Professional Summary:

I worked for the Salinas City Elementary School District for 39 years before I retired. During those years, I volunteered with many organizations. I have received many awards and certificates from the organizations. I was also featured as a community volunteer from a local TV station. While I was on the Mo Co Restorative Justice, I spoke with youth in Juvenal Hall and to other groups as a victim. With my volunteer experience, I have organized fund raisers for various clubs. Giving back to my community has always been a priority of mine.
