Phase I - Intensive Supervision

Phase I will focus on orientation, assessment, and treatment planning. Participants are assigned to Phase I Reports seven days per week. In Phase I, participants will receive breath alcohol testing each time the client checks in at the Center. Phase I participants are also required to take a random drug test once per week. Phase I establishes the program's authority, ensures firm supervision, and sets limits early and often. A major component of breaking self-defeating habits is to have participants experience immediate consequences for their actions as part of the learning process.

Phase II - Intermediate Supervision

When participants demonstrate compliance with program rules and progress in their individualized program plans, they advance to Phase II. During this phase, participants report to the DRC a minimum of five days per week until they have fulfilled the requirements for advancing to Phase III. In Phase II, participants are subject to random drug testing twice per month, and must still take a breath alcohol test whenever they enter the Center. Participants who are not verifiable full-time students will be required to hold a satisfactory full or part-time job or vocational training/school placement before progressing to Phase III.

Phase III - Regular Supervision

Participants usually report to the DRC a minimum of three days a week during Phase III. Participants must still take a breath alcohol test whenever they enter the Center, and are subject to random drug testing once per month. Participants remain in Phase III until their discharge and transfer to the Aftercare phase of DRC programming.

Aftercare Phase

Aftercare services address critical client needs that have been demonstrated to decrease criminogenic risk. In Aftercare, client reassessments are utilized to determine which risks exist. Critical Aftercare needs typically include:

- Prosocial family & community support
- Relapse prevention activities

- Prosocial cognitive decision-making
- Education & employment assistance
- Continued alcohol and drug testing

Participants must participate in Aftercare for at least six months after DRC program completion. Participating participants will meet with the Aftercare case managers once per month during this period.
