The Family Acceptance Project from San Francisco State University was included in the approved funding plan to provide training and technical assistance to various stakeholders in Monterey County as a critical component in the training offerings provided in the Rainbow Connections program. Family Acceptance Project was selected to be one of several participating vendors to support the Rainbow Connections Innovation Plan based on their expertise and experience in cultivating understanding and support for LGBTQ youth and their families.

EXHIBIT B: ASSURANCE OF COMPLIANCE WITH MONTEREY COUNTY'S CULTURAL COMPETENCY POLICY

In a culturally competent system, each provider organization shows respect for and responds to individual differences and special needs. Services are provided in the appropriate cultural context and without discrimination related to race, national origin, income level, religion, gender, sexual orientation, age, or physical disability, to name a few. Culturally competent caregivers are aware of the impact of their own culture on their relationships with consumers/families and know about and respect cultural and ethnic differences. They adapt their skills to meet each individual's/family's values and customs. Cultural competence is a developmental and dynamic process – one that occurs over time.

Organizations in a Culturally Competent Service System Promote:

Quality Improvement

- Continuous evaluation and quality improvement
- Supporting evidence-based, promising, community defined, and emerging practices that are congruent with ethnic/racial/linguistic group belief systems, cultural values and help-seeking behaviors.

Collaboration

- Collaborating with Behavioral Health and other community programs
- Resolving barriers to partnerships with other service providers

Access

- Providing new services to unserved and underserved children, youth, adults and/or older adults
- Reducing disparities in access to, and retention in, care as identified in the Mental Health Services Act Plan
- Ensuring representation of mental health services consumers, family members of a mental health services consumer, and/or representatives from unserved communities on their advisory/governance body or committee for development of service delivery and evaluation (with a minimum target of 40%).
- Developing recruitment, hiring, and retention plans that are reflective of the population focus, communities' ethnic, racial, and linguistic populations.

Cultural Competent Services:

- Are available, accessible and welcoming to all clients regardless of race, ethnicity, language, age, and sexual orientation.
- Provide a physical environment that is friendly, respectful and inclusive of all cultures.
- Provide information, resources and reading materials in multilingual formats.

DocuSign Envelope ID: 845EEDF2-B74A-4B0B-81E8-AABD2188BF69

- Promote and foment culturally accepted social interactions, respect and healthy behaviors within the family constellation and service delivery system.
- Provide options for services, which are consistent with the client's beliefs, values, healing traditions, including individual preferences for alternative, spiritual and/or holistic approaches to health.
- Offer services in unserved and underserved communities.
- Have services available in the evening and on weekends to ensure maximum accessibility.
- Offer services in Spanish and other necessary languages (such as Tagalog, Vietnamese, Oaxacan, Trique and other languages spoken of Monterey County residents).

Definitions for Cultural Competency

"Cultural Competence" is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers, family members, and professionals that enables that system, agency, or those professionals and consumers, and family member providers to work effectively in cross-cultural situations.
(Adapted from Cross, et al., 1989; cited in DMH Information Notice No.02-03).

"Cultural Competence" is a means to eliminating cultural, racial and ethnic disparities. Cultural Competence enhances the ability of the whole system to incorporate the languages, cultures, beliefs and practices of its clients into the service. In this way all clients benefit from services that address their needs from the foundation of their own culture. Strategies for elimination of these disparities must be developed and implemented. Cultural Competence must be supported at all levels of the system.
(CMHDA Framework for Eliminating Cultural, Linguistic, Racial and Ethnic Behavioral Health Disparities)

[Cultural Competency] A set of congruent behaviors, attitudes, and policies that come together in a system, agency or amongst professionals and consumers and enables that system, agency or those professionals and consumers to work effectively in cross-cultural situations.

(Cross, Bazron, Dennis & Issacs, 1989)

The ability to work effectively with culturally diverse clients and communities.

(Randall David, 1994)

CONTRACTOR hereby agrees that it will comply with the principles and guidelines set forth in Monterey County's Health Department – Behavioral Health's Cultural Competency Policy (as outlined above), and will:

This may include: decorating waiting and treatment areas with pictures that reflect the diverse cultures of Monterey County; providing reading materials, resources and magazines in varied languages, at appropriate reading levels and suitable for different age groups, including children and youth; consideration of cultural differences and preferences when offering refreshments; ensuring that any pictures, symbols or materials on display are not unintentionally disrespectful to another culture.

4. Support the county's goal to reduce disparities to care by increasing access and retention while decreasing barriers to services by unserved and underserved communities.

5. Include the voice of multi-cultural youth, client and family members, including: monolingual and bilingual clients and family members and representatives from unserved and underserved communities, in the advisory/governance body or committee for development of service delivery, planning and evaluation (County Goal: 40%).

6. Participate in outcome evaluation activities aimed at assessing individual organizations as well as countywide cultural competency in providing mental health services.

7. As requested, meet with the Monterey County Health Department - Behavioral Health Director or designee to monitor progress and outcomes of the project.

Behavioral Health Authorization for Payment

Authorized Signatory _____ Date : _____

Introduced: 12/19/2023
Version: 1

Current Status: Passed
Matter Type: BoS Agreement

a. Approve and authorize the Director of Health Services or designee to execute a five-year agreement with the Epicenter to provide county-wide art as healing classes to selected at-risk high school students and to collaborate with high school wellness centers throughout Monterey County for the term upon execution through April 30, 2028, for a total Agreement amount not to exceed $410,850; and
b. Approve and authorize the Director of Health Services or designee to sign up to three future amendments where the combined amendments do not exceed 10% ($41,085) of the original amount and do not significantly change the scope of work, total not to exceed maximum of $451,935.

RECOMMENDATION:

It is recommended that the County of Monterey Board of Supervisors:
a. Approve and authorize the Director of Health Services or designee to execute a five-year agreement with the Epicenter to provide county-wide art as healing classes to selected at-risk high school students and to collaborate with high school wellness centers throughout Monterey County for the term upon execution through April 30, 2028, for a total Agreement amount not to exceed $410,850; and
b. Approve and authorize the Director of Health Services or designee to sign up to three future amendments where the combined amendments do not exceed 10% ($41,085) of the original amount and do not significantly change the scope of work, total not to exceed maximum of $451,935.

SUMMARY/DISCUSSION:

The County of Monterey Health Department Public Health Bureau's Cannabis Education Program (Cannabis Education Program) is an awardee of the Board of State and Community Corrections (BSCC) Proposition 64 Public Health and Safety Grant Program Cohort 3 funding. The project titled Monterey County Art and Education Go Together was submitted to the State in 2022 and will provide funds to enhance public health and safety efforts associated with illicit and youth cannabis use. BSCC grant funds provide capacity for the Cannabis Education Program to collaborate with Epicenter to offer at risk youth art programing, referred to as art as health classes, to heal personal and community trauma.

Epicenter is a 501c3 organization founded in 2014 by a group of young adults from the Salinas community to empower at-risk and system involved youth. Over the past eight years, Epicenter has expanded to include supportive services for LGBTQ+, foster, and unhoused youth. Services include drug and alcohol education, and food pantry and teen closet to provide food and clothing to youth in need.

The proposed art as healing classes will expand Epicenter's existing services and provide students an

expressive non-verbal outlet to challenging conversations that are not limited by words as a way to describe their emotions and increase resiliency. Developing proficiency in music, arts, or dance can help promote feelings of self-efficacy and identity - both of which are indicated in the prevention of mental health and substance use disorders. According to 2021 data from the Centers for Disease Control and Prevention, more than a third (37%) of high school students reported experiencing poor mental health during the COVID-19 pandemic, and 44 percent reported feeling persistently sad or hopeless during the past year.

This agreement supports a public health prevention approach to serve at-risk high school students by offering small group art classes that create a safe space to bridge art and emotional healing. Epicenter staff will collaborate with high school wellness centers to gather referrals for youth who would benefit from small pro-social nonjudgmental group art classes. The teaching model will include art classes facilitated by Epicenter staff and a master's in social work intern reaching approximately 200-300 high school students annually (1,000 to 1,000 students over five years). Art classes will be provided throughout the County.

This work supports the County of Monterey Health Department 2018-2024 Strategic Plan Goals: 1. Empower the community to improve health; and 2. Enhance community health and safety through prevention. It also supports one of the ten essential public health services, specifically: 3. Communicate effectively to inform and educate people about health, factors that influence it, and how to improve it.

Approve and authorize the Director of Health Services or designee to execute a new Non-Standard Agreement between the County of Monterey and Community Foundation for Monterey County for the provision of community outreach, engagement and education for County of Monterey Behavioral Health Bureau's Mental Health Services Act (MHSA) Innovation and Prevention and Early Intervention (PEI) programming, for a maximum County obligation of $277,000 for the retroactive term of October 15, 2023 through June 30, 2024.

RECOMMENDATION:

It is recommended that the Board of Supervisors:
Approve and authorize the Director of Health Services or designee to execute a new Non-Standard Agreement between the County of Monterey and Community Foundation for Monterey County for the provision of community outreach, engagement and education for County of Monterey Behavioral Health Bureau's Mental Health Services Act (MHSA) Innovation and Prevention and Early Intervention (PEI) programming, for a maximum County obligation of $277,000 for the retroactive term of October 15, 2023 through June 30, 2024.

SUMMARY/DISCUSSION

On September 27, 2018, the County of Monterey Behavioral Health Bureau received approval from the Mental Health Services Oversight and Accountability Commission (MHSOAC) for the "Screening to Timely Access" MHSA Innovation Plan. This Innovation Plan aims to increase access to mental health services by underserved populations. This agreement with Community Foundation for Monterey County will leverage their Community Health Worker program to reach underserved populations throughout the county, providing access to the WellScreen Monterey mental health screening and referral tool developed as part of the "Screening to Timely Access" plan. Furthermore, this agreement will utilize associated MHSA Innovation funding that may be subject to reversion to the State if not fully expended before December 31, 2023.

Additionally, in FY 2023-24, MHSA PEI revenues are higher than budgeted and this agency has capacity to utilize MHSA PEI funding to promote and make referrals to MHSA PEI funded programming offered through the County of Monterey.

The Director of Health Services recommends the approval of this nonstandard agreement and its nonstandard terms, including the waiving of the County's standard indemnification language. The Office of County Counsel and Risk-Management do not approve the waiving of this provision; however, the Department of Health is willing to bear the potential risks.

This work supports the Monterey County Health Department 2018-2024 Strategic Plan Goal(s): 3) Ensure access to culturally and linguistically appropriate, customer-friendly, quality health services. It also supports one of the ten essential public health services, specifically: 7) Link people to needed personal health services and assure the provision of health care when otherwise unavailable.

This agreement is late in being presented to your Board due to the need for allocating MHSA Innovation funds for expenditure prior to December 31, 2023 to avoid reversion to the State.

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel and Auditor-Controller have reviewed and approved this Agreement as to legal form and fiscal provisions, respectively.

FINANCING:
This Agreement is funded by MHSA INN and PEI Funds. The funds for this Agreement for FY2023-24 ($277,000) are included in the Health Department's Behavioral Health (HEA012, Unit 8410) Fiscal Year 2023-24 Adopted Budget.

EXHIBIT B: ASSURANCE OF COMPLIANCE WITH MONTEREY COUNTY CULTURAL COMPETENCY POLICY

In a culturally competent system, each provider organization shows respect for and responds to individual differences and special needs. Services are provided in the appropriate cultural context and without discrimination related to race, national origin, income level, religion, gender, sexual orientation, age, or physical disability, to name a few. Culturally competent caregivers are aware of the impact of their own culture on their relationships with consumers/families and know about and respect cultural and ethnic differences. They adapt their skills to meet each individual's/family's values and customs. Cultural competence is a developmental and dynamic process – one that occurs over time.

Organizations in a Culturally Competent Service System Promote:

Quality Improvement

- Continuous evaluation and quality improvement
- Supporting evidence-based, promising, community defined, and emerging practices that are congruent with ethnic/racial/linguistic group belief systems, cultural values and help-seeking behaviors.

Collaboration

- Collaborating with Behavioral Health and other community programs
- Resolving barriers to partnerships with other service providers

Access

- Providing new services to unserved and underserved children, youth, adults and/or older adults
- Reducing disparities in access to, and retention in, care as identified in the Mental Health Services Act Plan
- Ensuring representation of mental health services consumers, family members of a mental health services consumer, and/or representatives from unserved communities on their advisory/governance body or committee for development of service delivery and evaluation (with a minimum target of 40%).
- Developing recruitment, hiring, and retention plans that are reflective of the population focus, communities' ethnic, racial, and linguistic populations.

Cultural Competent Services:

- Are available, accessible and welcoming to all clients regardless of race, ethnicity, language, age, and sexual orientation.
- Provide a physical environment that is friendly, respectful and inclusive of all cultures.
- Provide information, resources and reading materials in multilingual formats.
- Promote and foment culturally accepted social interactions, respect and healthy behaviors within the family constellation and service delivery system.
- Provide options for services, which are consistent with the client's beliefs, values, healing traditions, including individual preferences for alternative, spiritual and/or holistic approaches to health.

- Offer services in unserved and underserved communities.
- Have services available in the evening and on weekends to ensure maximum accessibility.
- Offer services in Spanish and other necessary languages (such as Tagalog, Vietnamese, Oaxacan, Trique and other languages spoken of Monterey County residents).

Definitions for Cultural Competency

"Cultural Competence" is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers, family members, and professionals that enables that system, agency, or those professionals and consumers, and family member providers to work effectively in cross-cultural situations.

(Adapted from Cross, et al., 1989; cited in DMH Information Notice No.02-03).

"Cultural Competence" is a means to eliminating cultural, racial and ethnic disparities. Cultural Competence enhances the ability of the whole system to incorporate the languages, cultures, beliefs and practices of its clients into the service. In this way all clients benefit from services that address their needs from the foundation of their own culture. Strategies for elimination of these disparities must be developed and implemented. Cultural Competence must be supported at all levels of the system.

(CMHDA Framework for Eliminating Cultural, Linguistic, Racial and Ethnic Behavioral Health Disparities)

[Cultural Competency] A set of congruent behaviors, attitudes, and policies that come together in a system, agency or amongst professionals and consumers and enables that system, agency or those professionals and consumers to work effectively in cross-cultural situations.

(Cross, Bazron, Dennis & Issacs, 1989)

The ability to work effectively with culturally diverse clients and communities.

(Randall David, 1994)

SUMMARY/DISCUSSION:

The Health Department Clinic Services Bureau (Clinic Services) operates ten community clinic sites designated as Federally Qualified Health Centers (FQHCs) which provide preventive, primary, and specialty medical care services.

Clinic Services participates in the federal 340B Drug Pricing Program, which allows FQHCs to purchase eligible drugs at reduced rates for distribution to eligible patients through 340B contract pharmacy arrangements or administered to patients in clinic. Clinic Services depends on 340B savings to help increase patient access and promote health equity by reinvesting these savings into supporting the essential healthcare services that our safety net clinics provide to the underserved community.

The 340B Program is very complex and requires a deep knowledge of the program's operational and pharmacy compliance requirements, including annual certifications, program-specific billing and drug purchase requirements, policy/procedure management, and the need for ongoing, monthly audits to

verify compliance and avoid penalties and fees.

CPS Solutions, LLC (CPS) has been supporting health systems, including FQHCs and pharmacies since 1992 by evaluating internal programs and contract pharmacy relationships to improve overall program management and optimize 340B savings in a comprehensive and compliant manner.

Approval of this Agreement will allow CPS to deliver a mock HRSA 340B Audit, including corrective action support for any audit findings, and subsequently provide ongoing 340B Program support and education to Clinic Services' operational, clinical and contract pharmacy-related areas through a remote monitoring format.

This work supports one of the Monterey County Health Department's 2018-2024 Strategic Plan Initiative(s): 2. Enhance community health and safety through prevention. It also supports one or more of the ten essential public health services, specifically: 6. Enforce laws and regulations that protect health and ensure safety.

OTHER AGENCY INVOLVEMENT:
County Counsel has reviewed and approved this Agreement as to legal form. Auditor Controller has reviewed and approved as to fiscal provisions.

FINANCING:
Sufficient appropriations are available in the FY 2023-2024 Health Department Clinic Services Adopted Budget (001-4000-HEA007) to cover the costs of this agreement. This Agreement will be funded by revenues generated from Medi-Cal and Medicare. There is no financial impact to the General Fund resulting from approval of this Agreement.

4.3.1. **Overall Responsibility.** County is ultimately responsible for the operation of each of the 340B Covered Entities, for securing, paying for and maintaining all necessary licenses for its operations, the results of its operations, and for monitoring compliance of its operations (including those supervised by Contractor). County's actions and omissions are within the sole discretion of County. This Agreement does not transfer compliance or regulatory responsibility to Contractor, and County retains sole responsibility for ensuring that County and its operations comply with all Applicable Laws (including securing all required business associate agreements). As such, Contractor, its Affiliates and their Personnel shall not be liable for actions or omission by County as a result of County accepting or rejecting any Contractor recommendation; however, subject to the foregoing and Section 4.3.3 (Policy and Procedure Manual) below, Contractor remains liable for any negligent acts or omissions or breaches of this Agreement by Contractor. County retains sole responsibility for the implementation of County's 340B Program, including its 340B Program's compliance with all Applicable Laws.

4.3.2. **Managed Operations.** Contractor will only have responsibility for the County's operations that Contractor has agreed in a SOW to manage and then only to the limited extent set forth therein. Further, County agrees that County, not Contractor, shall have sole liability for County's operations prior to the date that Contractor has taken over the management of such operations. Except as expressly set forth in this Agreement, County retains all responsibility and authority for the County operations supported by the Services, including: (a) the management of County's operations, Systems and County's Personnel; (b) County's obligations set forth herein; (c) the performance of all actions that constitute the clinical practice of medicine, including the provision of patient care and the use of Pharmaceutical Products; (d) making all decisions that require clinical judgment, including all decisions regarding the choice of which Pharmaceutical Products to provide to patients and other decisions regarding and affecting the quality, availability, accessibility and affordability of care to patients; and (e) providing all Personnel, financial support and other resources needed for County operations. For the avoidance of doubt, the Parties agree that: (x) nothing in this Agreement shall be construed to delegate to Contractor any such County-retained responsibility or any other obligation that may only be held or exercised by County under Applicable Law, and (y) the Services provided by Contractor's licensed pharmacists do not constitute the clinical practice of medicine or other clinical services.

4.3.3. **Policy and Procedure Manual.** County retains primary and ultimate responsibility for the development, implementation, approval, and ongoing updating and modification of necessary and appropriate policies and procedures manuals (including all reasonable and appropriate disaster recovery, back-up and emergency procedures) that meet the requirements of all Applicable Law for County's operations, including those operations supported by the Services (the "**Policy and Procedure Manual**" or "**PPM**"). To the extent provided for in a SOW, Contractor may provide non-legal recommendations and/or other advice to County regarding the development, implementation and/or modification of County's PPM; however, County retains primary and ultimate responsibility for its Policy and Procedure Manual. Further, County is responsible for obtaining any internal, regulatory or other external third-party approvals required for its PPM and any modifications thereto. County's Policy and Procedure Manual (in its present or revised form) shall not be deemed to be an Amendment to this Agreement and shall not alter Contractor's obligations under this Agreement. Prior to the commencement of any Services, or as promptly as practicable, County shall provide to Contractor a copy of its PPM (or portion thereof) applicable to the Services (e.g., those related to its 340B Program). Further, County shall provide Contractor with thirty (30) days' prior written notice of any proposed changes to the PPM that would have a significant impact on Contractor's provision of Services under any SOW. Contractor will promptly review the PPM and any proposed modifications thereto, as applicable, to assess their impact upon the Services under the applicable SOW, and either Party may propose an Amendment to this Agreement that addresses any changes and additional Fees or Reimbursed Costs that are appropriate given the proposed change to the PPM's impact on the Services. Notwithstanding anything to the contrary in this Agreement, Contractor will not be

DocuSign Envelope ID: CAF73DA3-C8E4-48F1-9645-610205D44D6B

obligated to abide by any PPM or any proposed revision thereto until Contractor has agreed in writing to accept such PPM (or change thereto) and, in each such case, Contractor may condition its acceptance upon County and Contractor having first executed a mutually acceptable Amendment.

4.3.4. **Committees**. County retains sole responsibility for the creation and management of all County committees (e.g., P&T committee) and all decisions taken by such committees. To the extent set forth in the applicable SOW, Contractor shall participate in pharmacy, therapeutics committees and/or other appropriate County committees, provided that Contractor's Personnel shall not be voting member(s) of such committees.

4.3.5. **Pricing**. County shall be solely responsible for establishing prices charged to patients or patients' payers for Pharmaceuticals Products or related services provided by County.

4.3.6. **Billing and Collections**. County shall be solely responsible, and Contractor shall have no responsibility for, County's billing and collection functions or operations, including the following: (i) contracting with third-party insurance carriers/payers; (ii) determining which patients qualify for charitable care, (iii) any uncollected amounts, overpayments, or repayments, and/or unpaid claims (e.g., collection write-offs, cash collection shortages, rejects, denials and other adjustments); or (iv) payment of expenses incurred in connection therewith.

4.3.7. **Security**. County retains sole responsibility for designing, implementing, maintaining and enhancing the methods, protocols and other measures necessary to protect the security of County Provided Systems, County's 340B Covered Entities, including any Contractor property at such 340B Covered Entities and County Confidential Information, including PHI and Personal Information of County's Personnel and County's customers.

4.3.8. **Data Integrity**. County is solely responsible for the accuracy, completeness, and appropriateness of all County Data.

4.3.9. **Operational Issues**. When Contractor is making Pharmaceutical Products purchasing recommendations under an SOW, Contractor will do so in good faith and will endeavor to only recommend changing from one product to another when such items are therapeutically equivalent or substitutable; however, County is ultimately responsible for making such clinical judgements. Except where Contractor Personnel are personally dispensing Pharmaceutical Products to a patient (in their role as a licensed pharmacist), County acknowledges and agrees that County is solely responsible for the handling, dispensing, sterilization, packaging and administering Pharmaceutical Products to patients or other third parties. Contractor, its Affiliates and their Personnel are not responsible or liable for any supply errors, missing Pharmaceutical Products or other claims, in whole or in part, resulting from: (a) any physician error (including the failure to order, if any, appropriate Pharmaceutical Products, therapy interventions, or any distribution of such Pharmaceutical Products after they have left Contractor's custody); or (b) any failure of County to have or maintain adequate policies and procedures or any failure of County Personnel to follow County's PPM. Contractor, its Affiliates and their Personnel are not responsible for any act or omission by Contractor Personnel done in compliance with the County's PPM.

4.4. **DISCLAIMERS. EXCEPT AS EXPRESSLY PROVIDED FOR IN THIS AGREEMENT, THERE ARE NO EXPRESS WARRANTIES MADE BY EITHER PARTY, AND ALL IMPLIED WARRANTIES AND COVENANTS (OTHER THAN THE DUTY OF GOOD FAITH, BUT EXPRESSLY INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT) ARE HEREBY DISCLAIMED. FURTHER ANY SYSTEMS PROVIDED BY CONTRACTOR (INCLUDING THE CONTRACTOR CONTENT THEREIN) ARE PROVIDED BY CONTRACTOR "AS IS" AND "AS AVAILABLE" AND CONTRACTOR DOES NOT REPRESENT OR WARRANT THAT SUCH SYSTEMS OR CONTRACTOR**

FURTHER, THE PARTIES AGREE THAT THEY HAVE NOT RELIED ON ANY REPRESENTATIONS NOT SET FORTH IN THIS AGREEMENT AND THAT SUCH RELIANCE WOULD NOT BE REASONABLE.

5. **LIMITATION OF LIABILITY.**

5.1. **LIMITATIONS. SUBJECT TO SECTION 5.3 (EXCLUSIONS) BELOW, NEITHER PARTY (NOR SUCH PARTY'S AFFILIATES AND THEIR RELATED PERSONS) SHALL BE LIABLE FOR ANY CONSEQUENTIAL, INDIRECT, EXEMPLARY, OR PUNITIVE DAMAGES (INCLUDING LOST PROFITS) ARISING IN CONNECTION WITH THIS AGREEMENT, INCLUDING THE BAA OR THE PERFORMANCE, OMISSION OF PERFORMANCE, OR TERMINATION HEREOF, WITHOUT REGARD TO THE NATURE OF THE CLAIM (E.G., BREACH OF CONTRACT, NEGLIGENCE, OR OTHERWISE), EVEN IF SUCH PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. FURTHER, THE MAXIMUM, CUMULATIVE, AND AGGREGATE LIABILITY OF EACH PARTY (TOGETHER WITH, ITS AFFILIATES AND THEIR RELATED PERSONS), IN CONNECTION WITH THIS AGREEMENT, INCLUDING THE BAA, SHALL NOT EXCEED THE GREATER OF: (A) THE AGGREGATE AMOUNT OF ALL FEES PAID BY CLIENT TO CONTRACTOR FOR ALL SERVICES UNDER THE APPLICABLE SOW DURING THE TWELVE (12) MONTH PERIOD IMMEDIATELY PRECEDING THE ACT OR OMISSION GIVING RISE TO ANY SUCH LIABILITY, AND (B) TWO MILLION DOLLARS ($2,000,000).**

5.2. **Exclusions**. The limitations and caps on liability in this Section (Limitation of Liability) shall not apply to: (a) any loss covered by insurance that a Party is required to have under this Agreement (including losses which would have been covered by such insurance, but for a Party's failure to have the required insurance coverage); (b) breaches by County of its obligations under Section (Restriction on County's Use), above; (c) amounts owed by County under this Agreement (e.g., Fees, Reimbursed Costs), and profits Contractor would have earned but for a breach of this Agreement by County, and (d) damages that cannot be disclaimed or limited as a matter of law.

6. **SURVIVAL**. Any terms of this Agreement that would, by their nature, survive the termination or expiration of this Agreement shall so survive.

7. **CHANGE ORDER PROCEDURE**. Contractor is under no obligation to provide services, expand hours of service, add Personnel, programs or other resources to County that are outside the scope of any signed SOW ("**Out of Scope**"). Either Party may request changes to an existing SOW, at any time, by providing written notice to the other Party. DocuSign Envelope ID: CAF73DA3-C8E4-48F1-9645-610205D44D6B

to the Agreement. The Review will consist of Contractor assessing County's applicable processes, procedures, and Systems in the following key focus areas:

e. Prevention of duplicate discounts as defined by state Medicaid rules.**.

*Contractor selects transactions for auditing based on a targeted sample which is focused on testing of transactions which are most commonly identified as non-compliant by the Contractor consulting team or where non-compliance may cause the need for significant manufacturer repayment. Targeted transactions may include high-cost drugs, prescribers who write a low volume of orders or prescriptions, drugs administered in procedural areas and clinics, "bulk" or multiple dose containers, and when Medicaid is the payer. Additional random transactions are also included.

Contractor will review a random selection of fee for service Medicaid claims for inclusion of the NPI on the claim and in the Medicaid Exclusion File ("MEF**"), as well as inclusion of any state required modifiers. Contractor does not review the accuracy of the pricing submitted with fee for service Medicaid claims. Contractor also does not review Medicaid managed care claims.

While the Covered Entity may submit multiple universes of data for evaluation, Contractor selects a percentage from each of the submitted universes and combines the selected transactions into two universes; mixed use and pure use areas in one, and clinic grantee outpatient pharmacies and non-network contract pharmacies in the other.

4.1.6. Evaluating County's purchasing process for compliance and optimization opportunities including:

a. County's purchase through any group purchasing organization;

b. County's 340B Program purchases;

For the avoidance of doubt, a ransomware attack shall not be considered an ineffective Security Incident and shall be reported to Covered Entity, irrespective of whether such Security Incident results in a Breach. Business Associate shall investigate each Security Incident of any information system provided by Business Associate (or its Subcontractors) that stores or transmits PHI (each a "BA System"), or unauthorized access, acquisition, Use, or

DocuSign Envelope ID: CAF73DA3-C8E4-48F1-9645-610205D44D6B

(iii) Unless otherwise required by any applicable laws, regulations, ordinances, or court or administrative orders or decrees of any federal, state, local or other governmental unit applicable to Business Associates' Use or Disclosure of PHI (each an "**Applicable Law**"), Covered Entity shall have sole control over the timing and method of providing notification of such Breach to the affected individual(s), the appropriate government agencies, and other persons required by Applicable Law to be notified. Business Associate shall assist with any notifications, as requested by Covered Entity. Business Associate shall take prompt corrective action, including any action required by Applicable Laws relating to such Security Incident or non-permitted access, acquisition, Use, or Disclosure. Business Associate shall reimburse Covered Entity for its reasonable costs and expenses in providing notification to affected individuals, appropriate government agencies, and any other persons required by law to be notified (e.g., without limitation, the media or consumer reporting agencies), including, but not limited to, any administrative costs associated with providing notice, printing and mailing costs, public relations costs, attorney fees, and costs of mitigating the harm (which may include the costs of obtaining up to one (1) year of credit monitoring services and identity theft insurance) for affected individuals whose PHI or other PII has or may have been compromised as a result of the Breach;

The fact that Covered Entity has the right to inspect, inspects, or fails to inspect Business Associate's internal practices, records, books, agreements, policies and procedures does not relieve Business Associate of its responsibility to comply with this BAA, regardless of whether Covered Entity detects or fails to detect a violation by Business Associate, nor does it constitute Covered Entity's acceptance of such practices or waiver of Covered Entity's rights under this BAA;

(e) Document Disclosures of PHI and information related to such Disclosure and, within twenty (20) business days of receiving a written request from Covered Entity, provide to Covered Entity at Covered Entity's sole cost and expense such information as is requested by Covered Entity to permit Covered Entity to respond to a request by an individual for an accounting of the Disclosures of the individual's PHI in accordance with 45 C.F.R. § 164.528 and the HITECH Act. At a minimum, the Business Associate shall provide Covered Entity with the following information: (i) the date of the Disclosure; (ii) the name of the entity or person who received the PHI, and if known, the address of such entity or person; (iii) a brief description of the PHI Disclosed; and (iv) a brief statement of the purpose of such Disclosure which includes an explanation of the basis for such Disclosure. In the event the request for an accounting is delivered directly to the Business Associate, the Business Associate shall, within ten (10) business days, forward such request to Covered Entity. The Business Associate shall implement an appropriate recordkeeping process to enable it to comply with the requirements of this Section;

(f) Subject to Section 4.4 below, return to Covered Entity in a mutually agreeable format and medium, or destroy, within 90 business days of the termination of this BAA, the PHI in its possession and retain no copies, including backup copies;

(g) Use, Disclose to its Subcontractors or other third parties, and request from Covered Entity, only the minimum PHI necessary to perform or fulfill a specific function required or permitted hereunder;

(h) If all or any portion of the PHI is maintained in a Designated Record Set by Business Associate:

DocuSign Envelope ID: CAF73DA3-C8E4-48F1-9645-610205D44D6B

(i) Upon ten (10) days' prior written request from Covered Entity, provide access to the PHI to Covered Entity, or to the individual, if so directed by Covered Entity, to meet a request by an individual under 45 C.F.R. § 164.524 or California Confidentiality Laws. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for access to PHI from an individual; and

(ii) Upon ten (10) days' prior written request from Covered Entity, make any amendment(s) to the PHI that Covered Entity directs pursuant to 45 C.F.R. § 164.526. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for amendment of PHI from an individual.

(i) If applicable, maintain policies and procedures to detect and prevent identity theft in connection with the provision of the Services, to the extent required to comply with the Red Flag Rules;

(j) To the extent that Business Associate carries out one or more of Covered Entity's obligations under the Privacy Rule, Business Associate shall comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligations;

(k) Unless prohibited by law, notify Covered Entity as soon as possible and in no case later than five (5) business days after the Business Associate's receipt of any request or subpoena for PHI. To the extent that Covered Entity decides to assume responsibility for challenging the validity of such request, the Business Associate shall cooperate fully with Covered Entity in such challenge; and

(l) Maintain policies and procedures materially in accordance with HIPAA and California Confidentiality Laws and industry standards designed to ensure the confidentiality, availability, and integrity of Covered Entity's data and protect against threats or vulnerabilities to such data.

3.2 Business Associate Acknowledgment.

(a) Business Associate acknowledges that, as between the Business Associate and Covered Entity, all PHI shall be and remain the sole property of Covered Entity.

(b) Business Associate is not permitted to Use PHI to create de-identified information except as approved in writing by Covered Entity.

(c) Business Associate further acknowledges that it is obligated by law to comply, and represents and warrants that it shall comply, with HIPAA. 3.3 Responsibilities of Covered Entity. Covered Entity shall notify Business Associate of any (i) changes in, or withdrawal of, the authorization of an individual regarding the Use or Disclosure of PHI provided to Covered Entity pursuant to 45 C.F.R. § 164.508, to the extent that such changes may affect Business Associate's Use or Disclosure of PHI; or (ii) restrictions on Use and/or Disclosure of PHI as provided for in 45 C.F.R. § 164.522 agreed to by Covered Entity, to the extent that such restriction may affect Business Associate's Use or Disclosure of PHI. Notwithstanding anything to the contrary in any other agreement with the Covered Entity, Business Associate may limit its Services to the next necessary to comply with any such change in authorization regarding the Use or Disclosure of PHI.

4. TERM AND TERMINATION

4.1 Term. This BAA shall become effective on the Effective Date and shall continue in effect until all of the PHI provided by Covered Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity, or if it is infeasible to return or destroy PHI, protections are extended to such PHI, in accordance with the termination provisions in Section 4.4. Certain provisions and requirements of this BAA shall survive its expiration or other termination as set forth in Section 5 herein.

4.2 Termination. If Business Associate has breached a material term of this BAA, Covered Entity may either: (i) immediately terminate this BAA and any suspend Covered Entities provision of Services under any Services Agreement without penalty; or (ii) terminate this BAA and any underlying Services Agreement within thirty (30) days of Business Associate's receipt of written notice of such breach, if such breach is not cured within such thirty (30) day period.

4.3 Automatic Termination. This BAA shall automatically terminate without any further action of the Parties upon the termination or expiration of all Services Agreements between Covered Entity and Business Associate that would necessitate having this BAA in place.

4.4 Effect of Termination. Upon termination or expiration of this BAA for any reason, Business Associate shall return or destroy all PHI pursuant to 45 C.F.R. § 164.504(e)(2)(ii)(J) if, and to the extent that, it is feasible to do so. Subcontractors (or shall receive a certification from its Subcontractors that such PHI has been deleted). Business Associate shall certify in writing that all PHI has been returned or securely destroyed, and no copies retained, upon Covered Entity's request. To the extent it is not feasible for Business Associate to return or destroy any portion of the PHI, Business Associate shall notify Covered Entity in writing of the condition that makes return or destruction infeasible. If the return or destruction of the PHI is infeasible, Business Associate shall: (i) retain only that PHI which is infeasible to return or destroy; (ii) return to Covered Entity the remaining PHI that the Business Associate maintains in any form; (iii) continue to extend the protections of this BAA to the PHI for as long as Business Associate retains PHI; (iv) limit further Uses and Disclosures of such PHI to those purposes that make the return or destruction of the PHI not feasible and subject to the same conditions as set out in Sections 2 and 3 above, which applied prior to termination; and (v) return to Covered Entity the PHI retained by Business Associate when such return is no longer infeasible.

5. MISCELLANEOUS

5.1 Survival. The obligations of Business Associate under the provisions of Sections 3.1, 3.2, and 4.4 and Article 5 shall survive termination of this BAA until such time as all PHI is returned to Covered Entity or destroyed.

5.2 Amendments; Waiver. This BAA may not be modified or amended, except in a writing duly signed by authorized representatives of the Parties. To the extent that any relevant provision of HIPAA or California Confidentiality Laws is materially amended in a manner that changes the obligations of the Parties, the Parties agree to negotiate in good faith appropriate amendment(s) to this BAA to give effect to the revised obligations. Further, no provision of this BAA shall be waived, except in a writing duly signed by authorized representatives of the Parties. A waiver with respect to one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

5.3 No Third Party Beneficiaries. Nothing express or implied in this BAA is intended to confer, nor shall anything herein confer, upon any person other than the Parties and the respective successors or assigns of the Parties, any rights, remedies, obligations, or liabilities whatsoever.

Award Letter

September 26, 2023

Dear Roberto Filice,

On behalf of Attorney General Merrick B. Garland, it is my pleasure to inform you the Office of Justice Programs (OJP) has approved the application submitted by CITY OF SALINAS for an award under the funding opportunity entitled 2023 BJA FY 23 Edward Byrne Memorial Justice Assistance Grant (JAG) Program - Local Solicitation. The approved award amount is $92,532.
Review the Award Instrument below carefully and familiarize yourself with all conditions and requirements before accepting your award. The Award Instrument includes the Award Offer (Award Information, Project Information, Financial Information, and Award Conditions) and Award Acceptance. For COPS Office and OVW funding the Award Offer also includes any Other Award Documents.

Please note that award requirements include not only the conditions and limitations set forth in the Award Offer, but also compliance with assurances and certifications that relate to conduct during the period of performance for the award. These requirements encompass financial, administrative, and programmatic matters, as well as other important matters (e.g., specific restrictions on use of funds). Therefore, all key staff should receive the award conditions, the assurances and certifications, and the application as approved by OJP, so that they understand the award requirements. Information on all pertinent award requirements also must be provided to any subrecipient of the award.

Should you accept the award and then fail to comply with an award requirement, DOJ will pursue appropriate remedies for non-compliance, which may include termination of the award and/or a requirement to repay award funds.

Prior to accepting the award, your Entity Administrator must assign a Financial Manager, Grant Award Administrator, and Authorized Representative(s) in the Justice Grants System (JustGrants). The Entity Administrator will need to ensure the assigned Authorized Representative(s) is current and has the legal authority to accept awards and bind the entity to the award terms and conditions. To accept the award, the Authorized Representative(s) must accept all parts of the Award Offer in the Justice Grants System (JustGrants), including by executing the required declaration and certification, within 45 days from the award date.

To access your funds, you will need to enroll in the Automated Standard Application for Payments (ASAP) system, if you haven't already completed the enrollment process in ASAP. The Entity Administrator should have already received an email from ASAP to initiate this process.

Congratulations, and we look forward to working with you.

Maureen Henneberg
Deputy Assistant Attorney General

Office for Civil Rights Notice for All Recipients

The Office for Civil Rights (OCR), Office of Justice Programs (OJP), U.S. Department of Justice (DOJ) has been delegated the responsibility for ensuring that recipients of federal financial assistance from the OJP, the Office of Community Oriented Policing Services (COPS), and the Office on Violence Against Women (OVW) are not engaged in discrimination prohibited by law. Several federal civil rights laws, such as Title VI of the Civil Rights Act of 1964 and Section 504 of the Rehabilitation Act of 1973, require recipients of federal financial assistance to give assurances that they will comply with those laws. Taken together, these civil rights laws prohibit recipients of federal financial assistance from DOJ from discriminating in services and employment because of race, color, national origin, religion, disability, sex, and, for grants authorized under the Violence Against Women Act, sexual orientation and gender identity. Recipients are also prohibited from discriminating in services because of age. For a complete review of these civil rights laws and nondiscrimination requirements, in connection with DOJ awards, see https://ojp.gov/funding/Explore/LegalOverview/CivilRightsRequirements.htm.

Under the delegation of authority, the OCR investigates allegations of discrimination against recipients from individuals, entities, or groups. In addition, the OCR conducts limited compliance reviews and audits based on regulatory criteria.

These reviews and audits permit the OCR to evaluate whether recipients of financial assistance from the Department are providing services in a nondiscriminatory manner to their service population or have employment practices that meet equal-opportunity standards.

If you are a recipient of grant awards under the Omnibus Crime Control and Safe Streets Act or the Juvenile Justice and Delinquency Prevention Act and your agency is part of a criminal justice system, there are two additional obligations that may apply in connection with the awards: (1) complying with the regulation relating to Equal Employment Opportunity Programs (EEOPs); and (2) submitting findings of discrimination to OCR. For additional information regarding the EEOP requirement, see 28 CFR Part 42, subpart E, and for additional information regarding requirements when there is an adverse finding, see 28 C.F.R. §§ 42.204(c), .205(c)(5).

The OCR is available to help you and your organization meet the civil rights requirements that are associated with DOJ grant funding. If you would like the OCR to assist you in fulfilling your organization's civil rights or nondiscrimination responsibilities as a recipient of federal financial assistance, please do not hesitate to contact the OCR at askOCR@ojp.usdoj.gov.

The specified activities requiring environmental analysis are:

a. New construction;

b. Any renovation or remodeling of a property located in an environmentally or historically sensitive area, including properties located within a 100-year flood plain, a wetland, or habitat for endangered species, or a property listed on or eligible for listing on the National Register of Historic Places;

I have read and understand the information presented in this section of the Federal Award Instrument.

Award Conditions

This award is offered subject to the conditions or limitations set forth in the Award Information, Project Information, Financial Information, and Award Conditions.

1

Compliance with restrictions on the use of federal funds--prohibited and controlled equipment under OJP awards

Consistent with Executive Order 14074, “Advancing Effective, Accountable Policing and Criminal Justice Practices To Enhance Public Trust and Public Safety,” OJP has prohibited the use of federal funds under this award for purchases or transfers of specified equipment by law enforcement agencies. In addition, OJP requires the recipient, and any subrecipient (“subgrantee”) at any tier, to put in place specified controls prior to using federal funds under this award to acquire or transfer any property identified on the “controlled equipment” list. The details of the requirement are posted on the OJP web site at https://www.ojp.gov/funding/explore/prohibited-and-controlled-equipment (Award condition: Compliance with restrictions on the use of federal funds--prohibited and controlled equipment under OJP awards), and are incorporated by reference here.

2

Compliance with DOJ regulations pertaining to civil rights and nondiscrimination - 28 C.F.R. Part 54

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements of 28 C.F.R. Part 54, which relates to nondiscrimination on the basis of sex in certain "education programs."

3

Compliance with 41 U.S.C. 4712 (including prohibitions on reprisal; notice to employees)

The recipient (and any subrecipient at any tier) must comply with, and is subject to, all applicable provisions of 41 U.S.C. 4712, including all applicable provisions that prohibit, under specified circumstances, discrimination against an employee as reprisal for the employee's disclosure of information related to gross mismanagement of a federal grant, a gross waste of federal funds, an abuse of authority relating to a federal grant, a substantial and specific danger to public health or safety, or a violation of law, rule, or regulation related to a federal grant.

The recipient also must inform its employees, in writing (and in the predominant native language of the workforce), of employee rights and remedies under 41 U.S.C. 4712.

Should a question arise as to the applicability of the provisions of 41 U.S.C. 4712 to this award, the recipient is to contact the DOJ awarding agency (OJP or OVW, as appropriate) for guidance.

4

Applicability of Part 200 Uniform Requirements

The Uniform Administrative Requirements, Cost Principles, and Audit Requirements in 2 C.F.R. Part 200, as adopted and supplemented by DOJ in 2 C.F.R. Part 2800 (together, the "Part 200 Uniform Requirements") apply to this FY 2022 award from OJP.

The Part 200 Uniform Requirements were first adopted by DOJ on December 26, 2014. If this FY 2022 award supplements funds previously awarded by OJP under the same award number (e.g., funds awarded during or before December 2014), the Part 200 Uniform Requirements apply with respect to all funds under that award number (regardless of the award date, and regardless of whether derived from the initial award or a supplemental award) that are obligated on or after the acceptance date of this FY 2022 award.

For more information and resources on the Part 200 Uniform Requirements as they relate to OJP awards and subawards ("subgrants"), see the OJP website at https://ojp.gov/funding/Part200UniformRequirements.htm.

Record retention and access: Records pertinent to the award that the recipient (and any subrecipient ("subgrantee") at any tier) must retain -- typically for a period of 3 years from the date of submission of the final expenditure report (SF 425), unless a different retention period applies -- and to which the recipient (and any subrecipient ("subgrantee") at any tier) must provide access, include performance measurement information, in addition to the financial records, supporting documents, statistical records, and other pertinent records indicated at 2 C.F.R. 200.334.

In the event that an award-related question arises from documents or other materials prepared or distributed by OJP

that may appear to conflict with, or differ in some way from, the provisions of the Part 200 Uniform Requirements, the recipient is to contact OJP promptly for clarification.

5

Compliance with applicable rules regarding approval, planning, and reporting of conferences, meetings, trainings, and other events

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable laws, regulations, policies, and official DOJ guidance (including specific cost limits, prior approval and reporting requirements, where applicable) governing the use of federal funds for expenses related to conferences (as that term is defined by DOJ), including the provision of food and/or beverages at such conferences, and costs of attendance at such conferences.

Information on the pertinent DOJ definition of conferences and the rules applicable to this award appears in the DOJ Grants Financial Guide (currently, as section 3.10 of "Postaward Requirements" in the "DOJ Grants Financial Guide").

6

Requirement for data on performance and effectiveness under the award

The recipient must collect and maintain data that measure the performance and effectiveness of work under this award. The data must be provided to OJP in the manner (including within the timeframes) specified by OJP in the program solicitation or other applicable written guidance. Data collection supports compliance with the Government Performance and Results Act (GPRA) and the GPRA Modernization Act of 2010, and other applicable laws.

7

Compliance with DOJ Grants Financial Guide

References to the DOJ Grants Financial Guide are to the DOJ Grants Financial Guide as posted on the OJP website (currently, the "DOJ Grants Financial Guide" available at https://ojp.gov/financialguide/DOJ/index.htm), including any updated version that may be posted during the period of performance. The recipient agrees to comply with the DOJ Grants Financial Guide.

8

Compliance with general appropriations-law restrictions on the use of federal funds (FY 2022)

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable restrictions on the use of federal funds set out in federal appropriations statutes. Pertinent restrictions, including from various "general provisions" in the Consolidated Appropriations Act, 2022, are set out at https://www.ojp.gov/funding/Explore/FY22AppropriationsRestrictions.htm, and are incorporated by reference here.

Should a question arise as to whether a particular use of federal funds by a recipient (or a subrecipient) would or might fall within the scope of an appropriations-law restriction, the recipient is to contact OJP for guidance, and may not proceed without the express prior written approval of OJP.

9

Compliance with DOJ regulations pertaining to civil rights and nondiscrimination - 28 C.F.R. Part 38

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements of 28 C.F.R. Part 38 (as may be applicable from time to time), specifically including any applicable requirements regarding written notice to program beneficiaries and prospective program beneficiaries.

Currently, among other things, 28 C.F.R. Part 38 includes rules that prohibit specific forms of discrimination on the basis of religion, a religious belief, a refusal to hold a religious belief, or refusal to attend or participate in a religious practice. Part 38, currently, also sets out rules and requirements that pertain to recipient and subrecipient ("subgrantee") organizations that engage in or conduct explicitly religious activities, as well as rules and requirements that pertain to recipients and subrecipients that are faith-based or religious organizations.

The text of 28 C.F.R. Part 38 is available via the Electronic Code of Federal Regulations (currently accessible at https://www.ecfr.gov/cgi-bin/ECFR?page=browse), by browsing to Title 28-Judicial Administration, Chapter 1, Part 38, under e-CFR "current" data.

10

Effect of failure to address audit issues

The recipient understands and agrees that the DOJ awarding agency (OJP or OVW, as appropriate) may withhold award funds, or may impose other related requirements, if (as determined by the DOJ awarding agency) the recipient does not satisfactorily and promptly address outstanding issues from audits required by the Part 200 Uniform Requirements (or by the terms of this award), or other outstanding issues that arise in connection with audits, investigations, or reviews of DOJ awards.

11

Requirements of the award; remedies for non-compliance or for materially false statements

The conditions of this award are material requirements of the award. Compliance with any assurances or certifications submitted by or on behalf of the recipient that relate to conduct during the period of performance also is a material requirement of this award.

Limited Exceptions. In certain special circumstances, the U.S. Department of Justice ("DOJ") may determine that it will not enforce, or enforce only in part, one or more requirements otherwise applicable to the award. Any such exceptions regarding enforcement, including any such exceptions made during the period of performance, are (or will be during the period of performance) set out through the Office of Justice Programs ("OJP") webpage entitled "Legal Notices: Special circumstances as to particular award conditions" (ojp.gov/funding/Explore/LegalNotices-AwardReqts.htm), and incorporated by reference into the award.

By signing and accepting this award on behalf of the recipient, the authorized recipient official accepts all material requirements of the award, and specifically adopts, as if personally executed by the authorized recipient official, all assurances or certifications submitted by or on behalf of the recipient that relate to conduct during the period of performance.

Failure to comply with one or more award requirements -- whether a condition set out in full below, a condition incorporated by reference below, or an assurance or certification related to conduct during the award period -- may result in OJP taking appropriate action with respect to the recipient and the award. Among other things, the OJP may withhold award funds, disallow costs, or suspend or terminate the award. DOJ, including OJP, also may take other legal action as appropriate.

Any materially false, fictitious, or fraudulent statement to the federal government related to this award (or concealment or omission of a material fact) may be the subject of criminal prosecution (including under 18 U.S.C. 1001 and/or 1621, and/or 34 U.S.C. 10271-10273), and also may lead to imposition of civil penalties and administrative remedies for false claims or otherwise (including under 31 U.S.C. 3729-3730 and 3801-3812).

Should any provision of a requirement of this award be held to be invalid or unenforceable by its terms, that provision shall first be applied with a limited construction so as to give it the maximum effect permitted by law. Should it be held, instead, that the provision is utterly invalid or -unenforceable, such provision shall be deemed severable from this award.

12

Compliance with DOJ regulations pertaining to civil rights and nondiscrimination - 28 C.F.R. Part 42

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements of 28 C.F.R. Part 42, specifically including any applicable requirements in Subpart E of 28 C.F.R. Part 42 that relate to an equal employment opportunity program.

13

Requirements related to "de minimis" indirect cost rate

A recipient that is eligible under the Part 200 Uniform Requirements and other applicable law to use the "de minimis" indirect cost rate described in 2 C.F.R. 200.414(f), and that elects to use the "de minimis" indirect cost rate, must advise OJP in writing of both its eligibility and its election, and must comply with all associated requirements in the Part 200 Uniform Requirements. The "de minimis" rate may be applied only to modified total direct costs (MTDC) as defined by the Part 200 Uniform Requirements.

14

Employment eligibility verification for hiring under the award

1. The recipient (and any subrecipient at any tier) must--

A. Ensure that, as part of the hiring process for any position within the United States that is or will be funded (in whole or in part) with award funds, the recipient (or any subrecipient) properly verifies the employment eligibility of the individual who is being hired, consistent with the provisions of 8 U.S.C. 1324a(a)(1).

B. Notify all persons associated with the recipient (or any subrecipient) who are or will be involved in activities under this award of both--

(1) this award requirement for verification of employment eligibility, and

(2) the associated provisions in 8 U.S.C. 1324a(a)(1) that, generally speaking, make it unlawful, in the United States, to hire (or recruit for employment) certain aliens.

C. Provide training (to the extent necessary) to those persons required by this condition to be notified of the award requirement for employment eligibility verification and of the associated provisions of 8 U.S.C. 1324a(a)(1).

D. As part of the recordkeeping for the award (including pursuant to the Part 200 Uniform Requirements), maintain records of all employment eligibility verifications pertinent to compliance with this award condition in accordance with Form I-9 record retention requirements, as well as records of all pertinent notifications and trainings.

2. Monitoring

The recipient's monitoring responsibilities include monitoring of subrecipient compliance with this condition.

3. Allowable costs

To the extent that such costs are not reimbursed under any other federal program, award funds may be obligated for the reasonable, necessary, and allocable costs (if any) of actions designed to ensure compliance with this condition.

4. Rules of construction

A. Staff involved in the hiring process

For purposes of this condition, persons "who are or will be involved in activities under this award" specifically includes (without limitation) any and all recipient (or any subrecipient) officials or other staff who are or will be involved in the hiring process with respect to a position that is or will be funded (in whole or in part) with award funds.

B. Employment eligibility confirmation with E-Verify

For purposes of satisfying the requirement of this condition regarding verification of employment eligibility, the recipient (or any subrecipient) may choose to participate in, and use, E-Verify (www.e-verify.gov), provided an appropriate person authorized to act on behalf of the recipient (or subrecipient) uses E-Verify (and follows the proper E-Verify procedures, including in the event of a "Tentative Nonconfirmation" or a "Final Nonconfirmation") to confirm employment eligibility for each hiring for a position in the United States that is or will be funded (in whole or in part) with award funds.

C. "United States" specifically includes the District of Columbia, Puerto Rico, Guam, the Virgin Islands of the United States, and the Commonwealth of the Northern Mariana Islands.

D. Nothing in this condition shall be understood to authorize or require any recipient, any subrecipient at any tier, or any person or other entity, to violate any federal law, including any applicable civil rights or nondiscrimination law.

E. Nothing in this condition, including in paragraph 4.B., shall be understood to relieve any recipient, any subrecipient at any tier, or any person or other entity, of any obligation otherwise imposed by law, including 8 U.S.C. 1324a(a)(1).

Questions about E-Verify should be directed to DHS. For more information about E-Verify visit the E-Verify website (https://www.e-verify.gov/) or email E-Verify at E-Verify@dhs.gov. E-Verify employer agents can email E-Verify at E-VerifyEmployerAgent@dhs.gov.

Questions about the meaning or scope of this condition should be directed to OJP, before award acceptance.

15

OJP Training Guiding Principles

Any training or training materials that the recipient -- or any subrecipient ("subgrantee") at any tier -- develops or delivers with OJP award funds must adhere to the OJP Training Guiding Principles for Grantees and Subgrantees, available at https://www.ojp.gov/funding/implement/training-guiding-principles-grantees-and-subgrantees.

16

Determination of suitability to interact with participating minors

SCOPE. This condition applies to this award if it is indicated -- in the application for the award (as approved by DOJ)(or in the application for any subaward, at any tier), the DOJ funding announcement (solicitation), or an associated federal statute -- that a purpose of some or all of the activities to be carried out under the award (whether by the recipient, or a subrecipient at any tier) is to benefit a set of individuals under 18 years of age.

The recipient, and any subrecipient at any tier, must make determinations of suitability before certain individuals may interact with participating minors. This requirement applies regardless of an individual's employment status.

The details of this requirement are posted on the OJP web site at https://ojp.gov/funding/Explore/Interact-Minors.htm (Award condition: Determination of suitability required, in advance, for certain individuals who may interact with participating minors), and are incorporated by reference here.

17

Potential imposition of additional requirements

The recipient agrees to comply with any additional requirements that may be imposed by the DOJ awarding agency (OJP or OVW, as appropriate) during the period of performance for this award, if the recipient is designated as "high-risk" for purposes of the DOJ high-risk grantee list.

18

Required training for Grant Award Administrator and Financial Manager

The Grant Award Administrator and all Financial Managers for this award must have successfully completed an "OJP financial management and grant administration training" by 120 days after the date of the recipient's acceptance of the award. Successful completion of such a training on or after October 15, 2020, will satisfy this condition.

In the event that either the Grant Award Administrator or a Financial Manager for this award changes during the period of performance, the new Grant Award Administrator or Financial Manager must have successfully completed an "OJP financial management and grant administration training" by 120 calendar days after the date the Entity Administrator enters updated Grant Award Administrator or Financial Manager information in JustGrants. Successful completion of such a training on or after October 15, 2020, will satisfy this condition.

A list of OJP trainings that OJP will consider "OJP financial management and grant administration training" for purposes of this condition is available at https://onlinegfmt.training.ojp.gov/. All trainings that satisfy this condition

include a session on grant fraud prevention and detection.

The recipient should anticipate that OJP will immediately withhold ("freeze") award funds if the recipient fails to comply with this condition. The recipient's failure to comply also may lead OJP to impose additional appropriate conditions on this award.

19

Restrictions and certifications regarding non-disclosure agreements and related matters

No recipient or subrecipient ("subgrantee") under this award, or entity that receives a procurement contract or subcontract with any funds under this award, may require any employee or contractor to sign an internal confidentiality agreement or statement that prohibits or otherwise restricts, or purports to prohibit or restrict, the reporting (in accordance with law) of waste, fraud, or abuse to an investigative or law enforcement representative of a federal department or agency authorized to receive such information.

The foregoing is not intended, and shall not be understood by the agency making this award, to contravene requirements applicable to Standard Form 312 (which relates to classified information), Form 4414 (which relates to sensitive compartmented information), or any other form issued by a federal department or agency governing the nondisclosure of classified information.

1. In accepting this award, the recipient--

a. represents that it neither requires nor has required internal confidentiality agreements or statements from employees or contractors that currently prohibit or otherwise currently restrict (or purport to prohibit or restrict) employees or contractors from reporting waste, fraud, or abuse as described above; and

b. certifies that, if it learns or is notified that it is or has been requiring its employees or contractors to execute agreements or statements that prohibit or otherwise restrict (or purport to prohibit or restrict), reporting of waste, fraud, or abuse as described above, it will immediately stop any further obligations of award funds, will provide prompt written notification to the federal agency making this award, and will resume (or permit resumption of) such obligations only if expressly authorized to do so by that agency.

2. If the recipient does or is authorized under this award to make subawards ("subgrants"), procurement contracts, or both--

a. it represents that--

(1) it has determined that no other entity that the recipient's application proposes may or will receive award funds (whether through a subaward ("subgrant"), procurement contract, or subcontract under a procurement contract) either requires or has required internal confidentiality agreements or statements from employees or contractors that currently prohibit or otherwise currently restrict (or purport to prohibit or restrict) employees or contractors from reporting waste, fraud, or abuse as described above; and

(2) it has made appropriate inquiry, or otherwise has an adequate factual basis, to support this representation; and

b. it certifies that, if it learns or is notified that any subrecipient, contractor, or subcontractor entity that receives funds under this award is or has been requiring its employees or contractors to execute agreements or statements that prohibit or otherwise restrict (or purport to prohibit or restrict), reporting of waste, fraud, or abuse as described above, it will immediately stop any further obligations of award funds to or by that entity, will provide prompt written notification to the federal agency making this award, and will resume (or permit resumption of) such obligations only if expressly authorized to do so by that agency.

Reclassification of various statutory provisions to a new Title 34 of the United States Code

On September 1, 2017, various statutory provisions previously codified elsewhere in the U.S. Code were editorially reclassified (that is, moved and renumbered) to a new Title 34, entitled "Crime Control and Law Enforcement." The reclassification encompassed a number of statutory provisions pertinent to OJP awards (that is, OJP grants and

cooperative agreements), including many provisions previously codified in Title 42 of the U.S. Code.

Effective as of September 1, 2017, any reference in this award document to a statutory provision that has been reclassified to the new Title 34 of the U.S. Code is to be read as a reference to that statutory provision as reclassified to Title 34. This rule of construction specifically includes references set out in award conditions, references set out in material incorporated by reference through award conditions, and references set out in other award requirements.

21

Requirement to report actual or imminent breach of personally identifiable information (PII)

The recipient (and any "subrecipient" at any tier) must have written procedures in place to respond in the event of an actual or imminent "breach" (OMB M-17-12) if it (or a subrecipient) -- (1) creates, collects, uses, processes, stores, maintains, disseminates, discloses, or disposes of "Personally Identifiable Information (PII)" (2 CFR 200.1) within the scope of an OJP grant-funded program or activity, or (2) uses or operates a "Federal information system" (OMB Circular A-130). The recipient's breach procedures must include a requirement to report actual or imminent breach of PII to an OJP Program Manager no later than 24 hours after an occurrence of an actual breach, or the detection of an imminent breach.

22

Requirement to disclose whether recipient is designated "high risk" by a federal grant-making agency outside of DOJ

If the recipient is designated "high risk" by a federal grant-making agency outside of DOJ, currently or at any time during the course of the period of performance under this award, the recipient must disclose that fact and certain related information to OJP by email at OJP.ComplianceReporting@ojp.usdoj.gov. For purposes of this disclosure, high risk includes any status under which a federal awarding agency provides additional oversight due to the recipient's past performance, or other programmatic or financial concerns with the recipient. The recipient's disclosure must include the following: 1. The federal awarding agency that currently designates the recipient high risk, 2. The date the recipient was designated high risk, 3. The high-risk point of contact at that federal awarding agency (name, phone number, and email address), and 4. The reasons for the high-risk status, as set out by the federal awarding agency.

23

Encouragement of policies to ban text messaging while driving

Pursuant to Executive Order 13513, "Federal Leadership on Reducing Text Messaging While Driving," 74 Fed. Reg. 51225 (October 1, 2009), DOJ encourages recipients and subrecipients ("subgrantees") to adopt and enforce policies banning employees from text messaging while driving any vehicle during the course of performing work funded by this award, and to establish workplace safety policies and conduct education, awareness, and other outreach to decrease crashes caused by distracted drivers.

24

All subawards ("subgrants") must have specific federal authorization

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements for authorization of any subaward. This condition applies to agreements that -- for purposes of federal grants administrative requirements -- OJP considers a "subaward" (and therefore does not consider a procurement "contract").

The details of the requirement for authorization of any subaward are posted on the OJP web site at https://ojp.gov/funding/Explore/SubawardAuthorization.htm (Award condition: All subawards ("subgrants") must have specific federal authorization), and are incorporated by reference here.

25

Specific post-award approval required to use a noncompetitive approach in any procurement contract that would exceed $250,000

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements to obtain

specific advance approval to use a noncompetitive approach in any procurement contract that would exceed the Simplified Acquisition Threshold (currently, $250,000). This condition applies to agreements that -- for purposes of federal grants administrative requirements -- OJP considers a procurement "contract" (and therefore does not consider a subaward).

The details of the requirement for advance approval to use a noncompetitive approach in a procurement contract under an OJP award are posted on the OJP web site at https://ojp.gov/funding/Explore/NoncompetitiveProcurement.htm (Award condition: Specific post-award approval required to use a noncompetitive approach in a procurement contract (if contract would exceed $250,000)), and are incorporated by reference here.

26

Requirements pertaining to prohibited conduct related to trafficking in persons (including reporting requirements and OJP authority to terminate award)

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements (including requirements to report allegations) pertaining to prohibited conduct related to the trafficking of persons, whether on the part of recipients, subrecipients ("subgrantees"), or individuals defined (for purposes of this condition) as "employees" of the recipient or of any subrecipient.

The details of the recipient's obligations related to prohibited conduct related to trafficking in persons are posted on the OJP web site at https://ojp.gov/funding/Explore/ProhibitedConduct-Trafficking.htm (Award condition: Prohibited conduct by recipients and subrecipients related to trafficking in persons (including reporting requirements and OJP authority to terminate award)), and are incorporated by reference here.

27

Requirement to report potentially duplicative funding

If the recipient currently has other active awards of federal funds, or if the recipient receives any other award of federal funds during the period of performance for this award, the recipient promptly must determine whether funds from any of those other federal awards have been, are being, or are to be used (in whole or in part) for one or more of the identical cost items for which funds are provided under this award. If so, the recipient must promptly notify the DOJ awarding agency (OJP or OVW, as appropriate) in writing of the potential duplication, and, if so requested by the DOJ awarding agency, must seek a budget-modification or change-of-project-scope Grant Award Modification (GAM) to eliminate any inappropriate duplication of funding.

28

Reporting potential fraud, waste, and abuse, and similar misconduct

The recipient, and any subrecipients ("subgrantees") at any tier, must promptly refer to the DOJ Office of the Inspector General (OIG) any credible evidence that a principal, employee, agent, subrecipient, contractor, subcontractor, or other person has, in connection with funds under this award-- (1) submitted a claim that violates the False Claims Act; or (2) committed a criminal or civil violation of laws pertaining to fraud, conflict of interest, bribery, gratuity, or similar misconduct.

Potential fraud, waste, abuse, or misconduct involving or relating to funds under this award should be reported to the OIG by--(1) online submission accessible via the OIG webpage at https://oig.justice.gov/hotline/contact-grants.htm (select "Submit Report Online"); (2) mail directed to: U.S. Department of Justice, Office of the Inspector General, Investigations Division, ATTN: Grantee Reporting, 950 Pennsylvania Ave., NW, Washington, DC 20530; and/or (3) by facsimile directed to the DOJ OIG Investigations Division (Attn: Grantee Reporting) at (202) 616-9881 (fax).

Additional information is available from the DOJ OIG website at https://oig.justice.gov/hotline.

29

Requirements related to System for Award Management and Universal Identifier Requirements

The recipient must comply with applicable requirements regarding the System for Award Management (SAM), currently accessible at https://www.sam.gov/. This includes applicable requirements regarding registration with SAM, as well as

maintaining the currency of information in SAM.

The recipient also must comply with applicable restrictions on subawards ("subgrants") to first-tier subrecipients (first-tier "subgrantees"), including restrictions on subawards to entities that do not acquire and provide (to the recipient) the unique entity identifier required for SAM registration.

The details of the recipient's obligations related to SAM and to unique entity identifiers are posted on the OJP web site at https://ojp.gov/funding/Explore/SAM.htm (Award condition: System for Award Management (SAM) and Universal Identifier Requirements), and are incorporated by reference here.

This condition does not apply to an award to an individual who received the award as a natural person (i.e., unrelated to any business or non-profit organization that he or she may own or operate in his or her name).

30

Restrictions on "lobbying"

In general, as a matter of federal law, federal funds awarded by OJP may not be used by the recipient, or any subrecipient ("subgrantee") at any tier, either directly or indirectly, to support or oppose the enactment, repeal, modification, or adoption of any law, regulation, or policy, at any level of government. See 18 U.S.C. 1913. (There may be exceptions if an applicable federal statute specifically authorizes certain activities that otherwise would be barred by law.)

Another federal law generally prohibits federal funds awarded by OJP from being used by the recipient, or any subrecipient at any tier, to pay any person to influence (or attempt to influence) a federal agency, a Member of Congress, or Congress (or an official or employee of any of them) with respect to the awarding of a federal grant or cooperative agreement, subgrant, contract, subcontract, or loan, or with respect to actions such as renewing, extending, or modifying any such award. See 31 U.S.C. 1352. Certain exceptions to this law apply, including an exception that applies to Indian tribes and tribal organizations.

Should any question arise as to whether a particular use of federal funds by a recipient (or subrecipient) would or might fall within the scope of these prohibitions, the recipient is to contact OJP for guidance, and may not proceed without the express prior written approval of OJP.

31

Justice Information Sharing

Information sharing projects funded under this award must comply with DOJ's Global Justice Information Sharing Initiative (Global) guidelines. The recipient (and any subrecipient at any tier) must conform to the Global Standards Package (GSP) and all constituent elements, where applicable, as described at: https:/ / it.ojp.gov/ gsp_grantcondition. The recipient (and any subrecipient at any tier) must document planned approaches to information sharing and describe compliance with the GSP and appropriate privacy policy that protects shared information, or provide detailed justification for why an alternative approach is recommended.

32

Avoidance of duplication of networks

To avoid duplicating existing networks or IT systems in any initiatives funded by BJA for law enforcement information sharing systems which involve interstate connectivity between jurisdictions, such systems shall employ, to the extent possible, existing networks as the communication backbone to achieve interstate connectivity, unless the recipient can demonstrate to the satisfaction of BJA that this requirement would not be cost effective or would impair the functionality of an existing or proposed IT system.

33

Law enforcement task forces - required training

Within 120 days of award acceptance, each current member of a law enforcement task force funded with award funds who is a task force commander, agency executive, task force officer, or other task force member of equivalent rank,

must complete required online (internet-based) task force training. Additionally, all future task force members must complete this training once during the period of performance for this award, or once every four years if multiple OJP awards include this requirement.

The required training is available free of charge online through the BJA-funded Center for Task Force Integrity and Leadership (www.ctfli.org). The training addresses task force effectiveness, as well as other key issues including privacy and civil liberties/rights, task force performance measurement, personnel selection, and task force oversight and accountability. If award funds are used to support a task force, the recipient must compile and maintain a task force personnel roster, along with course completion certificates.

Additional information regarding the training is available through BJA's web site and the Center for Task Force Integrity and Leadership (www.ctfli.org).

34

Required monitoring of subawards

The recipient must monitor subawards under this award in accordance with all applicable statutes, regulations, award conditions, and the DOJ Grants Financial Guide, and must include the applicable conditions of this award in any subaward. Among other things, the recipient is responsible for oversight of subrecipient spending and monitoring of specific outcomes and benefits attributable to use of award funds by subrecipients. The recipient agrees to submit, upon request, documentation of its policies and procedures for monitoring of subawards under this award.

35

Any written, visual, or audio publications funded in whole or in part under this award, with the exception of press releases, shall contain the following statements: "This project was supported by Grant No. <AWARD_NUMBER> awarded by the Bureau of Justice Assistance. The Bureau of Justice Assistance is a component of the Department of Justice's Office of Justice Programs, which also includes the Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, the Office for Victims of Crime, and the SMART Office. Points of view or opinions in this document are those of the author and do not necessarily represent the official position or policies of the U.S. Department of Justice." The current edition of the DOJ Grants Financial Guide provides guidance on allowable printing and publication activities.

36

Any Web site that is funded in whole or in part under this award must include the following statement on the home page, on all major entry pages (i.e., pages (exclusive of documents) whose primary purpose is to navigate the user to interior content), and on any pages from which a visitor may access or use a Web-based service, including any pages that provide results or outputs from the service: "This Web site is funded in whole or in part through a grant from the Bureau of Justice Assistance, Office of Justice Programs, U.S. Department of Justice. Neither the U.S. Department of Justice nor any of its components operate, control, are responsible for, or necessarily endorse, this Web site (including, without limitation, its content, technical infrastructure, and policies, and any services or tools provided)." The full text of the foregoing statement must be clearly visible on the home page. On other pages, the statement may be included through a link, entitled "Notice of Federal Funding and Federal Disclaimer," to the full text of the statement.

37

Verification and updating of recipient contact information

The recipient must verify its Grant Award Administrator, Financial Manager, and Authorized Representative contact information in JustGrants, including telephone number and e-mail address. If any information is incorrect or has changed, the award recipient’s Entity Administrator must make changes to contact information through DIAMD. Instructions on how to update contact information in JustGrants can be found at https://justicegrants.usdoj.gov/training/training-entity-management.

38

Compliance with National Environmental Policy Act and related statutes

Upon request, the recipient (and any subrecipient at any tier) must assist BJA in complying with the National

Environmental Policy Act (NEPA), the National Historic Preservation Act, and other related federal environmental impact analyses requirements in the use of these award funds, either directly by the recipient or by a subrecipient. Accordingly, the recipient agrees to first determine if any of the following activities will be funded by the grant, prior to obligating funds for any of these purposes. If it is determined that any of the following activities will be funded by the award, the recipient agrees to contact BJA.

The recipient understands that this condition applies to new activities as set out below, whether or not they are being specifically funded with these award funds. That is, as long as the activity is being conducted by the recipient, a subrecipient, or any third party, and the activity needs to be undertaken in order to use these award funds, this condition must first be met. The activities covered by this condition are:

a. New construction;

b. Minor renovation or remodeling of a property located in an environmentally or historically sensitive area, including properties located within a 100-year flood plain, a wetland, or habitat for endangered species, or a property listed on or eligible for listing on the National Register of Historic Places;

c. A renovation, lease, or any proposed use of a building or facility that will either (a) result in a change in its basic prior use or (b) significantly change its size;

d. Implementation of a new program involving the use of chemicals other than chemicals that are (a) purchased as an incidental component of a funded activity and (b) traditionally used, for example, in office, household, recreational, or education environments; and

e. Implementation of a program relating to clandestine methamphetamine laboratory operations, including the identification, seizure, or closure of clandestine methamphetamine laboratories.

The recipient understands and agrees that complying with NEPA may require the preparation of an Environmental Assessment and/or an Environmental Impact Statement, as directed by BJA. The recipient further understands and agrees to the requirements for implementation of a Mitigation Plan, as detailed at https://bja.gov/Funding/nepa.html, for programs relating to methamphetamine laboratory operations.

Application of This Condition to Recipient's Existing Programs or Activities: For any of the recipient's or its subrecipients' existing programs or activities that will be funded by these award funds, the recipient, upon specific request from BJA, agrees to cooperate with BJA in any preparation by BJA of a national or program environmental assessment of that funded program or activity.

39

Recipients utilizing award funds for forensic genealogy testing must adhere to the United States Department of Justice Interim Policy Forensic Genealogical DNA Analysis and Searching (https://www.justice.gov/olp/page/file/1204386/download), and must collect and report the metrics identified in Section IX of that document to BJA.

40

Establishment of trust fund

If award funds are being drawn down in advance, the recipient (or a subrecipient, with respect to a subaward) is required to establish a trust fund account. Recipients (and subrecipients) must maintain advance payments of federal awards in interest-bearing accounts, unless regulatory exclusions apply (2 C.F.R. 200.305(b)(8)). The trust fund, including any interest, may not be used to pay debts or expenses incurred by other activities beyond the scope of the Edward Byrne Memorial Justice Assistance Grant Program (JAG). The recipient also agrees to obligate the award funds in the trust fund (including any interest earned) during the period of performance for the award and expend within 90 days thereafter. Any unobligated or unexpended funds, including interest earned, must be returned to OJP at the time of closeout.

41

All State and Local JAG recipients must submit quarterly Federal Financial Reports (SF-425). Additionally, State JAG and Local JAG Category Two ($25K or more) must submit semi-annual performance reports through JustGrants and

Local JAG Category One (Less than $25K) must submit annual performance reports through JustGrants. Consistent with the Department's responsibilities under the Government Performance and Results Act (GPRA) and the GPRA Modernization Act of 2010, the recipient must provide data that measure the results of its work. The recipient must submit quarterly performance metrics reports through BJA's Performance Measurement Tool (PMT) website: https://bjapmt.ojp.gov/. For more detailed information on reporting and other JAG requirements, refer to the JAG reporting requirements webpage (https://bjapmt.ojp.gov/help/jagdocs.html). Failure to submit required JAG reports by established deadlines may result in the freezing of grant funds and future High Risk designation.

42

Required data on law enforcement agency training

Any law enforcement agency receiving direct or sub-awarded funding from this JAG award must submit quarterly accountability metrics data related to training that officers have received on the use of force, racial and ethnic bias, de-escalation of conflict, and constructive engagement with the public.

43

Authorization to obligate (federal) award funds to reimburse certain project costs incurred on or after October 1, 2022

The recipient may obligate (federal) award funds only after the recipient makes a valid acceptance of the award. As of the first day of the period of performance for the award (October 1, 2022), however, the recipient may choose to incur project costs using non-federal funds, but any such project costs are incurred at the recipient's risk until, at a minimum-- (1) the recipient makes a valid acceptance of the award, and (2) all applicable withholding conditions are removed by OJP (via an Award Condition Modification (ACM)). (A withholding condition is a condition in the award document that precludes the recipient from obligating, expending, or drawing down all or a portion of the award funds until the condition is removed.)

Except to the extent (if any) that an award condition expressly precludes reimbursement of project costs incurred "at-risk," if and when the recipient makes a valid acceptance of this award and OJP removes each applicable withholding condition through an Award Condition Modification (ACM), the recipient is authorized to obligate (federal) award funds to reimburse itself for project costs incurred "at-risk" earlier during the period of performance (such as project costs incurred prior to award acceptance or prior to removal of an applicable withholding condition), provided that those project costs otherwise are allowable costs under the award.

44

If award funds are used for DNA testing of evidentiary materials, any resulting eligible DNA profiles must be uploaded to the Combined DNA Index System ("CODIS," the DNA database operated by the FBI) by a government DNA laboratory with access to CODIS. With the exception of Forensic Genetic Genealogy, no profiles generated under this award may be entered or uploaded into any non-governmental DNA database without prior express written approval from BJA. Award funds may not be used for the purchase of DNA equipment and supplies unless the resulting DNA profiles may be accepted for entry into CODIS. Booking agencies should work with their state CODIS agency to ensure all requirements are met for participation in Rapid DNA (see National Rapid DNA Booking Operational Procedures Manual).

45

Submission of eligible records relevant to the National Instant Background Check System

Consonant with federal statutes that pertain to firearms and background checks -- including 18 U.S.C. 922 and 34 U.S.C. ch. 409 -- if the recipient (or any subrecipient at any tier) uses this award to fund (in whole or in part) a specific project or program (such as a law enforcement, prosecution, or court program) that results in any court dispositions, information, or other records that are "eligible records" (under federal or State law) relevant to the National Instant Background Check System (NICS), or that has as one of its purposes the establishment or improvement of records systems that contain any court dispositions, information, or other records that are "eligible records" (under federal or State law) relevant to the NICS, the recipient (or subrecipient, if applicable) must ensure that all such court dispositions, information, or other records that are "eligible records" (under federal or State law) relevant to the NICS are promptly made available to the NICS or to the "State" repository/database that is electronically available to (and accessed by) the NICS, and -- when appropriate -- promptly must update, correct, modify, or remove such NICS-relevant "eligible records".

In the event of minor and transitory non-compliance, the recipient may submit evidence to demonstrate diligent monitoring of compliance with this condition (including subrecipient compliance). DOJ will give great weight to any such evidence in any express written determination regarding this condition.

46

Prohibition on use of award funds for match under BVP program

JAG funds may not be used as the 50% match for purposes of the DOJ Bulletproof Vest Partnership (BVP) program.

47

Certification of body armor "mandatory wear" policies, and compliance with NIJ standards

If recipient uses funds under this award to purchase body armor, the recipient must submit a signed certification that each law enforcement agency receiving body armor purchased with funds from this award has a written "mandatory wear" policy in effect. The recipient must keep signed certifications on file for any subrecipients planning to utilize funds from this award for ballistic-resistant and stab-resistant body armor purchases. This policy must be in place for at least all uniformed officers before any funds from this award may be used by an agency for body armor. There are no requirements regarding the nature of the policy other than it be a mandatory wear policy for all uniformed officers while on duty.

Ballistic-resistant and stab-resistant body armor purchased with award funds may be purchased at any threat level, make or model, from any distributor or manufacturer, as long as the body armor has been tested and found to comply with applicable National Institute of Justice ballistic or stab standards, and is listed on the NIJ Compliant Body Armor Model List. In addition, ballistic-resistant and stab-resistant body armor purchased must be made in the United States and must be uniquely fitted, as set forth in 34 U.S.C. 10202(c)(1)(A). The latest NIJ standard information and the NIJ Compliant Body Armor List may be found by following the links located on the NIJ Body Armor page: https://nij.ojp.gov/topics/equipment-and-technology/body-armor

48

Extreme risk protection programs funded by JAG must include, at a minimum: pre-deprivation and post-deprivation due process rights that prevent any violation or infringement of the Constitution of the United States, including but not limited to the Bill of Rights, and the substantive or procedural due process rights guaranteed under the Fifth and Fourteenth Amendments to the Constitution of the United States, as applied to the States, and as interpreted by State courts and United States courts (including the Supreme Court of the United States). Such programs must include, at the appropriate phase to prevent any violation of constitutional rights, at minimum, notice, the right to an in-person hearing, an unbiased adjudicator, the right to know opposing evidence, the right to present evidence, and the right to confront adverse witnesses; the right to be represented by counsel at no expense to the government; pre-deprivation and post-deprivation heightened evidentiary standards and proof which mean not less than the protections afforded to a similarly situated litigant in Federal court or promulgated by the State's evidentiary body, and sufficient to ensure the full protections of the Constitution of the United States, including but not limited to the Bill of Rights, and the substantive and procedural due process rights guaranteed under the Fifth and Fourteenth Amendments to the Constitution of the United States, as applied to the States, and as interpreted by State courts and United States courts (including the Supreme Court of the United States). The heightened evidentiary standards and proof under such programs must, at all appropriate phases to prevent any violation of any constitutional right, at minimum, prevent reliance upon evidence that is unsworn or unaffirmed, irrelevant, based on inadmissible hearsay, unreliable, vague, speculative, and lacking a foundation; and penalties for abuse of the program.

49

Expenditures prohibited without waiver

No funds under this award may be expended on the purchase of items prohibited by the JAG program statute, unless, as set forth at 34 U.S.C. 10152, the BJA Director certifies that extraordinary and exigent circumstances exist, making such expenditures essential to the maintenance of public safety and good order.

50

FFATA reporting: Subawards and executive compensation

The recipient must comply with applicable requirements to report first-tier subawards ("subgrants") of $30,000 or more and, in certain circumstances, to report the names and total compensation of the five most highly compensated executives of the recipient and first-tier subrecipients (first-tier "subgrantees") of award funds. The details of recipient obligations, which derive from the Federal Funding Accountability and Transparency Act of 2006 (FFATA), are posted on the OJP web site at https://ojp.gov/funding/Explore/FFATA.htm (Award condition: Reporting Subawards and Executive Compensation), and are incorporated by reference here.

This condition, including its reporting requirement, does not apply to-- (1) an award of less than $30,000, or (2) an award made to an individual who received the award as a natural person (i.e., unrelated to any business or non-profit organization that he or she may own or operate in his or her name).

51

Exceptions regarding Prohibited and Controlled Equipment under OJP awards

Notwithstanding any provision to the contrary in the other terms and conditions of this award, including in the condition regarding "Compliance with restrictions on the use of federal funds--prohibited and controlled equipment under OJP awards," the requirements for the “Transfer/Sale of Award-Funded Controlled Equipment to Other LEAs” and the requirements for the “Transfer/Sale of Award-Funded Controlled Equipment to NON-LEAs” do not apply to this award.

52

The recipient agrees that no funds under this grant award (including via subcontract or subaward, at any tier) may be used for unmanned aircraft systems (UAS), which includes unmanned aircraft vehicles (UAV), or for any accompanying accessories to support UAS.

53

Initial period of performance; requests for extension.

The recipient understands that for award amounts of less than $25,000 under JAG (Category 1), the initial period of performance of the award is two years. The recipient further understands that any requests for an extension of the period of performance for an award of less than $25,000 will be approved automatically for up to a total of two additional years, pursuant to 34 U.S.C. 10152(f) and in accordance with the program solicitation associated with this award.

Any request for an extension of the period of performance beyond a four-year award period will require approval, and the approval (if any) will be at the discretion of the Director of BJA.

54

Applicants must ensure that Limited English Proficiency persons have meaningful access to the services under this program(s). National origin discrimination includes discrimination on the basis of limited English proficiency (LEP). To ensure compliance with Title VI and the Safe Streets Act, recipients are required to take reasonable steps to ensure that LEP persons have meaningful access to their programs. Meaningful access may entail providing language assistance services, including oral and written translation when necessary. The U.S. Department of Justice has issued guidance for grantees to help them comply with Title VI requirements. The guidance document can be accessed on the Internet at www.lep.gov.

55

Cooperating with OJP Monitoring

The recipient agrees to cooperate with OJP monitoring of this award pursuant to OJP's guidelines, protocols, and procedures, and to cooperate with OJP (including the grant manager for this award and the Office of Chief Financial Officer (OCFO)) requests related to such monitoring, including requests related to desk reviews and/or site visits. The recipient agrees to provide to OJP all documentation necessary for OJP to complete its monitoring tasks, including documentation related to any subawards made under this award. Further, the recipient agrees to abide by reasonable deadlines set by OJP for providing the requested documents. Failure to cooperate with OJP's monitoring activities may

result in actions that affect the recipient's DOJ awards, including, but not limited to: withholdings and/or other restrictions on the recipient's access to award funds; referral to the DOJ OIG for audit review; designation of the recipient as a DOJ High Risk grantee; or termination of an award(s).

56

Use of program income

Program income (as defined in the Part 200 Uniform Requirements) must be used in accordance with the provisions of the Part 200 Uniform Requirements. Program income earnings and expenditures both must be reported on the quarterly Federal Financial Report, SF 425.

With respect to any information technology system funded or supported by funds under this award, the recipient (and any subrecipient at any tier) must comply with 28 C.F.R. Part 23, Criminal Intelligence Systems Operating Policies, if OJP determines this regulation to be applicable. Should OJP determine 28 C.F.R. Part 23 to be applicable, OJP may, at its discretion, perform audits of the system, as per the regulation. Should any violation of 28 C.F.R. Part 23 occur, the recipient may be fined as per 34 U.S.C. 10231(c)-(d). The recipient may not satisfy such a fine with federal funds.

58

Protection of human research subjects

The recipient (and any subrecipient at any tier) must comply with the requirements of 28 C.F.R. The recipient (and any subrecipient at any tier) must comply with all confidentiality requirements of 34 U.S.C. 10231 and 28 C.F.R. Part 22 that are applicable to collection, use, and revelation of data or information. The recipient further agrees, as a condition of award approval, to submit a Privacy Certificate that is in accord with requirements of 28 C.F.R. Part 22 and, in particular, 28 C.F.R. 22.23.

60

The recipient agrees to cooperate with any assessments, national evaluation efforts, or information or data collection requests, including, but not limited to, the provision of any information required for the assessment or evaluation of any activities within this project.

61

The recipient understands that, in accepting this award, the Authorized Representative declares and certifies, among other things, that he or she possesses the requisite legal authority to accept the award on behalf of the recipient entity and, in so doing, accepts (or adopts) all material requirements that relate to conduct throughout the period of performance under this award. The recipient further understands, and agrees, that it will not assign anyone to the role of Authorized Representative during the period of performance under the award without first ensuring that the individual has the requisite legal authority.

62

Approve and authorize the Sheriff to process the retirement of one canine, Loki, owned by the County of Monterey and to allow the canine handler to purchase his assigned canine for the sum of $1.00 in accordance with the Memorandum of Understanding between the County of Monterey and the County of Monterey Patrol Association (COMPA).

RECOMMENDATION:
It is recommended that the Board of Supervisors:
Approve and authorize the Sheriff to process the retirement of one canine, Loki, owned by the County of Monterey and to allow the canine handler to purchase his assigned canine for the sum of $1.00 in accordance with the Memorandum of Understanding between the County of Monterey and the County of Monterey Patrol Association (COMPA).

SUMMARY/DISCUSSION:
The Memorandum of Understanding between the County of Monterey and the County of Monterey Patrol Association (COMPA) has the following paragraph in Section 7.5.4.D. regarding canine handlers:

If a canine that is owned by the Sheriff's Office becomes permanently disabled or is no longer able to perform its duties, as determined by the Sheriff's Office within its sole discretion, the Canine Handler shall be offered the first opportunity to purchase the canine at a cost of one dollar ($1.00). If so purchased, neither the Deputy nor the canine will be entitled to any benefits described in this section, unless the Deputy is assigned another Sheriff's Office-owned canine. If purchased, the canine shall become the sole responsibility of the purchaser and the purchaser waives all claims against the County.

K9 Loki is a trained narcotics canine being permanently relieved from law enforcement service, due to his being plagued by rear leg injuries which severely limit his ability to walk and eliminate his ability jump. The injuries have chronically been sprains and strains to ligaments in his rear legs. Deputy Gross has consulted with the agency veterinarian over the course of this issue and attempted multiple rehabilitation solutions without a successful outcome well enough for full duty use. K9 Loki was donated and placed into service with the Sheriff's Office in May 2020 and has been diligently serving the residents of Monterey County since. K9 Loki has facilitated hundreds of felonious arrests as well as has assisted in the seizure of over one hundred pounds of controlled substances. During his 3 years of dedicated and honorable service he has served as a valuable resource for the deputies of the Sheriff's Office, as well as many other allied law enforcement agencies.

Adopt Resolution to:
a. Authorize the Public Defender or Assistant Public Defender to execute Grant Agreement number BSCC169-23 with the State of California Board of State and Community Corrections (BSCC), for a no-cost extension providing the County of Monterey Public Defender with an additional twenty months, from July 1, 2023 through February 28, 2025, to continue the Indigent Defense Grant program Attorney & Case Management Enhancement (ACME) project originally executed under Grant Agreement number BSCC 169-20; and
b. Approve the delegation of authority to the Public Defender or Assistant Public Defender to act on the County's behalf to carry out and consummate all transactions contemplated during the grant period.

RECOMMENDATION:

It is recommended that the Board of Supervisors:
Adopt Resolution to:
a. Authorize the Public Defender or Assistant Public Defender to execute Grant Agreement number BSCC169-23 with the State of California Board of State and Community Corrections (BSCC), for a no-cost extension providing the County of Monterey Public Defender with an additional twenty months, from July 1, 2023 through February 28, 2025, to continue the Indigent Defense Grant program Attorney & Case Management Enhancement (ACME) project originally executed under Grant Agreement number BSCC 169-20; and
b. Approve the delegation of authority to the Public Defender or Assistant Public Defender to act on the County's behalf to carry out and consummate all transactions contemplated during the grant period.

SUMMARY:

The Public Defender office applied and was awarded an Indigent Defense Grant to develop the Attorney and Case Management Enhancement project (ACME) through the State of California Board of State and Community Corrections (BSCC) in the amount of $637,000 to be funded for a period commencing on February 15, 2021 through June 30, 2023. This 20 month, no-cost extension permits the Public Defender to continue expend the remaining grant funding of approximately $40,000 for ACME project.

DISCUSSION:
The Board of State and Community Corrections (BSCC) is an independent statutory agency that provides leadership and technical assistance to the adult and juvenile criminal justice systems, expertise on Public Safety Realignment issues, a data and information clearing house, and provides assistance on a wide range of community corrections issues. The BSCC also administers public safety related to grant funding, including evidence-based practices to fight gangs, and works to address the over representation of youth of color in the justice system.

The Budget Act of 2020 (Senate Bill 74) established the Indigent Defense Grant Program and appropriated $10,000,000 in funding. Per the Budget Act, $9,800,00 is available for grants to nineteen counties with a population of 550,000 residents or less. The County of Monterey Public Defender is among one of the nineteen applicable counties who met eligibility for this grant. The County's allocation was $637,000.

Funds awarded under the Indigent Defense Grant Program are used for the Public Defender's Attorney and Case Management Enhancement (ACME) project. The ACME project enhances attorney support for indigent client defense by adding a searchable database to our current paperless digital case management system, streamlining the amount of time the court and client wait for the delivery of paper documents that are stored in offsite locations, and automatically sending text messages to remind indigent clients of the time and place of their upcoming court dates.

The uses of BSCC grant funds have resulted in a more efficient case management system benefiting the court and our defense of indigent clients. Further outcomes include attorneys allocating more of their time to ensure positive client outcomes by(1) reducing the time attorneys spend in digitizing and automating duties; and (2) reducing re-calendaring court dates caused by client non-appearances; (3) reducing the time attorneys spend in searching for testimony of recurring witnesses to the point of creating a searchable case database, having information quickly at hand will let attorneys efficiently determine the validity of prior conviction allegations, identify client eligibility for all types of post-conviction relief, and rapidly transfer case materials to subsequent counsel for appeal and writ matters; and (4) improving our method of measuring attorney workloads, thereby redistributing caseloads to achieve workload efficiencies.

In addition to the four related outcomes listed above, the ACME project included the purchase and installation of hardware and software, software training for attorneys and terabyte storage for digital evidence to reside within the case management database. We have designated an Assistant Public Defender as project director, a Finance Manager, and a Management Analyst to oversee day-to-day tasks and fiscal contacts.

ACME project evaluation (local evaluation plan and logic model for process and outcome designs and methods; data collection tools, methods, and analysis; fidelity monitoring; and local evaluation report) will be conducted, through a Memorandum of Understanding by the County of Monterey Health Department evaluation team that conducted the County's BSCC Strengthening Law Enforcement grant and is currently conducting BSCC's Proposition 64 Public Health and Safety Grant Program grant.

OTHER AGENCY INVOLVEMENT:
County Counsel has reviewed this report to legal form and Auditor-Controller has reviewed as to fiscal provisions.

FINANCING:
There will be no cost to the County General Fund associated with the recommendation.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
This recommendation meets the Board's strategic initiatives by promoting an organization that practices efficient and effective resource management and by creating a safe environment for communities to thrive and grow while reducing violent crimes.

Grantees will be required to comply with all data collection, evaluation, and reporting requirements of the Indigent Defense Grant Program. This includes the timely submission of the final progress report and Local Evaluation Report.

The BSCC has contracted with an outside evaluator for a statewide evaluation of the impact of the projects funded by the Indigent Defense Grant Program in consultation with the State Public Defender's Office. The contractor designed and developed instruments for collecting progress information from grantees; developed the research methodology for the statewide evaluation; designed and developed instruments for collecting evaluation data from grantees; provides ongoing technical assistance to grantees for data collection and evaluation activities; compiles, screens, and analyzes data obtained from grantees; and will develop a final report on the impact of the Indigent Defense Grant Program.

F. All Grantee records relevant to the project must be preserved a minimum of three (3) years after closeout of the grant project and shall be subject at all reasonable times to inspection, examination, monitoring, copying, excerpting, transcribing, and auditing by the BSCC or designees. EXHIBIT B: BUDGET DETAIL AND PAYMENT PROVISIONS

1. INVOICING AND PAYMENTS

If applicable, grantees may submit an invoice with a $0 claim.

E. Upon the BSCC's request, supporting documentation must be submitted for project expenditures. Grantees are required to maintain supporting documentation for all expenditures on the project site for the life of the grant and make it readily available for review during BSCC site visits. See Exhibit A. Scope of Work, Item 6. Project Records.

F. Any unspent funds remaining at the end of the agreement term, including any interest earned, must be returned to the BSCC within 30 days of the submission of the final invoice.

2. GRANT AMOUNT AND LIMITATION

A. In no event shall the BSCC be obligated to pay any amount in excess of the grant award. Grantee waives any and all claims against the BSCC, and the State of California on account of project costs that may exceed the sum of the grant award.

B. Under no circumstance will a budget item change be authorized that would cause the project to exceed the amount of the grant award identified in this Grant Agreement.

3. BUDGET CONTINGENCY CLAUSE

A. This grant agreement is valid through Indigent Defense funding generated from the General Fund. The Grantee agrees that the BSCC's obligation to pay any sum to the grantee under any provision of this agreement is contingent upon the availability of sufficient funding granted through the passage of the Budget Act of 2020 (Senate Bill 74). It is mutually agreed that if the

EXHIBIT B: BUDGET DETAIL AND PAYMENT PROVISIONS

Budget Act of the current year and/or any subsequent years covered under this Grant Agreement does not appropriate sufficient funds for the program, this Grant Agreement shall be of no further force and effect. In this event, the BSCC shall have no liability to pay any funds whatsoever to Grantee or to furnish any other considerations under this Agreement and Grantee shall not be obligated to perform any provisions of this Grant Agreement.

B. If Indigent Defense funding is reduced or falls below estimates contained within the Indigent Defense Application Package, the BSCC shall have the option to either cancel this Grant Agreement with no liability occurring to the BSCC or offer an amendment to this agreement to the Grantee to reflect a reduced amount.

C. If BSCC cancels the agreement pursuant to Paragraph 3(B) or Grantee does not agree to an amendment in accordance with the option provided by Paragraph 3(B), it is mutually agreed that the Grant Agreement shall have no further force and effect. In this event, the BSCC shall have no liability to pay any funds whatsoever to Grantee or to furnish any other considerations under this Agreement and Grantee shall not be obligated to perform any provisions of this Grant Agreement except that Grantee shall be required to maintain all project records required by Paragraph 6 of Exhibit A for a period of three (3) years following the termination of this agreement.

4. PROJECT COSTS

A. Grantee is responsible for ensuring that actual expenditures are for eligible project costs. "Eligible" and "ineligible" project costs are set forth in the July 2020 BSCC Grant Administration Guide, which can be found under Quick Links here:

https://www.bscc.ca.gov/s_correctionsplanningandprograms/

The provisions of the BSCC Grant Administration Guide are incorporated by reference into this agreement and Grantee shall be responsible for adhering to the requirements set forth therein. To the extent any of the provisions of the BSCC Grant Administration Guide and this agreement conflict, the language in this agreement shall prevail.

B. Grantee is responsible for ensuring that invoices submitted to the BSCC claim actual expenditures for eligible project costs.

C. Grantee shall, upon demand, remit to the BSCC any grant funds not expended for eligible project costs or an amount equal to any grant funds expended by the Grantee in violation of the terms, provisions, conditions or commitments of this Grant Agreement.

D. Grant funds must be used to support new program activities or to augment existing funds that expand current program activities. Grant funds shall not replace (supplant) any federal, state and/or local funds that have been appropriated for the same purpose. Violations can result in recoupment of monies provided under this grantor suspension of future program funding through BSCC grants.

5. PROMPT PAYMENT CLAUSE

Payment will be made in accordance with, and within the time specified in, Government Code Chapter 4.5, commencing with Section 927.

6. WITHHOLDING OF GRANT DISBURSEMENTS

A. The BSCC may withhold all or any portion of the grant funds provided by this Grant Agreement in the event the Grantee has materially and substantially breached the terms and conditions of this Grant Agreement.

EXHIBIT B: BUDGET DETAIL AND PAYMENT PROVISIONS

B. At such time as the balance of state funds allocated to the Grantee reaches five percent (5%), the BSCC may withhold that amount as security, to be released to the Grantee upon compliance with all grant provisions, including:

   1) submittal and approval of the final invoice;
   2) submittal and approval of the final progress report; and
   3) submittal and approval of any additional required reports, including but not limited to a potential Final Local Evaluation Report.

C. The BSCC will not reimburse Grantee for costs identified as ineligible for grant funding. If grant funds have been provided for costs subsequently deemed ineligible, the BSCC may either withhold an equal amount from future payments to the Grantee or require repayment of an equal amount to the State by the Grantee.

D. In the event that grant funds are withheld from the Grantee, the BSCC's Executive Director or designee shall notify the Grantee of the reasons for withholding and advise the Grantee of the time within which the Grantee may remedy the failure or violation leading to the withholding.

D. Upon demand in writing by the assignor, the assignee shall, within one year from such demand, reassign the cause of action assigned under this part if the assignor has been or may have been injured by the violation of law for which the cause of action arose and (a) the assignee has not been injured thereby, or (b) the assignee declines to file a court action for the cause of action. EXHIBIT D: SPECIAL TERMS AND CONDITIONS

1. GRANTEE'S GENERAL RESPONSIBILITY

B. Grantee is responsible for the performance of all project activities identified in Attachment 1: Indigent Defense Application Package.

C. Grantee shall immediately advise the BSCC of any significant problems or changes that arise during the course of the project.

Grantee agrees that in the event of any inconsistency between this Grant Agreement and Grantee's agreement with a subcontractor, the language of this Grant Agreement will prevail.

B. Nothing contained in this Grant Agreement or otherwise, shall create any contractual relation between the BSCC and any subcontractors, and no subcontract shall relieve the Grantee of his responsibilities and obligations hereunder. The Grantee agrees to be as fully responsible to the BSCC for the acts and omissions of its subcontractors and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the Grantee. The Grantee's obligation to pay its subcontractors is an independent obligation from the BSCC's obligation to make payments to the Grantee. As a result, the BSCC shall have no obligation to pay or to enforce the payment of any moneys to any subcontractor.

C. Grantee assures that for any subcontract awarded by the Grantee, such insurance and fidelity bonds, as is customary and appropriate, will be obtained.

D. Grantee agrees to place appropriate language in all subcontracts for work on the project requiring the Grantee's subcontractors to:

Adequate supporting documentation shall be maintained in such detail so as to permit tracing transactions from the invoices, to the accounting records, to the supporting documentation. These records shall be maintained for a minimum of three (3) years after the acceptance of the final grant project audit under the Grant Agreement and shall be subject to examination and/or audit by the BSCC or designees, state government auditors or designees, or by federal government auditors or designees.

The Subcontractor shall provide suitable facilities for access, monitoring, inspection, and copying of books and records related to the grant-funded project.

4. PROJECT ACCESS

Access to program records will be made available by both the grantee and the subcontractors for a period of three (3) years following the end of the grant period.

5. ACCOUNTING AND AUDIT REQUIREMENTS

A. Grantee agrees that accounting procedures for grant funds received pursuant to this Grant Agreement shall be in accordance with generally accepted government accounting principles and practices, and adequate supporting documentation shall be maintained in such detail as to provide an audit trail. Supporting documentation shall permit the tracing of transactions from such documents to relevant accounting records, financial reports and invoices.

The BSCC reserves the right to call for a program or financial audit at any time between the execution of this Grant Agreement and three years following the end of the grant period. At any time, the BSCC may disallow all or part of the cost of the activity or action determined to not be in compliance with the terms and conditions of this Grant Agreement or take other remedies legally available.

EXHIBIT D: SPECIAL TERMS AND CONDITIONS

material and substantial breech of this Grant Agreement. Such action or inaction includes but is not limited to:

2) refusal or inability to complete the grant project in a manner consistent with Attachment 1: Indigent Defense Application Package or approved modifications;
3) failure to provide the required local match share of the total project costs; and
4) failure to meet prescribed assurances, commitments, recording, accounting, auditing, and reporting requirements of the Grant Agreement.

B. Prior to terminating the Grant Agreement under this provision, the BSCC shall provide the Grantee at least 30 calendar days written notice stating the reasons for termination and effective date thereof. The Grantee may appeal the termination decision in accordance with the instructions listed in Exhibit D: Special Terms and Conditions, Number 8. Settlement of Disputes.

8. SETTLEMENT OF DISPUTES

A. The parties shall deal in good faith and attempt to resolve potential disputes informally. If the dispute persists, the Grantee shall submit to the BSCC Corrections Planning and Grant Programs Division Deputy Director a written demand for a final decision regarding the disposition of any dispute between the parties arising under, related to, or involving this Grant Agreement. Grantee's written demand shall be fully supported by factual information. The BSCC Corrections Planning and Grant Programs Division Deputy Director shall have 30 days after receipt of Grantee's written demand invoking this Section "Disputes" to render a written decision. If a written decision is not rendered within 30 days after receipt of the Grantee's demand, it shall be deemed a decision adverse to the Grantee's contention. If the Grantee is not satisfied with the decision of the BSCC Corrections Planning and Grant Programs Division Deputy Director, the Grantee may appeal the decision, in writing, within 15 days of its issuance (or the expiration of the 30-day period in the event no decision is rendered), to the BSCC Executive Director, who shall have 45 days to render a final decision. If the Grantee does not appeal the decision of the BSCC Corrections Planning and Grant Programs Division Deputy Director, the decision shall be conclusive and binding regarding the dispute and the Contractor shall be barred from commencing an action in court, or with the Victims Compensation Government Claims Board, for failure to exhaust Grantee's administrative remedies.

B. Pending the final resolution of any dispute arising under, related to or involving this Grant Agreement, Grantee agrees to diligently proceed with the performance of this Grant Agreement, including the providing of services in accordance with the Grant Agreement. Grantee's failure to diligently proceed in accordance with the State's instructions regarding this Grant Agreement shall be considered a material breach of this Grant Agreement.

C. Any final decision of the State shall be expressly identified as such, shall be in writing, and shall be signed by the Executive Director, if an appeal was made. If the Executive Director fails to render a final decision within 45 days after receipt of the Grantee's appeal for a final decision, it shall be deemed a final decision adverse to the Grantee's contentions. The State's final decision shall be conclusive and binding regarding the dispute unless the Grantee commences an action in a court of competent jurisdiction to contest such decision

EXHIBIT D: SPECIAL TERMS AND CONDITIONS

within 90 days following the date of the final decision or one (1) year following the accrual of the cause of action, whichever is later.

D. The dates of decision and appeal in this section may be modified by mutual consent, as applicable, excepting the time to commence an action in a court of competent jurisdiction.

9. UNION ACTIVITIES

For all agreements, except fixed price contracts of $50,000 or less, the Grantee acknowledges that applicability of Government Code §§16654 through 16649 to this Grant Agreement and agrees to the following:

A. No State funds received under the Grant Agreement will be used to assist, promote or deter union organizing.

B. Grantee will not, for any business conducted under the Grant Agreement, use any State property to hold meetings with employees or supervisors, if the purpose of such meetings is to assist, promote or deter union organizing, unless the State property is equally available to the general public for holding meetings.

C. If Grantee incurs costs or makes expenditures to assist, promote or deter union organizing, Grantee will maintain records sufficient to show that no reimbursement from State funds has been sought for these costs, and that Grantee shall provide those records to the Attorney General upon request.

3. BUDGET CONTINGENCY CLAUSE

A. This grant agreement is valid through Indigent Defense funding generated from the General Fund. The Grantee agrees that the BSCC's obligation to pay any sum to the grantee under any provision of this agreement is contingent upon the availability of sufficient funding granted through the passage of the Budget Act of 2020 (Senate Bill 74). It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under this Grant Agreement does not appropriate sufficient funds for the program, this Grant Agreement shall be of no further force and effect. In this event, the BSCC shall have no liability to pay any funds whatsoever to Grantee or to furnish any other considerations under this Agreement and Grantee shall not be obligated to perform any provisions of this Grant Agreement.

If Indigent Defense funding is reduced or falls below estimates contained within the Indigent Defense Application Package, the BSCC shall have the option to either cancel this Grant Agreement with no liability occurring to the BSCC or offer an amendment to this agreement to the Grantee to reflect a reduced amount.

C. If BSCC cancels the agreement pursuant to Paragraph 3(B) or Grantee does not agree to an amendment in accordance with the option provided by Paragraph 3(B), it is mutually agreed that the Grant Agreement shall have no further force and effect. In this event, the BSCC shall have no liability to pay any funds whatsoever to Grantee or to furnish any other considerations under this Agreement and Grantee shall not be obligated to perform any provisions of this Grant Agreement except that Grantee shall be required to maintain all project records required by Paragraph 6 of Exhibit A for a period of three (3) years following the termination of this agreement.

4. PROJECT COSTS

A. Grantee is responsible for ensuring that actual expenditures are for eligible project costs. "Eligible" and "ineligible" project costs are set forth in the July 2020 BSCC Grant Administration Guide, which can be found under Quick Links here:

https://www.bscc.ca.gov/s_correctionsplanningandprograms/

The provisions of the BSCC Grant Administration Guide are incorporated by reference into this agreement and Grantee shall be responsible for adhering to the requirements set forth therein. To the extent any of the provisions of the BSCC Grant Administration Guide and this agreement conflict, the language in this agreement shall prevail.

B. Grantee is responsible for ensuring that invoices submitted to the BSCC claim actual expenditures for eligible project costs.

C. Grantee shall, upon demand, remit to the BSCC any grant funds not expended for eligible project costs or an amount equal to any grant funds expended by the Grantee in violation of the terms, provisions, conditions or commitments of this Grant Agreement.

D. Grant funds must be used to support new program activities or to augment existing funds that expand current program activities. Grant funds shall not replace (supplant) any federal, state

and/or local funds that have been appropriated for the same purpose. Violations can result in recoupment of monies provided under this grantor suspension of future program funding through BSCC grants.

5. PROMPT PAYMENT CLAUSE

Payment will be made in accordance with, and within the time specified in, Government Code Chapter 4.5, commencing with Section 927.

6. WITHHOLDING OF GRANT DISBURSEMENTS

A. The BSCC may withhold all or any portion of the grant funds provided by this Grant Agreement in the event the Grantee has materially and substantially breached the terms and conditions of this Grant Agreement.

1) submittal and approval of the final invoice;
2) submittal and approval of the final progress report; and
3) submittal and approval of any additional required reports, including but not limited to a potential Final Local Evaluation Report.

C. The BSCC will not reimburse Grantee for costs identified as ineligible for grant funding. If grant funds have been provided for costs subsequently deemed ineligible, the BSCC may either withhold an equal amount from future payments to the Grantee or require repayment of an equal amount to the State by the Grantee.

D. In the event that grant funds are withheld from the Grantee, the BSCC's Executive Director or designee shall notify the Grantee of the reasons for withholding and advise the Grantee of the time within which the Grantee may remedy the failure or violation leading to the withholding.

material and substantial breech of this Grant Agreement. Such action or inaction includes but is not limited to:

1) substantial alteration of the scope of the grant project without prior written approval of the BSCC;
2) refusal or inability to complete the grant project in a manner consistent with Attachment 1: Indigent Defense Application Package or approved modifications;
3) failure to provide the required local match share of the total project costs; and
4) failure to meet prescribed assurances, commitments, recording, accounting, auditing, and reporting requirements of the Grant Agreement.

B. Prior to terminating the Grant Agreement under this provision, the BSCC shall provide the Grantee at least 30 calendar days written notice stating the reasons for termination and effective date thereof. The Grantee may appeal the termination decision in accordance with the instructions listed in Exhibit D: Special Terms and Conditions, Number 8. Settlement of Disputes.

8. SETTLEMENT OF DISPUTES

A. The parties shall deal in good faith and attempt to resolve potential disputes informally. If the dispute persists, the Grantee shall submit to the BSCC Corrections Planning and Grant Programs Division Deputy Director a written demand for a final decision regarding the disposition of any dispute between the parties arising under, related to, or involving this Grant Agreement. Grantee's written demand shall be fully supported by factual information. The BSCC Corrections Planning and Grant Programs Division Deputy Director shall have 30 days after receipt of Grantee's written demand invoking this Section "Disputes" to render a written decision. If a written decision is not rendered within 30 days after receipt of the Grantee's demand, it shall be deemed a decision adverse to the Grantee's contention. If the Grantee is not satisfied with the decision of the BSCC Corrections Planning and Grant Programs Division Deputy Director, the Grantee may appeal the decision, in writing, within 15 days of its issuance (or the expiration of the 30-day period in the event no decision is rendered), to the BSCC Executive Director, who shall have 45 days to render a final decision. If the Grantee does not appeal the decision of the BSCC Corrections Planning and Grant Programs Division Deputy Director, the decision shall be conclusive and binding regarding the dispute and the Contractor shall be barred from commencing an action in court, or with the Victims Compensation Government Claims Board, for failure to exhaust Grantee's administrative remedies.

B. Pending the final resolution of any dispute arising under, related to or involving this Grant Agreement, Grantee agrees to diligently proceed with the performance of this Grant Agreement, including the providing of services in accordance with the Grant Agreement. Grantee's failure to diligently proceed in accordance with the State's instructions regarding this Grant Agreement shall be considered a material breach of this Grant Agreement.

C. Any final decision of the State shall be expressly identified as such, shall be in writing, and shall be signed by the Executive Director, if an appeal was made. If the Executive Director fails to render a final decision within 45 days after receipt of the Grantee's appeal for a final decision, it shall be deemed a final decision adverse to the Grantee's contentions. The State's final decision shall be conclusive and binding regarding the dispute unless the Grantee commences an action in a court of competent jurisdiction to contest such decision

EXHIBIT D: SPECIAL TERMS AND CONDITIONS

within 90 days following the date of the final decision or one (1) year following the accrual of the cause of action, whichever is later.

D. The dates of decision and appeal in this section may be modified by mutual consent, as applicable, excepting the time to commence an action in a court of competent jurisdiction.

9. UNION ACTIVITIES

For all agreements, except fixed price contracts of $50,000 or less, the Grantee acknowledges that applicability of Government Code §§16654 through 16649 to this Grant Agreement and agrees to the following:

A. No State funds received under the Grant Agreement will be used to assist, promote or deter union organizing.

B. Grantee will not, for any business conducted under the Grant Agreement, use any State property to hold meetings with employees or supervisors, if the purpose of such meetings is to assist, promote or deter union organizing, unless the State property is equally available to the general public for holding meetings.

C. If Grantee incurs costs or makes expenditures to assist, promote or deter union organizing, Grantee will maintain records sufficient to show that no reimbursement from State funds has been sought for these costs, and that Grantee shall provide those records to the Attorney General upon request.

10. WAIVER

The parties hereto may waive any of their rights under this Grant Agreement unless such waiver is contrary to law, provided that any such waiver shall be in writing and signed by the party making such waiver.

C. PROJECT TITLE:	Attorney and Case Management Enhancement (ACME)

D. PROJECT SUMMARY (100-150 words):

The ACME project will use BSCC grant funds to enhance County of Monterey attorney support for Indigent Defense and enhance the digital case management software currently in use by the Public Defender's Office. Our current digital case management software will be augmented with an auto-text program that will send text messages to the cellular phones of our clients to alert them to upcoming court dates, thereby better assuring legal expediency for the court and our clients. Our current software will also be augmented to create a searchable repository of court transcripts that will allow our attorneys to better and more efficiently prepare for matters involving recurring witnesses. Our carbon-based case files that are currently stored off-site will be digitized and stored for attorney access, thereby eliminating our current 5-10-day delivery time. Additionally, attorneys may attend trial skills training at one of several nationally recognized trial skills colleges.

Project Description

Provide a one-page description of the proposed project in the space provided below.

The County of Monterey Public Defender's Attorney and Case Management Enhancement (ACME) project will enhance attorney support for indigent client defense by adding a searchable database to our current paperless digital case management system, streamlining the amount of time the court and client wait for the delivery of paper documents that are stored in offsite locations, and automatically sending text messages to remind indigent clients of the time and place of their upcoming court dates.

The use of BSCC grant funds will result in a more efficient case management system that will benefit the court and our defense of indigent clients. Further outcomes will include attorneys allocating more of their time to ensure positive client outcomes by **(1)** reducing the time attorneys spend in digitizing and automating duties; and **(2)** reducing re-calendaring court dates caused by client non-appearances; **(3)** reducing the time attorneys spend in searching for testimony of recurring witnesses (to the point of creating a searchable case database, having information quickly at hand will let attorneys efficiently determine the validity of prior conviction allegations, identify client eligibility for all types of post-conviction relief, and rapidly transfer case materials to subsequent counsel for appeal and writ matters; and (4) improving our method of measuring attorney workloads, thereby redistributing caseloads to achieve workload efficiencies.

Additionally, a portion of the grant will be used to fund attendance and travel for attorneys to attend one of several national recognized trial skills colleges.

In addition to the goals and related outcomes listed above, the ACME project includes the purchase and installation of hardware and software and software training for attorneys. Our plan includes an assistant Public Defender as project director, a designated financial officer, designated day-to-day project and fiscal contacts, and oversight provided by our Public Defender.

Appendix E: Evaluation Guidelines

Indigent Defense Grant Program
Local Evaluation Plan

The Indigent Defense Grant Program for funding period February 15, 2021 through June 30, 2023 requires a Local Evaluation Plan (LEP) to ensure projects funded by the Board of State and Community Corrections (BSCC) can be evaluated to determine their impact and effectiveness. The LEP is a written document that describes how the project will be monitored and evaluated and shows how evaluation results will be used for project improvement and decision making. The LEP should be developed before the project starts by program staff using a collaborative process that involves all relevant project stakeholders. Grantees are encouraged to identify an evaluator who can assist in the collaborative process of developing the LEP and guide the local evaluation throughout the grant cycle. This guideline was developed to assist grantees in creating a LEP that, at a minimum, addresses the information defined below.

Keep in mind the implementation of practices and strategies supported by data are to be considered whenever possible. The BSCC is responsible for verifying that grant money is spent efficiently and on effective projects; collecting data is one mechanism used to determine this. Evaluation results from each project may be used to inform the body of knowledge regarding what works with the target populations. Therefore, it is important to collect appropriate and consistent data. A strong LEP will help pave the way for a strong evaluation. A strong evaluation may be used to provide support for your project and funding.

The BSCC will make public the LEP from each grantee. LEPs may be posted to the BSCC website and/or developed into a statewide summary report to be shared with the Administration, the Legislature, and the public.

All grantees are required to submit a LEP by 5 p.m. on August 30, 2021. LEPs are sent to the Indigent Defense Grant inbox (IndigentDefenseGrant@bscc.ca.gov).

Cover Page
The cover page provides a descriptive report title, and identifies the grantees, authors, contact information, project time period, and funding source.

Describe the statistical tools used to analyze quantitative data (e.g., descriptive statistics, chi-square) and methods used for analyzing qualitative data (identifying themes, content analysis, etc.). You do not need to state the analysis type for each evaluation activity separately.

Outcome Evaluation Method and Design

At a minimum, this section should include:

- The research design for the outcome evaluation (e.g., pre-/post-test, mixed methods, comparison groups).
- A set of evaluation questions. These are the questions that the evaluation will answer. These shall include the project's goals and objectives and may also include more outcome-oriented questions.

Project Logic Model

Provide a visual representation of the project depicting the logical relationships between the project's goal statements, input/resources, activities, outputs, outcomes and impacts of the project.

- Inputs/Resources: "Inputs are various resources available to support the project (e.g., staff, materials, curricula, funding, equipment)."[1] "Include those aspects of the project which are available and dedicated to, or used by, the project/service to operate."[2]
- Activities: Activities are what the project does with the inputs or the services provided in alignment with project goals. If you have access to inputs/resources, then they can be used to accomplish project activities.
- Outputs: If the activities are accomplished, these are the number of services delivered and/or products provided.
- Outcomes: "Outcomes are the immediate, specific, measurable changes"[3] due to the project. If the outputs are achieved, then this is the change we expect to see. Outcomes may be grouped by:
    - Short-Term- Timeframe (grant cycle, months)
    - Medium-Term- Timeframe (grant cycle, months-years)
- Impacts: The ways in which the community, city, and/or county are changed by the achieved outcomes. This includes fundamental intended or unintended changes that occur in organizations, communities, or systems because of project activities beyond the grant cycle. Impacts are societal/economic/civic/environmental focused and may be the same or similar to long-term outcomes (typically occur beyond the grant cycle).[4]

Appendices (if applicable)

Include relevant supplementary evaluation and project materials in appendices. These may include, but are not limited to, data collection instruments, more detailed descriptions of activities and interventions, training materials, educational materials, operational definitions, additional analyses, and presentations.

Indigent Defense Grant Program
Local Evaluation Report

The Indigent Defense Grant Program for funding period February 15, 2021 through June 30, 2023 requires a Local Evaluation Report (LER) to identify whether the project was successful in achieving its goals and objectives. This LER must be based on the original Local Evaluation Plan (LEP). Any modifications to the LEP must be explained in the LER. This guideline was developed to assist grantees in writing a LER that, at a minimum, addresses the required information defined below.

The LER will document the activities completed with the support of grant funds and the outcomes achieved. BSCC will use this report to verify the grant money was well spent and describe the impacts of the project. Assuming the projects have successful outcomes, other organizations may want to adopt certain project components/intervention(s) demonstrated to be effective. Therefore, the report should include enough information to allow other organizations to replicate your project strategies.

The BSCC will make public the LER from each grantee. LERs may be posted to the BSCC website and/or developed into a statewide summary report to be shared with the Administration, the Legislature, and the public.

All grantees are required to submit a LER to the BSCC no later than 5 p.m. on December 31, 2023.

A Current Logic Model

Provide a visual representation of the project depicting the logical relationships between the project's goal statements, input/resources, activities, outputs, outcomes and impacts of the project.

- Inputs/Resources: "Inputs are various resources available to support the project (e.g., staff, materials, curricula, funding, equipment)."[5] "Include those aspects of

[5] Department of Health & Human Services: Family and Youth Services Bureau, 2020.

the project which are available and dedicated to, or used by, the project/service to operate."[6]

- Activities: Activities are what the project does with the inputs or the services provided in alignment with project goals. If you have access to inputs/resources, then they can be used to accomplish project activities.
- Outputs: If the activities are accomplished, these are the number of services delivered and/or products provided.
- Outcomes: "Outcomes are the immediate, specific, measurable changes"[7] due to the project. If the outputs are achieved, then this is the change we expect to see. Outcomes may be grouped by:
    - Short-Term- Timeframe (grant cycle, months)
    - Medium-Term- Timeframe (grant cycle, months-years)
- Impacts: The ways in which the community, city, and/or county are changed by the achieved outcomes. This includes fundamental intended or unintended changes that occur in organizations, communities, or systems because of project activities beyond the grant cycle. Impacts are societal/economic/civic/environmental focused and may be the same or similar to long-term outcomes (typically occur beyond the grant cycle).[8]

Grantee Highlight

This section should provide a brief, one-page, visually appealing, highlight or success story that provides additional information related to the project's success over the grant cycle. This highlight may be included in a statewide report. You may include optional graphs, charts, or photos[9]. While every effort will be made to include these in a statewide report, inclusion in the report is not guaranteed.

Appendices

Include relevant supplementary evaluation and project materials in appendices. These may include, but are not limited to, data collection instruments, more detailed descriptions of activities and interventions, training materials, educational materials, operational definitions, additional analyses, and presentations.

Match Requirement
The Indigent Defense Grant Program does not have a match requirement.

Supplanting
Supplanting is the deliberate reduction in the amount of federal, state, or local funds being appropriated to an existing program or activity because grant funds have been awarded for the same purposes. Supplanting is strictly prohibited for all BSCC grants. The Indigent Defense Grant Program shall be used to support new program activities or to augment or expand existing program activities but shall not be used to replace existing funds. When using outside funds as match, applicants must be careful not to supplant. It is the

responsibility of the grantee to ensure that supplanting does not occur. The grantee must keep clear and detailed financial records to show that grant funds are used only for allowable costs and activities.

General Grant Requirements

Grant Agreement

Applicants approved for funding by the BSCC Board are required to enter into a grant agreement with the BSCC. Grantees must agree to comply with all terms and conditions of the Grant Agreement. See Appendix C for a sample grant agreement (State of California: Contract and General Terms and Conditions). The terms and conditions of the grant agreement may change before execution.

The grant agreement start date is expected to be February 15, 2021. Grant agreements are considered fully executed only after they are signed by both the Grantee and the BSCC. Work, services and encumbrances cannot begin prior to the grant agreement start date. Work, services and encumbrances that occur after the start date but prior to grant agreement execution may not be reimbursed. Grantees are responsible for maintaining their grant agreement, all invoices, records and relevant documentation for at least three years after the final payment under the contract.

Governing Board Resolution

Local governmental applicants must submit a resolution from their governing board addressing specified requirements as included in the sample Governing Board Resolution, which can be found in Appendix D. A signed resolution is not required at the time of proposal submission; however, grant recipients must have a resolution on file for the Indigent Defense Grant Program before a fully executed grant agreement can be completed.

Invoices

Disbursement of grant funds occurs on a reimbursement basis for costs incurred during a reporting period. Grantees shall be paid in one lump sum. The State Controller's Office (SCO) will issue the warrant (check) to the individual designated on the Applicant Information Form as the Financial Officer for the grant. Grantees must submit invoices to the BSCC through an online process no later than 45 days following the end of the invoicing period. Grantees must maintain adequate supporting documentation for all costs claimed on invoices. BSCC staff will conduct a desk review process which requires grantees to submit electronic documentation to support all grant funds claimed during the invoicing period and on-site monitoring visits that will include a review of documentation maintained as substantiation for project expenditures.

Additional information about invoicing can be found in the BSCC Grant Administration Guide, located on the BSCC website.

Progress Reports and Evaluations

Grant award recipients are required to submit progress reports, a Local Evaluation Plan and a Local Evaluation Report (Appendix E). Progress reports are a critical element in

the monitoring and oversight process. The Local Evaluation Plan is a written document that describes how the project will be monitored and evaluated and shows how evaluation results will be used for project improvement and decision making. The Local Evaluation Report identifies whether the project was successful in achieving its goals and objectives.

Grantees that are unable to demonstrate that they are making sufficient progress toward project goals and objectives and that funds are being spent down in accordance with the Grant Award Agreement could be subject to the withholding of funds. Applicable forms and instructions will be available to grantees on the BSCC's website.

Grantee Orientation Process
Following the start of the grant period, BSCC staff will conduct a virtual Grantee Orientation in April 2021. The purpose of this mandatory session is to review the program requirements, invoicing and budget modification processes, data collection and reporting requirements, as well as other grant management and monitoring activities. Typically, the Project Director, Financial Officer, Day-to-Day Contact, and service providers attend.

Travel
Travel is usually warranted when personal contact by project-related personnel is the most appropriate method of completing project-related business. The most economical method of transportation, in terms of direct expenses to the project and the project-related personnel's time away from the project, must be used. Grantees are required to include sufficient per diem and travel allocations for project-related personnel to attend any required BSCC training conferences or workshops as described in the Request for Applications and Grant Agreement.

Units of Government
Grantees that are units of government using BSCC funds may follow either their own written travel and per diem policy or the California State travel and per diem policy. Units of government that plan to use cars from a state, county, city, district carpool, or garage may budget either the mileage rate established by the carpool or garage, or the state mileage rate, not to exceed the loaning agency.

Out-of-State Travel
Out-of-state travel is generally restricted and only allowed in exceptional situations. Grantees must receive written BSCC approval prior to incurring expenses for out-of-state travel. Even if previously authorized in the Grant Agreement, Grantees must submit a separate written request on Grantee letterhead for approval to the assigned BSCC Field Representative. Out-of-state travel requests must include a detailed justification and budget information.

In addition, California prohibits travel, except under specified circumstances, to states that have been found by the California Attorney General to have discriminatory laws. The BSCC will not reimburse for travel to these states unless the travel meets a specific exception under Government Code section 11139.8, subdivision (c). For additional information, please see: https://oag.ca.gov/ab1887.

Compliance Monitoring Visits

The BSCC staff will monitor each project to assess whether the project is in compliance with grant requirements and making progress toward grant objectives. As needed, monitoring visits may also occur to provide technical assistance on fiscal, programmatic, evaluative, and administrative requirements.

Overview of the RFA Process

Confirmation of Receipt of Application

Upon submission of a proposal, applicants will receive a confirmation email from the BSCC stating that the proposal has been received. The email will be sent to the individual that signed the application and the person listed as the Project Director.

The ACME project will use BSCC grant funds to enhance County of Monterey attorney support for Indigent Defense and enhance the digital case management software currently in use by the Public Defender's Office. Our current software will also be augmented to create a searchable repository of court transcripts that will allow our attorneys to better and more efficiently prepare for matters involving recurring witnesses. Our carbon-based case files that are currently stored off-site will be digitized and stored for attorney access, thereby eliminating our current 5-10 day delivery time.

Project Description

Provide a one-page description of the proposed project in the space provided below.

The County of Monterey Public Defender's Attorney and Case Management Enhancement (ACME) project will enhance attorney support for indigent client defense by adding a searchable database to our current paperless digital case management system, streamlining the amount of time the court and client wait for the delivery of paper documents that are stored in offsite locations, and automatically sending text messages to remind indigent clients of the time and place of their upcoming court dates.

The use of BSCC grant funds will result in a more efficient case management system that will benefit the court and our defense of indigent clients. Further outcomes will include attorneys allocating more of their time to ensure positive client outcomes by **(1)** reducing the time attorneys spend in digitizing and automating duties; and **(2)** reducing re-calendaring court dates caused by client non-appearances; **(3)** reducing the time attorneys spend in searching for testimony of recurring witnesses (to the point of creating a searchable case database, having information quickly at hand will let attorneys efficiently determine the validity of prior conviction allegations, identify client eligibility for all types of post-conviction relief, and rapidly transfer case materials to subsequent counsel for appeal and writ matters; and (4) improving our method of measuring attorney workloads, thereby redistributing caseloads to achieve workload efficiencies.

In addition to the four goals and related outcomes listed above, the ACME project includes the purchase and installation of hardware and software and software training for attorneys. Our plan includes an assistant Public Defender as project director, a designated financial officer, designated day-to-day project and fiscal contacts, and oversight provided by our Public Defender.

ACME project evaluation (local evaluation plan and logic model for process and outcome designs and methods; data collection tools, methods, and analysis; fidelity monitoring; and local evaluation report) will be conducted, through a Memorandum of Understanding. by the County of Monterey Health Department evaluation team that conducted the County's BSCC Strengthening Law Enforcement grant and is currently conducting BSCC's Proposition 64 Public Health and Safety Grant Program grant

3. BUDGET CONTINGENCY CLAUSE

A. This grant agreement is valid through Indigent Defense funding generated from the General Fund. The Grantee agrees that the BSCC's obligation to pay any sum to the grantee under any provision of this agreement is contingent upon the availability of sufficient funding granted through the passage of the Budget Act of 2020 (Senate Bill 74). It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under this Grant Agreement does not appropriate sufficient funds for the program, this Grant Agreement shall be of no further force and effect. In this event, the BSCC shall have no liability to pay any funds whatsoever to Grantee or to furnish any other considerations under this Agreement and Grantee shall not be obligated to perform any provisions of this Grant Agreement.

B. If Indigent Defense funding is reduced or falls below estimates contained within the Indigent Defense Application Package, the BSCC shall have the option to either cancel this Grant Agreement with no liability occurring to the BSCC or offer an amendment to this agreement to the Grantee to reflect a reduced amount.

C. If BSCC cancels the agreement pursuant to Paragraph 3(B) or Grantee does not agree to an amendment in accordance with the option provided by Paragraph 3(B), it is mutually agreed that the Grant Agreement shall have no further force and effect. In this event, the BSCC shall have no liability to pay any funds whatsoever to Grantee or to furnish any other considerations under this Agreement and Grantee shall not be obligated to perform any provisions of this Grant Agreement except that Grantee shall be required to maintain all project records required by Paragraph 6 of Exhibit A for a period of three (3) years following the termination of this agreement.

4. PROJECT COSTS

A. Grantee is responsible for ensuring that actual expenditures are for eligible project costs. "Eligible" and "ineligible" project costs are set forth in the July 2020 BSCC Grant Administration Guide, which can be found under Quick Links here:

https://www.bscc.ca.gov/s_correctionsplanningandprograms/

The provisions of the BSCC Grant Administration Guide are incorporated by reference into this agreement and Grantee shall be responsible for adhering to the requirements set forth therein. To the extent any of the provisions of the BSCC Grant Administration Guide and this agreement conflict, the language in this agreement shall prevail.

B. Grantee is responsible for ensuring that invoices submitted to the BSCC claim actual expenditures for eligible project costs.

C. Grantee shall, upon demand, remit to the BSCC any grant funds not expended for eligible project costs or an amount equal to any grant funds expended by the Grantee in violation of the terms, provisions, conditions or commitments of this Grant Agreement.

D. Grant funds must be used to support new program activities or to augment existing funds that expand current program activities. Grant funds shall not replace (supplant) any federal, state and/or local funds that have been appropriated for the same purpose. 2) submittal and approval of the final progress report; and
3) submittal and approval of any additional required reports, including but not limited to a potential Final Local Evaluation Report.

C. The BSCC will not reimburse Grantee for costs identified as ineligible for grant funding. If grant funds have been provided for costs subsequently deemed ineligible, the BSCC may either withhold an equal amount from future payments to the Grantee or require repayment of an equal amount to the State by the Grantee.

D. In the event that grant funds are withheld from the Grantee, the BSCC's Executive Director or designee shall notify the Grantee of the reasons for withholding and advise the Grantee of the time within which the Grantee may remedy the failure or violation leading to the withholding.

The Grantee agrees to be as fully responsible to the BSCC for the acts and omissions of its subcontractors and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the Grantee. 4) failure to meet prescribed assurances, commitments, recording, accounting, auditing, and reporting requirements of the Grant Agreement.

B. Prior to terminating the Grant Agreement under this provision, the BSCC shall provide the Grantee at least 30 calendar days written notice stating the reasons for termination and effective date thereof. The Grantee may appeal the termination decision in accordance with the instructions listed in Exhibit D: Special Terms and Conditions, Number 8. Settlement of Disputes.

8. SETTLEMENT OF DISPUTES

A. The parties shall deal in good faith and attempt to resolve potential disputes informally. If the dispute persists, the Grantee shall submit to the BSCC Corrections Planning and Grant Programs Division Deputy Director a written demand for a final decision regarding the disposition of any dispute between the parties arising under, related to, or involving this Grant Agreement. Grantee's written demand shall be fully supported by factual information. The BSCC Corrections Planning and Grant Programs Division Deputy Director shall have 30 days after receipt of Grantee's written demand invoking this Section "Disputes" to render a written decision. If the Grantee is not satisfied with the decision of the BSCC Corrections Planning and Grant Programs Division Deputy Director, the Grantee may appeal the decision, in writing, within 15 days of its issuance (or the expiration of the 30-day period in the event no decision is rendered), to the BSCC Executive Director, who shall have 45 days to render a final decision. If the Grantee does not appeal the decision of the BSCC Corrections Planning and Grant Programs Division Deputy Director, the decision shall be conclusive and binding regarding the dispute and the Contractor shall be barred from commencing an action in court, or with the Victims Compensation Government Claims Board, for failure to exhaust Grantee's administrative remedies.

B. Pending the final resolution of any dispute arising under, related to or involving this Grant Agreement, Grantee agrees to diligently proceed with the performance of this Grant Agreement, including the providing of services in accordance with the Grant Agreement. Grantee's failure to diligently proceed in accordance with the State's instructions regarding this Grant Agreement shall be considered a material breach of this Grant Agreement.

C. Any final decision of the State shall be expressly identified as such, shall be in writing, and shall be signed by the Executive Director, if an appeal was made. If the Executive Director fails to render a final decision within 45 days after receipt of the Grantee's appeal for a final decision, it shall be deemed a final decision adverse to the Grantee's contentions. The State's final decision shall be conclusive and binding regarding the dispute unless the Grantee commences an action in a court of competent jurisdiction to contest such decision within 90 days following the date of the final decision or one (1) year following the accrual of the cause of action, whichever is later.

D. The dates of decision and appeal in this section may be modified by mutual consent, as applicable, excepting the time to commence an action in a court of competent jurisdiction.

Appendix E: Evaluation Guidelines

Indigent Defense Grant Program
Local Evaluation Plan

The Indigent Defense Grant Program for funding period February 15, 2021 through June 30, 2023 requires a Local Evaluation Plan (LEP) to ensure projects funded by the Board of State and Community Corrections (BSCC) can be evaluated to determine their impact and effectiveness. The LEP is a written document that describes how the project will be monitored and evaluated and shows how evaluation results will be used for project improvement and decision making. The LEP should be developed before the project starts by program staff using a collaborative process that involves all relevant project stakeholders. Grantees are encouraged to identify an evaluator who can assist in the collaborative process of developing the LEP and guide the local evaluation throughout the grant cycle. This guideline was developed to assist grantees in creating a LEP that, at a minimum, addresses the information defined below.

Keep in mind the implementation of practices and strategies supported by data are to be considered whenever possible. The BSCC is responsible for verifying that grant money is spent efficiently and on effective projects; collecting data is one mechanism used to determine this. Evaluation results from each project may be used to inform the body of knowledge regarding what works with the target populations. Therefore, it is important to collect appropriate and consistent data. A strong LEP will help pave the way for a strong evaluation. A strong evaluation may be used to provide support for your project and funding.

The BSCC will make public the LEP from each grantee. LEPs may be posted to the BSCC website and/or developed into a statewide summary report to be shared with the Administration, the Legislature, and the public.

All grantees are required to submit a LEP by 5 p.m. on August 30, 2021. LEPs are sent to the Indigent Defense Grant inbox (IndigentDefenseGrant@bscc.ca.gov).

Cover Page
The cover page provides a descriptive report title, and identifies the grantees, authors, contact information, project time period, and funding source.

Project Background
At a minimum, this section should:

- Provide information essential to understanding the project and the need for the project (history in the community, an explanation of activities and/or services, description of similar efforts in the region, description of how the activities and/or services address the need, etc.).
- For project components that involve participants:

    - Define the target population (e.g., gender, age, risk factors, prior involvement with the justice system).
    - Define the criteria used to determine participant eligibility of the target population.
    - Describe the process for determining which intervention(s) and/or services a participant needs and will receive.
- Provide a description of the project's goals and objectives.

Process Evaluation Method and Design

At a minimum, this section should include:

- The research design for the process evaluation.
- For project components that involve participants, include:
    - The plan to document activities within the project and/or services provided to each participant (e.g., maintaining a database, signup sheets).
    - How participants' progress will be tracked (e.g., start dates, attendance, dropouts, successful completions, progress milestones).
- For project components that do not involve participants, the plan to document activities (e.g., investigations, system/equipment updates).
- How activity progress will be tracked (e.g., start dates, cases initiated/resolved, inspections).
- Process variables and how they will be defined and measured (tools/instruments used to collect the data and frequency of collection).
- How the process data will be collected, and the data source(s) used.
- The project-oversight structure and overall decision-making process for the project.
- How the project components will be monitored, determined effective, and adjusted as necessary.
- The plan for documenting activities performed by staff and contracted providers, if applicable.
- Procedures ensuring that the project will be implemented to fidelity, when applicable.
- How quantitative and qualitative process data will be analyzed. Describe the statistical tools used to analyze quantitative data (e.g., descriptive statistics, chi-square) and methods used for analyzing qualitative data (identifying themes, content analysis, etc.). You do not need to state the analysis type for each evaluation activity separately.

Outcome Evaluation Method and Design

At a minimum, this section should include:

- The research design for the outcome evaluation (e.g., pre-/post-test, mixed methods, comparison groups).
- A set of evaluation questions. These are the questions that the evaluation will answer. These shall include the project's goals and objectives and may also include more outcome-oriented questions.
- For project components that involve participants:
    - The estimated number of participants expected to receive each type of intervention/service.

    - The criteria for determining participant success in the project.
- The estimated number of activities expected to be accomplished.
- The criteria for determining activity completion and/or success in the project.
- Outcome variables and how they will be defined and measured (tools/instruments used to collect the data and frequency of collection).
- How the outcome data will be collected, the timing of data collection, and the data source(s) used.
- How quantitative and qualitative outcome data will be analyzed. Describe the statistical tools used to analyze quantitative data (e.g., descriptive statistics, chi-square) and methods used for analyzing qualitative data (identifying themes, content analysis, etc.). You do not need to state the analysis type for each evaluation activity separately.
- The strategy for determining whether outcomes are due to the project and not some other factor(s) unrelated to the project, including a description of a comparison group, when applicable.
- If multiple types of interventions will be employed, include a description of how the separate effects on outcome variables of each type of the intervention will be determined, if possible.

Project Logic Model

Provide a visual representation of the project depicting the logical relationships between the project's goal statements, input/resources, activities, outputs, outcomes and impacts of the project.

- Inputs/Resources: "Inputs are various resources available to support the project (e.g., staff, materials, curricula, funding, equipment)."[1] "Include those aspects of the project which are available and dedicated to, or used by, the project/service to operate."[2]
- Activities: Activities are what the project does with the inputs or the services provided in alignment with project goals. If you have access to inputs/resources, then they can be used to accomplish project activities.
- Outputs: If the activities are accomplished, these are the number of services delivered and/or products provided.
- Outcomes: "Outcomes are the immediate, specific, measurable changes"[3] due to the project. If the outputs are achieved, then this is the change we expect to see. Outcomes may be grouped by:
    - Short-Term- Timeframe (grant cycle, months)
    - Medium-Term- Timeframe (grant cycle, months-years)
- Impacts: The ways in which the community, city, and/or county are changed by the achieved outcomes. This includes fundamental intended or unintended changes that occur in organizations, communities, or systems because of project activities beyond the grant cycle. Impacts are societal/economic/civic/environmental focused and may be the same or similar to long-term outcomes (typically occur beyond the grant cycle).[4]

Appendices (if applicable)

Include relevant supplementary evaluation and project materials in appendices. These may include, but are not limited to, data collection instruments, more detailed descriptions of activities and interventions, training materials, educational materials, operational definitions, additional analyses, and presentations.

Indigent Defense Grant Program
Local Evaluation Report

The Indigent Defense Grant Program for funding period February 15, 2021 through June 30, 2023 requires a Local Evaluation Report (LER) to identify whether the project was successful in achieving its goals and objectives. This LER must be based on the original Local Evaluation Plan (LEP). Any modifications to the LEP must be explained in the LER. This guideline was developed to assist grantees in writing a LER that, at a minimum, addresses the required information defined below.

The LER will document the activities completed with the support of grant funds and the outcomes achieved. BSCC will use this report to verify the grant money was well spent and describe the impacts of the project. Assuming the projects have successful outcomes, other organizations may want to adopt certain project components/intervention(s) demonstrated to be effective. Therefore, the report should include enough information to allow other organizations to replicate your project strategies.

The BSCC will make public the LER from each grantee. LERs may be posted to the BSCC website and/or developed into a statewide summary report to be shared with the Administration, the Legislature, and the public.

All grantees are required to submit a LER to the BSCC no later than 5 p.m. on December 31, 2023.

RECOMMENDATION:

It is recommended that the Board of Supervisors:
a. Authorize the Chief Information Officer to execute a non-Standard Agreement with Black Hills Information Security, LLC for network security evaluation for the term of January 9, 2024, through June 30, 2024, in an amount not to exceed $37,760; and

SUMMARY:

The Information Technology Department is vigilant in its pursuit of protecting the County's network from cyber-attacks. This agreement will assist in that mission with a penetration test. Penetration testers use the same tools, techniques, and processes as attackers to find and demonstrate the business impacts of found security weaknesses, and their testing is performed carefully so that there is no business interruption.

DISCUSSION:

Black Hills Information Security, LLC services include threat and vulnerability assessments. Their penetration testing is designed to identify and focus an organization on key points of leverage to create the largest impact on security with the least cost and effort. They will be able to identify issues and tell the county how they found them. This approach will give the county more information to secure its environment better and is a key to lasting improvement. It addresses the county's tools and technology and improves the capabilities and understanding of its employee's cyber activities.

The Chief Information Officer recommends the approval of this non-Standard Agreement with Black Hills Information Security, LLC for network security evaluation.

OTHER AGENCY INVOLVEMENT:
County Counsel has reviewed and approved the non-Standard Agreement with Black Hills Information Security, LLC. Auditor-Controller reviewed the contract but did not agree to the non-standard payment provisions.

FINANCING:
Required funds will be included in each respective Recommended Budget for the Information Technology Department, ITD 1930, Appropriations Unit INF002.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
The Board's approval of the recommended agreement will assist in the overall security of the County's network.

Any changes to the schedule must be agreed to by both parties.
BHIS may substitute scheduled testers at BHIS discretion to meet schedule.
Client schedule changes require four weeks of notice to avoid incurring a penalty. The following schedule may be enforced if BHIS is not able to reschedule work to avoid idling a tester.

- Less than 4 weeks' notice incurs an additional 20% charge
- Less than 2 weeks' notice incurs an additional 50% charge
- Day of start or within testing time frame incurs an additional 100% charge

BHIS will make a reasonable effort to reschedule work for testers and avoid the additional charge. Additional charge shall be assessed only on the portion of a test that is delayed or cancelled.

10. Payment shall be made by direct transfer or check. Payment by credit card is not permitted.

Audit & Penetration Test Authorization

11. **Purpose.** The purpose of this agreement is to set forth the agreement regarding consulting or network security scanning and penetration testing offered by BHIS to Client. BHIS shall utilize industry standard software to perform electronic scans of Client's networks and/or firewalls or on any system attached to the Client network(s). Measures will be taken to avoid damaging networks and systems, as well as the data contained within such networks and systems. If damages caused by BHIS were unforeseeable, BHIS will not be held responsible for the damages or any of its consequences, unless said damages were caused by gross negligence or willful misconduct of BHIS.
12. **Scope.** This agreement covers all computer and communication devices owned or operated by Client. This agreement also covers any computer and communications device that are present on Client network(s) during the assessment timeframe. BHIS will not intentionally perform Denial of Service activities without the explicit request and authorization of Client.
13. **Network Control.** If Client does not control their network and/or Internet service is provided via a second or third party, these parties are required to approve scanning in writing if scanning is to occur outside of the Client LAN. By signing this agreement, all involved parties acknowledge that they authorize BHIS to use their service networks as a gateway for the conduct of these tests during the dates and times specified.
14. **Service Degradation and/or Interruption**. Network performance and/or availability may be affected by the network scanning and/or testing. Client releases BHIS of any and all liability for damages that may arise from network availability restrictions caused by the network scanning and/or testing, unless such damages are the result of gross negligence or intentional misconduct on the part of BHIS.
15. **Client Point of Contact during the Scanning Period.** Client shall identify in writing a person to be available if the BHIS Scanning Team has questions regarding data discovered or requires assistance.
16. **Scanning Period.** Client and BHIS Scanning Team shall identify in writing the allowable dates and times for scanning to take place during a Rules of Engagement meeting prior to testing.
17. **No Guarantees.** BHIS will use reasonable care in the performance of the Services. CLIENT ACKNOWLEDGES, UNDERSTANDS AND AGREES THAT BHIS DOES NOT COVENANT, GUARANTEE OR WARRANT THAT IT WILL FIND, LOCATE, DISCOVER AND/OR REPAIR ANY OR ALL OF CLIENT'S SYSTEM'S VULNERABILITIES, OR THAT BHIS WILL BE ULTIMATELY SUCCESSFUL IN DETERMINING THE SOURCE OR FULL IMPACT OF ANY AUTHORIZED OR UNAUTHORIZED ACCESS OR SECURITY BREACH (OR ATTEMPTED

DocuSign Envelope ID: A5D41F5C-2E34-4698-BDAD-17B3A45B6359

ACCESS OR SECURITY BREACH), AND WILL NOT HOLD BHIS RESPONSIBLE THEREFOR. CLIENT AGREES NOT TO REPRESENT TO ANY THIRD PARTY THAT BHIS HAS PROVIDED ANY SUCH COVENANT, GUARANTEE OR WARRANTY. ALL DETERMINATIONS REGARDING THE CLIENT'S APPROACH TO COMPLIANCE WITH APPLICABLE LAWS AND REGULATIONS, INCLUDING HOW AND WHETHER THE SERVICES CONTRIBUTE TO SUCH APPROACH, SHALL BE MADE SOLELY BY THE CLIENT AND CLIENT SPECIFICALLY ACKNOWLEDGES THAT BHIS HAS NOT REPRESENTED, WARRANTED, OR OTHERWISE GUARANTEED PERFORMANCE OF THE SERVICES WILL RESULT IN ANY SUCH COMPLIANCE.

18. **Possible Damage or Disruption.** BHIS hereby disclaims responsibility for any and all claims of loss arising from or in connection with disruptions of and/or damage to Client's or a third party's information systems and the information and data contained therein arising from or related to the provision of the Services, including, but not limited to, denial of access to a legitimate system user, automatic shutdown of information systems caused by intrusion detection software or hardware, or failure of the information system resulting from the provision of the Services. Client shall indemnify, defend, and hold harmless BHIS from any claims related to any claims of such damage.

19. **Consents and Data.** Client is solely responsible for the content of the data contemplated to be accessed by BHIS from Client's systems under this Agreement. Client has the right to grant to BHIS, and does hereby grant to BHIS (except to the extent otherwise specified in an SOW), the right to access all such data, all such systems, and all facilities associated with such systems and data for the purpose of providing the Services. Client further acknowledges that it has the right to and does hereby authorize BHIS to conduct any forensic or other investigations, to access computers, files or other data reasonably necessary to conduct such investigations, and to view information as necessary to perform the Services. Client shall, at its own cost and expense, obtain and maintain all necessary third party consents required for BHIS to so access such systems and data. Client represents and warrants that BHIS's performance of the Services does not and will not conflict with any obligations of Client to any third party, including without limitation employees of Client. Client further represents and warrants that Client has taken and will take all necessary actions (including without limitation obtaining consents) required for Client to legally disclose all personally identifiable or equivalent data contained within the data to be accessed by BHIS as the result of BHIS's performance of the Services, and that Client shall not grant BHIS access to data and shall not disclose data to BHIS to the extent such access and disclosure is not then permitted under all applicable laws. Client shall not provide BHIS access to any data which require, pursuant to any law or regulation, protection of such data to any legally and/or regulatory specified standard of care, to include without limitation export/import restrictions. Client will also notify BHIS in advance if any data provided to it is restricted for import or export control purposes, including but not limited to the State Department Arms Control list, Munitions list, or any other export control regime. Client shall indemnify, defend, and hold harmless BHIS from any claims related to any breach by Client of any of the foregoing representations, warranties, and obligations.

20. **Legacy Data.** It is understood by Client that there is an element of risk associated with the provision of the Services relating to technical testing. This risk includes the potential that certain electronic and nonoperational data or code may remain on Client's system after the provision of Services by Consultant or its subcontractors ("Legacy Data"), and that Client or its agents may mistakenly perceive such Legacy Data to be malicious in nature and take corrective actions based on such mistaken belief. Although BHIS and its subcontractors will put forth commercially reasonable efforts to remove Legacy Data from Client's system after the provision of Services, it is understood and agreed by Client that there is no guarantee that there will be no Legacy Data left remaining on Client's system after the provision of Services, nor that Consultant or its subcontractors will remove all Legacy Data from Client's systems after the provision of Services. BHIS DOES NOT ASSUME ANY RESPONSIBILITY OR LIABILITY FOR ANY ACT OR OMISSION BY CLIENT OR ITS AGENTS ARISING FROM OR RELATING TO THE DISCOVERY OF ANY LEGACY DATA, REGARDLESS OF WHETHER SUCH LEGACY DATA

WAS LEFT INTENTIONALLY, BY DESIGN, BY ERROR OR OTHERWISE. NOTWITHSTANDING ANYTHING HEREIN TO THE CONTRARY, CONSULTANT EXPRESSLY DISCLAIMS ALL WARRANTIES OF ANY KIND, WHETHER EXPRESS OR IMPLIED. IN PARTICULAR, BHIS MAKES NO WARRANTY THAT CLIENT'S SYSTEM WILL BE FREE OF LEGACY DATA AFTER THE PROVISION OF SERVICES. IN NO EVENT SHALL BHIS BE LIABLE TO CLIENT OR TO ANY THIRD PARTY FOR DAMAGES RESULTING FROM DISCOVERY OF LEGACY DATA AND ACTS OR OMISSIONS BASED THEREUPON.

21. **Excuse.** BHIS shall be excused from the performance of any obligation to the extent that such performance conflicts with any applicable law or regulation, including without limitation when BHIS in good faith believes that such performance is likely to so conflict.

22. **Confidential Information.** Parties below acknowledge that during the term of this Agreement each party may receive or have access to the Proprietary and Confidential information of the other party, and each party agrees that such information is a valuable asset of the other party and shall remain proprietary and confidential as to its owner. Each party agrees it will not reveal, publicly disclose, or use the other party's Proprietary or Confidential information except as necessary in performing obligations authorized in this Agreement.

23. **Intellectual Property.** All work product will contain Background IP.

    Background Intellectual Property shall mean Intellectual Property, proprietary information, or confidential know-how relevant to the project which is in the possession of a party prior to the commencement of the project or generated after commencement of the project but independent of the project.

Black Hills Information Security Approach

Monterey County recognizes the need to identify vulnerabilities and associated risk within their organization to improve the security of their IT infrastructure.

Security should augment and strengthen your organization. Some penetration testing firms mistakenly believe that security is the sole business goal for a company or institution. At Black Hills Information Security (BHIS), we understand that your organization is looking for security solutions that drive business and institutional value, among many other considerations. We strive to provide our customers with the answer to one critical question: What actions can be taken to truly improve your organization and make its staff and security architecture better while allowing your organization to perform its other core business functions?

How does our company differentiate itself from others?
Below are several reasons why BHIS stands above and apart from other security consulting companies.

Community Involvement

Due to our commitment to strengthening the entire security community, BHIS strongly believes in giving back to that community. The members of BHIS are part of Paul's Security Weekly (formerly called "PaulDotCom" Security Weekly), the world's largest technical security podcast. We also believe in the power of open-source. We contribute to and are founders of many different open-source projects, such as Recon-ng, Pushpin, the Active Defense Harbinger Distribution, and the Penetration Testing Execution Standard. We have also presented at SANS, Defcon, Black Hat, DerbyCon, and HTCIA, as well as for the FBI, NSA, and DoD. BHIS believes that the landscape for security professionals today requires us to be more patient, persistent, and adaptable than attackers, and that education is the key to instilling these characteristics industry wide.

Non-Traditional Defensive Research

One situation is becoming increasingly evident: Attackers have an advantage on us. Why? Mainly because mainstream defensive tools and techniques are so transparent. Traditional AV vendors and Firewall/IDS vendors encompass 80% or more of most organizations' entire defensive strategy. Without question, a targeted attacker will go through the effort to acquire these same tools and bypass these technologies. This is why BHIS does not simply recommend the same easily bypassed technologies that other penetration testers often propose.

At BHIS, we are on the cutting edge of active defense technologies. In fact, we founded and maintain the only active defense security distribution framework on the internet. The Active Defense Harbinger Distribution is a DARPA-funded project created by BHIS which strives to be an incubator for new defensive ideas and technologies. The mindset of this project fuels everything we do at BHIS.

Meaningful Reports

Human Narratives, Not Just Tool Output

BHIS strives to provide reports to our customers that truly reveal the vulnerable attack surface of your organization, as well as detailing meaningful, real-world mitigations. BHIS does not copy and paste vulnerability scanning results into our reports. Rather, you will find a full narrative that navigates you through the assessment. Our findings write-ups are based on our security consulting experience across many industries and are tailored to your organization's specific situation. Our customers can run many of these tools on their own, yet there is little to no added value in a testing company charging exorbitant amounts of money for a report generated from a free or low-cost tool. Value from a test derives from what

DocuSign Envelope ID: A5D41F5C-2E34-4698-BDAD-17B3A45B6359

is found beyond the scanning results via the experience of the tester. This experience and insight are integrated into every report that BHIS delivers.

Knowledge Transfer
BHIS was founded on world-class training. To date, we have trained over 20,000 information security professionals. Because of our teaching experience, we have a strong philosophical approach built on not just providing a report but detailing our tactics to ensure our customers understand how a given attack was executed and the impact on the customer environment. From web attacks, to AV bypass, to internal pivoting, BHIS works to ensure your employees can recreate what we have done in the penetration test. This focus is reflected in our reports, as our aim is to support strong security teams who can navigate your organization's defensive efforts confidently.

When we complete testing, we promise the following:

1. You will get a report that was generated by a real human being who was active in the testing of your organization. Actual thoughts about your organization and your needs will go into the report. We will never be satisfied by simply clicking "Generate Report" from a tool.
2. Your team will not only know what we found, but they will know how we found it. This approach is important because improving technology is relatively minor compared to improving the capabilities and understanding of your people. We strive to provide knowledge transfer so your team can approach the ever-changing threat landscape with a *methodology* and not just a checklist.
3. As part of this contract, all BHIS customers will gain access to an online Antisyphon Cyber Range for up to five (5) people from their team. This environment contains over 50 different challenges ranging from network, active directory and host-based threat hunting, web application attacks and security, operating system security, and forensics. This proposal item is available upon request for up to one year after contract start.

Scope Offered by Black Hills Information Security

External and Internal Network Penetration Test

Description

When performing scanning activities over the past years, we have noticed that automated tools are often finding fewer and fewer critical vulnerabilities. While this trend is a good thing, we are also discovering many organizations are vulnerable due to Low or even Informational findings. This is one of the major differentiators for Black Hills Information Security (BHIS). We look at scanning and exploitation as more of an endeavor of learning about your environment, the same way a targeted attacker would. We do not simply run a scanner, look for criticals, and then search tools like Core Impact and Metasploit for an exploit. We use our scanning information to try to understand your network and the individual roles of the computers that comprise it. We want to understand how these points of technology support the overall organizational objectives. With this approach, we find far more vulnerabilities than what is reported by a simple scan.

During the assessment and penetration testing phases, we will perform port scans, vulnerability scans, and testing for all computers, devices, databases, and networking equipment on in-scope networks. We will validate the scans to weed out false positives by manually verifying a subset of results within particular vulnerability classes. However, the true value of a penetration tester over a scanner is going the extra mile of looking at vulnerabilities (including the Low and Informational findings) as well as manually probing the in-scope networks and looking for additional methods of entry or compromise not flagged by a scanner.

Testing is typically performed remotely from BHIS systems connected to the Monterey County network. Several options are available from which BHIS can perform remote, internal network testing – minimizing setup time for your team and eliminating the travel costs of on-site testing.

Black Hills Information Security will use specialized techniques (if applicable) such as document metadata analysis, custom password dictionaries, and other proprietary methods. Remediation guidance will be provided for each vulnerability documented in the report, as well as strategic recommendations for improving the security of the organization as a whole.

Targets

- Up to
  - External (Public) Live Systems:
    - < 175 Live IPs
  - Internal (Private) Live Systems:
    - < 6000 Workstations < 350 Servers <10,000 Network Devices

This scope item will be completed remotely.

Objectives

- Provide a profile of the organization and threat modeling available to potential attackers
- Identify systems and key assets exposed to attackers
- Enumeration of vulnerabilities present on systems
- Provide recommendations for protecting key company assets
- Identify areas where sensitive information is exposed
- Provide evidence of the effectiveness of current defensive mechanisms and attack detection methodologies
- Provide an in-depth understanding of discovered vulnerabilities and repercussions, via exploit attempts, where applicable

DocuSign Envelope ID: A5D41F5C-2E34-4698-BDAD-17B3A45B6359

- Provide recommendations for remediation of the identified practices and/or exposures based on the above testing

For web applications, please note that in-depth testing is best serviced by a dedicated BHIS Web Application Penetration Test that follows an industry-standard methodology, such as the one compiled by the Open Web Application Security Project (OWASP). However, as part of a network level assessment, a limited scan with the following high-level goals may be performed from a network perspective:

- Provide recommendations for mitigating select exposures in web applications
- Provide limited inventory of select vulnerabilities in the organization's web applications that may expose users to malicious exploits
- Provide high-level understanding and verification, via exploit attempts, of select vulnerabilities in the organization's web applications

Methodology

Assessment and testing focus on identifying key assets and targeting them to harvest information, just as an attacker would on the inside of the network. These tests will include:

- **In-Depth Company Profiling and Threat Modeling** – One of the values provided by testing is an understanding of what information can be gathered about your organization from open sources and, more importantly, what attackers can do with it. We will use various tools and resources to collect public information about your organization and couple it with custom threat modeling to perform targeted attacks and report on them.

- **Host Discovery and Service Identification** – BHIS identifies hosts using several network scanning techniques. By employing different techniques, we can quickly obtain a list of assets, and enumerate the services on them.

- **Vulnerability Discovery** - To further identify risk, a vulnerability scan is specifically tuned for the environment and then executed. This scan can be run across the network and is used as a baseline for exploitation. Internal testing also provides for the opportunity to run authenticated scans, which means the scanner will need user-level authentication to the targeted systems, which allows the scanner to compare the host's configuration to compliance and various industry standards.

BHIS Background with Network Assessments and Penetration Tests

The staff at BHIS hold multiple certifications in the area of network assessment and network penetration testing. However, certifications often don't tell the whole story.

We also teach network penetration testing for the SANS Institute and offer multiple free webcasts on the topic.

The link below highlights just a few webcasts we have offered in the area of vulnerability assessments and network penetration testing:

Antisyphon Cyber Range

As part of this contract, all Black Hills Information Security (BHIS) customers will gain access to an online cyber range for up to five (5) people from their team. This environment contains over 100 different challenges ranging from network, active directory and host-based threat hunting, web application attacks and security, operating system security, and forensics. This proposal item is available upon request for up to one year after contract start.

Challenges

After registration is complete and you've successfully logged into the Antisyphon Cyber Range Scoreboard, you will gain access to the Antisyphon Cyber Range challenges.

Antisyphon Cyber Range Challenge Types

There are seven (7) different challenge types:

1. Cryptography
2. Reconnaissance
3. Web Exploitation
4. Reverse Engineering
5. Forensics
6. Penetration Testing
7. Other

Many of these challenges have hints to help people through them.

The goal of any contract with BHIS is to help wholly strengthen our customers' teams. We fundamentally believe that training should be part of any contract we sign. Because of this, we make this cyber range available to all our customers.

ACE-T™ stands for "Antisyphon Cyber Education Testing." Individuals can get ACE-T™ certified by completing challenges in the Antisyphon Cyber Range, which contains a variety of challenges related to cryptography, forensics, penetration testing, reconnaissance, reverse engineering, and web exploitation. The Cyber Range currently has ten levels of ACE- T™ certification for users to work through.

ACE-T™ certification allows users to demonstrate their infosec expertise to colleagues, management, and HR personnel alike. Users also have the ability to share their ACE-T™ certification level with others by having them look up their name at the following URL: https://lookup.hackhills.com/.

Project Timing

Timing

Please note that the timing of this project will be determined following signature of proposal/statement of work. The schedule will be generated by the BHIS project team, following coordination with Monterey County regarding deadlines, tester availability, and customer enterprise environmental factors (e.g., remote access, test string availability, blackout dates, support personnel etc.). No guarantees on schedule can be made that are not identified in this section.

BHIS has not preplanned this work.

Work that has not been preplanned may take six to twelve (6-12) or more weeks to commence, starting from the date of a signed proposal/statement of work. This estimate is based on current workloads, resources, and projections.

Cancellation or rescheduling of work without 4 (four) weeks prior notice will incur an additional charge. The following schedule may be enforced if BHIS is not able to reschedule work to avoid idling a tester.

- Less than 4 weeks' notice incurs an additional 20% charge
- Less than 2 weeks' notice incurs an additional 50% charge
- Day of start or within testing time frame incurs an additional 100% charge

BHIS will make a reasonable effort to reschedule work for testers and avoid the additional charge. Additional charge shall be assessed only on the portion of a test that is delayed or cancelled.

The table below is listed for planning and estimation purposes. This reflects time on keyboard or on-site actively engaged in the testing methodology. It does not include planning, coordination, set up, reporting or debriefing the customer. As all BHIS engagements are timebound, proper guidance from Monterey County will result in optimal coverage within the time constraints.

Board Report

Legistar File Number: 23-936

Item No.51

Board of Supervisors
Chambers
168 W. Alisal St., 1st Floor
Salinas, CA 93901

January 09, 2024

Introduced: 12/8/2023
Version: 1

Current Status: Passed
Matter Type: General Agenda Item

Approve and authorize the Auditor-Controller to sign an Amendment No. 6 to the Professional Services Agreement with Hinderliter, de Lamas & Associates, for the provision of sales and use tax recovery analysis and audit services, adding $74,850 for a revised total contract amount of $463,955, with no change to the contract term of July 1, 2019 through June 30, 2024.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
Approve and authorize the Auditor-Controller to sign an Amendment No. 6 to the Professional Services Agreement with Hinderliter, de Llamas & Associates, for the provision of sales and use tax recovery analysis and audit services, adding $74,850 for a revised total contract amount of $463,955, with no change to the contract term of July 1, 2019 through June 30, 2024.

SUMMARY:
The County Auditor-Controller's Office (ACO) provides oversight and coordination related to sales, use and transaction tax analysis and audits to ensure the County of Monterey receives its proper share of these revenues. For many years the ACO has contracted with Hinderliter de Llamas & Associates (HdL) for these services. HdL also provides ongoing data and analyses to support County staff in fiscal and economic planning and development. HdL represents most of the counties in California and the cities in Monterey County in this capacity. HdL actively interfaces with CSAC, SACA and Beacon Economics of California.

The cost for HdL services is a set cost of $7,200 per year plus 15% of all new and recovered sales, use and transaction tax revenue received by the County. The ACO does not anticipate the set cost to increase significantly. However, due to the fluctuation of monies recovered by HdL, the associated 15% fee fluctuates.

During this fiscal year, due to new sales tax revenue recovered by HdL thus far of $643,672 coupled with the projected future new revenue of $311,327 for a total of $954,999 additional revenue to the County, the Contractor's 15% fee element on new and recovered revenue is increasing, requiring an increase to the contract amount. The ACO is requesting the authorization of Amendment No. 6, adding $74,850 for a revised total contract amount of $463,955.

DISCUSSION:
State taxing agencies are responsible each quarter for collecting and monitoring sales tax revenues from thousands of accounts. Considering the sheer number of returns, the complexities and variations of each state's tax system, and the number of sales tax filings by out-of-state corporations, the taxing agencies do a very effective job of collecting and distributing sales and use tax revenues. However, despite their diligence, approximately 3% of local revenues are misallocated.

To address these errors, the HdL Companies administers an ongoing, taxpayer-friendly system of monitoring client sales and use tax receipts to identify errors and recover lost revenues. These recoveries directly benefit Monterey County's General Fund.

HdL looks for and corrects allocation errors including:
· Sales misreported as "use tax" transactions.
· "Point of Sale" revenues misreported to administrative offices or other locations.
· Misallocations occurring because sales from multiple retail outlets, order desks, or offices are credited to a single location.
· Misallocations due to jurisdiction miscoding.

The sales and use tax recovery performed by HdL for fiscal year 2023 was $451,748 for Monterey County while charges totaled $74,362. This represents a net return on investment of 607% on audit, reporting and management fees paid to HdL.

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel has reviewed and approved this amendment as to form. The County Auditor-Controller has reviewed and approved this amendment as to financial terms.

FINANCING:

Board of Supervisors

Introduced: 12/8/2023
Version: 1

Current Status: ATS Review
Matter Type: General Agenda Item

Approve and authorize the Auditor-Controller to sign an Amendment No. 6 to the Professional Services Agreement with Hinderliter, de Lamas & Associates, for the provision of sales and use tax recovery analysis and audit services, adding $74,850 for a revised total contract amount of $463,955, with no change to the contract term of July 1, 2019 through June 30, 2024.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
Approve and authorize the Auditor-Controller to sign an Amendment No. 6 to the Professional Services Agreement with Hinderliter, de Llamas & Associates, for the provision of sales and use tax recovery analysis and audit services, adding $74,850 for a revised total contract amount of $463,955, with no change to the contract term of July 1, 2019 through June 30, 2024.

SUMMARY:
The County Auditor-Controller's Office (ACO) provides oversight and coordination related to sales, use and transaction tax analysis and audits to ensure the County of Monterey receives its proper share of these revenues. For many years the ACO has contracted with Hinderliter de Llamas & Associates (HdL) for these services. HdL also provides ongoing data and analyses to support County staff in fiscal and economic planning and development. HdL represents most of the counties in California and the cities in Monterey County in this capacity. HdL actively interfaces with CSAC, SACA and Beacon Economics of California.

The cost for HdL services is a set cost of $7,200 per year plus 15% of all new and recovered sales, use and transaction tax revenue received by the County. The ACO does not anticipate the set cost to increase significantly. However, due to the fluctuation of monies recovered by HdL, the associated 15% fee fluctuates.

During this fiscal year, due to new sales tax revenue recovered by HdL thus far of $643,672 coupled with the projected future new revenue of $311,327 for a total of $954,999 additional revenue to the County, the Contractor's 15% fee element on new and recovered revenue is increasing, requiring an increase to the contract amount. The ACO is requesting the authorization of Amendment No. 6, adding $74,850 for a revised total contract amount of $463,955.

DISCUSSION:
State taxing agencies are responsible each quarter for collecting and monitoring sales tax revenues from thousands of accounts. Considering the sheer number of returns, the complexities and variations of each state's tax system, and the number of sales tax filings by out-of-state corporations, the taxing agencies do a very effective job of collecting and distributing sales and use tax revenues. However, despite their diligence, approximately 3% of local revenues are misallocated.

To address these errors, the HdL Companies administers an ongoing, taxpayer-friendly system of monitoring client sales and use tax receipts to identify errors and recover lost revenues. These recoveries directly benefit Monterey County's General Fund.

HdL looks for and corrects allocation errors including:
· Sales misreported as "use tax" transactions.
· "Point of Sale" revenues misreported to administrative offices or other locations.
· Misallocations occurring because sales from multiple retail outlets, order desks, or offices are credited to a single location.
· Misallocations due to jurisdiction miscoding.

The sales and use tax recovery performed by HdL for fiscal year 2023 was $451,748 for Monterey County while charges totaled $74,362. This represents a net return on investment of 607% on audit, reporting and management fees paid to HdL.

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel has reviewed and approved this amendment as to form. The County Auditor-Controller has reviewed and approved this amendment as to financial terms.

FINANCING:
The HDL annual contract is administrated by the ACO appropriation AUD002 Annual Audits Unit 8010. The contract amount has been included in the budget for FY 2023-24.

If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

Such contacts will be conducted with the utmost courtesy and in a manner to encourage local business retention and expansion. Provide a report of all contacts and the results thereof.

4. Prepare and submit to the CDTFA all information necessary to correct any allocation errors that are identified. For point of sale misallocations, follow up with the individual businesses and the CDTFA to ensure that all back quarterly payments due the County are recovered.

5. Provide quarterly analysis, customized newsletters, software, quarterly computer updates, and on-call assistance with sales tax projections for proposed projects. 6. Provide quarterly invoices to the County of Monterey which will include the business name, audit period start date, permit number, local allocation amount received by County and the amount due contractor. Provide applicable Department of Tax and Fee Administration quarterly distribution report documents for the purpose of verifying and cross-referencing invoice amounts.

COMPENSATION

Sales/Use Tax Audit CONTRACTOR shall be further paid **15%** of all new and recovered sales, use and transactions tax revenue received by the COUNTY as a result, in whole or in part, of audit and recovery work performed by CONTRACTOR (hereafter referred to as "audit fees"), including any reimbursement from the Sales and Use Tax Compensation Fund as outlined in Section 97.68 of the Revenue and Taxation Code. In the event that CONTRACTOR is responsible, in whole or in part, for an increase in the tax reported by businesses already properly making tax payments to the COUNTY, it shall be CONTRACTOR'S responsibility to separate and support the incremental amount that is attributable, in whole or in part, to its efforts prior to the application of the audit fee. Said audit fees will apply to state fund transfers received for back quarter reallocations and monies received in the first eight consecutive reporting quarters following completion of the audit by CONTRACTOR and confirmation of corrections by the California Department of Tax and Fee Administration. CONTRACTOR shall provide COUNTY with an itemized quarterly invoice showing all formula calculations and amounts due for audit fees, which shall be payable no later than 30 days following invoice date.

If a correction involves a point of sale allocation error for a specific business, CONTRACTOR shall obtain COUNTY approval prior to beginning work. Said approval shall be deemed given when the COUNTY'S designated representative, signs a Sales Tax Audit Authorization form. COUNTY shall pay audit fees upon CONTRACTOR'S submittal of evidence of State Fund Transfers and payments to COUNTY from businesses identified in the audit and approved by the COUNTY. The audit fees shall be payable on all new and/or recovered tax revenues received from approved businesses as a consequence, in whole or in part, of the audit, and even if COUNTY, of its own volition, assists with the audit, works in parallel with the audit, and/or expends attorney's fees or other out-of-pocket costs in connection with any of the foregoing.

Any compensation arising out of sales, use and transactions tax audits or point of correction audits shall be credited against the "not to exceed" level of compensation. No additional compensation shall be paid without an amendment to the Agreement.

This can include, but not be limited to, planning for care court, coordinating treatment, discussing housing options, planning for rearrest and/or reentry into diversion programs. The workgroup shall also focus on targeting the reduction of Felony Incompetent to Stand Trial (FIST) commitments overall within the county. If the Contractor is not from one of the county entities required to participate in the workgroup as referenced in6.A, facilitation and participation responsibilities may be delegated to another workgroup member.

6. CONTRACTOR RESPONSIBILITIES:

A. The members of the workgroup coordinated by the Contractor must include, but are not limited to, representatives from the County Superior Court, the Public Defender's Office, the District Attorney's Office, the County Sheriff, the County Department of Behavioral Health or Primary Service Provider, and the County Probation Officer. The Contractor responsible for coordinating the workgroup may or may not be from one of the county entities required to participate on the collaborative community stakeholder workgroup.

B. The Contractor shall submit and maintain an annual roster of all current members of their workgroup. The Contractor shall email the roster to DSH at DSHDiversion@dsh.ca.gov no later than July 31st of each fiscal year.

F. Contractor shall provide DSH with a list of roster members who attended the meeting, a copy of the meeting agenda which includes a list of action items discussed, and a brief summary of the current status and outcomes resulting from the workgroup's efforts as verification for disbursement.

G. Contractor and its subcontractors shall procure and keep in full force and effect during the term of this Agreement all permits, registrations and licenses necessary to accomplish the work specified in this Agreement and shall give all notices necessary and incident to the lawful prosecution of the work. Contractor shall provide proof of any such license(s) permits(s), and certificate(s) upon request by the DSH. Contractor agrees that failure by itself or its subcontractors to provide evidence of licensing, permits, or certifications shall constitute a material breach for which the DSH may terminate this Agreement with cause.

H. Contractor shall provide services as outlined in this Agreement. Contractor shall be responsible to fulfill the requirements of this Agreement and shall incur expenses at its own risk and invest sufficient amount of time and capital to fulfill the obligations as contained herein.

I. If any conflict arises between provisions of the plans and specifications and any such law above referred to, Contractor shall immediately notify DSH in writing.

J. The DSH may terminate the Agreement for cause, pursuant to section 7 of Exhibit C if the Contractor or its subcontractors fails to comply with a federal, state or local law and the noncompliance, based on the facts and circumstances would constitute a material breach of this Agreement under California law.

The DSH further reserves the right to terminate this Agreement should a threat to security be determined.

B. In the event that the services required under this Agreement will be performed within a DSH facility, Contractors and their employees who are assigned to work with, near, or around patients shall be required to be examined and tested or medically evaluated by a licensed healthcare provider for TB in an infectious or contagious stage prior to the performance of contracted duties, and at least once a year thereafter (within 12 months of their initial or previous TB test under this contract), or more often as directed by DSH. The statement must include at a minimum, General Use, Security and Privacy safeguards, Unacceptable Use, and Enforcement Policies. The statement must be signed by the workforce member prior to access to DSH PCI. The statement must be renewed annually. The Contractor shall retain each person's written confidentiality statement for DSH inspection for a period of three (3) years following contract termination.

B. ***Background check.*** Before a member of the Contractor's workforce may access DSH PCI, Contractor must conduct a thorough background check of that worker and evaluate the results to assure that there is no indication that the worker may present a risk for theft of confidential data. The Contractor shall retain each workforce member's background check documentation for a period of three (3) years following contract termination.

C. ***Workstation/Laptop encryption.*** All workstations and laptops that process and/or store DSH PCI must be encrypted using a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard (AES), with a 128bit key or higher. The encryption solution must be full disk unless approved by the DSH Information Security Office.

D. ***Server Security.*** Servers containing unencrypted DSH PCI must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review.

E. ***Minimum Necessary.*** Only the minimum necessary amount of DSH PCI required to perform necessary business functions may be copied, downloaded, or exported.

F. ***Removable media devices.*** All electronic files that contain DSH PCI data must be encrypted when stored on any removable media or portable device (i.e. USB thumb drives, floppies, CD/DVD, smart devices tapes etc.). PCI must be encrypted using a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard (AES), with a 128bit key or higher

G. ***Antivirus software.*** All workstations, laptops and other systems that process and/or store DSH PCI must install and actively use a comprehensive anti-virus software solution with automatic updates scheduled at least daily.

H. ***Patch Management.*** All workstations, laptops and other systems that process and/or store DSH PCI must have operating system and application security patches applied, with system reboot if necessary. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within 30 days of vendor release.

I. ***User IDs and Password Controls.*** All users must be issued a unique user name for accessing DSH PCI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password. Passwords are not to be shared. Must be at least eight characters. Must be a non-dictionary word. Must not be stored in readable format on the computer. Must be changed every 60 days. Must be changed if revealed or compromised. Must be composed of characters from at least three of the following four groups from the standard keyboard:

- Upper case letters (A-Z)
- Lower case letters (a-z)
- Arabic numerals (0-9)
- Non-alphanumeric characters (punctuation symbols)

J. ***Data Sanitization.*** All DSH PCI must be sanitized using NIST Special Publication 800-88 standard methods for data sanitization when the DSH PCI is no longer needed.

2. System Security Controls

A. ***System Timeout.*** The system must provide an automatic timeout, requiring reauthentication of the user session after no more than 20 minutes of inactivity.

B. ***Warning Banners.*** All systems containing DSH PCI must display a warning banner each time a user attempts access, stating that data is confidential, systems are logged, and system use is for business purposes only. User must be directed to log off the system if they do not agree with these requirements.

C. ***System Logging.*** The system must maintain an automated audit trail which can identify the user or system process which initiates a request for DSH PCI, or which alters DSH PCI. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users This logging must be included for all user privilege levels including, but not limited to, systems administrators. If DSH PCI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least 3 years after occurrence.

D. ***Access Controls.*** The system must use role based access controls for all user authentications, enforcing the principle of least privilege.

E. ***Transmission encryption.*** All data transmissions of DSH PCI outside the contractor's secure internal network must be encrypted using a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard (AES), with a 128bit key or higher. Encryption can be end to end at the network level, or the data files containing DSH PCI can be encrypted. This requirement pertains to any type of DSH PCI in motion such as website access, file transfer, and E-Mail.

F. ***Intrusion Detection***. All systems involved in accessing, holding, transporting, and protecting DSH PCI that are accessible via the Internet must be protected by a comprehensive intrusion detection and prevention solution.

3. Audit Controls

A. ***System Security Review.*** All systems processing and/or storing DSH PCI must have at least an annual system risk assessment/security review which provides assurance that administrative, physical, and technical controls are functioning effectively and providing adequate levels of protection. Reviews shall include vulnerability scanning tools.

B. ***Log Reviews.*** All systems processing and/or storing DSH PCI must have a routine procedure in place to review system logs for unauthorized access.

Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this agreement for more than 24 hours.

B. ***Data Backup Plan.*** Contractor must have established documented procedures to securely backup DSH PCI to maintain retrievable exact copies of DSH PCI. The backups shall be encrypted. The plan must include a regular schedule for making backups, storing backups offsite, an inventory of backup media, and the amount of time to restore DSH PCI should it be lost.

At a minimum, the schedule must be a weekly full backup and monthly offsite storage of DSH data.

5. Paper Document Controls

A. ***Supervision of Data.*** DSH PCI in paper form shall not be left unattended at any time, unless it is locked in a file cabinet, file room, desk or office. Unattended means that information is not being observed by an employee authorized to access the information. DSH PCI in paper form shall not be left unattended at any time in vehicles or planes and shall not be checked in baggage on commercial airplanes.

B. ***Escorting Visitors.*** Visitors to areas where DSH PCI is contained shall be escorted and DSH PHI shall be kept out of sight while visitors are in the area.

NOW, THEREFORE, LET IT BE RESOLVED, that the Board of Supervisors does hereby:

A. Sign on to the Call to Action to reduce the number of people with mental illnesses in our county jail, commit to sharing lessons learned with other counties in my state and across the country to support a national initiative and encourage all county officials, employees, and residents to participate in Stepping Up. We resolve to utilize the comprehensive resources available through Stepping Up to:

1) Convene or draw on a diverse team of leaders and decision makers from multiple agencies committed to safely reducing the number of people with mental illnesses in jails; and
2) Collect and review prevalence numbers and assess individuals' needs to better identify adults entering jails with mental illnesses and their recidivism risk, and use that baseline information to guide decision making at the system, program, and case levels; and
3) Examine treatment and service capacity to determine which programs and services are available in the county for people with mental illnesses and co-occurring substance use disorders, and identify state and local policy and funding barriers to minimizing contact with the justice system and providing treatment and supports in the community; and
4) Develop a plan with measurable outcomes that draws on the jail assessment and prevalence data and the examination of available treatment and service capacity, while considering identified barriers; and

5) Implement research-based approaches that advance the plan; and
6) Create a process to track progress using data and information systems, and to report on successes.

d. Direct the County Administrative Office and the Auditor-Controller to incorporate the approved position changes in the FY 2023-24 Adopted Budget and the Human Resources Department to implement the changes in the Advantage Human Resources Management (HRM) System.

RECOMMENDATION:
It is recommended that the Board of Supervisors consider adopting a Resolution to:
a. Amend Personnel Policies and Practices Resolution (PPPR) No. 98-394 Appendixes A and B to create the classifications of Community Engagement Program Manager and Legislative Program Manager with the salary range as indicated in Attachment A effective January 13, 2024;
b. Amend FY 2023-24 County Administrative Office Adopted Budget (Fund 001-Dept. 1050-Unit 8440-Appropriation Unit CAO004) to reallocate one (1) vacant 1.0 FTE Management Analyst III to one (1) 1.0 FTE Community Engagement Program Manager as indicated in Attachment A effective January 13, 2024;
c. Amend FY 2023-24 County Administrative Office Adopted Budget (Fund 001-Dept. 1050-Unit 8054-Appropriation Unit CAO004) to reallocate and approve the reclassification of one (1) 1.0 FTE Management Analyst III to one (1) 1.0 FTE Legislative Program Manager as indicated in Attachment A effective January 13, 2024;
d. Direct the County Administrative Office and the Auditor-Controller to incorporate the approved position changes in the FY 2023-24 Adopted Budget and the Human Resources Department to implement the changes in the Advantage Human Resources Management (HRM) System.

SUMMARY/DISCUSSION:
The County Administrative Office requested that the Human Resources Department study two Management Analyst III positions assigned to the Intergovernmental and Legislative Affairs (IGLA) Division. One position oversees the County's Community Engagement program, while the other position oversees the County's Legislative Program. The objective of the studies was to determine if the Management Analyst III positions, based on assigned duties and responsibilities, were appropriately classified.

The classification studies found the following:

- **Legislative Program:** The incumbent's role in providing legislative program management oversight and responsibility has expanded over the past several years. The incumbent is responsible for managing a highly complex and political program area and providing oversight and direction to state and federal legislative consultants.
- **Community Engagement Program:** The responsibilities of the Community Engagement Program have significantly changed creating a need for the County to provide a higher-level delivery of community engagement services. This requires an advanced level of expertise in gathering complex data, and recommending policies and procedures that promote local government initiatives.

Both classification studies determined that the assigned duties were not consistent with the current classification of either Management Analyst III position. Furthermore, no existing classifications were determined to be appropriate for either position's scope of work. As a result, the classification analysis found the duties would be more accurately reflected in new classifications titled Community Engagement Program Manager and Legislative Program Manager.

To establish salaries for these new classifications, the Human Resources Department completed a base wage compensation study of our ten (10) market comparable agencies; however, not enough matches were found. One (1) match was found in San Mateo for the Community Engagement Program Manager, and two (2) matches were found for the Legislative Program Manager. The County Compensation Philosophy requires a minimum of three (3) benchmark classification matches with comparable agencies to provide sufficient data for analyzing and determining a base wage comparison. The County Compensation Philosophy further states that in the absence of sufficient external data comparisons, the County will use internal comparisons to set base wages for classifications. The internal comparison analysis of the duties, scope of work, complexity, and consequence of error of similarly situated classifications in Monterey County, resulted in similarities being identified between the work of the Sustainability Program Manager, County Homeless Services Director, and the Cannabis Program Manager as they relate to the assigned scope of work, complexity, and consequence of error.

In accordance with the County's Compensation Philosophy, the County of Monterey is committed to providing its employees with competitive compensation in order to attract and retain the highest quality employees to serve the community. Therefore, the Human Resources Department recommends that the Board of Supervisors support the recommended actions to ensure that the future incumbents are compensated commensurate to their positions. Therefore, it is recommended that the salaries of these

new classifications be set at approximately $12,459 per month at top step.

OTHER AGENCY INVOLVEMENT:
The Board of Supervisors Budget Committee and County Administrative Office have reviewed and concur with the recommendations. In addition, the County Employee Management Association (CEMA) has been provided notice of these recommendations.

FINANCING:
The estimated annual impact to the County Administrative Office for the reallocation to a Community Engagement Program Manager is $37,722 per year and $22,004 for the remainder of FY 2023-24. The estimated annual impact to the County Administrative Office for the reclassification and reallocation to a Legislative Program Manager is $37,722 per year and $22,004 for the remainder of FY 2023-24. The total annual cost is $75,444.03, and the prorated cost for FY 2023-24 is $44,008.

The Department will work to manage the increase within its FY 2023-24 adopted budget and will provide a report to the Board of Supervisors when the mid-year estimate and forecast are presented if it is experiencing budgetary challenges resulting from this cost increase.

BOARD OF SUPERVISORS' STRATEGIC INITIATIVES:
The proposed recommended actions address the Board of Supervisors Administration Strategic Initiative. The actions demonstrate the County's commitment to meeting the Board's initiatives in recruiting, retaining, and attracting a diverse, talented workforce that supports the mission of Monterey County.

Authorize the County Contracts/Purchasing Officer or designee to execute an Agreement for the Comprehensive Economic Development Strategy (CEDS) Year 2 Annual Update Standard Agreement for National Council for Community Development Inc. 'Grow America' to perform all tasks necessary to conduct an annual CEDS update for the County of Monterey (County), for the period of six (6) months, for the term of January 9, 2024, through June 30, 2024, in the amount not to exceed $75,000.

RECOMMENDATION:
It is recommended that the Board of Supervisors authorize the County Contracts/Purchasing Officer or the designee to execute an Agreement for the Comprehensive Economic Development Strategy (CEDS) Year 2 Annual Update Standard Agreement for National Council for Community Development Inc. 'Grow America' to perform all tasks necessary to conduct an annual CEDS update for the County of Monterey (County), for the period of six (6) months, for the term of January 9, 2024, through June 30, 2024, in the amount not to exceed $75,000.

SUMMARY/DISCUSSION
In June 2021, the County contracted with National Development Council (Grow America Inc.) to update the five (5) year Comprehensive Economic Development Strategy (CEDS) for U.S. Department of Commerce Economic Development Administration (EDA) acceptance. The update engaged many new stakeholders to an economic development strategy but was limited in developing more detailed strategies and projects. The CEDS was adopted by the Board of Supervisors (Board) and ratified by every jurisdiction in the County, a rare achievement. In establishing yearly updates, the County can engage stakeholders in further detailing those priority strategies and using the work for EDA funding applications as well as California economic development resources.

On October 25, 2022, the Board approved an agreement between the County and Grow America Inc. to perform all tasks necessary to conduct the first annual CEDS update for the County of Monterey.

Work on the Year 1 Update began in the fall of 2022 with the establishment of the County's new Economic Development Committee, which comprises members from the public, private, and nonprofit sectors as well as representatives from target industries. In collaboration with the County, Grow America and CVL Economics identified additional stakeholders to interview over the course of the project to gain broader insights into challenges, needs, and priorities across multiple economic dimensions. The County also convened four focus groups on topics warranting deeper discussion:

Technology and Innovation, Workforce Development, Tourism & Hospitality, and Agriculture. These conversations helped refine the nature of the quantitative analysis and look to indicators that best reflected on-the-ground realities. To that end, the data analysis approach for the Year 1 Update was designed to be more targeted (as opposed to comprehensive) compared to the CEDS; rather than updating every chart from 2021, an emphasis was placed on identifying data points and trends that could most effectively and concisely capture the economic arc of the County in the wake of the pandemic.

Work on the Year 2 Update is anticipated to begin in January of 2024. The County will be collaborating with Grow America and CVL Economics to complete the Year 2 CEDS Annual Update. The Year 1 Update report had three (3) core components: summary of economic conditions, target sector analysis, and spotlight on areas of interest. A Year 2 Update would use the same framework and present the most recently available data for each indicator. Outreach would include the facilitation of up to three focus groups to solicit input on two target sectors and one spotlight section.

The ARPA CEDS Annual Update Agreement/Scope of Services provide the detailed services, programs, and performance measures.

OTHER AGENCY INVOLVEMENT:
The Office of County Counsel has approved the Agreements as to form.

FINANCING:
Funds for the ARPA Economic Recovery Agreements, in the cumulative amount of $75,000, have been included in the FY 2023-24 Adopted Budget, Fund 001, Department 1050, Unit 8514.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
The American Rescue Plan Act funding for a Comprehensive Economic Development Strategy (CEDS) update will provide economic opportunities that support the Board approved strategic initiatives.

Authorize the County Contracts/Purchasing Officer or designee to execute an Agreement for the Comprehensive Economic Development Strategy (CEDS) Year 2 Annual Update Standard Agreement for National Council for Community Development Inc. 'Grow America' to perform all tasks necessary to conduct an annual CEDS update for the County of Monterey (County), for the period of six (6) months, for the term of January 9, 2024, through June 30, 2024, in the amount not to exceed $75,000.

RECOMMENDATION:

It is recommended that the Board of Supervisors authorize the County Contracts/Purchasing Officer or the designee to execute an Agreement for the Comprehensive Economic Development Strategy (CEDS) Year 2 Annual Update Standard Agreement for National Council for Community Development Inc. 'Grow America' to perform all tasks necessary to conduct an annual CEDS update for the County of Monterey (County), for the period of six (6) months, for the term of January 9, 2024, through June 30, 2024, in the amount not to exceed $75,000.

SUMMARY/DISCUSSION

In June 2021, the County contracted with National Development Council (Grow America Inc.) to update the five (5) year Comprehensive Economic Development Strategy (CEDS) for U.S. Department of Commerce Economic Development Administration (EDA) acceptance. The update engaged many new stakeholders to an economic development strategy but was limited in developing more detailed strategies and projects. The CEDS was adopted by the Board of Supervisors (Board) and ratified by every jurisdiction in the County, a rare achievement. In establishing yearly updates, the County can engage stakeholders in further detailing those priority strategies and using the work for EDA funding applications as well as California economic development resources.

On October 25, 2022, the Board approved an agreement between the County and Grow America Inc. to perform all tasks necessary to conduct the first annual CEDS update for the County of Monterey.

Work on the Year 1 Update began in the fall of 2022 with the establishment of the County's new Economic Development Committee, which comprises members from the public, private, and nonprofit sectors as well as representatives from target industries. In collaboration with the County, Grow America and CVL Economics identified additional stakeholders to interview over the course of the project to gain broader insights into challenges, needs, and priorities across multiple economic

dimensions. The County also convened four focus groups on topics warranting deeper discussion: Technology and Innovation, Workforce Development, Tourism & Hospitality, and Agriculture. These conversations helped refine the nature of the quantitative analysis and look to indicators that best reflected on-the-ground realities. To that end, the data analysis approach for the Year 1 Update was designed to be more targeted (as opposed to comprehensive) compared to the CEDS; rather than updating every chart from 2021, an emphasis was placed on identifying data points and trends that could most effectively and concisely capture the economic arc of the County in the wake of the pandemic.

Work on the Year 2 Update is anticipated to begin in January of 2024. The County will be collaborating with Grow America and CVL Economics to complete the Year 2 CEDS Annual Update. The Year 1 Update report had three (3) core components: summary of economic conditions, target sector analysis, and spotlight on areas of interest. A Year 2 Update would use the same framework and present the most recently available data for each indicator. Outreach would include the facilitation of up to three focus groups to solicit input on two target sectors and one spotlight section.

The ARPA CEDS Annual Update Agreement/Scope of Services provide the detailed services, programs, and performance measures.

OTHER AGENCY INVOLVEMENT:
The Office of County Counsel has approved the Agreements as to form.

FINANCING:
Funds for the ARPA Economic Recovery Agreements, in the cumulative amount of $75,000, have been included in the FY 2023-24 Adopted Budget, Fund 001, Department 1050, Unit 8514.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
The American Rescue Plan Act funding for a Comprehensive Economic Development Strategy (CEDS) update will provide economic opportunities that support the Board approved strategic initiatives.

Scope of Services / Payment Provisions

A. SCOPE OF SERVICES

A.1 CONTRACTOR shall provide services and staff, and otherwise do all things necessary for or incidental to the performance of work, as set forth below:

1. ARPA CEDS Annual Update
    a) Project Overview:
        i. The CEDS update process spans five phases, each with its own set of deliverables and stakeholder engagement elements. This new update will require re-establishment of the previous CEDS Executive Committee – comprising representatives from industry, government, academia, and other key groups from across the Region. There will likely be some overlap between these groups, and both will play a critical role in shaping the CEDS, and the activities described in each of the phases below will provide them with the knowledge, insights, and tools to do so effectively.
    b) Phase I:
        i. Reporting- The project opens with a focus on updating current economic conditions, identify emerging trends, and forecast growth, which collectively lay the groundwork for subsequent phases. A combination of quantitative and qualitative methods will be employed across three sets of tasks: Data Analysis: (1) industry, labor market, and demographic analyses at regional and sub-regional levels using proprietary and publicly available datasets; (2) economic impact analyses for the region's four target industries (as well as for each county overall) using IMPLAN input-output models to determine regional output, labor income, and tax revenue. Limited Documentation Review: (3) review of regional planning documents to align the CEDS with existing and proposed policies, programs, and initiatives, (4) mapping of regional infrastructure and economic assets, and

(5) inventory of recently completed, in-process, and future capital projects.

c) Phase 2:
    i. Planning- The analysis and assessment conducted in the previous two phases feeds into what is considered the most important part the CEDS process: strategic planning. Over the course of Phase 3, the consultant will conduct outreach that will include the facilitation of up to (3) focus groups to solicit input on (2) target sectors and (1) spotlight section and no more than (7) additional interviews across the project lifecycle.

d) Phase 3:
    i. Production- The production phase of the project is a collaborative and iterative process among the consultant, client, and Committee. The consultant will prepare a draft section of the CEDS update and convene the Committee to review and discuss content. Written feedback from the Committee will be incorporated into the final report.

e) Phase 4:

Adopt a Resolution to:
a. Amend Personnel Policies and Practices Resolution (PPPR) No. 98-394 Appendices A and B to create the classification of Assistant Deputy Director Social Services with the salary range as indicated in Attachment A effective January 13, 2024;
b. Direct the County Administrative Office, Auditor-Controller, and Human Resources Department to implement the changes in the Advantage Human Resources Management (HRM) System.

RECOMMENDATION:
It is recommended that the Board of Supervisors consider adopting a Resolution to:
a. Amend Personnel Policies and Practices Resolution (PPPR) No. 98-394 Appendixes A and B to create the classification of Assistant Deputy Director Social Services with the salary range as indicated in Attachment A effective January 13, 2024;
b. Direct the County Administrative Office, Auditor-Controller, and Human Resources Department to implement the changes in the Advantage Human Resources Management (HRM) System.

SUMMARY/DISCUSSION:
The Department of Social Services requested that the Human Resources Department study the department's organizational structure. The organizational study determined that the creation of an additional layer of management-level staff will best meet the operational needs of the organization within two of the larger and more complex branches: Family and Children's Services and/or Community Benefits to assist with planning, implementing, coordinating, and directing the branches, and to act for the Deputy Director in their absence. Therefore, the Human Resources Department recommends creating a new Assistant Deputy Director Social Services classification.

To establish a salary for this new classification, the Human Resources Department completed a base wage compensation study of our ten (10) market comparable agencies; however, not enough matches were found. Only two (2) matches were found in the Counties of Contra Costa and Santa Cruz. The County Compensation Philosophy requires a minimum of three (3) benchmark classification matches with comparable agencies to provide sufficient data for analyzing and determining a base wage comparison. The County Compensation Philosophy further states that in the absence of sufficient external data comparisons, the County will use internal comparisons to set base wages for classifications. The internal comparison analysis of the duties, scope of work, complexity, and consequence of error did not yield any similarly situated classifications in the County of Monterey. Therefore, it is recommended to set the salary between that of the Deputy Director Social Services and the Program Manager II salary ranges. This will result in approximately a 15% spread between the higher level classification of Deputy Director Social Services and approximately a 15% spread

between the lower level classification of Program Manager II.

In accordance with the County's Compensation Philosophy, the County of Monterey is committed to providing its employees with competitive compensation in order to attract and retain the highest quality employees to serve the community. Therefore, the Human Resources Department recommends that the Board of Supervisors support the recommended actions to ensure that the future incumbent is compensated commensurate to their position. Therefore, it is recommended that the salary of this new classification be set at approximately $13,347 per month at top step.

OTHER AGENCY INVOLVEMENT:
The Department of Social Services has reviewed and concurs with the recommendation.

FINANCING:
There is no impact to the County General Fund by creating this classification at this time. The Department of Social Services plans to request an allocation through the fiscal year 2024-25 budget process.

BOARD OF SUPERVISORS' STRATEGIC INITIATIVES:
The proposed recommended actions address the Board of Supervisors Administration Strategic Initiative. The actions demonstrate the County's commitment to meeting the Board's initiatives in recruiting, retaining, and attracting a diverse, talented workforce that supports the mission of Monterey County.

Introduced: 1/2/2024
Version: 1

Current Status: Passed
Matter Type: BoS Resolution

Adopt a resolution in support of Measure N, the Pajaro Valley Health Care District Bond, on the March 2024 ballot.

RECOMMENDATION:
It is recommended that the Board of Supervisors adopt a resolution in support of Measure N, the Pajaro Valley Health Care District Bond, on the March 2024 ballot.

SUMMARY:
Measure N, the Pajaro Valley Health Care District Bond, will appear on the March 5, 2024 ballot. If passed, Measure N will raise $116 million to renovate, modernize, and expand healthcare services and equipment at Watsonville Community Hospital and continue to improve healthcare access and equity throughout the Pajaro Valley, southern Santa Cruz County, northern Monterey County and the Central Coast. If Measure N fails, Watsonville Community Hospital's long-term sustainability is uncertain. Closure of Watsonville Community Hospital would likely cause the collapse of Santa Cruz County's healthcare system, adversely impact Monterey County's healthcare system, and have negative impacts on thousands of central coast residents, businesses, and institutions. All funds raised through Measure N can only be invested into the physical improvement and expansion of Watsonville Community Hospital and will have several layers of community oversight to ensure that they are being spent as intended.
The County of Monterey Board of Supervisors is committed to the health and well-being of our region's healthcare systems and has played a key role in returning Watsonville Community Hospital back to local, community ownership to preserve healthcare access and promote health equity.

DISCUSSION:
In 2022, Watsonville Community Hospital, which has served the community since 1895, nearly closed following a bankruptcy proceeding brought by the previous for-profit hospital owners. With the help of the State, our County, local leaders, and the community. The Pajaro Valley Health Care District assumed ownership of the hospital in September 2022 and is implementing a turnaround plan to put the hospital on a path toward financial sustainability. Recently, the district adopted a balanced budget for the upcoming year.
However, more remains to be done to ensure our community has access to affordable, high-quality healthcare. Watsonville Community Hospital needs assistance to upgrade and renovate facilities, improve emergency room services, and continue to improve the financial health of the hospital and the wellness of our neighbors.

The Pajaro Valley Health Care District placed Measure N on the March 5, 2024 ballot. Measure N would generate $116 million in bonds at a rate of $24 per $100,000 of annual assessed (not market) value, or approximately $2 a month. The funds would be used to:

- Expand and renovate the emergency room, increasing the number of beds from 12 to 22, to provide better emergency care and shorter wait times.
- Upgrade imaging systems including X-rays, MRI, and CT scanners.
- Purchase the hospital property, ensuring local control and saving $3 million a year in rent payments, which could then be used to support nurses, doctors, and better healthcare.
- Repair, replace, or upgrade aging and deteriorated roofs, writing, plumbing, heating, ventilation, and air conditioning systems.
- Modernize the hospital to provide additional local healthcare services.

Measure N is a proactive step toward fortifying Watsonville Community Hospital that supports the community's long-held vision of building a thriving local healthcare provider whose influence on our community's wellness extends far beyond the walls of the facility and can address various health inequities in South Santa Cruz County and North Monterey County and improve health outcomes. Measure N would equip the hospital to meet the evolving needs of our growing and aging population and fortify the Pajaro Valley Health Care District's standing as a transformative and dynamic public entity that can positively impact the region.

OTHER AGENCY INVOLVEMENT:
The County Administrative Office prepared this report. Information was obtained from the Santa Cruz County Elections Department, Monterey County Elections Department, and the County of Santa Cruz.

Approve and authorize the County Administrative Officer or her designee to execute a Memorandum of Agreement between the County of Monterey and the Community Hospital of the Monterey Peninsula, Inc. (“CHOMP”), for the purpose of demonstrating CHOMP’s eligibility to participate in the federal drug discount 340B Program and pursuant to which CHOMP commits to provide health care services to low-income individuals who are not entitled to Medicare or Medi-Cal benefits at no reimbursement or considerably less than full reimbursement from these patients, for a term retroactive to January 1, 2024 until terminated by either Party upon not less than sixty (60) days prior written notice.

RECOMMENDATION:

It is recommended that the Board of Supervisors:
Approve and authorize the County Administrative Officer or her designee to execute a Memorandum of Agreement between the County of Monterey and the Community Hospital of the Monterey Peninsula, Inc. (“CHOMP”), for the purpose of demonstrating CHOMP’s eligibility to participate in the federal drug discount 340B Program and pursuant to which CHOMP commits to provide health care services to low-income individuals who are not entitled to Medicare or Medi-Cal benefits at no reimbursement or considerably less than full reimbursement from these patients, for a term retroactive to January 1, 2024 until terminated by either Party upon not less than sixty (60) days prior written notice.

SUMMARY

Community Hospital of the Monterey Peninsula, Inc. is a California nonprofit public benefit corporation ("CHOMP") that provides a disproportionate share of healthcare services to the Medicare/Medi-Cal population in addition to supporting many programs that benefit the indigent, uninsured, or underinsured population in Monterey County, California.
Section 340B of the Public Health Services Act, enacted in 1992, entitles certain safety-net hospitals and clinics, referred to as “covered entities,” to purchase outpatient drugs at discounted prices from drug manufacturers. Companion legislation that amended Section 1927 of the Social Security Act requires drug manufacturers to enter into a Pharmaceutical Pricing Agreement (PPA) with the U.S. Department of Health & Human Services (HHS) to provide outpatient drugs at or below a statutorily defined ceiling price as a condition of the manufacturers’ drugs being reimbursable under the Medicaid

program and Medicare Part B.
Together, these two pieces of legislation launched a federal program known today as the "340B program." The 340B program is administered by the Office of Pharmacy Affairs (OPA), which is a division of the Health Resources and Services Administration (HRSA) of HHS. The intent of the 340B program is to allow covered entities serving vulnerable populations to stretch scarce federal resources as far as possible, reaching more eligible patients and providing more comprehensive care.

DISCUSSION
CHOMP desires to participate in the drug discount program established under the "340B Program. In order to participate in the 340B Program, CHOMP, as a private, nonprofit hospital, must enter into an agreement with a state or local government pursuant to which CHOMP commits to provide health care services to low-income individuals who are not entitled to Medicare or Medi-Cal benefits at no reimbursement or considerably less than full reimbursement from these patients. A written contract must exist between the hospital and state or local government to demonstrate the hospital's eligibility for the 340B Program. The written contract must be current, signed by authorized representatives of the hospital and the state or local government, and specify the hospital's obligation to provide health care services to low-income individuals.
During the term of the proposed Memorandum of Agreement, CHOMP agrees to continue its historical commitment to the provision of health care to indigent, uninsured, and underinsured residents of Monterey County, California. In 2022, this commitment totaled $8,470,000.00 of charity care provided to uninsured patients. In 2023, this commitment totaled over $11,133,000. Pursuant to this commitment, it is CHOMP's intention to provide a minimum of $10,000,000 of charity care each year. CHOMP further assures that all patients will receive necessary care, as required by law, in its Emergency Departments, regardless of ability to pay. Under the terms of the proposed Memorandum of Agreement, the County agrees to accept CHOMP's commitments on behalf of the citizens of Monterey County, California.

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel and Auditor-Controller have reviewed and approved this Agreement as to form and fiscal provisions, respectively.

FINANCING:
There is no cost associated with this Agreement.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
Improve health and quality of life through County supported policies, programs, and services; promoting access to equitable opportunities for healthy choices and healthy environments in collaboration with communities.

(“CHOMP”), for the purpose of demonstrating CHOMP’s eligibility to participate in the federal drug discount 340B Program and pursuant to which CHOMP commits to provide health care services to low-income individuals who are not entitled to Medicare or Medi-Cal benefits at no reimbursement or considerably less than full reimbursement from these patients, for a term retroactive to January 1, 2024 until terminated by either Party upon not less than sixty (60) days prior written notice.

SUMMARY

Community Hospital of the Monterey Peninsula, Inc. is a California nonprofit public benefit corporation ("CHOMP") that provides a disproportionate share of healthcare services to the Medicare/Medi-Cal population in addition to supporting many programs that benefit the indigent, uninsured, or underinsured population in Monterey County, California.
Section 340B of the Public Health Services Act, enacted in 1992, entitles certain safety-net hospitals and clinics, referred to as “covered entities,” to purchase outpatient drugs at discounted prices from drug manufacturers. Companion legislation that amended Section 1927 of the Social Security Act requires drug manufacturers to enter into a Pharmaceutical Pricing Agreement (PPA) with the U.S. Department of Health & Human Services (HHS) to provide outpatient drugs at or below a statutorily defined ceiling price as a condition of the manufacturers’ drugs being reimbursable under the Medicaid

program and Medicare Part B.
Together, these two pieces of legislation launched a federal program known today as the "340B program." The 340B program is administered by the Office of Pharmacy Affairs (OPA), which is a division of the Health Resources and Services Administration (HRSA) of HHS. The intent of the 340B program is to allow covered entities serving vulnerable populations to stretch scarce federal resources as far as possible, reaching more eligible patients and providing more comprehensive care.

DISCUSSION
CHOMP desires to participate in the drug discount program established under the "340B Program. In order to participate in the 340B Program, CHOMP, as a private, nonprofit hospital, must enter into an agreement with a state or local government pursuant to which CHOMP commits to provide health care services to low-income individuals who are not entitled to Medicare or Medi-Cal benefits at no reimbursement or considerably less than full reimbursement from these patients. A written contract must exist between the hospital and state or local government to demonstrate the hospital's eligibility for the 340B Program. The written contract must be current, signed by authorized representatives of the hospital and the state or local government, and specify the hospital's obligation to provide health care services to low-income individuals.
During the term of the proposed Memorandum of Agreement, CHOMP agrees to continue its historical commitment to the provision of health care to indigent, uninsured, and underinsured residents of Monterey County, California. In 2022, this commitment totaled $8,470,000.00 of charity care provided to uninsured patients. In 2023, this commitment totaled over $11,133,000. Pursuant to this commitment, it is CHOMP's intention to provide a minimum of $10,000,000 of charity care each year. CHOMP further assures that all patients will receive necessary care, as required by law, in its Emergency Departments, regardless of ability to pay. Under the terms of the proposed Memorandum of Agreement, the County agrees to accept CHOMP's commitments on behalf of the citizens of Monterey County, California.

SUMMARY/DISCUSSION

Under the authority of Chapter 7 of Part 1 of Division 31 of the California Health and Safety Code (sections 50250 et seq.), the Encampment Resolution Funding (ERF) Program was established to increase collaboration between the California Interagency Council on Homelessness (CAL ICH), local jurisdictions, and continuums of care (CoC's) to accomplish the following:

- Assist local jurisdictions in ensuring the wellness and safety of people experiencing homelessness in encampments, including their immediate physical and mental wellness and safety needs arising from unsheltered homelessness and their longer-term needs addressed through a path to safe and stable housing.
- Provide encampment resolution grants to local jurisdictions and CoCs to support innovative and replicable efforts to resolve critical encampment concerns and to support individuals to

access safe and stable housing, using the Housing First approach.

- Encourage a data-informed, coordinated approach to address unsheltered homelessness at encampments by establishing, through the encampment resolution grants, effective, scalable, and replicable demonstration projects.

On February 14, 2023, the County of Monterey Board of Supervisors approved the submission of the ERF proposal in the amount of $7,986,354.26 and authorized the County Administrative Officer or designee to execute necessary documents to accept the funds, if awarded (Attachment A). On June 14, 2023, the County of Monterey was provided notice of the ERF award for the total amount requested and the executed agreement with the State was finalized on August 7, 2023 (Attachment B). The funds were received by the County on September 8, 2023.

In preparation for the receipt of the award, the Counties of Monterey and Santa Cruz partnered on an Encampment Resolution Funding project proposal to serve people living along the Pajaro River. This collaborative proposal includes the development of 34 modular units, dining room, outdoor seating area, offices, showers, and restrooms, 2 years of operations, and 5% administrative costs for the County of Monterey. This project will be located at Westview Presbyterian Church, 118 1st St, Watsonville, CA 95076. The modular units will be purchased by the County of Monterey from Dignity Moves, a private company, and transferred for a nominal fee to the County of Santa Cruz at the conclusion of the grant period in 2026.

Santa Cruz and Monterey Counties will partner to operate the shelter, and contract with a private service provider to operate the facility. Roles and responsibilities of both counties will be substantiated via Memorandum of Understanding (MOU).

OTHER AGENCY INVOLVEMENT:
The County of Monterey will enter into an MOU with the County of Santa Cruz to establish and operate a low barrier navigation center program at 118 1st St., Watsonville, CA 95076. Additional collaboration may involve the Pajaro Flood Management Agency, CSUMB's Community Health Engagement, and the Sheriff's Office to determine eligibility and process referrals. The office of the County Counsel has reviewed and approved this report. On November 29, 2023, the Budget Committee provided it's support of the recommended actions.

FINANCING
The increase of appropriations by $4,500,000 to the County Administrative Office Intergovernmental and Legislative Affairs (IGLA) -Homeless Services (001-1050-CAO004-8054) is fully financed by the California Interagency Council on Homelessness (CAL ICH) and will include 5% administrative fees. The remaining grant funds will be fully expended no later than June 30, 2026. Upon conclusion of the Encampment Resolution Funding grant period, the County of Santa Cruz will work with the service provider to identify ongoing sustainable funds. The estimated budget for the ERF award is provided in the estimated cost analysis (Attachment C).

Encampment Resolution Funding Program
Round 2, Rolling Disbursement (ERF-2-R)
Standard Agreement

EXHIBIT A
AUTHORITY, PURPOSE, AND SCOPE OF WORK

1) Authority

The State of California has established the Encampment Resolution Funding Program ("ERF" or "Program") pursuant to Chapter 7 (commencing with Section 50250) of Part 1 of Division 31 of the Health and Safety Code. Amended by SB 197 (Statutes of 2022, Chapter 70, Sec.3-8, effective June 30, 2022).

The Program is administered by the California Interagency Council on Homelessness ("Cal ICH") in the Business, Consumer Services and Housing Agency ("Agency"). ERF provides one-time, competitive grant funds to Continuums of Care and / or Local Jurisdictions as defined below. To date, there have been two rounds of the Encampment Resolution Funding Program. This Standard Agreement governs the Rolling Disbursement in Round 2 of the ERF Program ("ERF-2-R"). For this Standard Agreement, ERF-2-R is synonymous with "ERF" or "Program"." and refers to programs and grantees under Health and Safety Code 50252.1(c)(1).

This Standard Agreement along with all its exhibits ("Agreement") is entered into by Cal ICH and a Continuum of Care or a Local Jurisdiction ("Grantee") under the authority of, and in furtherance of, the purpose of the Program. In signing this Agreement and thereby accepting this award of funds, the Grantee agrees to comply with the terms and conditions of this Agreement, the Notice of Funding Availability ("NOFA") under which the Grantee applied, the representations contained in the Grantee's application, Cal ICH guidance or directives, and the requirements appearing in the statutory authority for the Program cited above.

2) Purpose

As stated in the NOFA, the Program's objective is to fund actionable, person-centered local proposals that resolve the experience of unsheltered homelessness for people residing in encampments. Resolving these experiences of homelessness will necessarily address the safety and wellness of people within encampments, resolve critical encampment concerns, and transition individuals into interim shelter with clear pathways to permanent housing or directly into permanent housing, using data informed, non-punitive, low-barrier, person-centered, Housing First, and coordinated approaches. These projects must comply with the principles of Housing First as defined in Welfare and Institutions Code Section 8255. Proposals may bolster existing, successful models and/or support new approaches that provide safe stable, and ultimately permanent housing for people experiencing homelessness in

(4/5ths vote required).

RECOMMENDATION:
It is recommended that the Board of Supervisors:
Adopt a resolution to ratify the Proclamation of Local Emergency issued by the County Administrative Officer on January 3, 2024, related to the Winter Storm Event that started on December 27, 2023, causing damage to public infrastructure and private property throughout Monterey County including the Monterey Peninsula, Carmel River, Carmel River Lagoon, Salinas River and Salinas River Lagoon, thereby causing conditions of extreme peril to the safety of persons and property nearby. The Government Code requires that an emergency proclamation be ratified by the Board of Supervisors within 7 days of its issuance, and be reviewed at least once every 60 days until the emergency is terminated.

Beginning December 27, 2023, heavy rainfall, coastal flooding, and high surf hazards threatened residents, property, critical infrastructure, and transportation systems in the County of Monterey and political subdivisions. Conditions of extreme peril to the safety of person and property arose within the area of the Carmel Lagoon in the County of Monterey caused by tidal action, river flow and flooding commencing during the early morning of December 28, 2023. Conditions of peril exist to the safety and wellbeing of the residents living around the Carmel Lagoon as well as other nearby areas.

Additionally, sandbar management activities were required at the Salinas River Lagoon Mouth by Monterey County Water Resources Agency staff to protect public health and safety. From modeling results performed by the National Weather Service California-Nevada River Forecast Center, this action was necessary effective approximately January 4, 2024, due to the above motioned storm event that caused storm surges and high- water levels in the Salinas River Lagoon and forecasted early

January 2024 storms expected to exacerbate these conditions. These conditions could lead to possible loss of life and property in areas near and adjacent to the Salinas Lagoon. Forecasted conditions may result in the following:

- Inundation of residences, including Twin Bridges Cabin Association, Monterey Dunes Colony, and Lagoon residences; and
- Loss of safe ingress and egress, including emergency service access; and
- Inundation of agricultural fields; and
- Erosion and excessive transport of sediment; and

The foregoing conditions are or are likely to be beyond the control of the services, personnel, equipment, and facilities of the County of Monterey and the Monterey County Water Resources Agency and requiring the combined forces of other political subdivisions to combat.

The aforesaid conditions of extreme peril necessitated the proclamation of a local emergency on December 27, 2023, which was signed into effect by the County Administrator's Office on January 4, 2024. Ratification and approval of this Proclamation of Local Emergency will provide Board confirmation of, and agreement with, the Proclamation made by the County Administrative Officer. This emergency proclamation shall expire sixty days after issuance unless confirmed and extended by the governing body of the County of Monterey.

OTHER AGENCY INVOLVEMENT:
Numerous County departments and other agencies have participated in the response to the emergency including the Department of Emergency Management, Sheriff' Office, County Administrative Office, Public Works, Facilities, and Parks Department, County Counsel, NOAA-National Marine Fisheries Service, US Fish and Wildlife Services, CA Dept of Fish and Wildlife, California Coastal Commission, and the Monterey County Water Resources Agency.

RECOMMENDATION:

Staff recommends that the Board of Supervisors:

a. Find that the acceptance of the Conservation and Scenic Easement Deed is categorically exempt under CEQA Guidelines section 15317; and
b. Accept a Conservation and Scenic Easement Deed covering approximately 0.77 acres of Environmentally Sensitive Habitat at 3256 17 Mile Drive, Pebble Beach (APN 008-462-008-000), to satisfy a condition of approval related to Planning Commission Resolution 23-004 (File No. PLN210276); and

d. Direct the Clerk of the Board to submit the Conservation and Scenic Easement Deed to the County Recorder for filing with all recording fees to be paid by the applicant.

SUMMARY/DISCUSSION:
On January 25, 2023, the Planning Commission adopted Resolution 23-004 approving a Combined Development Permit (PLN210276, Feather Cypress LLC) allowing for the demolition of an existing residence and construction of a new residence within 100 feet of environmentally sensitive habitat (ESHA). To satisfy Condition of Approval No. 10 of that permit, the current owner, Feather Cypress LLC, is offering to convey a conservation and scenic easement deed (CSED) to the County of Monterey over the portions of the property where ESHA exists (**Attachment B**). The property contains ESHA as defined in the Del Monte Land Use Plan (LUP) located within the mapped indigenous Monterey Cypress and coastal bluff scrub habitat areas.

The Planning Commission applied the easement condition to protect ESHA, as required by the LUP. Condition No. 10, requiring dedication of a Conservation and Scenic Easement Deed over those areas of the property not approved for development, will ensure long-term protection of the habitat. No construction will be allowed within the easement area. Recordation of this easement will be disclosed to future property owners where development is prohibited on the parcel. Therefore, staff recommends the Board of Supervisors accept, execute, and consent to the recordation of the Conservation and Scenic Easement Deed.

The applicant has submitted the CSED and map showing the general location of the easement on the property, along with the metes and bounds description, both of which are appended to this Report, collectively, as **Attachment B**.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):
Acceptance of the scenic easement qualifies for a Class 17 categorical exemption under CEQA because it constitutes the acceptance of easements to maintain the open space character of the area (CEQA Guidelines, § 15317).

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel has reviewed the CSED as to form.

FINANCING:
Funding for staff time associated with this project is included in the FY2023-24 Adopted Budget for Housing and Community Development Appropriation Unit HCD002, Unit 8543. All costs associated with maintenance of the CSED will be borne by the project applicant (Grantor) of the easement, not the County of Monterey (Grantee).

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
This action represents effective and timely response to our HCD customers. Processing this application in accordance with all applicable policies and regulations also provides the County accountability for proper management of our land resources.

[PLN210276 FEATHER CYPRESS LLC, 3256 17 Mile Drive, Pebble Beach, Del Monte Forest Land Use Plan (APN: 008-462-008-000)]

The Feather Cypress LLC application (PLN210276) came on for a public hearing before the Monterey County Planning Commission on January 25, 2023. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented the Monterey County Planning Commission finds and decides as follows:

FINDINGS

1. FINDING: **CONSISTENCY** – The Project, as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development.

EVIDENCE: a) During the course of review of this application, the project has been reviewed for consistency with the text, policies, and regulations in:

- the 1982 Monterey County General Plan;
- Del Monte Forest Land Use Plan;
- Monterey County Coastal Implementation Plan Part 5, Regulations for Development in the Del Monte Forest Land Use Plan Area; and
- Monterey County Zoning Ordinance (Title 20).

No conflicts were found to exist. No communications were received during the course of review of the project indicating any inconsistencies with the text, policies, and regulations in these documents.

b) Allowed Use. The property is located at 3256 17-Mile Drive, Pebble Beach (Assessor's Parcel Number 008-462-008-000), Del Monte Forest Land Use Plan, Coastal Zone. The parcel is zoned Low Density Residential, 2 acres per unit, with a Design Control Overlay (Coastal Zone) [LDR/2-D (CZ)], which allows which allows development of single-family dwellings and non-habitable accessory structures such as garages and pool houses as principally allowable uses, subject to a Coastal Administrative Permit. (Title 20 Sections 20.14.040.A. and 20.14.040.F.).

The project proposes:

- demolition of the existing 17,992 square foot single-family home with an attached two-car garage, 3,797 square foot gymnasium, and three sheds; and
- construction of a new 7,767 square foot single-family dwelling with an attached two-car garage, 882 square foot basement, and 712 square foot pool house; and
- site improvements, including new driveways and paths, a 1,114 square foot pool, and a 319 square foot spa.

Therefore, the project is an allowed land use for this site.

c) Lot Legality. The 2.8-acre lot is identified as Parcel 8, within in Assessor's Map Book 8, Page 46. A Lot Line adjustment (File No. 82-38) was approved in December, 1982 and is recorded in Volume 13 of "Surveys." The approved Lot Line Adjustment shows the current parcel boundaries and configuration. Therefore, the County recognizes the subject property as a legal lot of record.

d) Visual Resources. See Finding No. 5 for discussion of consistency with policies and regulations protecting visual resources.

e) Development Standards. The site development standards for the base LDR zoning are found in Title 20 section 20.14. The project is consistent with the minimum setback, maximum height, maximum building coverage, and maximum floor area requirements.

The minimum setbacks for main structures are 30 feet (front), 20 feet (side), and 20 feet (rear). The home proposes a front setback of 32 feet, a west side setback of 156 feet, and a rear setback of 94 feet. The east side setback is not dimensioned, however, the home is west of the pool house, meaning that the setback is greater than 36 feet.

The minimum setbacks for accessory structures are 50 feet (front), 6 feet (side), and 1 foot (rear). The pool house proposes a 50 feet front setback, a 36 foot east side setback, and a 79 foot rear setback. The proposed west side setback is not dimensioned, however, the pool house is east of the main home, meaning that the west side setback is greater than 156 feet.

The maximum main structure height is 30 feet and maximum accessory structure height is 15 feet, and the proposed home is 19 feet 6 inches, and proposed pool house is 15 feet.

The maximum allowable building coverage is 15% (18,295 square feet), while the proposed building coverage is 9.5% (11,586 square feet). The maximum allowable floor area is 17.5% (21,344 square feet) while the proposed floor area is 8.2% (9,969 square feet).

f) Forest Resources. No tree removal is proposed. Measures for the protection of trees and habitat have been incorporated. Mitigation Measure No. 1, including exclusionary fencing, a pre-construction training, and on-going monitoring by a qualified arborist/forester during construction, have been applied to protect.

g) Hazardous Areas. See Finding No. 3 for discussion of consistency with DMF LUP policies and regulations governing development in hazardous areas.

h) Historical Resources. DMF LUP Policy 57 encourages timely identification and evaluation of archaeological and historical resources so that they may be given full considering during the conceptual design phase of projects. Consistent with this policy, a historical report (LIB220005) was prepared for the property which evaluated the historicity of the property. The property is developed with an approximately 17,992 square foot single-family home, designed by George Washington Smith in the Spanish Colonial Revival style and constructed in 1924. The association of this style would place it within the period of prominence for Mediterranean revival architecture in the 1919-1945 time period according to the Pebble Beach Historic Context statement. Therefore, should it have retained integrity the home would have been significant both as a representation of the trend of Spanish Colonial Revival Architecture in pebble beach and as a notable example

of the work of George Washington Smith. Neither the gymnasium or accessory dwelling unit were considered significant or contributing to the historical character of the site, due to their more recent modifications.

For a property to be considered a historical resource, it must contain both significance and integrity. The home has undergone numerous alterations, most notable of which beginning the 70's, which compromised its integrity such that it no longer conveys its significance and no longer retains its core historically defining features. As the property does not retain integrity, it cannot be considered a historical resource, and its demolition would not impact historical resources. The project was referred to the Historic Resources Review Board (HRRB) for review. The historical report (LIB220005) prepared by Seth A. Bergstein and concurring opinions that the site had lost its integrity from Kent L. Seavey, Page & Turnbull, and Marc Appleton and Anthony Kirk were provided to the HRRB, as well as a petition opposing the demolition of the home. By a vote of 6-0 with 1 absent, the HRRB adopted a resolution finding the site was not eligible for listing on the Monterey County Register of Historic Resources and recommending approval of the project.

i) Archaeological Resources. Pursuant to DMF LUP Policy 58, an archaeological report (LIB220001) was prepared by Susan Morley to evaluate the potential of the project to impact archaeological resources. The report included archival research, a field reconnaissance, and subsurface testing for cultural resources. The archival research identified that in 1988, Charles Smith prepared a report for the accessory dwelling (at that time caretaker) unit. That report did not identify any evidence of archaeological resources in proximity to the unit. In 1990, Breschini and Haversat prepared a report for the expansion of the gym, which identified fragmentary abalone shell in the area. The current Archaeological observation of the geotechnical bores did not reveal any evidence of cultural materials. The archaeologist also conducted four hand augers near the area proposed for development. The augers revealed sparse abalone shell fragments. No other cultural constituents were noted.

Mitigation Measure No. 5 is recommended, which would require establishment of an exclusionary fence along the hardscape path to prevent disturbance beyond the limits shown in the plan. Due to the presence of shell in the area, there is the potential for the site to contain resources. Therefore, Mitigation Measure No. 5 also requires cultural awareness training for construction personnel and archaeological monitoring during grading and excavation activities, and the County's standard Condition No. 3 has been applied, requiring work be halted and the coroner be contacted if any human remains are discovered. This Mitigation Measure and condition reduce potential impacts to archaeological resources to a less than significant level.

j) Environmentally Sensitive Habitat Area (ESHA). See Finding No. 4 for consistency with applicable policies and regulations protecting environmentally sensitive habitat areas.

k) Land Use Advisory Committee (LUAC) Review. County staff referred the project to the Del Monte Forest Land Use Advisory Committee (LUAC) for review. The LUAC reviewed the project on February 17, 2022 and voted 6-0 with 1 absent and 1 abstention to recommend approval of the project contingent on review and concurrence from the Historic Resources Review Board (HRRB) that the property was not historical.

l) The project planner conducted a site inspection on October 13, 2021 to verify that the project on the subject parcel conforms to the plans listed above.

m) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

2. FINDING: **SITE SUITABILITY** – The site is physically suitable for the proposed development and/or use.

EVIDENCE: a) The project has been reviewed for site suitability by the following departments and agencies: HCD-Planning, HCD-Engineering Services, HCD-Environmental Services, Environmental Health Bureau, and Pebble Beach Community Services District (CSD). County staff reviewed the application materials and plans to verify that the project on the subject site conforms to the applicable plans and regulations, and there has been no indication from these departments/agencies that the site is not suitable for the development. Conditions recommended have been incorporated.

b) The following reports were prepared to assess the geological and geotechnical suitability of the site for development; and the potential for the development to impact biological, forest, historical, and archaeological resources:

- Geologic and Coastal Bluff Recession Assessment Report, dated October 12, 2021 (Monterey County Document No. LIB220003), prepared by Haro, Kasunich and Associates, Inc., Watsonville, California;
- Geotechnical Investigation, dated October 12, 2021 (Monterey County Document No. LIB220004), prepared by Haro, Kasunich and Associates, Inc., Watsonville, California;
- Biological Assessment, dated October 28, 2021 (Monterey County Document No. LIB220002), prepared by Fred Ballerini Horticultural Services, Pacific Grove, California;
- Tree Resource Assessment and Forest Management and Cypress Restoration Plan, dated January 5, 2022 (Monterey County Document No. LIB220026), prepared by Ono Consulting, Pacific Grove, California;
- Phase 1 Historic Assessment, dated May 5, 2020 (Monterey County Document No. LIB220005), prepared by Past Consultants LLC, Petaluma, California; and

- Preliminary Cultural Resources Reconnaissance and Phase II Auger Testing for the Feather Cypress, LLC property, dated August 8, 2021 (Monterey County Document No. LIB220001), prepared by Susan Morley, M.A., Register of Professional Archaeologists, and Brenna Wheelis, Marina, California.

County staff independently reviewed these reports and concurs with their conclusions. There are no physical or environmental constraints that would indicate that the site is not suitable for the use. All development shall be in accordance with these reports.

c) Staff conducted a site inspection on October 13, 2021 to verify that the site is suitable for this use.

d) See also supporting Finding No. 3.

e) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

3. FINDING: **HEALTH AND SAFETY –** The establishment, maintenance, or operation of the project applied for will not under the circumstances of this particular case be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use, or be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County.

EVIDENCE: a) The project was reviewed by HCD-Planning, HCD- Engineering Services, HCD-Environmental Services, Environmental Health Bureau, and Pebble Beach Community Services District (CSD). The respective agencies have recommended conditions, where appropriate, to ensure that the project will not have an adverse effect on the health, safety, and welfare of persons either residing or working in the neighborhood.

b) Necessary public facilities will be provided. The property is and will continue to be served by the California American Water Company (Cal Am) for potable water and the Pebble Beach Community Services District (CSD) for sewer. The applicant submitted a Monterey Peninsula Water Management District (MPWMD) residential release form verifying that the proposed water use, calculated based on MPWMD fixture counts, is less than the existing water use.

c) In accordance with DMF LUP Hazards Policy 46 and CIP Section 20.147.060.A.1., geological (LIB220003) and geotechnical (LIB220004) reports were prepared to assess the suitability of the site for development and address geological hazards on the properties. The reports concluded that the site was suitable for development given that the recommendations within them were followed. These included recommendations on site grading, foundation design, and surface drainage. Staff are recommending that the County's standard notice of report condition be applied for each report (Condition Nos. 8 and 9) to ensure that geological and geotechnical recommendations are followed.

d) Pursuant to CIP section 20.147.060.B.6., new development (in this case re-development) is required to avoid the need for shoreline armoring over the development's lifetime, and habitable structures are required to be sited outside of areas subject to storm wave run-up. The project is

consistent with the CIP section, as discussed in evidence "e" through "g" below.

e) The County does not have a regulatory standard establishing the lifetime of development for different land uses, however the advisory 2018 Sea Level Rise Policy Guidance document prepared by the California Coastal Commission indicates a minimum of 75 years as the long-range evaluation horizon for the life of a structure.

f) The project geologist concluded that, based on historical bluff erosion information, bluff retreat would be between 5 and 10 feet over the next 75 years. Climate change and sea level rise accelerates bluff retreat, so an additional 5 feet was added to account for this. Finally, a safety factor of 10 feet was added to account the inherent imprecision of evaluating future coastal erosion, and to create a buffer zone from the bluff edge to proposed building foundations in the future scenario (year 2097). This produced a total recommended setback of 25 feet from the current bluff edge. All proposed structures are outside of this recommended bluff setback, so the development has been sited in a location that is not anticipated to require armoring over the life of development.

g) The impacts of ocean wave run-up (storm surges) were observed around the 48 – 52 foot elevation above sea level (NAVD 88). The geological report concludes that wave run-up will rise by the amount of sea level rise that occurs within the life of the structures. If the 2018 Sea Level Rise Policy Guidance "Medium – High Risk Aversion" figures are used, the sea level would rise between 5.5 and 6.9 feet by 2100, which would be an elevation between 53.5 to 58.9 feet above sea level. The lowest finish floor (the lower floor/basement of the single-family home) is proposed with a finish floor elevation of 62 feet, higher than both of these figures.

h) Staff conducted a site inspection on October 13, 2021 to verify that the site is suitable for this use.

i) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

4. FINDING: **ENVIRONMENTALLY SENSITIVE HABITAT AREA –** The project minimizes impacts on environmentally sensitive habitat areas in accordance with the applicable goals, policies, and regulations contained in: the Del Monte Forest Land Use Plan (DMF LUP); Monterey County Coastal Implementation Plan (CIP) Part 5, Regulations for Development in the Del Monte Forest Land Use Plan area; and Monterey County Zoning Ordinance (Title 20).

EVIDENCE: a) The project includes an application for development within 100 feet of Environmentally Sensitive Habitat Areas (ESHA). In the DMF LUP, designation of ESHA is context dependent, relying both on current evaluation of existing resources and the sensitivity of habitats and species at the time of development consideration. The property has two distinct ecosystems, Monterey cypress forest and coastal bluff scrub, which overlap in an "ecotone", which has biotic characteristics of both habitat areas. The Monterey cypress is designated as ESHA and

protected by DMF LUP Policy 20. North coastal bluff scrub is considered ESHA by the California Coastal Commission, recognized as a threatened plant community by the California Department of Fish and Wildlife, and classified as a community "rare and worthy of consideration" by the California Natural Diversity Database (CNDDB), and in this case includes individually sensitive species including Sea-cliff Buckwheat, a host plant for the federally endangered Smith's Blue Butterfly, and a single Ocean bluff milkvetch, a sensitive plant species. Therefore, the coastal bluff scrub on the site is appropriately categorized as ESHA.

b) The DMF LUP key policy recognizes that the habitats of the Del Monte Forest are unique, limited, and fragile resources that are sensitive and important biologically, and that enrich Del Monte Forest enjoyment for residents and visitors alike. Accordingly, these habitats should be protected, maintained, and, where possible, enhanced and restored. This project conforms with this key policy as: the proposed development has been sited and designed to be within the existing development footprint, minimizing potential impact to habitat areas. Detailed best management practices are incorporated through Mitigation Measures No. 1 and 2 to ensure that the habitats are protected through construction and implementation of Mitigation Measures no. 3 and 4 will ensure that invasive weeds are removed from the property and approximately 33,600 square feet of sensitive habitat area are restored.

c) Protection of Indigenous Monterey cypress habitat is specifically addressed in DMF LUP policy 20, and in implementing regulations for this policy contained in CIP section 20.147.040.D.2. The project is consistent with this policy and these implementing regulations as the project proposes development that is confined to areas where existing structures and hardscapes exist.

d) In accordance with CIP section 20.147.040.D.2.(a), coordinated biological (LIB220002) and forest management (LIB220026) reports were prepared to assess the potential of the project to impact sensitive habitat areas and species.

e) CIP section 20.147.040.D.2.(b) requires that all development in and adjacent to cypress forest be carefully sited and designed to avoid adverse impacts to cypress habitat. This includes measures recommended in the biological/forestry reports to protect and enhance Monterey cypress habitat values. The project incorporates the best management practices recommended in the biological forestry reports to protect and enhance the habitat area:
   - Mitigation Measure No. 1 requires wrapping tree trunks with protective material, establishment of protective exclusionary fencing areas, a pre-construction biological training, on-going monitoring during construction by a qualified arborist or forester, and remediation if any trees are inadvertently harmed during construction.
   - Mitigation Measure No. 3 requires eradication of invasive species onsite; and
   - Mitigation Measure No. 4 requires preparation, execution, and monitoring of a restoration plan, which would restore approximately

33,607 square feet of environmentally sensitive habitat area, inclusive of 14,619 square feet of Monterey Cypress forest habitat and ecotone, and 18,988 square feet of coastal bluff scrub habitat. This is in addition to the approximately 16,783 square feet of restoration from the area required to be restored in Condition No. 8 of Zoning Administrator Resolution No. 21-008 (PLN200068), which allowed alterations to the existing accessory dwelling unit. For this reason, this permit incorporates an amendment to that resolution, deleting Condition No. 8 and replacing and incorporating the conservation easement requirement in Mitigation measure No. 4 of this resolution.

f) CIP section 20.147.040.D.2.(c) provides detailed development criteria in Monterey cypress forest habitat. Per paragraph one of 20.147.040.D.2.(c)(2), development on already developed lots is allowed if it is also sited within existing legally established structural/hardscape area and outside of the critical habitat, which is the case for this project. New or modified development outside of the existing legally established structure/hardscape area would be allowable if it complies with the findings of 20.147.040.D.2.(c)(2)(a) – (g), however, these findings are not applicable as all development is within the existing structural/hardscape area.

g) Previous iterations of the design did include impervious native soil paths outside of the development area. However, as indicated in revised plan sheet A0.6 submitted on November 7, 2022, these paths have been removed to assure consistency with the CIP regulations. This sheet is Attachment 2 to the permit resolution, and the other site plans would need be updated for consistency with this sheet prior to building permit issuance for the building permit to be determined to be in substantial conformance with the planning approval.

h) In accordance with DMF LUP Policies 20 and 13, the project has been conditioned to require a conservation and scenic easement be placed to protect all areas outside of the proposed development footprint.. See Finding No. 6 for further discussion of the easement condition.

i) DMF LUP Policy 8 indicates that environmentally sensitive habitats shall be protected against significant disruption in habitat values. Addressing this policy in the context of bluff scrub, Mitigation Measure No. 2 is incorporated, which requires that protective fencing be installed around existing Sea Cliff Buckwheat and intact coastal bluff scrub habitat areas to protect them during construction. Additionally, invasive species eradication is required and will be coordinated with the project biologist (Mitigation Measure No. 3). Sediment control devices will also be installed along the perimeter of the building envelope to prevent construction runoff from impacting bluff scrub habitat and the ocean.

j) To protect coastal habitat areas, DMF LUP Policy 25 requires a setback/buffer of at least 100 feet from the edge of mean high water tide line. While the mean high water tide line is not precisely denoted, all proposed structures appear greater than 120 feet from the pacific ocean, and proposed structures are further from the ocean than the existing structures. Portions of the existing hardscape appear within this 100 foot

buffer, however, these areas are existing and not being modified by the project.

k) While no tree removal is proposed, the biological report (LIB220002) identified potential from construction activities to impact nesting birds. To address this, Condition No. 12 requiring a bird nesting survey if demolition or ground disturbance commences between February 1 and September 15 is incorporated.

l) Staff conducted a site inspection on October 13, 2021 to verify ESHA locations and potential project impacts to ESHA.

m) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

5. FINDING: **VISUAL RESOURCES –** The project is consistent with the applicable policies to protect Visual Resources in the Del Monte Forest Land Use Plan (DMF LUP) and with implementing regulations in the Monterey County Coastal Implementation Plan (CIP).

EVIDENCE: a) The project is subject to the Visual Resources protection policies of the Del Monte Forest Land Use Plan (DMF LUP), implementing regulations in Part 5 of the Monterey County Coastal Implementation Plan (CIP), and the Design Control "D" zoning overlay district, which requires a design review of structures and fences to assure protection of the public viewshed and neighborhood character.

b) The homes design is consistent with the surrounding neighborhood character:

- The colors and material palette includes limestone, bronze roofing and window frames, and a cypress soffit, natural materials consistent DMF LUP Policies 52 and 53, that development harmonize with the natural setting and be designed to subordinate and blend into the environment; and
- The substantial reduction in height and massing from the existing home, from 32 feet and 7 inches to 19 feet and 6 inches, helps subordinate the design to the surrounding forest.

c) DMF LUP Land Use and Development Policy 84 indicates that a minimum of a 100 foot setback from the centerline of 17-Mile drive shall be maintained to screen development from public views, unless "otherwise screened by vegetation and/or terrain, and the screening terrain/vegetation is required to be maintained and/or enhanced in perpetuity for screening and public viewshed enhancement purposes." In this case, the proposed home is approximately 52 feet from the centerline of 17-mile drive at the closest point. However, such encroachment into the setback is appropriate in this case as moving development further from 17 Mile Drive could conflict with bluff and habitat policies. The project is consistent with applicable visual policies as it proposes:

- A 6 foot tall fence which will screen the proposed project from view from 17-Mile Drive and runs for 420 lineal feet;
- "Viewshed" fencing along 3 points on 17-Mile drive, totaling 103 feet, which are sited to increase blue ocean views from 17-Mile Drive, enhancing the public viewshed; and

- Approximately 33,600 square feet of habitat restoration. In addition to its ecological value, the cypress forest and scrub habitats will screen the proposed structures and enhance the public viewshed, and be required to be maintained in perpetuity in accordance with Landscaping Restoration Plan Condition No. 6.

d) Staff conducted a site inspection on October 13, 2021 to assess the potential of the project to impact Visual Resources.

e) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

6. FINDING: **MINOR & TRIVIAL AMENDMENT –** The proposed modification to Coastal Development Permit PLN200068 (Zoning Administrator Resolution No. 21-008) to replace Condition No. 8 of that permit with Condition No. 20 attached is generally keeping with the action of the Zoning Administrator and does not create any additional impacts not assessed in the original permit action.

EVIDENCE: a) On August 14, 2003, the Zoning Administrator approved Resolution No. 020582 allowing construction of a three-car garage attached to an existing caretaker unit on the north of the property. As part of making a finding of consistency within DMF LUP Policy 84, which restricts development within 100 feet of the centerline of 17-Mile Drive to protect the viewshed, PLN020582 required a Scenic Easement by conveyed to the County over areas within 100-feet of the centerline of 17-Mile Drive, excepting existing and approved development. This easement was recorded in Monterey County Recorder document No. 2004087472.

b) On February 25, 2021, the Zoning Administrator approved PLN200068 (Zoning Administrator Resolution No. 21-008). Condition No. 8 of this permit requires that the applicant amend the 2004 Scenic Easement to encompass all areas outside of existing and approved development, not just those within 100-feet of the centerline of 17-Mile Drive, excepting existing and approved development, and enumerate that the amended Conservation and Scenic Easement is intended to preserve the indigenous Monterey cypress habitat in addition to protect the viewshed. This was done to ensure consistency with DMF LUP Policy 20. Draft easement language and a diagram depicting the existing and approved development were prepared for PLN200068 Condition No. 8, however, a new easement has not been recorded.

c) On December 20, 2021, the applicant submitted for a Combined Development Permit to demolish the main residence and build a new one. DMF LUP Policy 20 requires conservation and scenic easements for all undeveloped areas on the site. As the project involves a reduction in hardscape, a new easement condition is required.

d) This permit would delete the conservation and scenic easement condition from the 2021 project (PLN200068) and adds a new condition increasing the size of the easement to encompass the habitat areas being restored as part of this project and incorporating the areas previously

proposed for conservation. This amendment avoids redundancy and consolidates actions following approval.

e) The timing of Condition No. 20 would allow final recording of the amended easement to be completed prior to final inspection of the home, rather than final inspection of the accessory dwelling unit.

f) Both conditions would require a Conservation and Scenic Easement over all areas excepting existing and approved development, so the amended condition is still in line with the decision of the Zoning Administrator and would not create any additional environmental impacts.

g) None of the other conditions of PLN200068 are being modified. PLN200068 remains the operative permit for the accessory dwelling unit and its attached garage.

h) While the appropriate authority to consider Minor and Trivial Amendments would typically be the Chief of Planning, in accordance with Title 20 Section 20.70.105.A., the Combined Development Permit process allows multiple discretionary entitlements to be considered concurrently.

i) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

7. FINDING: **CEQA (Mitigated Negative Declaration) –** On the basis of the whole record before the Monterey County Planning Commission, there is no substantial evidence that the proposed project as designed, conditioned and mitigated, will have a significant effect on the environment. The Mitigated Negative Declaration reflects the independent judgment and analysis of the County.

EVIDENCE:

a) Pursuant to Public Resources Code Section 21083, and California Environmental Quality Act (CEQA) Guidelines Sections 15063(a) and 15063(b)(2), the Lead Agency shall conduct environmental review in the form of an Initial Study to determine if the project may have a significant effect on the environment and shall prepare a Negative Declaration if there is no substantial evidence that the project or any of its aspects may cause a significant effect on the environment.

b) County of Monterey as Lead Agency, through HCD-Planning, prepared an Initial Study pursuant to CEQA. The Initial Study is on file in the offices of HCD-Planning and is hereby incorporated by reference (Planning File No. PLN210276).

c) There is no substantial evidence, based upon the record as a whole, that the project may have a significant effect on the environment. The Initial Study identified potentially significant effects to biological, cultural, and tribal cultural resources, but the applicant has agreed to mitigation measures that avoid the effects or mitigate the effects to a point where clearly no significant effects would occur. Based upon the analysis of the Initial Study, HCD-Planning prepared a Mitigated Negative Declaration. Mitigation measures have been made conditions of approval of this project.

d) The Draft Initial Study and Mitigated Negative Declaration for HCD-Planning File No. PLN210276 was prepared in accordance with the

CEQA Guidelines; filed with the County Clerk on November 21, 2022; and circulated for public review from November 21, 2022 to December 21, 2022 (SCH No. 2022110478). No public comments were received during the circulation period.

e) Resource areas that were analyzed in the Draft Initial Study/Mitigated Negative Declaration included: Aesthetics, Air Quality, Biological Resources, Cultural Resources, Geology and Soils, Greenhouse Gas Emissions, Hazards/Hazardous Materials, Hydrology/Water Quality, Land Use Planning, Noise, Tribal Cultural Resources, and Wildfire.

f) Evidence that has been received and considered includes: the application, technical studies/reports, staff reports that reflect the County's independent judgment, and information and testimony presented during public meetings and hearings. These documents are on file in HCD-Planning (Planning File No. PLN210276) and are hereby incorporated herein by reference.

g) The County identified less than significant impacts to Aesthetics, Air Quality, Geology and Soils, Greenhouse Gas Emissions, Hazards/Hazardous Materials, Hydrology/Water Quality, Land Use Planning, Noise, and Wildfire.

h) The County identified potentially significant impacts to Biological Resources. Mitigation measures have been incorporated that reduce the identified impacts to a level of less than significant.

i) Mitigation Measure No. 1 through 4 would reduce potentially significant impacts to biological resources by:
   - Requiring best management practices to protect Monterey cypress be followed including a pre-construction training, establishment of protective fencing, monitoring by a qualified arborist or forester, and monitoring during construction; and
   - Requiring protective fencing and sediment control to protect Seacliff Buckwheat and Bluff Scrub habitat during construction and requiring coordination between a qualified biologist and the invasive species removal contractor to ensure site work doesn't harm this habitat;
   - Requiring removal of invasive species on the site; and
   - Requiring a restoration plan and five years of monitoring by a qualified biologist for the onsite restoration activities.

   Together these will ensure construction doesn't inadvertently harm biological resources and that the post construction habitat restoration efforts are undertaken in a manner that will improve the habitat.

j) The County identified potentially significant impacts to Cultural and Tribal Cultural Resources.

   Mitigation Measures No 5 and 6 reduce impacts to Cultural and Tribal Cultural Resources to a less than significant level by:
   - Requiring cultural awareness training for construction personnel, establishment of a protective fence along the south of the property, and archaeological monitoring during grading and excavation; and
   - Requiring that a tribal monitor approved by the appropriate tribal authority traditionally and culturally affiliated with the area be onsite to observe all project related grading and excavation. The monitor

shall have the authority to temporarily halt work to examine any potentially significant cultural materials or features.

The exclusionary fence protects this area from disturbance, while the other measures ensure that if any previously unidentified cultural resources are uncovered, construction crews are able to identify them, and that they are treated with appropriate dignity and respect.

k) Pursuant to Public Resources Code Section 21083.2 et seq., County of Monterey HCD–Planning staff initiated AB52 consultation with local Native American tribes on July 22, 2022. Notice was provided to the Ohlone/Costanoan-Esselen Nation, Esselen Tribe of Monterey County, and KaKoon Ta Ruk Band of Ohlone-Costanoan informing them the project and their ability to request a consultation. None of the notified tribal groups requested a consultation. However, due to the known sensitivity of the site to archaeological resources and overlap between archaeological and tribal cultural resources, Mitigation Measure No. 6 has been applied, which requires that a tribal monitor approved by the appropriate tribal authority traditionally and culturally affiliated with the area be onsite to observe all project related grading and excavation. The monitor shall have the authority to temporarily halt work to examine any potentially significant cultural materials or features.

l) All project changes required to avoid significant effects on the environment have been incorporated into the project and/or are made conditions of approval. A Condition Compliance and Mitigation Monitoring and/or Reporting Plan has been prepared in accordance with Monterey County regulations, is designed to ensure compliance during project implementation, and is hereby incorporated herein by reference. The applicant must enter into an "Agreement to Implement a Mitigation Monitoring and/or Reporting Plan" as a condition of project approval.

m) Analysis contained in the Initial Study and the record as a whole indicate the project would have the potential to result in changes to the resources listed in Section 753.5(d) of the California Department of Fish and Wildlife (CDFW) regulations. All land development projects that are subject to environmental review are subject to a State filing fee plus the County recording fee, unless CDFW determines that the project will have no effect on fish and wildlife resources.

In this case, for purposes of the Fish and Game Code, the project may have a significant adverse impact on the fish and wildlife resources upon which the wildlife depends. The Initial Study was sent to CDFW for review, comment, and to recommend necessary conditions to protect biological resources in this area. Therefore, the project will be required to pay the State fee plus a fee payable to the Monterey County Clerk/Recorder for processing said fee and posting the Notice of Determination.

n) Clarification and Amplification: Cultural Resources. Section VI.5(b) indicates, "an archaeological report (HCD-Planning Library No. LIB220001) prepared for the project identified only scattered archaeological resources in the form of abalone shell fragments and concluded that the proposed development would have a less than

significant potential impact on cultural resources." This section is being corrected to state: "an archaeological report (HCD-Planning Library No. LIB220001) prepared for the project identified only scattered archaeological resources in the form of abalone shell fragments and sparse burnt animal bone fragments, and concluded that the proposed development would have a less than significant potential impact on cultural resources."

o) The above described revisions to the Initial Study/Mitigated Negative Declaration made after the public review period do not change any of the conclusions in the initial study or increase the severity of impacts in any resource category. These revisions clarify and amplify the existing discussion. Therefore, recirculation of the IS/MND is not required in this case.

p) The County finds that there is no substantial evidence supporting a fair argument of a significant environmental impact.

q) The County of Monterey Planning Commission considered the Mitigated Negative Declaration, along with the Combined Development Permit, at a duly noticed public hearing held on January 25, 2023.

r) County of Monterey HCD-Planning, located at 1441 Schilling Place, 2nd Floor, Salinas, California, 93901, is the custodian of documents and other materials that constitute the record of proceedings upon which the decision to adopt the Mitigated Negative Declaration is based.

8. FINDING: **PUBLIC ACCESS –** The project is in conformance with the public access and recreation policies of the Coastal Act (specifically Chapter 3 of the Coastal Act of 1976, commencing with Section 30200 of the Public Resources Code) and applicable Local Coastal Program, and does not interfere with any form of historic public use or trust rights.

EVIDENCE: a) No public access is required as part of the project as no substantial adverse impact on access, either individually or cumulatively, as described in Section 20.147.130 of the Monterey County Coastal Implementation Plan can be demonstrated.

b) No evidence or documentation has been submitted or found showing the existence of historic public use or trust rights over this property.

c) The subject property, being in an area with a rocky shoreline and no proposed trail or lateral access way, is not described as an area where the Local Coastal Program requires physical public access (Figure 8, Major Public Access and Recreational Facilities, in the Del Monte Forest Land Use Plan).

d) The property is in a location that emphasizes visual public access. Figure 3, Visual Resources of the DMF LUP maps it as being potentially visible from 17-Mile Drive and Point Lobos, and halfway between the designated Pescadero and Midway (Lone cypress) vista points. The project planner conducted site visits on January 20, 2021 and October 13, 2021 and verified that the subject property is not visible from the designated vista points. However, it is visible from both 17-Mile Drive and Point Lobos.

e) Del Monte Forest Land Use Plan (DMF LUP) Policy 137 indicates that development shall not adversely impact public views and scenic character, with specific attention given to the 17-Mile Drive Corridor, and DMF

LUP Policy 139 indicates that where safe access to the shoreline is not feasible, visual access should be emphasized.

f) As discussed in Finding No. 5 Visual Resources, the proposed project is compatible with the scenic character of the forest. The projects inclusion of approximately 103 lineal feet of viewshed with approximately 63% pass through along 17-Mile Drive also opens up additional blue ocean views from 17-Mile Drive, enhancing visual public access.

g) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

9. FINDING: **APPEALABILITY –** The decision on this project may be appealed to the Board of Supervisors and the California Coastal Commission.

EVIDENCE: a) Pursuant to Section 20.86.030 of the Monterey County Zoning Ordinance (Title 20), an appeal may be made to the Board of Supervisors by any public agency or person aggrieved by a decision of an Appropriate Authority other than the Board of Supervisors.

b) Pursuant to Section 20.86.080.A of the Monterey County Zoning Ordinance (Title 20), the project is subject to appeal by/to the California Coastal Commission because it involves development between the sea and the first through public road paralleling the sea and development that is permitted in the underlying zone as a conditional use (i.e.; development within 100 feet of environmentally sensitive habitat).

DECISION

NOW, THEREFORE, based on the above findings and evidence, the Monterey County Planning Commission does hereby:

1. Adopt a Mitigated Negative Declaration pursuant to Section 15074 of the CEQA Guidelines; and
2. Approve a Combined Development Permit consisting of:
   a. Coastal Administrative Permit and Design Approval to allow the demolition of an existing 17,992 square foot single-family dwelling with an attached two-car garage, a detached 3,797 square foot gym, a 972 square foot covered walkway, and sheds totaling 433 square feet; and the construction of a 7,767 square foot single-family dwelling with an attached two-car garage, 882 square foot basement, 712 square foot pool house, 1,114 square foot pool, and a 319 square foot spa;
   b. a Coastal Development Permit to allow development within 750 feet of known archaeological resources;
   c. a Coastal Development Permit to allow development within an environmentally sensitive habitat area (indigenous Monterey cypress habitat and coastal bluff scrub);
   d. Coastal Development Permit to allow development within 50 feet of a coastal bluff; and
   e. A Minor and Trivial amendment to a previously approved permit (PLN200068, Zoning Administrator Resolution No. 21-008), to delete Condition 8 requiring recordation of a Conservation and Scenic Easement; and
3. Adopt a Mitigation Monitoring and Reporting Plan.

All of which are in general conformance with the attached conditions (attachment 1), lot coverage diagram (Attachment 2), and project plans (Attachment 3)**,** all being attached hereto and incorporated herein by reference.

Responsible Department:	Planning Department
Condition/Mitigation Monitoring Measure:	In accordance with Del Monte Forest Land Use Plan Policies 13, 20, and 84, the scenic easement recorded in Monterey County Recorder Document No. 2004087472 shall be amended and replaced with a new conservation and scenic easement deed which encompasses all areas outside of the approved structural and hardscape coverage. The amended

easement deed has the express purpose of protecting environmentally sensitive habitats, including Monterey cypress forest and coastal bluff scrub habitat areas; and the scenic viewshed from 17-Mile Drive. This easement deed shall satisfy the Conservation and Scenic Easement Deed requirements of planning permits PLN200068 and PLN210276.

These instruments shall be subject to approval by the County as to form and content, shall provide for enforcement, if need be, by the County or other appropriate agency, and name the County as beneficiary in event the Conservancy is unable to adequately manage these easements for the intended purpose of scenic and visual resource protection. An easement deed shall be submitted to, reviewed, and approved by the Director of HCD - Planning and the Executive Director of the California Coastal Commission, and accepted by the Board of Supervisors prior to recording the parcel/final map or prior to issuance of grading and building permits. (HCD - Planning)

WHEREAS, the resources being protected by this CSE Deed are the scenic resources and habitat resources, specifically including native Monterey cypress habitat and coastal bluff scrub areas and the public viewshed from 17-Mile Drive, both protected pursuant to the Del Monte Forest Land Use Plan; and

WHEREAS, the County, acting on behalf of the People of the State of California and pursuant to the Act, and in accordance with the findings contained in the Resolution, granted the Permit to the Grantor upon condition (the Condition) described above requiring inter alia, that the Grantor replace the 2004 Scenic Easement with a new recorded conservation and scenic easement (this CSE Deed) which extends across the entire Property, except for those areas approved for development pursuant to the Resolution, and as legally and graphically described in Exhibit "C", attached hereto and incorporated herein (the CSE Area), to restrict development on and use of the Property to preserve the open space, scenic, and/or natural resource values present on the

Property and to prevent the adverse direct and cumulative effects on coastal resources that could occur if the Property were not restricted in accordance with this easement; and

WHEREAS, the County has placed the Condition on the Permit because a finding must be made under the law that the proposed development conforms with the provisions of the certified Local Coastal Program and that in the absence of the protections provided by the Condition said finding could not be made; and

WHEREAS, Grantor has elected to comply with the Condition and execute this CSE Deed to enable Grantor to undertake the development authorized by the Permit; and

WHEREAS, it is intended that this CSE Deed is irrevocable and shall constitute enforceable restrictions within the meaning of Article XIII, Section 8, of the California Constitution and that said easement shall thereby qualify as an enforceable restriction under the provision of the California Revenue and Taxation Code, Section 402.1; and

WHEREAS, Grantor is willing to grant to the Grantee this CSE Deed and thereby protect the present scenic beauty and existing openness of the Property by the restricted use and enjoyment of the Property by the Grantor through the imposition of the amended conditions hereinafter expressed;

NOW, THEREFORE, the Grantor does hereby grant and convey unto the Grantee an estate, interest, and expanded CSE Area of the nature and character and to the extent hereinafter expressed, which estate, and interest, will result from the restrictions hereby imposed upon the use of said Property by said Grantor, and to that end and for the purposes of accomplishing the intent of the parties hereto, said Grantor covenants on behalf of itself, its heirs, successors, and assigns, with the said Grantee, its successors and assigns, to do and refrain from doing severally and collectively upon the Grantor's Property the various acts hereinafter mentioned.

A. PROPERTY SUBJECT TO AMENDED EASEMENT. The portion of the Property of the Grantor hereinabove referred to and to which the provisions of this instrument apply is situated in the County of Monterey, State of California, and is particularly described and depicted in Exhibit "C", attached hereto, and made a part hereof, and is the CSE Area (as previously defined). At the request of Grantee, angle points of easement boundaries shall be permanently marked or monumented with surveyors' pipe or similar prior to commencement of grading so that the CSE Area can be easily identified both during and after construction.

B. RESTRICTIONS. Except as otherwise provided herein, the restrictions hereby imposed upon the use of the CSE Area by the Grantor and the acts which Grantor shall refrain from doing upon the CSE Area in connection herewith are, and shall be, as follows:

1. That no structures will be placed or erected upon said CSE Area.

2. That no advertising of any kind shall be located on or within the CSE Area except directional, warning, traffic, and for sale or rent signs.

3. That the Grantor shall neither plant nor permit to be planted any vegetation in the CSE Area, except plants both native to Del Monte Forest and approved by the County and Grantee. Periodic efforts to control invasive non-native plants within the easement area are encouraged.

4. That except for maintenance of existing roads and pedestrian trails, the general topography of the landscape shall be maintained in its present condition and no excavation or topographic changes shall be made.

5. That Grantor shall not materially alter the landscape or other attractive scenic features of the CSE Area other than the uses specified above.

6. Grantor shall provide Grantee with copies of all Site and Construction Plans (e.g. Site, Grading, Utility, Drainage, Erosion Control, and Landscape plans, etc.) showing the location of existing and proposed facilities of the materials and specifications for proposed grading and construction within and immediately adjacent to the CSE Area. Grantor shall provide Grantee with advance notice whenever maintenance or construction activities will occur within or immediately adjacent to the Easement. At least 30 days prior to starting construction activities within or immediately adjacent to the CSE Area, Grantor shall hand deliver or mail Grantee, at Grantee's official place of business, plans describing the scope and location of the proposed construction sufficient for Grantee to determine whether the construction work is likely to impact the CSE Area.

C. EXCEPTIONS AND RESERVATIONS. The following are excepted and reserved to the Grantor with the understanding that the purpose of the easement is to preserve, to the most feasible extent, the native Monterey cypress habitat, the coastal scrub habitat, the public viewshed from 17-Mile Drive, and the natural vegetation and topography. Additionally, all exceptions and reservations of Grantor shall minimize disturbance to these features using the best available technologies and practices to be

implemented consistent with the objectives, purposes, and conditions of this easement in consultation with Grantee.

1. The right to maintain and repair such utility service connections as are necessary to serve the property.

2. The use and occupancy of the CSE Area consistent with the conditions and restrictions herein imposed.

3. Fuel management of vegetation within the CSE Area in accordance with fire safety fuel management regulations currently adopted by California State Law. Such activity shall not be permitted to harm or degrade the environmentally sensitive habitat.

4. Restoration activities within the CSE Area in accordance with the Landscape Plan, the Monterey Cypress Habitat Restoration Plan, and the Mitigation and Monitoring Reporting Plan approved with the Permit on file with Monterey County HCD-Planning.

5. Low intensity recreational uses such as hiking and picnicking in the CSE Area which is not inconsistent with the habitat goals of this CSE Deed.

D. SUBJECT TO APPLICABLE LAWS. Land uses permitted or reserved to the Grantor by this instrument and any amendment to this CSE Deed shall be subject to all applicable laws regulating the use of land.

E. BENEFIT AND BURDEN. This grant of this CSE Deed shall run with and burden the Property, and all obligations, terms, conditions, and restrictions hereby imposed shall be deemed to be covenants and restrictions running with the land and shall be effective limitations on the use of the Property from the date of recordation of this document and shall bind the Grantor and or all its successors and assigns. This grant shall benefit Grantee on behalf of the County and its successors and assigns forever. This grant shall further benefit the County of Monterey in the event that the Grantee is unable to adequately manage the conservation and scenic easement for the intended purpose of scenic and visual resource protection.

F. RIGHT OF ENTRY. The Grantee or its agent may enter onto the Property to ascertain whether the use restrictions set forth above are being observed at times reasonably acceptable to the Grantor. The public may not enter onto the Property.

G. ENFORCEMENT. Any act or any conveyance, contract, or authorization whether written or oral by the Grantor which uses or would cause to be used or would permit use of the CSE Area contrary to the terms of this grant of easement will be deemed

a breach hereof. The Grantee or the County may bring any action in court necessary to enforce this grant of easement, including, but not limited to, injunction to terminate a breaching activity and to force the restoration of all damage done by such activity, or an action to enforce the terms and provisions hereof by specific performance. It is understood and agreed that the Grantee or the County may pursue any appropriate legal and equitable remedies. The Grantee or the County shall have sole discretion to determine under what circumstances an action to enforce the terms and conditions of this grant of easement shall be brought in law or in equity. Any forbearance on the part of the Grantee or the County to enforce the terms and provisions hereof in the event of a breach shall not be deemed a waiver of Grantee's or the County's rights regarding any subsequent breach.

H. MAINTENANCE. The Grantee or the County shall not be obligated to maintain, improve, or otherwise expend any funds in connection with the Property or any interest or easement created by this easement. All costs and expenses for such maintenance, improvement use, or possession shall be borne by the Grantor, except for costs incurred by the Grantee or the County for monitoring compliance with the terms of this easement.

I. LIABILITY AND INDEMNIFICATION. This conveyance is made and accepted upon the express condition that the Grantee, the County, and their agencies, departments, officers, agents, and employees are to be free from all liability and claim for damage by reason of any injury to any person or persons, including Grantor, or property of any kind whatsoever and to whomsoever belonging, including Grantor, from any cause or causes whatsoever, except matters arising out of the sole negligence of the Grantee or the County, while in, upon, or in any way connected with the Property, Grantor hereby covenanting and agreeing to indemnify and hold harmless the Grantee, the County, and their agencies, departments, officers, agents, and employees from all liability, loss, cost, and obligations on account of or arising out of such injuries or losses however occurring. The Grantee and the County shall have no right of control over, nor duties and responsibilities with respect to the Property which would subject the Grantee or the County to any liability occurring upon the Property by virtue of the fact that the right of the Grantee to enter the Property or CSE Area is strictly limited to preventing uses inconsistent with the interest granted, the Property is not "property of a public entity" or "public property," and Grantee's rights herein do not include the right to enter the Property

or CSE Area for the purposes of correcting any "dangerous condition" as those terms are defined by California Government Code Section 830.

J. SUCCESSORS AND ASSIGNS. The terms, covenants, conditions, exceptions, obligations, and reservations contained in this conveyance shall be binding upon and inure to the benefit of the successors and assigns of both the Grantor and the Grantee and the County, whether voluntary or involuntary.

K. CONSTRUCTION OF VALIDITY. If any provision of this conservation and scenic easement is held to be invalid or for any reason becomes unenforceable, no other provision shall be thereby affected or impaired.

L. QUITCLAIM OF PRIOR SCENIC EASEMENT. Subject to execution of this CSE Deed, Grantee and County hereby quitclaim that certain Scenic Easement Deed recorded in the Official Records of Monterey County on August 19, 2004 as Document No. 2004087472 to Grantor, in favor of this CSE Deed.

[PLN210276 FEATHER CYPRESS LLC, 3256 17 Mile Drive, Pebble Beach, Del Monte Forest Land Use Plan (APN: 008-462-008-000)]

The Feather Cypress LLC application (PLN210276) came on for a public hearing before the Monterey County Planning Commission on January 25, 2023. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented the Monterey County Planning Commission finds and decides as follows:

FINDINGS

1. FINDING: **CONSISTENCY** – The Project, as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development.

EVIDENCE: a) During the course of review of this application, the project has been reviewed for consistency with the text, policies, and regulations in:

- the 1982 Monterey County General Plan;
- Del Monte Forest Land Use Plan;
- Monterey County Coastal Implementation Plan Part 5, Regulations for Development in the Del Monte Forest Land Use Plan Area; and
- Monterey County Zoning Ordinance (Title 20).

No conflicts were found to exist. No communications were received during the course of review of the project indicating any inconsistencies with the text, policies, and regulations in these documents.

b) Allowed Use. The property is located at 3256 17-Mile Drive, Pebble Beach (Assessor's Parcel Number 008-462-008-000), Del Monte Forest Land Use Plan, Coastal Zone. The parcel is zoned Low Density Residential, 2 acres per unit, with a Design Control Overlay (Coastal Zone) [LDR/2-D (CZ)], which allows which allows development of single-family dwellings and non-habitable accessory structures such as garages and pool houses as principally allowable uses, subject to a Coastal Administrative Permit. (Title 20 Sections 20.14.040.A. and 20.14.040.F.).

The project proposes:

- demolition of the existing 17,992 square foot single-family home with an attached two-car garage, 3,797 square foot gymnasium, and three sheds; and
- construction of a new 7,767 square foot single-family dwelling with an attached two-car garage, 882 square foot basement, and 712 square foot pool house; and
- site improvements, including new driveways and paths, a 1,114 square foot pool, and a 319 square foot spa.

Therefore, the project is an allowed land use for this site.

c) Lot Legality. The 2.8-acre lot is identified as Parcel 8, within in Assessor's Map Book 8, Page 46. A Lot Line adjustment (File No. 82-38) was approved in December, 1982 and is recorded in Volume 13 of "Surveys." The approved Lot Line Adjustment shows the current parcel boundaries and configuration. Therefore, the County recognizes the subject property as a legal lot of record.

d) Visual Resources. See Finding No. 5 for discussion of consistency with policies and regulations protecting visual resources.

e) Development Standards. The site development standards for the base LDR zoning are found in Title 20 section 20.14. The project is consistent with the minimum setback, maximum height, maximum building coverage, and maximum floor area requirements.

The minimum setbacks for main structures are 30 feet (front), 20 feet (side), and 20 feet (rear). The home proposes a front setback of 32 feet, a west side setback of 156 feet, and a rear setback of 94 feet. The east side setback is not dimensioned, however, the home is west of the pool house, meaning that the setback is greater than 36 feet.

The minimum setbacks for accessory structures are 50 feet (front), 6 feet (side), and 1 foot (rear). The pool house proposes a 50 feet front setback, a 36 foot east side setback, and a 79 foot rear setback. The proposed west side setback is not dimensioned, however, the pool house is east of the main home, meaning that the west side setback is greater than 156 feet.

The maximum main structure height is 30 feet and maximum accessory structure height is 15 feet, and the proposed home is 19 feet 6 inches, and proposed pool house is 15 feet.

The maximum allowable building coverage is 15% (18,295 square feet), while the proposed building coverage is 9.5% (11,586 square feet). The maximum allowable floor area is 17.5% (21,344 square feet) while the proposed floor area is 8.2% (9,969 square feet).

f) Forest Resources. No tree removal is proposed. Measures for the protection of trees and habitat have been incorporated. Mitigation Measure No. 1, including exclusionary fencing, a pre-construction training, and on-going monitoring by a qualified arborist/forester during construction, have been applied to protect.

g) Hazardous Areas. See Finding No. 3 for discussion of consistency with DMF LUP policies and regulations governing development in hazardous areas.

h) Historical Resources. DMF LUP Policy 57 encourages timely identification and evaluation of archaeological and historical resources so that they may be given full considering during the conceptual design phase of projects. Consistent with this policy, a historical report (LIB220005) was prepared for the property which evaluated the historicity of the property. The property is developed with an approximately 17,992 square foot single-family home, designed by George Washington Smith in the Spanish Colonial Revival style and constructed in 1924. The association of this style would place it within the period of prominence for Mediterranean revival architecture in the 1919-1945 time period according to the Pebble Beach Historic Context statement. Therefore, should it have retained integrity the home would have been significant both as a representation of the trend of Spanish Colonial Revival Architecture in pebble beach and as a notable example

of the work of George Washington Smith. Neither the gymnasium or accessory dwelling unit were considered significant or contributing to the historical character of the site, due to their more recent modifications.

For a property to be considered a historical resource, it must contain both significance and integrity. The home has undergone numerous alterations, most notable of which beginning the 70's, which compromised its integrity such that it no longer conveys its significance and no longer retains its core historically defining features. As the property does not retain integrity, it cannot be considered a historical resource, and its demolition would not impact historical resources. The project was referred to the Historic Resources Review Board (HRRB) for review. The historical report (LIB220005) prepared by Seth A. Bergstein and concurring opinions that the site had lost its integrity from Kent L. Seavey, Page & Turnbull, and Marc Appleton and Anthony Kirk were provided to the HRRB, as well as a petition opposing the demolition of the home. By a vote of 6-0 with 1 absent, the HRRB adopted a resolution finding the site was not eligible for listing on the Monterey County Register of Historic Resources and recommending approval of the project.

i) Archaeological Resources. Pursuant to DMF LUP Policy 58, an archaeological report (LIB220001) was prepared by Susan Morley to evaluate the potential of the project to impact archaeological resources. The report included archival research, a field reconnaissance, and subsurface testing for cultural resources. The archival research identified that in 1988, Charles Smith prepared a report for the accessory dwelling (at that time caretaker) unit. That report did not identify any evidence of archaeological resources in proximity to the unit. In 1990, Breschini and Haversat prepared a report for the expansion of the gym, which identified fragmentary abalone shell in the area. The current Archaeological observation of the geotechnical bores did not reveal any evidence of cultural materials. The archaeologist also conducted four hand augers near the area proposed for development. The augers revealed sparse abalone shell fragments. No other cultural constituents were noted.

Mitigation Measure No. 5 is recommended, which would require establishment of an exclusionary fence along the hardscape path to prevent disturbance beyond the limits shown in the plan. Due to the presence of shell in the area, there is the potential for the site to contain resources. Therefore, Mitigation Measure No. 5 also requires cultural awareness training for construction personnel and archaeological monitoring during grading and excavation activities, and the County's standard Condition No. 3 has been applied, requiring work be halted and the coroner be contacted if any human remains are discovered. This Mitigation Measure and condition reduce potential impacts to archaeological resources to a less than significant level.

j) Environmentally Sensitive Habitat Area (ESHA). See Finding No. 4 for consistency with applicable policies and regulations protecting environmentally sensitive habitat areas.

k) Land Use Advisory Committee (LUAC) Review. County staff referred the project to the Del Monte Forest Land Use Advisory Committee (LUAC) for review. The LUAC reviewed the project on February 17, 2022 and voted 6-0 with 1 absent and 1 abstention to recommend approval of the project contingent on review and concurrence from the Historic Resources Review Board (HRRB) that the property was not historical.

l) The project planner conducted a site inspection on October 13, 2021 to verify that the project on the subject parcel conforms to the plans listed above.

m) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

2. FINDING: **SITE SUITABILITY** – The site is physically suitable for the proposed development and/or use.

EVIDENCE:

a) The project has been reviewed for site suitability by the following departments and agencies: HCD-Planning, HCD-Engineering Services, HCD-Environmental Services, Environmental Health Bureau, and Pebble Beach Community Services District (CSD). County staff reviewed the application materials and plans to verify that the project on the subject site conforms to the applicable plans and regulations, and there has been no indication from these departments/agencies that the site is not suitable for the development. Conditions recommended have been incorporated.

b) The following reports were prepared to assess the geological and geotechnical suitability of the site for development; and the potential for the development to impact biological, forest, historical, and archaeological resources:

- Geologic and Coastal Bluff Recession Assessment Report, dated October 12, 2021 (Monterey County Document No. LIB220003), prepared by Haro, Kasunich and Associates, Inc., Watsonville, California;
- Geotechnical Investigation, dated October 12, 2021 (Monterey County Document No. LIB220004), prepared by Haro, Kasunich and Associates, Inc., Watsonville, California;
- Biological Assessment, dated October 28, 2021 (Monterey County Document No. LIB220002), prepared by Fred Ballerini Horticultural Services, Pacific Grove, California;
- Tree Resource Assessment and Forest Management and Cypress Restoration Plan, dated January 5, 2022 (Monterey County Document No. LIB220026), prepared by Ono Consulting, Pacific Grove, California;
- Phase 1 Historic Assessment, dated May 5, 2020 (Monterey County Document No. LIB220005), prepared by Past Consultants LLC, Petaluma, California; and

- Preliminary Cultural Resources Reconnaissance and Phase II Auger Testing for the Feather Cypress, LLC property, dated August 8, 2021 (Monterey County Document No. LIB220001), prepared by Susan Morley, M.A., Register of Professional Archaeologists, and Brenna Wheelis, Marina, California.

County staff independently reviewed these reports and concurs with their conclusions. There are no physical or environmental constraints that would indicate that the site is not suitable for the use. All development shall be in accordance with these reports.

c) Staff conducted a site inspection on October 13, 2021 to verify that the site is suitable for this use.

d) See also supporting Finding No. 3.

e) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

3. **FINDING:** **HEALTH AND SAFETY** – The establishment, maintenance, or operation of the project applied for will not under the circumstances of this particular case be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use, or be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County.

EVIDENCE:

a) The project was reviewed by HCD-Planning, HCD-Engineering Services, HCD-Environmental Services, Environmental Health Bureau, and Pebble Beach Community Services District (CSD). The respective agencies have recommended conditions, where appropriate, to ensure that the project will not have an adverse effect on the health, safety, and welfare of persons either residing or working in the neighborhood.

b) Necessary public facilities will be provided. The property is and will continue to be served by the California American Water Company (Cal Am) for potable water and the Pebble Beach Community Services District (CSD) for sewer. The applicant submitted a Monterey Peninsula Water Management District (MPWMD) residential release form verifying that the proposed water use, calculated based on MPWMD fixture counts, is less than the existing water use.

c) In accordance with DMF LUP Hazards Policy 46 and CIP Section 20.147.060.A.1., geological (LIB220003) and geotechnical (LIB220004) reports were prepared to assess the suitability of the site for development and address geological hazards on the properties. The reports concluded that the site was suitable for development given that the recommendations within them were followed. These included recommendations on site grading, foundation design, and surface drainage. Staff are recommending that the County's standard notice of report condition be applied for each report (Condition Nos. 8 and 9) to ensure that geological and geotechnical recommendations are followed.

d) Pursuant to CIP section 20.147.060.B.6., new development (in this case re-development) is required to avoid the need for shoreline armoring over the development's lifetime, and habitable structures are required to be sited outside of areas subject to storm wave run-up. The project is

consistent with the CIP section, as discussed in evidence "e" through "g" below.

e) The County does not have a regulatory standard establishing the lifetime of development for different land uses, however the advisory 2018 Sea Level Rise Policy Guidance document prepared by the California Coastal Commission indicates a minimum of 75 years as the long-range evaluation horizon for the life of a structure.

f) The project geologist concluded that, based on historical bluff erosion information, bluff retreat would be between 5 and 10 feet over the next 75 years. Climate change and sea level rise accelerates bluff retreat, so an additional 5 feet was added to account for this. Finally, a safety factor of 10 feet was added to account the inherent imprecision of evaluating future coastal erosion, and to create a buffer zone from the bluff edge to proposed building foundations in the future scenario (year 2097). This produced a total recommended setback of 25 feet from the current bluff edge. All proposed structures are outside of this recommended bluff setback, so the development has been sited in a location that is not anticipated to require armoring over the life of development.

g) The impacts of ocean wave run-up (storm surges) were observed around the 48 – 52 foot elevation above sea level (NAVD 88). The geological report concludes that wave run-up will rise by the amount of sea level rise that occurs within the life of the structures. If the 2018 Sea Level Rise Policy Guidance "Medium – High Risk Aversion" figures are used, the sea level would rise between 5.5 and 6.9 feet by 2100, which would be an elevation between 53.5 to 58.9 feet above sea level. The lowest finish floor (the lower floor/basement of the single-family home) is proposed with a finish floor elevation of 62 feet, higher than both of these figures.

h) Staff conducted a site inspection on October 13, 2021 to verify that the site is suitable for this use.

i) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

4. FINDING: **ENVIRONMENTALLY SENSITIVE HABITAT AREA** – The project minimizes impacts on environmentally sensitive habitat areas in accordance with the applicable goals, policies, and regulations contained in: the Del Monte Forest Land Use Plan (DMF LUP); Monterey County Coastal Implementation Plan (CIP) Part 5, Regulations for Development in the Del Monte Forest Land Use Plan area; and Monterey County Zoning Ordinance (Title 20).

EVIDENCE: a) The project includes an application for development within 100 feet of Environmentally Sensitive Habitat Areas (ESHA). In the DMF LUP, designation of ESHA is context dependent, relying both on current evaluation of existing resources and the sensitivity of habitats and species at the time of development consideration. The property has two distinct ecosystems, Monterey cypress forest and coastal bluff scrub, which overlap in an "ecotone", which has biotic characteristics of both habitat areas. The Monterey cypress is designated as ESHA and

protected by DMF LUP Policy 20. North coastal bluff scrub is considered ESHA by the California Coastal Commission, recognized as a threatened plant community by the California Department of Fish and Wildlife, and classified as a community "rare and worthy of consideration" by the California Natural Diversity Database (CNDDB), and in this case includes individually sensitive species including Sea-cliff Buckwheat, a host plant for the federally endangered Smith's Blue Butterfly, and a single Ocean bluff milkvetch, a sensitive plant species. Therefore, the coastal bluff scrub on the site is appropriately categorized as ESHA.

b) The DMF LUP key policy recognizes that the habitats of the Del Monte Forest are unique, limited, and fragile resources that are sensitive and important biologically, and that enrich Del Monte Forest enjoyment for residents and visitors alike. Accordingly, these habitats should be protected, maintained, and, where possible, enhanced and restored. This project conforms with this key policy as: the proposed development has been sited and designed to be within the existing development footprint, minimizing potential impact to habitat areas. Detailed best management practices are incorporated through Mitigation Measures No. 1 and 2 to ensure that the habitats are protected through construction and implementation of Mitigation Measures no. 3 and 4 will ensure that invasive weeds are removed from the property and approximately 33,600 square feet of sensitive habitat area are restored.

c) Protection of Indigenous Monterey cypress habitat is specifically addressed in DMF LUP policy 20, and in implementing regulations for this policy contained in CIP section 20.147.040.D.2. The project is consistent with this policy and these implementing regulations as the project proposes development that is confined to areas where existing structures and hardscapes exist.

d) In accordance with CIP section 20.147.040.D.2.(a), coordinated biological (LIB220002) and forest management (LIB220026) reports were prepared to assess the potential of the project to impact sensitive habitat areas and species.

e) CIP section 20.147.040.D.2.(b) requires that all development in and adjacent to cypress forest be carefully sited and designed to avoid adverse impacts to cypress habitat. This includes measures recommended in the biological/forestry reports to protect and enhance Monterey cypress habitat values. The project incorporates the best management practices recommended in the biological forestry reports to protect and enhance the habitat area:
   - Mitigation Measure No. 1 requires wrapping tree trunks with protective material, establishment of protective exclusionary fencing areas, a pre-construction biological training, on-going monitoring during construction by a qualified arborist or forester, and remediation if any trees are inadvertently harmed during construction.
   - Mitigation Measure No. 3 requires eradication of invasive species onsite; and
   - Mitigation Measure No. 4 requires preparation, execution, and monitoring of a restoration plan, which would restore approximately

33,607 square feet of environmentally sensitive habitat area, inclusive of 14,619 square feet of Monterey Cypress forest habitat and ecotone, and 18,988 square feet of coastal bluff scrub habitat. This is in addition to the approximately 16,783 square feet of restoration from the area required to be restored in Condition No. 8 of Zoning Administrator Resolution No. 21-008 (PLN200068), which allowed alterations to the existing accessory dwelling unit. For this reason, this permit incorporates an amendment to that resolution, deleting Condition No. 8 and replacing and incorporating the conservation easement requirement in Mitigation measure No. 4 of this resolution.

f) CIP section 20.147.040.D.2.(c) provides detailed development criteria in Monterey cypress forest habitat. Per paragraph one of 20.147.040.D.2.(c)(2), development on already developed lots is allowed if it is also sited within existing legally established structural/hardscape area and outside of the critical habitat, which is the case for this project. New or modified development outside of the existing legally established structure/hardscape area would be allowable if it complies with the findings of 20.147.040.D.2.(c)(2)(a) – (g), however, these findings are not applicable as all development is within the existing structural/hardscape area.

g) Previous iterations of the design did include impervious native soil paths outside of the development area. However, as indicated in revised plan sheet A0.6 submitted on November 7, 2022, these paths have been removed to assure consistency with the CIP regulations. This sheet is Attachment 2 to the permit resolution, and the other site plans would need be updated for consistency with this sheet prior to building permit issuance for the building permit to be determined to be in substantial conformance with the planning approval.

h) In accordance with DMF LUP Policies 20 and 13, the project has been conditioned to require a conservation and scenic easement be placed to protect all areas outside of the proposed development footprint.. See Finding No. 6 for further discussion of the easement condition.

i) DMF LUP Policy 8 indicates that environmentally sensitive habitats shall be protected against significant disruption in habitat values. Addressing this policy in the context of bluff scrub, Mitigation Measure No. 2 is incorporated, which requires that protective fencing be installed around existing Sea Cliff Buckwheat and intact coastal bluff scrub habitat areas to protect them during construction. Additionally, invasive species eradication is required and will be coordinated with the project biologist (Mitigation Measure No. 3). Sediment control devices will also be installed along the perimeter of the building envelope to prevent construction runoff from impacting bluff scrub habitat and the ocean.

j) To protect coastal habitat areas, DMF LUP Policy 25 requires a setback/buffer of at least 100 feet from the edge of mean high water tide line. While the mean high water tide line is not precisely denoted, all proposed structures appear greater than 120 feet from the pacific ocean, and proposed structures are further from the ocean than the existing structures. Portions of the existing hardscape appear within this 100 foot

buffer, however, these areas are existing and not being modified by the project.

k) While no tree removal is proposed, the biological report (LIB220002) identified potential from construction activities to impact nesting birds. To address this, Condition No. 12 requiring a bird nesting survey if demolition or ground disturbance commences between February 1 and September 15 is incorporated.

l) Staff conducted a site inspection on October 13, 2021 to verify ESHA locations and potential project impacts to ESHA.

m) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

5. **FINDING:** **VISUAL RESOURCES** – The project is consistent with the applicable policies to protect Visual Resources in the Del Monte Forest Land Use Plan (DMF LUP) and with implementing regulations in the Monterey County Coastal Implementation Plan (CIP).

EVIDENCE:

a) The project is subject to the Visual Resources protection policies of the Del Monte Forest Land Use Plan (DMF LUP), implementing regulations in Part 5 of the Monterey County Coastal Implementation Plan (CIP), and the Design Control "D" zoning overlay district, which requires a design review of structures and fences to assure protection of the public viewshed and neighborhood character.

b) The homes design is consistent with the surrounding neighborhood character:

- The colors and material palette includes limestone, bronze roofing and window frames, and a cypress soffit, natural materials consistent DMF LUP Policies 52 and 53, that development harmonize with the natural setting and be designed to subordinate and blend into the environment; and
- The substantial reduction in height and massing from the existing home, from 32 feet and 7 inches to 19 feet and 6 inches, helps subordinate the design to the surrounding forest.

c) DMF LUP Land Use and Development Policy 84 indicates that a minimum of a 100 foot setback from the centerline of 17-Mile drive shall be maintained to screen development from public views, unless "otherwise screened by vegetation and/or terrain, and the screening terrain/vegetation is required to be maintained and/or enhanced in perpetuity for screening and public viewshed enhancement purposes." In this case, the proposed home is approximately 52 feet from the centerline of 17-mile drive at the closest point. However, such encroachment into the setback is appropriate in this case as moving development further from 17 Mile Drive could conflict with bluff and habitat policies. The project is consistent with applicable visual policies as it proposes:

- A 6 foot tall fence which will screen the proposed project from view from 17-Mile Drive and runs for 420 lineal feet;
- "Viewshed" fencing along 3 points on 17-Mile drive, totaling 103 feet, which are sited to increase blue ocean views from 17-Mile Drive, enhancing the public viewshed; and

- Approximately 33,600 square feet of habitat restoration. In addition to its ecological value, the cypress forest and scrub habitats will screen the proposed structures and enhance the public viewshed, and be required to be maintained in perpetuity in accordance with Landscaping Restoration Plan Condition No. 6.

d) Staff conducted a site inspection on October 13, 2021 to assess the potential of the project to impact Visual Resources.

e) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

6. FINDING: **MINOR & TRIVIAL AMENDMENT** – The proposed modification to Coastal Development Permit PLN200068 (Zoning Administrator Resolution No. 21-008) to replace Condition No. 8 of that permit with Condition No. 20 attached is generally keeping with the action of the Zoning Administrator and does not create any additional impacts not assessed in the original permit action.

EVIDENCE: a) On August 14, 2003, the Zoning Administrator approved Resolution No. 020582 allowing construction of a three-car garage attached to an existing caretaker unit on the north of the property. As part of making a finding of consistency within DMF LUP Policy 84, which restricts development within 100 feet of the centerline of 17-Mile Drive to protect the viewshed, PLN020582 required a Scenic Easement by conveyed to the County over areas within 100-feet of the centerline of 17-Mile Drive, excepting existing and approved development. This easement was recorded in Monterey County Recorder document No. 2004087472.

b) On February 25, 2021, the Zoning Administrator approved PLN200068 (Zoning Administrator Resolution No. 21-008). Condition No. 8 of this permit requires that the applicant amend the 2004 Scenic Easement to encompass all areas outside of existing and approved development, not just those within 100-feet of the centerline of 17-Mile Drive, excepting existing and approved development, and enumerate that the amended Conservation and Scenic Easement is intended to preserve the indigenous Monterey cypress habitat in addition to protect the viewshed. This was done to ensure consistency with DMF LUP Policy 20. Draft easement language and a diagram depicting the existing and approved development were prepared for PLN200068 Condition No. 8, however, a new easement has not been recorded.

c) On December 20, 2021, the applicant submitted for a Combined Development Permit to demolish the main residence and build a new one. DMF LUP Policy 20 requires conservation and scenic easements for all undeveloped areas on the site. As the project involves a reduction in hardscape, a new easement condition is required.

d) This permit would delete the conservation and scenic easement condition from the 2021 project (PLN200068) and adds a new condition increasing the size of the easement to encompass the habitat areas being restored as part of this project and incorporating the areas previously

proposed for conservation. This amendment avoids redundancy and consolidates actions following approval.

e) The timing of Condition No. 20 would allow final recording of the amended easement to be completed prior to final inspection of the home, rather than final inspection of the accessory dwelling unit.

f) Both conditions would require a Conservation and Scenic Easement over all areas excepting existing and approved development, so the amended condition is still in line with the decision of the Zoning Administrator and would not create any additional environmental impacts.

g) None of the other conditions of PLN200068 are being modified. PLN200068 remains the operative permit for the accessory dwelling unit and its attached garage.

h) While the appropriate authority to consider Minor and Trivial Amendments would typically be the Chief of Planning, in accordance with Title 20 Section 20.70.105.A., the Combined Development Permit process allows multiple discretionary entitlements to be considered concurrently.

i) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

7. **FINDING:** **CEQA (Mitigated Negative Declaration)** – On the basis of the whole record before the Monterey County Planning Commission, there is no substantial evidence that the proposed project as designed, conditioned and mitigated, will have a significant effect on the environment. The Mitigated Negative Declaration reflects the independent judgment and analysis of the County.

EVIDENCE:

a) Pursuant to Public Resources Code Section 21083, and California Environmental Quality Act (CEQA) Guidelines Sections 15063(a) and 15063(b)(2), the Lead Agency shall conduct environmental review in the form of an Initial Study to determine if the project may have a significant effect on the environment and shall prepare a Negative Declaration if there is no substantial evidence that the project or any of its aspects may cause a significant effect on the environment.

b) County of Monterey as Lead Agency, through HCD-Planning, prepared an Initial Study pursuant to CEQA. The Initial Study is on file in the offices of HCD-Planning and is hereby incorporated by reference (Planning File No. PLN210276).

c) There is no substantial evidence, based upon the record as a whole, that the project may have a significant effect on the environment. The Initial Study identified potentially significant effects to biological, cultural, and tribal cultural resources, but the applicant has agreed to mitigation measures that avoid the effects or mitigate the effects to a point where clearly no significant effects would occur. Based upon the analysis of the Initial Study, HCD-Planning prepared a Mitigated Negative Declaration. Mitigation measures have been made conditions of approval of this project.

d) The Draft Initial Study and Mitigated Negative Declaration for HCD-Planning File No. PLN210276 was prepared in accordance with the

CEQA Guidelines; filed with the County Clerk on November 21, 2022; and circulated for public review from November 21, 2022 to December 21, 2022 (SCH No. 2022110478). No public comments were received during the circulation period.

e) Resource areas that were analyzed in the Draft Initial Study/Mitigated Negative Declaration included: Aesthetics, Air Quality, Biological Resources, Cultural Resources, Geology and Soils, Greenhouse Gas Emissions, Hazards/Hazardous Materials, Hydrology/Water Quality, Land Use Planning, Noise, Tribal Cultural Resources, and Wildfire.

f) Evidence that has been received and considered includes: the application, technical studies/reports, staff reports that reflect the County's independent judgment, and information and testimony presented during public meetings and hearings. These documents are on file in HCD-Planning (Planning File No. PLN210276) and are hereby incorporated herein by reference.

g) The County identified less than significant impacts to Aesthetics, Air Quality, Geology and Soils, Greenhouse Gas Emissions, Hazards/Hazardous Materials, Hydrology/Water Quality, Land Use Planning, Noise, and Wildfire.

h) The County identified potentially significant impacts to Biological Resources. Mitigation measures have been incorporated that reduce the identified impacts to a level of less than significant.

i) Mitigation Measure No. 1 through 4 would reduce potentially significant impacts to biological resources by:
   - Requiring best management practices to protect Monterey cypress be followed including a pre-construction training, establishment of protective fencing, monitoring by a qualified arborist or forester, and monitoring during construction; and
   - Requiring protective fencing and sediment control to protect Seacliff Buckwheat and Bluff Scrub habitat during construction and requiring coordination between a qualified biologist and the invasive species removal contractor to ensure site work doesn't harm this habitat;
   - Requiring removal of invasive species on the site; and
   - Requiring a restoration plan and five years of monitoring by a qualified biologist for the onsite restoration activities.

   Together these will ensure construction doesn't inadvertently harm biological resources and that the post construction habitat restoration efforts are undertaken in a manner that will improve the habitat.

j) The County identified potentially significant impacts to Cultural and Tribal Cultural Resources.

   Mitigation Measures No 5 and 6 reduce impacts to Cultural and Tribal Cultural Resources to a less than significant level by:
   - Requiring cultural awareness training for construction personnel, establishment of a protective fence along the south of the property, and archaeological monitoring during grading and excavation; and
   - Requiring that a tribal monitor approved by the appropriate tribal authority traditionally and culturally affiliated with the area be onsite to observe all project related grading and excavation. The monitor

shall have the authority to temporarily halt work to examine any potentially significant cultural materials or features.

The exclusionary fence protects this area from disturbance, while the other measures ensure that if any previously unidentified cultural resources are uncovered, construction crews are able to identify them, and that they are treated with appropriate dignity and respect.

k) Pursuant to Public Resources Code Section 21083.2 et seq., County of Monterey HCD–Planning staff initiated AB52 consultation with local Native American tribes on July 22, 2022. Notice was provided to the Ohlone/Costanoan-Esselen Nation, Esselen Tribe of Monterey County, and KaKoon Ta Ruk Band of Ohlone-Costanoan informing them the project and their ability to request a consultation. None of the notified tribal groups requested a consultation. However, due to the known sensitivity of the site to archaeological resources and overlap between archaeological and tribal cultural resources, Mitigation Measure No. 6 has been applied, which requires that a tribal monitor approved by the appropriate tribal authority traditionally and culturally affiliated with the area be onsite to observe all project related grading and excavation. The monitor shall have the authority to temporarily halt work to examine any potentially significant cultural materials or features.

l) All project changes required to avoid significant effects on the environment have been incorporated into the project and/or are made conditions of approval. A Condition Compliance and Mitigation Monitoring and/or Reporting Plan has been prepared in accordance with Monterey County regulations, is designed to ensure compliance during project implementation, and is hereby incorporated herein by reference. The applicant must enter into an "Agreement to Implement a Mitigation Monitoring and/or Reporting Plan" as a condition of project approval.

m) Analysis contained in the Initial Study and the record as a whole indicate the project would have the potential to result in changes to the resources listed in Section 753.5(d) of the California Department of Fish and Wildlife (CDFW) regulations. All land development projects that are subject to environmental review are subject to a State filing fee plus the County recording fee, unless CDFW determines that the project will have no effect on fish and wildlife resources.

In this case, for purposes of the Fish and Game Code, the project may have a significant adverse impact on the fish and wildlife resources upon which the wildlife depends. The Initial Study was sent to CDFW for review, comment, and to recommend necessary conditions to protect biological resources in this area. Therefore, the project will be required to pay the State fee plus a fee payable to the Monterey County Clerk/Recorder for processing said fee and posting the Notice of Determination.

n) Clarification and Amplification: Cultural Resources. Section VI.5(b) indicates, "an archaeological report (HCD-Planning Library No. LIB220001) prepared for the project identified only scattered archaeological resources in the form of abalone shell fragments and concluded that the proposed development would have a less than

significant potential impact on cultural resources." This section is being corrected to state: "an archaeological report (HCD-Planning Library No. LIB220001) prepared for the project identified only scattered archaeological resources in the form of abalone shell fragments and sparse burnt animal bone fragments, and concluded that the proposed development would have a less than significant potential impact on cultural resources."

o) The above described revisions to the Initial Study/Mitigated Negative Declaration made after the public review period do not change any of the conclusions in the initial study or increase the severity of impacts in any resource category. These revisions clarify and amplify the existing discussion. Therefore, recirculation of the IS/MND is not required in this case.

p) The County finds that there is no substantial evidence supporting a fair argument of a significant environmental impact.

q) The County of Monterey Planning Commission considered the Mitigated Negative Declaration, along with the Combined Development Permit, at a duly noticed public hearing held on January 25, 2023.

r) County of Monterey HCD-Planning, located at 1441 Schilling Place, 2nd Floor, Salinas, California, 93901, is the custodian of documents and other materials that constitute the record of proceedings upon which the decision to adopt the Mitigated Negative Declaration is based.

8. FINDING: **PUBLIC ACCESS** – The project is in conformance with the public access and recreation policies of the Coastal Act (specifically Chapter 3 of the Coastal Act of 1976, commencing with Section 30200 of the Public Resources Code) and applicable Local Coastal Program, and does not interfere with any form of historic public use or trust rights.

EVIDENCE: a) No public access is required as part of the project as no substantial adverse impact on access, either individually or cumulatively, as described in Section 20.147.130 of the Monterey County Coastal Implementation Plan can be demonstrated.

b) No evidence or documentation has been submitted or found showing the existence of historic public use or trust rights over this property.

c) The subject property, being in an area with a rocky shoreline and no proposed trail or lateral access way, is not described as an area where the Local Coastal Program requires physical public access (Figure 8, Major Public Access and Recreational Facilities, in the Del Monte Forest Land Use Plan).

d) The property is in a location that emphasizes visual public access. Figure 3, Visual Resources of the DMF LUP maps it as being potentially visible from 17-Mile Drive and Point Lobos, and halfway between the designated Pescadero and Midway (Lone cypress) vista points. The project planner conducted site visits on January 20, 2021 and October 13, 2021 and verified that the subject property is not visible from the designated vista points. However, it is visible from both 17-Mile Drive and Point Lobos.

e) Del Monte Forest Land Use Plan (DMF LUP) Policy 137 indicates that development shall not adversely impact public views and scenic character, with specific attention given to the 17-Mile Drive Corridor, and DMF

LUP Policy 139 indicates that where safe access to the shoreline is not feasible, visual access should be emphasized.

f) As discussed in Finding No. 5 Visual Resources, the proposed project is compatible with the scenic character of the forest. The projects inclusion of approximately 103 lineal feet of viewshed with approximately 63% pass through along 17-Mile Drive also opens up additional blue ocean views from 17-Mile Drive, enhancing visual public access.

g) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning found in Project File PLN210276.

9. FINDING: **APPEALABILITY** – The decision on this project may be appealed to the Board of Supervisors and the California Coastal Commission.

EVIDENCE: a) Pursuant to Section 20.86.030 of the Monterey County Zoning Ordinance (Title 20), an appeal may be made to the Board of Supervisors by any public agency or person aggrieved by a decision of an Appropriate Authority other than the Board of Supervisors.

b) Pursuant to Section 20.86.080.A of the Monterey County Zoning Ordinance (Title 20), the project is subject to appeal by/to the California Coastal Commission because it involves development between the sea and the first through public road paralleling the sea and development that is permitted in the underlying zone as a conditional use (i.e.; development within 100 feet of environmentally sensitive habitat).

DECISION

NOW, THEREFORE, based on the above findings and evidence, the Monterey County Planning Commission does hereby:

1. Adopt a Mitigated Negative Declaration pursuant to Section 15074 of the CEQA Guidelines; and
2. Approve a Combined Development Permit consisting of:
   a. Coastal Administrative Permit and Design Approval to allow the demolition of an existing 17,992 square foot single-family dwelling with an attached two-car garage, a detached 3,797 square foot gym, a 972 square foot covered walkway, and sheds totaling 433 square feet; and the construction of a 7,767 square foot single-family dwelling with an attached two-car garage, 882 square foot basement, 712 square foot pool house, 1,114 square foot pool, and a 319 square foot spa;
   b. a Coastal Development Permit to allow development within 750 feet of known archaeological resources;
   c. a Coastal Development Permit to allow development within an environmentally sensitive habitat area (indigenous Monterey cypress habitat and coastal bluff scrub);
   d. Coastal Development Permit to allow development within 50 feet of a coastal bluff; and
   e. A Minor and Trivial amendment to a previously approved permit (PLN200068, Zoning Administrator Resolution No. 21-008), to delete Condition 8 requiring recordation of a Conservation and Scenic Easement; and
3. Adopt a Mitigation Monitoring and Reporting Plan.

All of which are in general conformance with the attached conditions (attachment 1), lot coverage diagram (Attachment 2), and project plans (Attachment 3), all being attached hereto and incorporated herein by reference.

13. PDSP001 - MITIGATION MEASURE NO 1 MONTEREY CYPRESS PROTECTION (PART 1)

Responsible Department: RMA-Planning

Condition/Mitigation Monitoring Measure: In order to ensure that Monterey cypress trees and forest habitat is protected throughout construction, the construction contractor, under the supervision of the Project Tree Consultant (a Monterey County-approved Arborist or Forester) shall ensure the following measures are implemented throughout construction.

Prior to demolition, grading, or construction activity:

- Trees and areas designated for protection located adjacent to the construction area shall be protected from damage by construction equipment using optimal tree root protection zones to include temporary fencing in combination with the wrapping of trunks with protective materials.
- Fencing shall consist of chain link, snowdrift, plastic mesh, hay bales, or field fence. The best form of protection is to use straw bales then erect fencing on top of the bales so they cannot be moved easily.
- Prior to the start of construction, all construction managers, heavy equipment operators and tree services operators/vegetation managers shall attend a pre-demolition and construction meeting to be trained in tree and vegetation protection procedures. The purpose of the meeting is to educate and answer questions as to adequate tree and vegetation protection and what or why habitat protection and restoration efforts are crucial. During this meeting, expectations are to be made clear as to what the responsibilities are by each construction entity for trees and vegetation; this includes but is not limited to areas of exclusion, spoils, etc., and to who and to what extent accountability will be placed. Training will be conducted by a certified professional such as a qualified forester or biologist, or certified arborist consisting of protection standards that are to be implemented as well as procedures common to site restoration.
- Fencing shall not be attached to the tree but shall be free-standing or self supporting so as not to damage trees. Fencing shall be rigidly supported and shall always stand at a minimum height of four feet above grade and with Critical Root Zones fenced to the greatest extent feasible to conduct the construction activities.

Throughout the construction process:

- Soil compaction, parking of vehicles or heavy equipment, stockpiling of construction materials, and/or dumping of materials are not allowed adjacent to trees on the property especially within or near fenced areas. If vehicle access is required in an area outside of the existing hardscaped area, a temporary plywood track may be used between the hardscape and destination point.
- Severe or careless grading in the root zones, compaction of soils, soil contamination, and improper deposition of excavated soils near the base of a Monterey cypress or within critical root zones during project implementation could cause the decline or death of the trees. The above actions, including cleaning of concrete, paint, or plaster, dumping of spoils, stockpiling of construction materials shall not be allowed adjacent to cypress trees on the property especially within or near fenced areas. To avoid soil contamination in critical tree root zones, the Project Tree Consultant shall identify areas on the parcel for construction clean out purposes.
- Operation of heavy equipment and parking of personnel vehicles shall be kept within the construction impact zones. Any operation of heavy equipment, staging, or parking within the edge of the temporary protective fencing established pursuant to this Mitigation Measure shall be prohibited.
- Fenced areas and trunk protection materials shall remain in place during the entire

construction period. If at any time it is discovered that exclusion fencing or tree protection is below standard or non-functional it shall be immediately re-installed and inspected by a Monterey County qualified arborist or forester for compliance.

[CONTINUED IN PART 2]

Compliance or Monitoring Action to be Performed: [ACTIONS NEEDED FOR RESOLUTION IN PART 2]

13. PDSP001 - MITIGATION MEASURE NO 1 MONTEREY CYPRESS PROTECTION (PART 2)

Responsible Department: RMA-Planning

Condition/Mitigation Monitoring Measure: [CONTINUED FROM PART 1]

During grading and excavation:

- Any grading, excavation, trenching or digging activities near critical tree root zones shall require prior approval and observation from the Project Tree Consultant.
- Within the Monterey cypress tree critical root zones, trenching for footings, utilities, landscaping, retaining walls or other ground disturbance actions shall be implemented by hand trenching under the approval and guidance of the Project Tree Consultant. Ground disturbance actions that are expected to encounter tree roots shall be monitored by the Project Tree Consultant to ensure against cutting structural root systems and direct any minor field adjustments that may be needed. Encountered feeder roots shall be flush cut with equipment approved by the Project Tree Consultant.
- All trenching, grading or any other digging or soil removal that is expected to encounter tree roots shall be monitored by the Project Tree Consultant to ensure against drilling or cutting into or through major roots.
- The Project Tree Consultant shall be on-site during excavation activities expected to encounter tree roots to direct any minor field adjustments that may be needed.
- Trenching for footings, driveway, and retaining walls located adjacent to any tree shall be done by hand first to locate roots where practical and any roots found greater than 2-inches diameter shall be bridged or pruned appropriately.
- Any roots discovered that must be cut, shall be first exposed by manually digging a trench, then cut with a saw, vibrating knife, rock-saw, narrow trencher with sharp blades, or other approved root pruning equipment.
- Any cutting of, or impacts to root systems could compromise the structural integrity of the tree to withstand the coastal winds and also impair nutrient uptake of feeder roots. If potentially significant roots are discovered, the Project Tree Consultant shall be authorized to halt excavation, trenching or digging actions until appropriate mitigation measures are formulated an implemented.
- Any roots damaged during grading or excavation shall be exposed to sound tissue and cut cleanly with a saw.
- Tree pruning may be necessary to remove deadwood or structural defects. All proposed pruning shall be conducted under the direction of the Project Tree Consultant.

If at any time potentially significant tree roots are discovered:

- The Project Tree Consultant shall be authorized to halt excavation until appropriate mitigation measures are formulated and implemented.
- If significant roots are identified that must be removed, the Project Tree Consultant will be contacted immediately for recommended treatment approaches of the area that will not risk death, decline, or instability of the tree, such as hand digging, bridging or tunneling under roots, etc. These recommendations shall be followed.

Compliance or Monitoring Action to be Performed:

If the restoration success criteria cannot be met at the fifth year inspection, reporting would continue annually until the performance criteria can be met. During each monitoring period, the Project Biologist shall prepare a monitoring report which addressed the following:
A. Plant composition, density, and percent cover;
B. Condition of the plants, paying particular attention to plant mortality or any deficiency in the quality and quantity of the landscape;
C. Signs of damage to the plants from natural or human-related causes;
D. Status of exotic vegetation;
E. Status of species of special concern;
F. Photographic records shall be provided with the monitoring reports to provide additional documentation of progress toward meeting the success criteria; and
G. Whether any additional remediation or follow up is required to meet the success criteria established in the plan.

6. Erosion control measures for sloped areas along the coastal bluff; and
7. Implementation schedule.

• The plan shall include the appropriate species for use in each Habitat Restoration Zone, and shall use the preliminary species list provided in the biological assessment prepared for the project (Monterey County Document No. LIB220002).

Compliance or Monitoring Action to be Performed:

4a. Prior to issuance of a demolition, grading, or construction permit, the approved Project Biologist, in conjunction with the project landscape architect, shall submit the restoration landscape planting plan to HCD-Planning for review and approval.

4b: Prior to construction permit final, the approved Project Biologist shall certify to HCD-Planning that initial planting and exotic special eradication activities required by the restoration landscaping plan were executed in accordance with the plan.

4c: After construction, annually for three years, the Project Biologist shall submit monitoring reports to HCD-Planning, for review and approval, on the status of the restoration. The owner/applicant shall be required to implement any recommended remediation or follow up measures required to meet the success criteria within the five-year monitoring period.

4d: Five years after construction, the Project Biologist shall submit a monitoring report to HCD-Planning, for review and approval, on the final success of the restoration, and whether the success criteria of the restoration landscaping plan have been met, or if additional remediation or follow up measures are required. The owner/applicant shall be required to implement any recommended remediation or follow up measures required to meet the final success criteria. If remediation or follow up is required, monitoring and reporting shall continue annually until the final success criteria are met.

17. MITIGATION MEASURE NO 5 - ON-SITE ARCHAEOLOGICAL MONITOR, CULTURAL AWARENESS TRAINING

Responsible Department: RMA-Planning

Condition/Mitigation Monitoring Measure: To reduce potential impacts to cultural resources that may be discovered during development onsite, a qualified archaeological monitor (i.e., an archaeologist registered with the Register of Professional Archaeologists [RPA] or a Registered Archaeologist [RA] under the supervision of an RPA) shall conduct a cultural resource awareness and response training for construction personnel prior to the commencement of any grading or excavation activity, and shall be present and observe all soil disturbance for all grading and excavation activities. If at any time, potentially significant archaeological resources or intact features are discovered, the monitor shall temporarily halt work until the find can be evaluated by the archaeological monitor. If the find is determined to be significant, work shall remain halted until a plan of action has been formulated, with the concurrence of HCD-Planning, and implemented. Also, the applicant and qualified archaeological monitor shall install a physical barrier (e.g., construction fencing) along the south of the existing hardscape pathway where the slope it begins to slope downward toward the bluff. The exact location of this fence shall be determined by the project archaeologist in coordination with the construction contractor, and shall not be established within any designated environmentally sensitive habitat area.

Compliance or Monitoring Action to be Performed:

5a: Prior to issuance of demolition, grading, or construction permits, the owner/applicant shall include a note on the construction plans encompassing the language contained in Mitigation Measure 5, including all compliance actions. The owner/applicant shall submit said plans to HCD-Planning for review and approval.

5b: Prior to issuance of demolition, grading, or construction permits, the owner/applicant shall submit to HCD-Planning a copy of the contract between the owner/applicant and a qualified archaeological monitor. The contract shall include a pre-construction meeting agenda with specific construction activities that the monitor shall be present for, any construction activities for which the archaeological monitor will not be present, how sampling of the excavated soil will occur, and any other logistical information such as when and how work on the site will be halted. The contract shall include provisions requiring the monitor be present and observe all soil disturbance for all grading and excavation, and authorizing the monitor to stop work in the event resources are found. In addition, the contract shall authorize the monitor to prepare a report suitable for compliance documentation to be prepared within four weeks of completion of the data recovery field work. The contract shall be submitted to HCD-Planning for review and approval. Should HCD-Planning find the contract incomplete or unacceptable, the contract will be returned to the owner/applicant and a revised contract shall be re-submitted for review and approval.

5c: Prior to issuance of demolition, grading, or construction permits, the owner/applicant shall submit an up to date construction schedule indicating when any grading or excavation activities are expected to occur.

5d: Prior to issuance of demolition, grading, or construction permits the owner/applicant or qualified archaeologist shall also submit evidence of installation of a physical barrier (e.g., construction fencing) along the south edge of the existing hardscape walkway. The specific location will be determined by the qualified archaeologist in consultation with the contractor and a qualified biologist. The fencing must be established after the Monterey cypress and bluff scrub fencing required my Mitigation Measures No. 1 and 2, and must be outside of those environmentally sensitive habitat areas.

5e: Prior to commencement of demolition, grading, excavation, or construction activity, the owner/applicant shall submit evidence that a qualified archaeologist conducted a cultural resource awareness and response training for construction personnel. The training shall include a description of the kinds of cultural and tribal cultural resources that are found in the area, protocols to be used in the event of an unanticipated discovery, and the importance of cultural resources to the Native American community.

5f: If archaeological resources are unexpectedly discovered during construction, work shall be halted on the parcel until the find can be evaluated and a plan of action formulated and implemented, with the concurrence of HCD-Planning. Data recovery shall be implemented during the construction and excavation monitoring. If intact archaeological features are exposed, they shall be screened for data recovery using the appropriate method for site and soil conditions. The owner/applicant shall allow the on-site Tribal Monitor (see Mitigation Measure 6 – Section VI.18) an opportunity to make recommendations for the disposition of potentially significant archaeological materials found.

5g: A final technical report containing the results of all analyses shall be completed within one year following completion of the field work. This report shall be submitted to HCD-Planning and the Northwest Regional Information Center at Sonoma State

University.

'18. MITIGATION MEASURE NO 6 - ON-SITE TRIBAL MONITOR

Responsible Department: RMA-Planning

Condition/Mitigation Monitoring Measure: To ensure that Tribal Cultural Resources incur a less than significant impact if encountered, a Tribal Monitor approved by the appropriate tribe traditionally and culturally affiliated with the vicinity of the subject parcel and that has consulted with the County and designated one lead contact person in accordance with AB 52 requirements, or other appropriately NAHC-recognized representative, shall be on-site and observe all project-related grading and excavation to identify findings with tribal cultural significance. This Tribal Monitor shall have the authority to temporarily halt work in order to examine any potentially significant cultural materials or features. If resources are discovered, the owner/applicant/contractor shall refer to and comply with HCD-Planning Standard Condition PD003(B) as applicable. This mitigation is not intended to alleviate responsibility of the owner or its agents from contacting the County Coroner and complying with State law if human remains are discovered.

Compliance or Monitoring Action to be Performed: 6a: Prior to issuance of construction permits for grading or building, the owner/applicant shall include a note on the construction plans encompassing the language contained in Mitigation Measure 6, including all compliance actions. The owner/applicant shall submit said plans to HCD-Planning for review and approval.

6b: Prior to issuance of a construction permit for grading and/or building, the Applicant/Owner shall submit evidence to the satisfaction of the Chief of HCD-Planning that a monitor approved by the appropriate tribe traditionally and culturally affiliated with the vicinity of the subject parcel and that has consulted with the County and designated one lead contact person in accordance with AB 52 requirements, or other appropriately NAHC-recognized representative, has been retained to monitor the appropriate construction activities. This Tribal Monitor shall be retained for the duration of any project-related grading and excavation.

6c: Any artifacts found that are not associated with a finding of human remains shall be cataloged by both the Tribal Monitor and the qualified archaeological monitor. Once cataloged, the qualified archaeological monitor will take temporary possession of the artifacts for testing and reporting purposes. Upon completion of these testing and reporting activities, all artifacts, at the discretion of the property owner, shall be returned within one (1) year to a representative of the appropriate local tribe as recognized by the Native American Heritage Commission, or the Monterey County Historical Society. A final technical report containing the results of all analyses shall be completed within one year following completion of the field work. This report shall be submitted to HCD-Planning and the Northwest Regional Information Center at Sonoma State University. Artifacts associated with a finding of human remains shall be reburied in accordance with State Law and penalty for violation pursuant to PRC section 5097.994.

6d: Prior to final building inspection, the Tribal Monitor or other appropriately NAHC recognized representative shall submit a letter to HCD-Planning confirming participation in the monitoring and provide a summary of archaeological and /or cultural finds or no finds, as applicable.

19. CC01 INDEMNIFICATION AGREEMENT

Responsible Department: County Counsel-Risk Management

Condition/Mitigation Monitoring Measure: The property owner agrees as a condition and in consideration of approval of this discretionary development permit that it will, pursuant to agreement and/or statutory provisions as applicable, including but not limited to Government Code Section 66474.9, defend, indemnify and hold harmless the County of Monterey or its agents, officers and employees from any claim, action or proceeding against the County or its agents, officers or employees to attack, set aside, void or annul this approval, which action is brought within the time period provided for under law, including but not limited to, Government Code Section 66499.37, as applicable. The property owner will reimburse the County for any court costs and attorney's fees which the County may be required by a court to pay as a result of such action. The County may, at its sole discretion, participate in the defense of such action; but such participation shall not relieve applicant of his/her/its obligations under this condition. An agreement to this effect shall be recorded upon demand of County Counsel or concurrent with the issuance of building permits, use of property, filing of the final map, recordation of the certificates of compliance whichever occurs first and as applicable. The County shall promptly notify the property owner of any such claim, action or proceeding and the County shall cooperate fully in the defense thereof. If the County fails to promptly notify the property owner of any such claim, action or proceeding or fails to cooperate fully in the defense thereof, the property owner shall not thereafter be responsible to defend, indemnify or hold the County harmless. (County Counsel-Risk Management)

Compliance or Monitoring Action to be Performed: Upon demand of County Counsel or concurrent with the issuance of building permits, use of the property, recording of the final/parcel map, or recordation of Certificates of Compliance, whichever occurs first and as applicable, the Owner/Applicant shall submit a signed and notarized Indemnification Agreement to the Office of County Counsel-Risk Management for review and signature by the County.

Proof of recordation of the Indemnification Agreement, as outlined, shall be submitted to the Office of County Counsel-Risk Management

20. PW0044 - CONSTRUCTION MANAGEMENT PLAN

Plan Area: Del Monte Forest Land Use Plan
Flagged and Staked: no
CEQA Action: N/A

RECOMMENDATION:

Staff recommends that the Board of Supervisors:

a. Find that the execution of the Conservation and Scenic Easement Deed is categorically exempt under CEQA Guidelines section 15317;
b. Accept a Conservation and Scenic Easement Deed consisting of approximately 5,000 square feet over those proportions of the property with archaeological resources commonly referred to as APN 008-423-017-000 to satisfy a condition of approval related to Planning Commission Resolution 21-002 (File No. PLN190083);
c. Authorize the Chair of the Board of Supervisors to execute the Conservation and Scenic Easement Deed; and
d. Direct the Clerk of the Board to submit the Conservation and Scenic Easement Deed to the County Recorder for filing with all recording fees to be paid by the applicant.

SUMMARY/DISCUSSION:
On March 3, 2023, the Planning Commission adopted Resolution 21-002 approving a Combined Development Permit (PLN190083) allowing for the construction of a new residence. Condition 9 of that approval required the applicant to convey a conservation and scenic easement deed (CSED) to the Del Monte Forest Conservancy over portions of the property potentially containing archaeological resources.

The applicant has submitted the CSED and map showing the general location of the easement on the property, along with the metes and bounds description, both of which are appended to this Report, collectively, as **Attachment B**.

This CSED will satisfy the requirements of the Del Monte Forest Land Use Plan, Condition 9 of Planning Commission Resolution No. 21-002, and will ensure long-term protection of archaeological resources. No development will be allowed within the easement area and the CSED will run with the land and be disclosed to any future property owners.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):
Acceptance of the scenic easement qualifies for a Class 17 categorical exemption under CEQA because it constitutes the acceptance of easements to maintain the open space character of the area (CEQA Guidelines, § 15317).

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel has reviewed the CSED as to form.

FINANCING:
Funding for staff time associated with this project is included in the FY2023-24 Adopted Budget for Housing and Community Development Appropriation Unit HCD002, Unit 8543. All costs associated with maintenance of the CSED will be borne by the project applicant (Grantor) of the easement, not the County of Monterey (Grantee).

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
This action represents effective and timely response to our HCD customers. Processing this application in accordance with all applicable policies and regulations also provides the County accountability for proper management of our land resources.

WHEREAS, the specific resources being protected consist of approximately 5,000 square feet containing archaeological sites; and

WHEREAS, the Grantee, acting on behalf of the People of the State of California and pursuant to the Act, and in accordance with the findings contained in the Resolution granted the Permit to the Grantor upon the condition described above (hereinafter the "Condition") requiring, inter alia, that the Grantor record a conservation easement (hereinafter "Easement") affecting a portion of the Property as described in Exhibits "C-1" and "C-2" attached hereto and hereby incorporated by reference (the "Conservation Area"), and agree to restrict development on and use of the Property so as to preserve the open space, scenic, and/or natural resource values present on the Property and so as to prevent the adverse direct and cumulative effects on coastal resources and public access to the coast which could occur if the Property were not restricted in accordance with this easement; and

WHEREAS, Grantor has elected to comply with the Condition and execute this Easement Deed so as to enable Grantor to undertake the development authorized by the Permit; and

WHEREAS, it is intended that this Easement Deed is irrevocable and shall constitute enforceable restrictions within the meaning of Article XIII, Section 8, of the California Constitution and that the Easement shall thereby qualify as an enforceable restriction under the provision of the California Revenue and Taxation Code, Section 402.1; and

WHEREAS, the said Grantor is willing to execute this Easement Deed for the conservation and scenic use as herein expressed of the Property, and thereby enhance,

protect, preserve, and manage the open space, scenic, and overall natural resource value by the restricted use and enjoyment of the Property by the Grantor through the imposition of the restrictions hereinafter expressed;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Grantor does hereby grant and convey unto Grantee, for the benefit of the People of the State of California, an estate, interest, and archaeological conservation easement in perpetuity for the purpose of protection and resource conservation over the Conservation Area in accordance with the following provisions (the "Easement"); and to that end and for the purposes of accomplishing the intent of the parties hereto, Grantor covenants on behalf of itself, its heirs, successors, and assigns, with the Grantee, its successors and assigns, to do and refrain from doing severally and collectively upon the Conservation Area the various acts hereinafter mentioned.

A. PROPERTY SUBJECT TO EASEMENT. The portion of the Property of the Grantor hereinabove referred to and to which the provisions of this instrument apply is situated in the County of Monterey, State of California, and is particularly described and depicted in Exhibits "C-1" and "C-2", attached hereto, and made part hereof, and is the Conservation Area, consisting of that portion of the Property that contains archaeological resources as identified by the Esselen Tribe of Monterey County ("ETMC") and the project archaeologists, Gail Bellenger of EMC Planning Group Inc. and Sue Morley. Angle points of easement boundaries shall be permanently marked or monumented with surveyors' pipe or similar so that the Conservation Area can be easily identified.

B. RESTRICTIONS. Upon recordation of this Easement Deed and thereafter in perpetuity, the use of the Conservation Area shall be limited to natural open space for habitat protection and resource conservation uses. No "development" (as defined in Section 20.06.310 of the LCP), including, but not limited to, removal of trees and other major or native vegetation, grading, paving, installation of structures such as signs, buildings, etc., and no grazing or agricultural activities shall occur or be allowed on the Conservation Area with exception of the following (subject to compliance with any applicable governmental regulatory requirements):

1. Grantor has the right to conduct shallow soil maintenance of the landscaping within the Conservation Area and above the protective resource cap implemented as part of the Permit's landscape plan.

2. Grantor has the right to utilize and maintain the existing and approved landscaping within the Conservation Area as a regular part of landscape maintenance, including control of exotic and invasive plants species.

3. Grantor has the right to maintain all existing and authorized future driveways, parking pads, elevated walkway, paths, and structures upon the Conservation Area, and the right to restore, renovate, and maintain the Conservation Area, in accordance with the conditions of the Permit.

4. Grantor has the right to the construction, maintenance, repair, and use of public service and utility lines, pipes, and transmission facilities (including those for gas, electricity, telephone, water, treated wastewater irrigation, sewer, and cable television), and facilities for drainage and erosion and sedimentation control.

5. Grantor shall not plant nor permit to be planted any vegetation upon the Conservation Area except plants native to Del Monte Forest, and/or vegetation specified in the Permit. Periodic efforts to control invasive non-native plants within the Conservation Area shall be undertaken.

6. Except for the construction, alteration, relocation, and maintenance of driveways, parking pads, elevated walkway, paths, and structures allowed by the Permit, no use of the Conservation Area which will or does materially alter the landscape or other attractive scenic features of said area other than those specified above shall be done or suffered.

7. Grantor shall have the use and occupancy of the Conservation Area not inconsistent with the conditions and restrictions herein imposed.

8. Grantor shall provide Grantee with copies of all Site and Construction Plans (e.g. Site, Grading, Utility, Drainage, Erosion Control and Landscape plans, etc.) showing the location of existing and proposed facilities and of the materials, and specifications for proposed grading and construction within and immediately adjacent to the Conservation Area. An advance notice is required from Grantor to Grantee whenever major maintenance or construction activities will occur within or immediately adjacent to the Conservation Area. Landscape maintenance activities shall not be subject to the advance notice requirement.

C. SUBJECT TO APPLICABLE LAWS. Land uses and development permitted or reserved to the Grantor by this instrument shall be subject to all applicable laws regulating the use of land.

D. BENEFIT AND BURDEN. This Easement shall run with and burden the Conservation Area, and all obligations, terms, conditions, and restrictions hereby imposed shall be deemed to be covenants and restrictions running with the land and shall be effective limitations on the use of the Conservation Area from the date of recordation of this document and shall bind the Grantor and all of its successors and assigns. This Easement shall benefit Grantee on behalf of the People of the State of California and its successors and assigns forever.

E. RIGHT OF ENTRY. The Grantee, or its agents may enter onto the Property to ascertain whether the use restrictions set forth above are being observed at times reasonably acceptable to the Grantor.

F. ENFORCEMENT. Any act or any conveyance, contract, or authorization, whether written or oral, by the Grantor which uses or would cause to be used or would permit use of the Conservation Area contrary to the terms of this Easement will be deemed a breach hereof. The Grantee may bring any action in court necessary to enforce

this Easement, including, but not limited to, injunction to terminate a breaching activity and to force the restoration of all damage done by such activity, or an action to enforce the terms and provisions hereof by specific performance. It is understood and agreed that the Grantee may pursue any appropriate legal and equitable remedies. The Grantee shall have sole discretion to determine under what circumstances an action to enforce the terms and conditions of this of Easement Deed shall be brought in law or in equity. Any forbearance on the part of the Grantee to enforce the terms and provisions hereof in the event of a breach shall not be deemed a waiver of Grantee's rights regarding any subsequent breach.

G MAINTENANCE. The Grantee shall not be obligated to maintain, improve, or otherwise expend any funds in connection with the Conservation Area or any interest or easement created by this Easement Deed. All costs and expenses for such maintenance, improvement, use, or possession shall be borne by the Grantor, except for costs incurred by Grantee for monitoring compliance with the terms of this Easement.

H. LIABILITY AND INDEMNIFICATION. This conveyance is made and accepted upon the express condition that the Grantee, and its agencies, departments, officers, directors, agents, employees, and authorized volunteers are to be free from all liability and claim for damage by reason of any injury to any person or persons, including Grantor, or property of any kind whatsoever and to whomsoever belonging, including Grantor, from any cause or causes whatsoever, except matters determined to be caused by the sole negligence of the Grantee while in, upon, or in any way connected with the Conservation Area, Grantor hereby covenanting and agreeing to indemnify and hold harmless the Grantee, and its agencies, departments, officers, directors, agents, employees, and authorized volunteers from all liability, loss, cost, and obligations on account of or arising out of such injuries or losses however occurring. The Grantee shall have no right of control over, nor duties and responsibilities with respect to the Conservation Area which would subject the Grantee to any liability occurring upon the Conservation Area by virtue of the fact that the right of the Grantee to enter the Conservation Area is strictly limited to preventing uses inconsistent with the interest granted, the Property is not "property of a public entity" or "public property," and Grantee's rights herein do not include the right to enter the Property or Conservation Area for the purposes of correcting any "dangerous condition" as those terms are defined by California Government Code Section 830.

I. TRANSFER OF TITLE. Grantor shall have the absolute right to transfer its right, title, and interest in and to all or any portion of the Conservation Area and upon such a transfer the transferee, by acceptance of the deed (whether or not so stated in the deed), shall have assumed and shall be obligated to perform all of the covenants of Grantor under this Easement Deed and shall have all of the rights and obligations of and be deemed to stand in the place of the Grantor for all purposes under this Easement Deed, with respect to the land transferred; and upon such a transfer Grantor shall be fully relieved and discharged from all of Grantor's obligations under this Easement Deed with respect to the land transferred.

J. ASSIGNMENT.

1. Grantor shall have the right to assign its rights or delegate its obligations under this Easement Deed, in whole or in part. No such assignment or delegation by Grantor, however, shall relieve the owner or owners of the Conservation Area from the obligations to perform the covenants in this Easement Deed, and such covenants shall continue as covenants running with the land as specified in Paragraph D above.

2. Grantee shall have the right to assign its rights and delegate its obligations under this Easement Deed, but only to a public agency or private entity which agrees to accept such rights and assume such obligations and is approved in writing in advance by the Grantor. Grantee shall not abandon the Easement, but may assign the Easement in accordance with the preceding sentence.

K. PUBLIC ENTRY AND USE OF ROADS IN DEL MONTE FOREST. This Easement Deed does not authorize access to or use of the Property (including Conservation Area) by members of the public. The road system of Del Monte Forest is privately owned by Pebble Beach Company, and the use of the roads in Del Monte Forest is by permission of Pebble Beach Company and subject to the payment of a fee for motor vehicle use and rules and regulations imposed by Pebble Beach Company so long as they are consistent with the LCP and permits to which Pebble Beach Company is subject.

L. SUCCESSORS AND ASSIGNS. The terms, covenants, conditions, exceptions, obligations, and reservations contained in this conveyance shall be binding upon and inure to the benefit of the successors and assigns of both the Grantor and the Grantee, whether voluntary or involuntary.

M. SEVERABILITY. If any provision of this Easement Deed is held to be invalid or for any reason becomes unenforceable, no other provision shall be thereby affected or impaired.

N. AMENDMENT/MODIFICATION. This Easement Deed may be amended, modified, or changed only with the written consent of the Grantor and the Grantee. In addition, an amendment to the Permit may be required, if necessary, as determined by the Grantee. Any amendment of this Easement Deed without the written consent of all three entities and any necessary amendment to the Permit shall be void and of no effect.

[PLN190083, **GREEN, JASON E & ANN W TRS**, 3334 17-Mile Drive, Pebble Beach, Del Monte Forest Land Use Plan (APN: 008-423-017-000)]

The Green application (PLN190083) for a Combined Development Permit to allow the construction of an addition to an existing single family dwelling and new garage came on for public hearing before the Monterey County Planning Commission on 24 February 2021. Having considered all the written and documentary evidence, the administrative record, the staff report, and other evidence presented, the Planning Commission finds and decides as follows:

FINDINGS

1. **FINDING:** **CONSISTENCY** – The project, as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development.

EVIDENCE:

a) During the course of review of this application, the project has been reviewed for consistency with the text, policies, and regulations in the:
   - *1982 Monterey County General Plan*;
   - Del Monte Forest Land Use Plan (LUP);
   - Coastal Implementation Plan (CIP) Part 5; and
   - Monterey County Zoning Ordinance (Title 20)

   No conflicts were found to exist.

b) The 2.03-acre (88,248 sf) property is located at 3334 17-Mile Drive, Pebble Beach (Assessor's Parcel Number 008-423-017-000), Del Monte Forest LUP. The parcel is zoned "LDR/1.5-D(CZ)", or Low Density Residential, maximum gross density of 1.5 acres per unit in the Coastal Zone with a Design Control Overlay. A single-family residence is a principal use allowed within this zone and there is no change to this residential use.

c) The existing residence is built on a site within 750 feet of known positive archaeological resources. Pursuant to the Coastal

Implementation Plan Chapter 20.147.080 of Monterey County Zoning ordinance (Title 20) for the Del Monte Forest Land Use Plan, an archaeological report is required. Four archaeological assessments (File Nos. LIB200139, PLN190324, and LIB200138, LIB200099) were prepared by two separate archaeologists, Susan Morley and Gail Bellenger, two each respectively. All reports identify mitigations to reduce potential impacts to less than significant (See Findings 2 and 6)

d) The project is consistent with DMF LUP Key Policy on Cultural Resources to incorporate all site planning and design features to avoid impacts to archaeological resources because no construction or grading is located directly within the known boundary of the positive resources on the site. Condition No. 10 is a mitigation measure requiring implementation of a Protective Fencing Plan developed in consultation with qualified archaeologist and approved by HCD-Planning prior to issuance of permits. See Finding 6.

e) In accordance with Section 20.14.030.F of Title 20, this application includes a request for a Coastal Development Permit (CST) to allow development on a site with a report of positive archaeological resources. The project proposes a minor addition to an existing detached accessory structure and two in-ground spas a minimum of approximately 100 feet from the area of known archaeological resources. The project includes construction of a detached 3-car garage at an existing paved area bound by railroad tie terraces, the installation of which caused disturbance of the resources, prior to adoption of the DMF CIP, Part 5 in 2012. Mitigations are applied to the project to reduce to less than significant potential impacts to archaeological resources. See Finding 6. Therefore, staff supports issuance of a CST in this case.

f) Pursuant to Section 20.147.080.C.3 of the DMF CIP, Part 5, development on parcels positive for archaeological resources are subject to conditions of approval that require 1) the applicant request a rezoning of the parcel to add a Historical or Archaeological Resources ("HR") overlay (Condition No. 13), and 2) a conservation easement be placed over the area of archeological resources (Condition No. 8).

g) Pursuant to 20.44.020 of Title 20, the parcel is in the Design Control Zoning ("D") District requiring architectural compatibility and consistency of neighborhood character. The colors and materials of the garage are consistent with the other structures on the parcel and with the overall character of the neighborhood. Parcels within a "D" District are required to stake and flag the project plan to illustrate its proposed mass and form. However, staking and flagging occurring without the benefit of either an archaeological or tribal monitor, of structures located not to be visible from any public viewing, brought staff to the decision not to require storypoles.

h) The project includes installation of pervious paving that reduces an existing 19,937 square feet of impervious surfaces to 8,858 square feet. This brings the parcel into conformance with Del Monte Forest LUP Policy 77 of Chapter 3 that requires no more than 9,000 square feet of impervious surface coverage.

i) The existing 742 sq. ft. guesthouse will be remodeled as a 388 sq. ft. guesthouse bringing the structure into floor area compliance with 20.64.020 of Title 20 that requires a guesthouse have no more than 425 sq. ft of livable floor area. Condition No. 15 requires the applicant/owner record a deed restriction on the guesthouse that discloses to current and future owners applicable regulations.

j) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN190083.

2. **FINDING:** **SITE SUITABILITY** – The site is physically suitable for the use proposed.

EVIDENCE: a) The project has been reviewed for site suitability by the following departments and agencies: HCD-Planning, HCD-Environmental Services, Pebble Beach Community Services District (PBCSD), HCD-Public Works, Facilities, and Parks (PWFP), and Environmental Health Bureau (EHB). There has been no indication from these departments/agencies that the site is not suitable for the proposed development. Conditions recommended have been incorporated.

b) The following technical reports were prepared:

- "Revised Preliminary Cultural Resources Reconnaissance" (LIB190324) prepared January 2019 by Susan Morley, M.A., Marina, CA
- "Auger Testing and Mitigation Measures" (LIB200139) prepared January 2020 by Susan Morley, M.A., Marina, CA
- "Archaeological Investigation" (LIB200099) prepared 5 June 2020 by Gail Bellenger of EMC Planning Group, Inc., Monterey, CA
- "Archaeological Investigation" (LIB200138) prepared 17 June 2020 by Gail Bellenger of EMC Planning Group, Inc., Monterey, CA

The abovementioned technical reports by outside consultants indicate there are no physical or environmental constraints that render the site unsuitable for the use proposed. Staff has independently reviewed the reports and concurs with their conclusions.

c) The subject parcel is in the Pescadero watershed which drains into the Carmel Area of Special Biological Significance (ASBS) and the project was reviewed by HCD-Environmental Services (ES). HCD-ES reviews implementation and operation of a project in terms of drainage, erosion, runoff, and sedimentation, for assessment of need for collection, filtration, and treatment. The parcel is fully developed and the new 799-ft structure is sited on an existing asphalt-paved parking area while the minor 350 square foot addition that would not require alteration or improvements to the existing systems. Therefore, the project would not diminish the quality of drainage into the Carmel ASBS pursuant to DMF CIP, Part 5 Section 20.147.030 that provides development standards for construction in the Pescadero watershed.

d) The subject property receives fire protection services from PBCSD which applies Condition No. 6 for requirements to ensure deployment of fire protection can be accommodated at the site.

e) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN190083.

3. **FINDING:** **HEALTH AND SAFETY** - The establishment, maintenance, or operation of the project applied for will not under the circumstances of this particular case be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use, or be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County.

EVIDENCE: a) The project was reviewed by the HCD-Planning, Pebble Beach Community Services District, HCD-Public Works, HCD-Environmental Services, and Environmental Health Bureau. The respective agencies have recommended conditions, where appropriate, to ensure that the project will not have an adverse effect on the health, safety, and welfare of persons either residing or working in the neighborhood.

b) Staff confirmed on Google Earth that the site is suitable for this residential use.

c) The application, plans and supporting materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN190083.

4. **FINDING:** **NO VIOLATIONS** - The subject property is in compliance with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property.

EVIDENCE: a) Staff reviewed Monterey County HCD-Planning and HCD-Building Services records and is not aware of any violations existing on the subject property.

b) The application, plans and supporting materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN190083.

5. **FINDING:** **CEQA (Mitigated Negative Declaration):** The Planning Commission finds, on the basis of the whole record before it, there is no substantial evidence the project will have a significant effect on the environment, and the Mitigated Negative Declaration reflects the County's independent judgment and analysis.

EVIDENCE: a) Pursuant to California Environmental Quality Act (CEQA) Guidelines §15063(a), an Initial Study (IS) may be conducted to determine if a proposed project would have a significant impact on the environment. Staff has prepared a Mitigated Negative Declaration for the proposed project.

b) Pursuant to §15070(b) of CEQA Guidelines, a mitigated negative declaration may be prepared for a project when the Initial Study

identifies potential environmental impacts. The Initial Study identified potential impacts to Archaeological Resources and Tribal Cultural Resources.

c) Proposed mitigations that would reduce potential impacts to less than significant have been agreed upon by the applicant.

d) There is no substantial evidence in light of the whole record that the project, as mitigated, would have significant adverse effect on the environment.

e) The IS for the Green (PLN190083) application was circulated for public review 9 October to 9 November 2020.

f) The custodian of documents and materials which constitute the record of proceedings upon which the decision is based is the County Resource Management Agency, 1441 Schilling Place South, 2nd floor, Salinas, California.

g) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN190083.

6. **FINDING:** **INITIAL STUDY – POTENTIAL ENVIRONMENTAL IMPACTS LESS THAN SIGNIFICANT WITH MITIGATIONS**

The Initial Study identifies mitigations that could reduce potentially significant impacts to less than significant for cultural resources and tribal cultural resources. Implementation of recommended mitigations could reduce potential impacts to less than significant. Therefore, adoption of the Mitigated Negative Declaration is required prior to implementation of the project.

a) The parcel is located within 750 feet of known archaeological resources, requiring a Phase 1 archaeological resources study that resulted in a positive report (midden) prepared by Susan Morley in January 2019 (LIB190324) and recommendation for further study for resources via auger testing that was executed by Morley in January 2020 (LIB200139). A separate archaeological study by Gail Bellenger of EMC Planning Group, Inc. (LIB200138) concludes that after a meeting at the site with Esselen Tribesperson Tom Nason and archaeologist Susan Morley, there was agreement that further archaeological study would be unnecessary due to the fact the new garage is proposed in a previously disturbed and paved area. However, given adjacency of the new garage site to the positive archaeological resource area, intact deposits or important features could be uncovered during implementation of the project. Morley's Auger Testing evaluation recommends precise delineation of the midden prior to any ground disturbance (Condition No. 9) and that both a qualified archaeologist (Condition No. 11 - MM No. 2) and a Tribal representative (Condition No. 12 - MM No. 3) monitor all ground-disturbing activities.

b) Implementation of the project has potential to result in substantial adverse changes to the significance of tribal cultural resources if such resources were exposed or damaged during construction. Pursuant to AB 52, tribal consultation took place regarding the proposed project with a final response provided by the Esselen Tribe

which requested onsite consultation prior to any soil-disturbing activities and that a professional archaeologist and a Native American monitor be present onsite during any ground disturbance for the project. Response from the Costanoan Ohlone Rumsen-Mutsun Tribe recommends that no Native American cultural sites be disturbed. Archaeological reports that conclude intact deposits or important features could be uncovered during implementation of the project along with responses from area tribes are sufficient evidence to support mitigation through monitoring. To ensure tribal cultural resources incur less than significant impacts, a Tribal Monitor is required as Mitigation Measure No. 3 (Condition No. 12).

c) The Initial Study for the project provides mitigation measures that reduce impacts to less than significant for archaeological resources and tribal cultural resources, and that are included as Conditions of Approval.

7. **FINDING:** **PUBLIC ACCESS** - The project is consistent with the ordinances related to public trust or public use, and is in conformance with the public access and public recreation policies of the Coastal Act and Local Coastal Program pursuant to 20.147.130 of Monterey County Code Title 20 Coastal Implementation Plan Part 5 for the Del Monte Forest Land Use Plan.

EVIDENCE:

a) The subject parcel is seaward of the first public road. Therefore, in accordance with Section 20.70.050.B.4 of Title 20 Zoning Code for Monterey County Coastal Zone, the project is required to be in conformance with public access and public recreation policies of the Coastal Act.

b) **20.70.050.B.4.a – *Protection of Historic Access and/or Public Trust.*** There is no established trail or use area, nor any beach subject to ocean waves seaward of the first line of vegetation on the subject parcel. Therefore, implementation of the addition and new garage would not interfere with any form of historic public use or trust rights.

c) **20.70.050.B.4.b – *Provision of Public Access.*** Public access to the beach is not appropriate due to being contiguous with other residential parcels to the east and west, and Pebble Beach Golf Course at the southern boundary that do not accommodate access to the beach.

d) **20.70.050.B.4.c(i) – *Application of Access Requirements to Single Family Residential Development.*** The subject parcel is not characterized by any historic access, public trust, recreational value of, or accessibility to, the public beach, trails, recreation areas, or recreation support areas. Therefore, public access shall not be required.

8. **FINDING:** **APPEALABILITY** - The decision on this project may be appealed to the Board of Supervisors and to the California Coastal Commission (CCC).

a) Board of Supervisors. Section 20.86.030 of the Monterey County Zoning Ordinance (Title 20). An appeal may be made to the Board of Supervisors by any public agency or person aggrieved by a

decision of an Appropriate Authority other than the Board of Supervisors.

b) California Coastal Commission (CCC). The subject parcel is located between the sea and the first through public road paralleling the sea. Therefore, in accordance with Section 20.86.080.A.1 of Title 20, a decision on this project may be appealed to the CCC after exhausting all County appeals, or by any two members of the CCC following decision of the Planning Commission.

1. Adopt a Mitigated Negative Declaration;
2. Approve a Combined Development Permit consisting of:
   a) Coastal Development Permit and Design Approval to allow construction of a new detached 799 sf garage, and 350 sf addition to the existing garage for conversion to a detached 1,810 sf gym/guesthouse/art studio, and

9. PD003(B) - CULTURAL RESOURCES POSITIVE ARCHAEOLOGICAL REPORT

Responsible Department: RMA-Planning

Condition/Mitigation Monitoring Measure: To determine the boundaries of the shell midden, a shovel test pit excavation of a one by one meter, or two meters by one meter transect shall be conducted where auger testing from Morley's report December 2019 (File No. LIB200139) indicates location of the significant, intact midden deposit.

Excavated soils and materials shall be passed through 1/8 inch mesh screen. Materials remaining in the screen shall be transported to a laboratory for wet screening, utilizing 1/8 to 1/16 inch mesh screens. Following drying and sorting, the appropriate analysis shall be completed to include professional analyses of faunal remains, shell, lithics, groundstone, and flaked stone. A minimum of three radiocarbon dates and other appropriate dating techniques shall be employed.

If archaeological resources or human remains are accidentally discovered during construction, the following steps will be taken:

There shall be no further excavation or disturbance of the site or any nearby area reasonably suspected to overlie adjacent human remains until the coroner of the county in which the remain are discovered must be contacted to determine that no investigation of the cause of death is required.

If the coroner determines the remains to be Native American:
- The coroner shall contact the Native American Heritage Commission and RMA - Planning within 24 hours.
- The Native American Heritage Commission shall identify the person or persons from a recognized local tribe of the Esselen, Salinan, Costonoans/Ohlone and Chumash tribal groups, as appropriate, to be the most likely descendant.
- The most likely descendant may make recommendations to the landowner or the person responsible for the excavation work, for means of treating or disposing of, with appropriate dignity, the human remains and any associated grave goods as provided in Public Resources Code Section 5097.9 and 5097.993, Or

Where the following conditions occur, the landowner or his authorized representatives shall rebury the Native American human remains and associated grave goods with appropriate dignity on the property in a location not subject to further subsurface disturbance:

1. The Native American Heritage Commission is unable to identify a most likely descendant or the most likely descendant failed to make a recommendation within 24 hours after being notified by the commission.
2. The descendant identified fails to make a recommendation; or
3. The landowner or his authorized representative rejects the recommendation of the descendant, and the mediation by the Native American Heritage Commission fails to provide measures acceptable to the landowner.

Prior to the issuance of grading or building permits, the Owner/Applicant shall include requirements of this condition as a note on all grading and building plans.

Prior to Final, the Owner/Applicant, shall submit to HCD-Planning a report or letter from the archaeologist summarizing methods, findings, and recommendations.

10. PDSP001 - Mitigation Measure (MM) No. 1 - PROTECTIVE FENCING

Responsible Department: RMA-Planning

The owner/applicant, in consultation with a qualified archaeologist, shall develop a Protective Fencing Plan (PFP), submit said fencing plan to HCD-Planning for review and approval.

Owner/applicant/contractor shall incorporate the approved PFP within the approved set of job site and office copy construction plans for grading and/or building.

The approved PFP shall incorporate the following components:
- A project site plan clearly delineating resource areas to be protected, all locations where protective fencing shall be installed, and identify the protective fencing materials to be used.
- A signature and statement from the project archaeologist certifying that the protective fencing plan is consistent with MM No. 1.
- Protective fencing materials shall consist of chain link, snowdrift, hay bales, or mesh/field fencing (with openings greater than 1-inch and consistent with the California Coastal Commission 2012 bulletin on Wildlife-Friendly Plastic-Free Netting in Erosion and Sediment Control Products). If hay bales are used, bales shall be composed of sterile of clean straw, e.g. rice straw, free of seed and weed elements and certified as weed-free by the hay vendor.

11. PDSP002 - Mitigation Measure (MM) No. 2 - QUALIFIED ARCHAELOGICAL MONITOR

Responsible Department: RMA-Planning

Condition/Mitigation Monitoring Measure: A qualified archaeological monitor (i.e., an archaeologist registered with the Register of Professional Archaeologists [RPA] or a Registered Archaeologist [RA] under the supervision of an RPA) shall be present during soil disturbance for all grading and excavation. If at any time, potentially significant archaeological resources or intact features are discovered, the monitor shall temporarily halt work until the find can be evaluated by the archaeological monitor. If the find is determined to be significant, work shall remain halted until a plan of action has been formulated, with the concurrence of HCD-Planning, and implemented.

Owner/applicant shall enter into a contract with a qualified archaeological monitor and submit the signed contract to HCD-Planning for review and approval. Should HCD-Planning find the contract incomplete or unacceptable, the contract will be returned to the owner/applicant and a revised contract shall be re-submitted for review and approval. The contract shall include, though not be limited to, the following:

- Pre-construction meeting agenda with specific construction activities that the monitor shall be present for, any construction activities for which the archaeological monitor will not be present, how sampling of the excavated soil will occur, and any other logistical information such as when and how work on the site will be halted.
- Provisions requiring the monitor be present during soil disturbance for all grading and excavation, and authorizing the monitor to stop work in the event resources are encountered.
- Cultural Resource Awareness and Response Training for construction personnel prior to the commencement of any grading or excavation activity. The training shall include a description of the kinds of cultural and tribal cultural resources that are found in the area, protocols to be used in the event of an unanticipated discovery, and the importance of cultural resources to the Tribal community.
- Preparation of a report by the monitor suitable for compliance documentation to be prepared within four weeks of completion of any data recovery field work.

Data recovery shall be implemented during the construction and excavation monitoring. If intact archaeological features are exposed, these shall be screened for data recovery using the appropriate method for site and soil conditions. The owner/applicant shall allow the onsite Tribal monitor (See Mitigation Measure No. 3) an opportunity to make recommendations for the disposition of potentially significant archaeological materials found. To facilitate data recovery of smaller midden components, such as beads or lithic debitage, the excavated soil from the project site shall be screened during monitoring.

A final technical report shall be prepared within one year following completion of field work if archaeological resources are uncovered and data recovery is executed. This report shall contain results of all analyses implemented throughout Mitigation Measure Nos. 2 and 3.

Artifacts associated with a finding of human remains shall be reburied in accordance with State Law and penalty for violation pursuant to PRC section 5097.994.

Compliance or Monitoring Action to be Performed:

Mitigation Measure Action (MMA) No. 2.a:
Prior to issuance of permits from HCD-Building Services, the owner/applicant shall include a note on the construction plans (each of the demolition and grading sheets) encompassing the language contained in Mitigation Measure No. 2, including all compliance actions. The owner/applicant shall submit said plans to HCD-Planning for review and approval.

Mitigation Measure Action (MMA) No. 2.b:
Prior to issuance of permits from HCD-Building Services, the owner/applicant shall submit to HCD-Planning a copy of the signed contract between the owner/applicant and a qualified archaeological monitor.

Mitigation Measure Action (MMA) No. 2.c:
Prior to any project ground disturbance, the owner/applicant shall submit to HCD-Planning evidence that a qualified archaeologist conducted a Cultural Resource Awareness and Response Training.

Mitigation Measure Action (MMA) No. 2.d
If during ground disturbance, archaeological resources are uncovered, work shall be halted on the parcel until the find can be evaluated and a plan of action formulated and implemented, with the concurrence of HCD-Planning.

Mitigation Measure Action (MMA) No. 2.e:
If archaeological resources are uncovered and data recovery is executed, a final technical report shall be submitted to HCD-Planning and to the Northwest Information Center of the California Historical Resources Information System at Sonoma State University within one year following completion of the field work.

12. PDSP003 - Mitigation Measure (MM) No. 3 - TRIBAL MONITOR

Responsible Department: RMA-Planning

Condition/Mitigation Monitoring Measure: To ensure Tribal Cultural Resources incur less than significant impacts, a Tribal Monitor approved by the appropriate tribe traditionally and culturally affiliated with the vicinity of the subject parcel and that has consulted with the County and designated one lead contact person in accordance with AB 52 requirements, or another appropriately NAHC-recognized representative, shall be onsite during project-related grading and excavation to identify findings with tribal cultural significance. This Tribal Monitor shall have the authority to temporarily halt work to examine any potentially significant cultural materials or features. If resources are discovered, the owner/applicant/contractor shall refer to and comply with Mitigation Measures No. 2, as applicable. This mitigation is not intended to alleviate responsibility of the owner or its agents from contacting the County Coroner and complying with State law if human remains are discovered.

Any artifacts found that are not associated with a finding of human remains shall be cataloged by both the Tribal monitor and the qualified archaeological monitor. Once cataloged, the qualified archaeological monitor shall take temporary possession of the artifacts for testing and reporting purposes. Upon completion of these testing and reporting activities, all artifacts, at the discretion of the property owner, shall be returned within one year to a representative of the appropriate local tribe as recognized by the NAHC, or of the Monterey County Historical Society.

5.02 CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.

(Note: any proposed modifications to these insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

DocuSign Envelope ID: 681B4885-79AC-457B-9135-DC33CAA0A5CD

CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

Upon request, County will deliver a copy of said contract to CONTRACTOR, at no cost to CONTRACTOR.

13.0 INDEPENDENT CONTRACTOR:

In the performance of work, duties, and obligations under this Agreement, CONTRACTOR is always acting and performing as an independent contractor and not as an employee of the County. COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Designated Construction Projects:

Those construction projects of the Named Insured when agreed to and required under written contract. However, this coverage only applies for the project specified in that contract.

(If no entry appears above, information required to complete this endorsement will be shown in the Declarations as applicable to this endorsement.)

A. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under COVERAGE A (SECTION I), and for all medical expenses caused by accidents under COVERAGE C (SECTION I), which can be attributed only to operations at a single designated "location" shown in the Schedule above:

   2. The Designated Construction Project General Aggregate Limit is the most we will pay for the sum of all damages under COVERAGE A, except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard", and for medical expenses under COVERAGE C regardless of the number of:
      a. Insureds;

B. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under COVERED A (SECTION I), and for all medical expenses caused by accidents under COVERAGE C (SECTION I), which cannot be attributed only to operations at a single designated construction project shown in the Schedule above:

3.0 TERM OF AGREEMENT:

3.01 The term of this Agreement is from December 2, 2019 to December 1, 2022, unless sooner terminated pursuant to the terms of this Agreement. This Agreement is of no force or effect until signed by both CONTRACTOR and County and with County signing last, and **CONTRACTOR may not commence work before County signs this Agreement.**

3.02 The County reserves the right to cancel this Agreement, or any extension of this Agreement, without cause, with a thirty day (30) written notice, or with cause immediately.

4.0 SCOPE OF SERVICES AND ADDITIONAL PROVISIONS:

The following attached exhibits are incorporated herein by reference and constitute a part of this Agreement:

Exhibit A Scope of Services/Payment Provisions
Exhibit B Other:

5.0 PERFORMANCE STANDARDS:

5.01 CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

5.02 CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

5.03 CONTRACTOR shall furnish, at its own expense, all materials, equipment, and personnel necessary to carry out the terms of this Agreement, except as otherwise specified in this Agreement. 6.0 PAYMENT CONDITIONS:

6.01 Prices shall remain firm for the initial term of the Agreement and, thereafter, may be adjusted annually as provided in this paragraph. The County does not guarantee any minimum or maximum amount of dollars to be spent under this Agreement.

6.02 Negotiations for rate changes shall be commenced, by CONTRACTOR, a minimum of ninety days (90) prior to the expiration of the Agreement. Rate changes are not binding unless mutually agreed upon in writing by the County and the CONTRACTOR.

6.03 Invoice amounts shall be billed directly to the ordering department.

6.04 CONTRACTOR shall submit such invoice periodically or at the completion of services, but in any event, not later than 30 days after completion of services. The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed, and such other information pertinent to the invoice. The County shall certify the invoice, either in the requested amount or in such other amount as the County approves in conformity with this Agreement and shall promptly submit such invoice to the County Auditor-Controller for payment. The County Auditor-Controller shall pay the amount certified within 30 days of receiving the certified invoice.

7.0 TERMINATION:

7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. Such notice shall set forth the effective date of termination. In the event of such termination, the amount payable under this Agreement shall be reduced in proportion to the services provided prior to the date of termination.

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.

(Note: any proposed modifications to these insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, agents, and employees as Additional Insureds with respect to liability arising out of the CONTRACTOR'S work, including ongoing and completed operations, **and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the County and that the insurance of the Additional Insureds shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance.** The required endorsement form for Commercial General Liability Additional Insured is ISO Form CG 20 10 11-85 or CG 20 10 10 01 in tandem with CG 20 37 10 01 (2000). The required endorsement form for Automobile Additional Insured endorsement is ISO Form CA 20 48 02 99.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 **RECORDS AND CONFIDENTIALITY:**

10.1 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.2 **County Records:** When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

10.3 **Maintenance of Records:** CONTRACTOR shall prepare, maintain, and preserve all reports and records that may be required by federal, state, and County rules and regulations related to services performed under this Agreement. CONTRACTOR shall maintain such records for a period of at least three years after receipt of final payment under this Agreement. If any litigation, claim, negotiation, audit exception, or other action relating to this Agreement is pending at the end of the three-year period, then CONTRACTOR shall retain said records until such action is resolved.

10.4 **Access to and Audit of Records:** The County shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. Pursuant to Government Code section 8546.7, if this Agreement involves the expenditure of public funds in excess of $10,000, the parties to this Agreement may be subject, at the request of the County or as part of any audit of the County, to the examination and audit of the State Auditor pertaining to matters connected with the performance of this Agreement for a period of three years after final payment under the Agreement.

10.5 **Royalties and Inventions:** County shall have a royalty-free, exclusive and irrevocable license to reproduce, publish, and use, and authorize others to do so, all original computer programs, writings, sound recordings, pictorial reproductions, drawings, and other works of similar nature produced in the course of or under this Agreement. CONTRACTOR shall not publish any such material without the prior written approval of County.

11.0 NON-DISCRIMINATION:

11.01 During the performance of this Agreement, CONTRACTOR, and its subcontractors, shall not unlawfully discriminate against any person because of race, religious creed, color, sex, national origin, ancestry, physical disability, mental disability, medical condition, marital status, age (over 40), or sexual orientation, either in CONTRACTOR's employment practices or in the furnishing of services to recipients. CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

12.0 COMPLIANCE WITH TERMS OF STATE OR FEDERAL GRANTS:

If this Agreement has been or will be funded with monies received by the County pursuant to a contract with the state or federal government in which the County is the grantee, CONTRACTOR will comply with all the provisions of said contract, to the extent applicable to CONTRACTOR as a subgrantee under said contract, and said provisions shall be deemed a part of this Agreement, as though fully set forth herein. Upon request, County will deliver a copy of said contract to CONTRACTOR, at no cost to CONTRACTOR.

13.0 INDEPENDENT CONTRACTOR:

In the performance of work, duties, and obligations under this Agreement, CONTRACTOR is always acting and performing as an independent contractor and not as an employee of the County. No offer or obligation of permanent employment with the County or County department or agency is intended in any manner, and CONTRACTOR shall not become entitled by virtue of this Agreement to receive from County any form of employee benefits including but not limited to sick leave, vacation, retirement benefits, workers' compensation coverage, insurance or disability benefits. CONTRACTOR shall be solely liable for and obligated to pay directly all applicable taxes, including federal and state income taxes and social security, arising out of CONTRACTOR's performance of this Agreement. In connection therewith, CONTRACTOR shall defend, indemnify, and hold County harmless from any and all liability which County may incur because of CONTRACTOR's failure to pay such taxes.

SUMMARY:
Public Works, Facilities and Parks (PWFP) is the lead for managing the County's Capital Projects and Facilities Maintenance budgets. Often annual Capital Project Funds and Facility budgets require a *true-up* to adjust appropriations for estimates made during budget development in March. This year, the March 2023 storms caused project delays impacting projected budget estimates, and delays with receiving equipment ordered have caused projects to roll into the next fiscal year. The *true-up* does not increase a project's overall budget (revenue or expenditures).

The Capital Projects, Fund 404, is used to account for financial resources and expenditures used for the construction of Board-approved capital facility projects over $1 million. PWFP identified seventeen (17) capital projects that need appropriation modifications totaling $9,523,444. Federal Aid Reimbursements, Building Improvement and Replacement (Fund 478-BIR) Unrestricted Net Position and Capital Projects (Fund 404) Unassigned Fund Balance are the financing sources for the requested appropriation increases.

In Fiscal Year (FY) 2022-2023, $903,000 was allocated from Fund 478-BIR for unscheduled maintenance projects in General Fund - Facility Services. At the end of FY 2022-23, there was $503,067 remaining with several projects in process not yet finalized by June 30, 2023. PWFP requests to use the entire $503,067 remaining allocation for six (6) rollover projects. Building Improvement and Replacement Fund Unrestricted Net Position is the funding source for the unscheduled maintenance allocation. PWFP anticipates bringing forward the Schilling Place Emergency Generator project, which was not completed in FY 2022-23, once the budget estimate is finalized.

Attachment A provides an overview of the FY 2023-24 Adopted Budgets for Fund 404 Capital

Projects and General Fund - Facility Services and the proposed appropriation modifications necessary to complete the projects.

OTHER AGENCY INVOLVEMENT:
This report was reviewed by the County Administrative Office Budget & Analysis Division. This item went to and was supported by the Budget Committee at their October 25, 2023 meeting.

FINANCING:
If approved, the recommended action will modify the FY 2023-24 Adopted Budget, increasing Fund 404, Appropriation Unit PFP057, appropriations by $9,523,444, financed by the Unassigned Fund Balance $3,836,297, Fund 478-BIR Unrestricted Net Position $4,865,213 and Federal Aid Reimbursement $821,934; and General Fund 001, Appropriation Unit PFP054, appropriations by $503,067 financed by Fund 478-BIR Unrestricted Net Position. Approval of the recommendation will not modify overall approved project budgets or require any additional funding from the General Fund. This request will only increase appropriations and revenues to align fiscal year expenditures incurred and revenues earned.

SUMMARY/DISCUSSION:
The staff at Laguna Seca Recreation Area (LSRA) was notified that the County-Wide Master Agreement with Smile Business Products, Inc., (Smile) that expired on June 30, 2023, would not be extended and the need for a separate Agreement specifically for LSRA would now be necessary. The term of the Agreement is July 1, 2023, through December 31, 2024. The Agreement is retroactive due to the amount of lengthy time spent to finalize details with the vendor.

OTHER AGENCY INVOLVEMENT:
The Office of County Counsel and Auditor-Controller's Office reviewed and approved the proposed Agreement as to form and fiscal provisions, respectively. The office of Risk Management reviewed and approved the insurance coverage and limits.

The fees for the services in Fiscal Year 2025 will be included in the upcoming budget for Fiscal Years 2024-2025 for Laguna Seca Recreation Area, unless this Agreement is assumed and assigned to Friends of Laguna Seca, whose separate Concession Agreement was recently approved.

The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. SUMMARY/DISCUSSION:

San Miguel Garbage Co., Inc. (San Miguel) is a solid waste/refuse removal and recycling contractor that has provided services in San Luis Obispo County for over fifty (50) years. It is a family owned and operated business offering a variety of state-of-the-art services including automated waste and recycling collection, green waste recycling programs, transfer and materials recovery, and storage box rentals.

The County executed a Standard Agreement (Agreement) with San Miguel for solid waste and recycling collection services at Lake Nacimiento Resort on March 1, 2019 (Attachment A) and Amendment No. 1 to increase the not to exceed amount on January 4, 2023 (Attachment B). County continues to need the services of San Miguel. Staff confirmed San Miguel remains the only provider serving the geographical area at Lake Nacimiento and there is no alternative service for refuse removal. The proposed Amendment No. 2 will extend the Agreement through February 25, 2029, and increase the not to exceed sum to $885,357 (Attachment C).

Staff requests the Board of Supervisors approve and authorize the Contracts/Purchasing Officer or designee to execute the proposed Amendment No. 2 to the Standard Agreement with San Miguel, extending the term from February 26, 2019 through February 25, 2029, and increase the not to exceed amount to $885,357; and approve and authorize the County Purchasing Officer or designee to execute up to three future amendments to the Agreement where the total amendments do not exceed 10% ($88,535) of the Agreement's not to exceed sum for an aggregate total of $973,893.

OTHER AGENCY INVOLVEMENT:
The Offices of the County Counsel and Auditor-Controller have reviewed and approved Amendment No. 2 as to form and legality and fiscal provisions, respectively.

FINANCING:
The amended total not to exceed amount of the Standard Agreement between the County and San Miguel Garbage Co., Inc. is $885,357, after considering total increase of $467,788 proposed on Amendment No. 2 for the extended agreement term.

There are sufficient appropriations available in the PWFP Adopted Budget in Fiscal Year (FY) 2024 for Lake Nacimiento Resort (Fund 452, Department 3200, Unit 8565, Appropriations Unit PFP060) to cover the additional fees for FY 2024. The proposed not to exceed amount of $467,788 is intended to allow services to continue in future fiscal years.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
The recommended action supports the Board of Supervisors' Strategic Initiatives as indicated below. Providing solid waste containers, and collection of solid waste and recycling generated from camping and use of the property is a required service.

3.01 The term of this Agreement is from February 26, 2019 **to** February 25, 2024 , unless sooner terminated pursuant to the terms of this Agreement. This Agreement is of no force or effect until signed by both CONTRACTOR and County and with County signing last, and **CONTRACTOR may not commence work before County signs this Agreement.**

3.02 The County reserves the right to cancel this Agreement, or any extension of this Agreement, without cause, with a thirty day (30) written notice, or with cause immediately.

4.0 SCOPE OF SERVICES AND ADDITIONAL PROVISIONS.

4.01 The following attached exhibits are incorporated herein by reference and constitute a part of this Agreement:

Exhibit A **Scope of Services/Payment Provisions**

Exhibit B Addition to Section 9.03 of Paragraph 9.0, Insurance Requirements

5.0 PERFORMANCE STANDARDS.

5.01 CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

5.02 CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

CONTRACTOR shall not use County premises, property (including equipment, instruments, or supplies) or personnel for any purpose other than in the performance of its obligations under this Agreement.

6.0 PAYMENT CONDITIONS.

6.01 Prices shall remain firm for the initial term of the Agreement and, thereafter, may be adjusted annually as provided in this paragraph. The County does not guarantee any minimum or maximum amount of dollars to be spent under this Agreement.

6.02 Negotiations for rate changes shall be commenced, by CONTRACTOR, a minimum of ninety days (90) prior to the expiration of the Agreement. Rate changes are not binding unless mutually agreed upon in writing by the County and the CONTRACTOR.

6.03 Invoice amounts shall be billed directly to the ordering department.

6.04 CONTRACTOR shall submit such invoice periodically or at the completion of services, but in any event, not later than 30 days after completion of services. The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed, and such other information pertinent to the invoice. The County shall certify the invoice, either in the requested amount or in such other amount as the County approves in conformity with this Agreement, and shall promptly submit such invoice to the County Auditor-Controller for payment. The County Auditor-Controller shall pay the amount certified within 30 days of receiving the certified invoice.

7.0 TERMINATION.

7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. Such notice shall set forth the effective date of termination. In the event of such termination, the amount payable under this Agreement shall be reduced in proportion to the services provided prior to the date of termination.

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION.

8.01 CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS.

9.01 Evidence of Coverage:

Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 Qualifying Insurers:
All coverage's, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to

the current Best's Key Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Manager.

Workers' Compensation Insurance, if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.

(Note: any proposed modifications to these workers' compensation insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance, if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.

(Note: any proposed modifications to these insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

9.04 Other Requirements:

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, agents, and employees as Additional Insureds with respect to liability arising out of the CONTRACTOR'S work, including ongoing and completed operations, **and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the County and that the insurance of the Additional Insureds shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance.** The required endorsement form for Commercial General Liability Additional Insured is ISO Form CG 20 10 11-85 or CG 20 10 10 01 in tandem with CG 20 37 10 01 (2000). The required endorsement form for Automobile Additional Insured endorsement is ISO Form CA 20 48 02 99.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY.

10.01 Confidentiality. CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.02 County Records. When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

10.03 Maintenance of Records. CONTRACTOR shall prepare, maintain, and preserve all reports and records that may be required by federal, state, and County rules and regulations related to services performed under this Agreement. CONTRACTOR shall maintain such records for a period of at least three years after receipt of final payment under this Agreement. If any litigation, claim, negotiation, audit exception, or other action relating to this Agreement is pending at the end of the three year period, then CONTRACTOR shall retain said records until such action is resolved.

10.04 Access to and Audit of Records. The County shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. Pursuant to Government Code section 8546.7, if this Agreement involves the expenditure of public funds in excess of $10,000, the parties to this Agreement may be subject, at the request of the County or as part of any audit of the County, to the examination and audit of the State Auditor pertaining to matters connected with the performance of this Agreement for a period of three years after final payment under the Agreement.

10.05 Royalties and Inventions. County shall have a royalty-free, exclusive and irrevocable license to reproduce, publish, and use, and authorize others to do so, all original computer programs, writings, sound recordings, pictorial reproductions, drawings, and other works of similar nature produced in the course of or under this Agreement. CONTRACTOR shall not publish any such material without the prior written approval of County.

11.0 NON-DISCRIMINATION.

11.01 During the performance of this Agreement, CONTRACTOR, and its subcontractors, shall not unlawfully discriminate against any person because of race, religious creed, color, sex, national origin, ancestry, physical disability, mental disability, medical condition, marital status, age (over 40), or sexual orientation, either in CONTRACTOR's employment practices or in the furnishing of services to recipients. CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. Upon request, County will deliver a copy of said contract to CONTRACTOR, at no cost to CONTRACTOR.

13.0 INDEPENDENT CONTRACTOR.

13.01 In the performance of work, duties, and obligations under this Agreement, CONTRACTOR is at all times acting and performing as an independent contractor and not as an employee of the County.
