vegetation that currently exists on-site. The RMP expects both 16.9 acres of vegetation restoration on the west side of SR-1 and approximately 100 acres of habitat restoration on the east side to be completed as a result of the project.

The Landowners will continue regular maintenance and public access management activities on the Project Site. The Grantor will be notified in the case of any significant changes. As needed, the Grantee will coordinate with WCB and the landowners to determine appropriate adaptive management activities for the floodplain and vegetation restoration sites. In case of any failure or significant deficiencies, a corrective management strategy will be coordinated by the Grantee working with the Landowners and approved by WCB and implemented by the Grantee.

NOTICE OF UNRECORDED GRANT AGREEMENT

A Grant Agreement titled for reference purposes as **Carmel River Floodplain Restoration and Enhancement** (Agreement No. **WC-1947CA**), was entered into by and between the State of California, by and through the Wildlife Conservation Board (Board), **County of Monterey**, by and through the Resource Management Agency (Grantee) and multiple landowners, including the Monterey County Regional Park District and Big Sur Land Trust. As this recording is on the behalf of the State, please note the recording of these documents is not subject to payment of fees pursuant to Section 27383 of the Government Code.

The Board, Grantee and Landowner entered into said Grant Agreement (No. WC-1947CA), pursuant to which the Board granted funds to Grantee to perform certain activities on the certain real property in Monterey County owned by the Landowner, to , to restore riparian and floodplain habitat types The Grant Agreement term runs from **February 26, 2020**, through **November 30, 2024**, for capital improvements and restoration activities and from **February 26, 2020** through **February 29, 2045**, for management and monitoring practices. The terms, conditions and restrictions of the Grant Agreement are binding upon and inure to the benefit of the Landowner, and their respective personal representatives, heirs, successors, and assigns and shall continue as a servitude running for the project life span of the project on the subject lands as described in Exhibit "A" attached hereto and incorporated herein by this reference. For additional terms and conditions of the Grant, reference should be made to the Grant Agreement which is on file with the Wildlife Conservation Board, 1700 9th Street, 4th Floor, Sacramento, California 95811.

LEGAL DESCRIPTION

All that certain real property situated in the County of XXXX, State of California,
described as follows:

RESOLUTION 2015-07
OF THE BOARD OF TRUSTEES
OF THE BIG SUR LAND TRUST (BSLT)

GRANTING OF SIGNATURE AUTHORITY and AUTHORITY TO CONDUCT BUSINESS

RESOLUTION BY THE BOARD OF TRUSTEES OF THE BIG SUR LAND TRUST GRANTING SIGNING AUTHORITY AND AUTHORITY TO CONDUCT THE BUSINESS OF THE BIG SUR LAND TRUST

WHEREAS, the Board of Trustees of the Big Sur Land Trust is empowered by its Bylaws to conduct, manage and control the affairs and business of the Corporation; and

WHEREAS, the Board of Trustees desires to grant signing and operating authority to certain officers as described hereunder; and

WHEREAS, the proposed action is consistent with the goals and purposes of the Big Sur Land Trust as set forth in its Articles of Incorporation.

NOW THEREFORE, BE IT RESOLVED, that the Board of Trustees of the Big Sur Land Trust hereby grants the authority to conduct the business of the organization, to include the signing of any and all necessary documents, such documents including, but not limited to, the execution of deeds, powers of attorney, transfers, assignments, contracts, obligations, certificates, checks, and other instruments of whatever nature entered into by the Big Sur Land Trust, to the following persons:

Jeannette Tuitele-Lewis, President/CEO,

And, when she is unavailable or has specifically delegated such authority to him,
Richard D. Hamilton, COO

RESOLVED FURTHER, that the above named parties are hereby authorized and directed to certify to any interested party that this resolution has been duly adopted, is in full force and effect, and is in accordance with the provisions of the bylaws of the Big Sur Land Trust.

Approved and adopted the 13rd day of September 2015.

I, the undersigned, hereby certify that the foregoing Resolution Number 2015-07 was duly adopted by the Board of Trustees of the Big Sur Land Trust.

Judy Logan, Board Secretary
BIG SUR LAND TRUST
