 A.P.N. 009-122-026-000

Subject: Reduction of Inlet Apron

Dear Mr. Kostigen:

Pursuant to your request, we have inspected the inlet of the drainage improvements along the northern side of the referenced property. As noted some of the materials used to form the inlet apron extend onto the adjoining parcel. Those items encroaching onto that parcel can be removed without significant change to the function of the improvements. Further oversight and recommendations can be given in the field during demolition.

This report and the recommendations herein are made expressly for the above referenced project and may not be utilized for any other site or plan set without written permission of GRICE ENGINEERING, INC. Please feel free to call this office should you have any questions regarding this report.

Very truly yours,
GRICE ENGINEERING, INC.

Lawrence E. Grice, P.E.
