WATER WELL CONSTRUCTION PERMIT

WELL PERMIT NO. #06-10966

ISSUED: 08-12-08

EXPIRES: 08-12-09

RECEIPT: -----

APN: 009-081-027

SITE LOCATION: 3072 Serra Drive

TYPE: Domestic - Multiple Connection

OWNER: William D. Powell

ADDRESS: 305 E. Valley Rd.

CITY: Georgetown TX 78626

PHONE: (254) 288-9977

DRILLING CONTRACTOR: Granite Drilling Company

LICENSE: 279262

ISSUED BY: _____

E. Kars

CONDITIONS OF APPROVAL:

1. The well shall be at least 100 feet from any septic tank, any portion of any leach field or animal enclosure; 50 feet from any sewer main, line or lateral; and 150 feet from any seepage pit. If type of absorption field is unknown, the distance shall be 150 feet.
2. Location of the well shall not prevent the installation, relocation or expansion of the septic system on any adjoining lot.
3. Notify the Monterey County Health Department, Environmental Health Division (MCHD, EHD) at least 24 hours prior to moving on site.
4. Water well permit shall be kept on site at all times while work is in progress.
5. Notify the MCHD, EHD 24 hours prior to the time you expect to place any seal.
6. The exact location of sanitary and strata seals shall be approved by the MCHD, DEH in consultation with the appropriate water management agency, after review of logs.
7. Surface construction features of the completed well shall be in accordance with The California Well Standards Bulletin 74-81 and Bulletin 74-90 Section 10.

8. In the event there shall be a chemical injector installed on the discharge line of this well, an approved backflow prevention device shall be installed between the well and the injection port
9. Any water well on the premises which is to be abandoned, or which has been abandoned shall be properly destroyed within six months of the completion of this well
10. If the seal(s) cannot be witnessed by the MCHD, EHD, a detailed, written description of the seal(s) shall be submitted to the Health Department within ten days.
11. Contact the MCHD, EHD when the well is ready to use and request a final inspection of the completed well.
13. Upon completion of the well the owner shall contact the Monterey Peninsula Water Management District (MPWMD) at (831) 658-5642 for water meter inspection
14. The well must be properly registered with the MPWMD by having the owner complete the well registration form (enclosed) and sending it to MPWMD.
15. The well shall be equipped with a sounding tube for water level measurement.
16. A permit to create/establish a Water Distribution System or a written exemption shall be obtained from the MPWMD; a Pre-Application for a Water Distribution System permit must be filed with MPWMD. If the well qualifies for an exemption from the WDS Permit requirement, an exemption letter will be prepared by MPWMD staff after receipt of the Pre-Application.
19. The applicant and contractor shall abide by all conditions in Coastal Permit Resolution #070074.
20. The owner shall comply with Title 17, California Code of Regulations, or any California American Water Company requirements pertaining to backflow protection (contact CAL-AM at (831) 646-3258).

PLEASE NOTE: Hard rock wells draw water from smaller, less productive areas and water levels or yields may drop rapidly as fractures go dry. The experience of declining and failing yields in hard rock wells is due to the meager ability of fractured rock to store and transmit water. Although this well permit is issued based on set back requirements being met, a well completed in hard rock formation may not be a long-term sustainable water supply.

Important Information From Monterey Peninsula Water Management District:

Issuance of this well construction permit does not guarantee a water right for its use. Water rights for certain areas within the Monterey Peninsula Water Management District, particularly the Carmel River and its associated alluvial aquifer, are under the jurisdiction of the California State Water Resources Control Board (SWRCB). If your planned well is proposed to extract water from this supply source, it is recommended that you contact the SWRCB at (916) 657-1364 for additional information prior to initiating well construction. The well owner bears sole responsibility for operating this well pursuant to a lawful water right.

END
