Agency shall certify the claim if it complies with this contract and shall promptly submit such claim to the Monterey County Auditor-Controller, who shall pay the certified amount within 30 days after receiving the invoice certified by Agency. It is understood and agreed that CONTRACTOR shall complete all work described in Exhibit A for an amount not exceeding that set forth above, notwithstanding CONTRACTOR's submission of periodic invoices.

5. Indemnification

- 5.1 For purposes of the following indemnification provisions ("Indemnification Agreement"), "design professional" has the same meaning as set forth in California Civil Code section 2782.8. If any term, provision or application of this Indemnification Agreement is found to be invalid, in violation of public policy or unenforceable to any extent, such finding shall not invalidate any other term or provision of this Indemnification Agreement and such other terms and provisions shall continue in full

force and effect. If there is any conflict between the terms, provisions or application of this Indemnification Agreement and the provisions of California Civil Code Sections 2782 or 2782.8, the broadest indemnity protection for the COUNTY under this Indemnity Agreement that is permitted by law shall be provided by CONTRACTOR.

5.2 Indemnification for Design Professional Services Claims: CONTRACTOR shall indemnify, defend and hold harmless COUNTY, its governing board, directors, officers, employees, and agents against any claims that arise out of, or pertain to, or relate to the negligence, recklessness, or willful misconduct of the CONTRACTOR, its employees, subCONTRACTORS, and agents in the performance of design professional services under this Agreement, excepting only liability arising from the sole negligence, active negligence or willful misconduct of COUNTY, or defect in a design furnished by COUNTY, but in no event shall the amount of such CONTRACTOR's liability exceed such CONTRACTOR's proportionate percentage of fault as determined by a court, arbitrator or mediator, or as set out in a settlement agreement. In the event one or more defendants to any action involving such claim or claims against COUNTY is unable to pay its share of defense costs due to bankruptcy or dissolution of the business, such CONTRACTOR shall meet and confer with the other parties to such action regarding unpaid defense costs.

5.3 Indemnification for All Other Claims or Loss:
For any claim, loss, injury, damage, expense or liability other than claims arising out of the CONTRACTOR's performance of design professional services under this Agreement, CONTRACTOR shall indemnify, defend and hold harmless COUNTY, its governing board, directors, officers, employees, and agents against any claim for loss, injury, damage, expense or liability resulting from or alleging injury to or death of any person or loss of use of or damage to property, arising from or related to the performance of services under this Agreement by CONTRACTOR, its employees, subCONTRACTORS or agents, excepting only liability arising from the sole negligence, active negligence or willful misconduct of the COUNTY, or defect in a design furnished by the COUNTY.

Prior to commencement of this Agreement, the CONTRACTOR shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition the CONTRACTOR upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the Agency's Contact, unless otherwise directed. The CONTRACTOR shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and such, insurance has been approved by the Agency. This approval of insurance shall

neither relieve nor decrease the liability of the CONTRACTOR.

Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.

☐ Exemption/Modification (Justification attached; subject to approval).

Each liability policy shall provide that the Agency shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for CONTRACTOR and additional insureds with respect to claims arising from each subCONTRACTOR, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subCONTRACTOR showing each subCONTRACTOR has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the Monterey County Water Resources Agency and the County of Monterey, their officers, agents, and employees as Additional Insureds with respect to liability arising out of the CONTRACTOR'S work, including ongoing and completed operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the County and that the insurance of the Additional Insureds shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by Agency, annual certificates to Agency's Contract Administrator. If the certificate is not received by the expiration date, Agency shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in

the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles Agency, at its sole discretion, to terminate this Agreement immediately.

7. Maintenance of Records. CONTRACTOR shall prepare, maintain and preserve all reports and records that may be required by federal, State, and local rules and regulations relating to services performed under this Agreement. CONTRACTOR shall retain all such records for at least five years from the date of final payment, or until any litigation relating to this Agreement is concluded, whichever is later.
8. Right to Audit at Any Time. Agency officials shall have the right, at any time during regular working hours and on reasonable advance notice, to examine, monitor and audit all work performed and all records, documents, conditions, activities and procedures of CONTRACTOR or its subCONTRACTORS relating to this Agreement. Government Code Section 8546.7 provides that an audit by the State Auditor General may be performed up to three years after the final payment under any contract involving the expenditure of public funds in excess of \$10,000.
9. Confidentiality; Return of Records. CONTRACTOR and its officers, employees, agents, and subCONTRACTORS shall comply with all federal, State and local laws providing for the confidentiality of records and other information. To the extent permitted by applicable law and regulations, CONTRACTOR shall maintain confidentiality with respect to Agency's well database and other water use data.

CONTRACTOR shall not disclose any confidential information received from Agency or prepared in connection with the performance of this Agreement without the express permission of Agency. CONTRACTOR shall promptly transmit to Agency all requests for disclosure of any such confidential information. CONTRACTOR shall not use any confidential information gained through the performance of this Agreement except for the purpose of carrying out CONTRACTOR's obligations hereunder. When this Agreement expires or terminates, CONTRACTOR shall return to Agency all records, which CONTRACTOR utilized or received, from Agency to perform services under this Agreement.

10. Termination. Either party may terminate this Agreement by giving written notice of termination to the other party at least thirty (30) days prior to the effective date of termination, which date shall be specified in any such notice. In the event of such termination, the amount payable hereunder shall be reduced in proportion to the services provided prior to the effective date of termination. Agency may terminate this Agreement at any time for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes, without limitation, the failure of CONTRACTOR to perform the required services at the time and in the manner provided herein. If Agency terminates this Agreement for good cause, Agency may be relieved of the payment of any consideration to CONTRACTOR, and Agency may proceed with the work in any manner, which it deems proper. Costs incurred by Agency thereby shall be

deducted from any sum due CONTRACTOR.

CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR shall comply fully with all federal, State and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to any target population designated herein shall not be deemed prohibited discrimination.

2.1 *Work Plan*

MCWRA requires fish monitoring services at various times throughout the year within the Salinas and Gabilan watersheds in Monterey and San Luis Obispo counties. Those services include the following tasks:

TASK 1 - Smolt Outmigration Monitoring

MCWRA uses rotary-screw traps to capture out migrating steelhead smolts. These data will be used to confirm the adequacy of block flow releases and the timing and abundance of smolts. Exact deployment locations will be determined based on, but not limited to, the following criteria: 1) minimum and maximum velocity requirements of the equipment as well as historic flow data at that site, 2) channel morphology, 3) and mooring/anchoring features such as bridges or stream banks.

Contractors will be responsible for all the project staffing requirements to accomplish the following:

- (1) Install and maintain RSTs at time/location to be determined
- (2) Remove, clean and prepare the RSTs for storage after season end
- (3) At a minimum, the following information will be recorded daily (when RST is in operation) from each monitoring device:
 - (a.) Measured length of any steelhead recovered
 - (b.) Weight of any steelhead recovered
 - (c.) External Condition of steelhead, which includes characteristics of progress of transition from freshwater parr stage to seawater tolerant smolt stage.
 - (d.) Fish Count and species count
 - (e.) Photograph of representative fish
 - (f.) Water quality data (SEC, DO, Temp, pH) collected at each site
 - (g.) Information relevant to the function of the screw traps (i.e., velocity of water entering the trap, timing of trap rotation, etc.)
 - (i) Number of steelhead pit tagged.
- (4) Provide report by August 1 that include:
 - (a.) A description of the project location(s)
 - (b.) Description of the sampling methods and protocols,
 - (c.) Results, conclusions and recommendations for possible improvements to future efforts,
 - (d.) All data collected during the monitoring in report and electronic format

TASK 2 – Adult Upstream Migration

MCWRA owns a Vaki Riverwatcher System to perform the monitoring of adult steelhead upstream migration in the Salinas River. The contractor will be required to install and remove the Riverwatcher system, used in conjunction with a resistance board weir. Monitor and clean the weir on a regular basis to minimize debris loads as well as identify adult steelhead utilizing the Riverwater video and infrared images.

- (1) Install resistance board weir and Vaki Riverwatcher System in the Salinas River, normally near the SRDF in Marina, CA.
- (2) Monitor weir as necessary for debris and keep cleaned.
- (3) Using images captured by the Riverwatcher system, identify adult steelhead migrating upstream.
- (4) Remove, clean and prepare for storage Riverwatcher system and resistance board weir after monitoring season.
- (5) Provide report by June 1 that includes:
 - (a.) A description of the project location(s)
 - (b.) Description of the sampling methods and protocols,
 - (c.) Results, conclusions and recommendations for possible improvements to future efforts,
 - (d.) All data collected during the monitoring in report and electronic format

TASK 3 – Index-Reach Survey

Contractors will provide properly permitted staff and equipment to perform index reach monitoring by electrofishing (depletion sampling), multipass dive counts or other methods approved by MCWRA. The contractor will:

- (1) Perform Index reach surveys on the San Antonio, Arroyo Seco and Nacimiento Rivers.
- (2) Surveys will be conducted utilizing either electrofishing (depletion surveys) or multi-pass dive counts. Conditions and direction from MCWRA (flow, visibility, etc.) during the sampling period will dictate which method will be utilized.
- (3) Provide report by December 1 that includes:
 - (a.) A description of the project location(s)
 - (b.) Description of the sampling methods and protocols,
 - (c.) Results, conclusions and recommendations for possible improvements to future efforts,
 - (d.) All data collected during the monitoring in report and electronic format

TASK 4 – Index Pit Tagging

Contractor will install and maintain pit tag array(s) and report data collected.

TASK 5 – Index Lagoon Monitoring

Contractor will perform fish monitoring as needed in the Salinas River Lagoon by seining or other methods approved by MCWRA.

TASK 6 - On-call Services

Contractor will provide on-call services to MCWRA as requested. The need for these services may occur under emergency conditions, including inclement weather, and outside of normal business hours. If on-call services are requested, it will be billed on a time and materials basis as agreed upon between the Contractor and MCWRA.

If the certificate is not received by the expiration date, Agency shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in

Scope of Work

2.1 *Work Plan*

MCWRA requires fish monitoring services at various times throughout the year within the Salinas and Gabilan watersheds in Monterey and San Luis Obispo counties. Those services include the following tasks:

TASK 1 - Smolt Outmigration Monitoring

MCWRA uses rotary-screw traps to capture out migrating steelhead smolts. These data will be used to confirm the adequacy of block flow releases and the timing and abundance of smolts. Exact deployment locations will be determined based on, but not limited to, the following criteria: 1) minimum and maximum velocity requirements of the equipment as well as historic flow data at that site, 2) channel morphology, 3) and mooring/anchoring features such as bridges or stream banks.

Contractors will be responsible for all the project staffing requirements to accomplish the following:

- (1) Install and maintain RSTs at time/location to be determined
- (2) Remove, clean and prepare the RSTs for storage after season end
- (3) At a minimum, the following information will be recorded daily (when RST is in operation) from each monitoring device:
 - (a.) Measured length of any steelhead recovered
 - (b.) Weight of any steelhead recovered
 - (c.) External Condition of steelhead, which includes characteristics of progress of transition from freshwater parr stage to seawater tolerant smolt stage.
 - (d.) Fish Count and species count
 - (e.) Photograph of representative fish
 - (f.) Water quality data (SEC, DO, Temp, pH) collected at each site
 - (g.) Information relevant to the function of the screw traps (i.e., velocity of water entering the trap, timing of trap rotation, etc.)
 - (i) Number of steelhead pit tagged.
- (4) Provide report by August 1 that include:
 - (a.) A description of the project location(s)
 - (b.) Description of the sampling methods and protocols,
 - (c.) Results, conclusions and recommendations for possible improvements to future efforts,
 - (d.) All data collected during the monitoring in report and electronic format

TASK 2 – Adult Upstream Migration

MCWRA owns a Vaki Riverwatcher System to perform the monitoring of adult steelhead upstream migration in the Salinas River. The contractor will be required to install and remove the Riverwatcher system, used in conjunction with a resistance board weir. Monitor and clean the weir on a regular basis to minimize debris loads as well as identify adult steelhead utilizing the Riverwater video and infrared images.

- (1) Install resistance board weir and Vaki Riverwatcher System in the Salinas River, normally near the SRDF in Marina, CA.
- (2) Monitor weir as necessary for debris and keep cleaned.
- (3) Using images captured by the Riverwatcher system, identify adult steelhead migrating upstream.
- (4) Remove, clean and prepare for storage Riverwatcher system and resistance board weir after monitoring season.
- (5) Provide report by June 1 that includes:
 - (a.) A description of the project location(s)
 - (b.) Description of the sampling methods and protocols,
 - (c.) Results, conclusions and recommendations for possible improvements to future efforts,
 - (d.) All data collected during the monitoring in report and electronic format

TASK 3 – Index-Reach Survey

Contractors will provide properly permitted staff and equipment to perform index reach monitoring by electrofishing (depletion sampling), multipass dive counts or other methods approved by MCWRA. The contractor will:

- (1) Perform Index reach surveys on the San Antonio, Arroyo Seco and Nacimiento Rivers.
- (2) Surveys will be conducted utilizing either electrofishing (depletion surveys) or multi-pass dive counts. Conditions and direction from MCWRA (flow, visibility, etc.) during the sampling period will dictate which method will be utilized.
- (3) Provide report by December 1 that includes:
 - (a.) A description of the project location(s)
 - (b.) Description of the sampling methods and protocols,
 - (c.) Results, conclusions and recommendations for possible improvements to future efforts,
 - (d.) All data collected during the monitoring in report and electronic format

TASK 4 – Index Pit Tagging

Contractor will install and maintain pit tag array(s) and report data collected.

TASK 5 – Index Lagoon Monitoring

Contractor will perform fish monitoring as needed in the Salinas River Lagoon by seining or other methods approved by MCWRA.

TASK 6 - On-call Services

Contractor will provide on-call services to MCWRA as requested. The need for these services may occur under emergency conditions, including inclement weather, and outside of normal business hours. If on-call services are requested, it will be billed on a time and materials basis as agreed upon between the Contractor and MCWRA.

JUSTIFICATION OF SOLE SOURCE/SOLE BRAND REQUEST

Purchase Requisition Number _____ Date March 13, 2019 _____

Description of Item: Physical assessment and biological monitoring assessment for Salinas River Stream Maintenance Program.

1. Please indicate the following:

Procurement: ☐ Goods
☒ Services

(Check One)

☐ Sole Source: Item is available from one source only. Item is a one-of-a kind and is not sold through distributors. Manufacturer is exclusive distributor.

☐ Sole Brand: Various sources can supply the specified model and brand and competitive bids will be solicited for the requested brand only. Meets form, fit and function- nothing else will do.

Note: Sole Source/Sole Brand Requests are not maintained as a standing request. Each request is for a single one-time purchase only.

2. Vendor Selection:

☐ Preferred Vendor
☒ Sole Source

Vendor Name: FISHBIO_____
Address: 1617 S. Yosemite Ave. City: Oakdale State: CA 95361
Phone Number: (209) 847-63007 Fax: (_____)_____
Contact Person: Doug Demko Title: President
Federal Employer # _____

3. Provide a brief description of the goods/services to be purchased and why this purchase is being proposed under a sole source acquisition.

a) Why were product and/or vendor chosen?

The vendor is currently monitoring Salinas River Watershed and has built customized equipment to be deployed on an annual basis. They have previously acquired data and will be able to analyze and process that data in conjunction with additional data

collected under the contract. FISHBIO has unique project knowledge and understanding that benefits MCWRA.

- b) What are the unique performance features of the product/brand requested that are not available in any other product/brand? For Services: what unique qualifications, rights, and licenses does the vendor possess to qualify as a sole source/brand request?

The vendor is well versed in the program, permit requirements, unique watershed conditions, MCWRA's specific needs and has vast project history and knowledge. The vendor has skills necessary to install and operate the customized monitoring equipment, that would be very difficult to transfer to another vendor.

- c) Why are these specific features/qualifications required?

The program requires specific, focused permits and knowledge for implementation. The vendor has been involved with the program for over seven years and has considerable background information and technical information specific to the project areas.

- d) What other products/services have been examined and/or rejected?

Hiring a different biological consultant was reviewed, but other consultants can not bring the project history and understanding that FISHBIO possesses.

- e) Why are other sources providing like goods or services unacceptable (please give a full meaningful explanation)?

The project area is over 100 miles of river channel and is unique system with limited data available. It would be very costly for another vendor to develop the necessary knowledge to adequately implement and support the program. The permit requirements are very complicated since there are many agencies (State and Federal) involved. Getting some one up to speed in the limited time line would be a challenge and extraordinarily expensive.

- f) What are the unique performance features REQUIRED (not merely preferred), and how would your requirement be inhibited without this particular item or service?

A solid and relevant understanding of the multiple facets of this project and MCWRA needs, U.S. Fish and Wildlife Service-approved biologists, familiarity with hundreds of program-specific permit requirements, and access to existing program-specific data.

- g) Estimated Costs: \$300,000

4. Is there an unusual or compelling urgency associated with this project?

X No
Yes (Please describe)

THE FOLLOWING TO BE COMPLETED BY THE REQUESTOR

I hereby certify that:

1. I am an approved department representative and am aware of the County's requirements for competitive bidding, as well as the criteria for justification for sole source/brand purchasing.
2. I have gathered the required technical information and have made a concentrated effort to review comparable and/or equal equipment.
3. The information contained herein is complete and accurate.
4. There is justification for sole source/brand purchasing noted above as it meets the County's criteria.
5. A sole source/brand purchase in this case would withstand a possible audit or a vendor's protest.
