4. Background and Purpose

The objective of this contract is to assist DPR in carrying out its Enforcement Evaluation and Improvement Project (EEIP).

The EEIP, and this contract, will assist DPR in its compliance with the Federal Insecticide Fungicide and Rodenticide Act (FIFRA) statutory requirements pursuant to delegated enforcement authority from U.S. EPA through the three-party Cooperative Agreement¹ between U.S. EPA, DPR and County Agricultural Commissioners and Sealers Association, and Food and Agriculture Code section 2281².

Over the years, the number of enforcement actions, method of submission, level of interaction between the County Agricultural Commissioner (CAC) and DPR staff, detail requested, and the timing of submission has varied considerably. Recently, DPR has determined there is a need to increase communication and collaboration with the CAC in the tracking, development, and preparation of enforcement responses. DPR review of notice of proposed actions and civil penalty action hearing decisions prior to issuance will support and strengthen enforcement and assist the CAC with difficult or complicated enforcement action decisions. In addition, this collaboration will assist DPR in determining whether enforcement actions are warranted at the state level.

The EEIP activities include:

- The collection of complete compliance and enforcement data from the CAC for the purpose of evaluating individuals and businesses licensed by the state to determine if enforcement action is warranted;
- The evaluation of compliance and enforcement data to ensure statewide consistency with DPR policies, regulations and law, and identify trends that will be used to improve outreach and education to licensees; and,
- The improvement of communication and collaboration between DPR and the CAC in the tracking, development, and preparation of enforcement responses as needed to establish and implement county agricultural commissioner enforcement.

The work carried out under this contract includes the collection and submission of historical compliance and enforcement data. DPR will evaluate this data and dialogue with the CAC to determine if the enforcement responses are consistent and

appropriate. In addition, collection and evaluation of several years' worth of compliance and enforcement data coupled with input from the CAC, will highlight chronic violators and allow DPR to pursue statewide enforcement actions against individuals and businesses licensed by the state.
