Current Status: Scheduled AM
Matter Type: Ordinance

Consider introducing, waiving reading, and setting February 13, 2024, at 10:30 a.m. as the date and time to consider adoption of an ordinance to amend Sections 10.41.010 and 10.41.040 of the Monterey County Code to increase fines for littering in unincorporated Monterey County.

Proposed California Environmental Quality Act (CEQA) Action: Consider finding that the adoption of this ordinance is categorically exempt per Section 15308 of the CEQA Guidelines because the action consists of creating regulations for the protection of the environment.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
a. Find the adoption of this ordinance is categorically exempt per Section 15308 of the CEQA Guidelines because the action consists of creating regulations for the protection of the environment; and
b. Introduce, waive first reading, set February 13, 2024, at 10:30 a.m. as the date and time to consider adoption of an ordinance to amend Sections 10.41.010 and 10.41.040 of the Monterey County Code to increase fines for littering in unincorporated Monterey County.

SUMMARY/DISCUSSION:
Pursuant to Article XI, Section 7 of the California Constitution, the County of Monterey may adopt and enforce ordinances and regulations to protect the natural resources of the County and promote the public health, safety, and welfare of its citizens.

On November 28, 2023, the Monterey County Environmental Health Bureau provided an update to the Board of Supervisors in response to Board Referral No.2023-20 addressing litter fines. Staff were subsequently directed to proceed with amending Monterey County Code to add specific litter fines.

Current regulations are set forth in Monterey County Code Section 10.41.040 as follows:

"10.41.040- Litter Generally:

A. A person shall not throw or deposit, or cause to be thrown or deposited, any refuse upon any premises whatsoever except at a permitted disposal facility.
B. Transporting refuse in container used for burning. A person shall not transport refuse in any container that has been used for burning.
C. State Law Relative to Littering. The attention of all persons is directed to Section

374 et seq. of the Penal Code and other provisions of the laws of the State prohibiting the littering of public highways."

As Chapter 10.41 does not set forth a specific fine for violations of these regulations, such violations are subject to general fines as currently set forth in Monterey County Code Section 1.22.100, "Administrative Citations and Fines," which imposes administrative fines for violations in the amount of $100 for a first violation, $200 for a second violation within a year, and $500 for a third violation within a year.

Board Referral No. 2023.20 seeks to amend Monterey County Code to increase fines to deter littering, prevent illegal dumping, promote an enjoyable environment, and protect our natural resources. The purpose of amending the code is to facilitate an effective response to holding those responsible for illegal dumping and littering by clarifying code violations, increasing penalties, and updating language to emphasize local roles and responsibilities.

Illegal dumping and littering of solid waste and refuse is a common, repeated and increasing occurrence despite regulatory and service-related activities performed by the County of Monterey's various departments and agencies. Residents and local groups of ordinary citizens who volunteer their own personal time and efforts to clean up after those who break the law, do not deter law breakers. Many jurisdictions understand that public education and physical eradication efforts also require a robust enforcement element for an effective system to succeed.

A survey of littering fines for five counties was conducted with fines ranging from $100 to $10,000.

First, to clearly set forth those County officials who are empowered to enforce this regulation, Staff recommend that the definition of "Enforcement Official" be added to the definitions section of 10.41.010 in its alphabetically appropriate location as new subsection G, and that all subsequent definition subsections be correctly re-alphabetized, as that this definition read as follows:

"<u>"Enforcement Official" means any officer, employee, or agent of the County or any deputy or designee of such officer, employee, or agent that is charged with responsibility for enforcement of any provision of this Code.</u>"

Monterey County Code Section 10.41.040 be amended to read as follows:

"10.41.040- Litter Generally:

A. A person shall not throw or deposit, or cause to be thrown or deposited, any refuse upon any premises whatsoever except at a permitted disposal facility.

B. Transporting refuse in container used for burning. A person shall not transport refuse in any container that has been used for burning.
C. State Law Relative to Littering. The attention of all persons is directed to Section 374 et seq. of the Penal Code and other provisions of the laws of the State prohibiting the littering of public highways.
D. Violations. The Enforcement Official may issue an administrative citation for the violation of this Section as a civil penalty as follows:
   1. The first violation shall be punishable by a fine of not more than two thousand five hundred dollars ($2,500).
   2. The second violation during a twelve (12) month period shall be punishable by a fine of not more than five thousand dollars ($5,000).
   3. The third, and any subsequent, violation during a twelve (12) month period shall be punishable by a fine of not more than ten thousand dollars ($10,000)."

These amendments will assist any responding County agency that would encounter littering. The proposed increased fines are intended to be a deterrent to littering not an unintended financial burden. Ideally, a first offense will not warrant a subsequent second or third fine.

It is worth noting that other jurisdictions, within California and other states, have discussed the benefits of implementing fines at the statewide Illegal Dumping Conference. This conference highlights "the three E's" of education, eradication, and enforcement as the best approach for addressing illegal dumping. Locally, the Illegal Dumping Litter Abatement Task Force, known as IDLATF, has modeled its subcommittees after this three-pronged approach. The Education & Outreach subcommittee has worked on distributing a quarterly newsletter, creating media posts/videos, promoting the Disposal Voucher Program, and more as part of the efforts to continuously educate the public on why they shouldn't illegally dump and alternatives to illegal dumping. The Eradication subcommittee has hosted regular community cleanups throughout the County, collaborating with franchise solid waste haulers who also host cleanup events for residents, and working with Public Works to clean up illegal dumpsites, and more. The Enforcement and Eradication subcommittees have been developing a pilot surveillance program and implementing significant fines for illegal dumping/litter will strengthen enforcement efforts through distinct consequences to illegal dumping.

The Education and Outreach subcommittee's efforts are provided in multiple languages. The pilot surveillance programs of the Enforcement and Eradication subcommittees emphasize efforts in underserved communities, activities which mirror efforts of the Environmental Health Bureau.

This activity supports the Monterey County Health Department 2018-2024 Strategic Plan Goals: 1) Empower the community to improve health; 2) Enhance community health and safety through prevention. This activity also supports two of the ten essential public health services specifically: 5. Develop policies and plans that support individual and community health efforts and 6. Enforce laws and regulations that protect health and ensure safety.

OTHER AGENCY INVOLVEMENT:

The Office of the County Counsel has approved this ordinance as to form.

FINANCING:
Adoption of the ordinance itself will not have direct financial impacts. Costs for implementation, enforcement, public outreach, and education will be covered through existing department budgets.

January 30, 2024

Introduced: 1/19/2024
Version: 1

Current Status: Agenda Ready
Matter Type: Ordinance

Consider introducing, waiving reading, and setting February 13, 2024, at 10:30 a.m. as the date and time to consider adoption of an ordinance to amend Sections 10.41.010 and 10.41.040 of the Monterey County Code to increase fines for littering in unincorporated Monterey County.

Proposed California Environmental Quality Act (CEQA) Action: Consider finding that the adoption of this ordinance is categorically exempt per Section 15308 of the CEQA Guidelines because the action consists of creating regulations for the protection of the environment.

RECOMMENDATION:

It is recommended that the Board of Supervisors:

a. Find the adoption of this ordinance is categorically exempt per Section 15308 of the CEQA Guidelines because the action consists of creating regulations for the protection of the environment; and

b. Introduce, waive first reading, set February 13, 2024, at 10:30 a.m. as the date and time to consider adoption of an ordinance to amend Sections 10.41.010 and 10.41.040 of the Monterey County Code to increase fines for littering in unincorporated Monterey County.

SUMMARY/DISCUSSION:

Pursuant to Article XI, Section 7 of the California Constitution, the County of Monterey may adopt and enforce ordinances and regulations to protect the natural resources of the County and promote the public health, safety, and welfare of its citizens.

On November 28, 2023, the Monterey County Environmental Health Bureau provided an update to the Board of Supervisors in response to Board Referral No.2023-20 addressing litter fines. Staff were subsequently directed to proceed with amending Monterey County Code to add specific litter fines.

Current regulations are set forth in Monterey County Code Section 10.41.040 as follows:

> "10.41.040- Litter Generally:
>
> A. A person shall not throw or deposit, or cause to be thrown or deposited, any refuse upon any premises whatsoever except at a permitted disposal facility.
> B. Transporting refuse in container used for burning. A person shall not transport refuse in any container that has been used for burning.
> C. State Law Relative to Littering. The attention of all persons is directed to Section 374 et seq. of the Penal Code and other provisions of the laws of the State prohibiting the littering of public highways."

DocuSign Envelope ID: FB884D83-80C7-4751-AFB4-0FCD49F6AD3A

As Chapter 10.41 does not set forth a specific fine for violations of these regulations, such violations are subject to general fines as currently set forth in Monterey County Code Section 1.22.100, "Administrative Citations and Fines," which imposes administrative fines for violations in the amount of $100 for a first violation, $200 for a second violation within a year, and $500 for a third violation within a year.

Board Referral No. 2023.20 seeks to amend Monterey County Code to increase fines to deter littering, prevent illegal dumping, promote an enjoyable environment, and protect our natural resources. The purpose of amending the code is to facilitate an effective response to holding those responsible for illegal dumping and littering by clarifying code violations, increasing penalties, and updating language to emphasize local roles and responsibilities.

Illegal dumping and littering of solid waste and refuse is a common, repeated and increasing occurrence despite regulatory and service-related activities performed by the County of Monterey's various departments and agencies. Residents and local groups of ordinary citizens who volunteer their own personal time and efforts to clean up after those who break the law, do not deter law breakers. Many jurisdictions understand that public education and physical eradication efforts also require a robust enforcement element for an effective system to succeed.

A survey of littering fines for five counties was conducted with fines ranging from $100 to $10,000.

Location	**1st**	**2nd**	**3rd**
San Jose	$2500	$5000	$10,000
Santa Cruz	$100	$200	$500

d. Authorize the County Administrative Officer, or designee to execute all necessary documents required to be awarded for one or both Encampment Resolution Funding allocations.

SUMMARY/DISCUSSION:

The County Administrative Office, Homeless Services Program (CAO-HS) recommends the Board of Supervisors approve the submission of two (2) ERF-3-R applications to assist with the housing of people living along the Salinas River in Soledad and King City as outlined in the presentation (Attachment A).

In March 2023, Encampment Resolution Funding Round 3 (ERF-3-R) was authorized through Senate Bill (SB) 197 (Chapter 70, Statutes of 2022), and enacted under Chapter 7 of Part 1 of Division 31 of the California Health and Safety Code (HSC) (sections 50250 et seq.) The ERF Program was established in 2022 to increase collaboration between the California Interagency Council on Homelessness (CAL-ICH), local jurisdictions, and continuums of care (CoC's) to accomplish the following:

- Assist Local Jurisdictions in ensuring the safety and wellness of people experiencing homelessness in encampments.

- Provide grants to Local Jurisdictions and CoCs to resolve critical encampment concerns and transition individuals into safe and stable housing.
- Encourage a data-informed, coordinated approach to address encampment concerns.

The $400 million allocated by the 2023-2024 State budget for ERF-3-R was appropriated by SB 101 (Chapter 12, Statute of 2023) for initial disbursement to be allocated to jurisdictions that applied for ERF-2-R who met all the program requirements but were unable to receive awards due to insufficient funds. The Notice of Funds Availability (NOFA) of ERF-3-R makes the remaining $298,747,574 available for awards through a rolling application process. Applications will be accepted on a rolling basis until June 30, 2024, or until funds are depleted, whichever occurs first. Up to 50 percent of the $400 million appropriated will be prioritized for proposals that serve people living in encampments on state right of way. If awarded, funding is available for 2 years and must be fully expended no later than June 30, 2027.

The ERF-3-R program will fund actionable, person-centered local proposals that resolve the experience of unsheltered homelessness for people residing in encampments along the Salinas River in both Soledad and King City. Resolving these experiences of homelessness will address the safety and wellness of people within encampments, resolve critical encampment concerns, and transition individuals into interim shelter with clear pathways to permanent housing or directly into permanent housing, using data-informed, non-punitive, low-barrier, person-centered, Housing First, and coordinated approaches that is required per the NOFA (Attachment B).

The Salinas River encampments in Soledad and King City were considerably impacted by the 2023 January storms, a federally declared disaster (DR-4683). The people living along the Salinas riverbed were displaced for several days and lost most of their personal belongings, leaving significant amounts of trash and debris, including two abandoned vehicles in the riverbed. These are two significant encampments that overlap unincorporated areas of the County, city jurisdictions, and on public and private lands. Both encampments pose health and safety risks for people living in and surrounding the sites and are being proposed as potential sites for the ERF-3-R project proposals as described in the presentation.

The Community Health Engagement (CHE) outreach team has been working with individuals living along the Salinas River in both Soledad and King City to understand the varying level of needs the encamped occupants are experiencing. The Cities of King and Soledad have identified nearly 80 individuals interested in participating in the ERF program, should the County be funded. The CAO-HS is actively seeking service provider partnerships to include in the ERF proposals in partnership with the City of Soledad and the City of King City (Cities).

The Cities' encampments continue to be a major health and safety concern and is subject to clean-ups annually to protect people living in the river and surrounding communities from the threat of flood. Homeless services in S. Monterey County are limited and the people often return to the river once the rain season subsides.

Therefore, it is recommended the Salinas River encampments in Soledad and King City be the target focus of the ERF-3-R application window one (1) to be submitted by January 30, 2024. and will be reviewed after all applications have been submitted by January 30, 2024. ERF-3-R window one (1) awards will be announced no later than March 2024.

OTHER AGENCY INVOLVEMENT:
The County Administrative Office anticipates collaborating with the Water Resources Agency, Department of Social Services, Sheriff's Department, partner city municipalities (including Police and Fire departments), Coalition of Homeless Services Providers, and other community-based organizations.

FINANCING:
This action does not impact the General Fund. The total project expenses funded by ERF-3-R are estimated for each project proposal to between $6,000,000 and $8,000,000. The total project expenses estimated for both project proposals are between $12,000,000 and $16,000,000 of which the County could earn a 5% administrative fee between $600,000 and $800,000 for both proposals. These proposed projects include temporary shelter, a path to permanent housing, and outreach. The total proposal amounts are determined based upon site selection, availability of leveraged resources near the encampment, and overall project design. The County will administer the grant but will hold no responsibility for the sustainability of the project after the grant term expires. The Cities agree to assume responsibility for expenses incurred after the grant is fully expended for their respective project proposal. Both the County and Cities will work with a Managed Care Provider to identify additional funding resources for each project.

DATE:	**November 27, 2023**
MEMORANDUM FOR	**ALL ELIGIBLE APPLICANTS**
FROM:	**Meghan Marshall, Executive Officer** **California Interagency Council on Homelessness**
SUBJECT:	**NOTICE OF FUNDING AVAILABILITY (NOFA)** **Encampment Resolution Funding (ERF-3-R)**

I. GRANT OVERVIEW

The California Interagency Council on Homelessness (Cal ICH) is pleased to announce the availability of Round 3 of the Encampment Resolution Funding (ERF) Program.

California appropriated $400 million to fund ERF-3. ERF-3's initial disbursement (ERF-3-L) was allocated to jurisdictions that applied for ERF-2-R, met all the program requirements, but were unable to receive awards under Round 2 due to insufficient funds. This NOFA makes the remaining $298,747,574.33 available for awards through a rolling application process (ERF-3-R). Applications will be accepted on a rolling basis until June 30, 2024, or until funds are depleted, whichever occurs first. Up to 50 percent of the $400 million appropriated will be prioritized for proposals that serve people living in encampments on state right of way.

A. Authority

ERF-3 was authorized in 2022 through Senate Bill 197 (Chapter 70, Statutes of 2022), enacted under Chapter 7 of Part 1 of Division 31 of the California Health and Safety Code (HSC) (sections 50250 et seq.). The $400 million for this third round was appropriated by SB 101 (Chapter 12, Statute of 2023). ERF was established to increase collaboration between Cal ICH, Local Jurisdictions, and Continuumsof Care (CoCs) for the following purposes:

- Assist Local Jurisdictions in ensuring the safety and wellness of people experiencing homelessness in encampments.
- Provide grants to Local Jurisdictions and CoCs to resolve critical encampment concerns and transition individuals into safe and stable housing.
- Encourage a data-informed, coordinated approach to address encampment concerns.

B. Background

Cal ICH was created in 2017 to oversee the implementation of Housing First policies, guidelines, and regulations to reduce the prevalence and duration of

homelessness in California. Cal ICH's mission is to develop policies and to identify and coordinate resources, benefits, and services to prevent and work toward ending homelessness in California.

The ERF Program is a four-year grant program that includes three rounds of funding as described below:

Funding Round & Allocation	Authorizing bill(s)	Disbursements
ERF 1 $50 M	• AB 140 (Chapter 111, Statutes of 2021)	$48 million was awarded to 19 applicants
ERF 2 $300 M	• SB 197 (Chapter 70, Statutes of 2022) • AB 178 (Chapter 45, Statutes of 2022)	ERF-2-L*: $47,698,261.81 was awarded to eight applicants that applied for ERF-1, met all applicable program requirements, but did not receive awards under ERF-1 due to lack of available funds.
		ERF-2-R**: $237,301,738.19 was awarded to 30 applicants
ERF 3 $400 M	• SB 197 (Chapter 70, Statutes of 2022) • SB 101 (Chapter 12, Statute of 2023)	ERF-3-L*: $81,252,425.67 was awarded to 12 applicants that applied for ERF-2-R, met all applicable program requirements, but did not receive awards under ERF-2-R due to lack of available funds
		ERF-3-R**: $298,747,574.33 is made available through this NOFA

* L indicates a lookback to unfunded applications in the preceding round.
** R indicates a rolling application process

It is the intent of the Legislature to enact additional legislation to transfer the grant administration work of Cal ICH to the Department of Housing and Community Development (HCD) in FY 2024-25.

C. Objective

The ERF program will fund actionable, person-centered local proposals that resolve the experience of unsheltered homelessness for people residing in

encampments. Resolving these experiences of homelessness will necessarily address the safety and wellness of people within encampments, resolve critical encampment concerns, and transition individuals into interim shelter with clear pathways to permanent housing or directly into permanent housing, using data-informed, non-punitive, low-barrier, person-centered, Housing First, and coordinated approaches.

Proposals may bolster existing, successful models and/or support new approaches that provide safe stable, and ultimately permanent housing for people experiencing homelessness in encampments.

D. Available Funds

Up to $298,747,574.33 is available for award through ERF-3-R. Pursuant to the Budget Act of 2023 (SB 101 (Chapter 12, statute of 2023), up to 50 percent of the funds authorized for ERF-3 shall be prioritized for Local Jurisdictions with proposals that address encampments on state right of way and that meet priority criteria established by Cal ICH in consultation with the Department of Transportation.

E. Eligible Applicants

- Local Jurisdiction – means a city, including a charter city, a county, including a charter county, or a city and county, including a charter city and county.
- Continuum of Care (CoC) – as defined in Section 578.3 of Title 24 of the Code of Federal Regulations.

Per SB 101 (Chapter 12, statute of 2023), Local Jurisdictions have priority to apply for ERF programs on state right of way, over CoC applicants, until a date specified by Cal ICH. If a CoC applies for an ERF proposal located on a state right of way before May 1, 2024, the CoC must provide a Letter of Local Acknowledgment from each overlapping Local Jurisdiction that: (1) identifies the prioritized encampment; (2) confirms that the CoC has communicated with each Local Jurisdiction about the CoC's intent to apply; and (3) that no Local Jurisdiction intends to apply for ERF-3-R funds for the prioritized encampment.

F. Eligible Population to Serve

ERF-3-R funds may only be used for proposals that connect people experiencing homelessness in encampments to interim shelter with clear pathways to permanent housing or place people directly into permanent housing.

"Encampment" is not defined in the authorizing legislation for ERF, but

research published the U.S. Department of Housing and Urban Development provides the following guidance:

An encampment typically includes the following:

- A group of people sleeping outside in the same location for a sustained period.
- The presence of some type of physical structures (e.g., tents, tarps, lean-tos).
- The presence of personal belongings (e.g., coolers, bicycles, mattresses, clothes).
- The existence of social support or a sense of community for residents

Unsheltered Homelessness and Homeless Encampments in 2019 (huduser.gov)

Furthermore, ERF authorizing legislation requires funding be used for "prioritized" encampments. Applicants must provide a justification for the prioritization of the specific encampment proposed to be served. ERF is not intended to be used to fund a community-wide encampment resolution program. However, in very small communities it may be possible to justify prioritizing all of a small number of encampments for resolution using this fund source. Therefore, in completing this application, applicants must identify and describe the specific encampment that will be prioritized for resolution.

If an applicant proposes to prioritize a large, noncontiguous, or multiple site(s), the encampments may only be addressed through a single application if: (a) the justification for prioritizing the encampments is the same, and (b) the demographics and service needs of the residents of the encampments is sufficiently similar, and (c) that the same set of services, and service providers, including outreach, interim and permanent housing programs, will be used to resolve the identified people's experience of homelessness in encampments. Applicant must prepare a separate application for each encampment that does not meet the requirements of (a) – (c).

G. Key Dates

The rolling application will open upon the release of this NOFA and the accompanying ERF-3-R application, and will remain open until June 30, 2024, or until all program funds have been exhausted, whichever comes first. Applications will be reviewed in batches as illustrated in the table and diagram on the following page.

II. REQUIRED APPLICATION ELEMENTS, EVALUATION CRITERIA, AND PRIORITIZED FACTORS

A. Required Application Elements

Eligible applicants must submit an Application in a form and manner specified by Cal ICH; the Application must include minimum elements as described in HSC section 50252.1(c)(4). The Application made available through the Cognito Submission Portal (https://www.cognitoforms.com/californiainteragencycouncilonhomelessness/erf3rapplication) includes all the minimum elements.

B. Evaluation Criteria

In determining which Applications to fund, Cal ICH shall evaluate and score proposals based on specific criteria as described in HSC section 50251(c)(2). These specific criteria are operationalized through and located in the ERF-3-R Scoring Matrix at Section VI.A and B of this NOFA.

C. Prioritized Factors

In accordance with HSC section 50252.1(c)(5), in awarding grants, funding shall be prioritized for both of the following:

- Applications that demonstrate cross-systems collaboration, including collaborations with state and federal entities, and innovative efforts to resolve encampment issues, while focusing on protecting the health and well-being of the individuals living in those encampments.
- Applications that represent the diversity of communities across the state, including, but not limited to, rural, urban, and suburban communities.
- Additionally, up to 50 percent of the available funds will be prioritized for ERF projects that address encampments on state right of way.

III. ELIGIBLE USES

A. Eligible Uses

Applicant's program design and objective and their proposed eligible uses must advance ERF-3-R's objective, which is set forth at Section I.C of this NOFA. Proposal design may include any combination of the following ten Eligible Use categories:

Eligible Use Category	Non-Exhaustive List of Eligible Activities Applied to the EligiblePopulation
Rapid Rehousing	Rapid rehousing, including housing identification services, rental subsidies, security deposits, incentives to landlords, and holding fees for eligible persons, housing search assistance, case management and facilitating access to other community-based services.
Operating Subsidies	Operating subsidies in new and existing affordable or supportive housing units, emergency shelters, and navigation centers. Operating subsidies may include operating reserves.
Street Outreach	Street outreach to assist eligible persons to access crisis services, interim housing options, and permanent housing and services.
Services Coordination	Services coordination, which may include access to workforce, education, and training programs, or other services needed to improve and promote housing stability for eligible persons, as well as direct case management services being provided to persons.

Systems Support	Systems support for activities that improve, strengthen, augment, complement, and/or are necessary to create regional partnerships and a homeless services and housing delivery system that resolves persons' experiences of unsheltered homelessness.
Delivery of Permanent Housing	Delivery of permanent housing and innovative housing solutions, such as unit conversions that are well suited for eligible persons.
Prevention and Shelter Diversion	Prevention and shelter diversion to permanent housing, including flexible forms of financial assistance, problem solving assistance, and other services to prevent people that have been placed into permanent housing from losing their housing and falling back into unsheltered homelessness. This category is only available to serve people who were formerly residing in the prioritized ERF encampment site.
Interim Housing	Interim housing, limited to newly developed clinically enhanced congregate shelters, new or existing non-congregate shelters, and operations of existing navigation centers and shelters based on demonstrated need that are well suited for eligible persons.
Improvements to Existing Emergency Shelters	Improvements to existing emergency shelters to lower barriers, increase privacy, better address the needs of eligible persons, and improve outcomes and exits to permanent housing.
Administrative Costs	Administrative costs incurred by the city, county, continuum of care, to administer its program allocation. Up to 5% of grant funds may be applied to administrative costs.

Site restoration is not a permitted Eligible Use for ERF-3-R funds.

B. Budgets

Applicants must use the standardized budget template available at Box.com: (https://dca.box.com/s/xayuey1lcrgnve0e6l3ut5tkov0rtu3). Where necessary, applicants may modify the budget template.

These budgets will be submitted through the application submission portal: (https://www.cognitoforms.com/CaliforniaInteragencyCouncilOnHomelessness/ERF3RApplication).

Applicants must demonstrate a reasonable effort to correctly categorize their budgets into the appropriate Eligible Uses. Additionally, if one larger proposal may fall within two or more Eligible Use categories, applicants should split up the line item so that Cal ICH staff can track and better understand proposal components.

IV. APPLICATION

The ERF-3-R application is a questionnaire style survey and has three required parts: administrative information, proposal overview, and implementation. A submitted application that deviates from the following requirements will be considered nonresponsive and will be disqualified from the evaluation.

- ***Part 1: Administrative Information***

Requires the applicant to provide information pertaining to jurisdiction type, implementing organization, contracting information, and contacts.

- ***Part 2: Proposal Overview***

Requires the applicant to provide information on:

a) Proposal Summary: including an overview of all key components and/or phases of the project that will be funded in whole or in part with ERF-3-R resources.

b) People Served: including metrics on how many people are living in the prioritized encampment and how many people are proposed to be served.

c) Encampment Information: including a description of the people living in the prioritized encampment, the physical characteristics of the encampment, whythe site and the people residing there are being prioritized, and whether the encampment is located entirely or partially on a state right of way. This includes:
   - Attachment, Map: Applicants must submit a map of the encampment site proposed to be served with ERF-3-R funds.
   - Attachment, Caltrans Letter of Support (if applicable): Projects entirely or partially on a state right of way must include a Letter of Support from Caltrans.
     - This letter must include confirmation from Caltrans that they are aware of and in support of the ERF project, including the projected timeline, and that they will only take action on that encampment

site in collaboration with and with at least two weeks-notice to the ERF grantee, unless critical circumstances exist when an encampment poses an imminent threat to life, health, safety, or infrastructure and must be immediately addressed.
    - This letter should be signed by the local Caltrans Deputy District Director of Maintenance (DDDM) or their designee.
    - This letter may also include Caltrans role in the proposal and what Caltrans resources are being leveraged.

d) Proposal's Outcomes: including a description of the proposal's planned outcomes, activities to support meeting these outcomes, and how the applicantwill measure their progress.

e) Centering People: including:
    i. data, evidence, and other information that informed the proposal's design;
    ii. how input from people with lived experience of homelessness was meaningfully incorporated into the proposal;
    iii. the proposal's adherence to Housing First;
    iv. the proposal's delivery of trauma informed housing services and supports; and
    v. how the proposal will prioritize the dignity, health, and safety of people experiencing homelessness in the encampment.

- ***Part 3: Implementation***

Requires the applicant to provide details around proposal implementation in four key areas:

a) Core Service Delivery and Housing Strategies: including the proposed outreach strategies and/or service coordination for the persons experiencing homelessness while they continue to reside in the encampment, the proposed living situations immediately following the encampment, displacement mitigation strategies, ability to deliver permanent housing, pathways to permanent housing, and strategies to mitigate returns to unsheltered homelessness.

b) Budget and Resource Plan: including the total amount of ERF-3-R funds requested, the amount and description of non-ERF resources that will support the proposal, and an explanation for how the requested amount was determined based on the number of people served and the housing options provided. Identifies non-ERF-3-R resources that will be leveraged to support proposal implementation including coordination of resources from other systems that would increase services and housing

options. This includes prior ERF awards, HUD unsheltered NOFO, and other federal, state, and local funding sources.

- **Attachment, Standardized Budget**: Applicants must use the standardized budget template available at Box.com: (https://dca.box.com/s/xayuey1lcrgnve0e6l3ut5tkov0rtu3). Where necessary, applicants may modify the budget template. For guidance on Eligible Uses and categorization, see Eligible Uses in Section III.A.

c) Key Entities and Staff: including the experience and qualifications for the implementing organization and key partners, evidence of collaboration between Local Jurisdiction(s) and the CoC, as well as identification of the primary parties with rights to and/or control of the property upon which the encampment resides (Caltrans, Union Pacific, private landowner, etc.) and their shared understanding of and commitment to the implementation of the proposal. For proposals on state right of way, in addition to the Caltrans letter of support, applicants must describe how they collaborated with Caltrans on their program design, implementation plans, and projected timeline.

d) Accelerated Timeline: including how your community will act urgently and efficiently while prioritizing the dignity, safety and wellness of people experiencing homelessness within the encampment site and proposal milestones. Applicants are strongly encouraged to provide incremental milestones for achieving the interim shelter and permanent housing goals set out in the proposal. For projects that include interim shelter and/or permanent housing development, the timeline should include major development milestones.

V. APPLICATION SUBMISSION REQUIREMENTS

Applicants will utilize the Cognito application submission portal: (https://www.cognitoforms.com/CaliforniaInteragencyCouncilOnHomelessness/ERF3RApplication).

Applications will be accepted on a rolling basis beginning on November 27, 2023, until June 30, 2024, or until all funds have been exhausted, whichever occurs first. As detailed above in the Key Dates table, this rolling application period will span three possible application submission windows. Complete applications submitted and received by 5:00 p.m. on the last day of the corresponding application window, will be reviewed and evaluated as a batch for that window. Applications received after 5:00 p.m. on the last day of the application window will be reviewed and evaluated during the following application window.

Because Cal ICH does not have control over the platform's timing apparatus and uploading speed, and to mitigate for unforeseen occurrences, applicants are strongly encouraged to submit by noon on the last day of the corresponding application window. For example, applications submitted during application window #1 for the period of November 27, 2023, through January 31, 2024, must be submitted no later than 5:00 p.m. on January 31, 2024, and applicants are encouraged to submit by noon on that day to mitigate any unforeseen occurrences in the Cognito application portal. Applicants are permitted to submit a "test" submission at a time of their choosing to familiarize themselves with the application and the Cognito platform. To ensure your application is reviewed, please make sure that your final submission is not marked as a "test" submittal. The Cognito platform will instruct applicants on how to navigate this process.

VI. REVIEW, SCORING, AND AWARD

A. Review

Phase 1 – Administrative Review: Applications will be reviewed and evaluated for completeness of NOFA specifications, including checking that the application was submitted on behalf of an eligible applicant. In this review stage, reviewers will evaluate the contents of each application to ensure that all required items are populated and / or received. Cal ICH will reach out to applicants and allow them to resolve small discrepancies, but applications that are not complete or do not contain all the required items and attachments will be considered non-responsive and will be disqualified from the evaluation.

Phase 2 – Scoring Review: Cal ICH and/or its designee will convene an evaluation panel of three qualified individuals who have knowledge and experience of the state grantmaking process and subject matter of the Program. The evaluation panel will review and score applications in accordance with the ERF Scoring Matrix below. This panel will produce an application's average score. Applications eligible for funding must score an average of at least 70 of the possible 100 points total. In addition to receiving an average total score of at least 70, all applicants must average no less than the minimum scoring threshold for each of the following sections:

1. People Served and Encampment Information (must receive 3 out of the 5 possible points)
2. Proposal's Outcomes (must receive 10 out of the 15 possible points)
3. Centering People (must receive 16 out of the 20 possible points)
4. Core Service Delivery and Housing Strategies (must receive 11 out of the15 possible points)
5. Budget and Resource Plan (must receive 10 out of the 15 possible points)

6. Key Entities and Staff (must receive 10 out of the 15 possible points)
7. Accelerated Timeline (must receive 10 out of the 15 possible points)

B. Scoring

The Evaluation Panel will review and consider the totality of the information in the application when determining whether the application satisfies the minimum scoring threshold. However, applicants should respond to each application criteria in the proper application section to ensure all requirements are met.

ERF-3-R Scoring Matrix	
Proposal Overview	**Factors that satisfy minimum scoring threshold:**
People Served and Encampment Information (Must receive 3 out of the 5 possible points)	o Clearly describes the characteristics and demographics of the people living in the prioritized encampment and the physical aspects of the encampment including location, size of area, types of structures onsite, and vehicles present. o Makes a logical and compelling case for why the identified encampment site is being prioritized.

Centering People *(Must receive 16 out of the possible 20 points)*	o Uses well-informed analyses or the perspectives of people with lived experience of homelessness to inform the proposal's decisions, processes, and actions which should advance the wellbeing of people experiencing unsheltered homelessness in the identified encampment. o Aligns with and exemplifies Housing First approaches. o Provides trauma informed services and supports, operationalizes harm reduction, and

	centers an individual's choice and preferences. o Prioritizes the dignity, health, and safety of people experiencing homelessness in the encampment. o Details the controls in place to not "penalize homelessness."

Compelling evidence may include identification, creation, availability, and prioritization of permanent housing resources as well as examples of prior successes in permanently housing people experiencing homelessness. o Describes how the proposed service delivery model is tailored to meet the needs and preferences of the people residing in the encampment site. o Uses data and input from people with lived experience of homelessness to inform housing and service needs, preferences, and the availability of resources to meet those needs and preferences. o Details strategies likely to prevent displacement from the prioritized encampment to another unsheltered location and to prevent returns to unsheltered homelessness.

	o Details operable plans to support individuals with the storage of their property and care of their pets, while living in the encampment as well as after they have moved into interim or permanent housing.
Budget and Resource Plan (Must receive 10 out of the possible 15 points)	o Demonstrates a sustainable, prudent, and effective use of requested funding. o Budget aligns with achieving the proposal's outcomes, services and housing options, and number of people served. o Identifies non-ERF-3-R resources that will be leveraged to support proposal implementation including coordination of resources from other systems that would increase services and housing options. This includes prior ERF awards, HUD unsheltered NOFO, and other federal, state, and local funding sources. ** Applications will be evaluated with the understanding that communities vary significantly with respect to the current availability of other fund sources that can be used as leverage for their proposed projects and to sustain the projects beyond the grant term. In the absence of currently available resources, Applicants are encouraged to provide a specific plan for obtaining the funding necessary to sustain their project beyond the grant term if the project is intended to continue.*
Key Entities andStaff *(Must receive 10 out of the possible 15 points)*	o Includes a detailed description of the lead entity that will oversee the implementation of activities in the proposal. 	range of service needs. o Demonstrates collaboration between Local Jurisdiction(s) and the CoC for this proposal. o Demonstrates capacity to carry out the proposal. o Identifies the primary parties with rights to and/or control of the property upon which the encampment resides and their shared understanding of and commitment to the implementation of the proposal. o If the encampment is on a state right of way, the proposal describes how the applicant collaborated with Caltrans on their program design, implementation plan, and projected timeline.
Accelerated Timeline *(Must receive 10 out of the possible 15 points)*	o Demonstrates how the community will act urgently and efficiently while prioritizing the dignity, safety and wellness of people experiencing homelessness within the encampment site. o Demonstrates the likelihood of meeting proposal milestones and objectives.

C. Award

After each application window has closed and all applications received during the window have been reviewed and scored, a Notice of Intent to Award shall be posted on the Cal ICH website and shall be sent by email to the proposed awardees.

Once awards have been determined by Cal ICH, a contract packet including the Standard Agreement and Request for Funds Form (RFF) form will be prepared and sent to the grantee. The grantee will return the signed Standard Agreement and RFF. Funds will be disbursed to the grantee upon receipt, review and approval of the completed Standard Agreement and RFF by Cal ICH. The RFF must include the total amount of funds proposed for expenditure. Grant funds will be disbursed via mailed check once the RFF has been processed through the Department of General Services and received by the State Controller's Office. Checks will be mailed to the address and contact name listed on the RFF.

Applications that are denied funding will be provided evaluation panel feedback. Applicants are encouraged to incorporate this feedback and reapply in the next available application window.

D. Appeals

The grantee shall submit quarterly reports to Cal ICH with fiscal and programmatic data reflecting the progress of their ERF program in a format provided by Cal ICH. In addition to these quarterly reports, grantees shall adopt a specific project setup in their local HMIS that allows Cal ICH to identify all the served clients from the designated encampment by ERF-funded services and activities. The detailed instructions for establishing projects within HMIS will be furnished upon receipt of an award.

Once an application is submitted and approved, no substantive changes to the program design are allowed unless grantees (1) inform Cal ICH of the change to the program design; (2) explain the impacts of the program design change; and (3) receive written approval from Cal ICH to proceed. If enforcement action is taken or the encampment is otherwise disbursed, the grantee must notify Cal ICH immediately.

Grantees may also receive ad hoc requests for information from Cal ICH or its contractors in support of program monitoring, research, and evaluation. Grantees with projects on state right of way may also be required to provide programmatic data to Caltrans.

At the end of the grant period, or upon request by Cal ICH, all grantees shall provide information and products developed with grant funds on service delivery models including any materials that may be necessary to study the program or replicate it for implementation across the state.

SUMMARY/DISSCUSSION:

On December 6, 2023, the Board of Supervisors heard an appeal of the Planning Commissions denial of a permit for the replacement of bridge rails on Garrapata Bridge in Big Sur. At the hearing, the Board adopted a motion of intent to deny the appeal and the application and requested that staff return with findings for denial of the permit. Since that time, CalTrans has been coordinating with County staff and Coastal Commission staff on the next steps and the possibility of submitting additional details and analysis.

Staff recommends that the Board continue the hearing on this matter to February 6, 2024 to allow all parties the additional time to review the options and next steps.

CEQA

Caltrans, as the Lead Agency for the project under the California Environmental Quality Act (CEQA), has prepared an Environmental Impact Report (EIR) consisting of a Tier 1 program level review for the Big Sur Bridge Rail Replacement Program and a Tier 2 project level review of the Garrapata Bridge Rail Replacement Project. While not being federally funded, in the environmental analysis Caltrans found the project qualified for a Categorical Exclusion from the National Environmental Policy Act (NEPA).

The County is a responsible agency under CEQA, and as a responsible agency is required to consider the EIR prepared by the lead agency (CalTrans) and agree with its conclusions before approving a permit for the covered activity.

For the purposes of the continuance of the hearing from January 30, 2024 to February 6, 2024, no decision on a project is being made and therefore the continuance is not a project pursuant to CEQA.

OTHER AGENCY INVOLVEMENT:
The following Departments or Agencies have been involved in the discussion of this continuance:

- Housing & Community Development
- County Counsel's Office
- California Coastal Commission

FINANCING:
Funding for staff time associated with this project is included in the FY 23/24 Adopted Budgets for HCD. A fee was collected to partially recuperate the cost of staff time associated with processing the application. No fee is collected for an appeal for projects located in the Coastal Zone.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
Processing of the Coastal Development Permit is an administrative activity and the project includes modifications to a highway safety device.

PLN220090 - CALTRANS/GARRAPATA BRIDGE RAILS

Public hearing to consider California Department of Transportation's ("Caltrans") appeal of the Garrapata Creek bridge rail replacement project on Highway 1, Big Sur.

Project Location: Garrapata Creek Bridge near post mile 63.0 on HWY 1, Big Sur Land Use Plan.

Proposed California Environmental Quality Act ("CEQA") action: Continuance of the hearing is an administrative activity that is not subject to CEQA.

Introduced: 1/12/2024

Current Status: Scheduled PM
Matter Type: General Agenda Item

Conduct a public hearing to receive and accept the 2023 Annual Carmel Valley Traffic Report.

RECOMMENDATION:
It is recommended that the Board of Supervisors receive and accept the 2023 Annual Carmel Valley Traffic Report on the traffic volumes for Segments 3, 4, 5, 6, 7, and 10 (on Carmel Valley Road), pursuant to the 2010 General Plan, Carmel Valley Master Plan (CVMP).

SUMMARY:
The 2010 General Plan includes policies that require annual monitoring and reporting of traffic volumes and travel times on Segments 3, 4, 5, 6, 7, and 10 of Carmel Valley Road. If the annual monitoring reveals that traffic volumes are exceeding certain thresholds, the Board of Supervisors must conduct a noticed public hearing.

Public Works, Facilities and Parks generally monitors 13 road segments listed in CVMP Policy CV-2.17 annually (refer to Attachment A for map). Only six of those segments are required to be reported on for the annual report per CVMP Policy 2.17 (a), see Attachment E- CVMP Policy CV 2.17.

The required monitoring was completed for the months of June and October 2023 for Segments 3, 4, 5, 6, 7, and 10 of Carmel Valley Road. The Average Daily Traffic (ADT) and Percent Time Spent Following (PTSF) results are shown in Attachment B. For this monitoring period, the ADT volumes for all reportable segments are below the thresholds set by Policy CV-2.17. Segments 6 and 7 exceeded the PTSF threshold set by Policy CV-2.17. Additionally, Segments 3, 4, 5, 6 and 7 are within twenty percent (20%) of ADT threshold, as shown on Attachment C. Attachment D shows the Traffic Volumes from 2015 to present for all segments. Consequently, pursuant to Policy CV-2.17(c), a public hearing before the Board of Supervisors is required. The remaining segments do not meet this criterion and generally do not need to be evaluated annually.

DISCUSSION:
The 2010 General Plan - Carmel Valley Master Plan (CVMP) includes a policy to monitor the circulation of traffic in Carmel Valley on 13 established segments on Carmel Valley Road, numbered from east to west (locations shown in Attachment A). Segments 1-10 are located along Carmel Valley Road and segments 11-13 are located on Rio Road and Carmel Rancho Boulevard. Policy CV-2.17 requires bi-annual monitoring of peak hour traffic volumes, once while school is not in session (June) and once while school is in session (October). The counts are conducted on all 13 segments, but per Policy, an evaluation is only required on Segments 3, 4, 5, 6, 7 and 10 of Carmel

Valley Road, plus any others that fall within 20% of the established threshold. This year, no other segments were within 20% of the established thresholds thus no additional segments need to be evaluated this year, and the list of required segments for evaluation does not need to be amended for 2024.

CVMP Policy 2.17 (c) requires the Board of Supervisors to conduct a public hearing in January following data collection if the analysis shows that the established thresholds are exceeded or are within one percent (1%) of the value that would cause a decrease in Level of Service (LOS), or when only 100 or fewer ADT remain before the ADT count for a segment will equal or exceed the indicated threshold. Attachment B presents the ADT volumes for the six required segments, the LOS data, and the threshold values from the CVMP. For 2023, two of the segments exceeded the established thresholds, and four did not exceed the established thresholds, triggering the need for the public hearing.

Traffic flow patterns were evaluated for the six Segments using two methods: Average Daily Traffic (ADT) and Percent-Time-Spent-Following (PTSF). Monitoring in 2023 was conducted in June and October, as required. This report was completed and presented to the Carmel Valley Road Committee on December 14, 2023.

The results of the monitoring, along with the threshold values established by Policy 2.17(e)(3)(b), are presented on Attachment B. For the six specified segments, data indicates a slight decrease in traffic volumes (ADT), but overall, volumes were generally similar to the volumes from last year. LOS is based on PTSF, and peak hour volumes are used to determine PTSF. The PTSF was calculated for Segments 3 through 7. PTSF methodology applies only to two-lane roads, and not to four-lane roads, and because Segment 10 is a four-lane highway, Level of Service (LOS) is based on volumes only. Based on the data collected, no monitored segment exceeded the ADT threshold in October or June. Although Segments 6 and 7 exceed the LOS D threshold, the traffic volume levels on both segments did not exceed the ADT volume threshold and are summarized in Attachment C. In addition, the traffic volume data from 2015 to present are shown in Attachment D.

For this monitoring year, the data and observations may not be typical, primarily because there were several construction activities along the Carmel Valley Road corridor that may have affected traffic flow along Carmel Valley Road. As an example, observations showed vehicles platooned behind construction vehicles that were likely travelling to or from construction project work sites. These construction projects included: the Carmel Area Wastewater District/Carmel Manor Sewer Extension project; All Saints School improvements; September Ranch subdivision; and road improvements in County Service Area (CSA) 25 (Valley Greens Drive/Quail Lodge area).

The results were presented to the Carmel Valley Road Advisory Committee (CVRAC) at its December 14, 2023, meeting. Comments received include: using a measurement other than average daily traffic to evaluate what happens on Carmel Valley Road during the times that it is actually being used; and construction activities, even if they are not on Carmel Valley Road, can have trucks that affect traffic.

Policy 2.17 (d) further requires that every five years, the County shall examine the degree to which the estimates of changes to the LOS in the Plan Area may be occurring earlier than predicted in the General Plan Environment Impact Report. The five-year analysis was conducted following the data collection of 2020, presented to the Board on January 15, 2021, and determined that no changes to the unit cap were needed. The next 5-year interval will be included with the report in January 2026.

OTHER AGENCY INVOLVEMENT:
This traffic volume analysis was presented to the Carmel Valley Road Advisory Committee (CVRAC) at its December 14, 2023, meeting as required in the Carmel Valley Master Plan (CVMP).

FINANCING:
Scheduled traffic monitoring activities for CVMP, estimated at $8,500, are funded by the Carmel Valley Traffic Impact Fee Program. Sufficient funds are available in the Road Fund 002, Unit 8558, Appropriation Unit PFP004 to finance this work.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
By following the policies in the Carmel Valley Master Plan and conducting the required hearing, the County practices accountability and transparency.

CVMP Policy CV-2.17

CV-2.17 To implement traffic standards to provide adequate streets and highways in Carmel Valley, the County shall conduct and implement the following:

a) Twice yearly monitoring by Public Works (in June and October) of peak hour traffic volumes and daily traffic volumes at the following six (6) locations indicated in bold (at least one of the yearly monitoring periods will occur when local schools are in session):

	Carmel Valley Road	*ADT threshold*
1.	Holman Road to CVMP boundary	8487
2.	Holman Road to Esquiline Road	6835
3.	**Esquiline Road to Ford Road**	**9065**
4.	**Ford Road to Laureles Grade**	**11,600**
5.	**Laureles Grade to Robinson Canyon Road**	**12,752**
6.	**Robinson Canyon Road to Schulte Road**	**15,499**
7.	**Schulte Road to Rancho San Carlos Road**	**16,340**
8.	Rancho San Carlos Road to Rio Road	48,487
9.	Rio Road to Carmel Rancho Boulevard	51,401
10.	**Carmel Rancho Boulevard to SR1**	**27,839**
	Other Locations	
11.	Carmel Rancho Boulevard between Carmel Valley Road and Rio Road	33,495
12.	Rio Road between its eastern terminus at Val Verde Drive and Carmel Rancho Boulevard	6,416
13.	Rio Road between Carmel Rancho Boulevard and SR1	33,928

b) A yearly evaluation report shall be prepared by the Public Works Department in December that shall report on traffic along the six (6) indicated segments. The report shall evaluate traffic using the PTSF methodology (or such other methodology as may be appropriate for a given segment in the opinion of the Public Works Department), and the ADT methodology. ADT thresholds for each segment are listed above, and the Public Works Department shall annually establish appropriate PTSF or other methodology thresholds for each of the six (6) segments listed above.

c) A public hearing before the Board of Supervisors shall be held in January immediately following the December report when only 100 or fewer ADT remain before the ADT count for a segment will equal or exceed the indicated threshold, or where the PTSF (or such other methodology as may be appropriate for a given segment in the opinion of the Public Works Department) for a segment exceeds or is within one percent (1%) of the value that would cause a decrease in the LOS.

d) At five year intervals the County shall monitor all segments listed in *Policy CV-2.17(a)* and the annual report described in *Policy CV-2.17(b)* shall include a report on all segments. If such periodic monitoring and reporting shows that any segment not previously part of the annual report is within twenty percent (20%) of the listed ADT threshold, that segment shall thereafter be subject to the annual monitoring and reporting.

e) Also at five year intervals the County shall examine the degree to which estimates of changes in Levels of Service ("LOS") in the Carmel Valley Master Plan Area may be occurring earlier than predicted in the General Plan Environmental Impact Report. If the examination indicates that LOS are likely to fall to a lower letter grade than predicted for 2030, then the County shall consider adjustments to the cap on new residential units established in *Policy CV-1.6* and/or the cap on new visitor serving units established in *Policy CV-1.15* or other measures that may reduce the impacts, including, but not limited to, deferral of development that would seriously impact traffic conditions.

f) The traffic standards (LOS as measured by peak hour conditions) for the CVMP Area shall be as follows:

1) Signalized Intersections – LOS of "C" is the acceptable condition.
2) Unsignalized Intersections – LOS of "F" or meeting of any traffic signal warrant are defined as unacceptable conditions.
3) Carmel Valley Road Segment Operations:
   a) LOS of "C" and ADT below its threshold specified in Policy CV-2.17(a) for Segments 1, 2, 8, 9, 10, 11, 12 and 13 is an acceptable condition;
   b) LOS of "D" and ADT below its threshold specified in *Policy CV-2.17(a)* for Segments 3, 4, 5, 6, and 7 is an acceptable condition.

During review of development applications that require a discretionary permit, if traffic analysis of the proposed project indicates that the project would result in traffic conditions that would exceed the standards described above in *Policy CV 2.17(f)*, after the analysis takes into consideration the Carmel Valley Traffic Improvement Program to be funded by the Carmel Valley Road Traffic Mitigation Fee, then approval of the project shall be conditioned on the prior (e.g., prior to project-generated traffic) construction of additional roadway improvements or an Environmental Impact Report shall be prepared for the project, which will include evaluation of traffic impacts based on the ADT methodology. Such additional roadway improvements must be sufficient, when combined with the projects programmed for completion prior to the project-generated traffic in the Carmel Valley Traffic Improvement Program, to allow County to find that the affected roadway segments or intersections would meet the acceptable standard upon completion of the programmed plus additional improvements. Any EIR required by this policy shall assess cumulative traffic impacts outside the CVMP area arising from development within the CVMP

area.

This policy does not apply to the first single family residence on a legal lot of record. The use of the ADT methodology as set forth in this *Policy CV-2.17* shall be limited to the purposes described in the Policy, and the County may utilize any traffic evaluation methodology it deems appropriate for other purposes, including but not limited to, road and intersection design. This policy shall also not apply to commercial development in any Light Commercial Zoning ("LC") district within the CVMP area where the Director of Planning has determined that the requirement for a General Development Plan, or amendment to a General Development Plan, may be waived pursuant to Monterey County Code section
21.18.030 (E).

(Amended by Board Resolution 13-029)

Introduced: 11/21/2023
Version: 1

Current Status: Scheduled AM
Matter Type: General Agenda Item

Receive an update on the Enterprise Resource Planning (ERP) Replacement Project Planning.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
Receive an update on the Enterprise Resource Planning (ERP) Replacement Project Planning.

SUMMARY:
This agenda item is to provide the Board of Supervisors with an overall project status update including project funding for the FY23-24 project implementation costs to date for the ERP Replacement project. Cost for subsequent fiscal years will be incorporated as the department prepares its requested budget for the corresponding fiscal year. As of the date of this report, there are no anticipated cost overruns and funding has been set aside for the full cost of the project.

DISCUSSION:
The last update provided to the Budget Committee was November 29, 2023 to provide an overall project status update including project funding for the FY23-24 project implementation costs to date for the ERP Replacement project. Due to the size, complexity, and impact to the entire County it was agreed that updates would be provided to this committee on an ongoing basis.
The Board of Supervisors approved the vendor agreements for Graviton Consulting Services (Implementation services), CherryRoad Technologies (Oracle licensing), and Emphasys Computer Solutions (Sympro Treasury and Debt Management) via Consent Agenda on 7/11/23.
The project officially kicked off with the Enterprise Resource Planning (ERP) phase in August. The objective is to provide the Board of Supervisors with an update on project progress made to date in addition to FY23-24 project expenditures to Fund 478 (ERP Resource Planning, sub fund ERP).
Currently both the project schedule and budget are on track. Project resources are currently a 'watch item', as Auditor Controller has only been able to fill 3 of 12 requested backfill positions and are supporting both the project and operational needs.
Some functionality gaps have been identified during detailed working sessions, however the implementor, Graviton Consulting and Oracle partners will work with County to address functional gaps prior to Go Live. This is the first of many iterations in the product design and development stage. The positive is that these gaps are being identified early on so that there is runway to address well in advance of User Acceptance Testing and Go Live. The County has already had the opportunity to perform 'hands-on' use case execution within the system.

OTHER AGENCY INVOLVEMENT:
The implementation project team will be led by Information Technology Department and will include

County Administrator Office, Auditor-Controller's Office, and Human Resources department leaders and staff. Other County departments will need to participate as stakeholders and will be engaged throughout various phases of the project.

FINANCING:
There is no financial impact from receiving this report, as required funding for the project will be provided by Fund 478 (Enterprise Resource Planning), Department 1050 CAO, Unit 8506, Appropriation Unit CAO034, which already includes the required funds. The available fund balance of the Enterprise Resource Planning project as of 07/01/2023 is estimated at $19,606,692. Total Expenditures in FY 2023-24 through the end of October 2023 are $1,695,565 with a current estimated fund balance of $17,911,127.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
In addition to supporting the existing basic ERP functions, the below Project Objectives support the BOS Strategic Initiative for Administration:
A. Enable the County to increase operational efficiencies by implementing best business practices and increased automation.
B. Implement standard functionality and best business practices embedded in the solution to reduce cost, long-term maintenance impacts, and avoid or minimize customizations.
C. Improve quality and accessibility of information through standard reports, ad hoc tools, and the ability to create new reports.
D. Promote a system that provides for self-services to the General Public, County departments, County employees, and external agencies via online and mobile capabilities.
E. Implement a scalable platform that will support future growth and integration without requiring significant upgrades, costs, and County resources.

a. Receive a status report on the Board Referral 2020.12 "Consider funding options to increase the Pavement Condition Index of County roads to at least a 'Fair' standard over the next ten years";
b. Support implementation of a financing plan for the local road rehabilitation pilot program;
c. Approve the initial local road repair plan; and
d. Provide direction to staff.

RECOMMENDATION:
It is recommended the Board of Supervisors:
a. Receive a status report on the Board Referral 2020.12 "Consider funding options to increase the Pavement Condition Index of County roads to at least a 'Fair' standard over the next ten years";
b. Support implementation of a financing plan for the local road rehabilitation pilot program;
c. Approve the initial local road repair plan; and
d. Provide direction to staff.

SUMMARY:
This report provides an update to the Board of Supervisors on the status of the proposed local road rehabilitation pilot program and recommends that the Board support the financing approach (Version 2) and proposed initial 10-year plan.

DISCUSSION:
Background
The County Administrative Office (CAO) and the Public Works, Facilities, and Parks Department (PWFP) received Board Referral 2020.12 on March 3, 2020, to consider funding options to increase the Pavement Condition Index of County roads to at least a "Fair" standard over the next ten years. Upon receiving the Board Referral, staff began researching options and consulted with the County's municipal advisor, KNN Public Finance (KNN), to identify funding/financing strategies within the context of the Road Fund existing revenue sources. Staff reviewed financing tools that the Board has mentioned in the past, starting with iBank, then the Total Road Improvement Program (TRIP), and lines of credit. KNN performed extensive research and analysis of potential financing options and security structures to possibly leverage existing Road Fund revenues. Based on this collective research and evaluation, the primary financing options available are: 1) Revenue Bonds, non-General Fund backed; and 2) Certificates of Participation (COPs), General Fund backed - but with debt service/repayment covered by the Road Fund (specifically, Measure X revenue proceeds).

Attachment A is the report which went to the Capital Improvement Committee (CIC) on March 6, 2023. It outlines a proposed debt financing approach (Version 1) and summarizes previous status and

options as well as related concerns and questions. This was scheduled to go to the full Board for direction in late March; however, PWFP's response to the Winter Storms precluded doing so at that time. Subsequently, after further evaluation, and in response to concerns iterated by both the Debt Advisory Committee (DAC) and Budget Committee, staff in PWFP have developed a third financing option for Board consideration - one which does not involve bond issuance or debt financing.

Previously Proposed Financing Approach - Summary (Version 1)
This financing approach would rely on available Road Fund balance to fund local road repairs until Fiscal Year (FY) 2025, at which time a General Fund COP of approximately $43 million would be issued to continue funding the program, followed by another issuance of about $23 million in FY 2028. This approach would rely solely on the availability of Measure X revenues to secure and repay the bonds (approximately $5 million per year for 20 years starting in FY29). The estimated total debt service for these two issuances is about $109 million, with a total interest cost of $43.3 million.

The alternative Revenue bond issuance would cost the Road Fund about $4.9 million more in higher interest costs. These are preliminary estimates, which would be refined and further detailed at the time the Board is asked to formally approve the first debt issuance.
(Refer to Attachment B for more detailed information - PowerPoint used for Budget Committee presentation on November 30, 2022).

Summary of Concerns with Version 1 and regarding possible Bond financing:

- **The DAC had the following concerns that should be considered and evaluated:** Debt service difference between General Fund COP and Revenue bond; Asset capacity if the Board wanted to bond for other major capital projects; Clarify and ensure that any bonds have terms not exceeding the Measure X sunset date, and that the road improvement useful life is 20 years or more; Recognize that the Measure X County allocation is set by ordinance by the Transportation Agency for Monterey County (TAMC) and could technically change in the future; Acknowledge concerns about future Senate Bill 1 (SB1) and the Highway Users Tax Account (HUTA) revenues/trends due to changes in fuel use. The DAC also noted that staff should pursue releases of currently pledged assets to the extent allowable under existing debt issuances.
- **Budget Committee (received a presentation on the bond financing approach at its meeting of November 30, 2022). The Budget Committee (BC) did not make a recommendation, and instead outlined the following key issues that the BC felt should be further considered**: Ensure that this program focusing on local roads does not impact ongoing efforts to rehabilitate higher-volume County roads that serve as important agricultural and tourism links; Concern about funding road repair in those County Services Areas (CSAs) that are responsible for and should be funding road repairs, and desire to understand how much of this program is directed to these CSAs; Cost of the program, specifically, the high cost of debt service and suggestion to pursue local road repair to the extent existing revenue sources allow; Ability to deliver projects in a timely manner and provide adequate inspection and oversight given current staffing levels; Provide information on potential upcoming large projects that the County might issue bonds for and ensure that the proposed road bond program does not preclude the County's ability to pursue other large bond-financed projects.

PWFP staff recognize the validity of the concerns which were expressed and believe that the most significant issues are the cost of debt service and satisfying commitments to the higher-volume County roads that serve as important agricultural and tourism links which strengthen the regional economic base.

Present Proposed Financing Approach for new Local Road Rehabilitation Program - Version 2

This proposed alternative financing approach would also rely on available Road Fund balance to fund local road rehabilitation work until Fiscal Year (FY) 2025; however, this would become a 'pay as you go' (PAYGo) program (rather than debt financed) from that point forward (for the remaining term of the 10 year 'Pilot Program'). The dedicated funding source would be the Road Fund's share of the County Transient Occupancy Tax (TOT). With the adoption of the FY 2024 Budget, there was follow-up that directed staff to implement the Financial Policy for the Road Fund that includes allocating 25% of TOT to the Road Fund in FY 2025 as part of the FY 2025 budget process. This proposed PAYGo program describes how those funds would be used.

Fundamental tenets and potential benefits of this approach, include:

- **No Planned Bond Issuance** - Switching to a 'PAYGo" program should mitigate concerns regarding the cost of the program, specifically, the high cost of debt service (utilizing Measure X revenues to secure and repay the bonds). This would also conform with the BC's suggestion to pursue local road repair to the extent existing revenue sources allow.
- **Convert Local Road Rehabilitation Program to 'PAYGo' utilizing TOT -** starting in FY25. There is currently a planned increased transfer to the Road Fund in FY25 from General Fund TOT to 25% of tax receipts. As a result, just over $10 million is projected to be available in FY25 (up from $6.2 million in the current fiscal year - FY24). The projected 10 -year total for this revenue stream is a little over $105 million.
    - For possible reference, Attachment C is the existing County General Financial Policy. Within Section 7.9 (page 13), there is a clause dealing with the transfers to the Road Fund - 'Contributions to the Road Fund' which reads as follows: "In FY 2013-14, the TOT contribution percentage for the Road Fund was established by the Board at twenty percent (20%) of total TOT revenue. Per annum, the contribution shall increase by one percent (1%) until it reaches a twenty-five percent cap (25%). This contribution replaces, and is not in addition to, the $2.0 million the County previously provided per annum to the Road Fund from the General Fund."
- **Use of Measure X and SB1 -** Switching to a 'PAYGo' program will permit these funds to be dedicated to major maintenance and road improvements consistent with what was originally envisioned when passed by the electorate in 2016 and 2017 (i.e., for Pavement Management and other improvements on higher-volume County roads which function to strengthen the economic backbone of the region).

  In addition, the current road selection process of the 5-year CIP prioritizes these higher-volume roads that carry significant amounts of people and goods movement, particularly agricultural goods (a policy of the Monterey County General Plan), and is consistent with other policies of the Circulation Element of the Monterey County General Plan.

Switching to a "PAYGo" program allows more funding for these roads in the 5-year CIP to be performed (rather than paying interest on debt).

Measure X is primarily needed to fund any on-going program for major maintenance/upgrade of higher-volume County roads that serve as important agricultural and tourism links. Being able to avoid using a substantial portion of this recurring revenue stream to pay bond debt will also facilitate our being better able to:

- Satisfy specific commitments which were made to the Ag community in 2016.
- Fund other Safety and Operational improvements on the County high volume system (e.g., Intersection upgrades).
- Retain a focus on roads of primary importance to the regional economic base.
- Perform road repairs in the communities of Pajaro, Castroville, Boronda, and Chualar.
- Manage the Road Fund to stay 'in the black 'and comply with the County's General Financial Policies which recommend that major funds create reserves for operational contingencies equal to one percent (1%) of estimated annual revenue and a strategic reserve equal to ten percent (10%) of estimated annual revenue.

- **Satisfy Objective of Board Referral 2020.12 - "Consider funding options to increase the Pavement Condition Index to at least a 'Fair' standard over the next ten years".** PWFP staff believe that a "Fair" Standard is achievable without bonding. Pavement Condition Index (PCI) provides a snapshot of the pavement health of a road. PCI is measured on a scale of 0 to 100 where 100 means a newly paved road. Examples of typical pavement surface distresses are spalling, rutting, scaling, and cracking. The Overall System PCI for County Roads is presently about 45. In fact, it appears County efforts will attain 50 ('Fair') by 2032 with the current/continued Pavement Management Program utilizing existing Measure X and SB1 revenue streams for major maintenance/upgrade of higher-volume County roads which serve as important agricultural and tourism links, and consistent with the Circulation Element policies of the Monterey County General Plan.
- **Retain Initial Road Repair Plan** as previously developed and presented (i.e., with a 10 -year pilot plan) as a guide for the Program - refer to Attachments D and E). Some restructuring may be necessary on an annual basis to align cash flow to match available revenue. This will be accomplished as part of the regular yearly Capital Improvement Program (CIP) Update (i.e., specific scheduling of projects may be adjusted from what is reflected in the program as initially developed in 2022).
- **Retain (Existing) Community Road Maintenance Program (CRMP)** - for unprogrammed, qualifying road maintenance projects where the funding is allocated among the supervisorial districts, and that can be handled by PWFP at the discretion of the Director of PWFP. Examples of qualified projects include, but are not limited to: street sweeping, vegetation clearing, litter removal, etc. (beyond base program). Funding for CRMP is from TOT and divided among the supervisorial districts based on a formula set forth in the adopted policy.
- **Other related local road programs** would also be housed in this program, including:
    - **Annual Seal Coat Program** (already part of TOT **-** currently $2 million per year).
    - **Measure X Community Street Repair Program** - currently $1.4 million per year. This existing program focuses on deferred maintenance on County maintained roads in

neighborhoods which are part of disadvantaged communities, as well as neighborhoods which are part of communities without CSAs (Castroville, Boronda, Pajaro, and Chualar).

- **Sample Program Year (FY25)** - for illustration purposes (all numbers rounded for discussion simplicity's sake):

  Revenue: $10 million

  Expenditure categories:

  - $1.5 million - CRMP (25% of revenue of previous TOT allocation)
  - $2.0 million - Annual Seal Coat Program
  - $1.0 million - Maintenance crew needs
  - $5.5 million - Other planned projects in Local Road Rehabilitation Program and/or Added Capacity for Measure X Community Street Repair Program
  - Total: $10 million

- **Recommended Policy Framework/Priorities**

  Subject to funding capacity:

  1. Available for deferred maintenance on County maintained roads in neighborhoods which are part of disadvantaged communities.
  2. Available for deferred maintenance on County maintained roads in neighborhoods which are part of communities without CSAs.
  3. Available for one-time deferred maintenance on County maintained roads in neighborhoods which are part of CSA areas - with concurrent commitment to activation and utilization of the CSA's 'Street and Sidewalk Maintenance' function moving forward.

Other Financing Alternatives?

Another alternative could include borrowing from county funds and/or reducing the scope of the 10-year pilot plan. This is not recommended at this time; however, this alternative can be reevaluated in the future if necessary as work on the pilot plan proceeds.

There are also potentially grant opportunities and other funding avenues possible through the new Federal infrastructure bill, the "Bipartisan Infrastructure Law." Staff will continue to research and explore these potential opportunities when they are released; however, if successful, staff believes that they should be viewed as extending the program reach (via supplementing).

Initial Road Repair Plan (unchanged from Version 1)

PWFP engaged a consultant to help develop a proposed 10-year plan to show how and where bond financing proceeds would be applied to improve local County roads. Local roads in need of repair were selected in areas to make meaningful improvements to entire communities or neighborhoods and address needed deferred maintenance. These community roads would not have otherwise been selected over the other roads in the 5-year CIP. The proposed plan assumed that approximately $100 million would be available over the 10-year period, which results in about 124 centerline miles of roads that would be improved. The plan is intended to be a living document that will be periodically updated; therefore, roads could be added or deleted depending on funding availability over the life of

this program. The plan focuses on pavement repair and rehabilitation, and other road related repair needs such as drainage features, sidewalks, etc., will be addressed via other road maintenance funding programs. There are no County roads in District 1 (which is entirely comprised of the City of Salinas) and the relatively few County roads in District 4 are not local roads targeted under this program. Therefore, the road sections in this proposed program are contained only in Supervisorial Districts 2, 3, and 5.

While this plan focuses on communities (such as Aromas, San Ardo, Spreckels, Bradley, Moss Landing (residential), etc.), many of the targeted roads are in County Service Areas (CSAs) because these form distinct, residential neighborhood areas, and District 5 has many large CSAs. Therefore, District 5 has the highest percentage of roads targeted under this bond-financed program. Some CSAs include road maintenance services, and after the condition of those roads is improved by this program, those CSAs will be solely responsible for funding future road maintenance per discussion during prior meetings. Roads included in the program were grouped into neighborhoods, so that roads located in relatively close geographic proximity were included in the same neighborhood. This was done to complete repairs on selected roads in the same geographic area to avoid returning to the same area multiple times over the life of the program. This will create cost efficiencies as contractors working on projects under this program can address multiple roads in the same area at the same time and minimize disruption to residents and motorists by impacting the selected roads in the same geographic area with construction activity only once.

The proposed program will have a meaningful impact on the quality of the local roads in the pilot plan, improving the condition of these roads from an overall "Poor" condition rating to an overall "Very Good" condition. Without this program, these roads would continue to decline, perhaps even to a "Very Poor/Failed" condition - even though the overall County maintained road system rating is expected to reach 'Fair' within 10 years. The table in Attachment D lists the neighborhoods selected for each year of the 10-year program, along with preliminary estimated costs. Maps depicting the roads included within each neighborhood and additional details on the proposed program are included in the report provided in Attachment E.

Current Status

The first two years of the program (FY23 and 24) are underway utilizing Road Fund balance as previously discussed:

- Design is underway for Aromas with construction anticipated in FY25.
- Road rehabilitation work in CSAs 25 and 66 has been completed.
- Design is underway for San Ardo, with construction anticipated over the next two Fiscal Years (FY25 and 26).
- Design is underway for Tierra Grande with construction anticipated in FY25.

The specific planned work plan for years FY25-29 will be included in the 5 Year CIP presented to the Board in the spring of 2024.

Staffing for the Program

Staffing increases to implement the local road rehabilitation will be measured and modest, and rely on

increased consultant support (i.e., a "hybrid" approach which has been discussed with the CIC and Board). With this measured approach, PWFP believes that we will be able to make timely progress on delivery of an increased number of road improvement projects.

Staff recommends implementing the new Local Road Rehabilitation Program as 'PAYGo' utilizing TOT (rather than leveraging the Road Fund's Measure X transaction revenues to support either a General Fund COP or Revenue COP bond issuance).

OTHER AGENCY INVOLVEMENT:
PWFP staff continues to coordinate with the County Administrative Office Budget & Analysis Division. They are aware that the recommended approach is now for a PAYGo program using TOT rather than debt financing. The proposed bond-funded local road repair program has been discussed at the CIC at its September 13, 2021 meeting; the CIC at its November 8, 2021 meeting with its implementation plan; the BC at its November 18, 2021 meeting; the full Board of Supervisors at its February 8, 2022 meeting for direction as a pilot; the DAC at its November 21, 2022 meeting; the BC at its November 30, 2022 meeting; and the CIC at its March 6, 2023 meeting.

FINANCING:
Staff recommends implementing the new Local Road Rehabilitation Program as 'PAYGo' utilizing TOT (rather than leveraging the Road Fund's Measure X transaction revenues to support either a General Fund COP or Revenue COP bond issuance). There would be no impact to General Fund revenues other than the use of TOT consistent with the existing County General Financial Policy.

If the Board concurs, then staff will develop and return with a formal Policy for the Local Road Rehabilitation Program which will set out the fundamental framework, tenets, and policies/priorities for adoption and inclusion in the Board Policy Manual (with implementation starting next Fiscal Year 2025).

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
A key objective has been to find funding sources for much needed maintenance to the County's transportation infrastructure. Financing helps to fulfill this objective. Combining these funds with federal and/or state grants will extend funding even further. The recommended action supports the following Board of Supervisors' Strategic Initiative below:

RECOMMENDATION:

It is recommended the Board of Supervisors:

a. Receive a status report on the Board Referral 2020.12 "Consider funding options to increase the Pavement Condition Index of County roads to at least a 'Fair' standard over the next ten years";
b. Support implementation of a financing plan for the local road rehabilitation pilot program;
c. Approve the initial local road repair plan; and
d. Provide direction to staff.

SUMMARY:

This report provides an update to the Board of Supervisors on the status of the proposed local road rehabilitation pilot program and recommends that the Board support the financing approach (Version 2) and proposed initial 10-year plan.

DISCUSSION:

Background

The County Administrative Office (CAO) and the Public Works, Facilities, and Parks Department (PWFP) received Board Referral 2020.12 on March 3, 2020, to consider funding options to increase the Pavement Condition Index of County roads to at least a "Fair" standard over the next ten years. Upon receiving the Board Referral, staff began researching options and consulted with the County's municipal advisor, KNN Public Finance (KNN), to identify funding/financing strategies within the context of the Road Fund existing revenue sources. Staff reviewed financing tools that the Board has mentioned in the past, starting with iBank, then the Total Road Improvement Program (TRIP), and lines of credit. KNN performed extensive research and analysis of potential financing options and security structures to possibly leverage existing Road Fund revenues. Based on this collective research and evaluation, the primary financing options available are: 1) Revenue Bonds, non-General Fund backed; and 2) Certificates of Participation (COPs), General Fund backed - but with debt service/repayment covered by the Road Fund (specifically, Measure X revenue proceeds).

Attachment A is the report which went to the Capital Improvement Committee (CIC) on March 6, 2023. It outlines a proposed debt financing approach (Version 1) and summarizes previous status and

DocuSign Envelope ID: 9A436092-5B19-4CA7-941F-04A1A2A2B2DB

options as well as related concerns and questions. This was scheduled to go to the full Board for direction in late March; however, PWFP's response to the Winter Storms precluded doing so at that time. Subsequently, after further evaluation, and in response to concerns iterated by both the Debt Advisory Committee (DAC) and Budget Committee, staff in PWFP have developed a third financing option for Board consideration - one which does not involve bond issuance or debt financing.

Previously Proposed Financing Approach - Summary (Version 1)
This financing approach would rely on available Road Fund balance to fund local road repairs until Fiscal Year (FY) 2025, at which time a General Fund COP of approximately $43 million would be issued to continue funding the program, followed by another issuance of about $23 million in FY 2028. This approach would rely solely on the availability of Measure X revenues to secure and repay the bonds (approximately $5 million per year for 20 years starting in FY29). The estimated total debt service for these two issuances is about $109 million, with a total interest cost of $43.3 million.

The alternative Revenue bond issuance would cost the Road Fund about $4.9 million more in higher interest costs. These are preliminary estimates, which would be refined and further detailed at the time the Board is asked to formally approve the first debt issuance.
(Refer to Attachment B for more detailed information - PowerPoint used for Budget Committee presentation on November 30, 2022).

Summary of Concerns with Version 1 and regarding possible Bond financing:

- **The DAC had the following concerns that should be considered and evaluated:** Debt service difference between General Fund COP and Revenue bond; Asset capacity if the Board wanted to bond for other major capital projects; Clarify and ensure that any bonds have terms not exceeding the Measure X sunset date, and that the road improvement useful life is 20 years or more; Recognize that the Measure X County allocation is set by ordinance by the Transportation Agency for Monterey County (TAMC) and could technically change in the future; Acknowledge concerns about future Senate Bill 1 (SB1) and the Highway Users Tax Account (HUTA) revenues/trends due to changes in fuel use. The DAC also noted that staff should pursue releases of currently pledged assets to the extent allowable under existing debt issuances.
- **Budget Committee (received a presentation on the bond financing approach at its meeting of November 30, 2022). The Budget Committee (BC) did not make a recommendation, and instead outlined the following key issues that the BC felt should be further considered**: Ensure that this program focusing on local roads does not impact ongoing efforts to rehabilitate higher-volume County roads that serve as important agricultural and tourism links; Concern about funding road repair in those County Services Areas (CSAs) that are responsible for and should be funding road repairs, and desire to understand how much of this program is directed to these CSAs; Cost of the program, specifically, the high cost of debt service and suggestion to pursue local road repair to the extent existing revenue sources allow; Ability to deliver projects in a timely manner and provide adequate inspection and oversight given current staffing levels; Provide information on potential upcoming large projects that the County might issue bonds for and ensure that the proposed road bond program does not preclude the County's ability to pursue other large bond-financed projects.

DocuSign Envelope ID: 9A436092-5B19-4CA7-941F-04A1A2A2B2DB

PWFP staff recognize the validity of the concerns which were expressed and believe that the most significant issues are the cost of debt service and satisfying commitments to the higher-volume County roads that serve as important agricultural and tourism links which strengthen the regional economic base.

Present Proposed Financing Approach for new Local Road Rehabilitation Program - Version 2

This proposed alternative financing approach would also rely on available Road Fund balance to fund local road rehabilitation work until Fiscal Year (FY) 2025; however, this would become a 'pay as you go' (PAYGo) program (rather than debt financed) from that point forward (for the remaining term of the 10 year 'Pilot Program'). The dedicated funding source would be the Road Fund's share of the County Transient Occupancy Tax (TOT). With the adoption of the FY 2024 Budget, there was follow-up that directed staff to implement the Financial Policy for the Road Fund that includes allocating 25% of TOT to the Road Fund in FY 2025 as part of the FY 2025 budget process. This proposed PAYGo program describes how those funds would be used.

Fundamental tenets and potential benefits of this approach, include:

- **No Planned Bond Issuance** - Switching to a 'PAYGo" program should mitigate concerns regarding the cost of the program, specifically, the high cost of debt service (utilizing Measure X revenues to secure and repay the bonds). This would also conform with the BC's suggestion to pursue local road repair to the extent existing revenue sources allow.
- **Convert Local Road Rehabilitation Program to 'PAYGo' utilizing TOT -** starting in FY25. There is currently a planned increased transfer to the Road Fund in FY25 from General Fund TOT to 25% of tax receipts. As a result, just over $10 million is projected to be available in FY25 (up from $6.2 million in the current fiscal year - FY24). The projected 10 -year total for this revenue stream is a little over $105 million.
    - For possible reference, Attachment C is the existing County General Financial Policy. Within Section 7.9 (page 13), there is a clause dealing with the transfers to the Road Fund - 'Contributions to the Road Fund' which reads as follows: "In FY 2013-14, the TOT contribution percentage for the Road Fund was established by the Board at twenty percent (20%) of total TOT revenue. Per annum, the contribution shall increase by one percent (1%) until it reaches a twenty-five percent cap (25%). This contribution replaces, and is not in addition to, the $2.0 million the County previously provided per annum to the Road Fund from the General Fund."
- **Use of Measure X and SB1 -** Switching to a 'PAYGo' program will permit these funds to be dedicated to major maintenance and road improvements consistent with what was originally envisioned when passed by the electorate in 2016 and 2017 (i.e., for Pavement Management and other improvements on higher-volume County roads which function to strengthen the economic backbone of the region).

  In addition, the current road selection process of the 5-year CIP prioritizes these higher-volume roads that carry significant amounts of people and goods movement, particularly agricultural goods (a policy of the Monterey County General Plan), and is consistent with other policies of the Circulation Element of the Monterey County General Plan.

DocuSign Envelope ID: 9A436092-5B19-4CA7-941F-04A1A2A2B2DB

Switching to a "PAYGo" program allows more funding for these roads in the 5-year CIP to be performed (rather than paying interest on debt).

Measure X is primarily needed to fund any on-going program for major maintenance/upgrade of higher-volume County roads that serve as important agricultural and tourism links. Being able to avoid using a substantial portion of this recurring revenue stream to pay bond debt will also facilitate our being better able to:

- Satisfy specific commitments which were made to the Ag community in 2016.
- Fund other Safety and Operational improvements on the County high volume system (e.g., Intersection upgrades).
- Retain a focus on roads of primary importance to the regional economic base.
- Perform road repairs in the communities of Pajaro, Castroville, Boronda, and Chualar.
- Manage the Road Fund to stay 'in the black 'and comply with the County's General Financial Policies which recommend that major funds create reserves for operational contingencies equal to one percent (1%) of estimated annual revenue and a strategic reserve equal to ten percent (10%) of estimated annual revenue.

- **Satisfy Objective of Board Referral 2020.12 - "Consider funding options to increase the Pavement Condition Index to at least a 'Fair' standard over the next ten years".** PWFP staff believe that a "Fair" Standard is achievable without bonding. Pavement Condition Index (PCI) provides a snapshot of the pavement health of a road. PCI is measured on a scale of 0 to 100 where 100 means a newly paved road. Examples of typical pavement surface distresses are spalling, rutting, scaling, and cracking. The Overall System PCI for County Roads is presently about 45. In fact, it appears County efforts will attain 50 ('Fair') by 2032 with the current/continued Pavement Management Program utilizing existing Measure X and SB1 revenue streams for major maintenance/upgrade of higher-volume County roads which serve as important agricultural and tourism links, and consistent with the Circulation Element policies of the Monterey County General Plan.
- **Retain Initial Road Repair Plan** as previously developed and presented (i.e., with a 10 -year pilot plan) as a guide for the Program - refer to Attachments D and E). Some restructuring may be necessary on an annual basis to align cash flow to match available revenue. This will be accomplished as part of the regular yearly Capital Improvement Program (CIP) Update (i.e., specific scheduling of projects may be adjusted from what is reflected in the program as initially developed in 2022).
- **Retain (Existing) Community Road Maintenance Program (CRMP)** - for unprogrammed, qualifying road maintenance projects where the funding is allocated among the supervisorial districts, and that can be handled by PWFP at the discretion of the Director of PWFP. Examples of qualified projects include, but are not limited to: street sweeping, vegetation clearing, litter removal, etc. (beyond base program). Funding for CRMP is from TOT and divided among the supervisorial districts based on a formula set forth in the adopted policy.
- **Other related local road programs** would also be housed in this program, including:
    - **Annual Seal Coat Program** (already part of TOT **-** currently $2 million per year).
    - **Measure X Community Street Repair Program** - currently $1.4 million per year. This existing program focuses on deferred maintenance on County maintained roads in

DocuSign Envelope ID: 9A436092-5B19-4CA7-941F-04A1A2A2B2DB

neighborhoods which are part of disadvantaged communities, as well as neighborhoods which are part of communities without CSAs (Castroville, Boronda, Pajaro, and Chualar).

- **Sample Program Year (FY25)** - for illustration purposes (all numbers rounded for discussion simplicity's sake):

  Revenue: $10 million

  Expenditure categories:

  - $1.5 million - CRMP (25% of revenue of previous TOT allocation)
  - $2.0 million - Annual Seal Coat Program
  - $1.0 million - Maintenance crew needs
  - $5.5 million - Other planned projects in Local Road Rehabilitation Program and/or Added Capacity for Measure X Community Street Repair Program
  - Total: $10 million

- **Recommended Policy Framework/Priorities**

  Subject to funding capacity:

  1. Available for deferred maintenance on County maintained roads in neighborhoods which are part of disadvantaged communities.
  2. Available for deferred maintenance on County maintained roads in neighborhoods which are part of communities without CSAs.
  3. Available for one-time deferred maintenance on County maintained roads in neighborhoods which are part of CSA areas - with concurrent commitment to activation and utilization of the CSA's 'Street and Sidewalk Maintenance' function moving forward.

Other Financing Alternatives?

Another alternative could include borrowing from county funds and/or reducing the scope of the 10-year pilot plan. This is not recommended at this time; however, this alternative can be reevaluated in the future if necessary as work on the pilot plan proceeds.

There are also potentially grant opportunities and other funding avenues possible through the new Federal infrastructure bill, the "Bipartisan Infrastructure Law." Staff will continue to research and explore these potential opportunities when they are released; however, if successful, staff believes that they should be viewed as extending the program reach (via supplementing).

Initial Road Repair Plan (unchanged from Version 1)

PWFP engaged a consultant to help develop a proposed 10-year plan to show how and where bond financing proceeds would be applied to improve local County roads. Local roads in need of repair were selected in areas to make meaningful improvements to entire communities or neighborhoods and address needed deferred maintenance. These community roads would not have otherwise been selected over the other roads in the 5-year CIP. The proposed plan assumed that approximately $100 million would be available over the 10-year period, which results in about 124 centerline miles of roads that would be improved. The plan is intended to be a living document that will be periodically updated; therefore, roads could be added or deleted depending on funding availability over the life of

DocuSign Envelope ID: 9A436092-5B19-4CA7-941F-04A1A2A2B2DB

this program. The plan focuses on pavement repair and rehabilitation, and other road related repair needs such as drainage features, sidewalks, etc., will be addressed via other road maintenance funding programs. There are no County roads in District 1 (which is entirely comprised of the City of Salinas) and the relatively few County roads in District 4 are not local roads targeted under this program. Therefore, the road sections in this proposed program are contained only in Supervisorial Districts 2, 3, and 5.

While this plan focuses on communities (such as Aromas, San Ardo, Spreckels, Bradley, Moss Landing (residential), etc.), many of the targeted roads are in County Service Areas (CSAs) because these form distinct, residential neighborhood areas, and District 5 has many large CSAs. Therefore, District 5 has the highest percentage of roads targeted under this bond-financed program. Some CSAs include road maintenance services, and after the condition of those roads is improved by this program, those CSAs will be solely responsible for funding future road maintenance per discussion during prior meetings. Roads included in the program were grouped into neighborhoods, so that roads located in relatively close geographic proximity were included in the same neighborhood. This was done to complete repairs on selected roads in the same geographic area to avoid returning to the same area multiple times over the life of the program. This will create cost efficiencies as contractors working on projects under this program can address multiple roads in the same area at the same time and minimize disruption to residents and motorists by impacting the selected roads in the same geographic area with construction activity only once.

The proposed program will have a meaningful impact on the quality of the local roads in the pilot plan, improving the condition of these roads from an overall “Poor” condition rating to an overall “Very Good” condition. Without this program, these roads would continue to decline, perhaps even to a “Very Poor/Failed” condition - even though the overall County maintained road system rating is expected to reach ‘Fair’ within 10 years. The table in Attachment D lists the neighborhoods selected for each year of the 10-year program, along with preliminary estimated costs. Maps depicting the roads included within each neighborhood and additional details on the proposed program are included in the report provided in Attachment E.

Current Status

The first two years of the program (FY23 and 24) are underway utilizing Road Fund balance as previously discussed:

- Design is underway for Aromas with construction anticipated in FY25.
- Road rehabilitation work in CSAs 25 and 66 has been completed.
- Design is underway for San Ardo, with construction anticipated over the next two Fiscal Years (FY25 and 26).
- Design is underway for Tierra Grande with construction anticipated in FY25.

The specific planned work plan for years FY25-29 will be included in the 5 Year CIP presented to the Board in the spring of 2024.

Staffing for the Program

Staffing increases to implement the local road rehabilitation will be measured and modest, and rely on

DocuSign Envelope ID: 9A436092-5B19-4CA7-941F-04A1A2A2B2DB

increased consultant support (i.e., a "hybrid" approach which has been discussed with the CIC and Board). With this measured approach, PWFP believes that we will be able to make timely progress on delivery of an increased number of road improvement projects.

Staff recommends implementing the new Local Road Rehabilitation Program as 'PAYGo' utilizing TOT (rather than leveraging the Road Fund's Measure X transaction revenues to support either a General Fund COP or Revenue COP bond issuance).

OTHER AGENCY INVOLVEMENT:
PWFP staff continues to coordinate with the County Administrative Office Budget & Analysis Division. They are aware that the recommended approach is now for a PAYGo program using TOT rather than debt financing. The proposed bond-funded local road repair program has been discussed at the CIC at its September 13, 2021 meeting; the CIC at its November 8, 2021 meeting with its implementation plan; the BC at its November 18, 2021 meeting; the full Board of Supervisors at its February 8, 2022 meeting for direction as a pilot; the DAC at its November 21, 2022 meeting; the BC at its November 30, 2022 meeting; and the CIC at its March 6, 2023 meeting.

FINANCING:
Staff recommends implementing the new Local Road Rehabilitation Program as 'PAYGo' utilizing TOT (rather than leveraging the Road Fund's Measure X transaction revenues to support either a General Fund COP or Revenue COP bond issuance). There would be no impact to General Fund revenues other than the use of TOT consistent with the existing County General Financial Policy.

If the Board concurs, then staff will develop and return with a formal Policy for the Local Road Rehabilitation Program which will set out the fundamental framework, tenets, and policies/priorities for adoption and inclusion in the Board Policy Manual (with implementation starting next Fiscal Year 2025).

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
A key objective has been to find funding sources for much needed maintenance to the County's transportation infrastructure. Financing helps to fulfill this objective. Combining these funds with federal and/or state grants will extend funding even further. The recommended action supports the following Board of Supervisors' Strategic Initiative below:

It is recommended the Capital Improvement Committee:

a. Receive a status report on the Board Referral 2020.12 "Consider funding options to increase the Pavement Condition Index of County roads to at least a 'Fair' standard over the next ten years";
b. Support implementation of a financing plan for the local road repair pilot program;
c. Approve the initial local road repair plan; and
d. Provide appropriate direction to staff.

SUMMARY:

This report provides an update to the Capital Improvement Committee (CIC) on the status of the proposed local road repair pilot program and a financing plan for the proposed initial 10-year plan.

DISCUSSION:

Background

The County Administrative Office (CAO) and the Public Works, Facilities, and Parks Department (PWFP) received Board Referral 2020.12 on March 3, 2020, to consider funding options to increase the Pavement Condition Index of County roads to at least a "Fair" standard over the next ten years. Upon receiving the Board Referral, staff began researching options and consulted with the County's municipal advisor, KNN Public Finance (KNN), to identify funding/financing strategies within the context of the Road Fund existing revenue sources. Staff reviewed financing tools that the Board has mentioned in the past, starting with iBank, then the Total Road Improvement Program (TRIP), and lines of credit. KNN performed extensive research and analysis of potential financing options and security structures to leverage existing Road Fund revenues. Based on this collective research and evaluation, the primary financing options available are: 1) Revenue Bonds, non-General Fund backed; and 2) Certificates of Participation (COPs), General Fund backed.

At the September 13, 2021 CIC meeting, staff and KNN presented their findings and options to the CIC. The road financing evaluation concluded that the clearest path forward is a borrowing approach that leverages the Measure X transaction and use tax revenues, either directly as a revenue bond

structure or indirectly as a General Fund COP structure. It was estimated that this approach could generate approximately $87 million to $257 million. This would be much less than the $600 million needed to increase Pavement Condition Index of County roads to at least a "Fair" standard over the next ten years. The CIC provided direction to staff to review and return with implementation strategies to gain a more comprehensive understanding of the internal County impacts of employing an augmented funding mechanism for the Road Fund, with the goal of commensurate increased delivery of road treatment projects.

At the November 8, 2021 CIC meeting, staff presented three implementation options consisting of: 1) increased County staffing levels; 2) increased use of contracted support (consultants and contractors); and 3) Design-Build contracting. Staff recommended a combination of the first two options, which would provide a measured approach for increasing staff levels while relying on consultant/contractor support as much as practicable to be able to make timely progress on delivery of an increased number of road improvement projects. The CIC concurred, and recommended staff to present this proposed program to the Budget Committee.

At the November 18, 2021 Budget Committee (BC), staff presented the financing options and the implementation plan. BC discussion included questions about staffing level, use of Road Fund balance, long term plan after the bond proceeds have been expended, financing approach, and additional potential funding sources. Key points from the discussion included the following:

- For Road Fund balance, follow the County's General Financial Policies which recommend major funds create reserves for operational contingencies equal to one percent (1%) of estimated annual revenue and a strategic reserve equal to ten percent (10%) of estimated annual revenue. This would result in maintaining at least a minimum of approximately $3 million in unprogrammed Road Fund balance to account for unanticipated events such as winter storm damage response and repair, fire response, other emergencies, etc.
- Staffing increase to implement the bond financed repair program and make greater use of existing Road Fund balance will be measured and modest, and also rely on increased consultant support (i.e., the "hybrid" approach discussed with the CIC).
- If a bond program is approved, then future Measure X revenues and Maintenance of Effort (the portion of Transient Occupancy Tax provided to Road Fund) would be programmed and used for the bond debt service, and thus no longer available for future road projects and services. That would leave the Gas Tax (Highway User Tax Account [HUTA]) and SB1 revenues as the only ongoing funding sources for future road repair and maintenance services (and possibly other Federal/State infrastructure allocations and/or grants which are not guaranteed).
- Bonds could be issued as multiple offerings over time to best match funding requirements with the delivery levels.
- Revenue bonds and certificates of participation (COPs) are the two viable financing vehicles to advance Road Fund capital projects. Revenue bonds could leverage the Measure X sales tax revenues allocated to the County. This approach relies solely on the availability of Measure X revenues to secure and repay the bonds and does not commit the County's General Fund assets or other sources of funds. Or, Measure X funds could be used to offset debt service on a General Fund COP issuance. This approach requires the pledge of a County asset(s). Thus,

DocuSign Envelope ID: CFAF5FD5-0F8E-4236-BF3C-403D49DDB0DC

the County would need to identify an unencumbered asset(s) with an insured asset value approximately equivalent to the par amount of the bonds.

- There are potential grant opportunities and other funding avenues possible through the new Federal infrastructure bill, the "Bipartisan Infrastructure Law." Staff will continue to research and explore these potential opportunities when they are released.
- The BC supported pursuing a bond-funded program to repair local roads, using the "hybrid" model involving a measured increase in County staffing levels and increased reliance on consultant assistance.

Staff presented information discussed at the CIC and BC meetings to the Board of Supervisors at the February 8, 2022 meeting. The Board directed staff to pursue a hybrid implementation approach as was discussed with the CIC and BC. This hybrid approach would implement a pilot road repair program with a smaller bond amount on the lower end of the $87 to $267 million range discussed with the CIC and BC. The bond would be backed by existing Road Fund revenue sources, and the repair program would address County roads in Community Service Areas and small communities such as Aromas, Spreckels, San Ardo, and Bradley.

Proposed Financing Approach

Based on the prior analysis and feedback discussed above, County staff and its legal and financial advisors focused on two possible bond financing approaches, a Revenue Bond or General Fund COP, to leverage Measure X revenues to advance road repair projects under the pilot road repair program. One approach would use Measure X revenues as a budgetary offset to debt service on a General Fund Certificate of Participation (COP) issuance, and the other approach would use Measure X revenues as a pledge to a Revenue COP issuance. A General Fund COP issuance appears to be more favorable because the County's lease credit rating offers debt issuance advantages (e.g., lower interest rates), provides sufficient capacity to help fund the proposed local road repair program, and would only add a modest amount of General Fund obligations so that projected General Fund debt ratios are estimated to remain strong. Revenue COP present some legal limitations that may be challenging to overcome. To minimize the size of bond issuances to support this program, the approach includes maximizing use of available funding to help implement the program and then using bonds only to address future funding needs.

The County's Debt Management Policy requires that the County's Debt Advisory Committee (DAC) advise the CIC, BC and Board of Supervisors regarding any proposed debt issuances. Therefore, staff presented the proposed financing approach to the DAC on November 21, 2022. After discussion, the DAC concluded that if the County were to implement bond financing to support the local road program, the General Fund COP approach appeared to make more sense. That said, the DAC had the following concerns that should be considered and evaluated:

- Debt service difference between General Fund COP and Revenue bond.
- Asset capacity if the BOS wanted to bond for other major capital projects.
- Clarify and ensure that any bonds have terms not exceeding the Measure X sunset date, and that the road improvement useful life is 20 years or more.
- Recognize that the Measure X County allocation is set by ordinance (by TAMC) and could technically change in the future.

DocuSign Envelope ID: CFAF5FD5-0F8E-4236-BF3C-403D49DDB0DC

- Acknowledge concerns about future SB1/HUTA revenues/trends due to changes in fuel use.

The DAC also noted that staff should pursue releases of currently pledged assets to the extent allowable under existing debt issuances.

Following the DAC meeting summarized above, staff presented the proposed road repair plan and financing approach to the BC at its meeting of November 30, 2022. The BC did not make a recommendation, and instead offered the following key issues that the BC felt should be further considered:

- Ensure that this program focusing on local roads does not impact on going efforts to rehabilitate higher-volume County roads that serve as important agriculture and tourism links.
- Concern about funding road repair in those County Services Areas (CSAs) that are responsible for and should be funding road repairs, and desire to understand how much of this program is directed to these CSAs.
- Cost of the program, specifically, the high cost of debt service and suggestion to pursue local road repair to the extent existing revenue sources allow.
- Ability to deliver projects in a timely manner and provide adequate inspection and oversight given current staffing levels.
- Provide information on potential upcoming large projects that the County might issue bonds for and ensure that the proposed road bond program does not preclude the County's ability to pursue other large bond-financed projects.

The proposed financing approach relies on maximizing available Road Fund balance to fund local road repairs until Fiscal Year (FY) 2025, at which time a General Fund COP of approximately $43 million would be issued to continue funding the program, followed by another issuance of about $23 million in FY 2028. The estimated total debt service for these two issuances is about $109 million, with a total interest cost of $43.3 million. The alternative Revenue COP issuance is projected to cost the Road Fund about $4.9 million in higher interest costs. These are current preliminary estimates, which would be refined and further detailed at the time the BOS would be asked to approve the first debt issuance.

PWFP continues to work with the County Administrative Office on the financing plan to address the future costs of this plan. Alternatives to bond-issuance include borrowing from county funds and reducing the scope of the 10-year plan to allow the Road Fund to use ongoing revenues and fund balance to fund the projects.

A General Fund COP will require the County to pledge one or more assets to support the debt issuances. As discussed with the DAC, staff is pursuing releases of County assets that are currently pledged for prior bond issues to the extent allowable. Currently, there are assets with a value of at least $131 million that could be pledged for future General Fund COPs, plus numerous additional assets for which valuations could be developed if needed to support other large capital projects that the BOS might want to implement with debt financing. Staff is only aware of two potential future projects which include a possible downtown parking garage and a potential multi-use facility in the City of Seaside to support Social Services, Health and Library Departments.

Initial Road Repair Plan

PWFP engaged a consultant to help develop a proposed 10-year plan to show how and where bond financing proceeds would be applied to improve local County roads. Local roads in need of repair were selected in areas to make meaningful improvements to entire communities or neighborhoods and address needed deferred maintenance. The proposed plan assumed that approximately $100 million would be available over the 10-year period, which results in about 124 centerline miles of roads that would be improved. The plan is intended to be a living document that will be periodically updated, therefore, roads could be added or deleted depending on funding availability over the life of this program. The plan focuses on pavement repair and rehabilitation, and other road related repair needs such as drainage features, sidewalks, etc., will be addressed via other road maintenance funding programs. There are no County roads in District 1 (which is entirely comprised of the City of Salinas) and the relatively few County roads in District 4 are not local roads targeted under this program. Therefore, the road sections in this proposed program are contained only in Supervisorial Districts 2, 3, and 5.

Many of the targeted roads are in County Service Areas (CSAs) because these form distinct, residential neighborhood areas, and District 5 has many large CSAs. Therefore, District 5 has the highest percentage of roads targeted under this bond-financed program. Some CSAs include road maintenance services, and after the condition of those roads is improved by this program, those CSAs will be solely responsible for funding future road maintenance per discussion during prior meetings. Roads included in the program were grouped into neighborhoods, so that roads located in relatively close geographic proximity were included in the same neighborhood. This was done to complete repairs on selected roads in the same geographic area to avoid returning to the same area multiple times over the life of the program. This will create cost efficiencies as contractors working on this program can address multiple roads in the same area at the same time and minimize disruption to residents by impacting them with construction activity only once.

The proposed program will have a meaningful impact on the quality of roads, improving the condition of these local roads from an overall “Poor” condition rating to an overall “Very Good” condition. Without this program, these roads would continue to decline to a “Very Poor/Failed” condition. The table in Attachment A lists the neighborhoods selected for each year of the 10-year program, along with estimated cost. Maps depicting the roads included within each neighborhood and additional details on the proposed program are included in the report provided in Attachment B.

OTHER AGENCY INVOLVEMENT:

PWFP staff continues to coordinate with the County Administrative Office Budget & Analysis Division. The proposed bond-funded local road repair program has been discussed at the Capital Improvement Committee meetings of September 13, 2021 and November 8, 2021, the Budget Committee meeting of November 18, 2021 and the Board of Supervisors meeting of February 8, 2022. This most recent update was provided to the Debt Advisory Committee on November 21, 2022, where the expressed feedback and concerns. This was also presented to the Budget Committee at its November 30, 2022 meeting, where the members also provided feedback and concerns. Staff intends to bring this item to the Board on March 28, 2023.

FINANCING:
Public Works, Facilities, & Parks supports leveraging the Road Fund's Measure X transaction and use tax revenues to support either a General Fund COP or Revenue COP bond issuance to pay for the proposed local road and repair program. The General Fund COP is preferable to the Revenue COP, as the former would be secured by the General Fund which carries a higher credit rating resulting in reduced borrowing costs and interest rates. Issuing bonds, with the security of the County's General Fund, would also eliminate certain structural requirements, significantly increasing bond proceeds. Only the General Fund COP can meet the projected costs of the 10-year program. If a Revenue COP were chosen, additional financing options would need to be considered. Under both bond financing structures, Measure X revenues would be used to pay the annual debt service payment, which means there would be no impact to the General Fund revenues. The proposed bonding approach is structured so that the General Fund will not be impacted and a new tax on ratepayers will not be required. Based on feedback from the Budget Committee, the Public Works, Facilities & Parks and the County Administrative Office are reviewing alternatives.

Financing Plan Tailored to Meet Funding Deficits

- **Objective**
  - Ensure sufficient resources for delivery of: (i) “status quo” maintenance and capital project costs; AND (ii) delivery of additional annual costs of Local Road Rehabilitation Program

- **Use of Available Fund Balance (Road Fund)**
  - Used to meet projected deficits in FY 2022-23 and FY 2023-24 and downsize borrowing need
  - Target minimum annual ending cash balance based on County operating reserve policy

- **Use of Bonds**
  - Used to meet cash flow deficits beginning in FY 2024-25
  - Size and timing of projected bond issuances satisfy IRS expenditure requirements for tax-exempt bonds (i.e., cover three years of accumulated deficit) while also achieving target minimum ending cash balance

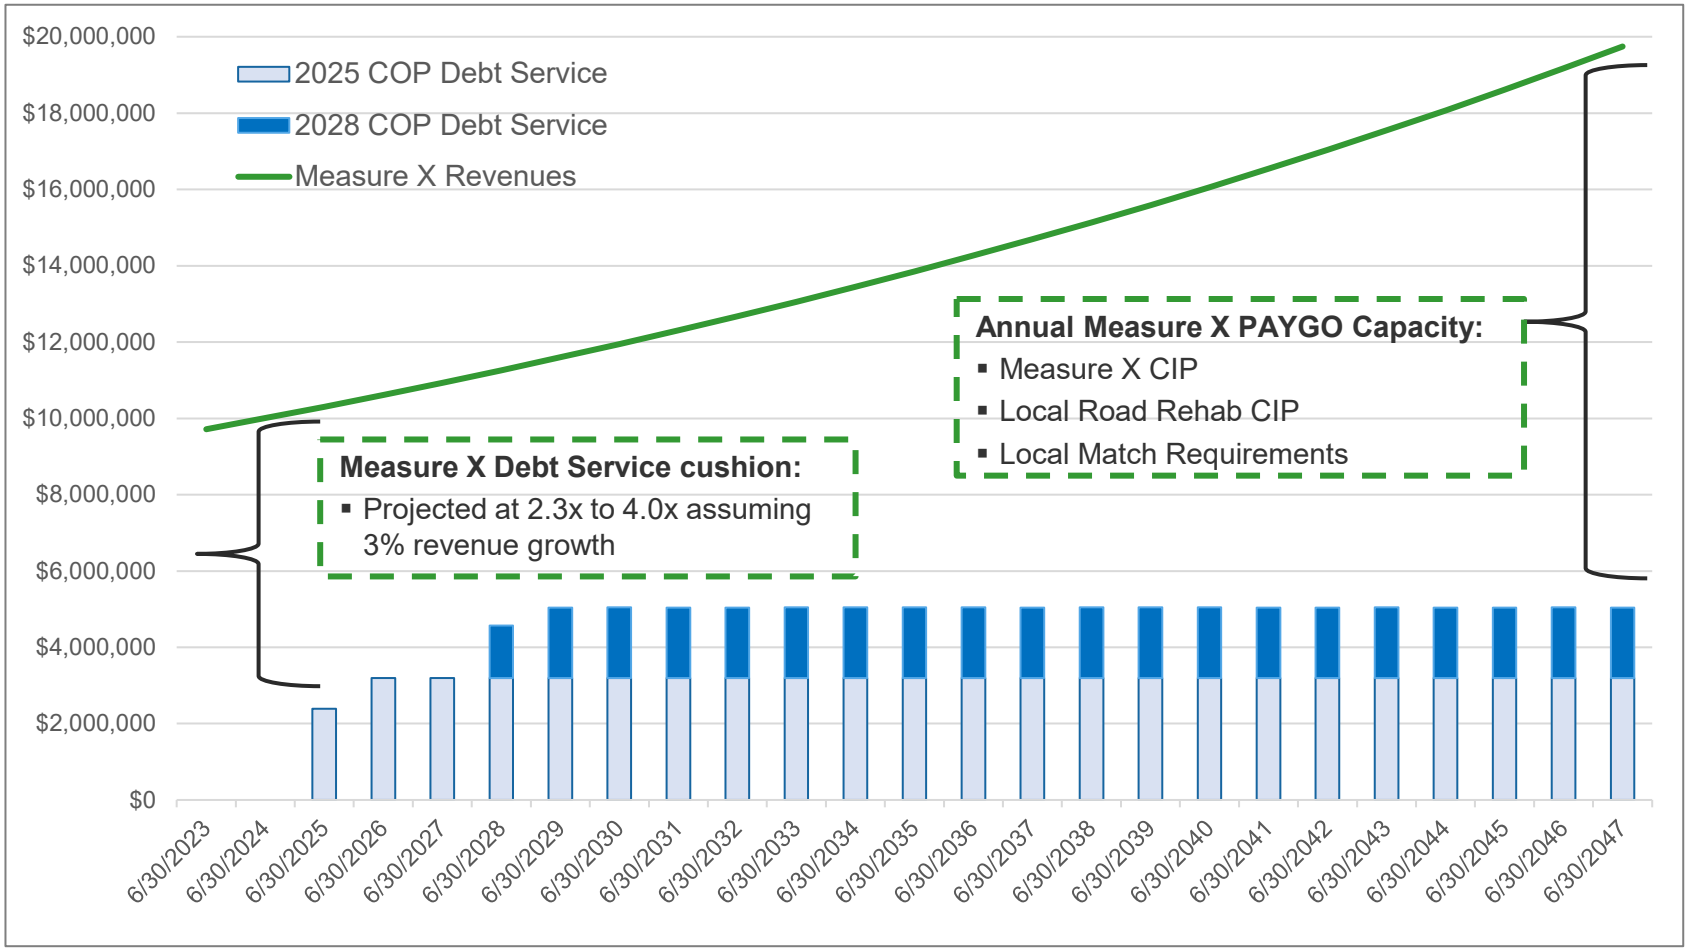
Road Fund Revenue Sources and Bond Repayment

- Not all Road Fund revenues are available to repay bonds issued for road improvements:
  - **HUTA, SB-1, and RMRA** (gas tax revenues) cannot be used to secure or pay debt service on bonds
  - **TOT** (general tax revenues) cannot be used to secure bonds but can be used to pay debt service on bonds
  - **Measure X** (special sales tax revenues) can be used to secure or pay debt service on bonds

- A bond program supported by Measure X revenues can be implemented in two ways:
  i. **General Fund COP:** Bonds secured by the County General Fund utilizing the County's annual Measure X direct allocation to pay debt service

  ii. **Installment Sale Revenue COP:** Bonds secured solely by the Measure X annual direct allocation so long as they are subordinate in payment priority to sales tax revenue bonds issued by the TAMC

Rationale for the Issuance of General Fund COPs



Pros	Cons	Mitigating Factors
▪ Maximizes proceeds for roads projects over the 10-year period ▪ Minimizes bond debt service costs	▪ Requires County's General Fund to serve as security source	▪ FY 2022 Measure X sales tax revenues provide 3.0x coverage for bond issuance #1, eliminating repayment risk to the General Fund ▪ Measure X revenues will be maintained as PAYGO (not leveraged) – providing additional cushion against revenue volatility

▪ Debt issuance advantages:
  ▪ Established credit
  ▪ High credit ratings (AA+/AA)/lower interest costs
  ▪ No DSRF or DS coverage requirement
	▪ Impact to GF debt burden and GF debt capacity (although minimal)	▪ General Fund debt ratios are estimated to remain "strong" and score at the highest level of S&P's scoring framework

▪ Legal analysis supports the issuance of General Fund COPs ▪ Revenue COPs present legal limitations which may be challenging to overcome	▪ Requires pledge of leased asset in roughly equivalent value to issuance amount	▪ Possibility to release asset(s) pledged to the 2015 COPs and redeploy to future COPs issued for Road Fund ▪ Flexibility to issue COPs in the future utilizing other assets or a project backed lease structure

Measure X Revenues and Projected Annual General Fund COP Debt Service

Note: Assumed Measure X revenues reflect FY 2022 actual, unaudited amounts and a 3% annual growth factor.

County Pledged and Available Assets

- Roads are generally not attractive leased assets from an investor perspective and would not be an optimal pledge for the Local Road Rehabilitation bond program

Recommended Financial Approach

- The issuance of bonds, in tandem with Road Fund available fund balance and PAYGO revenues, best advances the objectives of the Local Road Rehabilitation Program
  - Meets projected Local Road Rehabilitation Program costs over the targeted 10-year horizon while also ensuring the ongoing delivery of "status quo" projects

- Requested DAC approval is to support the General Fund COP approach for the Local Road Rehabilitation bond program
  - The amount and timing of actual bond issuances will be driven by actual Measure X revenues and the timing and cost of remaining local road projects
  - Adverse impact of the issuance of General Fund COPs on the General Fund is mitigated by Measure X revenues dedicated to pay debt service on the bonds

Debt Advisory Committee Discussion

- Debt service difference between GF COP and Revenue bond
- Asset capacity if the BOS wanted to bond for other projects and pursue releases of pledged assets wherever applicable
- Clarify that bonds have terms not exceeding the Measure X sunset date, and that the road improvement shelf life is 20 years
- Recognize that the Measure X's county allocation is set by ordinance (by TAMC) and could technically change in the future
- Acknowledge concerns about future SB1/HUTA revenues/trends due to changes in fuel use

Recommendations

a. Receive a status report on the Board Referral 2020.12 “Consider funding options to increase the Pavement Condition Index of County roads to at least a ‘Fair’ standard over the next ten years”;

b. Support implementation of a bond-funded local road repair pilot program;

c. Approve the initial local road repair plan; and

d. Provide appropriate direction to staff.

1. PURPOSE AND BACKGROUND

The stewardship of public funds is one of the most significant responsibilities given to the officials and managers of the County of Monterey (County). The development and maintenance of prudent financial policies enable County officials to protect public interests, ensure transparency, and build trust. Financial policies define a shared understanding of how the County develops its financial practices and manages its resources to provide the best value to the community.

This document centralizes the County's financial policies to establish a framework for overall fiscal planning, management, and guidance. These policies are reviewed, updated, and brought before the Board of Supervisors (Board) as needed but at least annually for adoption. This continued review and adoption promotes sound financial management and helps maintain the County's stability, efficiency, and effectiveness by ensuring the Board's financial guidance is provided before all County actions. The policies also offer guidelines for evaluating both current activities and proposals for future programs and direct the County's financial resources toward meeting its objectives and strategic initiatives.

The policies provide general guidance in the management of the County's fiscal affairs and are to be used by all County departments to meet their obligation to operate in a financially prudent manner. The Recommended Budget adheres to these policies.

2. GENERAL FINANCIAL PHILOSOPHY

The financial policies provide a sufficient financial base and the resources necessary to support and sustain an adequate and responsible community service level to ensure public safety, enhance the physical infrastructure and environment, and improve and maintain the quality of life within our community.

The cornerstone and highest priority of the County's financial policies is fiscal integrity. It shall be the goal of the County to achieve a strong financial condition with the ability to:

a. Sustain adequate financial liquidity to meet normal operating and contingent obligations;
b. Provide an acceptable level of medical, social, law enforcement, and other protective services to assure public health and safety;
c. Ensure a sufficient financial base is maintained to withstand local and regional economic impacts;
d. Prudently plan, coordinate, review, and implement responsible community development and growth;
e. Foster the ability to adjust efficiently to the community's changing service requirements;
f. Maintain and improve infrastructure and capital assets;
g. Regularly review programs and operational methods to improve processes that result in higher productivity, eliminate repetitive and duplicative functions;
h. Encourage collaboration with other government entities, the private sector, and public-private partnerships where cost and risk are minimized in the delivery of services within the community;
i. Promote equitable sharing of costs by service users;
j. Ensure the legal use of financial resources through effective systems of internal controls;

k. Support sound financial management by providing accurate and timely information on the County's financial condition; and
l. Provide a framework for the wise and prudent use of debt financing and maintain a good credit rating in the financial community.

2.1 The Annual Budget

a. The County Administrative Office will recommend a balanced budget that aligns annual expenditures with conservative revenue estimates to minimize the use of fund balance or other one-time financing sources for ongoing operating expenditures;
b. The County Administrative Office will consult with Department Heads and seek their input in developing the Recommended Budget through cooperative discussions and budget workshops;
c. The County Administrative Office will keep the Board apprised on the condition of the County's finances and emerging fiscal issues; and
d. Through the Board's Legislative Committee, the County will work with the California State Association of Counties (CSAC), state representatives, legislative advocates in the State Capitol, and other local government organizations to assure any state programs administered by the County are adequately funded and any realignment of state and county responsibilities are fiscally neutral.

3. ROLES AND FUNCTIONS

3.1 Role of County Administrative Office

The County Administrative Office serves as the chief policy advisor to the County Administrative Officer and the Board. The County Administrative Office promotes responsible resource allocation, strives to protect the County’s financial position and integrity, and provides independent analysis on policy issues. The County Administrative Officer is the fund manager for the General Fund and all other funds, and on behalf of the Board, the County Administrative Officer makes independent recommendations regarding all additional funds under their jurisdiction.

3.2 Principal Functions of the County Administrative Office

Principal functions of the County Administrative Office include:

a. Promoting continuous improvement of the structures, systems, processes, and effectiveness of programs;
b. Preparing the annual financial plan (Recommended Budget);
c. Working with departments to evaluate potential federal, state, and local budget impacts;
d. Developing financial forecasts;
e. Monitoring revenues and expenditures for conformance with the annual budget;
f. Recommending effective fiscal policies to carry out programs;
g. Verifying Board policies are consistently applied; and
h. Ensuring items brought before the Board are accurate, complete, fully justified, and reviewed by appropriate stakeholders.

3.3 Principal Functions of County Departments

Departments are considered the content experts for the functions they perform. They are responsible for:

a. Carrying out operations efficiently and cost-effectively while adhering to all county, state, and federal laws, regulations, and policies;
b. Preparing budgets and financial estimates with attention to accuracy based on their operational expertise, county, state, and federal funding changes, and economic indicators affecting revenues, expenditures, and service levels;
c. Reviewing, evaluating, and assessing potential federal and state budget issues that may impact local budgets;
d. Developing and performing financial forecasts;
e. Monitoring monthly revenue and expenditure performance and conformance with the annual budget;
f. Meeting the Board's strategic initiatives and its policies; and
g. Ensuring items brought before the Board are transparent, accurate, complete, fully justified, and reviewed by all appropriate stakeholders.

3.4 Principal Functions of the Budget Committee

The Budget Committee's principal functions include receiving staff updates on financial issues affecting the County and providing oversight and direction to staff in developing and modifying the budget.

3.5 Principal Functions of the Capital Improvement Committee

The Capital Improvement Committee's principal functions are to review the status of projects and establish a priority between competing needs.

4. SERVICES AND FUND STRUCTURE

4.1 General Fund

The County provides a broad range of mandated and non-mandated government services. The cost of these services is accounted for in the General Fund, the County's largest single fund. The General Fund is used to account for revenues and expenditures unless another fund has been created to account for a specific item, activity, or program.

4.2 Other Funds

Other governmental and proprietary funds that account for activities not provided by the General Fund are described below.

Other Governmental Funds

a. Special revenue funds are used to account for proceeds and expenditures from specific revenue sources to finance designated activities required by statute, regulation, ordinance, resolution, or board order.
b. Debt service funds are used to provide repayment of debt, such as Certificates of Participation (COPs), short-term borrowing, and other obligations.
c. Capital project funds are used for capital improvements and specified capital projects.

Proprietary Funds

a. Enterprise funds are financed and operated like private business enterprises whose services are primarily funded through user charges.
b. Internal service funds are used to account for any activity that provides goods or services to other funds, departments, or agencies of the County.

4.3 Major Funds

The County Administrative Officer or designee shall have the authority to determine funds that will be considered major funds for financial planning purposes. In addition to significant appropriations, factors that may be considered when designating major funds include political/social sensitivity of the activities financed from that fund, impact or potential impact of that fund on other programs or services, the significance of that fund on financing activities which are of high interest to the County and the public, and the existence of known uses or users of that information (e.g., bond rating companies, investors).

Major funds are as follows, but not limited to: 1) General Fund; 2) Natividad; 3) Facility Master Plan Projects; 4) Road Fund; 5) Library Fund; 6) Behavioral Health Fund; 7) Health and Welfare Realignment Fund; 8) Local Revenue Fund; and 9) Laguna Seca Recreation Area Fund.

5. OPERATING BUDGET

5.1 The County Budget

The Recommended Budget is the central financial planning document that embodies all County departments' goals, objectives, priorities, levels of service, and the associated operating revenue and expenditures. Appropriation authority is granted on the relationship between expected expenditures and revenue; therefore, appropriation authority is granted contingent on this relationship meeting the Recommended Budget. If revenues fall below expected amounts, the department must take all actions available to reestablish a revenue and expenditure relationship that conforms to the Recommended Budget.

The Recommended Budget shall be presented to the Board for adoption in June of each year and presented clearly for a general audience of the public. The Recommended Budget may be modified as approved by the Board during the fiscal year.

5.2 Balanced Budget

The County must adopt a *statutorily* balanced budget. A budget is *statutorily* balanced when the total estimated financing sources (beginning fund balance plus revenues) equal the total appropriation (expenditures plus ending fund balance). At no time shall spending in a given year exceed total current revenues plus any fund balance carryover from the prior year.

In addition to adopting a statutorily balanced budget, the County ensures the ongoing sustainability of its services by producing a *structurally* balanced budget. A *structurally* balanced budget matches total ongoing expenditures to the annual estimated revenues. In a *structurally* balanced budget, beginning fund balance may not be used as a financing source for ongoing expenditures. Departments have a fiscal objective to avoid using fund balance for operating purposes by aligning annual operating expenditures with annual operating revenues.

5.3 Ongoing Maintenance and Operations Needs

The County will adequately fund ongoing maintenance and operational needs with ongoing annual revenue. Without prior direction and approval by the Board and its Budget Committee, the use of one-time revenues or short-term borrowing is not allowed as a resource to finance ongoing maintenance and operational needs.

5.4 Adequate Maintenance of Capital Facilities and Equipment

The County shall establish as a primary fiscal responsibility the preservation, maintenance, future improvement and, when applicable, orderly replacement of the County's capital facilities and equipment.

5.5 CalPERS

The annual budget will provide adequate funding for all retirement systems. The County contracts with the California Public Employees' Retirement System (CalPERS) to provide retirement benefits under their defined benefit program. As a participant, the County is required to annually fund at a minimum the cost for retiree health benefits, otherwise known as Other Post-Employment Benefits (OPEB). To provide long-term funding for this benefit, the Board authorized joining CalPERS' California Employers' Retiree Benefit Trust (CERBT) and the pre-funding of the County's OPEB liabilities.

Due to its length, the Pension Liability Policy is separate from these policies and available online: https://www.co.monterey.ca.us/government/departments-a-h/administrative-office/budget-analysis/county-policies

5.6 Budget Deficits

Departments estimating a budget deficit shall prepare and submit a report to the Budget Committee that outlines the cause of the problem, the alternatives available to mitigate the projected budget deficit, and the department's recommended action. All additions to appropriations, transfers

between funds, major plans to reduce service levels, or plans to request funding from the contingencies appropriation require approval by at least four Board members (4/5ths vote).

5.7 Appropriations and Transfers

The following policy establishes appropriation control at the appropriation unit level, per Section 29120 of the California Government Code. The County Administrative Officer, per Section 29092 of the California Government Code, is the designated administrator over appropriation control, which includes transfers and revisions of appropriations that do not result in an overall increase in appropriations for an appropriation unit.

After budget adoption, a department may request a transfer between major expense categories within the same appropriation unit. The County Administrative Officer has designated authority to approve moves between major expense categories. Examples of major expense categories include salary and employee benefits, services and supplies, and other financing uses. Departments can only request a transfer between major expense categories within the same appropriation unit. The County Administrative Office must approve the request to transfer between major expense categories.

Transfers of appropriations between appropriation units must be approved by Board resolution. Per Section 29125 (a) of the California Government Code, operating transfers in and out between funds are not a transfer of appropriations, as, per Section 29089 of the County Budget Act, transfers out by fund are specified in the budget and are adopted by resolution.

5.8 Responsibility for Budget Management and Budgetary Control

The County shall maintain a budgetary control system to help it adhere to the budget. The County Administrative Office has budgetary control and authority over appropriations. The Auditor-Controller shall administer and maintain the system utilized for budgetary control. As the administrator of the budgetary control system, the Auditor-Controller shall notify the County Administrative Office when a department is reaching an appropriation limit. The Auditor-Controller shall seek guidance from the County Administrative Office on all issues relating to appropriation limits and controls.

County Officers and Department Heads have primary responsibility for managing departmental budgets by:

a. Providing accurate and timely budget estimates;
b. Monitoring revenues to ensure timely receipt in the amounts anticipated;
c. Ensuring that expenditures comply with the law, adopted resolutions, policies, and align appropriations relative to revenues;
d. Providing prompt notification to the County Administrative Office when either revenues or expenditures are not as anticipated; and
e. Preparing and justifying budget revisions when necessary.

5.9 Preparation of Financial Reports

The County Administrative Office annually prepares:

a. A Budget End-of-Year Report (BEYR) to retrospectively report on actual financial performance at a detail and summary level;
b. A current year estimate and three-year forecast to provide current year performance and forward-looking perspective to advise the Board on future challenges and provide a base for building the following year's Recommended Budget; and
c. Additional reports, as appropriate, to keep the Board informed on current financial performance and developments.

The Auditor-Controller's Office annually prepares:

a. An Annual Comprehensive Financial Report (ACFR) as required by the state, that reports on the County's financial position and activities beyond Generally Accepted Accounting Principles (GAAP) or state law requirements, to provide readers with a broader understanding of financial operations;
b. A Single Audit that reports federally funded County activities, in compliance with the U.S. Office of Management and Budget Circular A-133 Compliance Supplement, to assure the County's adherence to laws, regulations, contracts, and grants applicable to its major federal programs;
c. A Cost Allocation Plan (COWCAP) schedule, as required by the Federal Management Circular A-87 "Cost Principles for State and Local Governments", that confirms and allocates the indirect costs of the County to operating and non-general county departments; and
d. The countywide annual Tax Rate Book.

The County Administrative Office has oversight and contract management over the external auditors reviewing the ACFR. External auditors shall report to the County Administrative Office on audit findings. The County Administrative Office will take audit findings thereafter to the Board.

5.10 Publication of Budget

The County Administrative Office shall publish annually a Recommended Budget document that satisfies nationally recognized standards for effective budget presentation. The Auditor-Controller shall annually publish an adopted budget document to meet State Controller's Office requirements.

5.11 County Budget Development

Budget development is an annual process incorporating the Board's priorities and weighing competing requests for County resources within expected fiscal constraints. The process begins with departments preparing "baseline" budgets proposing levels of service and staffing that can be carried out within expected resources (e.g., program revenues and general fund contributions). To the extent there are increased costs or reduced revenue, baseline budgets may indicate potential reductions in staffing or services to maintain budgetary balance if additional resources are not provided. Departments may submit "augmentation requests" for additional resources to mitigate

potential impacts, increase staffing/services, or invest in infrastructure. The County Administrative Office evaluates baseline budgets and augmentation requests within the constraints of a balanced budget and builds the annual Recommended Budget. Staff considers the following criteria in formulating recommendations for the annual budget and subsequent mid-year budget modifications:

a. Mandated by current law or Board policy;
b. Alignment with the County's strategic initiatives and priorities;
c. Consistent with community priorities expressed in forums, surveys, and other community engagement initiatives;
d. Necessary to maintain the current level of mission-critical services/operations;
e. Substantiation of compelling public need (e.g., health, safety, economic vitality, quality of life) that cannot be met within existing resources;
f. Likelihood of success based on prior performance, degree of planning/specificity, requested resources, and assumed timeline;
g. Leverages sustainable financial support from non-County sources;
h. Appropriate placement of responsibility (federal, state, or local);
i. Degree of urgency; and
j. Critical infrastructure investment to ensure productivity and continuity of operations.

Criteria in the listing are not exhaustive or in any particular order, nor are they mutually exclusive; funding recommendations may align with more than one criteria.

5.12 Establish Countywide Priorities

The Board has a continuous process of establishing countywide priorities for ensuing years. The Board implements these priorities in the Recommended Budget within the framework of the law. Understanding that elected officials and Department Heads are charged with the actual provision of services to the community, the Board shall set broad priorities to ensure flexibility for departments to concentrate on these priorities.

5.13 Authorization of Elected Officials

In determining service levels, the Board and County Administrative Office recognize that countywide elected officials have constitutional and/or statutorily created mandates and are accountable to the electorate. Although the Board adopts a budget for each department, elected officials will determine the services they will provide within the adopted budgetary constraints. These policies recognize that elected officials have independent constitutional and/or statutory powers to direct service levels and priorities within their departments. These powers are independent of the Board in part because these officials (like the Board) serve at the pleasure of the electorate. However, the Board is responsible for allocating appropriations to all departments.

5.14 Budget Adoption Level

Under the County Budget Act (California Government Code, Sections 29000 through 29144), the Board enacts the annual financial plan (the Adopted Budget) through the passage of a resolution. The resolution mandates the maximum authorized expenditures for the fiscal year and sets

appropriation control at the appropriation unit level. An appropriation unit represents one or more budget units and defines the budgetary limits of those budget units. A budget unit represents a program or group of programs providing a similar service. The assignment of an appropriation unit is guided by State Controller financial reporting requirements and/or County requirements. Pursuant to Section 29092 of the County Budget Act, the County Administrative Office is charged by the Board to monitor and make administrative decisions related to appropriation control.

5.15 Amendments to the Adopted Budget

Modifications to the Adopted Budget require approval by at least four Board members (4/5ths vote). Amendments to the Adopted Budget will be made in compliance with Board policies.

5.16 Budgetary Basis

The County uses the modified accrual basis of accounting following Generally Accepted Accounting Principles (GAAP). The budgetary basis is substantially the same as the modified accrual method of accounting that is used for financial reporting for all governmental funds except enterprise funds. The County currently has three enterprise funds which are budgeted based on a full accrual basis of accounting.

5.17 Capital Asset Definition

The County defines capital assets as assets with initial, individual costs of $5,000 or more and an estimated useful life greater than one year, except infrastructure, for which the threshold is set at $100,000. Capital assets include both tangible and intangible assets categorized by asset type for reporting purposes.

6. STRATEGIC PLANNING

6.1 Three-Year Forecast

The County uses a Three-Year Forecast strategic model to develop, initiate, and modify policies and budgets. The Three-Year Forecast demonstrates the County's ability to accomplish long-term goals by determining the potential budgetary impacts of current budget decisions. This approach allows the Board to be aware of the probable long-term outcomes of alternative decisions and to select the one that effectively serves the interests of the community within the financial resources of the County.

The Three-Year Forecast identifies fund balances, revenue patterns, expenditure trends, and cash requirements. It is neither a future budget, nor does it recommend services or programs. The Forecast is a guide to assist in making recommendations and building future budgets. The Forecast is designed to facilitate decision-making based on two fundamental questions: "What is the County’s financial future without change?" and "What path does the County wish to take for the future?"

The annual Three-Year Forecast is prepared in February by the County Administrative Office, with the subject matter expert assistance of departments. The timeframe allows departments to obtain prior year audited results and six months of actual financial data in the current fiscal year. The Forecast serves as a current year estimate and three-year financial outlook for building next year's Recommended Budget.

7. REVENUE AND EXPENDITURE POLICIES

7.1 Revenue Diversification

A diversified and stable revenue system will be maintained to shelter community services from short and long-term fluctuations to the extent possible.

7.2 Revenue Estimates

Annual revenues are conservatively estimated as a basis for preparing the Recommended Budget. Estimates shall not be based on optimistically hoped-for events but analytical techniques that use historical data, economic trends and indicators, information available from the state and other governmental agencies, and other accepted standards. In general, revenue estimates shall not assume any growth rate that is not well documented. Real growth that occurs beyond budgeted revenue will be recognized through budgetary adjustments. Significant revenues will be estimated by the department that manages the program and then reviewed first by the County Administrative Office and subsequently by the Board's Budget Committee before the adoption of the Recommended Budget.

7.3 Current Revenues

Annual expenditures shall be balanced to ongoing annual revenues without the use of one-time financing. Deficit financing and borrowing will not be used to support ongoing County services and operations without explicit Board direction and approval. The Board shall be advised that interfund loans are required, or the use of non-appropriated funds is requested.

7.4 User Fees

The County charges user fees for various services when it is appropriate and permitted by law. Unless set by policy, regulation, or statute, user fees are established and maintained at the Board's discretion. Fees will generally be set at a level sufficient to cover both direct and indirect costs of the services provided. The service may be subsidized by the County as deemed necessary by the Board. Factors for subsidy consideration include whether a subsidy causes an inappropriate burden on taxpayers, the degree to which the service benefits a segment of the population, whether beneficiaries can pay the fee, and whether the service provides a broader benefit to the community.

All fees for services are reviewed as necessary and adjusted where appropriate. The full cost of providing a service is calculated to provide a basis for setting the charge or fee and incorporates direct and indirect costs, including operations and maintenance, overhead, charges for the use of capital facilities, as well as depreciation. Other factors for fee or charge adjustments may include

the impact of inflation, other cost increases, the adequacy of the coverage of costs, current competitive rates, and contractual or statutory restrictions. Part of the decision-making process in establishing new services or increasing service levels should include an analysis of fees and user charges and a desired cost-recovery threshold. Increases may be justified based on outside variables not considered during the baseline budget submissions (e.g., water levels, gas prices, economy).

7.5 One-Time Revenues

The use of one-time revenues for ongoing expenditures is discouraged. Unpredictable revenues are budgeted conservatively, and any amount collected over the budget is generally carried forward in the fund balance.

7.6 Revenues of a Limited or Indefinite Term

Revenues of a limited or indefinite term will generally be used for those limited or unlimited term functions associated with the revenue. If it cannot be done, the revenue is to be considered discretionary revenue. It may be used for one-time expenditures to ensure no ongoing service programs are lost when such revenues are reduced or discontinued.

7.7 Use of Discretionary General Fund Revenue

Departments shall maximize the use of non-General Fund discretionary revenue and minimize the need to use discretionary General Fund revenue to fund programs. The Board will prioritize the use of discretionary General Fund revenue through the annual budget process.

7.8 Maintaining Revenue and Expenditure Categories

The County will maintain revenue and expenditure categories per state statute and administrative regulation and operational needs.

7.9 Outside Organization Contributions

Public Safety Sales Tax (Proposition 172)

Government Code Section 30052 requires Proposition 172 funds be placed into a special revenue fund and expended on such public safety services as sheriffs, fire, county district attorneys, and corrections.

The County has historically shared its Proposition 172 revenues with other agencies to help fund fire districts and offset costs to cities for emergency dispatch services. In the event of fiscal constraints, the Board retains the authority to reduce allocations to other agencies upon findings that internal public safety programs would otherwise require program reductions. The County Administrative Office is charged with determining when a reduction to other agencies would be appropriate and obtaining authorization from the Board to begin those discussions.

Emergency Communications Users' Offset

The Emergency Communications Department receives five percent (5%) of Proposition 172 revenues. The current agreement with user agencies fixed their funding at five percent (5%) of the County's total Proposition 172 revenues for the most recently audited fiscal year (e.g., the FY 2023-24 allocation will be five percent (5%) of FY 2021-22 audited actuals). Overall, ten percent (10%) of Proposition 172 revenues are distributed for emergency communication operations.

Fire Agencies' Distribution

The County shares with the Association of Firefighters and Volunteer Fire Companies 9.13% of the County's Proposition 172 revenue of the most recently audited fiscal year. The various fire agencies allocate the Proposition 172 revenue amongst themselves via their own allocation formula.

Distributions to Sheriff, Probation, and District Attorney

After allocation to local fire agencies and Emergency Communications, 80.87% percent of Proposition 172 revenues are distributed to the Sheriff, Probation, and District Attorney departments as approved by the Board in the base year of FY 1995-96, with growth revenues distributed using the percentages listed below:

Department	% of Growth
Sheriff	61.2%
District Attorney	21.7%
Probation	17.1%

County Agency Distribution

The State Board of Equalization apportions Proposition 172 revenues to each county based on its proportionate share of statewide taxable sales. Due to the disbursement cycle of Proposition 172 revenues from the State Controller, each fiscal year's actual Proposition 172 revenues are not known until August of the following fiscal year.

Proposition 172 Distribution Formula

Agency	Prop. 172 Distribution
Local Fire Agencies	9.13%
Emergency Communications	10.0%
Other Public Safety County Departments	80.87%

Contributions from Transient Occupancy Tax (TOT)

Contributions to Economic Development Set Aside

The County has agreed to annual contributions to the Monterey County Convention and Visitors Bureau, Film Commission, and Arts Council, respecting the value these organizations add to the community and their role related to the County Transient Occupancy Tax (TOT) revenues. This contribution is based on a shared percentage of total TOT revenues from the previously audited

fiscal year. The Convention and Visitors Bureau receives a contribution equal to 6.00%, the Film Commission receives a contribution equal to 0.95%, and the Arts Council receives a contribution equal to 1.98%, totaling a combined 8.93% contribution from the County's TOT revenues. In the event of fiscal constraints, the Board retains the authority to reduce its allocation to these outside agencies upon findings that internal countywide priority programs would otherwise require program reductions. The County Administrative Office is charged with determining when a reduction to outside agencies would be appropriate and obtaining authorization from the Board to begin those discussions.

Contributions to the Road Fund

In FY 2013-14, the TOT contribution percentage for the Road Fund was established by the Board at twenty percent (20%) of total TOT revenue. Per annum, the contribution shall increase by one percent (1%) until it reaches a twenty-five percent cap (25%). This contribution replaces, and is not in addition to, the $2.0 million the County previously provided per annum to the Road Fund from the General Fund.

Annual Contributions

Organizations that are not part of the County, but receive contributions from the County, shall not have their appropriation carried forward from budget-cycle to budget-cycle unless authorized and directed by the Board. At the will of the Board, organizations receiving County contributions may be subject to annual review and presentation to the Board on the value and services provided to the community as a result of County funds.

7.10 Appropriations for Contingencies

The County annually adopts an appropriation for contingencies to provide sufficient working capital and a margin of safety for unplanned operational needs. The contingency appropriation may be used at the discretion of and by the action of the Board. The contingency appropriation is utilized only after all other budget resources have been examined. The appropriation for operational contingencies shall be equal to one percent (1%) of estimated General Fund revenues unless expressly modified by the Board as part of the annual budget adoption.

7.11 Performance Measures

Departments shall develop key performance measures that address best practices, desired outcomes, Board strategic initiatives, and annual goals to ensure resource optimization and maximize results. Departments will pursue the most cost-effective means to achieve their performance measures. Performance measures provide the criteria that the Board and management uses to evaluate departmental requests for funding.

7.12 Payment for Goods from Prior Year

Goods and services ordered but not received before the end of the prior fiscal year will be paid from the current year's budgeted appropriations. The department's payment for goods and services to be received or used in the next year are not authorized for payment from current year funds,

unless the items are dues or maintenance agreements where recurring invoices for the next year are generally due before year-end.

8. FUND BALANCE AND RESERVE POLICIES

8.1 Use of Year-End Fund Balance

The fund balance is a measurement of available financial resources. It is the difference between total assets and total liabilities in each fund. The Board recognizes that the maintenance of fund balance is essential to preserving the County's financial integrity. The County's goal is to use fund balance as a source to finance one-time investments, reserves, and/or commitments. As a one-time financing source, any unbudgeted year-end fund balance will be used for non-recurring expenditures and only after the yearly audit and confirmation of the General Fund's fund balance.

Governmental Accounting Standards Board (GASB) Statement 54 distinguishes fund balance based on the relative strength of the constraints that control the purposes for which specified amounts can be spent. Beginning with the most restrictive constraints, fund balance amounts are reported in the following categories:

a. **Nonspendable fund balance –** amounts that are not in a spendable form (e.g., inventory) or are legally or contractually required to be maintained intact (e.g., permanent fund principal).

b. **Restricted fund balance –** amounts that can be spent only for the specific purposes stipulated by external parties, either constitutionally or through enabling legislation (e.g., grants or donations).

c. **Committed fund balance –** amounts that can only be used for the specific purposes determined by a formal action (resolution) of the Board. Commitments may be changed or lifted only by referring to the formal action that imposed the constraint originally (e.g., the Board's commitment in connection with future capital projects).

d. **Assigned fund balance –** amounts intended to be used for specific purposes. Intent can be expressed by the Board, or the County Administrative Officer, or designee.

e. **Unassigned fund balance –** includes all amounts not contained in other classifications and is the residual classification of the General Fund only. Unassigned amounts are available for any legal purpose.

8.2 Fund and Reserve Levels

Sufficient fund balance and reserve levels are a critical component of the County's overall financial management strategy. They are key factors in the ability to sustain service delivery and obtain external financing. Rating agencies analyze fund balance when considering the County's overall financial strength and creditworthiness. Adequate reserves enable flexible financial planning in developing future capital projects, dealing with unforeseen emergencies and changes in fiscal conditions. Each fund shall maintain a level of reserves, providing a positive fund balance throughout the fiscal year. In the event a fund anticipates going in a negative cash position, the

fund manager shall immediately bring to the Budget Committee a report outlining the reason(s) along with a financial plan to ensure the fund regains a positive cash balance.

The County uses a strategic reserve policy to provide adequate fund balance throughout the year. All major County funds shall develop a reserve policy and fund a reserve in conformance with their industry's best practices. In the event such best practices are non-existent, the fund shall adopt the percentages as follows: an appropriation for operational contingencies equal to one percent (1%) of estimated annual revenue and a strategic reserve equal to ten percent (10%) of estimated annual revenue.

8.3 Committed Fund Balance – Strategic Reserve Fund

The County will commit a portion of the fund balance in the General Fund as a strategic reserve to provide the County with sufficient working capital and be used to fund settlement of legal judgments against the County in excess of reserves normally designated for litigation, for short-term revenue reductions due to economic downturns, for natural disasters as determined by the County Administrative Officer or Board, and for one-time-only state budget reductions that could not be addressed through the annual appropriations for contingencies in the General Fund. The County's goal is to maintain a strategic reserve equal to ten percent (10%) of the General Fund estimated revenues. The Natividad Medical Center (NMC) strategic reserve designation, established in 2011, is a sub-designation of the General Fund strategic reserve.

If the strategic reserve is utilized to provide temporary funding of unforeseen needs, the County shall take measures necessary to prevent its use in the following fiscal year by increasing General Fund revenues and/or decreasing expenditures to regain structural balance. The County shall also restore the strategic reserve to the minimum level of ten percent (10%) of General Fund estimated revenues within five fiscal years following the fiscal year in which the event occurred. The plan to restore the strategic reserve shall be included and highlighted in the County's Three-Year Forecast. Funds in excess of ten percent (10%) of the annual requirements may be retained in the strategic reserve or may be considered for other purposes, such as supplementing capital project funds or prepaying existing debt.

8.4 Order of Expenditure of Fund Balance

When multiple categories of fund balance are available for expenditure (e.g., a project is being funded partly by a grant, funds set aside by the Board, and unassigned fund balance), the County will start with the most restricted category and spend those funds first before moving down to the next fund balance category with available funds.

9. INTERFUND LOANS

Interfund loans are the lending of cash from one County fund to another for a specific purpose and require repayment. Interfund loans are typically short-term in nature and constitute the allocation of cash between individual funds for working capital purposes.

Interfund loans may be made for the following reasons:

a. To offset timing differences in cash flow;
b. To offset timing differences between expenditures and reimbursements, typically associated with grant funding;
c. To provide funds for interim financing in conjunction with obtaining long-term financing; and/or
d. For short-term borrowing in place of external financing.

Interfund loans are not to be used to solve ongoing structural budget issues or hindering the accomplishment of any function or project for which the lending fund was established. Interfund loans are not to be used from fiscal year to fiscal year as a financing strategy. If a fund has a negative cash balance, the department must present the County Administrative Office with a plan for reaching a positive cash balance. A negative cash balance must be addressed in the fiscal year that the fund reaches negative cash.

Interfund loan monies may only be used for the purpose identified in the authorizing resolution. Appropriate accounting records will be maintained to reflect the balances of loans in every fund affected by such transactions. A summary of all outstanding interfund loans will be included in the Annual Comprehensive Financial Report (ACFR).

9.1 Interfund Loan Terms

The Board must approve interfund loans by resolution. The resolution will include a planned schedule of repayment of the loan principal and set a reasonable interest rate to be paid to the lending fund if required by the lending fund's restrictions or regulations during the time the loan is outstanding. Repayment of an interfund loan shall be within the same fiscal year unless otherwise stated in a Board resolution. The County Administrative Office shall have authority for issuing temporary interfund loans for end-of-year purposes and report out these temporary interfund loans to the Board via memorandum.

9.2 Interfund Loan Interest

The following guidelines should be used in establishing the rate of interest:

a. Not lower than the "opportunity cost" if the funds were otherwise invested, such as the County Treasury Pooled Interest Rate;
b. Treasury yields or short-term bond yields for a similar term; and
c. Not higher than the external rate available to the County.

Interest is not required in the following circumstances:

a. The borrowing fund has no independent source of revenue other than the lending fund; or
b. The borrowing fund is generally funded by the lending fund; or
c. The lending fund is the General Fund, which, being unrestricted, can loan interest-free, except to a proprietary fund (such as one of enterprise funds below).

10. ENTERPRISE FUNDS

The County will establish enterprise funds for County services when:

a. The fund's operations are financed and operated like private business enterprises, where services provided are primarily funded through user charges; or
b. The Board determines that it is appropriate to conduct a periodic review of net income for capital maintenance, accountability, or other public policy purposes.

The County Administrative Office is the chief advisor to the Board in the creation of an enterprise fund. The County currently has three enterprise funds: 1) Natividad (fund 451); 2) Lake Resort (fund 452); 3) Laguna Seca Recreational Area (fund 453).

10.1 Expenses

Enterprise fund expenses and revenues will be established at sufficient levels to properly maintain the fund's infrastructure and provide significant capital development without requiring County fiscal intervention.

10.2 Rate Structure and Net Position

Each enterprise fund will maintain an adequate rate structure to cover the cost of all operations, including cash flow, capital replacement and maintenance, debt service if applicable, contingency funding, scheduled reserve contributions, and depreciation. Rates may be offset from the available net position only after these requirements are met.

10.3 Services

Enterprise fund services will establish and maintain reserves for general contingency and capital purposes consistent with those maintained for general governmental services.

10.4 Net Operating Revenues

The County will ensure that net operating revenues of the enterprise are sufficient to pay operating expenses, capital costs, and any debt service requirements where applicable, in compliance with the County's fiscal and debt policies.

10.5 Interest from Funds

Unless otherwise directed by statute, regulation, or resolution, interest will be allocated as discretionary financing for an enterprise fund.

10.6 Financial Monitoring and Reporting

The County Administrative Office and departments shall monitor revenues and expenses throughout the year to ensure conformity to adopted budgets. Enterprise funds shall provide the

Budget Committee financial status reports on a semi-annual or quarterly basis. Financial reports shall contain a year-to-date summary of expenses, revenues, and cash positions, significant variances, comparisons to previous fiscal years' activity, trends for the current fiscal year, and financial impacts to the General Fund, if any.

11. INTERNAL SERVICE FUNDS

An internal service fund (ISF) is a centralized governmental service that provides services or products on a cost-reimbursement basis to other governmental units or external users with a break-even motive. To qualify as an ISF, the predominant users of the services or products must be the government itself.

11.1 Use of Internal Service Funds

Risk Management

The Office of the County Counsel is responsible for managing the County's general liability (fund 475) and workers' compensation (fund 476) ISF funds. These ISFs shall function as funds for paying all judgments, settlements, and claims against the County. The General Liability ISF will reserve adequate funds to cover both excess insured events and events not covered by excess insurance coverage and provide for "recoverable" and "non-recoverable" losses. Both ISFs are currently funded at a seventy percent (70%) confidence level.

Human Resources – Benefits

The Human Resources Department is responsible for managing the County's Benefits ISF (fund 477). The ISF covers various benefit programs supported by contributions from the County, active employees, and retired employees. Programs include dental and vision benefits for employees and dependents, Employee Assistance Program, Long-Term Disability, Retiree Sick Leave Conversion, and other miscellaneous benefit programs.

Resource Planning

The County Administrative Office has administrative authority over all aspects of the Resource Planning ISF (fund 478). The Resources Planning ISF provides funds for capital projects that require replacement, maintenance, or upgrades during the asset's life. The fund serves to establish a capital funding process, generating funds over an asset's life, thereby minimizing fiscal impacts to operations.

The Resource Planning Fund’s respective sub-funds are the: 1) VAMP-Vehicle Asset Management Program; 2) ERP-Enterprise Resource Planning for Upgrades/Replacement; 3) BIR-Building Improvement and Replacement; and 4) EIR-Equipment Improvement and Replacement.

11.2 General Fund Transfers

In the event there is a large settlement that cannot be funded within the existing ISF reserve, the Office of the County Counsel may submit a request to the County Administrative Office for a transfer from the General Fund or such other fund as may be available and appropriate. Such a

request will include, at a minimum, an analysis of the impact of the settlement on the reserve, alternatives for addressing the implications, and the advantages and disadvantages of each alternative.

11.3 Actuarial Studies

The County Counsel-managed ISFs and the Benefits ISF shall complete two annual actuarial studies. The first study will be completed using data through June 30th, and a second ("true-up") actuarial study will be completed with data through December 31st. The June 30th study will be used to set department allocations for the upcoming fiscal year, while the December 31st study will be used for meeting its operational needs (e.g., purchasing excess insurance coverage). County Counsel will work throughout the year to obtain information on potential settlements that could impact reserve levels and provide this information to the actuary as part of the semi-annual actuarial valuation process.

11.4 Internal Service Funds Reporting

Departments that manage ISFs shall provide to the Board and its Budget Committee an annual report outlining funding levels, operational costs, and outcomes of operations.

12. CAPITAL FACILITIES AND IMPROVEMENT POLICIES

12.1 Capital Investments

The County is responsible for investing in the preservation, maintenance, and improvement of buildings, parks, roads, sewers, equipment, and other capital infrastructure. Strategic capital improvement plans, policies, and programs assess future needs and prevent emergencies to avoid major costs. Thus, the Board established the Capital Improvement Program, Five-Year Plan (CIP), which incorporates into the operating budget the fiscal impact of projects including design, construction, equipment, land purchases, and administration. The CIP is prepared and updated annually by the Public Works, Facilities, and Parks Department with review by the County Administrative Office.

Projects in excess of $100,000 that have an estimated useful life of at least five years and are non-recurring should be included in the CIP for consideration and countywide prioritization. Updates will regularly be made to all projects in various stages of implementation within the CIP and annual review of priorities, needs and staffing levels will be conducted. The CIP shall be consistent with the County's overall goals and objectives and coordinated with economic development infrastructure investments.

12.2 Financial Analysis of Funding Sources

Financial analysis of funding sources is conducted for all proposed major capital improvement projects. Operating and maintenance costs should be identified separately, to ensure that adequate funds will be available for ongoing expenses necessary to maximize useful life. The Budget Committee determines available funding sources and provides input toward scope changes to meet

any fiscal constraints. Project scope and budget must be defined and submitted to the Board for approval before project funds can be expended.

12.3 Annual Capital Improvement Budget

The Board includes capital project funding during the annual budget process. In general, capital projects that have secured funding to progress in the first year of the CIP will be included in the Recommended Budget. The Board shall determine annual ongoing funding levels for each of the major project categories within the CIP. When considering the priority and funding of each capital project, the County shall consider the operating impacts (e.g., increased staff, facilities maintenance, and outside rentals) of the project.

12.4 Capital Project Reports

Capital projects shall provide the following reports:

a. Monthly updates of the drawdown schedule for debt-financed projects;
b. Quarterly reports to the County Administrative Office detailing quarterly forecasts of expenditures for the life of debt-financed projects;
c. Quarterly updates to the Capital Improvement and Budget committees on implemented capital projects that include the initial approved and modified budgets, expenditures to date, remaining budget and expenditures, original completion date, and if applicable, revised completion date and the phase (in a percentage) the project is toward completion;
d. Quarterly updates to the Budget Committee on capital funds interest accumulation; and
e. Semi-annual updates to the Capital Improvement and Budget committees on scheduled and unscheduled maintenance projects.

The County Administrative Office shall provide a quarterly report to the Capital Improvement and Budget committees regarding drawdown schedules for debt-financed projects.

13. DEBT MANAGEMENT

Due to its length and complexity, the Debt Management Policy is reviewed by the Board separately from these policies. The Debt Management Policies are published online: www.co.monterey.ca.us/government/departments-a-h/administrative-office/debt-management.

14. GRANT MANAGEMENT

The County recognizes that grant funding provides significant resources to enhance the ability to provide services and activities not otherwise available. Consideration will be given to whether grant activities further the County's mission, are part of the core functions of the department, benefit the community, and whether locally generated revenues will be required to support grant activities when grant funding is no longer available. Grants that do not meet these criteria shall be declined.

Departments are responsible for the continuous monitoring of the financial status of grants and compliance with all applicable federal, state, and local regulations, including procurement policies and procedures.

Any position changes related to grant funding must be approved by the Board and adequately classified by Human Resources. Departments are to promptly notify payroll of coding changes needed for those positions being charged to grants since grant codes may change each year.

Departments are responsible for all aspects of the grant process, including planning for grant acquisition, preparing and submitting grant proposals, developing grant implementation plans, managing grant programs, preparing and providing reports to grantors, and adequately closing out grant projects. Department staff and the County Administrative Office will maintain a close working relationship concerning any grant activity to ensure a clear understanding of the project status.

The County manages a variety of programs, which depend on outside grants for partial or full funding. In the event of reductions in such external funding amounts, the program service levels will be reduced, and additional County support shall not be provided to compensate for the decrease in outside funding unless approved and directed by the Board.

15. STATE AND FEDERAL PROGRAMS

The County shall operate state and federal programs based on the level of state funding provided and shall not backfill any state cuts with General Fund resources except when mandated, or local priorities dictate a need for a continuance.

I. EXECUTIVE SUMMARY

In March 2020, the Monterey County Board of Supervisors (Board) directed staff to evaluate funding options that would support an accelerated program of road repair to improve the overall condition of County roads. Staff consulted with the County's municipal finance advisor to evaluate potential revenue measures and financing tools. Since February 8, 2021, the County has been pursuing a pilot program approach that will use one or more bonds, supported by various County Road Fund revenues, to implement an accelerated road repair program for communities. The County continues to develop the details of the proposed financing approach, which the Board is expected to consider in Fall 2022.

The purpose of this report is to provide the basis for and outline of the proposed accelerated road repair program for communities. For this effort it was assumed that a bond financing approach would provide $100 million over a 10-year period, although it is acknowledged that the actual approach being finalized may generate a different amount. The County has over $600 million in deferred road repair needs and road repair funding is typically directed toward County roads with higher traffic volumes, greater proportion of truck traffic and roads on key transportation, agriculture or tourism corridors. Per coordination with the Board and its Capital Improvement and Budget Committees, this accelerated program is intended to focus on local roads that service primarily residential areas and communities. This program will help improve pavement quality on local County roads for which grants or other State and Federal supplemental road funding sources are typically not available.

The County engaged Harris & Associates (Harris) to develop a proposed 10-year Bond Measure Plan to show how and where bond financing proceeds could be applied to improve local County roads. Harris used the Metropolitan Transportation Commission's (MTC) StreetSaver Online Edition for this analysis and plan development. This software is used to help make cost-effective decisions related to the road network, maximizing the County's return on investment from available maintenance and rehabilitation funds; generating a prioritized plan and identifying specific areas in need of maintenance and rehabilitation.

II. PAVEMENT NETWORK

Based on the County's latest StreetSaver database, the County's entire road network is comprised of approximately 1,098 centerline miles of paved roads and is divided into 2,337 pavement management sections. To assist in planning maintenance needs, the County's roads are grouped according to functional class. Table 1 below shows the County's pavement mileage by functional class for the entire road network along with the Pavement Condition Index (PCI). PCIs are expressed as a number between 0 and 100, a PCI of 0 would correspond to a badly deteriorated pavement with virtually no remaining life. A PCI of 100 would correspond to a new pavement with proper engineering design and construction at the beginning of its life cycle.

The County selected 124 centerline miles of local roads, which are divided into about 618 pavement management sections, to be part of the Bond Measure Program. The County selected local roads in areas to make meaningful improvements to entire communities or neighborhoods and address needed deferred maintenance. The list of selected roads was provided to Harris in order to create a unique identifier of these roads in the StreetSaver database. The table below shows the County's pavement mileage by functional class of the selection of roads included in the Bond Measure Program. As shown in Table 2 below, the vast majority of roads selected fall into the "Local" functional class. To the extent that some selected areas include a minor or major collector through the community, those road segments were also included in the program (e.g. a "main" street in an otherwise small residential community).

III. DECISION TREE UPDATES

A Decision Tree is used to model the decision-making process that the County can follow to select a maintenance or rehabilitation strategy. The decision tree contains "branches" for each functional classification, surface type, and condition category. The County is able to outline its Maintenance and Rehabilitation (M&R) strategy, choosing a treatment for each branch.

Harris worked with the County to update the treatments and unit costs in the Decision Tree. The treatments and unit costs were based on similar completed projects in the region. The unit costs consist of hard cost, soft costs, and total improvement costs (on a per square yard basis).

Hard costs consist of paving and non-paving cost. Paving hard costs include material, labor, and equipment, while non-paving hard cost include traffic control, curb & gutter, curb ramps, striping, and signal loops. Non-paving hard costs are typically 25% of the paving hard costs. Soft Cost include design, construction inspection, construction management, and contingencies. This is an assumed 30% markup of the total hard costs. The total costs include all hard and soft costs. This fully loaded program cost was ultimately used for the Decision Tree in the Streetsaver Program.

The pavement conditions of the roads in the Bond Measure program include those in Good, Poor, and Very Poor condition categories, however, most of the identified roads are in the Poor and Very Poor categories. Roads in the Good condition category are roads with PCIs ranging from 50-69 and are typically in need of rehab or a surface seal with dig outs depending on the type of distresses found in those sections. The Poor condition category are roads with PCIs ranging from 25-49 and are typically in need of rehab treatments. The roads in the Very Poor condition category have PCIs that range from 0-24 and are typically in need of reconstruction. Because of this, it was decided that preventive maintenance treatments like slurry seal and cracks seal be removed from the Collected and Residential branches of the decision tree. Table 3 below summarizes the treatment and cost for each functional class and condition category (on a per square yard basis). The few roads on the Bond Measure list that are in need of preventative maintenance will be handled separately and will be covered in more detail in Section V – 10 Year Plan Scenario of this report.

IV. LIMITS OF STUDY

It must be recognized that this report is limited to the existing road pavement repairs. It does not include existing deficiencies for right-of-way concrete sidewalks, drainage, trees, bus pads and non-structural improvements such as decorative crosswalks, medians, lighting and street furniture. Costs for these right-of-way repairs and improvements throughout the County would easily exceed the deferred maintenance costs (the cost of crucial maintenance work not performed in a specific year) identified in this report and can be identified and estimated separately in future reports. To the extent that deficiencies noted impact the ability to repair selected road segments, the County will pursue repairs in advance of the planned road work under other Road Fund maintenance programs. Also, for communities with existing sidewalks, this program will include upgrades to existing or installation of new curb ramps where necessary to comply with current ADA requirements to the maximum extent practicable.

The County currently uses MTC's Pavement Management Program (PMP). The PMP provides a management tool to inventory street pavement, assess pavement condition, record historical maintenance, forecast budget needs, and view impacts of funding on network pavement condition over time. The following recommendations generated by the PMP are for planning purposes only. The resulting general recommendations are not intended to replace sound engineering judgment, which should dictate specific needs for an individual project. Maintenance and rehabilitation projects should be based on a combination of the system's recommendations weighed against the County's preferences, budget constraints, and other contributing factors. In addition, further refinements may be warranted from an engineering staff review of the pavement condition. For example, a particular pavement section may require treatment earlier (or later) than the rest of the roads in its localized area. Also, this plan is intended to be a living document that will necessarily need to be updated over the course of the 10-year program.

District Breakdown

The County is divided into five supervisorial districts, but there are no County roads in District 1 (which is entirely comprised of the City of Salinas) and the relatively few County roads in District 4 are not local roads targeted under this program. Therefore, the road sections in the Bond Program are contained only in Supervisorial Districts 2, 3, and 5. Table 4 below lists the number of road segments targeted within each district, as well as the corresponding centerline miles and percentage of each. Over the 10-year road program, it is the County's goal to implement local repair projects generally in proportion to the relative amount of centerline road miles within each of the three target supervisorial districts. Many of the targeted roads are located in County Service Areas (CSAs), and District 5 has many large CSA areas. Therefore, District 5 has the highest percentage of roads targeted under this bond-financed program.

Table 4

District Breakdown			
	# Road Segments	**Centerline Miles**	**% of Total**
District 2	145	23	18%
District 3	85	31	25%
District 5	388	71	57%
TOTAL	**618**	**124**	**100%**

V. 10 YEAR PLAN SCENARIO

Budget Scenario Criteria

For the development of this initial plan, it was assumed that a bond financing approach would provide $100 million over a 10-year period, although the actual approach being finalized may generate a different amount. If the actual total is lower, then roads planned in the later years of the program may need to be removed. If the amount is higher, then additional roads could be added. These adjustments would be reflected in periodic plan updates over the life of the program. The program is intended for a 10-year period, beginning with the County's current Fiscal Year 2022-23 period. An annual inflation rate of 4% was assumed to aid with estimates of future project costs. Based on the percentage of target roads within each supervisorial district, the program will strive to allocate total program funds in proportion to those percentages over the life of the program as shown in Table 5 below. Note that the budget percentages shown below differ from the road segment percentages shown in Table 4. This is because of the differing proposed pavement treatments for the road segments (e.g. some will require less costly pavement repair than others).

Table 5

District Budget Breakdown		
	% of Total	**Approximate Total Spending**
District 2	29%	$29,001,872
District 3	25%	$24,475,095
District 5	46%	$44,968,089
TOTAL	**100%**	**$98,445,056**

Preventative Maintenance

Within the program there are about $350,000 worth of local roads needing improvements for which relatively lower cost preventive maintenance could be implemented because the condition of these roads does not require the greater level of treatment then roads with worse pavement conditions. Typically, for these roads a preventative treatment such as a slurry seal would suffice to help maintain the road in a good condition. Since this level of treatment may not be considered a capital project eligible for bond financing, these roads are not included in the bond program per se, but

the County will pursue preventative treatments (using another source of road funding) in parallel with this bond program to address these road segments. Once a road is re-paved, it should be considered for a preventative treatment again (such as a slurry seal) within five to eight years to re-seal the asphalt surface to slow pavement deterioration and extend its life. For roads addressed in the early years of this program, preventative treatments would be needed before the end of this repair program. For the reason noted above, when that time comes, the County will implement preventative treatments on roads completed under this program using other road funding sources. This strategy would allow more sections within the Bond Program to be touched at least once during the 10-year analysis period as opposed to the roads in need of preventive maintenance to be revisited later in the analysis period, freeing up more of the budget in later years for roads in need of more major treatments that haven't yet been treated.

Neighborhood Grouping

Roads included in the program were grouped into "neighborhoods," so that roads located in relatively close geographic proximity were included in the same neighborhood. This was done to assist with tracking, and as an initial method for assigning actual construction repairs. The intent is to complete repairs on selected roads in the same geographic area to avoid returning to the same area multiple times over the life of the program. This should help improve cost efficiency as contractors working on this program can address multiple roads in the same area at the same time, and minimize disruption to residents by impacting them with construction activity only once. Neighborhood groupings were identified with the aid of County staff to ensure logical groupings, and were assigned a two part number in this format: X-Y, where the first number represents the supervisorial district and the second the neighborhood in that district. A map depicting all of the neighborhood groupings throughout the County is provided in Appendix A.

10-Year Program List

Table 6 below lists the neighborhoods selected for each year of the ten-year program, along with estimated cost. Maps depicting the roads included within each neighborhood are provided in Appendix A.

Table 7 below summarizes the PCI trend by year. The "Never Treated" PCI is what the PCI is expected to deteriorate to if the program treatment is not applied. If no sections in the Bond Measure program are treated, the overall PCI of the target Bond Measure roads would decrease from 34 to 11 over the next 10 years. Based on the planned annual budgets and treatments for the selected roads, the overall pavement condition for the selected Bond Measure roads will improve from 36 to 86 over the 10-year program as shown below.

January 30, 2024

Current Status: Natividad Medical Center - Consent

Version: 1

Matter Type: BoS Agreement

Authorize the Chief Executive Officer for Natividad Medical Center (NMC) or his designee to execute renewal and amendment No. 4 to the agreement (A-13995) with B.E. Smith, Inc. for interim management-level services, extending the agreement an additional one (1) year period (January 1, 2024 through December 31, 2024) for a revised full agreement term of July 1, 2018 through December 31, 2024, and adding $250,000 for a revised total agreement amount not to exceed $1,300,000.

RECOMMENDATION:

It is recommended the Board of Supervisors:

Authorize the Chief Executive Officer for Natividad Medical Center (NMC) or his designee to execute renewal and amendment No. 4 to the agreement (A-13995) with B.E. Smith, Inc. for interim management-level services, extending the agreement an additional one (1) year period (January 1, 2024 through December 31, 2024) for a revised full agreement term of July 1, 2018 through December 31, 2024, and adding $250,000 for a revised total agreement amount not to exceed $1,300,000.

SUMMARY/DISCUSSION:

The recruitment process for full time employees can span several months and on occasion, the hospital finds that it faces a lack of qualified candidates to hire from which then delays the process further. When a management level position is vacant, depending on the position, it may be determined that filling it with an interim person is occasionally necessary, as it would greatly minimize any negative effect on patient care.

B.E. Smith, Inc. is a nationally recognized expert in hospital interim management and have proven it is able to respond in a swift manner when a critical position is suddenly vacant. B.E. Smith, Inc. has delivered reliable services to NMC, thereby allowing NMC to provide quality patient care to the residents of the Monterey County.

NMC will continue to monitor the hours of all interim workers assigned to NMC to ensure compliance with labor and retirement laws.

OTHER AGENCY INVOLVEMENT:

The Office of County Counsel has reviewed and approved this renewal and amendment No. 4 as to form, and the Auditor-Controller has reviewed and approved as to payment provisions. The renewal and amendment No. 4 has also been reviewed and approved by NMC's Finance Committee and by its Board of Trustees on January 12, 2024.

FINANCING:

The cost for this renewal and amendment No. 4 is $250,000 of which $125,000 is included in the FY 2023-24 Adopted Budget. Amounts for remaining years of the agreement will be included in those budgets as appropriate.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:

This agreement will provide NMC with any interim management level support it may need to ensure that reliable and quality patient care will not affect when a vacancy should unexpectedly occur.

ADDENDUM NO. 1
TO AGREEMENT BY AND BETWEEN Everbridge Inc., AND
THE COUNTY OF MONTEREY ON BEHALF OF NATIVIDAD MEDICAL CENTER
for (Telephone Message and Emergency Notification System) SERVICES

This Addendum No. 1 amends, modifies, and supplements the County of Monterey Agreement for Services (hereinafter "Agreement") by and between Everbridge Inc., (hereinafter "CONTRACTOR") and the County of Monterey, on behalf of Natividad Medical Center (hereinafter "NMC"). This Addendum #1 has the full force and effect as if set forth within the Terms. To the extent that any of the terms or conditions contained in this Addendum #1 may contradict or conflict with any of the terms and conditions of the Agreement, it is expressly understood and agreed that the terms and conditions of this Addendum #1 shall take precedence and supersede the attached Agreement.

NOW, THEREFORE, NMC and CONTRACTOR agree that the Agreement terms and conditions shall be amended, modified, and supplemented as follows:

I. **Termination.** Section 3.2 of the Agreement is hereby amended and restated to read in its entirety as follows; in addition, Sections 7.1 and 7.2 are hereby deleted in light of this revision:

Termination by Either Party. Either Party may terminate this Agreement upon the other Party's material breach of this Agreement, provided that (i) the non-breaching Party sends written notice to the breaching Party describing the breach in reasonable detail; (ii) the breaching Party does not cure the breach within thirty (30) days following its receipt of such notice (the "Notice Period"); and (iii) following the expiration of the Notice Period, the non-breaching Party sends a second written notice to the breaching Party indicating its election to terminate this Agreement.

Termination for Convenience by COUNTY. County May terminate this AGREEMENT without cause at any time on thirty (30) days prior written notice; provided, however, that it shall not be entitled to a refund of any fees then due and owing.

II. **Invoicing**. Section 6.5 of the Agreement is hereby amended as follows with the italicized language:

CONTRACTOR shall submit such invoice ~~*periodically or at the completion of services*~~ *annually in advance*, but in any event, not later than 30 days after completion of services. The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed, and such other information pertinent to the invoice. NMC shall certify the invoice, either in the requested amount or in such other amount as NMC approves in conformity with this Agreement, and shall promptly submit such invoice to the County Auditor-Controller for

payment. The County Auditor-Controller shall pay the amount certified within 30 days of receiving the certified invoice.

III. **Indemnification.** Section 8 of the Agreement is hereby amended and restated to read in its entirety as follows:

CONTACTOR shall defend, indemnity and hold COUNTY harmless from and against any Claim against COUNTY, but only to the extent it is based on a Claim that the Everbridge Mass Notification Service directly infringes an issued patent or other IP Right in a country in which the Everbridge Mass Notification Service is actually provided to COUNTY. In the event CONTRACTOR believes any CONTRACTOR Technology is, or is likely to be the subject of an infringement claim, CONTRACTOR shall have the option, at its own expense, to: (i) to procure for COUNTY the right to continue using the Everbridge Mass Notification Service; (ii) replace same with a non-infringing service; (iii) modify such Everbridge Mass Notification Service so that it becomes noninfringing; or (iv) refund any fees paid to CONTRACTOR and terminate this Agreement without further liability. CONTRACTOR shall have no liability for any Claim arising out of (w) COUNTY Data or other COUNTY supplied content, (x) use of the Everbridge Mass Notification Service or Software (as defined on Attachment I) in combination with other products, equipment, software or data not supplied by CONTRACTOR, (y) any use, reproduction, 01' distribution of any release of the Everbridge Mass Notification Service or Software other than the most current release made available to COUNTY, or (z) any modification of the Everbridge Mass Notification Service or Software by any person other than CONTRACTOR.

IV. **LIABILITY**. The following language is hereby added as a new Section 8.2:

Neither Party shall have any liability to the other Party for any loss of use, interruption of business, lost profits, costs of substitute services, or for any other indirect, special, incidental, punitive, or consequential damages, however caused, under any theory of liability, and whether the Party has been advised of the possibility of such damage. Notwithstanding anything in this Agreement to the contrary, except for the indemnification obligations set forth in Section 8, in no event shall Contractor's aggregate liability, regardless of whether any action or claim is based on warranty, contract, tort, indemnification or otherwise, exceed five times (5X) amounts actually paid by COUNTY to CONTRACTOR hereunder during the 12-month period prior to the event giving rise to such liability.

V. **Records and Confidentiality.** Section 10 of the Agreement is hereby amended and restated to read in its entirety as follows:

10.1 Confidentiality: CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with all federal, state, and local laws, which provide for the confidentiality of records and other information. RECOMMENDATION:
It is recommended that the Board of Supervisors:
a. Approve and authorize the Director of Health Services or designee to execute a service agreement between the County of Monterey and Close Grover Medical Corporation for the provision of technical medical services as the Chief Substance Use Navigator (SUN) for the County of Monterey Buprenorphine Program retroactive to March 1, 2023, through April 15, 2024, for an amount not to exceed $61,497 contingent on availability of grant funds; and
b. Authorize the Director of Health Services or designee to execute up to three (3) future amendments to this Agreement where each amendment does not exceed 10% ($6,149) of the original Agreement amount and does not significantly alter the scope of the services.
c. Approve and authorize the Director of Health Services or designee to execute a Business Associate Agreement (BAA) between the County of Monterey and Close Grover Medical Corporation to comply with privacy and protection of patient health information shared with Close Grover Medical Corporation during the provision of technical medical services as the Chief Substance Use Navigator (SUN) for the County of Monterey Buprenorphine Program retroactive to March 1, 2023, to February 28, 2027.

SUMMARY/DISCUSSION:
Pursuant to California Health and Safety Code, Section 1797 et seq., the County of Monterey EMS

Agency is responsible for EMS system coordination, medical oversight, and coordination of the delivery of EMS by provider organizations in Monterey County.

In 2022, the County of Monterey EMS Agency entered into a three-county collaborative with the County of Santa Cruz and the County of San Benito to support the ongoing efforts to address substance use disorder (SUD) as a treatable emergency condition. Through the Buprenorphine program, paramedics responding to medical emergency calls will be able to identify and treat patients who may benefit from medication-assisted treatment (MAT).

In 2023, the Department of Health Care Services (DHCS) informed the three counties of funding available for this program. The total grant amount of $375,000 was allocated among the participating three counties based on population percentage. This grant will support overall program and grant management costs related to the administration of buprenorphine to patients in opioid withdrawal or following a near-fatal opioid overdose and linking these patients to needed services.
Dr. Reb Close, of Close Grover Medical Corporation, has an expanded knowledge and expertise in addressing the opioid epidemic in the County of Monterey, Santa Cruz, and San Benito, thus she possesses intimate knowledge of the Buprenorphine program in the three counties. She is currently the Clinical Champion and Implementation Leader for the California Bridge Project. Santa Cruz and San Benito Counties are already in the process of contracting with Dr. Close to provide the services needed. Having a single physician act as the Chief SUN will provide the program the consistency it needs.

EMS is seeking approval retroactive to March 1, 2023, because the grant award documents were not received until August 2023. It took time to meet with the grantor to clarify grant requirements before the subcontract agreement could be approved by the Board. Without the subcontract agreement being fully executed, the EMS Agency could not begin to execute an agreement with Close Grover Medical Corporation. The BAA is needed to comply with privacy and protection of patient health information shared with Close Grover Medical Corporation during the provision of technical medical services as the Chief Substance Use Navigator (SUN) for the County of Monterey Buprenorphine Program. Given that the services provided by Close Grover Medical Corporation will continue after the term of the grant, the BAA must remain in place after the term of the grant.

This work supports the Monterey County Health Department 2018-2024 Strategic Plan Goal 2 (Enhance public health and safety through prevention) and Goal 4 (Engage Health Department workforce and improve operational functions to meet current and developing population health needs). It also supports the following of the ten essential public health services, specifically, (Monitor health status to identify and solve community health problems; Mobilize community partnerships and action to identify and solve health problems; and Link people to needed personal health services and assure the provision of health care when otherwise unavailable).

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel has reviewed and approved the Agreement as to legal form. Auditor-Controller has reviewed and approved the Agreement as to fiscal provisions.

FINANCING:

There are no General Fund Impacts resulting from this Board action. There are sufficient appropriations and revenues in FY 2024 adopted budget 001-4000-8109-HEA006. The County of Monterey will compensate vendor from the Public Health Institute.

The Parties acknowledge and agree that this Section 3.1(a) constitutes notice by Business Associate to Covered Entity of such ineffective Security Incidents and no additional notification to Covered Entity of such ineffective Security Incidents is required, provided that no such Security Incident results in unauthorized access, acquisition, Use or Disclosure of PHI. For the avoidance of doubt, a ransomware attack shall not be considered an ineffective Security Incident and shall be reported to Covered Entity, irrespective of whether such Security Incident results in a Breach. (iii) Covered Entity shall have sole control over the timing and method of providing notification of such Breach to the affected individual(s), the appropriate government agencies, and other persons required by law to be notified. DocuSign Envelope ID: 8ADE1D79-4F54-467A-B6AD-5FADBDE5D75A

(e) Document Disclosures of PHI and information related to such Disclosure and, within twenty (20) days of receiving a written request from Covered Entity, provide to Covered Entity such information as is requested by Covered Entity to permit Covered Entity to respond to a request by an individual for an accounting of the Disclosures of the individual's PHI in accordance with 45 C.F.R. § 164.528 and the HITECH Act. (g) Use, Disclose to its Subcontractors or other third parties, and request from Covered Entity, only the minimum PHI necessary to perform or fulfill a specific function required or permitted hereunder;

(h) If all or any portion of the PHI is maintained in a Designated Record Set:

(i) Upon ten (10) days' prior written request from Covered Entity, provide access to the PHI to Covered Entity, or to the individual, if so directed by Covered Entity, to meet a request by an individual under 45 C.F.R. § 164.524 or California Confidentiality Laws. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for access to PHI from an individual; and

(ii) Upon ten (10) days' prior written request from Covered Entity, make any amendment(s) to the PHI that Covered Entity directs pursuant to 45 C.F.R. § 164.526. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for amendment of PHI from an individual;

(i) If applicable, maintain policies and procedures to detect and prevent identity theft in connection with the provision of the Services, to the extent required to comply with the Red Flag Rules;

(j) To the extent that Business Associate carries out one or more of Covered Entity's obligations under the Privacy Rule, Business Associate shall comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligations;

(l) Maintain policies and procedures materially in accordance with HIPAA and California Confidentiality Laws and industry standards designed to ensure the confidentiality, availability, and integrity of Covered Entity's data and protect against threats or vulnerabilities to such data.

3.2 Business Associate Acknowledgment.

(a) Business Associate acknowledges that, as between the Business Associate and Covered Entity, all PHI shall be and remain the sole property of Covered Entity.

(b) Business Associate is not permitted to Use PHI to create de-identified information except as approved in writing by Covered Entity.

(c) Business Associate further acknowledges that it is obligated by law to comply, and represents and warrants that it shall comply, with HIPAA. Business Associate shall comply with all California Confidentiality Laws, to the extent that such state laws are not preempted by HIPAA.

(d) Business Associate further acknowledges that Uses and Disclosures of PHI must be consistent with Covered Entity's privacy practices, as stated in Covered Entity's Notice of Privacy Practices. AHP may conduct monitoring activities at any time during the Subcontractor's normal business hours.

b. AHP shall conduct a review of the Subcontractor's records to determine if any of the claimed expenditures were an improper use of grant funds.

c. The refusal of Subcontractor to permit access to physical facilities and/or inspection of any documents, files, books, or records necessary for AHP to complete its monitoring and inspection activities in accordance with this section constitutes an express and immediate material breach of this contract and will be a sufficient basis to terminate the contract for cause.

During the term of this Agreement, Subcontractor shall not enter into other contracts or arrangements or otherwise engage in work that will conflict with the parties' relationship of trust and cooperation or that may otherwise conflict with the Subcontractor's obligations.

SECTION 14: INSURANCE

(a) Subcontractor shall continuously maintain for the duration of this Agreement, the following insurance at, or in excess of, the limits detailed below:

All such insurance must be primary and non-contributory and required to respond and pay prior to any other insurance or self-insurance available.

(c) Subcontractor shall immediately deposit with AHP upon request a Certificate of Insurance attesting to the above coverage and naming AHP as additional insured parties under such policies. The Subcontractor agrees that the insurance required herein will remain in effect at all times during the term of the Agreement. - Any injury to property or person occurring on or about the infrastructure or the property of Subcontractor;

(b) Subcontractor shall indemnify under this clause for any of the above acts attributable to its employees, consultants, agents, and/or lower-tiered subcontractors engaged in performance of the work under this Agreement.

(c) This indemnification shall survive the expiration or termination of the Agreement.

16.2 Applicable Laws

Each party agrees to comply with the applicable provisions of Federal, State, and local laws or ordinances, and all orders, rules, and regulations issued thereunder, and in such a manner that the name of the other party will not be discredited. Where a FAR provision or clause, or any other Federal statute, regulation, or clause is incorporated in or applicable to this Agreement or work being performed under it, Federal law shall govern the interpretation and application thereof. If Federal law is not applicable, the appropriate law of the State of California shall apply, exclusive of that body of laws known as conflicts of law. access to the Subcontractor's personnel for the purpose of interview and discussion related to the requested documents.

c. The right to access records is not limited to the required retention period but lasts as long as the records are retained by the Subcontractor.

SECTION 19: EXPENSE ALLOWABILITY/FISCAL DOCUMENTATION

a. Invoices, received from a Subcontractor and accepted and/or submitted for payment by AHP, shall not be deemed evidence of allowable costs under this Agreement.

b. The Subcontractor shall maintain for review and audit and supply to AHP upon request, adequate documentation of all expenses claimed pursuant to this Agreement to permit a determination of expense allowability.

c. If the allowability or appropriateness of an expense cannot be determined by AHP because invoice detail, fiscal records, or backup documentation is nonexistent or inadequate according to generally accepted accounting principles or practices, all questionable costs may be disallowed, and payment may be withheld by AHP. Upon receipt of adequate documentation supporting a disallowed or questionable expense, reimbursement may resume for the amount substantiated and deemed allowable.

d. If Travel is a reimbursable expense, receipts must be maintained to support the claimed expenditures. For more information on allowable travel and per diem expenses and required documentation, "Travel Reimbursement Information."

e. Costs and/or expenses deemed unallowable are subject to recovery by AHP. See Section 20 "Recovery of Overpayments" for more information.

DocuSign Envelope ID: BA0550E3-3532-42B9-89B1-1348C30DD463

d. If the Subcontractor has filed a valid appeal regarding the report of audit findings, recovery of the overpayments will be deferred until a final administrative decision on the appeal has been reached. If the Subcontractor loses the final administrative appeal, the Subcontractor shall repay, to AHP, the over-claimed or disallowed expenses, plus accrued interest. Interest accrues from the Subcontractor's first receipt of AHP's notice requesting reimbursement of questioned audit costs or disallowed expenses.

Such notices shall state the Subcontractor's obligation under the law to take affirmative action to employ and advance in employment qualified applicants without discrimination based on their race, color, religion, sex, national origin physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era and the rights of applicants and employees.

3. Procurement Rules

Applicable to agreements in which equipment/property, commodities and/or supplies are furnished by AHP or DHCS or expenses for said items are reimbursed by funds with state or federal funds provided under this Agreement.

a. **Equipment/Property definitions**

Wherever the term equipment and/or property is used, the following definitions shall apply:

(1) **Major equipment/property**: A tangible or intangible item having a base unit cost of **$5,000 or more** with a life expectancy of one (1) year or more and is either furnished by DHCS or the cost is reimbursed through this Agreement. Software and videos are examples of intangible items that meet this definition.

(2) **Minor equipment/property**: A tangible item having a base unit cost of **less than $5,000** with a life expectancy of one (1) year or more and is either furnished by DHCS or the cost is reimbursed through this Agreement.

b. **Government and public entities** (including state colleges/universities and auxiliary organizations), whether acting as a contractor and/or subcontractor, may secure all commodities, supplies, equipment and services related to such purchases that are required in performance of this Agreement. Said procurements are subject to Paragraphs d through h of Provision 3. Paragraph c of Provision 3 shall also apply, if equipment/property purchases are delegated to subcontractors that are nonprofit organizations or commercial businesses.

c. **Nonprofit organizations and commercial businesses**, whether acting as a contractor and/or subcontractor, may secure commodities, supplies, equipment/property and services related to such purchases for performance under this Agreement.

(1) Equipment/property purchases shall not exceed $50,000 annually.

To secure equipment/property above the annual maximum limit of $50,000, the Subcontractor shall make arrangements through AHP, to have all remaining equipment/property purchased through DHCS' Purchasing Unit. The cost of equipment/property purchased by or through AHP/DHCS shall be deducted from the funds available in this Agreement. Subcontractor shall submit to the AHP Contract Manager a list of equipment/property specifications for those items that AHP/the State must procure. DHCS through AHP may pay the vendor directly for such arranged equipment/property purchases and title to the equipment/property will remain with DHCS. The equipment/property will be delivered to the Subcontractor's address, as stated on the face of the Agreement, unless the Subcontractor notifies AHP, in writing, of an alternate delivery address.

(2) All equipment/property purchases are subject to Paragraphs d through h of Provision 3. Paragraph b of Provision 3 shall also apply, if equipment/property purchases are delegated to subcontractors that are either a government or public entity.

(3) Nonprofit organizations and commercial businesses shall use a procurement system that meets the following standards:

(a) Maintain a code or standard of conduct that shall govern the performance of its officers, employees, or agents engaged in awarding procurement contracts. No employee, officer, or agent shall participate in the selection, award, or administration of a procurement, or bid contract in which, to his or her knowledge, he or she has a financial interest.

(b) Procurements shall be conducted in a manner that provides, to the maximum extent practical, open, and free competition.

(c) Procurements shall be conducted in a manner that provides for all of the following:

[1] Avoid purchasing unnecessary or duplicate items.

[2] Equipment/property solicitations shall be based upon a clear and accurate description of the technical requirements of the goods to be procured.

[3] Take positive steps to utilize small and veteran owned businesses.

d. Unless waived or otherwise stipulated in writing by AHP, prior written authorization from the AHP Contract Office or Project Manager will be required before the Subcontractor will be reimbursed for any purchase of $5,000 or more for commodities, supplies, equipment/property, and services related to such purchases. The Subcontractor must provide in its request for authorization all particulars necessary, as specified by AHP, for evaluating the necessity or desirability of incurring such costs. The term "purchase" excludes the purchase of services from a subcontractor and public utility services at rates established for uniform applicability to the general public.

e. In special circumstances, determined by AHP (e.g., when AHP has a need to monitor certain purchases, etc.), AHP may require prior written authorization and/or the submission of paid vendor receipts for any purchase, regardless of dollar amount. AHP reserves the right to either deny claims for reimbursement or to request repayment for any Subcontractor purchase that AHP determines to be unnecessary in carrying out performance under this Agreement.

f. The Subcontractor must maintain a copy or narrative description of the procurement system, guidelines, rules, or regulations that will be used to make purchases under this Agreement. AHP and the State reserves the right to request a copy of these documents and to inspect the purchasing practices of the Subcontractor at any time.

g. For all purchases, the Subcontractor must maintain copies of all paid vendor invoices, documents, bids and other information used in vendor selection, for inspection or audit. Justifications supporting the absence of bidding (i.e., sole source purchases) shall also be maintained on file by the Subcontractor for inspection or audit.

h. AHP may, with cause (e.g., with reasonable suspicion of unnecessary purchases or use of inappropriate purchase practices, etc.), withhold, cancel, modify, or retract the delegated purchase authority granted under Paragraphs b and/or c of Provision 3 by giving the Subcontractor no less than thirty (30) calendar days written notice.

4. Equipment/Property Ownership / Inventory / Disposition

(Applicable to agreements in which equipment/property is furnished by DHCS and/or AHP when said items are purchased or reimbursed by DHCS with state or federal funds provided under this Agreement.)

a. Wherever the term equipment and/or property is used in Provision 4, the definitions in Paragraph a of Provision 3 shall apply.

Unless otherwise stipulated in this Agreement, all equipment and/or property that is purchased/reimbursed with Agreement funds or furnished by AHP/DHCS under the terms of this Agreement shall be considered state equipment and the property of DHCS.

(1) **Reporting of Equipment/Property Receipt -** AHP requires the reporting, tagging and annual inventorying of all equipment and/or property that is furnished by AHP or purchased/reimbursed with funds provided through this Agreement.

Upon receipt of equipment and/or property, the Subcontractor shall report the receipt to the AHP. To report the receipt of said items and to receive property tags, Subcontractor shall use a form or format designated by AHP. If the appropriate form does not accompany this Agreement, Subcontractor shall request a copy from AHP.

(2) **Annual Equipment/Property Inventory -** If the Subcontractor enters into an agreement with a term of more than twelve months, the Subcontractor shall submit an annual inventory of state equipment and/or property to the AHP using a form or format designated by AHP. If an inventory report form does not accompany this Agreement, Subcontractor shall request a copy from AHP. Subcontractor shall:

(a) Include in the inventory report, equipment and/or property in the Subcontractor's possession and/or in the possession of a subcontractor (including independent consultants).

(b) Submit the inventory report to AHP according to the instructions appearing on the inventory form or issued by AHP.

(c) Contact AHP to learn how to remove, trade-in, sell, transfer or survey off, from the inventory report, expired equipment and/or property that is no longer wanted, usable or has passed its life expectancy. Instructions will be supplied by AHP.

b. Title to state equipment and/or property shall not be affected by its incorporation or attachment to any property not owned by the State.

c. Unless otherwise stipulated, AHP or DCHS shall be under no obligation to pay the cost of restoration, or rehabilitation of the Subcontractor's facility which may be affected by the removal of any state equipment and/or property.

d. The Subcontractor shall maintain and administer a sound business program for ensuring the proper use, maintenance, repair, protection, insurance and preservation of state equipment and/or property.

(1) In administering this provision, AHP may require the Subcontractor to repair or replace, to AHP's satisfaction, any damaged, lost or stolen state equipment and/or property. In the event of state equipment and/or miscellaneous property theft, Subcontractor shall immediately file a theft report with the appropriate police agency or the California Highway Patrol and Subcontractor shall promptly submit one copy of the theft report to AHP.

e. Unless otherwise stipulated by the Program funding this Agreement, equipment and/or property purchased/reimbursed with agreement funds or furnished by AHP under the terms of this Agreement, shall only be used for performance of this Agreement or another DHCS agreement.

f. Within sixty (60) calendar days prior to the termination or end of this Agreement, the Subcontractor shall provide a final inventory report of equipment and/or property to AHP and shall, at that time, query AHP as to the requirements, including the manner and method, of returning state equipment and/or property to AHP. Final disposition of equipment and/or property shall be at AHP expense and according to AHP instructions. Equipment and/or property disposition instructions shall be issued by AHP immediately after receipt of the final inventory report. At the termination or conclusion of this Agreement, AHP or DHCS may at its discretion, authorize the continued use of state equipment and/or property for performance of work under a different DHCS agreement.

e. The Subcontractor may, at its discretion, following receipt of final payment under this Agreement, reduce its accounts, books and records related to this Agreement to microfilm, computer disk, CD ROM, DVD, or other data storage medium. Upon request by an authorized representative to inspect, audit or obtain copies of said records, the Subcontractor must supply or make available applicable devices, hardware, and/or software necessary to view, copy and/or print said records. Applicable devices may include, but are not limited to, microfilm readers and microfilm printers, etc.

f. The Subcontractor shall, if applicable, comply with the Single Audit Act and the audit requirements set forth in 2 C.F.R. § 200.501 (2014).

8. Site Inspection

HP and/or DHCS has the right at all reasonable times to inspect or otherwise evaluate the work performed or being performed hereunder including subcontract supported activities and the premises in which it is being performed. If any inspection or evaluation is made of the premises of the Subcontractor, the Subcontractor shall provide and shall require subcontractors to provide all reasonable facilities and assistance for the safety and convenience of the authorized representatives in the performance of their duties. c. It is mutually agreed that if the Congress does not appropriate sufficient funds for the program, the Agreement shall be amended to reflect any reduction in funds.

d. AHP and DHCS have the option to invalidate or cancel the Agreement with 30 days advance written notice or to amend the Agreement to reflect any reduction in funds.

10. Termination (INTENTIONALLY OMITTED)

11. Intellectual Property Rights

a. **Ownership**

(1) Except where AHP has agreed in a signed writing to accept a license, AHP or DHCS shall be and remain, without additional compensation, the sole owner of any and all rights, title and interest in all Intellectual Property, from the moment of creation, whether or not jointly conceived, that are made, conceived, derived from, or reduced to practice by Subcontractor or AHP and which result directly or indirectly from this Agreement.

(2) For the purposes of this Agreement, Intellectual Property means recognized protectable rights and interest such as: patents, (whether or not issued) copyrights, trademarks, service marks, applications for any of the foregoing, inventions, trade secrets, trade dress, logos, insignia, color combinations, slogans, moral rights, right of publicity, author's rights, contract and licensing rights, works, mask works, industrial design rights, rights of priority, know how, design flows, methodologies, devices, business processes, developments, innovations, good will and all other legal rights protecting intangible proprietary information as may exist now and/or here after come into existence, and all renewals and extensions, regardless of whether those rights arise under the laws of the United States, or any other state, country or jurisdiction.

(a) For the purposes of the definition of Intellectual Property, "works" means all literary works, writings and printed matter including the medium by which they are recorded or reproduced, photographs, art work, pictorial and graphic representations and works of a similar nature, film, motion pictures, digital images, animation cells, and other audiovisual works including positives and negatives thereof, sound recordings, tapes, educational materials, interactive videos and any other materials or products created, produced, conceptualized and fixed in a tangible medium of expression. It includes preliminary and final products and any materials and information developed for the purposes of producing those final products. Works does not include articles submitted to peer review or reference journals or independent research projects.

(3) In the performance of this Agreement, Subcontractor will exercise and utilize certain of its Intellectual Property in existence prior to the effective date of this Agreement. In addition, under this Agreement, Subcontractor may access and utilize certain of AHP's Intellectual Property in existence prior to the effective date of this Agreement. Except as otherwise set forth herein, Subcontractor shall not use any of AHP's Intellectual Property now existing or hereafter existing for any purposes without the prior written permission of AHP. **Except as otherwise set forth herein, AHP shall not give any ownership interest in or rights to its Intellectual Property to the other Party.** If during the term of this Agreement, Subcontractor accesses any third-party Intellectual Property that is licensed to AHP, Subcontractor agrees to abide by all license and confidentiality restrictions applicable to AHP in the third-party's license agreement.

(4) Subcontractor agrees to cooperate with AHP in establishing or maintaining AHP's and/or DHCS exclusive rights in the Intellectual Property, and in assuring AHP's or DHCS' sole rights against third parties with respect to the Intellectual Property. If the Subcontractor enters into any agreements or subcontracts with other parties in order to perform this Agreement, Subcontractor shall require the terms of the Agreement(s) to include all Intellectual Property provisions. Such terms must include, but are not limited to, the

(5) Subcontractor further agrees to assist and cooperate with AHP/DHCS in all reasonable respects, and execute all documents and, subject to reasonable availability, give testimony and take all further acts reasonably necessary to acquire, transfer, maintain, and enforce AHP's and/or DHCS' Intellectual Property rights and interests.

b. **Retained Rights / License Rights**

1) Except for Intellectual Property made, conceived, derived from, or reduced to practice by Subcontractor or AHP and which result directly or indirectly from this Agreement, Subcontractor shall retain title to all of its Intellectual Property to the extent such Intellectual Property is in existence prior to the effective date of this Agreement. Subcontractor hereby grants to AHP/DHCS, without additional compensation, a permanent, non-exclusive, royalty free, paid-up, worldwide, irrevocable, perpetual, non-terminable license to use, reproduce, manufacture, sell, offer to sell, import, export, modify, publicly and privately display/perform, distribute, and dispose Subcontractor's Intellectual Property with the right to sublicense through multiple layers, for any purpose whatsoever, to the extent it is incorporated in the Intellectual Property resulting from this Agreement, unless Subcontractor assigns all rights, title and interest in the Intellectual Property as set forth herein.

(2) Nothing in this provision shall restrict, limit, or otherwise prevent Subcontractor from using any ideas, concepts, know-how, methodology or techniques related to its performance under this Agreement, provided that Subcontractor's use does not infringe the patent, copyright, trademark rights, license or other Intellectual Property rights of AHP/DHCS, or third party, or result in a breach or default of any provisions of this Exhibit or result in a breach of any provisions of law relating to confidentiality.

c. **Copyright**

(1) Subcontractor agrees that for purposes of copyright law, all works [as defined in Paragraph a, subparagraph (2)(a) of this provision] of authorship made by or on behalf of Subcontractor in connection with Subcontractor's performance of this Agreement shall be deemed "works made for hire." Subcontractor further agrees that the work of each person utilized by Subcontractor in connection with the performance of this Agreement will be a "work made for hire," whether that person is an employee of Subcontractor or that person has entered into an agreement with Subcontractor to perform the work. Subcontractor shall enter into a written agreement with any such person that: (i) all work performed for Subcontractor shall be deemed a "work made for hire" under the Copyright Act and (ii) that person shall assign all right, title, and interest to AHP and/or DHCS to any work product made, conceived, derived from, or reduced to practice by Subcontractor or AHP and which result directly or indirectly from this Agreement.

(2) All materials, including, but not limited to, visual works or text, reproduced or distributed pursuant to this Agreement that include Intellectual Property made, conceived, derived from, or reduced to practice by Subcontractor or AHP and which result directly or indirectly from this Agreement, shall include AHP's or DHCS' notice of copyright, which shall read in 3mm or larger typeface: "© *[Enter Current Year e.g., 2010, etc.]*, California Department of Health Care Services (or AHP if applicable). This material may not be reproduced or disseminated without prior written permission from California Department of Health Care Services (or AHP if applicable)." This notice should be placed prominently on the materials and set apart from other matter on the page where it appears. Audio productions shall contain a similar audio notice of copyright.

d. **Patent Rights**

DocuSign Envelope ID: BA0550E3-3532-42B9-89B1-1348C30DD463

under Section b of this provision for devices or material incorporating, or made through the use of such inventions. If such inventions result from research and development work specifically included within the Agreement's scope of work, then Subcontractor agrees to assign to AHP and/or DHCS, without additional compensation, all its right, title and interest in and to such inventions and to assist AHP and/or DHCS in securing United States and foreign patents with respect thereto.

e. **Third-Party Intellectual Property**

Except as provided herein, Subcontractor agrees that its performance of this Agreement shall not be dependent upon or include any Intellectual Property of Subcontractor or a third party without first: (i) obtaining AHP's prior written approval; and (ii) granting to or obtaining for AHP and/or DHCS, without additional compensation, a license, as described in Section b of this provision, for any of Subcontractor's or third-party's Intellectual Property in existence prior to the effective date of this Agreement. If such a license upon these terms is unattainable, and AHP determines that the Intellectual Property should be included in or is required for Subcontractor's performance of this Agreement, Subcontractor shall obtain a license under terms acceptable to AHP and/or DHCS.

f. **Warranties**

(1) Subcontractor represents and warrants that:

(a) It is free to enter into and fully perform this Agreement.

(b) It has secured and will secure all rights and licenses necessary for its performance of this Agreement.

(c) Neither Subcontractor's performance of this Agreement, nor the exercise by either Party of the rights granted in this Agreement, nor any use, reproduction, manufacture, sale, offer to sell, import, export, modification, public and private display/performance, distribution, and disposition of the Intellectual Property made, conceived, derived from, or reduced to practice by Subcontractor or DHCS or AHP and which result directly or indirectly from this Agreement will infringe upon or violate any Intellectual Property right, non-disclosure obligation, or other proprietary right or interest of any third-party or entity now existing under the laws of, or hereafter existing or issued by, any state, the United States, or any foreign country. There is currently no actual or threatened claim by any such third party based on an alleged violation of any such right by Subcontractor.

(d) Neither Subcontractor's performance nor any part of its performance will violate the right of privacy of, or constitute a libel or slander against any person or entity.

(e) It has secured and will secure all rights and licenses necessary for Intellectual Property including, but not limited to, consents, waivers or releases from all authors of music or performances used, and talent (radio, television and motion picture talent), owners of any interest in and to real estate, sites, locations, property or props that may be used or shown.

(f) It has not granted and shall not grant to any person or entity any right that would or might derogate, encumber, or interfere with any of the rights granted to AHP or DHCS in this Agreement.

(g) It has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Agreement for the acquisition, operation or maintenance of computer software in violation of copyright laws.

DocuSign Envelope ID: BA0550E3-3532-42B9-89B1-1348C30DD463

(h) It has no knowledge of any outstanding claims, licenses or other charges, liens, or encumbrances of any kind or nature whatsoever that could affect in any way Subcontractor's performance of this Agreement.

(2) AHP AND DHCS MAKE NO WARRANTY THAT THE INTELLECTUAL PROPERTY RESULTING FROM THIS AGREEMENT DOES NOT INFRINGE UPON ANY PATENT, TRADEMARK, COPYRIGHT OR THE LIKE, NOW EXISTING OR SUBSEQUENTLY ISSUED.

g. **Intellectual Property Indemnity**

(1) Subcontractor shall indemnify, defend and hold harmless AHP and DHCS and their licensees and assignees, and their officers, directors, employees, agents, representatives, successors, and users of its products, ("Indemnitees") from and against all claims, actions, damages, losses, liabilities (or actions or proceedings with respect to any thereof), whether or not rightful, arising from any and all actions or claims by any third party or expenses related thereto (including, but not limited to, all legal expenses, court costs, and attorney's fees incurred in investigating, preparing, serving as a witness in, or defending against, any such claim, action, or proceeding, commenced or threatened) to which any of the Indemnitees may be subject, whether or not Subcontractor is a party to any pending or threatened litigation, which arise out of or are related to (i) the incorrectness or breach of any of the representations, warranties, covenants or agreements of Subcontractor pertaining to Intellectual Property; or (ii) any Intellectual Property infringement, or any other type of actual or alleged infringement claim, arising out of AHP's use, reproduction, manufacture, sale, offer to sell, distribution, import, export, modification, public and private performance/display, license, and disposition of the Intellectual Property made, conceived, derived from, or reduced to practice by Subcontractor or DCHS or AHP and which result directly or indirectly from this Agreement. This indemnity obligation shall apply irrespective of whether the infringement claim is based on a patent, trademark or copyright registration that issued after the effective date of this Agreement. AHP reserves the right to participate in and/or control, at Subcontractor's expense, any such infringement action brought against AHP.

(2) Should any Intellectual Property licensed by the Subcontractor to AHP or DHCS under this Agreement become the subject of an Intellectual Property infringement claim, Subcontractor will exercise its authority reasonably and in good faith to preserve AHP's/DHCS' right to use the licensed Intellectual Property in accordance with this Agreement at no expense to AHP or DHCS. AHP shall have the right to monitor and appear through its own counsel (at Subcontractor's expense) in any such claim or action. In the defense or settlement of the claim, Subcontractor may obtain the right for AHP to continue using the licensed Intellectual Property; or, replace or modify the licensed Intellectual Property so that the replaced or modified Intellectual Property becomes non-infringing provided that such replacement or modification is functionally equivalent to the original licensed Intellectual Property. If such remedies are not reasonably available, AHP shall be entitled to a refund of all monies paid under this Agreement, without restriction or limitation of any other rights and remedies available at law or in equity.

(3) Subcontractor agrees that damages alone would be inadequate to compensate AHP or DHCS for breach of any term of this Intellectual Property provision by Subcontractor. Subcontractor acknowledges AHP or DHCS would suffer irreparable harm in the event of such breach and agrees AHP shall be entitled to obtain equitable relief, including without limitation an injunction, from a court of competent jurisdiction, without restriction or limitation of any other rights and remedies available at law or in equity.

h. **Federal Funding**

Because this Agreement is funded by the federal government, AHP and DHCS may acquire and maintain the Intellectual Property rights, title, and ownership which results directly or indirectly from the Agreement; except as provided in 37 Code of Federal Regulations part 401.14; however, the federal government shall have a non-exclusive, nontransferable, irrevocable, paid-up license

b. The Subcontractor and its employees, agents, or subcontractors shall not use such identifying information for any purpose other than carrying out the Subcontractor's obligations under this Agreement.

c. The Subcontractor and its employees, agents, or subcontractors shall promptly transmit to the AHP Contract Office or Project Manager all requests for disclosure of such identifying information not emanating from the client or person.

21. Smoke-Free Workplace Certification

(Applicable to federally funded agreements/grants and subcontracts/subawards, that provide health, day care, early childhood development services, education or library services to children under 18 directly or through local governments.)

a. Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by federal programs with directly or through state or local governments, by federal grant, contract, loan or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed.

b. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 for each violation and/or the imposition of an administrative compliance order on the responsible party.

c. The prohibitions herein are effective December 26, 1994.

d. Subcontractor or Grantee further agrees that it will insert this certification into any subawards (subcontracts or subgrants) entered into that provide for children's services as described in the Act.

22. Drug Free Workplace Act of 1988

The Federal government implemented the Drug Free Workplace Act of 1988 in an attempt to address the problems of drug abuse on the job. It is a fact that employees who use drugs have less productivity, a lower quality of work, and a higher absenteeism, and are more likely to misappropriate funds or services. From this perspective, the drug abuser may endanger other employees, the public at large, or themselves. Damage to property, whether owned by this entity or not, could result from drug abuse on the job. All these actions might undermine public confidence in the services this entity provides. Therefore, in order to remain a responsible source for government contracts, the following guidelines have been adopted:

a. The unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited in the work place.

b. Violators may be terminated or requested to seek counseling from an approved rehabilitation service.

DocuSign Envelope ID: BA0550E3-3532-42B9-89B1-1348C30DD463

c. Employees must notify their employer of any conviction of a criminal drug statute no later than five days after such conviction.

d. Although alcohol is not a controlled substance, it is nonetheless a drug. It is the policy that abuse of this drug will also not be tolerated in the workplace.

e. Contractors of federal agencies are required to certify that they will provide drugfree workplaces for their employees.

23. Covenant Against Contingent Fees

For breach or violation of this warranty, AHP shall have the right to annul this Agreement without liability or in its discretion to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such commission, percentage, and brokerage or contingent fee.

Contractor and Grantee Compliance with Economic Sanctions
Imposed in Response to Russia's Actions in Ukraine

EXECUTIVE ORDER N-6-22 – RUSSIA SANCTIONS

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. "Economic Sanctions" refers to sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law. The EO directs state agencies to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine Contractor is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this agreement.

The State shall provide Contractor advance written notice of such termination, allowing Contractor at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the State.

This clause shall be flowed down and apply to the Subcontractor and any lower-tier subcontractor.

(The reference to "State" shall mean AHP, and the reference to "Contractor" shall mean Subcontractor.)

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Charles Galland:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions).

Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at $5 million or more, a separate notification will be sent outlining additional requirements specified under the EO.

Final disposition of equipment and/or property shall be at AHP expense and according to AHP instructions. Equipment and/or property disposition instructions shall be issued by AHP immediately after receipt of the final inventory report. At the termination or conclusion of this Agreement, AHP or DHCS may at its discretion, authorize the continued use of state equipment and/or property for performance of work under a different DHCS agreement.

c. It is mutually agreed that if the Congress does not appropriate sufficient funds for the program, the Agreement shall be amended to reflect any reduction in funds.

d. AHP and DHCS have the option to invalidate or cancel the Agreement with 30 days advance written notice or to amend the Agreement to reflect any reduction in funds.

10. Termination (INTENTIONALLY OMITTED)

11. Intellectual Property Rights

a. **Ownership**

(1) Except where AHP has agreed in a signed writing to accept a license, AHP or DHCS shall be and remain, without additional compensation, the sole owner of any and all rights, title and interest in all Intellectual Property, from the moment of creation, whether or not jointly conceived, that are made, conceived, derived from, or reduced to practice by Subcontractor or AHP and which result directly or indirectly from this Agreement.

(2) For the purposes of this Agreement, Intellectual Property means recognized protectable rights and interest such as: patents, (whether or not issued) copyrights, trademarks, service marks, applications for any of the foregoing, inventions, trade secrets, trade dress, logos, insignia, color combinations, slogans, moral rights, right of publicity, author's rights, contract and licensing rights, works, mask works, industrial design rights, rights of priority, know how, design flows, methodologies, devices, business processes, developments, innovations, good will and all other legal rights protecting intangible proprietary information as may exist now and/or here after come into existence, and all renewals and extensions, regardless of whether those rights arise under the laws of the United States, or any other state, country or jurisdiction.

(a) For the purposes of the definition of Intellectual Property, "works" means all literary works, writings and printed matter including the medium by which they are recorded or reproduced, photographs, art work, pictorial and graphic representations and works of a similar nature, film, motion pictures, digital images, animation cells, and other audiovisual works including positives and negatives thereof, sound recordings, tapes, educational materials, interactive videos and any other materials or products created, produced, conceptualized and fixed in a tangible medium of expression. It includes preliminary and final products and any materials and information developed for the purposes of producing those final products. Works does not include articles submitted to peer review or reference journals or independent research projects.

(3) In the performance of this Agreement, Subcontractor will exercise and utilize certain of its Intellectual Property in existence prior to the effective date of this Agreement. In addition, under this Agreement, Subcontractor may access and utilize certain of AHP's Intellectual Property in existence prior to the effective date of this Agreement. Except as otherwise set forth herein, Subcontractor shall not use any of AHP's Intellectual Property now existing or hereafter existing for any purposes without the prior written permission of AHP. **Except as otherwise set forth herein, AHP shall not give any ownership interest in or rights to its Intellectual Property to the other Party.** If during the term of this Agreement, Subcontractor accesses any third-party Intellectual Property that is licensed to AHP, Subcontractor agrees to abide by all license and confidentiality restrictions applicable to AHP in the third-party's license agreement.

(4) Subcontractor agrees to cooperate with AHP in establishing or maintaining AHP's and/or DHCS exclusive rights in the Intellectual Property, and in assuring AHP's or DHCS' sole rights against third parties with respect to the Intellectual Property. If the Subcontractor enters into any agreements or subcontracts with other parties in order to perform this Agreement, Subcontractor shall require the terms of the Agreement(s) to include all Intellectual Property provisions. Such terms must include, but are not limited to, the

DocuSign Envelope ID: BA0550E3-3532-42B9-89B1-1348C30DD463

(5) Subcontractor further agrees to assist and cooperate with AHP/DHCS in all reasonable respects, and execute all documents and, subject to reasonable availability, give testimony and take all further acts reasonably necessary to acquire, transfer, maintain, and enforce AHP's and/or DHCS' Intellectual Property rights and interests.

b. **Retained Rights / License Rights**

1) Except for Intellectual Property made, conceived, derived from, or reduced to practice by Subcontractor or AHP and which result directly or indirectly from this Agreement, Subcontractor shall retain title to all of its Intellectual Property to the extent such Intellectual Property is in existence prior to the effective date of this Agreement. Subcontractor hereby grants to AHP/DHCS, without additional compensation, a permanent, non-exclusive, royalty free, paid-up, worldwide, irrevocable, perpetual, non-terminable license to use, reproduce, manufacture, sell, offer to sell, import, export, modify, publicly and privately display/perform, distribute, and dispose Subcontractor's Intellectual Property with the right to sublicense through multiple layers, for any purpose whatsoever, to the extent it is incorporated in the Intellectual Property resulting from this Agreement, unless Subcontractor assigns all rights, title and interest in the Intellectual Property as set forth herein.

(2) Nothing in this provision shall restrict, limit, or otherwise prevent Subcontractor from using any ideas, concepts, know-how, methodology or techniques related to its performance under this Agreement, provided that Subcontractor's use does not infringe the patent, copyright, trademark rights, license or other Intellectual Property rights of AHP/DHCS, or third party, or result in a breach or default of any provisions of this Exhibit or result in a breach of any provisions of law relating to confidentiality.

c. **Copyright**

(1) Subcontractor agrees that for purposes of copyright law, all works [as defined in Paragraph a, subparagraph (2)(a) of this provision] of authorship made by or on behalf of Subcontractor in connection with Subcontractor's performance of this Agreement shall be deemed "works made for hire." Subcontractor further agrees that the work of each person utilized by Subcontractor in connection with the performance of this Agreement will be a "work made for hire," whether that person is an employee of Subcontractor or that person has entered into an agreement with Subcontractor to perform the work. Subcontractor shall enter into a written agreement with any such person that: (i) all work performed for Subcontractor shall be deemed a "work made for hire" under the Copyright Act and (ii) that person shall assign all right, title, and interest to AHP and/or DHCS to any work product made, conceived, derived from, or reduced to practice by Subcontractor or AHP and which result directly or indirectly from this Agreement.

(2) All materials, including, but not limited to, visual works or text, reproduced or distributed pursuant to this Agreement that include Intellectual Property made, conceived, derived from, or reduced to practice by Subcontractor or AHP and which result directly or indirectly from this Agreement, shall include AHP's or DHCS' notice of copyright, which shall read in 3mm or larger typeface: "© *[Enter Current Year e.g., 2010, etc.]*, California Department of Health Care Services (or AHP if applicable). This material may not be reproduced or disseminated without prior written permission from California Department of Health Care Services (or AHP if applicable)." This notice should be placed prominently on the materials and set apart from other matter on the page where it appears. Audio productions shall contain a similar audio notice of copyright.

d. **Patent Rights**

With respect to inventions made by Subcontractor in the performance of this Agreement, which did not result from research and development specifically included in the Agreement's scope of work, Subcontractor hereby grants to AHP and/or DHCS a license as described

DocuSign Envelope ID: BA0550E3-3532-42B9-89B1-1348C30DD463

under Section b of this provision for devices or material incorporating, or made through the use of such inventions. If such inventions result from research and development work specifically included within the Agreement's scope of work, then Subcontractor agrees to assign to AHP and/or DHCS, without additional compensation, all its right, title and interest in and to such inventions and to assist AHP and/or DHCS in securing United States and foreign patents with respect thereto.

e. **Third-Party Intellectual Property**

Except as provided herein, Subcontractor agrees that its performance of this Agreement shall not be dependent upon or include any Intellectual Property of Subcontractor or a third party without first: (i) obtaining AHP's prior written approval; and (ii) granting to or obtaining for AHP and/or DHCS, without additional compensation, a license, as described in Section b of this provision, for any of Subcontractor's or third-party's Intellectual Property in existence prior to the effective date of this Agreement. If such a license upon these terms is unattainable, and AHP determines that the Intellectual Property should be included in or is required for Subcontractor's performance of this Agreement, Subcontractor shall obtain a license under terms acceptable to AHP and/or DHCS.

f. **Warranties**

(1) Subcontractor represents and warrants that:

(a) It is free to enter into and fully perform this Agreement.

(b) It has secured and will secure all rights and licenses necessary for its performance of this Agreement.

(c) Neither Subcontractor's performance of this Agreement, nor the exercise by either Party of the rights granted in this Agreement, nor any use, reproduction, manufacture, sale, offer to sell, import, export, modification, public and private display/performance, distribution, and disposition of the Intellectual Property made, conceived, derived from, or reduced to practice by Subcontractor or DHCS or AHP and which result directly or indirectly from this Agreement will infringe upon or violate any Intellectual Property right, non-disclosure obligation, or other proprietary right or interest of any third-party or entity now existing under the laws of, or hereafter existing or issued by, any state, the United States, or any foreign country. There is currently no actual or threatened claim by any such third party based on an alleged violation of any such right by Subcontractor.

(d) Neither Subcontractor's performance nor any part of its performance will violate the right of privacy of, or constitute a libel or slander against any person or entity.

(e) It has secured and will secure all rights and licenses necessary for Intellectual Property including, but not limited to, consents, waivers or releases from all authors of music or performances used, and talent (radio, television and motion picture talent), owners of any interest in and to real estate, sites, locations, property or props that may be used or shown.

(f) It has not granted and shall not grant to any person or entity any right that would or might derogate, encumber, or interfere with any of the rights granted to AHP or DHCS in this Agreement.

(g) It has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Agreement for the acquisition, operation or maintenance of computer software in violation of copyright laws.

DocuSign Envelope ID: BA0550E3-3532-42B9-89B1-1348C30DD463

(h) It has no knowledge of any outstanding claims, licenses or other charges, liens, or encumbrances of any kind or nature whatsoever that could affect in any way Subcontractor's performance of this Agreement.

(2) AHP AND DHCS MAKE NO WARRANTY THAT THE INTELLECTUAL PROPERTY RESULTING FROM THIS AGREEMENT DOES NOT INFRINGE UPON ANY PATENT, TRADEMARK, COPYRIGHT OR THE LIKE, NOW EXISTING OR SUBSEQUENTLY ISSUED.

g. **Intellectual Property Indemnity**

(1) Subcontractor shall indemnify, defend and hold harmless AHP and DHCS and their licensees and assignees, and their officers, directors, employees, agents, representatives, successors, and users of its products, ("Indemnitees") from and against all claims, actions, damages, losses, liabilities (or actions or proceedings with respect to any thereof), whether or not rightful, arising from any and all actions or claims by any third party or expenses related thereto (including, but not limited to, all legal expenses, court costs, and attorney's fees incurred in investigating, preparing, serving as a witness in, or defending against, any such claim, action, or proceeding, commenced or threatened) to which any of the Indemnitees may be subject, whether or not Subcontractor is a party to any pending or threatened litigation, which arise out of or are related to (i) the incorrectness or breach of any of the representations, warranties, covenants or agreements of Subcontractor pertaining to Intellectual Property; or (ii) any Intellectual Property infringement, or any other type of actual or alleged infringement claim, arising out of AHP's use, reproduction, manufacture, sale, offer to sell, distribution, import, export, modification, public and private performance/display, license, and disposition of the Intellectual Property made, conceived, derived from, or reduced to practice by Subcontractor or DCHS or AHP and which result directly or indirectly from this Agreement. This indemnity obligation shall apply irrespective of whether the infringement claim is based on a patent, trademark or copyright registration that issued after the effective date of this Agreement. AHP reserves the right to participate in and/or control, at Subcontractor's expense, any such infringement action brought against AHP.

(2) Should any Intellectual Property licensed by the Subcontractor to AHP or DHCS under this Agreement become the subject of an Intellectual Property infringement claim, Subcontractor will exercise its authority reasonably and in good faith to preserve AHP's/DHCS' right to use the licensed Intellectual Property in accordance with this Agreement at no expense to AHP or DHCS. AHP shall have the right to monitor and appear through its own counsel (at Subcontractor's expense) in any such claim or action. In the defense or settlement of the claim, Subcontractor may obtain the right for AHP to continue using the licensed Intellectual Property; or, replace or modify the licensed Intellectual Property so that the replaced or modified Intellectual Property becomes non-infringing provided that such replacement or modification is functionally equivalent to the original licensed Intellectual Property. If such remedies are not reasonably available, AHP shall be entitled to a refund of all monies paid under this Agreement, without restriction or limitation of any other rights and remedies available at law or in equity.

(3) Subcontractor agrees that damages alone would be inadequate to compensate AHP or DHCS for breach of any term of this Intellectual Property provision by Subcontractor. Subcontractor acknowledges AHP or DHCS would suffer irreparable harm in the event of such breach and agrees AHP shall be entitled to obtain equitable relief, including without limitation an injunction, from a court of competent jurisdiction, without restriction or limitation of any other rights and remedies available at law or in equity.

h. **Federal Funding**

Because this Agreement is funded by the federal government, AHP and DHCS may acquire and maintain the Intellectual Property rights, title, and ownership which results directly or indirectly from the Agreement; except as provided in 37 Code of Federal Regulations part 401.14; however, the federal government shall have a non-exclusive, nontransferable, irrevocable, paid-up license

DocuSign Envelope ID: BA0550E3-3532-42B9-89B1-1348C30DD463

throughout the world to use, duplicate, or dispose of such Intellectual Property throughout the world in any manner for governmental purposes and to permit others to do so.

i. **Survival**

The provisions set forth herein shall survive any termination or expiration of this Agreement or any project schedule.

12. Air or Water Pollution Requirements

Any federally funded agreement and/or subcontract in excess of $100,000 must comply with the following provisions unless said agreement is exempt by law.

a. Government contractors agree to comply with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 USC 7606) section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection Agency regulations.

b. Institutions of higher education, hospitals, nonprofit organizations and commercial businesses agree to comply with all applicable standards, orders, or requirements issued under the Clean Air Act (42 U.S.C. 7401 et seq.), as amended, and the Clean Water Act (33 U.S.C. 1251 et seq.), as amended**.**

13. Prior Approval of Training Seminars, Workshops or Conferences

14. Confidentiality of Information

a. The Subcontractor and its employees, agents, or subcontractors shall protect from unauthorized disclosure names and other identifying information concerning persons either receiving services pursuant to this Agreement or persons whose names or identifying information become available or are disclosed to the Subcontractor, its employees, agents, or subcontractors as a result of services performed under this Agreement, except for statistical information not identifying any such person.

b. The Subcontractor and its employees, agents, or subcontractors shall not use such identifying information for any purpose other than carrying out the Subcontractor's obligations under this Agreement.

c. The Subcontractor and its employees, agents, or subcontractors shall promptly transmit to the AHP Contract Office or Project Manager all requests for disclosure of such identifying information not emanating from the client or person.

d. The Subcontractor shall not disclose, except as otherwise specifically permitted by this Agreement or authorized by the client, any such identifying information to anyone other than AHP without prior written authorization from the AHP Contract Office or Project Manager, except if disclosure is required by State or Federal law.

21. Smoke-Free Workplace Certification

(Applicable to federally funded agreements/grants and subcontracts/subawards, that provide health, day care, early childhood development services, education or library services to children under 18 directly or through local governments.)

a. Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by federal programs with directly or through state or local governments, by federal grant, contract, loan or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed.

b. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 for each violation and/or the imposition of an administrative compliance order on the responsible party.

c. By signing this Agreement, Subcontractor or Grantee certifies that it will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act. The prohibitions herein are effective December 26, 1994.

d. Subcontractor or Grantee further agrees that it will insert this certification into any subawards (subcontracts or subgrants) entered into that provide for children's services as described in the Act.

22. Drug Free Workplace Act of 1988

The Federal government implemented the Drug Free Workplace Act of 1988 in an attempt to address the problems of drug abuse on the job. It is a fact that employees who use drugs have less productivity, a lower quality of work, and a higher absenteeism, and are more likely to misappropriate funds or services. From this perspective, the drug abuser may endanger other employees, the public at large, or themselves. Damage to property, whether owned by this entity or not, could result from drug abuse on the job. All these actions might undermine public confidence in the services this entity provides. Therefore, in order to remain a responsible source for government contracts, the following guidelines have been adopted:

a. The unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited in the work place.

b. Violators may be terminated or requested to seek counseling from an approved rehabilitation service.

DocuSign Envelope ID: BA0550E3-3532-42B9-89B1-1348C30DD463

c. Employees must notify their employer of any conviction of a criminal drug statute no later than five days after such conviction.

d. Although alcohol is not a controlled substance, it is nonetheless a drug. It is the policy that abuse of this drug will also not be tolerated in the workplace.

e. Contractors of federal agencies are required to certify that they will provide drugfree workplaces for their employees.

23. Covenant Against Contingent Fees
(Applicable only to federally funded agreements.)

The Subcontractor warrants that no person or selling agency has been employed or retained to solicit/secure this Agreement upon an agreement of understanding for a commission, percentage, brokerage, or contingent fee, except *bona fide* employees or *bona fide* established commercial or selling agencies retained by the Subcontractor for the purpose of securing business. For breach or violation of this warranty, AHP shall have the right to annul this Agreement without liability or in its discretion to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such commission, percentage, and brokerage or contingent fee.

24. Payment Withholds (INTENTIONALLY OMITTED)

25. Performance Evaluation (INTENTIONALLY OMITTED)

26. Officials Not to Benefit

No members of or delegate of Congress or the State Legislature shall be admitted to any share or part of this Agreement, or to any benefit that may arise therefrom. This provision shall not be construed to extend to this Agreement if made with a corporation for its general benefits.

27. Four-Digit Date Compliance

(Applicable to agreements in which Technology (IT) services are provided to AHP or if IT equipment is procured.)

Subcontractor warrants that it will provide only Four-Digit Compliant (as defined below) Deliverables and/or services to the State. “Four Digit Date compliant” Deliverables and services can accurately process, calculate, compare, and sequence date data, including without limitation date data arising out of or relating to leap years and changes in centuries. This warranty and representation is subject to the warranty terms and conditions of this Agreement and does not limit the generality of warranty obligations set forth elsewhere herein.

28. Prohibited Use of State Funds for Software

(Applicable to agreements in which computer software is used in performance of the work.)

Subcontractor certifies that it has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Agreement or the acquisition, operation or maintenance of computer software in violation of copyright law.

34. Suspension or Stop Work Notification

a. AHP may, at any time, issue a notice to suspend performance or stop work under this Agreement. The initial notification may be a verbal or written directive issued by the funding Program's Contract Manager. Upon receipt of said notice, the Subcontractor is to suspend and/or stop all, or any part, of the work called for by this Agreement.

b. Written confirmation of the suspension or stop work notification with directions as to what work (if not all) is to be suspended and how to proceed will be provided within thirty (30) working days of the verbal notification. The suspension or stop work notification shall remain in effect until further written notice is received from AHP. The resumption of work (in whole or part) will be at AHP's discretion and upon receipt of written confirmation.

(1) Upon receipt of a suspension or stop work notification, the Subcontractor shall immediately comply with its terms and take all reasonable steps to minimize or halt the incurrence of costs allocable to the performance covered by the notification during the period of work suspension or stoppage.

(2) Within ninety (90) days of the issuance of a suspension or stop work notification, AHP shall either:

(a) Cancel, extend, or modify the suspension or stop work notification; or

(b) Terminate the Agreement as provided for in the Cancellation / Termination clause of the Agreement.

This Agreement has been determined to constitute a business associate relationship under the Health Insurance Portability and Accountability Act (HIPAA) and its implementing privacy and security regulations at 45 Code of Federal Regulations, Parts 160 and 164 (collectively, and as used in this Agreement).

2. The term "Agreement" as used in this document refers to and includes both this BAA Addendum and the contract to which this BAA is attached as an addendum/exhibit, if any.

3. For purposes of this Agreement, the term "Business Associate" shall have the same meaning as set forth in 45 CFR section 160.103.

4. **Subcontractor, the Covered Entity**, understands that **Business Associate (ADVOCATES FOR HUMAN POTENTIAL, INC. "AHP")** may create, receive, maintain, transmit to the California Department of Health Care Services (DHCS) or aggregate certain information pursuant to the terms of this Agreement, some of which information may constitute Protected Health Information (PHI) and/or confidential information protected by federal and/or state laws.

   4.1 As used in this Agreement and unless otherwise stated, the term "PHI" refers to and includes both "PHI" as defined at 45 CFR section 160.103 and Personal Information (PI) as defined in the Information Practices Act (IPA) at California Civil Code section 1798.3(a). PHI includes information in any form, including paper, oral, and electronic.

   4.2 As used in this Agreement, the term "confidential information" refers to information not otherwise defined as PHI in Section 4.1 of this Agreement, but to which state and/or federal privacy and/or security protections apply.

5. Business Associate is acting on DHCS's behalf and provides services or arranges, performs, or assists in the performance of functions or activities on behalf of DHCS, and may create, receive, maintain, transmit, aggregate, use or disclose PHI (collectively, "use or disclose PHI") in order to fulfill Business Associate's obligations under this Agreement. Business Associate and Subcontractor are each a party to this Agreement and are collectively referred to as the "parties."

8.1.1 To comply with the more protective of the privacy and security standards set forth in applicable state or federal laws to the extent such standards provide a greater degree of protection and security than HIPAA or are otherwise more favorable to the individuals whose information is concerned; and

8.1.2 To treat any violation of such additional and/or more protective standards as a breach or security incident, as appropriate, pursuant to Section 18 of this Agreement.

Contractor and Grantee Compliance with Economic Sanctions
Imposed in Response to Russia's Actions in Ukraine

EXECUTIVE ORDER N-6-22 – RUSSIA SANCTIONS

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. "Economic Sanctions" refers to sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law. The EO directs state agencies to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine Contractor is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this agreement.

The State shall provide Contractor advance written notice of such termination, allowing Contractor at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the State.

This clause shall be flowed down and apply to the Subcontractor and any lower-tier subcontractor.

(The reference to "State" shall mean AHP, and the reference to "Contractor" shall mean Subcontractor.)

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Charles Galland:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions).

Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at $5 million or more, a separate notification will be sent outlining additional requirements specified under the EO.

Only AHP's Contracting Officer has the authority to waive any term or condition of this Subcontract on behalf of AHP.

The Subcontractor will take affirmative action to ensure that qualified applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, national origin, physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and career development opportunities and selection for training, including apprenticeship. The Subcontractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Federal Government or AHP, setting forth the provisions of the Equal Opportunity clause, Section 503 of the Rehabilitation Act of 1973 and the affirmative action clause required by the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 4212). Such notices shall state the Subcontractor's obligation under the law to take affirmative action to employ and advance in employment qualified applicants without discrimination based on their race, color, religion, sex, national origin physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era and the rights of applicants and employees.

b. The Subcontractor will, in all solicitations or advancements for employees placed by or on behalf of the Subcontractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era.

c. The Subcontractor will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding a notice, to be provided by the Federal Government or the State, advising the labor union or workers' representative of the Subcontractor's commitments under the provisions herein and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

d. The Subcontractor will comply with all provisions of and furnish all information and reports required by Section 503 of the Rehabilitation Act of 1973, as amended, the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 4212) and of the Federal Executive Order No. 11246 as amended, including by Executive Order 11375, ‘Amending Executive Order 11246 Relating to Equal Employment Opportunity,‘ and as supplemented by regulation at 41 CFR part 60, “Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor,” and of the rules, regulations, and relevant orders of the Secretary of Labor.

e. The Subcontractor will furnish all information and reports required by Federal Executive Order No. 11246 as amended, including by Executive Order 11375, ‘Amending Executive Order 11246 Relating to Equal Employment Opportunity,‘ and as supplemented by regulation at 41 CFR part 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor,” and the Rehabilitation Act of 1973, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to its books, records, and accounts by the State and its designated representatives and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(1) **Major equipment/property**: A tangible or intangible item having a base unit cost of **$5,000 or more** with a life expectancy of one (1) year or more and is either furnished by DHCS or the cost is reimbursed through this Agreement. Software and videos are examples of intangible items that meet this definition.

(2) **Minor equipment/property**: A tangible item having a base unit cost of **less than $5,000** with a life expectancy of one (1) year or more and is either furnished by DHCS or the cost is reimbursed through this Agreement.

b. **Government and public entities** (including state colleges/universities and auxiliary organizations), whether acting as a contractor and/or subcontractor, may secure all commodities, supplies, equipment and services related to such purchases that are required in performance of this Agreement. Said procurements are subject to Paragraphs d through h of Provision 3. Paragraph c of Provision 3 shall also apply, if equipment/property purchases are delegated to subcontractors that are nonprofit organizations or commercial businesses.

c. **Nonprofit organizations and commercial businesses**, whether acting as a contractor and/or subcontractor, may secure commodities, supplies, equipment/property and services related to such purchases for performance under this Agreement.

[3] Take positive steps to utilize small and veteran owned businesses.

d. Unless waived or otherwise stipulated in writing by AHP, prior written authorization from the AHP Contract Office or Project Manager will be required before the Subcontractor will be reimbursed for any purchase of $5,000 or more for commodities, supplies, equipment/property, and services related to such purchases. The Subcontractor must provide in its request for authorization all particulars necessary, as specified by AHP, for evaluating the necessity or desirability of incurring such costs. The term "purchase" excludes the purchase of services from a subcontractor and public utility services at rates established for uniform applicability to the general public.

e. In special circumstances, determined by AHP (e.g., when AHP has a need to monitor certain purchases, etc.), AHP may require prior written authorization and/or the submission of paid vendor receipts for any purchase, regardless of dollar amount. h. AHP may, with cause (e.g., with reasonable suspicion of unnecessary purchases or use of inappropriate purchase practices, etc.), withhold, cancel, modify, or retract the delegated purchase authority granted under Paragraphs b and/or c of Provision 3 by giving the Subcontractor no less than thirty (30) calendar days written notice.

b. Title to state equipment and/or property shall not be affected by its incorporation or attachment to any property not owned by the State.

c. Unless otherwise stipulated, AHP or DCHS shall be under no obligation to pay the cost of restoration, or rehabilitation of the Subcontractor's facility which may be affected by the removal of any state equipment and/or property.

d. The Subcontractor shall maintain and administer a sound business program for ensuring the proper use, maintenance, repair, protection, insurance and preservation of state equipment and/or property.

(1) In administering this provision, AHP may require the Subcontractor to repair or replace, to AHP's satisfaction, any damaged, lost or stolen state equipment and/or property. In the event of state equipment and/or miscellaneous property theft, Subcontractor shall immediately file a theft report with the appropriate police agency or the California Highway Patrol and Subcontractor shall promptly submit one copy of the theft report to AHP.

e. Unless otherwise stipulated by the Program funding this Agreement, equipment and/or property purchased/reimbursed with agreement funds or furnished by AHP under the terms of this Agreement, shall only be used for performance of this Agreement or another DHCS agreement.

f. Within sixty (60) calendar days prior to the termination or end of this Agreement, the Subcontractor shall provide a final inventory report of equipment and/or property to AHP and shall, at that time, query AHP as to the requirements, including the manner and method, of returning state equipment and/or property to AHP. Final disposition of equipment and/or property shall be at AHP expense and according to AHP instructions. Equipment and/or property disposition instructions shall be issued by AHP immediately after receipt of the final inventory report. (5) Subcontractor further agrees to assist and cooperate with AHP/DHCS in all reasonable respects, and execute all documents and, subject to reasonable availability, give testimony and take all further acts reasonably necessary to acquire, transfer, maintain, and enforce AHP's and/or DHCS' Intellectual Property rights and interests.

b. **Retained Rights / License Rights**

1) Except for Intellectual Property made, conceived, derived from, or reduced to practice by Subcontractor or AHP and which result directly or indirectly from this Agreement, Subcontractor shall retain title to all of its Intellectual Property to the extent such Intellectual Property is in existence prior to the effective date of this Agreement. Subcontractor hereby grants to AHP/DHCS, without additional compensation, a permanent, non-exclusive, royalty free, paid-up, worldwide, irrevocable, perpetual, non-terminable license to use, reproduce, manufacture, sell, offer to sell, import, export, modify, publicly and privately display/perform, distribute, and dispose Subcontractor's Intellectual Property with the right to sublicense through multiple layers, for any purpose whatsoever, to the extent it is incorporated in the Intellectual Property resulting from this Agreement, unless Subcontractor assigns all rights, title and interest in the Intellectual Property as set forth herein.

(2) Nothing in this provision shall restrict, limit, or otherwise prevent Subcontractor from using any ideas, concepts, know-how, methodology or techniques related to its performance under this Agreement, provided that Subcontractor's use does not infringe the patent, copyright, trademark rights, license or other Intellectual Property rights of AHP/DHCS, or third party, or result in a breach or default of any provisions of this Exhibit or result in a breach of any provisions of law relating to confidentiality.

c. **Copyright**

(1) Subcontractor agrees that for purposes of copyright law, all works [as defined in Paragraph a, subparagraph (2)(a) of this provision] of authorship made by or on behalf of Subcontractor in connection with Subcontractor's performance of this Agreement shall be deemed "works made for hire." Subcontractor further agrees that the work of each person utilized by Subcontractor in connection with the performance of this Agreement will be a "work made for hire," whether that person is an employee of Subcontractor or that person has entered into an agreement with Subcontractor to perform the work. Subcontractor shall enter into a written agreement with any such person that: (i) all work performed for Subcontractor shall be deemed a "work made for hire" under the Copyright Act and (ii) that person shall assign all right, title, and interest to AHP and/or DHCS to any work product made, conceived, derived from, or reduced to practice by Subcontractor or AHP and which result directly or indirectly from this Agreement.

(2) All materials, including, but not limited to, visual works or text, reproduced or distributed pursuant to this Agreement that include Intellectual Property made, conceived, derived from, or reduced to practice by Subcontractor or AHP and which result directly or indirectly from this Agreement, shall include AHP's or DHCS' notice of copyright, which shall read in 3mm or larger typeface: "© *[Enter Current Year e.g., 2010, etc.]*, California Department of Health Care Services (or AHP if applicable). This material may not be reproduced or disseminated without prior written permission from California Department of Health Care Services (or AHP if applicable)." This notice should be placed prominently on the materials and set apart from other matter on the page where it appears. Audio productions shall contain a similar audio notice of copyright.

DocuSign Envelope ID: BA0550E3-3532-42B9-89B1-1348C30DD463

under Section b of this provision for devices or material incorporating, or made through the use of such inventions. If such inventions result from research and development work specifically included within the Agreement's scope of work, then Subcontractor agrees to assign to AHP and/or DHCS, without additional compensation, all its right, title and interest in and to such inventions and to assist AHP and/or DHCS in securing United States and foreign patents with respect thereto.

e. **Third-Party Intellectual Property**

Except as provided herein, Subcontractor agrees that its performance of this Agreement shall not be dependent upon or include any Intellectual Property of Subcontractor or a third party without first: (i) obtaining AHP's prior written approval; and (ii) granting to or obtaining for AHP and/or DHCS, without additional compensation, a license, as described in Section b of this provision, for any of Subcontractor's or third-party's Intellectual Property in existence prior to the effective date of this Agreement. If such a license upon these terms is unattainable, and AHP determines that the Intellectual Property should be included in or is required for Subcontractor's performance of this Agreement, Subcontractor shall obtain a license under terms acceptable to AHP and/or DHCS.

f. **Warranties**

(1) Subcontractor represents and warrants that:

(a) It is free to enter into and fully perform this Agreement.

(b) It has secured and will secure all rights and licenses necessary for its performance of this Agreement.

(c) Neither Subcontractor's performance of this Agreement, nor the exercise by either Party of the rights granted in this Agreement, nor any use, reproduction, manufacture, sale, offer to sell, import, export, modification, public and private display/performance, distribution, and disposition of the Intellectual Property made, conceived, derived from, or reduced to practice by Subcontractor or DHCS or AHP and which result directly or indirectly from this Agreement will infringe upon or violate any Intellectual Property right, non-disclosure obligation, or other proprietary right or interest of any third-party or entity now existing under the laws of, or hereafter existing or issued by, any state, the United States, or any foreign country. There is currently no actual or threatened claim by any such third party based on an alleged violation of any such right by Subcontractor.

(d) Neither Subcontractor's performance nor any part of its performance will violate the right of privacy of, or constitute a libel or slander against any person or entity.

(e) It has secured and will secure all rights and licenses necessary for Intellectual Property including, but not limited to, consents, waivers or releases from all authors of music or performances used, and talent (radio, television and motion picture talent), owners of any interest in and to real estate, sites, locations, property or props that may be used or shown.

(f) It has not granted and shall not grant to any person or entity any right that would or might derogate, encumber, or interfere with any of the rights granted to AHP or DHCS in this Agreement.

(g) It has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Agreement for the acquisition, operation or maintenance of computer software in violation of copyright laws.

DocuSign Envelope ID: BA0550E3-3532-42B9-89B1-1348C30DD463

(h) It has no knowledge of any outstanding claims, licenses or other charges, liens, or encumbrances of any kind or nature whatsoever that could affect in any way Subcontractor's performance of this Agreement.

(2) AHP AND DHCS MAKE NO WARRANTY THAT THE INTELLECTUAL PROPERTY RESULTING FROM THIS AGREEMENT DOES NOT INFRINGE UPON ANY PATENT, TRADEMARK, COPYRIGHT OR THE LIKE, NOW EXISTING OR SUBSEQUENTLY ISSUED.

g. **Intellectual Property Indemnity**

(1) Subcontractor shall indemnify, defend and hold harmless AHP and DHCS and their licensees and assignees, and their officers, directors, employees, agents, representatives, successors, and users of its products, ("Indemnitees") from and against all claims, actions, damages, losses, liabilities (or actions or proceedings with respect to any thereof), whether or not rightful, arising from any and all actions or claims by any third party or expenses related thereto (including, but not limited to, all legal expenses, court costs, and attorney's fees incurred in investigating, preparing, serving as a witness in, or defending against, any such claim, action, or proceeding, commenced or threatened) to which any of the Indemnitees may be subject, whether or not Subcontractor is a party to any pending or threatened litigation, which arise out of or are related to (i) the incorrectness or breach of any of the representations, warranties, covenants or agreements of Subcontractor pertaining to Intellectual Property; or (ii) any Intellectual Property infringement, or any other type of actual or alleged infringement claim, arising out of AHP's use, reproduction, manufacture, sale, offer to sell, distribution, import, export, modification, public and private performance/display, license, and disposition of the Intellectual Property made, conceived, derived from, or reduced to practice by Subcontractor or DCHS or AHP and which result directly or indirectly from this Agreement. This indemnity obligation shall apply irrespective of whether the infringement claim is based on a patent, trademark or copyright registration that issued after the effective date of this Agreement. AHP reserves the right to participate in and/or control, at Subcontractor's expense, any such infringement action brought against AHP.

(2) Should any Intellectual Property licensed by the Subcontractor to AHP or DHCS under this Agreement become the subject of an Intellectual Property infringement claim, Subcontractor will exercise its authority reasonably and in good faith to preserve AHP's/DHCS' right to use the licensed Intellectual Property in accordance with this Agreement at no expense to AHP or DHCS. AHP shall have the right to monitor and appear through its own counsel (at Subcontractor's expense) in any such claim or action. In the defense or settlement of the claim, Subcontractor may obtain the right for AHP to continue using the licensed Intellectual Property; or, replace or modify the licensed Intellectual Property so that the replaced or modified Intellectual Property becomes non-infringing provided that such replacement or modification is functionally equivalent to the original licensed Intellectual Property. If such remedies are not reasonably available, AHP shall be entitled to a refund of all monies paid under this Agreement, without restriction or limitation of any other rights and remedies available at law or in equity.

(3) Subcontractor agrees that damages alone would be inadequate to compensate AHP or DHCS for breach of any term of this Intellectual Property provision by Subcontractor. Subcontractor acknowledges AHP or DHCS would suffer irreparable harm in the event of such breach and agrees AHP shall be entitled to obtain equitable relief, including without limitation an injunction, from a court of competent jurisdiction, without restriction or limitation of any other rights and remedies available at law or in equity.

h. **Federal Funding**

Because this Agreement is funded by the federal government, AHP and DHCS may acquire and maintain the Intellectual Property rights, title, and ownership which results directly or indirectly from the Agreement; except as provided in 37 Code of Federal Regulations part 401.14; however, the federal government shall have a non-exclusive, nontransferable, irrevocable, paid-up license

i. **Survival**

The provisions set forth herein shall survive any termination or expiration of this Agreement or any project schedule.

The Subcontractor and its employees, agents, or subcontractors shall protect from unauthorized disclosure names and other identifying information concerning persons either receiving services pursuant to this Agreement or persons whose names or identifying information become available or are disclosed to the Subcontractor, its employees, agents, or subcontractors as a result of services performed under this Agreement, except for statistical information not identifying any such person.

b. The Subcontractor and its employees, agents, or subcontractors shall not use such identifying information for any purpose other than carrying out the Subcontractor's obligations under this Agreement.

c. The Subcontractor and its employees, agents, or subcontractors shall promptly transmit to the AHP Contract Office or Project Manager all requests for disclosure of such identifying information not emanating from the client or person.

21. Smoke-Free Workplace Certification

(Applicable to federally funded agreements/grants and subcontracts/subawards, that provide health, day care, early childhood development services, education or library services to children under 18 directly or through local governments.)

a. Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by federal programs with directly or through state or local governments, by federal grant, contract, loan or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed.

b. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 for each violation and/or the imposition of an administrative compliance order on the responsible party.

c. By signing this Agreement, Subcontractor or Grantee certifies that it will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act. The prohibitions herein are effective December 26, 1994.

d. Subcontractor or Grantee further agrees that it will insert this certification into any subawards (subcontracts or subgrants) entered into that provide for children's services as described in the Act.

22. Drug Free Workplace Act of 1988

The Federal government implemented the Drug Free Workplace Act of 1988 in an attempt to address the problems of drug abuse on the job. It is a fact that employees who use drugs have less productivity, a lower quality of work, and a higher absenteeism, and are more likely to misappropriate funds or services. From this perspective, the drug abuser may endanger other employees, the public at large, or themselves. Damage to property, whether owned by this entity or not, could result from drug abuse on the job. All these actions might undermine public confidence in the services this entity provides. Therefore, in order to remain a responsible source for government contracts, the following guidelines have been adopted:

a. The unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited in the work place.

b. Violators may be terminated or requested to seek counseling from an approved rehabilitation service.

DocuSign Envelope ID: BA0550E3-3532-42B9-89B1-1348C30DD463

c. Employees must notify their employer of any conviction of a criminal drug statute no later than five days after such conviction.

d. Although alcohol is not a controlled substance, it is nonetheless a drug. It is the policy that abuse of this drug will also not be tolerated in the workplace.

e. Contractors of federal agencies are required to certify that they will provide drugfree workplaces for their employees.

23. Covenant Against Contingent Fees

(Applicable only to federally funded agreements.)

The Subcontractor warrants that no person or selling agency has been employed or retained to solicit/secure this Agreement upon an agreement of understanding for a commission, percentage, brokerage, or contingent fee, except *bona fide* employees or *bona fide* established commercial or selling agencies retained by the Subcontractor for the purpose of securing business. For breach or violation of this warranty, AHP shall have the right to annul this Agreement without liability or in its discretion to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such commission, percentage, and brokerage or contingent fee.

24. Payment Withholds (INTENTIONALLY OMITTED)

25. Performance Evaluation (INTENTIONALLY OMITTED)

26. Officials Not to Benefit

No members of or delegate of Congress or the State Legislature shall be admitted to any share or part of this Agreement, or to any benefit that may arise therefrom. This provision shall not be construed to extend to this Agreement if made with a corporation for its general benefits.

27. Four-Digit Date Compliance

(Applicable to agreements in which Technology (IT) services are provided to AHP or if IT equipment is procured.)

This warranty and representation is subject to the warranty terms and conditions of this Agreement and does not limit the generality of warranty obligations set forth elsewhere herein.

28. Prohibited Use of State Funds for Software

(Applicable to agreements in which computer software is used in performance of the work.)

Subcontractor certifies that it has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Agreement or the acquisition, operation or maintenance of computer software in violation of copyright law.

Upon receipt of said notice, the Subcontractor is to suspend and/or stop all, or any part, of the work called for by this Agreement.

b. Written confirmation of the suspension or stop work notification with directions as to what work (if not all) is to be suspended and how to proceed will be provided within thirty (30) working days of the verbal notification. The suspension or stop work notification shall remain in effect until further written notice is received from AHP. The resumption of work (in whole or part) will be at AHP's discretion and upon receipt of written confirmation.

(1) Upon receipt of a suspension or stop work notification, the Subcontractor shall immediately comply with its terms and take all reasonable steps to minimize or halt the incurrence of costs allocable to the performance covered by the notification during the period of work suspension or stoppage.

(2) Within ninety (90) days of the issuance of a suspension or stop work notification, AHP shall either:

(a) Cancel, extend, or modify the suspension or stop work notification; or

(b) Terminate the Agreement as provided for in the Cancellation / Termination clause of the Agreement.

c. If a suspension or stop work notification issued under this clause is canceled or the period of suspension or any extension thereof is modified or expires, the Subcontractor may resume work only upon written concurrence of AHP.

d. If the suspension or stop work notification is cancelled and the Agreement resumes, changes to the services, deliverables, performance dates, and/or agreement terms resulting from the suspension or stop work notification shall require an amendment to the Agreement.

e. If a suspension or stop work notification is not canceled and the Agreement is cancelled or terminated pursuant to the provision entitled Cancellation / Termination, AHP shall allow reasonable costs resulting from the suspension or stop work notification in arriving at the settlement costs.

f. AHP shall not be liable to the Subcontractor for loss of profits because of any suspension or stop work notification issued under this clause.

35. Public Communications

"Electronic and printed documents developed and produced, for public communications shall follow the following requirements to comply with Section 508 of the Rehabilitation Act and the Americans with Disabilities Act:

a. Ensure visual-impaired, hearing impaired and other special needs audiences are provided material information in formats that provide the most assistance in making informed choices."

36. Compliance with Statutes and Regulations

a. The Subcontractor shall comply in all material respects with all California and federal law, regulations, and published guidelines, to the extent that these authorities contain requirements applicable to Subcontractor's performance under the Agreement.

b. These authorities include, but are not limited to, Title 2, Code of Federal Regulations (CFR) Part 200, subpart F, Appendix II; Title 42 CFR Part 431; subpart F; Title 42 CFR Part 433,

(3) Each recipient shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affect the accuracy of the information contained in any disclosure from previously filed by such person under Paragraph a(2) herein. An event that materially affects the accuracy of the information reported includes:

Imposed in Response to Russia's Actions in Ukraine

EXECUTIVE ORDER N-6-22 – RUSSIA SANCTIONS

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. "Economic Sanctions" refers to sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law. The EO directs state agencies to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. The State shall provide Contractor advance written notice of such termination, allowing Contractor at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the State.

This clause shall be flowed down and apply to the Subcontractor and any lower-tier subcontractor.

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Charles Galland:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions).

Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at $5 million or more, a separate notification will be sent outlining additional requirements specified under the EO.

b. Approve the non-standard cyber liability provisions in the Business Associate Agreement as recommended by the Director of Health Services.

RECOMMENDATION:

It is recommended that the Board of Supervisors:
a. Approve and authorize the Director of Health Services or designee to execute a revised Mental Health Services Agreement A-16489 with Seneca Family of Agencies for the same term of July 1, 2023 through June 30, 2024, and total Agreement amount not to exceed $4,742,130; and
b. Approve the non-standard cyber liability provisions in the Business Associate Agreement as recommended by the Director of Health Services.

SUMMARY/DISCUSSION

On June 27, 2023, the County Board of Supervisors approved the Mental Health Services Agreement template A-16489 with Seneca Family of Agencies DBA Kinship Center in the contract amount of $4,742,130 for the term July 1, 2023 to June 30, 2024 for the provision of mental health services, mobile crisis response, wraparound, and family partner services to children, youth, and their families. Services promote improvement in the child's overall functioning; a reduction in the risk of mental health disabilities, an improvement with family member's mental health and well-being to improve the child's mental health functioning; and a reduction in the possibility of future residential care, periodic inpatient hospitalization, placement at out of state facilities, or placement in a juvenile justice facility.

The Agreement, in its entirety, is being presented to the Board of Supervisors for approval for a couple reasons. While the Agreement was in process of being assembled, the vendor's name changed from Seneca Family of Agencies DBA Kinship to Seneca Family of Agencies effective July 1, 2023. Further, both parties negotiated a reduced cyber liability insurance amount of $2,000,000 in Exhibit E: Business Associate Agreement. The Health Department requests that the Board accept the Director of Health's recommendation to accept modification to the cyber liability insurance provisions.

This work supports one of the County of Monterey Health Department's 2018-2024 Strategic Plan Goal(s): 3. Ensure access to culturally and linguistically appropriate, customer-friendly, quality health services. It also supports one of the ten essential public health services, specifically: 7. Link people to

needed personal health services and assure the provisions of health care when otherwise unavailable.

OTHER AGENCY INVOLVEMENT:
The office of the County Counsel and Auditor-Controller have reviewed and approved this request as to legal form and fiscal provisions respectively. Risk Management has not approved this Agreement due to non-standard cyber liability limitation provisions.

FINANCING:
This Agreement is funded by Mental Health Federal Financial Participation (MH FFP) (43%), 2011 Realignment-Early Periodic Screening, Diagnosis, and Treatment (EPSDT) (27%), Mental Health Services Act-CSS (MHSA) (4%), MHSA PEI (10%), California Health Facilities Financing Authority (CHFFA) (5%), Family Urgent Response (10%), and SAMHSA (1%). The funds for this Agreement FY 2023-24 will be included in the Health Department's (HEA012, Unit 8410) FY 2023-24 Adopted Budget.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, agents, and employees as Additional Insured with respect to liability arising out of the CONTRACTOR'S work, including ongoing and complete operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the COUNTY and that the insurance of the Additional Insured shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance.

Prior to the execution of this Agreement by the COUNTY, CONTRACTOR shall file certificates of insurance with the COUNTY'S contract administrator and the COUNTY'S Contracts/Purchasing Office, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by COUNTY, annual certificates to COUNTY'S Contract Administrator and COUNTY'S Contracts/Purchasing Office. If the certificate is not received by the expiration date, CONTRACTOR shall have five (5) calendar days to send the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance coverage is a breach of this Agreement, which entitles COUNTY, at its sole and absolute discretion, to (1) immediately disallow claim(s) for payment and/or withhold payment(s) by COUNTY to CONTRACTOR, pursuant to Section III (A), for services rendered on or after the

PROGRAM 3: MOBILE CRISIS SUPPORT TEAM

A. PROGRAM NARRATIVE

The Mobile Crisis Support Team (MCST) provides community-based mental health crisis response, triage, and stabilization to children and youth up to 21 years of age, and their family who are experiencing immediate acute mental health crisis. The MCST will triage crisis calls placed to a support line and travel in Monterey County communities to provide risk/safety assessment and crisis intervention; collaborate with existing treatment team members; provide linkage for youth and families in need of further mental health services, coordinate with emergency response; and provide follow up services. The clinical threshold for crisis may include aggressive behaviors; suicide attempts/ideation; drug and alcohol overdose or abuse; disruptive symptoms related to thought, mood and anxiety disorders; escalating behavior(s) and, without immediate intervention, the individual is likely to require a higher intensity of services. It may also present as an overt change in functioning or be prompted by traumatic life events. The MCST provides 24 hours, 7 days a week immediate mental health crisis service.

The MCST program is partially funded by a COUNTY awarded Investment in Mental Health Wellness Grant Program for Children and Youth ("CY Grant Program") of the California Health Facilities Financing Authority (CHFFA) to develop and implement a MCST program for the grant period May 30, 2019 through June 30, 2026.

B. PROGRAM GOALS

Provide immediate crisis support and intervention to children and youth with psychiatric emergencies to:

1. Divert psychiatric crises before major impacts on their safety and stability occur.
2. Reduce the volume and frequency of other more restrictive (and less appropriate) services, including inpatient hospitalizations or law enforcement involvement.
3. Increase access to youth-specific crisis support that will effectively address the behavioral needs of youth and families in their communities.

C. PROGRAM OBJECTIVES

1. CONTRACTOR shall provide access to a 24-hours a day, 7 days a week support line for youth and family in crisis. Crisis calls received through the support line are triaged to determine the level of severity and prioritize calls that meet the clinical threshold required for an in-person response available 24 hours a day, 7 days a week.
2. CONTRACTOR shall provide two (2) MCST teams. Each team consist of four (4) staff comprised of one (1) Lead master's level Clinician, two (2) Crisis Clinicians, and one (1) Family Partner and one (1) Peer Partner both serving the entire program with a flexible schedule to meet caregiver needs:

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

b. **Crisis Clinician:** A registered master's-level staff who will triage support line calls, provide in person response to crisis situations, and provide follow-up services for youth and families. Half of the MCST clinicians will be bilingual staff.
c. **Family Partner:** A highly trained staff who has lived experience navigating the behavioral health system and focused on providing support to the family. The Family Partner responds to mobile response calls, providing assistance in intake, assessment, and collaboration, support to child and family members, and follow-up services for youth and families.
d. **Peer Partner:** A highly trained staff who has lived experience navigating the behavioral health system and focused on providing peer support to the child/youth. The Peer Partner responds to mobile response calls, providing assistance in intake, assessment, and collaboration, support to child and family members, and follow-up services for youth and families.

3. The MCST will respond in-person, face-to-face within 1-3 hours in extenuating circumstances for urgent needs, or same-day response within 24 hours of nonurgent situations.

4. After hour phone calls will be connected with the CONTRACTOR'S Rapid Response, an Administrator On-Call from the MCST on-call staffing pool, who will assess the severity of the crisis, attempt to stabilize the situation through phone-based counseling and coaching, contact emergency response personnel if there are immediate safety risks, and create a plan for both safety and follow-up with the family. Rapid Response will then write a call summary and forward to MCST staff to facilitate a follow-up call or visit the next morning when the program formally opens again.

5. The MCST shall respond to crisis emergency calls and provide in-person community-based crisis support services, intervention, and stabilization, risk/safety assessment, and case management. The MCST staff does not transport clients and will coordinate transportation as appropriate.
    a. **Crisis Intervention:** Therapeutic interventions are provided to engage the youth and family in a safety and risk assessment. MCST staff will complete a Crisis Assessment Tool and short-term safety plan with the youth and family. If further emergency psychiatric treatment is needed, the MCST will work with the caregivers to develop a plan for immediate referral to emergency psychiatric services in the community. The MCST will work closely with youth, family, teacher, police, paramedics, and/or psychiatric emergency staff when necessary to assist with the referral process for a smooth transition to acute psychiatric care. In the event of an acute mental health crisis, the MCST may assess clients for a WIC 5150/5585 hold or contact the local law enforcement to assess clients for a WIC 5150/5585 hold.

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

b. **Case Management:** The MCST may make a referral to a community provider and/or work with existing treatment team members to ensure linkage to needed services. Services may be provided by a Crisis Clinician or a Family Partner. Services may be provided during a crisis.
c. **Assessment:** An Assessment may be provided to the youth during follow up services to assist the youth in further understanding the feelings, behaviors and triggers linked to the crisis. The intent of this service is to have a MCST staff contact the client's support systems (guardian, social workers, therapist, teacher, psychiatrist, etc.) to work together on the best ways to improve or maintain the mental health status of the youth. Services may be provided by a Crisis clinician or a Family Partner. Services may be provided during a crisis.

Collateral may include, but is not limited to, consultation and training of the significant support person(s) to assist in better utilization of mental health services by the client; consultation and training of the significant support person(s) to assist in better understanding of mental illness; and family counseling with the significant support person(s) in achieving the goals of the client plan. The client may or may not be present for this service activity.
f. **Intensive Care Coordination (ICC)**: ICC is similar to the activities that are routinely provided to our clients as Case Management. ICC must be delivered using a Child/Youth/Client and Family Team to develop and guide the planning and service delivery process. The difference between this service code and traditional Case Management is that ICC must be used to facilitate implementation of the cross-system/multi-agency collaborative services approach. ICC also differs from Case Management in that it typically requires more frequent and active participation by the ICC Coordinator to ensure that the needs of the child/youth are being met.

6. CONTRACTOR shall communicate with COUNTY Child Welfare or Probation on direct referrals for system involved youth received from the State Family Urgent Response (FURS) hotline to ensure immediate in-person trauma-informed support during situations of instability, for purposes of preserving the relationship of the caregiver and child/youth, providing developmentally appropriate relationship conflict management and resolution skills, stabilizing the living situation, mitigating the distress of the caregiver or child or youth, connecting the caregiver and child or youth to the existing array of local services, and promoting a healthy and healing environment for children, youth, and families (foster youth and former foster youth)

PROGRAM 5: MENTAL HEALTH INTENSIVE SERVICES CARE

A. PROGRAM NARRATIVE

The Mental Health Intensive Services Care Program provides a variety of specialty mental health service support options to ensure that foster children with intensive mental health needs have access to the appropriate level of mental health care services. The program allows for home-based care for youth with complex needs. Mental Health Intensive Services Care homes are intended to be linked directly with supportive community-based services like Wraparound and Mobile Response to prevent placement disruption and to build natural support systems around a youth with intensive needs.

      i. Significant impairment, where impairment is defined as distress, disability, or dysfunction in social, occupational, or other important activities.
      ii. A reasonable probability of significant deterioration in an important area of life functioning.

   b. The client's condition as described in paragraph (a) is due to <u>either</u> of the following:
      i. A diagnosed mental health disorder, according to the criteria in the current editions of the DSM and ICD.
      ii. A suspected mental disorder that has not yet been diagnosed.

C. Additional Clarifications

1. Criteria

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

a. A clinically appropriate and covered mental health prevention, screening, assessment, treatment, or recovery service listed within Exhibit A of this Agreement can be provided and submitted to the COUNTY for reimbursement under any of the following circumstances:
   i. The services were provided prior to determining a diagnosis, including clinically appropriate and covered services provided during the assessment process;
   ii. The service was not included in an individual treatment plan; or
   iii. The client had a co-occurring substance use disorder.

2. Diagnosis Not a Prerequisite

   a. Per BHIN 21-073, a mental health diagnosis is not a prerequisite for access to covered SMHS. This does not eliminate the requirement that all Medi-Cal claims, including SMHS claims, include a current Centers for Medicare & Medicaid Services (CMS) approved ICD diagnosis code.

D. Medical Necessity

1. CONTRACTOR will ensure that services provided are medically necessary in compliance with BHIN 21-073 and pursuant to Welfare and Institutions Code section 14184.402(a). Services provided to a client must be medically necessary and clinically appropriate to address the client's presenting condition. Documentation in each client's chart as a whole will demonstrate medical necessity as defined below, based on the client's age at the time of service provision.

2. For individuals 21 years of age or older, a service is "medically necessary" or a "medical necessity" when it is reasonable and necessary to protect life, to prevent significant illness or significant disability, or to alleviate severe pain as set forth in Welfare and Institutions Code section 14059.5.

3. For individuals under 21 years of age, a service is "medically necessary" or a "medical necessity" if the service meets the standards set forth in Section 1396d(r)(5) of Title 42 of the United States Code.

E. Coordination or Care

1. CONTRACTOR shall ensure that all care, treatment and services provided pursuant to this Agreement are coordinated among all providers who are serving the client, including all other SMHS providers, as well as providers of Non-Specialty Mental Health Services (NSMHS), substance use disorder treatment services, physical health services, dental services, regional center services and all other services as applicable to ensure a client-centered and whole-person approach to services.

2. CONTRACTOR shall ensure that care coordination activities support the monitoring and treatment of comorbid substance use disorder and/or health conditions.

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

3. CONTRACTOR shall include in care coordination activities efforts to connect, refer and link clients to community-based services and supports, including but not limited to educational, social, prevocational, vocational, housing, nutritional, criminal justice, transportation, childcare, child development, family/marriage education, cultural sources, and mutual aid support groups.
4. CONTRACTOR shall engage in care coordination activities beginning at intake and throughout the treatment and discharge planning processes.
5. To facilitate care coordination, CONTRACTOR will request a HIPAA and California law compliant client authorization to share client information with and among all other providers involved in the client's care, in satisfaction of state and federal privacy laws and regulations.

F. Co-Occurring Treatment and No Wrong Door

1. Per BHIN 22-011, Specialty and Non-Specialty Mental Health Services can be provided concurrently, if those services are clinically appropriate, coordinated, and not duplicative. When a client meets criteria for both NSMHS and SMHS, the client should receive services based on individual clinical need and established therapeutic relationships. Clinically appropriate and covered SMHS can also be provided when the client has a co-occurring mental health condition and substance use disorder.
2. Under this Agreement, CONTRACTOR will ensure that clients receive timely mental health services without delay. Services are reimbursable to CONTRACTOR by COUNTY even when:
    a. Services are provided prior to determination of a diagnosis, during the assessment or prior to determination of whether SMHS access criteria are met, even if the assessment ultimately indicates the client does not meet criteria for SMHS.
    b. If CONTRACTOR is serving a client receiving both SMHS and NSMHS, CONTRACTOR holds responsibility for documenting coordination of care and ensuring that services are non-duplicative.

IV. AUTHORIZATION AND DOCUMENTATION PROVISIONS

A. Services Authorization

1. CONTRACTOR will collaborate with COUNTY to complete authorization requests in line with COUNTY and DHCS policy.
2. CONTRACTOR shall have in place, and follow, written policies and procedures for completing requests for initial and continuing authorizations of services, as required by COUNTY guidance.
3. CONTRACTOR shall respond to COUNTY in a timely manner when consultation is necessary for COUNTY to make appropriate authorization determinations.

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

4. COUNTY shall provide CONTRACTOR with written notice of authorization determinations within the timeframes set forth in BHINs 22-016 and 22-017, or any subsequent DHCS notices.
5. CONTRACTOR shall alert COUNTY when an expedited authorization decision (no later than 72 hours) is necessary due to a client's specific needs and circumstances that could seriously jeopardize the client's life or health, or ability to attain, maintain, or regain maximum function.

B. Documentation Requirements

1. CONTRACTOR will follow all documentation requirements as specified in Article 4.2-4.8 inclusive in compliance with federal, state and COUNTY requirements.
2. All CONTRACTOR documentation shall be accurate, complete, and legible, shall list each date of service, and include the face-to-face time for each service. CONTRACTOR shall document travel and documentation time for each service separately from face-to-face time and provide this information to COUNTY upon request. Services must be identified as provided in-person, by telephone, or by telehealth.
3. All services shall be documented utilizing COUNTY-approved templates and contain all required elements. CONTRACTOR agrees to satisfy the chart documentation requirements set forth in BHIN 22-019 and the contract between COUNTY and DHCS. Failure to comply with documentation standards specified in this Article require corrective action plans.

C. Assessment

1. CONTRACTOR shall ensure that all client medical records include an assessment of each client's need for mental health services.
2. CONTRACTOR will utilize the seven uniform assessment domains and include other required elements as identified in BHIN 22-019 and document the assessment in the client's medical record.
3. For clients aged 6 through 20, the Child and Adolescent Needs and Strengths (CANS), and for clients aged 3 through 18, the Pediatric Symptom Checklist-35 (PSC-35) tools are required at intake, every six months during treatment, and at discharge, as specified in DHCS MHSUDS INs 17-052 and 18-048.
4. The time period for providers to complete an initial assessment and subsequent assessments for SMHS are up to clinical discretion of COUNTY; however, CONTRACTOR's providers shall complete assessments within a reasonable time and in accordance with generally accepted standards of practice.

D. Problem List

1. CONTRACTOR will create and maintain a Problem List for each client served under this Agreement. The problem list is a list of symptoms, conditions, diagnoses,

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

and/or risk factors identified through assessment, psychiatric diagnostic evaluation, crisis encounters, or other types of service encounters.

2. CONTRACTOR must document a problem list that adheres to industry standards utilizing at minimum current SNOMED International, Systematized Nomenclature of Medicine Clinical Terms (SNOMED CT®) U.S. Edition, September 2022 Release, and ICD-10-CM 2023.

3. A problem identified during a service encounter may be addressed by the service provider during that service encounter and subsequently added to the problem list.

4. The problem list shall include, but is not limited to, all elements specified in BHIN 22-019.

5. COUNTY does not require the problem list to be updated within a specific timeframe or have a requirement about how frequently the problem list should be updated after a problem has initially been added. However, CONTRACTOR shall update the problem list within a reasonable time such that the problem list reflects the current issues facing the client, in accordance with generally accepted standards of practice and in specific circumstances specified in BHIN 22-019.

E. Treatment and Care Plans

1. CONTRACTOR is not required to complete treatment or care plans for clients under this Agreement, except in the circumstances specified in BHIN 22-019 and additional guidance from DHCS that may follow after execution of this Agreement.

F. Progress Notes

1. CONTRACTOR shall create progress notes for the provision of all SMHS services provided under this Agreement.

2. Each progress note shall provide sufficient detail to support the service code selected for the service type as indicated by the service code description.

3. Progress notes shall include all elements specified in BHIN 22-019, whether the note be for an individual or a group service.

4. CONTRACTOR shall complete progress notes within three business days of providing a service, with the exception of notes for crisis services, which shall be completed within 24 hours.

5. Providers shall complete a daily progress note for services that are billed on a daily basis, such as residential and day treatment services, if applicable.

G. Transition of Care Tool

1. CONTRACTOR shall use a Transition of Care Tool for any clients whose existing services will be transferred from CONTRACTOR to an Medi-Cal Managed Care Plan (MCP) provider or when NSMHS will be added to the existing mental health treatment provided by CONTRACTOR, as specified in BHIN 22-065, in order to ensure continuity of care.

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

2. Determinations to transition care or add services from an MCP shall be made in alignment with COUNTY policies and via a client-centered, shared decision-making process.

3. CONTRACTOR may directly use the DHCS-provided Transition of Care Tool, found at https://www.dhcs.ca.gov/Pages/Screening-and-Transition-of-Care-Tools-for-Medi-Cal-Mental-Health-Services.aspx, or obtain a copy of that tool provided by the COUNTY. CONTRACTOR may create the Transition of Care Tool in its Electronic Health Record (EHR). However, the contents of the Transition of Care Tool, including the specific wording and order of fields, shall remain identical to the DHCS provided form. The only exception to this requirement is when the tool is translated into languages other than English.

H. Telehealth

1. CONTRACTOR may use telehealth, when it deems clinically appropriate, as a mode of delivering behavioral health services in accordance with all applicable COUNTY, state, and federal requirements, including those related to privacy/security, efficiency, and standards of care. Such services will conform to the definitions and meet the requirements included in the Medi-Cal Provider Manual: Telehealth, available in the DHCS Telehealth Resources page at: https://www.dhcs.ca.gov/provgovpart/Pages/TelehealthResources.aspx.

2. All telehealth equipment and service locations must ensure that client confidentiality is maintained.

3. Licensed providers and staff may provide services via telephone and telehealth as long as the service is within their scope of practice.

4. Medical records for clients served by CONTRACTOR under this Agreement must include documentation of written or verbal consent for telehealth or telephone services if such services are provided by CONTRACTOR. Such consent must be obtained at least once prior to initiating applicable health care services and consent must include all elements as specified in BHIN 22-019.

5. COUNTY may at any time audit CONTRACTOR's telehealth practices, and CONTRACTOR must allow access to all materials needed to adequately monitor CONTRACTOR's adherence to telehealth standards and requirements.

V. MEETING/COMMUNICATIONS

The Contract Monitor shall convene regularly scheduled meeting with CONTRACTOR. The purpose of these meetings shall be to oversee implementation of the contract; discuss contract issues; evaluate contract usage and effectiveness; program implementation; and make recommendations for contract modifications. The Contract Monitor does not have the authority to authorize changes requiring a contract amendment.

IV. PAYMENT CONDITIONS

A. If CONTRACTOR is seeking reimbursement for eligible services funded by the Short-Doyle/Medi-Cal, Mental Health Services Act ("MHSA"), SB 90, Federal or State Grants, and/or COUNTY funds provided pursuant to this Agreement, reimbursement for such services shall be based on actual cost of providing those services less any deductible revenues collected by the CONTRACTOR from other payer sources. In order to reduce COUNTY costs, the CONTRACTOR shall comply with all applicable provisions of the California Welfare and Institutions Code (WIC), the California Code of Regulations, the Code of Federal Regulations, and the federal Social Security Act related to reimbursements by non-County and non-State sources, including, but not limited to, collecting reimbursements for services from clients (which shall be the same as patient fees established pursuant to WIC section 5710) and from private or public third-party payers.

CONTRACTOR shall not claim reimbursement from COUNTY for (or apply sums received from COUNTY with respect to) that portion of its obligations which has been paid by another source of revenue. If CONTRACTOR is seeking reimbursement for mental health services provided pursuant to this Agreement, reimbursement for such services shall be based upon the actual allowable costs of providing those services less any deductible revenues, as stated above. Notwithstanding any other provision of this Agreement, in no event may CONTRACTOR request a rate that exceeds the COUNTY'S Maximum Rate, which is based on the most recent State's Medi-Cal Behavioral Health Service Fee Schedules established by the State's Department of Health Care Services. In no case shall payments to CONTRACTOR exceed County's Maximum Rates. In addition to the rate limitation, in no event shall the maximum reimbursement that will be paid by COUNTY to CONTRACTOR under this Agreement for any Program Amount be more than the amount identified for each Program Amount for each Funded Program, as identified in this Exhibit B, Section III. Said amounts shall be referred to as the "Maximum Obligation of County," as identified in this Exhibit B, Section V.

B. To the extent a recipient of services under this Agreement is eligible for coverage under Short-Doyle/Medi-Cal or Medicaid or Medicare or any other Federal or State funded program ("an eligible beneficiary"), CONTRACTOR shall ensure that services

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

provided to eligible beneficiaries are properly identified and claimed to the Funded Program responsible for such services to said eligible beneficiaries. For the Short-Doyle/Medi-Cal Funded Program, CONTRACTOR assumes fiscal responsibility for services provided to all individuals who do not have full-scope Medi-Cal or are not Medi-Cal eligible during the term of this Agreement.

C. CONTRACTOR shall be responsible for delivering services to the extent that funding is provided by the COUNTY. To the extent that CONTRACTOR does not have funds allocated in the Agreement for a Funded Program that pays for services to a particular eligible beneficiary, CONTRACTOR shall, at the first opportunity, refer said eligible beneficiary to another CONTRACTOR or COUNTY facility within the same geographic area to the extent feasible, which has available funds allocated for that Funded Program.

D. In order to receive any payment under this Agreement, CONTRACTOR shall submit reports and claims in such form as General Ledger, Payroll Report and other accounting documents as needed, and as may be required by the County of Monterey Department of Health, Behavioral Health Bureau. Specifically, CONTRACTOR shall submit its claims on Behavioral Health Invoice Form provided as Exhibit G, to this Agreement, along with backup documentation, on a monthly basis, to COUNTY so as to reach the Behavioral Health Bureau no later than the thirtieth (30th) day of the month following the month of service. See Section III, above, for payment amount information to be reimbursed each fiscal year period of this Agreement. The amount requested for reimbursement shall be in accordance with the approved budget and shall not exceed the actual net costs incurred for services provided under this Agreement.

   CONTRACTOR shall submit via email a monthly claim using Exhibit G, Behavioral Health Invoice Form in Excel format with electronic signature along with supporting documentation, as may be required by the COUNTY for services rendered to:

   MCHDBHFinance@co.monterey.ca.us

E. CONTRACTOR shall submit all claims for reimbursement under this Agreement within thirty (30) calendar days after the termination or end date of this Agreement. All claims not submitted after thirty (30) calendar days following the termination or end date of this Agreement shall not be subject to reimbursement by the COUNTY. Any claim(s) submitted for services that preceded thirty (30) calendar days prior to the termination or end date of this Agreement may be disallowed, except to the extent that such failure was through no fault of CONTRACTOR. Any "obligations incurred" included in claims for reimbursements and paid by the COUNTY which remain unpaid by the CONTRACTOR after thirty (30) calendar days following the termination or end date of this Agreement shall be disallowed, except to the extent that such failure was through no fault of CONTRACTOR under audit by the COUNTY.

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

F. If CONTRACTOR fails to submit claim(s) for services provided under the terms of this Agreement as described above, the COUNTY may, at its sole discretion, deny payment for that month of service and disallow the claim.

G. COUNTY shall review and certify CONTRACTOR'S claim either in the requested amount or in such other amount as COUNTY approves in conformity with this Agreement, and shall then submit such certified claim to the COUNTY Auditor. The County Auditor-Controller shall pay the amount certified within thirty (30) calendar days of receiving the certified invoice.

H. To the extent that the COUNTY determines CONTRACTOR has improperly claimed services to a particular Program Amount, COUNTY may disallow payment of said services and require CONTRACTOR to resubmit said claim of services for payment from the correct Program Amount, or COUNTY may make corrective accounting transactions to transfer the payment of the services to the appropriate Program Amount.

I. If COUNTY certifies payment at a lesser amount than the amount requested COUNTY shall immediately notify the CONTRACTOR in writing of such certification and shall specify the reason for it. If the CONTRACTOR desires to contest the certification, the CONTRACTOR must submit a written notice of protest to the COUNTY within twenty (20) calendar days after the CONTRACTOR'S receipt of the COUNTY notice. The parties shall thereafter promptly meet to review the dispute and resolve it on a mutually acceptable basis. No court action may be taken on such a dispute until the parties have met and attempted to resolve the dispute in person.

V. MAXIMUM OBLIGATION OF COUNTY

A. Subject to the limitations set forth herein, COUNTY shall pay to CONTRACTOR during the term of this Agreement a maximum amount of **$4,742,130** for services rendered under this Agreement.

B. Maximum Annual Liability:

FISCAL YEAR LIABILITY	AMOUNT
July 1, 2023 - June 30, 2024	$4,742,130
TOTAL MAXIMUM LIABILITY	**$4,742,130**

C. If, as of the date of signing this Agreement, CONTRACTOR has already received payment from COUNTY for services rendered under this Agreement, such amount shall be deemed to have been paid out under this Agreement and shall be counted towards COUNTY'S maximum liability under this Agreement.

D. If for any reason this Agreement is canceled, COUNTY'S maximum liability shall be the total utilization to the date of cancellation not to exceed the maximum amount listed above.

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

E. As an exception to Section D. above with respect to the Survival of Obligations after Termination, COUNTY, any payer, and CONTRACTOR shall continue to remain obligated under this Agreement with regard to payment for services required to be rendered after termination.

VI. BILLING AND PAYMENT LIMITATIONS

A. Provisional Payments: COUNTY payments to CONTRACTOR for performance of eligible services hereunder are provisional until the completion of all settlement activities and audits, as such payments are subject to future Federal, State and/or COUNTY adjustments. COUNTY adjustments to provisional payments to CONTRACTOR may be based upon COUNTY'S claims processing information system data, State adjudication of Medi-Cal claims files, contractual limitations of this Agreement, annual cost and MHSA reports, application of various Federal, State, and/or COUNTY reimbursement limitations, application of any Federal, State, and/or COUNTY policies, procedures and regulations, and/or Federal, State, or COUNTY audits, all of which take precedence over monthly claim reimbursements.

B. Allowable Costs: Allowable costs shall be the CONTRACTOR'S actual costs of developing, supervising and delivering the services under this Agreement, as set forth in the Budget provided in Exhibit H and 2 C.F.R. § 230. Only the costs listed in Exhibit H of this Agreement as contract expenses may be claimed as allowable costs. Any dispute over whether costs are allowable shall be resolved in accordance with the provisions of applicable Federal, State and COUNTY regulations.

C. Cost Control: CONTRACTOR shall not exceed by more than twenty (20%) percent any contract expense line item amount in the budget without the written approval of COUNTY, given by and through the Contract Administrator or Contract Administrator's designee. CONTRACTOR shall submit an amended budget using Exhibit H, or on a format as required by the COUNTY, with its request for such approval. Such approval shall not permit CONTRACTOR to receive more than the maximum total amount payable under this Agreement. Therefore, an increase in one line item shall require corresponding decreases in other line items.

D. Other Limitations for Certain Funded Programs: In addition to all other limitations provided in this Agreement, reimbursement for services rendered under certain Funded Programs may be further limited by rules, regulations and procedures applicable only to that Funded Program. CONTRACTOR shall be familiar with said rules, regulations and procedures and submit all claims in accordance therewith.

E. Adjustment of Claims Based on Other Data and Information: The COUNTY shall have the right to adjust claims based upon data and information that may include, but are not limited to, COUNTY'S claims processing information system reports, remittance advices, State adjudication of Medi-Cal claims, and billing system data.

A. This Agreement shall be subject to any restrictions, limitations, or conditions imposed by State which may in any way affect the provisions or funding of this Agreement, including, but not limited to, those contained in State's Budget Act.

B. This Agreement shall also be subject to any additional restrictions, limitations, or conditions imposed by the Federal government which may in any way affect the provisions or funding of this Agreement.

C. In the event that the COUNTY'S Board of Supervisors adopts, in any fiscal year, a COUNTY Budget which provides for reductions in COUNTY Agreements, the COUNTY reserves the right to unilaterally reduce its payment obligation under this Agreement to implement such Board reductions for that fiscal year and any subsequent fiscal year during the term of this Agreement, correspondingly. The COUNTY'S notice to the CONTRACTOR regarding said reduction in payment obligation shall be provided within thirty (30) calendar days of the Board's approval of such action.

D. Notwithstanding any other provision of this Agreement, COUNTY shall not be obligated for CONTRACTOR'S performance hereunder or by any provision of this Agreement during any of COUNTY'S current or future fiscal year(s) unless and until COUNTY'S Board of Supervisors appropriates funds for this Agreement in COUNTY'S Budget for each such fiscal year. In the event funds are not appropriated for this Agreement, then this Agreement shall terminate as of June 30 of the last fiscal year for which funds were appropriated. COUNTY shall notify CONTRACTOR of any such non-appropriation of funds at the earliest possible date and the services to be provided by the CONTRACTOR under this Agreement shall also be reduced or terminated.

VIII. BILLING PROCEDURES AND LIMITATIONS ON COUNTY'S FINANCIAL RESPONSIBILITY FOR PAYMENT OF SERVICES UNDER FEDERAL SOCIAL SECURITY ACT, TITLE XIX SHORT-DOYLE/MEDI-CAL SERVICES AND/OR TITLE XXI HEALTHY FAMILIES

The Short-Doyle/Medi-Cal (SD/MC) claims processing system enables California county Mental Health Plans (MHPs) to obtain reimbursement of Federal funds for medically necessary specialty mental health services provided to Medi-Cal-eligible beneficiaries diagnosed as Seriously Emotionally Disturbed (SED). The Mental Health Medi-Cal program oversees the SD/MC claims processing system. Authority for the Mental Health Medi-Cal program is governed by Federal and California statutes.

CONTRACTOR acknowledges and agrees that COUNTY'S final payment for services and activities claimed by CONTRACTOR Short-Doyle/Medi-Cal services is contingent upon reimbursement from the Federal and State governments and that COUNTY'S provisional payment for said services does not render COUNTY in any way responsible for payment of, or liable for, CONTRACTOR'S claims for payment for these services.

F. CONTRACTOR'S ability to retain payment for such services and/or activities is entirely dependent upon CONTRACTOR'S compliance with all laws and regulations related to same.

G. Notwithstanding any other provision of this Agreement, CONTRACTOR shall hold COUNTY harmless from and against any loss to CONTRACTOR resulting from the denial or disallowance of claim(s) for or any audit disallowances related to said services, including any State approved Title XIX Short-Doyle/Medi-Cal and/or Medi-Cal Administrative Activities, , by the Federal, State or COUNTY governments, or other applicable payer source, unless the denial or disallowance was due to the fault of the COUNTY.

Such demand for repayment and CONTRACTOR'S repayment shall be in accordance with Exhibit I, Section IV (Method of Payments for Amounts Due to County) of this Agreement.

J. CONTRACTOR shall comply with all written instructions provided to CONTRACTOR by the COUNTY, State or other applicable payer source regarding claiming and documentation.

2. A report by COUNTY to State of all such non-reported revenue including any such unreported revenue paid by any sources for or on behalf of Medi-Cal beneficiaries and/or COUNTY'S revision of the Annual Report(s).

E. Cash Flow Advance (CFA) Invoice. For each month for which CONTRACTOR is eligible to request and receive a CFA, CONTRACTOR must submit to the COUNTY an invoice of a CFA in a format that is in compliance with the funding source and the amount of CFA CONTRACTOR is requesting. EXHIBIT E:
ASSURANCE OF COMPLIANCE WITH
MONTEREY COUNTY'S CULTURAL COMPETENCY POLICY

In a culturally competent system, each provider organization shows respect for and responds to individual differences and special needs. Services are provided in the appropriate cultural context and without discrimination related to race, national origin, income level, religion, gender, sexual orientation, age, or physical disability, to name a few. Culturally competent caregivers are aware of the impact of their own culture on their relationships with consumers/families and know about and respect cultural and ethnic differences. They adapt their skills to meet each individual's/family's values and customs. Cultural competence is a developmental and dynamic process – one that occurs over time.

Organizations in a Culturally Competent Service System Promote:

Quality Improvement
- Continuous evaluation and quality improvement
- Supporting evidence-based, promising, community defined, and emerging practices that are congruent with ethnic/racial/linguistic group belief systems, cultural values and help-seeking behaviors.

Collaboration
- Collaborating with Behavioral Health and other community programs
- Resolving barriers to partnerships with other service providers

Access
- Providing new services to unserved and underserved children, youth, adults and/or older adults
- Reducing disparities in access to, and retention in, care as identified in the Mental Health Services Act Plan
- Ensuring representation of mental health services consumers, family members of a mental health services consumer, and/or representatives from unserved communities on their advisory/governance body or committee for development of service delivery and evaluation (with a minimum target of 40%).
- Developing recruitment, hiring, and retention plans that are reflective of the population focus, communities' ethnic, racial, and linguistic populations.

Cultural Competent Services:

- Are available, accessible and welcoming to all clients regardless of race, ethnicity, language, age, and sexual orientation.
- Provide a physical environment that is friendly, respectful and inclusive of all cultures.
- Provide information, resources and reading materials in multilingual formats.
- Promote and foment culturally accepted social interactions, respect and healthy behaviors within the family constellation and service delivery system.

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

- Provide options for services, which are consistent with the client's beliefs, values, healing traditions, including individual preferences for alternative, spiritual and/or holistic approaches to health.
- Offer services in unserved and underserved communities.
- Have services available in the evening and on weekends to ensure maximum accessibility.
- Offer services in Spanish and other necessary languages (such as Tagalog, Vietnamese, Oaxacan, Trique and other languages spoken of Monterey County residents).

Definitions for Cultural Competency

"Cultural Competence" is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers, family members, and professionals that enables that system, agency, or those professionals and consumers, and family member providers to work effectively in cross-cultural situations.
(Adapted from Cross, et al., 1989; cited in DMH Information Notice No.02-03).

"Cultural Competence" is a means to eliminating cultural, racial and ethnic disparities. Cultural Competence enhances the ability of the whole system to incorporate the languages, cultures, beliefs and practices of its clients into the service. In this way all clients benefit from services that address their needs from the foundation of their own culture. Strategies for elimination of these disparities must be developed and implemented. Cultural Competence must be supported at all levels of the system.
(CMHDA Framework for Eliminating Cultural, Linguistic, Racial and Ethnic Behavioral Health Disparities)

[Cultural Competency] A set of congruent behaviors, attitudes, and policies that come together in a system, agency or amongst professionals and consumers and enables that system, agency or those professionals and consumers to work effectively in cross-cultural situations.
(Cross, Bazron, Dennis & Issacs, 1989)

The ability to work effectively with culturally diverse clients and communities.
(Randall David, 1994)

CONTRACTOR hereby agrees that it will comply with the principles and guidelines set forth in Monterey County's Health Department – Behavioral Health's Cultural Competency Policy (as outlined above), and will:

1. Develop organizational capacity to provide services in a culturally and linguistically competent manner. This may include: hiring staff with the linguistic capabilities needed to meet the diverse language needs in Monterey County (for example, Spanish, Tagalog, Vietnamese, Oaxacan, Trique, American Sign Language (ASL), Middle Eastern languages); providing staff with training in cultural competency; making services accessible at locations and times that minimize access barriers, and ensuring that staff have an open, welcoming and positive attitude and feel comfortable working with diverse cultures.

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

2. Create a physical environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: decorating waiting and treatment areas with pictures that reflect the diverse cultures of Monterey County; providing reading materials, resources and magazines in varied languages, at appropriate reading levels and suitable for different age groups, including children and youth; consideration of cultural differences and preferences when offering refreshments; ensuring that any pictures, symbols or materials on display are not unintentionally disrespectful to another culture.

3. Provide a services delivery environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: respect for individual preferences for alternative, spiritual and/or holistic approaches to health; a reception staff that is competent in the different languages spoken by consumers/families; staff that is knowledgeable of cultural and ethnic differences and needs, and is able and willing to respond an appropriate and respectful manner.

4. Support the county's goal to reduce disparities to care by increasing access and retention while decreasing barriers to services by unserved and underserved communities.

5. Include the voice of multi-cultural youth, client and family members, including: monolingual and bilingual clients and family members and representatives from unserved and underserved communities, in the advisory/governance body or committee for development of service delivery, planning and evaluation (County Goal: 40%).

6. Participate in outcome evaluation activities aimed at assessing individual organizations as well as countywide cultural competency in providing mental health services.

7. As requested, meet with the Monterey County Health Department - Behavioral Health Director or designee to monitor progress and outcomes of the project.

8. Ensure that 100% of staff, over a 3 year period, participate in cultural competency training including, but not limited to, those offered by Monterey County Behavioral Health.

Dissemination of these Provisions. CONTRACTOR shall inform all its officers, employees, agents, and subcontractors providing services hereunder of these provisions.

By my signature below, as the authorized representative of the CONTRACTOR named below, I certify acceptance and understanding for myself and the CONTRACTOR of the above provisions.

providing notification of such Breach to the affected individual(s), the appropriate government agencies, and other persons required by law to be notified. Business Associate shall assist with any notifications, as requested by Covered Entity. Business Associate shall take prompt corrective action, including any action required by applicable State or federal laws and regulations relating to such Security Incident or non- permitted access, acquisition, Use, or Disclosure. Business Associate shall reimburse Covered Entity for its reasonable costs and expenses in providing notification to affected individuals, appropriate government agencies, and any other persons required by law to be notified (e.g., without limitation, the media or consumer reporting agencies), including, but not limited to, any administrative costs associated with providing notice, printing and mailing costs, public relations costs, attorney fees, and costs of mitigating the harm (which may include the costs of obtaining up to one (1) year of credit monitoring services and identity theft insurance) for affected individuals whose PHI or other PII has or may have been compromised as a result of the Breach;

(b) Implement appropriate administrative, physical, and technical safeguards and comply with the Security Rule and industry best practices to prevent Use and/or Disclosure of EPHI other than as provided for by this BAA;

(c) Obtain and maintain a written agreement with each of its Subcontractors that creates, receives, maintains, or transmits PHI that requires each such Subcontractor to adhere to restrictions and conditions that are at least as restrictive as those that apply to Business Associate pursuant to this BAA. Upon request, Business Associate shall provide Covered Entity with copies of its written agreements with such Subcontractors;

(d) Make available all internal practices, records, books, agreements, policies and procedures and PHI relating to the Use and/or Disclosure of PHI received from, created, maintained, or transmitted by Business Associate on behalf of Covered Entity to the Secretary of the Department of Health and Human Services ("Secretary") in a time and manner designated by the Secretary for purposes of determining Covered Entity's or Business Associate's compliance with HIPAA. Business Associate shall immediately notify Covered Entity of any such requests by the Secretary and, upon Covered Entity's request, provide Covered Entity with any copies of documents Business Associate provided to the Secretary. In addition, Business Associate shall promptly make available to Covered Entity such practices, records, books, agreements, policies and procedures relating to the Use and Disclosure of PHI for purposes of determining whether Business Associate has complied with this BAA or maintains adequate security safeguards, upon reasonable request by Covered Entity. The fact that Covered Entity has the right to inspect, inspects, or fails to inspect Business Associate's internal practices, records, books, agreements, policies and procedures does not relieve Business Associate of its responsibility to comply with this BAA, regardless of whether Covered Entity detects or fails to detect a violation by Business Associate, nor does it constitute Covered Entity's acceptance of such practices or waiver of Covered Entity's rights under this BAA;

(e) Document Disclosures of PHI and information related to such Disclosure and, within twenty (20) days of receiving a written request from Covered Entity, provide to Covered Entity such information as is requested by Covered Entity to permit Covered Entity to respond to a request by an individual for an accounting of the Disclosures of the individual's PHI

At a minimum, the Business Associate shall provide Covered Entity with the following information: (i) the date of the Disclosure; (ii) the name of the entity or person who received the PHI, and if known, the address of such entity or person; (iii) a brief description of the PHI Disclosed; and (iv) a brief statement of the purpose of such Disclosure which includes an explanation of the basis for such Disclosure. In the event the request for an accounting is delivered directly to the Business Associate, the Business Associate shall, within ten (10) days, forward such request to Covered Entity. The Business Associate shall implement an appropriate recordkeeping process to enable it to comply with the requirements of this Section;

(f) Subject to Section 4.4 below, return to Covered Entity in a mutually agreeable format and medium, or destroy, within thirty (30) days of the termination of this BAA, the PHI in its possession and retain no copies, including backup copies;

(g) Use, Disclose to its Subcontractors or other third parties, and request from Covered Entity, only the minimum PHI necessary to perform or fulfill a specific function required or permitted hereunder;

(h) If all or any portion of the PHI is maintained in a Designated Record Set:

(i) Upon ten (10) days' prior written request from Covered Entity, provide access to the PHI to Covered Entity, or to the individual, if so directed by Covered Entity, to meet a request by an individual under 45 C.F.R. § 164.524 or California Confidentiality Laws. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for access to PHI from an individual; and

(ii) Upon ten (10) days' prior written request from Covered Entity, make any amendment(s) to the PHI that Covered Entity directs pursuant to 45 C.F.R. § 164.526. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for amendment of PHI from an individual;

(i) If applicable, maintain policies and procedures to detect and prevent identity theft in connection with the provision of the Services, to the extent required to comply with the Red Flag Rules;

(j) To the extent that Business Associate carries out one or more of Covered Entity's obligations under the Privacy Rule, Business Associate shall comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligations;

(k) Unless prohibited by law, notify Covered Entity as soon as possible and in no case later than five (5) days after the Business Associate's receipt of any request or subpoena for PHI. To the extent that Covered Entity decides to assume responsibility for challenging the validity of such request, the Business Associate shall cooperate fully with Covered Entity in such challenge; and

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

(l) Maintain policies and procedures materially in accordance with HIPAA and California Confidentiality Laws and industry standards designed to ensure the confidentiality, availability, and integrity of Covered Entity's data and protect against threats or vulnerabilities to such data.

3.2 Business Associate Acknowledgment.

(a) Business Associate acknowledges that, as between the Business Associate and Covered Entity, all PHI shall be and remain the sole property of Covered Entity.

(b) Business Associate is not permitted to Use PHI to create de- identified information except as approved in writing by Covered Entity.

(c) Business Associate further acknowledges that it is obligated by law to comply, and represents and warrants that it shall comply, with HIPAA. Business Associate shall comply with all California Confidentiality Laws, to the extent that such state laws are not preempted by HIPAA.

(d) Business Associate further acknowledges that Uses and Disclosures of PHI must be consistent with Covered Entity's privacy practices, as stated in Covered Entity's Notice of Privacy Practices. The current Notice of Privacy Practices can be retrieved online from the Covered Entity's webpage. Business Associate agrees to review the Notice of Privacy Practices at this URL at least once annually while doing business with Covered Entity to ensure it remains updated on any changes to the Notice of Privacy Practices Covered Entity may make.

3.3 Responsibilities of Covered Entity. Covered Entity shall notify Business Associate of any (i) changes in, or withdrawal of, the authorization of an individual regarding the Use or Disclosure of PHI provided to Covered Entity pursuant to 45 C.F.R. § 164.508, to the extent that such changes may affect Business Associate's Use or Disclosure of PHI; or (ii) restrictions on Use and/or Disclosure of PHI as provided for in 45 C.F.R. § 164.522 agreed to by Covered Entity, to the extent that such restriction may affect Business Associate's Use or Disclosure of PHI.

4. TERM AND TERMINATION

4.1 Term. This BAA shall become effective on the Effective Date and shall continue in effect until all of the PHI provided by Covered Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity, or if it is infeasible to return or destroy PHI, protections are extended to such PHI, in accordance with the termination provisions in Section 4.4. Certain provisions and requirements of this BAA shall survive its expiration or other termination as set forth in Section 5 herein.

4.2 Termination. If Covered Entity determines in good faith that Business Associate has breached a material term of this BAA, Covered Entity may either: (i) immediately terminate this BAA and any underlying Services Agreement without penalty; or (ii) terminate this BAA and any underlying Services Agreement within thirty (30) days of Business Associate's receipt of written notice of such breach, if the breach is not cured to the satisfaction of Covered Entity.

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

4.3 **Automatic Termination**. This BAA shall automatically terminate without any further action of the Parties upon the termination or expiration of all Services Agreements between Covered Entity and Business Associate that would necessitate having this BAA in place.

4.4 **Effect of Termination**. Upon termination or expiration of this BAA for any reason, Business Associate shall return or destroy all PHI pursuant to 45 C.F.R. § 164.504(e)(2)(ii)(J) if, and to the extent that, it is feasible to do so. Prior to returning or destroying the PHI, Business Associate shall recover any PHI in the possession of its Subcontractors. Business Associate shall certify in writing that all PHI has been returned or securely destroyed, and no copies retained, upon Covered Entity's request. To the extent it is not feasible for Business Associate to return or destroy any portion of the PHI, Business Associate shall notify Covered Entity in writing of the condition that makes return or destruction infeasible. If Covered Entity agrees that return or destruction of the PHI is infeasible, as determined in its sole discretion, Business Associate shall: (i) retain only that PHI which is infeasible to return or destroy; (ii) return to Covered Entity the remaining PHI that the Business Associate maintains in any form; (iii) continue to extend the protections of this BAA to the PHI for as long as Business Associate retains PHI; (iv) limit further Uses and Disclosures of such PHI to those purposes that make the return or destruction of the PHI not feasible and subject to the same conditions as set out in Sections 2 and 3 above, which applied prior to termination; and (v) return to Covered Entity the PHI retained by Business Associate when such return is no longer infeasible.

5. MISCELLANEOUS

5.1 **Survival**. The obligations of Business Associate under the provisions of Sections 3.1, 3.2, and 4.4 and Article 5 shall survive termination of this BAA until such time as all PHI is returned to Covered Entity or destroyed.

5.2 **Amendments: Waiver**. This BAA may not be modified or amended, except in a writing duly signed by authorized representatives of the Parties. To the extent that any relevant provision of HIPAA or California Confidentiality Laws is materially amended in a manner that changes the obligations of the Parties, the Parties agree to negotiate in good faith appropriate amendment(s) to this BAA to give effect to the revised obligations. Further, no provision of this BAA shall be waived, except in a writing duly signed by authorized representatives of the Parties. A waiver with respect to one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

5.3 **No Third Party Beneficiaries**. Nothing express or implied in this BAA is intended to confer, nor shall anything herein confer, upon any person other than the Parties and the respective successors or assigns of the Parties, any rights, remedies, obligations, or liabilities whatsoever.

5.4 **Notices**. Any notices to be given hereunder to a Party shall be made via U.S. Mail or express courier to such Party's address given below, and/or via facsimile or email to the facsimile telephone numbers or email addresses listed below.

5.6 Relationship of Parties. Notwithstanding anything to the contrary in the Services Agreement, Business Associate is an independent contractor and not an agent of Covered Entity under this BAA. Business Associate has the sole right and obligation to supervise, manage, contract, direct, procure, perform, or cause to be performed all Business Associate obligations under this BAA.

5.7 Choice of Law; Interpretation. This BAA shall be governed by the laws of the State of California. Any ambiguities in this BAA shall be resolved in a manner that allows Covered Entity and Business Associate to comply with HIPAA and the California Confidentiality Laws.

5.8 Indemnification. intent of the Parties to provide the broadest possible indemnification for the County. This provision is in addition to, and independent of, any indemnification provision in any Services Agreement between the Parties.

5.9 Applicability of Terms. This BAA applies to all present and future Services Agreements and business associate relationships, written or unwritten, formal or informal, in which Business Associate creates, receives, transmits, or maintains any PHI for or on behalf of Covered Entity in any form whatsoever. This BAA shall automatically be incorporated in all subsequent agreements between Business Associate and Covered Entity involving the Use or Disclosure of PHI whether or not specifically referenced therein. In the event of any conflict or inconsistency between a provision of this BAA and a provision of any other agreement between Business Associate and Covered Entity, the provision of this BAA shall control unless the provision in such other agreement establishes additional rights for Business Associate or additional duties for or restrictions on Business Associate with respect to PHI, in which case the provision of such other agreement will control.

5.10 Insurance. In addition to any general and/or professional liability insurance required of Business Associate under the Services Agreement, Business Associate agrees to obtain and maintain, at its sole expense, liability insurance on an occurrence basis, covering any and all claims, liabilities, demands, damages, losses, costs expenses, fines, and compliance costs arising from a breach of the obligations of Business Associate, its officers, employees, agents and Subcontractors under this BAA. Without limiting the foregoing, at a minimum, Business Associate's required insurance under this Section shall include cyber liability insurance covering breach notification expenses, network security and privacy liability, with limits of not less than **$2,000,000** per claim and in the aggregate. Such insurance coverage will be maintained for the term of this BAA, and a copy of such policy or a certificate evidencing the policy shall be provided to Covered Entity at Covered Entity's request.

Promptly, but no later than five (5) calendar days after notice thereof, Business Associate shall advise Covered Entity of any actual or potential action, proceeding, regulatory or governmental orders or actions, or any material threat thereof that becomes known to it that may affect the interests of Covered Entity or jeopardize this BAA, and of any facts and circumstances that may be pertinent to the prosecution or defense of any such actual or potential legal action or proceeding, except to the extent prohibited by law. This includes, without limitation, any allegation that Business Associate has violated HIPAA or other federal or state privacy or security laws.

5.12 Audit or Investigations. Promptly, but no later than five (5) calendar days after notice thereof, Business Associate shall advise Covered Entity of any audit, compliance review, or complaint investigation by the Secretary or other state or federal agency related to compliance with HIPAA or the California Confidentiality Laws.

5.13 Assistance in Litigation or Administrative Proceedings. Business Associate shall make itself, and any Subcontractors, employees, or agents assisting Business Associate in the performance of its obligations under any Services Agreements, available to Covered Entity, at no cost to Covered Entity, to testify in any claim commenced against Covered Entity, its directors,

5.14 No Offshore Work. In performing the Services for, or on behalf of, Covered Entity, Business Associate shall not, and shall not permit any of its Subcontractors, to transmit or make available any PHI to any entity or individual outside the United States without the prior written consent of Covered Entity.

5.15 Information Blocking Rules. Business Associate shall not take any action, or refuse to take any action, with regard to Covered Entity's electronic health information that would result in "information blocking" as prohibited by 42 U.S.C. § 300jj-52 and 45 C.F.R. Part 171 (collectively, "Information Blocking Rules"). Business Associate and Covered Entity shall cooperate in good faith to ensure Covered Entity's electronic health information is accessed, exchanged, and used in compliance with the Information Blocking Rules.

I. AUDITS AND AUDIT APPEALS

A. At any time during the term of this Agreement or after the expiration or termination of this Agreement, in accordance with Federal and State law including but not limited to the California Welfare and Institutions Code (WIC) Sections 14170 et seq., authorized representatives from the Federal governments, State or COUNTY may conduct an audit of CONTRACTOR regarding the services/activities provided under the fiscal year(s) for which the audit is outstanding. In addition, contract compliance audits or reviews may be conducted by the County of Monterey Auditor-Controller's Office or designated representative. Furthermore, the California State Controller Office performs audits of the mandated cost claims for the seriously emotionally disturbed pupils for the Out-of-State Mental Health Services Program and Handicapped and Disabled Students Programs. The Centers for Medicare and Medicaid Services (CMS) also perform audits of the Certified Public Expenditure (CPE) processes, negotiated rate audit information, and other issues.

B. Settlement of audit findings shall be conducted according to the auditing party's procedures in place at the time of the audit.

C. In the case of a Federal Government or State audit, COUNTY may perform a post-audit based on Federal or State audit findings. Such post-audit shall take place when the Federal Government or State initiates its settlement action, which customarily is after the issuance of the audit report by the Federal Government or State and before the Federal Government or State's audit appeal process.

   1. If the Federal Government or State stays its collection of any amounts due or payable because of the audit findings, COUNTY shall also stay its settlement of the same amounts due or payable until the responsible auditing party initiates its settlement action with COUNTY.

   2. COUNTY shall follow all applicable Federal, State and local laws, regulations manuals, guidelines and directives in recovering from CONTRACTOR any amount due to the COUNTY.

   3. COUNTY shall issue an invoice to CONTRACTOR for any amount due to the COUNTY no later than ninety (90) calendar days after the Federal or State issues its audit settlement letter to the COUNTY. CONTRACTOR shall make payment to the COUNTY in accordance with the terms of Section IV (Method of Payments for Amounts Due to COUNTY) of this Exhibit I. Said payment shall be submitted to the person and at the address identified in the COUNTY invoice.

D. CONTRACTOR may appeal any such audit findings in accordance with the audit appeal process established by the party performing the audit.

DocuSign Envelope ID: B692E60C-B9BF-43B4-A655-133AD37C53E9

1. For Federal audit exceptions, Federal audit appeal processes shall be followed.

2. CONTRACTOR may appeal the State audit findings in conformance with provisions of Sections 51016 et seq. of Title 22 of the California Code of Regulations. Such appeals must be filed through COUNTY. COUNTY shall notify CONTRACTOR of State appeal deadlines after COUNTY'S receipt from State of the audit report.

3. If at any time the Appeal process results in a revision to the audit findings, and the Federal Government or State recalculates the final settlement with COUNTY, COUNTY may perform a post-audit based on the Federal or State revised findings after the Federal Government or State has issued its revised settlement with the COUNTY, based on such re-computed final settlement.

    a. If the re-computed final settlement results in amounts due to CONTRACTOR by the COUNTY, COUNTY shall make such payments to CONTRACTOR within thirty (30) calendar days of issuing the revised settlement amount to the CONTRACTOR.
    b. If the re-computed final settlement results in amounts due from CONTRACTOR to the COUNTY, CONTRACTOR shall make payment to the COUNTY within thirty (30) days that the COUNTY issues its invoice to the CONTRACTOR.

E. Not withstanding any other provisions of this Agreement, if CONTRACTOR appeals any audit report, the appeal shall not prevent the COUNTY from recovering from CONTRACTOR any amount owed by CONTRACTOR that the Federal Government or State has recovered from COUNTY.

F. Should the auditing party be the COUNTY, CONTRACTOR shall have thirty (30) calendar days from the date of the audit report with in which to file an appeal with COUNTY. The letter providing the CONTRACTOR with notice of the audit findings shall indicate the person(s) and address to which the appeal should be directed. COUNTY shall consider all information provided by CONTRACTOR with its appeal, and shall issue its decision on the appeal after such consideration. Such decision is final. Current Status: Criminal Justice - Consent
Matter Type: BoS Resolution

Approve and adopt a Resolution amending Article VII of the Monterey County Master Fee Resolution effective March 1, 2024, to add two new fees relating to oversight and services provided by the Sheriff's Office.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
Approve and adopt a Resolution amending Article VII of the Monterey County Master Fee Resolution effective March 1, 2024, to add two new fees relating to oversight and services provided by the Sheriff's Office.

SUMMARY/DISCUSSION:
The Monterey County Sheriff's Office (MCSO) is requesting approval to amend Article VII of the Monterey County Master Fee Resolution to add the Property and Evidence Administration Fees in pursuant to Penal Code Section 33880, effective March 1, 2024.

The Monterey County Sheriff's Office is authorized by California state law to charge a fee for the storage of firearms (33880 PC). MCSO is proposing a $250.00 initial fee for every firearm stored at the time the firearm(s) are received by the Sheriff's Office for a period of up 365 days. For every firearm not collected after the first 365 days, a daily assessment of $10.00 per day will be incurred. The proposed fees reflect no more than the actual, reasonable, fully loaded costs of the services provided.

Pursuant to California Penal Code 33850, a Law Enforcement Gun Release Application must be submitted to Cal DOJ and approved prior to the release of any firearms directly to owner. All firearms must be properly registered through Cal DOJ prior to release. Once the registered owner receives their Cal DOJ clearance and registration (if applicable), it is the owner's responsibility to contact the Property and Evidence Unit of the Monterey County Sheriff's Office to set up an appointment to release the firearms prior to the expiration of their thirty (30) day Cal DOJ Clearance. The Monterey County Sheriff's Office recognizes this is a complicated legal process and recommends each gun owner complete a thorough review of the state statue.

MCSO is not proposing any other increase to the existing fees in Article VII of the Monterey County Master Fee Resolution pending the hiring of a consultant who will perform a thorough study of the Fee Schedule.

The Monterey County Code Section 1.40.010 of Chapter 1.40 provides that all fees, penalties,

refunds, reimbursements, and charges of any kind by the County shall be specified in the Monterey County Fee Resolution. Article VII reflects the authorized fees of MCSO.

By definition, the changes to these charges are not a 'tax' and are exempt from voter approval pursuant to Article XIII C section 1(e)(1)-(3) and (5) of the California Constitution (Prop. 26; charges imposed for specific benefit conferred/privilege/service or product, reasonable regulatory costs provided or granted to the payor, and/or fines and/or penalties). As such, they reflect no more than the actual cost of the service/benefit received by the payor.

The proposed fee adjustments are attached as follows: Attachment A - Proposed Article VII Master Fee Schedule for Fiscal Year 2023-2024 (Exhibit A) on file with the Clerk of the Board, Attachment B - Current Article VII Redlines on file with the Clerk of the Board, Attachment C-Board Resolution on file with the Clerk of the Board.

OTHER AGENCY INVOLVEMENT:
County Counsel and County Administrative Office have reviewed the report.

FINANCING:
The recommended fee adjustments are intended to improve on the recapture of a portion of the costs associated with the provision of the indicated services, and do not exceed actual costs for providing these services. As such, the fees represent a charge imposed for the specific regulatory service provided directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the County for providing the regulatory service. Anticipated revenues resulting from the proposed fee adjustments were not included in the Sheriff's Fiscal Year 2023-2024 Adopted Budget and estimated additional revenue is unknown at this time. However, the proposed fee adjustments will partially offset actual expenditures incurred associated with the proposed fees. This action will have no immediate impact on the General Fund Contributions for these services.

Matter Type: BoS Agreement

a. Authorize the Contracts Purchasing Officer or their designee to execute a five year revenue generating Agreement (revenue generated goes to Inmate Welfare Fund and to pay Smart Communications Holding, Inc.) between the Sheriff's Office and Smart Communications Holding, Inc., based on the County's Request for Proposal (RFP) #10881 Telephone Services, Tablet Program, Video Visitation System for the Monterey County Sheriff's Office and County of Monterey Probation Department, to provide telephone and tablet services to incarcerated people within the County of Monterey Jail, effective upon execution for five (5) years from go live date; and
b. Authorize the Contracts Purchasing Officer or their designee to sign two (2) one (1) year amendments, where the scope of work does not significantly change.
c. Authorize the Contracts Purchasing Officer or their designee to amend the agreement as necessary in order to meet Federal Communication Commission (FCC) and California Public Utilities Commission (CPUC) guidelines.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
a. Authorize the Contracts Purchasing Officer or their designee to execute a five year revenue generating Agreement (revenue generated goes to Inmate Welfare Fund and to pay Smart Communications Holding, Inc.) between the Sheriff's Office and Smart Communications Holding, Inc., based on the County's Request for Proposal (RFP) #10881 Telephone Services, Tablet Program, Video Visitation System for the Monterey County Sheriff's Office and County of Monterey Probation Department, to provide telephone and tablet services to incarcerated people within the County of Monterey Jail, effective upon execution for five (5) years from go live date; and
b. Authorize the Contracts Purchasing Officer or their designee to sign two (2) one (1) year amendments, where the scope of work does not significantly change.
c. Authorize the Contracts Purchasing Officer or their designee to amend the agreement as necessary in order to meet Federal Communication Commission (FCC) and California Public Utilities Commission (CPUC) guidelines.

SUMMARY/DISCUSSION:
The Monterey County Probation Department (Probation) and Monterey County Sheriff's Office (MCSO) presently have a common vendor for incarcerated persons/youth telephone and tablet systems. A collaborative Request for Proposals (RFP) was completed to explore new options for incarcerated person/ward communications with their families and community, and for a comprehensive technology package.

The Monterey County Sheriff operates one local detention facility known as the Monterey County

Corrections facility or County Jail located in Salinas. The Monterey County Sheriff realizes the value of keeping families in communication with their incarcerated family members and pursued a review of options available to support and expand this communication.

Request for Proposals (RFP) #10881 required vendors to supply a "no cost to the County", turnkey solution. The RFP stated that all equipment provided, and any work done to install this equipment, and all maintenance, training, support, and equipment replacement was at vendor's expense. There was a Service Level Agreement included, with penalty assessments, binding the day-to-day performance of the system. The system needed to have multiple safety and security features and was required to interface with the Monterey County Sheriff commissary and Jail inmate systems. Smart Communications Holding, Inc., was selected.

This report is to ask the Board of Supervisor to approve the resulting contract from the Request for Proposal (RFP) #10881 for Telephone Service, Tablet Program and Video Visitation System for the Monterey County Sheriff's Office and Monterey County Probation Department. This Agreement is only for the Monterey County Sheriff's Office. The Probation Department will be doing their own agreement off RFP #10881.

The initial term of the agreement will be five (5) years from go live date (to allow time for implementation), with the option to extend for two (2) additional one (1) year periods.

OTHER AGENCY INVOLVEMENT:
The Office of County Counsel has reviewed and advised on this Agreement as to legal form. The Auditor-Controller has reviewed and approved the Agreement as to fiscal provisions. Contracts Purchasing prepared the Request for Proposals (RFP) and assisted with vendor meetings and walkthroughs. County Information Technology Department has reviewed the Agreement.

FINANCING:
This agreement is at no cost to the County General Fund. All revenue generated by this contract will go into the Inmate Welfare Fund (IWF), and subsequently used for inmate welfare programs, and to pay Smart Communications Holding, Inc. for the services. These funds are not used for general operational expenses of the Jail.

SAT shall submit a request for any absence (i.e.. Vacation, medical appointment, training, etc.) at least forty-eight (48) hours prior to Commander or Chief of Jail for approval. B.1 TELEPHONE SYSTEM , TABLETS/TABLET PROGRAM, VIDEO VISITATION SERVICES AND DEPOSIT KIOSKS

SERVICE LEVEL AGREEMENT

I. Definition of Service Level Agreement

A Service Level Agreement (SLA) is an agreement between the Agency(ies) (Sheriff's Office and/or Probation Department) and the Contractor to provide a service at a performance level that meets or exceeds the specified performance objective(s). The SLA lays out the metrics by which that service is measured, and the remedies or penalties, should the agreed-upon levels not be achieved. If the specified service levels are not met, then the Contractor is required to issue specified credits.

The Telephone Services, Youth Video Visitation System and Deposit Kiosks for Incarcerated Individuals and Youth contract has specific performance metrics, or Key Performance Indicators (KPIs) for services deemed sufficiently essential and would apply to each Agency's operations, and the Contractor must comply with those KPIs. For each KPI, the Contractor is required to meet the specified Acceptable Quality Levels (AQLs) when proven to be the Contractor is at fault.

II. Service

Table 1 lists each KPI and the performance level requested by each Agency. Performance is aggregate-based, meaning that the performance is to be measured at each Agency's hierarchy level (each Agency's billing organization) over a one-calendar-month period.

Table 1- Service-Specific SLAs

Service	KPI	Performance Standards/AQL
Implementation & Installation	Fully functional Telephone System, tested by Contractor in each Agency's facility. Each Agency will confirm to its satisfaction, that the Telephone System in its respective facilities is fully functional prior to each Agency's acceptance. III. Implementation & Installation Penalty

Potential Contractor shall provide each Agency with a separate and detailed Implementation Plan and Schedule. The installation shall include a separate user testing and acceptance provision for each Agency. Time is of the essence in providing a fully functional inmate phone system, and the Contractor is required to provide a fully functional system tested and accepted, by each Agency. Each Agency requires a thirty (30) to forty-five (45) - business day implementation schedule for each of its facility(ies). If the Contractor requires a longer implementation schedule, a mutually agreed-upon implementation will be established. Any failure to provide this service will incur a daily penalty of $1,000.00 after 90 days to the Agency affected, until fully implemented and functional.

Service Level Definition	The system infrastructure includes all file, database, web, imaging, application and support servers, SANs, storage devices, backup systems, kiosks and associated peripheral equipment necessary to process, store, and preserve electronic data and information. Availability means all components of the systems infrastructure are ready for use, accessible by users and customers, and are operational to perform their assigned function. Contractor shall ensure qualified technical staff are available both during normal business hours (08:00 AM – 5:00 PM Pacific Standard Time) and during non-business hours, excluding planned maintenance or previously scheduled maintenance periods. Contractor staff shall work with each Agency's staff to resolve unexpected issues which impede the ability to perform necessary and time-sensitive work
Service Measurement	Availability
Metric Description	The percent of availability of combined system infrastructure services. The system infrastructure elements are considered 100% available when they meet the requirements of the service level definition during designated required operational hours as determined by each Agency, which may differ by Agency. The metric used will be from 06:00 AM to 21:00 PM daily, 365 days per year. 100% Availability in minutes is calculated as 15 hours per day x 60 minutes per hour = 900 minutes uptime per day.
Metric Inclusions	Includes all servers/SANs/storage equipment/kiosks/peripheral equipment performing or supporting Automated Payment Services. All outages not included below in the Metric Exclusion category shall be considered unplanned and reported as such and shall reduce the percent availability. Degraded operations shall be reported as an individual category but shall be counted as non-availability.
Metric Exclusions	**Maintenance Period**: Agency's production and test systems maintenance period. Maintenance for each Agency's production and test systems should have no impact on the Contractor's system. **Planned Special Outages**: Outages for environmental or system changes that may impact system availability outside the maintenance period will be planned and announced in advance and agreed to by Agency involved. Special outages for applications and/or systems managed by the Contractor shall be coordinated by them in advance with the Agency involved.
Minimum Service Level Commitment	99.5% up time per day (equates to 4.30 minutes access not available/degraded per day)/kiosk
Target (Expected) Service Level Commitment	99.95% (equates to 27 seconds of access not available/degraded per day) per kiosk
Calculation	Daily % Availability Per Kiosk = (900 minutes – (Downtime or degradation of services in minutes and seconds) / 900) * 100 Daily % Availability Per Facility/Location = Sum of total up time minutes per each kiosk in a facility / 900 * total number of kiosks in a Facility/Location **Sample calculation**: Assume 50 Kiosks installed/operational – 1. Individual Kiosk Uptime: Assume uptime of 884.3 minutes for day measured **(884.3 / 900) * 100 = .9825 * 100 = 98.25%** 2. Facility/Location Daily uptime as follows: 30 Kiosks – 900 minutes, 10 Kiosks – 899 minutes, 9 kiosks – 895 minutes, and 1 Kiosk – 885 minutes **Daily Uptime = [[(30 * 900) + (10 * 899) + (9 * 895) + (1 * 885)] / (50 * 900)] * 100** **= [[27000 + 8990 + 8055 + 885] / 45000] *100** **= [44930/45000] * 100** **= .9984 * 100 = 99.84%**

INCARCERATED INDIVIDUAL/YOUTH TELEPHONE SERVICES - SERVICE LEVEL AGREEMENT

I. Definition of Service Level Agreement

A Service Level Agreement (SLA) is an agreement between the Agency(ies) (Sheriff's Office and/or Probation Department) and the Contractor to provide a service at a performance level that meets or exceeds the specified performance objective(s). The SLA lays out the metrics by which that service is measured, and the remedies or penalties, should the agreed-upon levels not be achieved. If the specified service levels are not met, then the Contractor is required to issue specified credits. The Telephone Services for Incarcerated Individuals and Youth contract has specific performance metrics, or Key Performance Indicators (KPIs) for services deemed sufficiently essential and would apply to each Agency's operations, and the Contractor must comply with those KPIs. For each KPI, the Contractor is required to meet the specified Acceptable Quality Levels (AQLs).

II. Service

Table 1 lists each KPI and the performance level requested by each Agency. Performance is aggregate-based, meaning that the performance is to be measured at each Agency's hierarchy level (each Agency's billing organization) over a one-calendar-month period.

Table 1- Service-Specific SLAs

Service	KPI	Performance Standards/AQL
Implementation & Installation	Fully functional Telephone System, tested by Contractor in each Agency's facility. Each Agency will confirm to its satisfaction, that the Telephone System in its respective facilities is fully functional prior to each Agency's acceptance.	30 Business Days
Maintenance:		
Voice Services and Network Access/Transport Services	Availability Call Blockage, Dropped Calls	99.95% .07
Telephones	Operational, working telephones	100%
Management Reports:		
Monthly Project Reports, Monthly System Management Reports, and Year-End Summary Reports	One (1) soft copy of each of the Monthly Project Reports, Monthly System Management Reports, and Year-End Summary Reports corresponding to each Agency's Telephone Services shall be sent via Email to the respective Agency.	Written reports are due no later than 5:00 p.m. (PST) on the 5th business day of the month reporting on Incarcerated Individual and Youth Telephone System for the prior month. Year-End Summary Reports are due no later than 5:00 pm, on the fifth (5th) business day of the month following Agreement year-end, reporting on the Incarcerated Individual and Youth Telephone System for the subject Agreement year.

The installation shall include a separate user testing and acceptance provision for each Agency. Time is of the essence in providing a fully functional inmate phone system, and the Contractor is required to provide a fully functional system tested and accepted, by each Agency. Each Agency is requiring a thirty (30)-business day implementation schedule for each of it's facility(ies). Any failure to provide this service will incur a daily penalty of $6,720.00 to the Agency affected, until fully functional.

IV. Late Management Reports Penalty

There will be a Late Penalty of $ 100.00 per day for reports received late, unless prior approval for late delivery by potential Contractor has been granted by the Agency affected.

V. System Problems, Outages, and Other Deficiencies

The Service is unavailable during any period of time that it experiences a Service Outage, or other service-affecting Problem or Deficiency. Contractor shall issue credits for each Service Outage, Problem, or Deficiency to the Agency affected. Contractor shall pay the Agency the total amount of credit due to the Agency within thirty (30) days from the month Deficiencies occurred under the Agreement.

Reporting of all System problems, outages and other Deficiencies shall be handled through Contractor's Technical Support Center, which shall be accessible online, toll-free telephone and fax numbers, and Email. Calculation	Daily % Availability Per Kiosk = (900 minutes – (Downtime or degradation of services in minutes and seconds) / 900) * 100 Daily % Availability Per Facility/Location = Sum of total up time minutes per each kiosk in a facility / 900 * total number of kiosks in a Facility/Location **Sample calculation**: Assume 50 Kiosks installed/operational – 1. Individual Kiosk Uptime: Assume uptime of 884.3 minutes for day measured **(884.3 / 900) * 100 = .9825 * 100 = 98.25%** 2. Facility/Location Daily uptime as follows: 30 Kiosks – 900 minutes, 10 Kiosks – 899 minutes, 9 kiosks – 895 minutes, and 1 Kiosk – 885 minutes **Daily Uptime = [[(30 * 900) + (10 * 899) + (9 * 895) + (1 * 885)] / (50 * 900)] * 100** **= [[27000 + 8990 + 8055 + 885] / 45000] *100** **= [44930/45000] * 100** **= .9984 * 100 = 99.84%**

65. What limits does the County place, if any, on use of the services in this RFP –maximum number of onsite visits allowed per week (or other interval), remote visits per week, calls per week, minutes per call/visit, etc?

For the Sheriff's Office, there are no limits.

For the Probation Department Youth Center, there are no limits as to the number of calls, but there are limitations as to time periods during the day when the Probation Department permits the phone to be used. Generally, calls are limited to 15 minutes unless they are talking to their lawyer or no other youth wants to use the phone. For the Probation Department Juvenile Hall, there aren't set limits to the number of telephone calls a Youth can make. Depending on how many are trying to use the phone, the Probation Department tries to limit it to 5-10 minutes per phone call so everyone on the unit gets a chance - but if others don't want to they can stay on the phone for longer. There is typically about 4 hours a day of free time that all Youth on a housing unit must get their phone calls in.

66. Virtual Mailroom is a required service listed under #5.1.6.3. What is the average number of inmate mail pieces received daily? Of these, what percentage are legal mail?

DocuSign Envelope ID: 4A8E6851-FC00-4DA3-A920-24F40A0CCB04

For the Sheriff's Office, an average of 150 pieces of mail per week are received, and 15 of those pieces are legal mail.

For the Probation Department Youth Center, not a lot of mail is processed for Youth (not even 1 a day). An estimate of 1-3 letters a week are received for the Youth on average. Legal mail makes up less than 5% of that mail, as most of their legal business is conducted via phone or in person. For the Probation Department Juvenile Hall, anywhere between 5-10 pieces of mail are received per day. Less than 5% of the mail received is legal mail.

67. Historical calling data was furnished in the RFP #2.2.1. Will this historical data be used in the evaluation and assignment of points for calling rates? If not, please clarify and provide the estimated/projected call volumes that will be used in the evaluation and assignment of points for calling rates.

Section 2.2.1 contained historical data on call volumes for the Sheriff's Office, and was provided to assist bidders in preparing their proposals and offer. Responses to Question #9 and Question #10 provide data for March 2023, April 2023, and May 2023. Both of historical data provided in the RFP and historical data provided in this document were provided to assist in developing bidders' proposals and offers. Please refer to Section 10 of the RFP for the Selection Criteria for the evaluation details. The calculation of points related to the offer uses a standard, objective mathematical formula that factors in equal weights for commissions and rates/usage fees, and factors in each bidder's aggregate offer and the highest aggregate offer. The Sheriff's Office and the Probation Department will evaluate bidders' offers and select the best overall value and compliance with regulatory agencies (FCC, CPUC).

68. Of the points that will be awarded for "Offer" for each service, how many points will be allocated to rates, and how many will be allocated to commissions?

The calculation of points related to the offered commission versus rate/usage fees uses a standard, objective mathematical formula that factors in equal weights for commissions and rates/usage fees, and factors in each bidder's aggregate offer and the highest aggregate offer.

69. Please provide the quantities of standard wall-mounted inmate telephones currently installed. Specify the quantities of telephones required in this contract, if different than quantities currently installed.

Please refer to response in Question #26 for current telephones. The Bidders shall determine the optimal quantity of telephones to maximize benefits to the Incarcerated Individuals, Youth, and the respective agencies. The Bidders shall include in their proposals, the quantity of telephones proposed, the supporting documentation, technology, and justification and rationale for the proposed quantities of telephones.

70. Section 5.1.6.1 on p. 19 of the RFP states, "Contractor shall provide Intake/Booking Kiosks and Lobby Kiosks." We understand that deposit kiosks are provided as a required component of the commissary contract. Therefore, will the County accept proposals that offer to integrate with the existing kiosks rather than provide additional kiosks? If deposit kiosks are required, will deposit services be exclusive to this contract or shared with the commissary contract?

The Sheriff's Office will accept proposals that offer to integrate with existing kiosks. The Bidder proposing this may strategically partner with the existing kiosk service provider or another kiosk service provider if not partnering with existing kiosk service provider.

71. Some vendors provide alternate payment options, such as the ability to purchase a one-time phone call using a credit or debit card, without the necessity of setting up a prepaid account, and typically pay little to

DocuSign Envelope ID: 4A8E6851-FC00-4DA3-A920-24F40A0CCB04

no commission on these calls. Will the County please confirm that vendors are required to pay the same commission amount for all calls, including premium, prepaid, debit and collect?

It is up to the vendors to determine what and how they pay commission amounts in their offers as they see fit and appropriate for applicable calls, including premium, prepaid, debit, and collect as long as they are in regulatory compliance.

72. After the first round of questions is answered, will the County accept additional questions if clarification is needed for any of the County's responses?

Please see response to Question #41.

73. Within the evaluation criteria listed in Requirement 10.2 Selection Criteria, 30 percentage points are allocated for "Offer" within each category Telephone & Associated Services and Tablet Program and Tablets.
    - What is the distribution of points related to the offered commission versus rates/usage fees and how are these points calculated?

Please see response to Question #68.

74. With respect to the scoring criteria for Video Visitation System, will the "Offer" be part of the scoring criteria as it is for Telephone & Associated Services and Tablet Program and Tablets? If so, What is the distribution of points related to the offered commission versus Video Visitation costs to users and how are these points calculated?

Yes, the evaluation sub-category "Offer" is part of the scoring criteria as it is for Telephone & Associated Services and Tablet Program and Tablets. Please refer to responses to Item #6 and Question #68.

75. Can the County please provide the number of points available for each of the specific criteria listed in the table in Requirement 10.2 Selection Criteria? For example, there are a maximum of 30 points possible for "Telephone and Associated Services."
    - Please provide the breakdown of the 30 points possible for the (1) System Design, Features, Other Associated Services and Service Offerings, Technical and Integration Capabilities; (2) Project Management, Methodology and Support, Training, and Ongoing Services; and (3) Offer, and similarly for Tablet Program & Tablets and Video Visitation System.

The main categories Telephone and Associated Services, Tablet Program and Tablets, and Video Visitation System each carry 30 points. For each main category, the points are distributed equally at 10 points for each sub-category 1, 2, and 3 listed. For Telephone and Associated Services, the sub-categories (1) System Design, Features, Other Associated Services and Service Offerings, Technical and Integration Capabilities; (2) Project Management, Methodology and Support, Training, and Ongoing Services; and (3) Offer each carry 10 points. Similar distributions apply to the three sub-categories for the Tablet Program & Tablets and the Video Visitation System.

76. Page 45, Requirement 10.2 Selection Criteria states "NOTE: Per the Board approved ClimateFriendly Purchasing Policy, the Contracts/Purchasing office will include in the selection criteria "Climate-Friendly Business Practices which facilitate County's compliance with Climate-Friendly Purchasing Policy" and points will be awarded for 'Green Certified Businesses' as well as for climate-friendly business practices outlined in proposal which correlate with County's policy."
    - Can the County provide the points that will be awarded for Green Certified Businesses, and will there be a checklist provided or are bidders to simply list their own Green policies within Section 5 of our response?

DocuSign Envelope ID: 4A8E6851-FC00-4DA3-A920-24F40A0CCB04

Please refer to the "COUNTY OF MONTEREY CLIMATE-FRIENDLY PURCHASING POLICY" which is available on the County website, (https://www.co.monterey.ca.us/government/departments-a-h/administrative-office/contracts-purchasing/procurement-related-policies), paying attention to Sections II and IV, and the related link contained in Section II (www.ca-ilg.org/climatepractices) for applicable checklist. Bidders with current green certifications that demonstrate their technical knowledge and commitment to climate-friendly sustainability shall submit their green certifications with the proposal and may also include their own Green policies. The County will accept any of the Green Business certifications listed in the policy, as well as legitimate Green Business certifications, including legitimate certifications for climate-friendly business practices. The County will award two (2) points after final tabulation of evaluation scores to Green Certified Businesses with appropriate certification.

77. Can the County confirm how results of the RFP will be provided once evaluations are complete and the intent to award and/or award has been made?

    A short list will be determined based on evaluation of written proposals and bidder qualifications, and all bidders will be notified. After a bidder is selected from the short list subsequent to the short list vendor presentations, the successful bidder will be notified of award, as well as the other bidders.

78. Can vendors provide multiple rate/commission offers if our offers are clearly identified?

    Bidders/Vendors shall each submit one rate/commission offer in conjunction with their proposed design and overall proposal.

79. Section 18.0 RIGHTS TO PERTINENT MATERIALS - Section 18.0 conflicts with Section 8.4, Confidential or Proprietary Content. First, each section provides slightly different language to use when marking confidential/proprietary information. Second, Section 18.0 states that "The County will not disclose proprietary information to the public, unless required by law; however, the County cannot guarantee that such information will be held confidential." Section 8.4, however, states that the County will make best efforts to provide Contractor with notice of a CPRA request, but that to prevent disclosure, Contractor must obtain a protective order from the court or injunctive relief.
    - Requesting the County to clarify which Section applies to the RFP.

    There is no conflict between Section 18.0 Rights To Pertinent Material and Section 8.4 Confidential and Proprietary Content, and both sections apply to the RFP.

    Section 18.0 states that "Any proprietary information in the submittal must be identified as such and marked "CONFIDENTIAL INFORMATION" or "PROPRIETARY INFORMATION." Section 8.4 states that "If Contractor claims that specific information falls within one or more CPRA Exemptions, CONTRACTOR must clearly mark such information "CONFIDENTIAL AND PROPRIETARY," and identify the specific lines containing the information." The terms "CONFIDENTIAL INFORMATION, "PROPRIETARY INFORMATION," AND "CONFIDENTIAL AND PROPRIEATRY" are synonymous and shall be used interchangeably for purposes of the RFP.

    Section 18.0 provides more detail regarding the California Public Records Act (CPRA) than Section 8.4, which mentions CPRA and "other public transparency laws." Please refer to the CPRA for details. There are many sources to obtain the CPRA, and one source from the State of California, California Public Records Act | FTB.ca.gov, can be referenced.

80. Regarding Section 19.0 Piggyback Clause, this appears to be a yes or no question that Contractors need to respond to. What Section would our response to this question need to be provided in our proposal as listed in the outline in Requirement 8.2?

DocuSign Envelope ID: 4A8E6851-FC00-4DA3-A920-24F40A0CCB04

List of current and/or previous Sheriffs County Offices and Probation Departments in California each, including the ADP and contact information, that are currently using or have used the Proposer's services (Telephone System, Associated Services and Other Services; Tablet Program and Tablets; and Video Visitation System) – as indicated in Section 8.2.2.6.

85. During the Monterey County site visit, it was brought up that Attorney's shall be allowed to visit for free. Can the County confirm this is for public attorneys only?

Public attorneys and attorneys of record, including private attorneys, shall be allowed to visit for free.

86. Can the County please clarify the proposal layout instructions stated in 8.0 Proposal/Qualifications Package Requirements. The items listed in 8.2 do not have a corresponding section in the Chart that follows. Can the County clarify where in the proposal sections the items listed in 8.2 should be provided? For example, 8.2.1 Executive Summary is not listed in the Sections.

Amend RFP to revise the "Proposal or Qualifications Package Layout" in Section 8.0 to "Submission Package Layout" as follows:

87. Can the County please clarify Requirement 8.3 Additional Requirements that states, “To be considered “responsive” submitted proposal packages shall adhere to one of the two following options:”. There appears to be only one option for hardcopy and one electronic version to be submitted directly to the Contracts/Purchasing Office. Is this the only option for submittal or is there an upload possible in lieu of hard copies? If so, can you provide the upload instructions?

    The only option is what are described in Requirement 8.3 Additional Requirements of the RFP. The uploading mechanism for this and consequently the option to upload, no longer exists.

88. Can the County please clarify Requirement 8.3.5.1 that states, “PLEASE NOTE: To use this option, CONTRACTORs are required to set up a free account prior to uploading proposals. This will take a few moments; therefore, set up your account at least 24 hours in advance of the bid deadline.” Is there a website that we are required to be registered with and are uploaded proposals required?

89. As protest procedures are not stated in the RFP, will the County please confirm that the protest procedures found on the County Administrative Office Contracts/Purchasing page title, County Administrative Protest Policy, is the process the County will follow for this RFP should a protest be filed by a vendor.

    Protest procedures found on the County Administrative Office Contracts/Purchasing page title, County Administrative Protest Policy, is the process the County will follow for this RFP should a protest be filed by a vendor.

DocuSign Envelope ID: 4A8E6851-FC00-4DA3-A920-24F40A0CCB04

questions in time to accurately respond. This would ensure Monterey County receives the most comprehensive responses that bring the most benefit to the County, your incarcerated, and family/friends.

Please refer to Amendment 1, released June 30, 2023.

91. The instructions on p. 41 for proposal Section 6 say "CONTRACTOR shall submit pricing in a separate sheet." By this, does the County mean that we should submit pricing in a separate volume (not in Section 6), sealed separately from the rest of the proposal? Or do you just want us to submit pricing in Section 6 using the Attachment A Pricing Schedule?

Please refer to response to Question #86. Offer (Attachment A) in Section 6 of the Submission Layout Package will be submitted as a separate sheet.

92. Paragraph 8.3.5.1 on p. 43 says "To use this option, CONTRACTORs are required to set up a free account prior to uploading proposals." Is there an option to submit proposals electronically instead of shipping hard copies?

Please refer to response to Question #87.

COVER LETTER (INCLUDING CONTACT INFO)

July 31, 2023

Mr. Jaime Ayala, MA III
Contracts and Purchasing Department
1488 Schilling Place
Salinas, CA 93901

Dear Mr. Ayala:

Smart Communications is pleased to submit our proposal in response to RFP #10881, Telephone Services, Tablet Program, Video Visitation System for the Monterey County Sheriff's Office and Probation Department.

As corrections' most innovative privately held corporation for more than a decade, we have been driven by our passion for innovation, resulting in the development and successful patenting of multiple technologies and services that have transformed correctional facilities all over the country. In fact, many of the technologies and services that are now commonplace in corrections, such as incarcerated persons (IPs) messaging/e-mail, digital requests and grievances, and electronic postal delivery, were first designed and implemented by Smart Communications.

Our proposal is to provide the County with a comprehensive IPs and youth communications system package composed of our SmartEvo™ Inmate Telephone System (ITS), SmartVisit™ Video Visitation System (VVS), SmartInmate™ Electronic Messaging System, SmartEntertainment™ Streaming Media Platform, as well as multiple other value-added technologies, services and benefits at ***no cost***.

Our proposed communications package is unique in that all systems are fully integrated within our secure, web-based SmartEcosystem™ Dashboard, providing a single location for authorized staff to access all system administration, monitoring, reporting, data sharing and investigation tools. This will reduce the burden on staff, as they will not have to learn how to effectively administer multiple new systems simultaneously.

Facilities partner with us to ensure seamless, scalable growth through a single, intuitive and affordable platform. While all-inclusive technologies are important, we understand that the team who delivers that technology is equally important to your staff and command. Rest assured that you will be supported 24/7 by the best client services team in the business. As the long-term partner of choice, we innovate for and build to the evolving needs of corrections, while serving our clients and those assigned to their care.

The greatest evidence of a company's ability to provide successful integration, timely service delivery and a true partnership is best demonstrated by current utilization, client references and testimonials. Smart Communications' client footprint has grown organically since our formation in 2009, from one account to more than 150 facilities throughout 29 states. Please refer to "***Exhibit A: Confidential Client Partner List and Testimonials***," which provides point of contact information for all our client partners. We invite you to reach out to any of our clients as this will provide direct feedback on how their partnership with Smart Communications has benefited their staff, IPs and the communities they serve.

EXECUTIVE SUMMARY [8.2.1]

RESPONSE: Smart Communications is pleased to present our proposal in response to RFP #10881 for the provisioning of incarcerated persons (IPs) Telephone Services, Tablet Program, Video Visitation System for the Monterey County Sheriff's Office (MCSO).

Our firm is corrections' most innovative and fastest growing IP communication technology company. For more than a decade, we have been driven by our passion for innovation, resulting in the development and successful patenting of multiple technologies and services that have transformed correctional facilities all over the country. In fact, many of the technologies and services that are now commonplace in corrections, such as IP electronic postal delivery, IP messaging/e-mail and digital requests and grievances, were first designed and implemented by Smart Communications.

In 2009, we launched SmartInmate™, the world's first two-way electronic messaging system exclusively designed for correctional use. SmartInmate™ not only changed the corrections environment by giving IPs access to a faster, more affordable option to stay connected with family and friends, it also provided an entirely new intelligence source to help investigators prevent and solve crimes. A year later, we launched SmartRequest™, the industry's first digital request/grievance/medical platform and deployed the first facility-wide digital law library.

The experience gained by deploying these new technologies and working directly with our facility partners gave us insight into the many challenges faced by correctional institutions and how we could use our technological expertise to provide solutions to overcome them. This solution-based approach led directly to the development of our proprietary SmartEvo™ Inmate Telephone System (ITS), the intelligent SmartVisit™ Video Visitation System (VVS), our patented, industry first MailGuard® Postal Mail Elimination and MailGuardLegal® Privileged Mail Systems, and more.

Our proposal is to provide the MCSO with a comprehensive IP communications system package composed of our turn-key SmartEvo™ ITS, SmartVisit™ Video Visitation System (VVS), SmartInmate™ Electronic Messaging System, SmartEntertainment™ Streaming Media Platform, as well as the following value-added technologies, services and benefits at ***no cost***:

Current utilization, client references and testimonials are the most compelling indicators of a company's ability to deliver successful integration and prompt service as well as establish genuine partnerships. Smart Communications exemplifies these qualities through its remarkable growth over 13 years, organically expanding from a single account to encompassing more than 150 facilities across 29 states.

Our notable collaborations include institutions such as the Pennsylvania Department of Corrections, accommodating over 50,000 IPs, and the Federal Bureau of Prisons. For a comprehensive overview of our client partners and testimonials, please consult "***Exhibit A: Confidential Client Partner List and Testimonials***," which contains relevant contact information. We encourage you to directly engage with any of our clients to gain firsthand insights into the advantages they have experienced through their partnership with Smart Communications, benefiting their staff, IPs and the communities they serve.

A key factor contributing to our company's impressive growth and success is our bold approach to innovation. Millions of dollars of our revenues are invested in the research and development of new technologies designed to help IPs stay better connected with their loved ones as well as enhance facility safety and efficiency. Our engineering and software development teams are first to create the new technologies other corrections vendors try to duplicate. Moreover, we are proud to note that our vice-presidents of engineering/software development and network operations team introduced the first purpose-built IP Phone Control System (IPCS) in 1986 and the first Voice-over-Internet-Protocol (VoIP) IPCS in 2000. As such, critical elements of our SmartEvo™ ITS have over 30 years of experience and deployments in correctional institutions of all sizes, both domestically and abroad.

In contrast to vendors that are owned and controlled by private equity funds, Smart Communications stands as a privately owned company and is not for sale. Our dedicated executives and exceptional team of employees are personally invested in the company's success and committed for the long haul. We take pride in the fact that all our technologies and services are developed, managed, supported and enhanced internally. This approach guarantees the needs and interests of our valued client partners are prioritized, ensuring they receive the swiftest and most superior level of service and support possible.

At Smart Communications, we uphold exceptional standards in all aspects of our operations. This encompasses the way we value our employees, our commitment to ethical and legal business practices, and most importantly, our dedication to serving our client partners. We take pride in maintaining an untarnished reputation. Unlike our competitors, we have never experienced security breaches compromising data, engaged in illegal recording of attorney calls, misused call recipient cell phone location technology, faced multiple class action lawsuits, or incurred fines from regulatory agencies.

Another benefit of partnering with Smart Communications, is that the MCSO will be among the first agencies to have the opportunity to utilize our latest innovation – the SmartWatch™.

The SmartWatch™ is the most advanced technology ever introduced to the corrections environment, opening a whole new universe of control, communication, intelligence and possibilities:

- Communication and control
- Live location tracking and monitoring
- Health and wellness monitoring and alerts
- Investigative intelligence, Voice Biometrics Keyword tracking and covert monitoring
- Facility alerts, announcements, digital forms

It would be our honor to be selected to demonstrate and openly discuss how our innovation, responsiveness, affordability and ethical business practices can play a vital role in enhancing MCSO safety, security and efficiency, as well as staff and IP welfare.

If you have any questions or would like to discuss our proposal in more detail, please do not hesitate to contact me directly via email jon.logan@smartcommunications.us or phone 888-253-5178.

Thank you for your consideration.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES

3.1 General

The Company offers domestic interstate and international automated operator assisted collect calling services for use by inmates and other incarcerated persons in correctional or confinement facilities. Inmate access to the Company's services may be restricted by the administration of the Institution served. The Company's services are available twenty-four hours per day, seven days a week. Unless otherwise specified in this RTC, intrastate service is offered in conjunction with interstate and international service.

Customers are charged individually for each call placed through the Company's network. Charges are based on individual contracts between the Company and Institutions.

3.2 Timing of Calls

3.2.1 Billing for calls placed over the Company's network is based in part on the duration of the call as follows, unless otherwise specified in this RTC.

3.2.2 Timing of each call begins when the called station is answered (i.e. when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection. For Collect Calls, charges apply only if the called party accepts the responsibility for payment.

3.2.3 Chargeable time for each call ends when one of the parties disconnects from the call.

3.2.4 Unless otherwise specified in this RTC, the minimum Initial Period for billing purposes is one (1) minute.

3.2.5 Unless otherwise specified in this RTC, billing for Additional Periods (usage after the Initial Period) is in full one (1) minute increments.

3.2.6 The Company will not knowingly bill for unanswered calls. When a Customer indicates that he/she was billed for an incomplete call, the Company will undertake an investigation of the circumstances of the call and issue a credit when appropriate.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.3 Institutional Automated Collect Service

Institutional Automated Collect Service is provided for use by inmates and other incarcerated persons in Correctional Institutions. Interstate service is offered in conjunction with intrastate service.

Service may be limited by the administrators of the institutions. Calls are billed to the Called Party. The Called Party must actively accept charges for the call.

Institutional Automated Collect Service allows inmates to make collect calls to terminating interstate and international locations as specified following. An automated system prompts the caller and the called party through user - friendly instructions. The called party must accept responsibility for payment of the charges by dialing the designated digit for acceptance. If a call is not accepted within five (5) seconds of the automated voice recording prompt, the automated recording is replayed a second time. If an acceptance digit is not received five (5) seconds after the second recording is completed, the call is automatically terminated.

Use of the automated collect calling service is subject to the rules and regulations of this RTC and the institution's administrative restrictions.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.4 Prepaid Institutional Calling Services

3.4.1 General

Prepaid Institutional Calling Services provide alternative payment arrangements for inmates in Confinement Institutions. Prepaid Institutional Calling Services are available 24 hours a day, seven days per week. Access to telephone service by an inmate may be subject to time of day and usage restrictions imposed by individual Confinement Institutions. No minimum service period applies.

Network usage for Prepaid Institutional Calls is deducted from the Available Usage Balance in full minute increments. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest penny on a per call basis.

The called party is automatically informed of the Available Usage Balance remaining in the Prepaid Account prior to acceptance of the call. Network usage is deducted from the Available Usage Balance in the account on a real time basis as the call progresses. A reminder message is also provided when the account balance has one minute of usage remaining. All calls must be charged against an account that has sufficient available balance. Calls in progress will be terminated by the Company if the balance on the account is insufficient to continue the call.

Payment for Prepaid Institutional Calling Services and any Available Usage in the Prepaid Account is refundable upon request by the called party. The Available Usage Balance expires six months from the date the last call is made on the Prepaid account. No refunds of unused balances will be issued after the expiration date.

Two options are available with Prepaid Institutional Calling Services. The first option, the Prepaid Debit Account, allows the inmate to set up his/her own prepaid account at the Confinement Institution; the second option, Prepaid Collect Service, allows the Called Party who receives collect calls from inmates to set up his/her own prepaid account.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.4 Prepaid Institutional Calling Services, (Cont'd.)

3.4.1 General, (Cont'd.)

A. Option A: Prepaid Debit Account

With a Prepaid Debit Account, the inmate is assigned a Personal Identification Number (PIN.) When the inmate places a call, he/she enters the PIN and called telephone number. All deposits to the account are paid to and handled by the Institution. The Company receives payment from the inmate's debit account via the Institution; it does not engage in direct monetary transactions with the inmate.

The Company's system automatically informs the caller of the Available Usage Balance remaining in the Prepaid Debit Account, and provides prompts to place the call by entering the destination telephone number. Network usage is deducted from the Available Usage Balance in the account on a real time basis as the call progresses.

B. Option B: Prepaid Collect Service

Prepaid Collect Service is available for use by individuals who receive collect calls from inmates in Confinement Institutions. Once an account is established, all collect calls from the facility to the telephone number associated with the prepaid collect account are automatically processed as prepaid collect. If the payment into the account is provided via credit card, credit verification procedures are carried out under the terms specified in Section 2 of this tariff. Deposits to the account are paid to and handled by the Company via arrangement with a vendor.

There are no minimum deposit amounts required. Additional payments will be accepted with a $50.00 payment maximum. Initial and additional payments into the account may be made by cashier's check, money order, credit card, debit card, electronic checking or Western Union. 8.2.2.4 Disaster Recovery Plan

RESPONSE: Smart Communications is well-prepared to respond quickly and effectively should an emergency or disaster strike. As an ongoing part of daily operations, Smart Communications' teams are fully prepared for emergency restoration of facilities. We have assembled plans and procedures to be followed during such an event to minimize the impact catastrophic network outages have on our customers. Our highly trained personnel have the equipment, materials and skills to effectively deal with emergency/disaster events that may threaten the operations of the technologies and services we provide to our clients.

The information presented below details the requirements and steps that will be taken for the recovery from any emergency/disaster affecting services at Smart Communications' facilities or our clients' facilities with the fundamental goal of allowing basic business functions to resume and restoring all systems to pre-emergency/disaster functionality.

Three basic strategies are incorporated in Smart Communication's Emergency/Disaster Recovery Plan:

PREVENTION

Smart Communications' communications infrastructure is designed to provide dependable high-quality services to customers and to reduce downtime with maximum availability. This infrastructure depends on the integrity and proper functioning of a variety of hardware, software and network components. Aspects of this infrastructure are at risk any time one or more of these components fail. Smart Communications takes proactive steps to minimize both the occurrence and the impact of situations that have the potential to interrupt services provided to the inmate or jeopardize the facility's data, such as call records or recording.

To help avoid disasters resulting from equipment failure and minimize the effects of other types of disasters, Smart Communications has deployed a robust, redundant network infrastructure and fault-tolerant computer-controlled communications system with redundant off-site data storage.

Smart Communications maintains three geographically disparate, redundant, secure data centers with the ability to switch both data and voice traffic from one facility to the other. Each data center utilizes redundant Internet services, multiple power feeds, and provides battery backup and generator power in the event of an emergency. All network components are redundant with automatic failover to prevent unexpected downtime. Access to the data centers is limited to IT staff with a specific need to enter.

The data centers host our redundant communications technology platforms, including servers, databases, media storage and software. All servers utilize internal redundancy, such as multiple power supplies on different electrical circuits, hard drives in RAID configuration, and teamed network connections to multiple network switches, in turn, connected to different electrical circuits and cross-connected to mesh traffic. Data at the data centers is backed up via an encrypted off-site backup service every four hours.

Smart Communications' call centers and Network Operations Center (NOC) are housed in mission-critical facilities, providing redundant power grid service from two geographic sources as well as multiple generator units and a multi-week fuel supply. Telecom and data services are also redundant at each facility, minimizing the risk of a total service outage. Smart Communications' 24/7/365 NOC is responsible for maintaining the network infrastructure that supports the hardware and services provided at all Agency facilities. The NOC continuously monitors the health, security and capacity of all communications equipment, applications and associated networks to help ensure 99.99% uptime with uninterrupted, reliable operations.

DETECTION

All Smart Communications' communications equipment, applications and associated networks are monitored and analyzed in real time. This includes all the communications equipment, applications and associated networks at each Agency facility. Proactive monitoring allows Smart Communications to diagnose and resolve issues before they become a problem and affect service.

If an issue is anticipated or has been identified, Smart Communications' experienced NOC personnel take immediate corrective action to resolve the issue remotely. If our NOC is unable to resolve the issue remotely, a certified regional Field Service Technician will be dispatched to the facility.

In the event of an emergency/disaster that causes a total loss of services to a facility, Smart Communications' NOC will have complete ownership and control to carry out its emergency response and recovery procedures. Our NOC will keep the County points of contact fully informed of the status of recovery efforts. Progress reports will be provided at an agreed upon interval until all services are fully restored.

RECOVERY

Smart Communications' Emergency/Disaster Recovery Plan takes into account all steps necessary to resume normal operation in the event of a natural or technical failure. Smart Communications' Emergency/Disaster Recovery Plan addresses the emergency recovery of services in the event of a natural or manmade disaster that has caused damage or service disruption to the communications systems at any Agency facility.

With Smart Communications' hosted communication systems, there are very few on-site hardware components. However, these components are monitored for operation and an event during a local disaster may interrupt their operation. When this is the case, the issue can typically be diagnosed and resolved through remote access from Smart Communications' NOC. If the full extent of the damage cannot be determined by remote access or

©2023 SMART COMMUNICATIONS HOLDING, INC.

DocuSign Envelope ID: 4A8E6851-FC00-4DA3-A920-24F40A0CCB04

the problem cannot be resolved remotely, Smart Communications will immediately dispatch a local technician to perform additional diagnostics, and repair or replace the system components.

To ensure the highest level of service during an emergency/disaster, service technicians will carry enough equipment on their service vehicles to replace the affected hardware at the facility. Furthermore, additional hardware can be shipped from the warehouse and arrive on-site the day after the emergency/disaster. The technician will work with the NOC to restore service to the facility.

Network outage will be detected by the NOC and immediately acted upon. The NOC will work with the network provider and escalate as necessary to restore the services as quickly as possible.

In the event of a power failure, an uninterruptible power supply will provide temporary power for the entire system. In the absence of an emergency generator at the facility, the system will perform a safe shutdown to protect data upon expiration of the UPS. Once the power is restored, the system will reboot without human intervention and resume normal operations.

Throughout the restoration process, Smart Communications' NOC Team will keep the County points of contact fully informed of the status of recovery efforts.

Smart Communications' Emergency/Disaster Recovery Plan addresses the emergency recovery of services in the event a natural or manmade disaster which has caused damage or service disruption to the communications systems at one of the data centers.

Smart Communications maintains three geographically disparate, redundant, secure data centers with the ability to switch both data and voice traffic from one facility to the other. An emergency/disaster that fully impacts the primary Data Center will be detected by the NOC and immediately acted upon. Most issues can be diagnosed and resolved through remote access from our NOC. If the full extent of the issue cannot be determined by remote access or the problem cannot be resolved remotely, Smart Communications will immediately dispatch a technician to the data center to perform additional diagnostics to repair and/or replace the system components.

If the outage is severe, the NOC will invoke emergency measures that will bring all the necessary internal teams together so the issue can be properly addressed in a timely manner. If necessary, the team will make arrangements to reroute both the data and voice traffic from the primary data center to one of the secondary data centers. Once the reroute of both the data and voice traffic from the primary data center to a secondary data center is complete, the NOC team will verify all communications equipment, applications and associated networks are working correctly. Once all traffic has been rerouted to a secondary data center and all services are operating correctly, the NOC team will begin the task rectifying issues with the primary data center.

SUMMARY

Smart Communications minimizes the risk to our Communications platforms by furnishing high-quality equipment that is properly installed, maintained and continuously monitored. Event recognition technology includes self-diagnostic equipment and software that keeps Smart Communications' NOC informed of system performance in real time. Redundancy of critical components safeguards system functionality and redundant data storage restoration is also available should it be needed.

Smart Communications is well prepared to respond quickly and effectively should an issue occur or disaster strikes. As an ongoing part of daily operations, Smart Communications' teams are fully prepared for emergency restoration of facilities. Smart Communications has assembled plans and procedures to be followed during such an event to minimize the impact catastrophic network outages have on our customers. In addition, our highly trained personnel have the equipment, materials, and skills to effectively deal with both minor and major events that may threaten the services we provide to the County.

Section 3 – TECHNICAL PROPOSAL

8.2.3 Technical Proposal for Telephone System and Other Associated Services and Service Offerings, Tablet Program and Tablets, and Video Visitation that includes but not limited to descriptions of:

8.2.3.1 Design, Features, Associated Services and Service Offerings, Technical Components, Integration Capabilities

RESPONSE: We are confident we have the experience, technology and resources necessary to meet and exceed the requirements for this project. Please refer to our responses provided throughout ***5.0 Scope of Work***, that follows.

8.2.3.2 Project Methodology and Project Management

RESPONSE: Smart Communications has extensive experience installing and maintaining inmate communications systems throughout the country. We have developed standard installation, cut-over and turn-up procedures that minimize disruptions and allow the new systems to come online quickly with minimal facility staff involvement.

We utilize a five-phase approach to project planning and implementation that is recognized by the Project Management Institute (PMI). Under this approach, projects are managed and implemented in five distinct phases: 1) Initiation, 2) Planning, 3) Execution, 4) Monitor and Control, and 5) Project Close.

By coupling this phased approach to project management/implementation with our experience, Smart Communications anticipates all proposed systems will be installed and fully operational within 45 days of contract execution.

A brief description of each project management/implementation phase, Project Milestones, Risk Mitigation Plans and a complete list of the tasks and sub-tasks associated with each phase are provided below. Please note that the plan/schedule provided below is "preliminary" and can be adjusted if necessary to help achieve the County's project completion objective.

Initiation (1.0): Immediately after contract execution, Smart Communications conducts an internal planning meeting to review and discuss the project and related documentation, including the RFP Scope of Work, preliminary project/implementation plan timeline and executed contract. During this meeting, Smart Communications staff are officially assigned to specific roles and project team/groups, which include:

- Account Manager
- Project Manager
- Quality Assurance Manager
- Client Services Manager
- Installation Team
- Software Engineers

Field Service Technicians (FSTs) located at our headquarters in Seminole, FL are also notified that a new client is being onboarded.

The preliminary project/implementation plan timeline is updated with official project team/group assignments as well as any other changes that may have resulted from contract negotiations.

©2023 SMART COMMUNICATIONS HOLDING, INC.

DocuSign Envelope ID: 4A8E6851-FC00-4DA3-A920-24F40A0CCB04

After the internal planning meeting has concluded, an introductory/project kick-off call is conducted with the County's designated project lead. The primary purpose of this call is to schedule an on-site pre-installation survey and project planning meeting, obtain the names and point of contact details for the primary project stakeholders, including IT department manager, facility escorts, materials receiver and any other project liaisons, as well as to request facility floorplans and site access/security/background check forms.

The Initiation phase concludes after the on-site site survey and project planning meeting has been scheduled and the County's record in our internal project management system is updated with all relevant information discussed and obtained during this phase.

Planning (2.0): During the planning phase, an on-site pre-installation site survey will be conducted by Smart Communications' project manager and installation team staff who thoroughly inspect the facility's architecture, existing inmate communication systems infrastructure and jail system interfaces.

The project manager records various pieces of critical information to allow for a formal project/implementation plan timeline to be drafted and presented to the County for approval. The formal project plan will contain detailed information, including but not limited to:

- **Telephone/equipment room details**:
  - Physical location(s) and dimensions
  - Cabinet or rack mount requirements
  - Electrical and surge protection requirements
  - HVAC requirements
  - Telephone demarcation point(s)
- **Wireless Access Points (WAPs)**
- **Building to building connectivity (fiber) (if applicable)**
- **Hardware quantities and installation points**:
  - Network hardware
  - SmartEvo™ ITS
  - SmartKiosk™ devices
  - SmartTablet™ devices and charging stations
  - MailGuardLegal® Cart
- **Detailed project plan/implementation timeline with Gantt Chart**
- **Main Distribution Frame (MDF) location**
- **Independent Distribution Frames (IDFs), housing units/pods and number of inmates per housing unit/pod**
- **Jail System Interfaces**:
  - Jail Management System (JMS)
  - Commissary
  - Inmate Trust Fund (ITF)
- **Preferred local electrical contractor(s)**
- **Detailed provisioned service list**:
  - SmartEvo™ ITS
  - MailGuard® and MailGuardLegal®
  - SmartVisit™ VVS
  - SmartInmate™ Electronic Messaging
  - SmartRequest™

  - SmartEntertainment™
  - Jail System Interfaces

The formal project plan will be submitted to the County's Project Lead (PL) five days after the pre-installation site survey has been completed.

Network broadband circuit delivery is subject to long delivery lead times. To expedite this process, the Network Operations Center (NOC) orders these circuits and services from Internet Service Provider(s) that will be used to support the systems to be installed immediately after the pre-installation site-survey.

Shortly after the pre-installation site survey has been conducted and the formal project plan has been submitted, the on-site project planning meeting with the County's designated staff will take place. During this

meeting, unique facility needs will be discussed, stakeholder questions and concerns are addressed and the formal project plan/implementation plan timeline is reviewed and approved.

The Planning phase concludes with the scheduling of on-site installation and training of facility staff.

Execution (3.0): This phase consists of several tasks and subtasks, including the following:

- **Requisition of hardware from inventory and preparation**
- **Design and development of JMS, Commissary and other applicable jail system interfaces**
- **Acquisition, conversion and loading of inmate data feeds**
- **Configuration of QA testing of provisioned service applications**
- **Post installation hardware/system application QA testing**
- **Shipping of hardware to site location**
- **Creation of client user profiles and permissions in the SmartEcosystem™ Dashboard**
- **QA testing of JMS, Commissary and other applicable jail system interfaces**
- **Site installation**
- **On-site facility staff training**

The Execution phase concludes with performance of final hardware/systems testing, cut-over and turn-up.

Monitor and Control (4.0): During this phase, the 5-day Customer Acceptance period is initiated. During this time, the facility's systems are closely monitored on-site by Smart Communications' on-site staff and remotely by our NOC technicians.

The Monitor and Control phase concludes with the client's confirmation/acceptance that all technologies and services provided are functioning properly.

Project Close (5.0): During this final phase, Smart Communications will complete any outstanding action items, if applicable, and will request the client's PL contact to sign-off on the successful completion of the project. A Project Implementation Satisfaction survey will also be distributed to be completed by County staff involved with the implementation. Once the County has signed-off on the project, the record is closed in our internal project management system.

6. Initiation of 5-day Customer Acceptance Period
7. Receipt of Confirmation/Acceptance of Proper System Functionality from the County's PL

Risk Mitigation Plans|

Though standard project implementation/installation procedures are used, each project is unique and is subject to certain controllable and non-controllable risks as well as assumptions. Smart Communications has developed

©2023 SMART COMMUNICATIONS HOLDING, INC.

DocuSign Envelope ID: 4A8E6851-FC00-4DA3-A920-24F40A0CCB04

various risk mitigation plans to help ensure timely project completion, even when faced with challenges and unforeseen circumstances.

Risk Description: Equipment delivery issues (i.e., delivery delay, incorrect equipment is delivered, non-functional and/or non-conforming equipment)

Risk Type: Controllable

Risk Impact: May delay project completion timeline

Risk Mitigation Plan: Our Provisioning Manager orders the necessary equipment shortly after receipt of the Notification of Award (NOA) to ensure it is delivered at the appropriate time. If there is a delivery delay or other problem with the equipment ordered by the Provisioning Manager, we can keep the project implementation on schedule by immediately fulfilling the equipment order from surplus inventory maintained at our warehouse.

Risk Description: Site readiness issues (i.e., age and condition of facility's network infrastructure and/or wiring)

Risk Type: Controllable

Risk Impact: May delay project completion as additional technicians may be required to repair, replace or upgrade existing infrastructure and/or wiring

Risk Mitigation Plan: Shortly after contract award, our Project Manager and installation team will conduct a thorough site survey with the appropriate County staff member who can provide access to all areas throughout the facility in which network infrastructure and equipment will be deployed. During the site survey, the facility's existing network infrastructure and wiring will be inspected. If the site survey inspection reveals substantial infrastructure and wiring upgrades are needed, and such upgrades would create an unacceptable delay in project implementation, our Project Manager will arrange to subcontract these basic installation tasks to the local engineering/technical firm selected by the County. If subcontractors must be used to assist with infrastructure and wiring upgrades, such personnel will be subjected to thorough background screenings and will work in full compliance with all facility access policies and rules. All costs associated with infrastructure and wiring upgrades and the use of subcontractors are paid in full by Smart Communications at no cost to the County.

Risk Description: Training issues (i.e., facility staff scheduling/availability, classroom availability, open internet accessibility)

Risk Type: Controllable

Risk Impact: Incomplete or insufficient training can prevent County staff from effectively using and taking advantage of all features and benefits of the technologies and services being provided.

Risk Mitigation Plan: Upon award of contract, our Project Manager submits a training request to our Education and Client Services Director. Our Education and Client Services Director then assigns this request to the appropriate Instructor/Client Services team member. The Instructor/Client Services team member assigned to the training request will contact the appropriate point of contact at the County and conduct an initial interview to determine training needs. During this initial interview, the following topics will be discussed:

- Introduction and general discussion of technologies and services to be provided
- Identification of facility staff who will need to be trained in the use and operation of the technologies and services to be provided
- Establishment of facility staff user permissions and roles (staff, staff administrator, investigator and system administrator)

DocuSign Envelope ID: 4A8E6851-FC00-4DA3-A920-24F40A0CCB04

As soon as the project implementation plan is finalized by the Project Manager and the system go-live/turn-up date has been established, the assigned Instructor/Client Services team member will communicate this information to the appropriate facility point of contact and set a firm on-site training date and location. To provide facility staff with the best training and transition experience possible, we recommend on-site training is scheduled for the day before or the day of the system go-live/turn-up date. This provides facility staff with the opportunity to immediately work with the systems in the facility itself. Furthermore, the Instructor/Client Services will remain on-site the day after training is conducted to provide staff with additional support.

In addition to on-site training, Client Services will provide remote, web-based training as needed. These online instructor-led training courses serve to introduce new County staff to Smart Communications' technologies and services or to refresh the knowledge base of or introduce new features to existing staff. Both on-site and remote training are available upon request at no cost throughout the contract term.

Risk Description: Implementation delay or service disruption caused by third-party network circuit/connection provider

Risk Type: Non-Controllable

Risk Impact: Like all inmate communications providers, we rely on third-party firms to provide the broadband network circuits and connection necessary for our technologies and services to operate. Implementation delays or service disruptions sometimes occur because these third-party providers, for reasons beyond our control, do not meet expected installation times or service levels.

Risk Mitigation Plan: As an experienced inmate communications systems provider, we have escalation procedures in place to resolve any issues involving broadband network circuit delivery or connection issues. If any issues arise with provisioning these network circuits/connections, it is immediately escalated to our VP of Network Operations who will work with the third-party provider to resolve the issue as soon as possible and keep the County informed of the resolution status. Broadband circuits are a critical component required for the delivery/operation of the technologies and services we provide and typically involve the longest lead times. To help ensure project completion deadlines are met, these circuits are ordered immediately after receipt of NOA.

Risk Description: Delays in integrating required data feeds from the County's jail management system (JMS), commissary providers, inmate trust fund (ITF) or other third-party system vendor

Risk Type: Non-Controllable

Risk Impact: The ability to integrate the data feeds of the County's existing JMS, Commissary, ITF or other third-party jail system into our systems is dependent on the third-party's level of cooperation, as well as requirements that may be unique to their systems.

Risk Mitigation Plan: Smart Communications has successfully interfaced our technologies and services with multiple local and nationally recognized third-party JMS, commissary, ITF and other jail system providers. With support for real-time modern SOAP and Restful Web Services, legacy flat file support including data translation and mapping tools, and over 30 years of experience, nearly any interface can be achieved by our software engineers and Network Operations Center (NOC) team. A specific team of software engineers and NOC staff will be assigned to the County. Among other things, this team will maintain a project interface log to build the design of the interface. All interfaces developed are rigorously performance tested by our in-house Quality Assurance (QA) team to ensure functionality prior to deployment.
