As part of the Monterey County Health Department, Behavioral Health Bureau's Drug Medi-Cal Organized Delivery System (DMC-ODS) new modes of substance use disorder services are now billable to Drug Medi-Cal. Each Provider currently delivers the following SUD new and/or enhanced services: DTH: Outpatient group and individual therapy for adults and Residential Services for women including case management and Recovery Services, SSC: Outpatient group and individual therapy for youth and adults including case management and Recovery Services, Residential services for adults and Prevention services for youth, parents and caretakers, VHA: Outpatient group and individual therapy for adults and youth including case management and MAT. In addition to narcotic treatment

services such as methadone dosing, VHA also provides Buprenorphine, Disulfiram and Narcan.

To ensure continuity in the provision of SUD services to eligible residents in Monterey County, the Department seeks authorization to execute amendments which extend services through FY 2020-21 with DTH, SSC and VHA effective July 1, 2020 subject to further review and approval of County Counsel, County Risk Manager, and County Auditor Controller.

This work supports the Monterey County Health Department 2018-22 strategic plan initiative: 3. Ensure access to culturally and linguistically appropriate, customer-friendly, quality health services. It also supports one of the ten essential public health services, specifically: 7. Link people to needed personal health services and assure the provisions of health care when otherwise unavailable.
