

**MEMORANDUM OF UNDERSTANDING
BETWEEN
COUNTY OF MONTEREY
AND
THE SUPERIOR COURT OF CALIFORNIA, COUNTY OF MONTEREY
FOR THE DUI TREATMENT COURT PROGRAM**

ORIGINAL

This Memorandum of Understanding ("MOU"), entered into on November 2, 2017, which date is stated for purpose of reference only, is by and between the Superior Court of California - County of Monterey ("COURT") and the County of Monterey ("COUNTY") acting through four County agencies: the Monterey County District Attorney's Office ("the DA"), the Monterey County Public Defender's Office ("the PD"), the Monterey County Health Department, Behavioral Health Bureau ("BHB"), and the Monterey County Probation Department ("PROBATION") (collectively, "COUNTY agencies").

The purpose of this MOU is to set forth the roles and responsibilities of the parties participating in a DUI Treatment Court program, and to delineate their rights and responsibilities in fulfilling the purposes of grant number DI18018 ("OTS Grant") which is attached hereto as Exhibit 1 and incorporated herein by reference. The OTS Grant was awarded to the COURT by the California Office of Traffic Safety ("OTS") through the National Highway Traffic Safety Administration. The purpose of the OTS Grant is to sustain a DUI Treatment Court program at the Monterey County Superior Court. The DUI Treatment Court program focuses on high-risk multiple DUI offenders, holding them accountable for their actions and instituting a protocol to facilitate lasting behavioral changes, which shall include regular testing for substance use, participation in self-help meetings or court approved treatment programs, and close supervision by PROBATION and other service providers.

BACKGROUND

The California Office of Traffic Safety, through the National Highway Traffic Safety Administration, awarded the OTS Grant to the COURT in the amount of six hundred thousand dollars (\$600,000) for one (1) year, from October 1, 2017 to September 30, 2018, in order to sustain and expand a DUI Treatment Court program in collaboration with agency partners. The DUI Treatment Court program will continue to address the challenge of repeat-offense drunk drivers through a program based on the Drug Court model. The COURT's application for the OTS Grant was developed in consultation with the COUNTY agencies.

To implement the terms of the grant, the COURT and its partnering COUNTY agencies have established a collaboration through which the DUI Treatment Court program will operate and pursuant to which: the COURT provides judicial and administrative services, DA provides prosecution services, PD provides legal representation services, BHB provides treatment referrals, alcohol and drug testing, and case management services, and PROBATION provides drug and alcohol testing and probation oversight services.

Therefore, in order to reaffirm the understanding by which the DUI Treatment Court program will operate, to establish a self-sustaining system that will include contracted treatment providers and client payment, and to confirm an understanding regarding the implementation of the OTS Grant and the reimbursement of certain costs, the COURT and the COUNTY hereby agree to the terms set forth in this MOU.

1. PROBLEM STATEMENT

The community of Monterey County continues to be negatively impacted by the prevalence of issues related to drug and alcohol substance abuse, including traffic collisions resulting from driving under the influence (DUI) of these substances. In response to these ongoing issues, and with the support of OTS grant funds, the Monterey County Superior Court established an evidenced-based DUI Treatment Court in October 2015 designed to address DUI recidivism, which remains a serious problem on roadways across the County and State. In the second year of this grant-funded treatment court program, 77 DUI offenders were evaluated and at the end of the grant year there were 53 active participants enrolled, which will serve as the baseline for the 2018 grant. The Court expanded the program in 2017 to include both alcohol and drug DUI offenders, as the DMV revealed that during the decade prior to 2013 drug-involved fatalities had risen by 39.3 percent with 709 deaths. Additionally, in a 2014 NHTSA Roadside Survey of Alcohol and Drug Use by Drivers, found a large increase in the number of drivers using marijuana or other illegal drugs; nearly one in four drivers tested positive for at least one drug that may affect safety. Expanding the DUI Treatment Court to include alcohol, drug and poly-abusers advanced the goals of enhancing public safety by reducing recidivism, which prevents and reduces fatalities, serious injuries and the economic hardships caused by these types of traffic collisions. In 2018, the DUI Treatment Court program will increase the reach to as many in the community as possible who are struggling with drug and/or alcohol substance abuse and have been involved in at least one prior DUI, or first offenders with a high blood alcohol content. Overall, studies reflect that it is the multiple DUI offenders most subject to causing collisions involving injury and fatality. Statistics for Monterey County obtained from the California Attorney General's office indicate that between 2012-2014, DUI arrests averaged 2,198.

Monterey County is a diverse community with a population of close to half a million people comprised of 57.8 percent Hispanic, according to the US Census Bureau estimates for 2016. The Department of Motor Vehicles (DMV) 2015 Management Information System (MIS) Report summarizes that counties where the population of Hispanics is high, their DUI arrest rate is also high. In Monterey County, the statistics support this summary as Hispanics comprised 64.4 percent of those arrested for DUI during 2013. Additionally, the report also provides that of the 2,164 DUI arrests in 2013, 970 of them were between the age of 21-30 and of that 970, 783 were male.

The Drug/Alcohol DUI Treatment Court will continue to target non-violent repeat drug and/or alcohol DUI offenders, and first time offenders with a high blood alcohol content and/or a chemical addiction, to intervene utilizing strict supervision, treatment services, and other resources to reduce and prevent re-offenses. Providing alternatives to incarceration alone, focused on providing treatment, structure, and other resources to those who have a chemical addiction has proven effective. The National Center for DUI Court's website summarizes several studies on the success of DUI Treatment Courts, including one conducted by the Campbell Collaboration who conducted a meta-analysis of 28 evaluations of DUI Courts. This study resulted in a conclusion that these programs reduced recidivism by as much as 50-60 percent.

DUI offenders accepted into the Monterey County DUI Treatment Court program will continue to benefit from the strict supervision of a culturally and linguistically competent probation officer, regular interaction with a judge, constructive support through peer self-help meetings, multi-behavioral treatment services, coaching on coping skills/life management by a behavioral health professional, addressing transportation issues, and referrals to other support services for child care, education advancement, employment services, and other resources as essential for the success of each individual program participant.

The program is designed to provide therapeutic treatment options in lieu of incarceration alone, which requires much work, determination, and dedication for participants to be successful. Most participants have suspended licenses and need to depend on public transportation and/or friends and family to commute to the numerous appointments with Behavioral Health, Probation, the Court, and other community programs for testing, counseling, self-help meetings, judicial follow-up/interaction, and other mandatory program commitments. All of this is in addition to their normal day-to-day work/life activities. Incarceration is most likely an easier option, but those who truly recognize the need for change in their lives are provided the opportunity and support to finally realize the changes needed in their lives. There is local evidence of the positive impacts this time of intervention produces. In December 2016, the Monterey DUI Treatment Court program had its first graduation, which is notable, as one graduate was representative of our primary target audience. This graduate was a three-time male DUI offender, mid-30's, married with children, employed, and was quick to deny a dependence on alcohol throughout his assessment period and only committed to the program

because of the opportunity to clean his record. Months later, after working a 12-step program and obtaining a sponsor he has a new perspective and openly shared it in court, encouraging new participants to engage in the program referring to it as life-changing and the support he needed. He also reported that he is a better father, partner, and person now with over 12 months sober. This young man's life was altered, the life of his family was altered and the public's safety positively impacted by his engagement in the DUI Treatment Court. He participated in the DUI Treatment Court program, while working full-time and attending Hartnell Community College full-time. He has been named to the President's Honor Roll and received a Certificate of Achievement from the Men's Institute for Leadership and Education. He graduated with an AA from Hartnell College last spring and transferred to a university.

3. METHOD OF PROCEDURE

A. Phase 1 – Program Preparation (1st Quarter of Grant Year)

- **Preparation and Implementation:** This is a 3rd year grant application for the DUI Treatment Court implemented in Monterey County October 30, 2015, so there will be a limited amount of preparation and implementation work to be done. The Court and partner agencies will meet quarterly to discuss program successes and concerns and adjust program requirements, criteria, rewards, sanctions, and/or phases, as deemed necessary by the collaboration. The collaboration will also discuss data collection protocols and alter elements as needed.
- **Contracts:** The Court will renew the MOU with the Offices of the District Attorney, Public Defender, and Sheriff's Offices to ensure ongoing commitment to the program, and the Behavioral Health Bureau and Probation for provision of an increased volume of assessment and supervision services for the 2018 fiscal year. These services are currently being provided and a MOU is in place, so no delay is anticipated.
- **Purchases:** Alcohol, drug testing and other general supplies will be purchased during the start-up quarter.
- **Training:** Members of the collaborative team attended an initial DUI Treatment Court implementation training in 2014, a DUI Tune-up in 2016, an annual National Drug Court Association (NADCP) conference in 2016 and 2017, so no initiation training is expected in the 1st quarter of the 2018 fiscal year.
- **Media Requirements:** Issue a press release announcing the kick-off of the grant by November 15. The kick-off press releases and media advisories, alerts, and materials must be emailed to the OTS Public Information Officer at pio@ots.ca.gov, and copied to your OTS Coordinator, for approval 14 days prior to the issuance date of the release.

B. Phase 2 – Program Operations (Throughout Grant Year)

- **Operations:** The Monterey County Superior Court will sustain a Drug/Alcohol DUI Treatment Court utilizing evidence-based best practices as previously defined within this grant application. Following arraignment for a qualifying DUI offense, referrals will be assessed by Behavioral Health Bureau and a recommendation made to the Court and the treatment court team. If eligibility is determined, the participant will be sentenced and supervision, treatment, self-help meetings and case management, and other required services will be initiated. The DUI Treatment Court team will conduct weekly sessions and attend court proceedings to report on individual progress or non-compliance issues. The court will issue incentives and sanctions, as necessary. Program participants will continue to be monitored and data collected on participant compliance, program progress and non-compliance factors. Relevant information will be collected to monitor the program's success, which will also be utilized for grant performance reporting and potentially provide prospects for alternative funding to ensure sustainability of the program once OTS funding is no longer available.
- **Partnerships:** The Court and agency partners through established relationships with the local CHP, MADD, the Monterey County Office of Education, and Monterey County Bar Association will participate in one or more DUI educational programs designed to educate high school and college age students about the negative consequences of driving while under the influence of drugs and/or alcohol.
- **Media Requirements**
- Send all grant-related activity press releases, media advisories, alerts and general public materials to the OTS Public Information Officer (PIO) at pio@ots.ca.gov, with a copy to your OTS Coordinator.
- a) If an OTS template-based press release is used, the OTS PIO and Coordinator should be copied when the release is distributed to the press. If an OTS template is not used, or is substantially changed, a draft press release shall be sent to the OTS PIO for approval. Optimum lead time would be 10-20 days prior to the release date to ensure adequate turn-around time.
- b) Press releases reporting the results of grant activities such as enforcement operations are exempt from the recommended advance approval process, but still should be copied to the OTS PIO and Coordinator when the release is distributed to the press.
- c) Activities such as warrant service operations and court stings that could be compromised by advanced publicity are exempt from pre-publicity, but are encouraged to offer embargoed media coverage and to report the results.
- Use the following standard language in all press, media, and printed materials: *Funding for this program was provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration.*

C. Phase 3 – Data Collection & Reporting (Throughout Grant Year)

- Invoice Claims (due January 30, April 30, July 30, and October 30)
- Quarterly Performance Reports (due January 30, April 30, July 30, and October 30)
 - Collect and report quarterly, appropriate data that supports the progress of goals and objectives.
 - Provide a brief list of activity conducted, procurement of grant-funded items, and significant media

activities. Include status of grant-funded personnel, status of contracts, challenges, or special accomplishments.

- Provide a brief summary of quarterly accomplishments and explanations for objectives not completed or plans for upcoming activities.
- Collect, analyze and report statistical data relating to the grant goals and objectives.

4. METHOD OF EVALUATION

Using the data compiled during the grant, the Grant Director will complete the "Final Evaluation" section in the fourth/final Quarterly Performance Report (QPR). The Final Evaluation should provide a brief summary of the grant's accomplishments, challenges and significant activities. This narrative should also include whether goals and objectives were met, exceeded, or an explanation of why objectives were not completed.

5. ADMINISTRATIVE SUPPORT

This program has full administrative support, and every effort will be made to continue the grant activities after grant conclusion.

CERTIFICATION REGARDING DEBARMENT AND SUSPENSION

Instructions for Primary Certification

1. By signing and submitting this grant agreement, the Grantee Agency Official is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the Grantee Agency Official to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the Grantee Agency Official knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
4. The Grant Agency Official shall provide immediate written notice to the department or agency to which this grant agreement is submitted if at any time the Grantee Agency Official learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms *covered transaction*, *debarred*, *suspended*, *ineligible*, *lower tier covered transaction*, *participant*, *person*, *primary covered transaction*, *principal*, *grant agreement*, and *voluntarily excluded*, as used in this clause, have the meaning set out in the Definitions and coverage sections of 49 CFR Part 29. You may contact the department or agency to which this grant agreement is being submitted for assistance in obtaining a copy of those regulations.
6. The Grantee Agency Official agrees by submitting this grant agreement that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who

is proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

7. The Grantee Agency Official further agrees by submitting this grant agreement that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the list of Parties Excluded from Federal Procurement and Non-procurement Programs.
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
