In two shipments; receiving half in a second shipment in June, 2018

12. Understanding that you may need to conduct further outreach to identify those local entities that are ready and qualified to distribute/administer naloxone, who do you see as potential recipients *at this time*?

Harm Reduction Centers/Syringe Exchange Programs

***In your distribution plan, due to CDPH/SACB 60 days after the grant agreement is executed, you will list the names and types of local entities you select to receive the naloxone product.**

If YES, please describe:

4. Naloxone Distribution Projects

By submitting this application, your organization is agreeing to:

1. Conduct outreach to identify local entities within their health jurisdiction that already have a naloxone distribution system in place and have the capacity to efficiently and effectively provide naloxone and training to first responders (as described in section C, number 2 in this RFA).^{*} Local entities may include harm reduction/syringe exchange programs, substance use disorder treatment providers, homeless programs, jails, emergency services providers, law enforcement, and others.

^{*}If a LHD identifies the need to establish a new naloxone distribution system(s) in their jurisdiction, the LHD must ensure that any new naloxone distribution system meets the definition provided in section C, number 3 in this RFA prior to distributing naloxone.

2. Select local entities to receive naloxone based on the level of risk of overdose among the population(s) they serve and need for naloxone (Narcan) product.

Priority consideration is to be given to harm reduction/syringe exchange programs, if present within the health jurisdiction. (A list of California harm reduction/syringe exchange programs that currently have a naloxone distribution system in place is included as Attachment B).

3. Submit a naloxone distribution plan to CDPH/SACB for approval by June 16, 2017, or within 60 days of receiving CDPH final approval of the grant agreement. The plan will be submitted on-line and must include the names of selected local entities, the type(s) of services they provide, a description of the target population(s) they serve, and the number of naloxone product they will receive. CDPH will provide a standardized distribution plan template.

Naloxone Grant Program

REQUEST FOR APPLICATIONS (RFA #16-10967):
Naloxone Distribution Projects

A. Introduction

Senate Bill (SB) 833 (Chapter 30, Statutes of 2016) established a new Naloxone Grant Program within the California Department of Public Health (CDPH) with the goal of reducing the number of fatal overdoses in California from opioid drugs, including prescription opioids and heroin, by increasing access to the life-saving drug naloxone. A total of \$3 million was allocated on a one-time basis to support this program.

B. Purpose of RFA

Through this non-competitive Request for Application (RFA) process, the CDPH Safe and Active Communities Branch (SACB) is offering grants of naloxone product (Narcan nasal spray) and funding to all 61 local health departments (LHDs) to conduct **Naloxone Distribution Projects**. LHDs will provide naloxone product to local programs, agencies and community-based organizations (local entities) within their jurisdictions that have naloxone distribution systems and are in the best position to save lives from opioid overdose.

C. Background

In 2015, with funding from the Centers for Disease Control and Prevention (CDC), SACB initiated the California Prescription Drug Overdose Prevention Initiative to promote a multi-faceted statewide response involving many partners and a variety of strategies (www.cdph.ca.gov/programs/SACB/Pages/PrescriptionDrugOverdoseProgram.aspx). Initiative staff also provide support to the CDPH Director's Prescription Opioid Misuse and Overdose Prevention Workgroup and partners with the California Healthcare Foundation to fund local opioid safety coalitions that promote safe prescribing, use of naloxone, and expansion of medically assisted treatment options. The California Opioid Overdose Surveillance Dashboard (https://pdop.shinyapps.io/ODdash_v1/), developed by SACB research scientists, displays data demonstrating the severity of the problem. The Naloxone Grant Program will further strengthen California's public health response to opiate overdose.

1. **Drug overdose** (poisoning) is the leading cause of unintentional injury death in the United States, causing more deaths than motor vehicle crashes. Opioids – both prescription painkillers and heroin – are responsible for most of those deaths. The number of Californians affected by prescription and non-prescription opioid misuse and overdose is substantial, with rates varying significantly across counties, and even within counties.

2. **Naloxone** is a medication that works almost immediately to reverse opiate overdose. Naloxone is currently a prescription drug, but is not a controlled substance. It has few known adverse effects, no potential for abuse, and can be rapidly administered through intramuscular injection or nasal spray. While most professional first responders and emergency departments are equipped with naloxone, emergency service providers may not arrive in time to revive overdose victims. Trained and equipped bystanders such as friends, family, and other non-health care providers and drug users themselves can effectively respond and reverse an opioid overdose. Given the success of bystander naloxone programs, the CDC and the World Health Organization have recommended expanding the availability of naloxone to lay people.
3. **Naloxone Distribution Systems:** 1) work under a standing order from a licensed clinician/medical director; 2) have staff that are trained (or are trained to provide education to others) on naloxone storage and administration, overdose prevention techniques, how to recognize an opioid overdose (signs and symptoms), how to respond by calling 911 and provide rescue breathing, and post-overdose care; 3) dispense naloxone products; and 4) document distribution efforts.
4. **Laws** are currently in place that support making naloxone more readily available. For example, California Civil Code Section 1714.22 (Statutes of 2013, Chapter 707, Section 1) eliminates civil and criminal liability for: 1) licensed health care providers that prescribe naloxone and issue standing orders for the distribution of naloxone, and 2) individuals, who have received supply of naloxone and had the required training, who administer naloxone to someone suspected of experiencing an overdose. This law took effect on January 1, 2014.

D. Term of Grant Award

The term of the grant award is June 1, 2017, (or upon final Grant Agreement approval by CDPH) to June 30, 2019.

E. Applicant Eligibility

Governmental health departments in all 61 California local health jurisdictions are eligible and encouraged to apply to the Naloxone Grant Program.

F. Product and Funding Allocation

The Naloxone Grant Program is offering funding amounts allocated for naloxone product and project administrative costs to every health jurisdiction in California based on a formula developed to maximize the potential for saving lives. The formula addresses the need for naloxone using data from each county to calculate an average number of opioid-involved (including heroin) overdose deaths and emergency department visits for each of the last three years. The formula utilizes information on effective naloxone distribution and overdose reversals from a CDC report (www.cdc.gov/mmwr/preview/mmwrhtml/mm6106a1.htm) to determine a kit-to-save ratio, which translates to approximately four kits distributed for each life saved. The

three-year average of deaths and emergency department visits for each county is then multiplied by four to determine the estimated number of kits to be distributed for each county. The cost of the naloxone product and a base minimum number of kits for each county are factored into the calculation.

A Naloxone Grant Program Local Health Department Allocations Chart, which lists the amounts available to each LHD for the purchase of naloxone (Narcan nasal spray) and for project administration, is provided as Attachment A.

LHDs that receive a grant from the Naloxone Grant Program will not purchase the naloxone product. In order to obtain the best purchase price, expedite the delivery of naloxone product, and avoid additional administrative burden on LHDs, CDPH/SACB will procure a bulk purchase of Narcan nasal spray from the manufacturer ADAPT Pharma (at a price of \$75 per carton of two doses), and the manufacturer will ship the product (at no additional cost) directly to each grantee. Grantees can choose to have the naloxone product delivered all in one shipment or split their allocation in half and receive a second shipment in June, 2018.

The funding offered to each LHD for project administration, if accepted, may be used to cover costs of: conducting outreach and assessment of local entities; receipt, storage, and distribution of naloxone product; reporting; and other activities related to project implementation. If accepting the allocation for administrative costs, LHDs will submit a single invoice for reimbursement of the amount to CDPH/SACB upon final CDPH approval of the Grant Agreement in accordance with Exhibit B, Budget Detail and Payment Provisions (included in Attachment B).

LHDs may elect to opt out of receiving the project administration allocation and instead apply that dollar amount to the purchase of additional naloxone product.

G. Grant Requirements

Naloxone Grant Program grantees are required to:

1. **Conduct outreach** to identify local entities within their health jurisdiction that already have a naloxone distribution system in place and have the capacity to efficiently and effectively provide naloxone and training to first responders (as described in section C, number 3 in this RFA). * Local entities may include harm reduction/syringe exchange programs, substance use disorder treatment providers, homeless programs, jails, emergency services providers, law enforcement, and others.

* If a LHD identifies the need to establish a new naloxone distribution system(s) in their jurisdiction, the LHD must ensure that any new naloxone distribution system meets the definition provided in section C, number 3 in this RFA prior to distributing naloxone.

2. **Select local entities** to receive naloxone based on the level of risk of overdose among the population(s) they serve and need for naloxone (Narcan) product.

Priority consideration is to be given to harm reduction/syringe exchange programs, if present within the health jurisdiction. (A list of California harm reduction/syringe exchange programs that currently have a naloxone distribution system in place is included as Attachment C.)

3. **Submit a naloxone distribution plan** to CDPH/SACB for approval by June 16, 2017, or within 60 days of receiving CDPH final approval of the Grant Agreement. The plan will be submitted on-line and must include the names of selected local entities, the type(s) of services they provide, a description of the target population(s) they serve, and the number of naloxone product they will receive. CDPH will provide a standardized distribution plan template.
4. **Begin distributing naloxone** product to selected local entities by July 16, 2017, or within 90 days of receiving CDPH final approval of the Grant Agreement. All naloxone must be distributed to selected local entities by September 30, 2018.

*If a LHD identifies the need to establish a new naloxone distribution system(s) in their jurisdiction, the LHD must ensure that any new naloxone distribution system meets the definition provided in section C, number 3 in this RFA prior to distributing naloxone.

2. **Select local entities** to receive naloxone based on the level of risk of overdose among the population(s) they serve and need for naloxone (Narcan) product.

Priority consideration is to be given to harm reduction/syringe exchange programs, if present within the health jurisdiction. (A list of California harm reduction/syringe exchange programs that currently have a naloxone distribution system in place is included as Attachment B).
