**5. PERFORMANCE STANDARDS.**

5.01. CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

5.02. CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

## 6. PAYMENT CONDITIONS.

In the event of such termination, the amount payable under this Agreement shall be reduced in proportion to the services provided prior to the date of termination.

7.02. The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. Commercial general liability insurance, including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broadform Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than \$1,000,000 per occurrence.

Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.

☐ Exemption/Modification (Justification attached; subject to approval).

Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, agents, and employees as Additional Insureds with respect to liability arising out of the CONTRACTOR'S work, including ongoing and completed operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the County and that the insurance of the Additional Insureds shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance. The required endorsement form for Commercial General Liability Additional Insured is ISO Form CG 20 10 11-85 or CG 20 10 10 01 in tandem with CG 20 37 10 01 (2000). Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

**1.0**

**PROJECT UNDERSTANDING**

The County of Monterey is in the process of preparing an update to the Moss Landing Community Plan, which is a component of the North County Land Use Plan, Local Coastal Program. In addition, the County is processing several development applications within the planning area. The County desires to have one comprehensive, programmatic EIR prepared that would evaluate the Community Plan Update at a general level and several development or improvement projects at a specific level. The purpose of a programmatic EIR and various facets of the overall proposed project are discussed below.

**1.1 PROGRAM EIR**

CEQA Guidelines section 15168 states that a program EIR is an EIR that may be prepared on a series of actions that can be characterized as one large project and are related either 1) geographically, 2) logical parts in the chain of contemplated actions, 3) in connection with issuance of rules, regulations, plans, or other general criteria to govern the conduct of a continuing program, or 4) as individual activities carried out under the same authorizing statutory or regulatory authority and having generally similar environmental effects that can be mitigated in similar ways.

The advantages of a program EIR can 1) provide for a more exhaustive consideration of effects and alternatives than would be practical in an EIR on an individual action, 2) ensure consideration of cumulative impacts that might be slighted in a case-by-case analysis, 3) avoid duplicative reconsideration of basic policy considerations, 4) allow the lead agency to consider broad policy alternatives and program-wide mitigation measures at an early time when the agency has greater flexibility to deal with basic problems or cumulative impacts, and 5) allow reduction in paperwork.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **1.2 MOSS LANDING COMMUNITY PLAN UPDATE**

The Moss Landing Community Plan Update will be prepared by County staff. To assist with this effort, the County has retained Applied Development Economics (ADE) to conduct an economic development study. According to the RFP, the focus of the update will be to remove and replace out of date references, address policies that were applicable in the past but require revisions in response to changed circumstances, update the manner in which the Community Plan treats utility infrastructure including the need to address water availability, updating the sewer allocation system to accommodate existing and proposed development and allow for future development on land that has been granted land use, address Highway 1 circulation needs, address Periodic Review comments made by the California Coastal Commission, and update the design guidelines for the Community Plan. As enumerated in the RFP, specific modifications include the following: changes to the Land Use Map in four locations; revisions to land use designations in three locations; updating the design guidelines that are sensitive to the existing character of the community (all for expanded styles of historic architecture); revisions to the infrastructure plans associated with sewer, water, pedestrian and bicycle circulation, traffic, street lights, and wireless communications; and expand the Urban Services Boundary to include the Moss Landing Business Park, the Moss Landing Power Plant, and Moss Landing Switch Yard.

In addition to the specific development/improvement projects discussed in the next section, the following levels of development were considered in the Community Plan Update committee meetings:

- North Harbor
  - 130 motel rooms
  - 100-seat restaurant
  - Retail buildings (10,000 square feet)
- The Island
  - Commercial buildings (20,000 square feet)
- The Downtown
  - 20 residential units
  - 150-seat restaurant
  - Commercial buildings (10,000 square feet)
  - 30-unit motel

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

Planning within the downtown area would include diversification of land uses, and may include, but not be limited to the following:

- a. 20 residential units;
- b. 150-seat restaurant;
- c. 10,000-square feet of commercial space;
- d. 30-unit motel;
- e. bed and breakfast opportunities; and

This property is the old National Refractories site, which is located east of SR 1. It currently consists of approximately 295,687 square feet of existing, enclosed buildings and the County approved the development of a new 70,060 square foot warehouse in July 2008. This approval is currently on appeal at the Coastal Commission. The Community Plan Update is anticipated to include up to 400,000 square feet in additional buildings; however, this number has yet to be finalized for the draft Community Plan Update. Approved and anticipated uses include Coastal Dependent and Coastal Related Heavy Industrial Uses.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **1.3 DEVELOPMENT/IMPROVEMENT PROJECTS**

In addition to evaluating the environmental impacts of buildout of the Community Plan Update at a general level, the EIR would evaluate the following projects to a degree of specificity involved with the underlying activity. At the time of preparation of this proposal, no details beyond the information presented below about individual development projects were available. Although the team has attempted to identify the environmental issues that may be associated with these projects, any additional project details not included herein, may require revisions to the scope of work.

The EIR would focus on the following environmental issues. Methodologies for addressing the environmental issues are discussed.

## **2.1 AESTHETICS**

The community of Moss Landing is located within a unique coastal setting. The impacts associated with buildout of the Community Plan update will be generally analyzed and the detailed specific development projects will be analyzed in more detail. Determination of significance of impacts will be based upon Monterey County and Coastal Act policies.

## **2.2 AGRICULTURAL RESOURCES**

The EIR will consider the potential impacts to existing farmland to the south at the existing agricultural/residential interface along the southern boundary of the plan area along Potrero Road as well east of the plan area behind the power plant and industrial park.

## **2.3 AIR QUALITY AND CLIMATE CHANGE**

### **Air Quality**

EMC Planning Group Inc. will prepare an air quality analysis that looks at buildout of the Community Plan Update at a programmatic level and each of the defined development projects at a project level. Each “project” will be evaluated consistent with the Monterey Bay Unified Air Pollution Control District CEQA Guidelines for demolition, construction, and operations.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **Climate Change**

A project's contribution to climate change is now addressed in the CEQA process. A greenhouse gas emissions analysis will be conducted using the methodology recommended by the State Office of Planning & Research.

EMC will conduct the following tasks to analyze the project's contribution to climate change.

1. Present existing policy and regulatory setting (Title 24 Standards/Energy Conservation, AB 1493, Executive Order S-3-05, AB 32, SB 97, proposed CEQA Guidelines revisions, Executive Order S-01-0-7, SB 375) and any efforts under way by the Monterey Bay Unified Air Pollution Control District to address the issue District-wide, and by the County of Monterey to address the issue at a county-wide level.
2. Discuss thresholds of significance or lack thereof.
3. Discuss the science and effects of global warming and the inventories of greenhouse gas emissions.
4. Quantify, to the extent feasible, the project's greenhouse gas emissions.
5. Identify impacts and recommend mitigation measures.

These reports would be included as appendices to the EIR.

## **2.4 BIOLOGICAL RESOURCES**

The Moss Landing area is located within a unique environment, incorporating the Pacific Ocean, a harbor, sand dunes, and the mouth of Elkhorn Slough. The harbor serves as the gateway to the Elkhorn Slough National Estuarine Research Reserve, California's second largest marine wetland. This expansive tidal wetland is an important habitat for terrestrial and marine species, including sea otters, harbor seals, and over 250 resident and migratory bird species. Dune and wetland habitats also provide habitat for a number of rare plants.

For purposes of this EIR, terrestrial and marine resources will be included under the umbrella of the Biological Resources section. Tasks associated with both analyzing both types of resources are included below.

## EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS

### ***Terrestrial Biological Resources***

The following tasks will be implemented to address biological resources within the plan area:

1. Compile and review all available project information, including topographic maps, plan maps indicating the areas of potential effect (i.e., vegetation removal, building envelopes, etc.), and project descriptions. Conduct peer review of the Biological Survey prepared by Rana Creek Habitat Restoration dated October 10, 2008 and the Biotic Assessment by Assegued & Associates.
2. Conduct a background data search to determine biological resources known to occur in the vicinity of the plan area. These data will be obtained from the Inventory of Rare and Endangered Vascular Plants of California (California Native Plant Society, 2001), the California Department of Fish and Game (CDFG) Natural Diversity Data Base (CNDDDB), lists from CDFG and U. S. Fish and Wildlife Service, and biological inventories conducted on adjacent properties, if available.
3. Conduct a reconnaissance-level field survey of the plan area and with a focus on the three project areas in order to (1) identify and map the principal plant communities, (2) assess the potential for special-status species and their habitats, wildlife movement corridors, potential jurisdictional wetlands, protected trees, and other significant biological resources to occur in the project area, and (3) identify and map any observed locations of special-status species and/or sensitive habitats occurring in the project area.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

4. Prepare biological resources section of the EIR analyzing the Community Plan as a whole as well as each of the three specific projects. This section will include a description of existing habitats and plant and animal species found and the occurrence of and/or potential for special-status species and their habitats. Maps will be prepared illustrating habitat types and the location(s) of special-status species occurring in each of the three project areas, if necessary. Potential impacts to biological resources will be identified, and mitigation measures will be provided to minimize potential impacts to the extent possible.

**Note:** Focused or protocol-level surveys for animal species are not included in this proposed scope of work. The presence or absence of certain species can be determined during the reconnaissance-level site assessment. If appropriate habitat for special status species is observed during the site assessment, species-specific surveys may be required (i.e., surveys for annual plants not in bloom at the time of the reconnaissance-level survey, protocol-level surveys for special-status wildlife species, etc.).

### ***Marine Biological Resources***

In addition to potential impacts to terrestrial biological resources, impacts to marine resources may also occur. Projects requiring disturbance to ocean environments (such as pier construction or removal) may impact marine mammals, fish, and benthic communities. Marine mammals are protected under the Marine Mammal Protection Act, and fish and benthic flora and fauna are protected by the Magnuson-Stevens Act and the Endangered Species Act. EMC Planning Group Inc. proposes to team with Applied Marine Sciences to address marine issues. Their scope of work is as follows:

1. Collection of Applicable Literature

The first step in producing the EIR for the update of the MLCP will be to collect applicable documents, reports and other literature for marine biological resources and water quality in the Moss Landing area. AMS has an extensive library of documents, including the Proponents Environmental Assessment for the proposed desalination facility at the Moss Landing Power Plant and other literature gathered by AMS for the Coastal Water Project EIR.

AMS also will obtain the following project documents:

- Biological Survey prepared by Rana Creek Habitat Restoration dated October 10, 2008;
- Essential Fish Habitat Report for the North Harbor Redevelopment Project by Terrestrial & Aquatic Biological Resources;

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

- Survey of North Harbor Eelgrass Beds by ABA Consultants;
- Marine Habitats and Bathymetry Around Skippers Restaurant & North Harbor Visitor Serving Area by ABA Consultants; and
- Biotic Assessment by Assegued & Associates.

All this material will be reviewed for applicability to the project and to help determine whether additional information might be needed to adequately describe existing conditions and determine impacts and mitigations for the development activities included in the MLCP update.

### **2. Describe Existing Conditions, Marine Biological Resources**

Occurring near the mouth of an estuary with extensive wetlands and agricultural drainages, the Moss Landing area supports diverse marine biological resources. These include will be thoroughly described including the following:

- Regional setting;
- Regulatory setting;
- Habitats in the area with associated benthic and planktonic invertebrates, algae, fishes, birds and mammals;
- Sensitive habitats, such as eelgrass beds and essential fish habitat; and
- Special status species, such as green sturgeon, Chinook and Coho salmon, southern sea otter and other marine mammals.

Emphasis will be placed on sensitive habitats and foraging or resting areas for marine mammals and special status species. Tabular information will be provided including lists of species by major group, with their likelihood of occurring in the project area and season of occurrence.

### **3. Analysis of Potential Impacts**

Impacts associated with implementation of the MLCP update could result from construction and operation of new or revised developments. Construction impacts could include the following:

- Physical disturbances or loss of habitats and associated temporary or permanent loss of biota;
- Disturbances of wildlife associated with construction activities, noise and light;

## EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS

- Reduced water quality or degraded habitats associated with resuspension of contaminated sediments or runoff from land of spilled fuel, construction materials, or sediments.
- Operational impacts could include the following:
- Disturbances of wildlife associated with elimination of habitat or increased activities, noise and light;
- Reduced water quality due to increased storm runoff associated with possible increases in impervious area.

All impacts will be characterized by their duration, significance and potential for mitigation. Short-term impacts will typically be associated with construction activities. Long-term impacts will be associated with permanent operational activities. The significance of impacts will be determined by comparing them with applicable regulatory standards and criteria, including:

- The California Ocean Plan,
- National Marine Fisheries Service criteria for disturbance or “take” of marine mammals,
- The likelihood for increasing contaminant concentrations in prey items of special status species,
- The comparison between the amount of habitat affected by the proposed implementation of the updated MLCP and the total amount of that habitat in the area, and
- The availability of suitable measures for mitigation.

#### 4. Mitigation Strategy

Mitigation measures will be developed wherever possible to reduce impacts to less than significant. Potential mitigations could include the following:

- Restriction of some construction activities to certain hours of the day or months of the year;
- Use of construction methods or practices to reduce disturbances, resuspension of sediments and runoff, such as use of wattle, detention basins, boom skirts, etc.;
- Implementation of design practices, such as Low Impact Development, to reduce storm runoff from impervious surfaces;

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

- Remediation of disturbed habitat; and
- Construction of eliminated habitat elsewhere.

This report would be included as an appendix to the EIR.

### **2.5 CULTURAL RESOURCES**

Archaeological Consulting will prepare a Cultural Resources Evaluation Report, which will consist of the following scope of work:

1. Request a background search of the records at the Northwest Regional Information Center at Sonoma State University to determine the locations of previously recorded archaeological sites and historical resources within the project area and in the immediate vicinity, as well as to obtain a complete bibliography of all reports completed to date in Moss Landing, Monterey County, California. We will also complete local research at historical societies and county agencies. We will review the previous project reports, site records and updates, and local research data and will include all pertinent findings in the Cultural Resources Evaluation Report for the current project.
2. Request a Sacred Lands File Search through the Native American Heritage Commission and will conduct consultation with Native American individuals and/or groups and other interested parties as directed by the Commission.
3. Undertake site visits to those specific project areas with currently proposed short and long range plans/projects which have not yet been subject to archaeological study. We will also make site visits, where necessary, to confirm the findings of existing cultural resources reports in order to determine the overall cultural resources sensitivity of the area.
4. Complete a Cultural Resources Evaluation Report which will contain findings and recommendations, including testing and/or mitigation measures, as appropriate, for the Moss Landing Community Plan project area.

This report would not be included as an appendix to the EIR, but would be submitted to the County staff under separate cover.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **2.6 GEOLOGY AND SOILS**

This section of the EIR will address the general nature of the Community geology and soil. Issues to be addressed include the following: faulting and seismic shaking, liquefaction, landslides, erosion, and soil capabilities. The issues will be addressed in a general nature unless site specific investigation has been conducted on development sites and those reports are available for our use.

### **2.7 HAZARDS AND HAZARDOUS MATERIALS**

This section of the EIR will be completed based upon existing information available from public sources and from the applicants of specific development projects. A significant amount of work was accomplished for projects in the vicinity, some of which is available in EMC's library.

### **2.8 SURFACE WATER HYDROLOGY AND WATER QUALITY**

EMC Planning Group Inc. will prepare a surface water hydrology and water quality section of the EIR that looks at buildout of the Community Plan Update at a programmatic level and each of the defined development projects at a project level. Where it applies to marine resources, coordination on the section will occur with Applied Marine Resources as described below. We will identify proposed mitigation measures as appropriate. Water demand and supply will be addressed in the utilities section of the EIR.

Marine water quality in the project area is influenced by complex interactions among oceanographic, tidal, meteorological and land use processes. In particular, a description of marine water quality in the project area will require consideration of the following:

- The Monterey Submarine Canyon comes within 2.25 miles of shore;
- The Salinas and Pajaro rivers, as well as agricultural drainages surrounding Elkhorn Slough discharge into the area;
- There is regular tidal exchange between Moss Landing Harbor/Elkhorn Slough and Monterey Bay;
- Historic land uses around Moss Landing Harbor have contributed to high concentrations of contaminants in the sediments.

All these factors help create seasonally varying water quality in Moss Landing Harbor and Elkhorn Slough that contribute to existing conditions.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **2.9 LAND USE AND PLANNING**

This section of the EIR will address the proposed project's consistency with the North County Land Use Plan (the focus of the consistency analysis), the County General Plan, Title 20, the Coastal Act, the Clean Air Plan, and the Regional Transportation Plan. EMC Planning Group Inc. will incorporate a consistency matrix prepared by County staff discussing consistency with relevant policies of the North County Land Use Plan, if available.

### **2.10 NOISE**

The level of development envisioned for the Community Plan Update would result in noise-related construction and operational activities. Brown-Buntin Associates will conduct a noise analysis and prepare a technical report for the EIR. The scope of work follows:

1. Document existing ambient noise levels within the plan area by conducting 24-hour noise measurements at up to four (4) representative locations within the plan area. Identify major sources of community noise within the plan area and develop generalized noise exposure information for those sources for existing conditions. Known sources of noise in the area include State Highway 1, commercial/industrial uses, and the existing power plant.
2. Develop future noise exposure information for potential new transportation and stationary noise sources in the community plan area, including the prospective projects identified in the RFP. This task will also include consideration of potential short-term noise impacts related to construction of roadways and other infrastructure improvements in the plan area. Future traffic noise in the community plan area will be quantified based upon the FHWA Traffic Noise Model and traffic data to be provided by other members of the project team.
3. Compare project-related noise levels and expected long-term changes in the ambient noise environment within the plan area to applicable Monterey County noise compatibility criteria and the CEQA Guidelines. Prepare generalized recommendations for noise mitigation as may be required.
4. Prepare a report describing the methods, data, findings and recommendations for noise mitigation of the study.

This report would be included as appendix to the EIR.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **2.11 POPULATION AND HOUSING**

This section of the EIR will evaluate whether or not the Community Plan Update and development projects would induce population growth in the area, displace existing housing, or displace people, thereby necessitating the construction of housing elsewhere.

### **2.12 PUBLIC SERVICES AND UTILITIES**

#### **Water**

The key water supply issue is the long-term availability of supply to meet additional demand in Moss Landing. Pajaro Sunny Mesa Community Services District (PSMCSD or CSD) is the major provider of water supply to Moss Landing, having recently assumed responsibility for water supply from the Alisal Water Company. PSMCSD also serves multiple communities in northern Monterey County, including Pajaro and Sunny Mesa within the Pajaro Valley Water Management Agency (PVWMA).

The Moss Landing water system uses local groundwater from the lower Salinas Valley groundwater basin. This basin has been in overdraft with significant seawater intrusion of the 180-foot and 400-foot aquifers; Moss Landing is situated on the northern margin of the 500-mg/L chloride area mapped by Monterey County Water Resources Agency (MCWRA) as indicating seawater intrusion. Seawater intrusion (indicated by 100 mg/L chloride concentrations) also has been mapped to the north of Elkhorn Slough by PVWMA. As described by Monterey County LAFCO, local groundwater also is affected by nitrate contamination.

A portion of the Moss Landing Community Plan (MLCP) area extends north of Elkhorn Slough into PVWMA, although this area is not within the existing or proposed Urban Services Boundary. According to the LAFCO Municipal Services Review, the Moss Landing water system is located beyond the jurisdictional area of the PVWMA and export of water from the PVWMA to Moss Landing is prohibited by PVWMA ordinances. PSMCSD has been exploring additional water supplies, including a regional desalination plant in Moss Landing.

With regard to the proposed MLCP, the Moss Landing Community Plan Update Committee expressed concern over the sufficiency and capacity of water supply facilities to provide existing and proposed needs and the long-term sustainability of water sources. PSMCSD has indicated that water supply is sufficient for existing connections and planned development, but not for additional growth. The CSD also indicated additional needed facilities including a water pipeline, storage tank, and other improvements. Committee recommendations include possible phasing of new development, encouragement of water demand management, and pursuit of

## EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS

additional water sources (e.g., desalination) to provide long-term supply while minimizing seawater intrusion.

The issue of long-term water supply sustainability will be addressed with a Water Supply Assessment (WSA) prepared in accordance with California Water Code section 10910 (also termed Senate Bill 610 or SB 610). This statute requires detailed assessment of water supply availability prior to the approval of large projects. In order to ensure compliance, our approach will follow the Department of Water Resources (DWR) Guidebook for Implementation of Senate Bills 610 and 221 and provide step-by-step documentation of water supply and demand.

The existing Moss Landing water supply is groundwater; if any planned additional demand as part of the MLCP is satisfied with groundwater, then the California Water Code section 10910, subdivision (f) requires analysis of the sufficiency of the groundwater basin to meet the projected water demand associated with the proposed project. This includes documentation of the groundwater basin, as defined by the DWR and modified by recent court decisions such as *OWL Foundation v. City of Rohnert Park*. Documentation also is required of the condition of overdraft and efforts being undertaken to eliminate the overdraft. The water code also requires detailed description of the amount and location of existing and future groundwater pumping (based on readily available information).

Our proposed scope of work includes documentation of local groundwater resources. We recognize that PSMCSD has not proposed to provide groundwater to satisfy additional growth beyond what already is planned. However, groundwater could potentially be used, barring strict regulation of private well pumping.

If the water supply and demand analysis indicates that water supply is insufficient, we will summarize PSMCSD plans for acquiring additional water supply. As described in the 2006 LAFCO Municipal Services Review, PSMCSD secured a 98-year lease for a 20 acre site including existing seawater intake and outfall pipes, and entered into a development agreement with Poseidon Resources Corporation to pursue permits and other approvals for the project. The CSD also was reported to be seeking other agencies interested in partnering in this project. The WSA will document current efforts to obtain additional supplies. To fulfill SB 610 requirements, the summarized plans will include an estimate of costs, identification of required permits, and a timeframe to develop the water supplies.

If the water supply is deemed insufficient, the County may still approve the project but it must include that determination, based on the entire record, in the findings for the project. It must include substantial evidence in the record to support its approval of the project.

Todd Engineers will address groundwater issues and prepare the WSA. Their scope of work is as follows:

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

1. Kick-off Meeting, Data Acquisition and Review. Todd Engineers will attend the project kick-off meeting and acquire and review relevant existing information regarding water supply and demand for the project. The WSA will focus on the MLCP area, with appropriate reference to the lower Salinas Valley groundwater basin. We understand that no Urban Water Management Plan—a foundational document for a Water Supply Assessment—is available from PSMCSD, reflecting its limited number of connections.

The data acquisition task will begin with review of the water-related sections of the Moss Landing Economic Development Strategy, prepared by Applied Development Economics, which will provide important background information on water supply and demand. In addition, we will utilize information from our own extensive files, including hydrogeologic reports and existing water supply studies. As needed, we will contact the CSD and the Monterey County Department of Health, Environmental Health Division (EHD) to acquire available information on the Moss Landing water system, including recent and historical water supply and water demand data. We will also contact the CSD, EHD and MCWRA to obtain information on local wells and pumping. Existing MCWRA documents will be used to document local groundwater overdraft and seawater intrusion conditions and the effectiveness of the Salinas Valley Water Project in limiting seawater intrusion. We will also gather relevant information on the proposed Coastal Water Project in terms of future regional water supplies and potential cumulative impacts of any proposed groundwater development.

We anticipate provision of specific population and water demand data for the proposed phased alternatives for the next 20 years. If the data are not provided in five-year increments suitable for a WSA, we will provide the necessary estimates (e.g., interpolations) using available information. For this scope, it is assumed that data will be provided electronically in spreadsheets (Excel) and/or databases (GIS).

2. Water Supply and Demand Assessment. Evaluate water supply and demand for the project during normal and drought conditions in five-year increments with projections over the next 20 years. Water supply and demand will be compared to assess the sufficiency of water supply for the MLCP project in light of Moss Landing's total water supply and demand. If the supply is deemed insufficient, we will appropriately document PSMCSD plans for water supply augmentation.
  - 2a. Assess Water Demand. Water demands are required to be quantified by water use sectors in five-year increments, insofar as data are available. Recognizing that the MLCP involves no expansion of the plan boundary or definition of new land uses on undeveloped land, then the focus of this assessment will be on comparison of existing and planned future water demands in order to quantify any additional demand. The additional demand of the MLCP will be evaluated using information from the Moss

## EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS

Landing Economic Development Strategy. We anticipate receiving land use data for each phased alternative, such as number of hotel units, retail floor space, industrial uses, and irrigated park acreage, plus water use factors. Our assessment will include independent review of water demand estimates.

- 2b. Assess Water Supply. Groundwater is the existing source of supply; accordingly, we will provide the documentation of groundwater required by section 10910. The CSD currently has wells in the service area that provide water supply and historical groundwater use will be documented insofar as data are available, for example, from the Moss Landing Economic Development Strategy document. The assessment will provide a succinct evaluation of the groundwater supply in terms of quantity, quality, and sufficiency. This will involve using DWR and MCWRA documents to describe the groundwater basin, local groundwater management, and condition of the basin in terms of overdraft. This section will include an assessment of the sufficiency of groundwater as a possible source of supply for the project. A summary table will document existing and planned water supplies for the Moss Landing service area of PSMCSD in 5-year increments over a 20-year projection.
- 2c. Evaluate Drought Supply and Demand. This evaluation will address water supply not only for normal years, but also for single-year and multiple-year droughts. We anticipate defining drought conditions for each source of supply by using information from the PSMCSD, Monterey County Planning Department, Monterey County Health Department, and other local agencies. We will also estimate the expected reduction in water demand in response to water conservation.
- 2d. Determine Sufficiency. The water supply assessment will provide a discussion of the sufficiency of water supply for the project. This will involve comparison of total water supply and demand for the service area with and without the project under normal conditions with a projection in five-year increments over a 20-year period. The discussion will also address the 20-year projected water supply and demand under single-year and multiple-year drought conditions.

If the analysis indicates that water supply is insufficient, we will describe PSMCSD plans for acquiring additional water supply. In accordance with WSA requirements, these plans will include an estimate of costs, identification of required permits, and a timeframe to develop the water supplies.

- 2e. Evaluate Impacts and Identify Mitigation. We propose combining the CEQA evaluation of potential impacts into the WSA report; this is not only cost-effective, but will allow consideration of water supply and groundwater issues in one cohesive document. The evaluation will focus on the potential impacts of possible increased

## EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS

groundwater pumping in the future, including potential drawdown impacts on nearby wells, and cumulative impacts on regional overdraft and seawater intrusion. Evaluation of the availability of long-term water supply will be addressed in Task 2d.

If impacts are deemed significant, mitigation measures recommended for the project are likely to include measures to reduce demand. These could involve alternative project design and phasing, additional water conservation measures, and acquisition of additional supplies. With regard to cumulative impacts, development of mitigation measures will be based in part on ongoing water management planning.

3. Reporting. This task involves preparation of an administrative draft, draft and final WSA report.
  - 3a. Administrative Draft WSA Report. The water supply assessment will be presented in an administrative draft report for EMC and County staff review; we anticipate that this draft also will be provided to MCWRA. The text of the report will be concise and focused on relevant tables. Graphics may be limited to a study area location map and a map of water supply facilities; we anticipate that existing GIS graphics would be available.
  - 3b. Draft WSA Report. Comments will be incorporated into the draft WSA report, which will be provided to PSMCSD for review and comments; these will be addressed in the Final WSA Report.
  - 3c. Final WSA Report. The Final WSA Report will be included as an appendix to the DEIR. The PSMCSD, as the water purveyor, should approve the report prior to release of the draft EIR.
4. Meetings. We assume Todd Engineers will participate in at least one meeting in Monterey County. Todd Engineers can participation in additional meetings and hearings on an as-needed basis.

### Wastewater

The proposed project includes expanding the Urban Service Line to include the Moss Landing Business Park, the Moss Landing Power Plant, and the Moss Landing Switch Yard so that they may remove existing septic systems and connect to the sewer system. This would likely result in a beneficial environmental impact. The Monterey Regional Water Pollution Control Agency indicates that they have sufficient capacity in the regional treatment plant to serve the new projects. The EIR will evaluate the physical environmental effects of the local infrastructure upgrades (piping, lift station, etc.) in order to serve buildout. EMC Planning Group Inc. will base this EIR section on the results of Harris and Associates, *Addendum – Engineering Report for*

## EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS

*Sanitary Sewer System Loss Landing California*, and SFE Global, *City of Moss Landing, Sanitary Sewer Flow Monitoring* reports as well as technical information provided as the Moss Landing Storm Sewer Authority project description develops.

### Emergency Services

This section of the EIR will address law enforcement, fire protection and ambulance service. The existing locations of the nearest stations and service providers will be described, as well as the existing response times. Environmental impacts, if any, will be described.

## 2.13 TRANSPORTATION/TRAFFIC

The purpose of the transportation analysis is to evaluate the impacts of the updated Moss Landing Community Plan and three specific projects proposed within the planning area. The Community Plan needs only a program level CEQA analysis, while the individual projects will need project level analyses. A stand-alone transportation impact analysis report will be prepared.

Traffic studies have been prepared for some of these proposed projects and these studies are available as input into the current analysis. These previous traffic studies as well as on-going planning studies by Caltrans have identified some potential improvements along Highway 1 to improve operations and safety. These improvements will be considered in the evaluation of the impacts and potential mitigation.

The impacts of the Community Plan and the developments will be evaluated following guidelines of the Monterey County and incorporate guidelines from Caltrans and the Transportation Agency for Monterey County (TAMC) as needed. While the focus of the analysis will be on the Highway 1 corridor and access to the local roadway system, it will also consider potential impacts to the bicycle, pedestrian, and transit systems. For the individual project, the transportation analysis will also address site access and on-site circulation where detailed site plans are available.

The intersections will be evaluated for the highest peak hour occurring during the weekday morning (7:00 – 9:00 AM) and evening (4:00 – 6:00 PM) peak periods for the following scenarios:

**Scenario 1:** Existing Conditions – Existing volumes obtained from previous traffic studies plus projected traffic generated by existing but unoccupied buildings in the Moss Landing Green Business Park site. .

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

**Scenario 2:** Individual Project Conditions – Existing volumes plus traffic generated by each of the development projects listed below:

- Monterey Bay Aquarium Research Institute (MBARI)
- Moss Landing Marine Lab-California State University (Marine Labs)
- Gregg's Drilling

**Scenario 3:** No Project Cumulative Analysis – Year 2030 cumulative analysis scenario will be developed using the AMBAG model to determine a growth factor for through traffic on Highway 1 with origins and destinations outside the immediate Moss Landing study area.

**Scenario 4:** Community Plan Cumulative Analysis – Year 2030 cumulative traffic volumes including the Community Plan Buildout and the three projects listed above. The AMBAG model will be used to determine a growth factor for through traffic on Highway 1 with origins and destinations outside the immediate Moss Landing study area.

The following key intersections will be evaluated for potential impacts during the weekday peak periods:

### **Intersections:**

1. Highway 1 / Dolan Road
2. Highway 1 / Moss Landing (North)
3. Highway 1 / Moss Landing (South) – Potrero Road
4. Highway 1 / Merritt Road (Highway 183)

Fehr & Peers Transportation Consultants will complete the following tasks for the transportation analysis:

1. Review Existing Reports & Collect Available Data

Fehr & Peers will review the previous traffic studies and collect the available data for the planning area. Traffic studies have been performed by Higgins & Associates (now Hatch-Mott-McDonald), James Jeffery, and Hexagon Transportation Consultants. The most recent report was prepared in July 2008 and will be the primary source of data used for the analysis.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

Fehr & Peers will also work with Monterey County staff to get a concise definition of the Community Plan land uses and the details of the individual development projects.

### **2. Kick Off Meeting & Site Reconnaissance**

A meeting will be held between Fehr & Peers, Monterey County, and Caltrans to discuss the study scope, technical approach, and analysis methodologies. The meeting will also include a discussion of existing operational or safety issues within the study area and the proposed or planned transportation improvements within the study area. Following the kick off meeting, Fehr & Peers will visit the study area to access the existing conditions as compared to the information provided in the earlier reports and to better understand the proposed or planned roadway improvements.

### **3. Prepare Trip Estimates & Finalize Scope of Work**

The amount of traffic generated by the proposed Community Plan and the individual projects will be developed. Additionally, Fehr & Peers will develop trip generation estimate for the existing unoccupied buildings on the Moss Landing Green Business Park site. Since many of the proposed uses are specialized services or activities, it may be necessary to use sources other than the Institute of Transportation Engineers Trip Generation publications to prepare the trip generation estimates. In these cases, the trip generation may be estimated based on operational factors such as the number of employees, number of visitors, hours of operation, etc.

The directions of approach and departure for the Community Plan, project traffic, and unoccupied buildings will be estimated based on the existing travel patterns and the relative locations of complementary land uses (e.g., location of residential neighborhoods). The distribution will be further refined using the knowledge for previous studies, input from county staff and output from the AMBAG travel demand model.

The trip distribution pattern and trip assignments will be submitted to County staff for review and approval. Refinements to the trip assignments will be made based on staff comments and the list of study intersections may be modified based on these refinements. If needed, the scope of work will be refined to address issues raised during consultation with County staff and Caltrans.

### **4. Evaluate Existing Conditions**

Existing intersection and highway segment traffic counts will be obtained from published reports and each jurisdiction's data sources. All counts will be dated 2008 or later. Any new counts will be conducted as an additional service. Trips developed in Task 3 above

## EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS

associated with the unoccupied existing buildings on the Moss Landing Green Business Park site will be added to the counts to develop volumes under Existing Conditions.

The physical characteristics of the site and the surrounding roadway network will be reviewed during a site visit to verify existing roadway cross-sections, intersection lane configurations, traffic control devices, surrounding land uses, and the locations of pedestrian, bicycle, and transit facilities. Observations of traffic operations will be conducted to verify or explain calculated service levels.

The existing operation of the key intersections will be evaluated with level of service calculations using the *2000 Highway Capacity Manual* (HCM) operations method to provide consistency with County and Caltrans guidelines. The SYNCHRO 6 analysis software will be used to calculate the Level of Service of unsignalized intersections. This approach is consistent with previous County studies for the Moss Landing planning area and Caltrans TIA guidelines. A description of existing transit, bicycle, and pedestrian facilities will also be included as part of this task.

In addition to evaluating the operations of the intersections, Fehr & Peers will review the available accident data for Highway 1. Request will be made to both the County and Caltrans for updated information on accidents within the study area. This data will be used in preparing potential mitigation and recommendations for improved access within the planning area.

### 5. Evaluate Each Specific Development Project

The project generated trips estimated in Task 3 above will be added to the Existing Conditions. Level of service calculations will be prepared for each individual project to estimate the operating levels of the study intersections with project-generated traffic under this scenario. Operation of study intersections will be analyzed based on the LOS results. In addition, the need for extending left-turn pockets at study intersections near the site to accommodate projected queues from the SYNCHRO analysis will be noted for key left-turn movements where the projects add traffic. If the addition of a project's traffic results in an operational or safety deficiency, those issues will be identified.

The effect of the proposed project on bicycle, pedestrian, and transit facilities and services will also be addressed under this task. Potential conflicts with existing or planned non-automobile mode improvements will be identified. The level of this analysis may vary between projects depending on the availability of a detailed site plan. Since Fehr & Peers specializes in bicycle and pedestrian planning, we will note any impediments to these forms of access to the project site.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

In order to simplify the review of the project level evaluations, the results of the project level analyses will be summarized in a matrix or graphic format. This matrix will identify if there are specific impacts at intersections that are generated by an individual project.

### **6. Evaluate Year 2030 with No Project Conditions**

An annualized growth factor will be applied to existing volumes to estimate additional through traffic growth to Year 2030. The growth factor will be determined in consultation with County staff using historical traffic counts and information from the Association of Monterey Bay Area Governments (AMBAG) travel demand model.

Intersection level of service calculations will be conducted to estimate the operating levels of the study intersections without project generated traffic. Operation of study intersections will be evaluated based on the LOS results. Calculations will be made to determine the level of traffic contributed by each of the development projects at the study intersections. These calculations will be made by comparing the overall growth in traffic to the project trips using the intersection.

### **7. Evaluate Year 2030 with Community Plan Conditions**

The traffic generated by the Community Plan and the individual developments will be added to the 2030 No Project Conditions to create the Cumulative Project Conditions. The Year 2030 Community Plan Conditions analysis will assume full development of the Community Plan land uses and the individual development projects. The traffic generated from the Community Plan and the individual development projects will be added to the Year 2030 No Project Conditions.

Intersection level of service calculations will be conducted to estimate the operating levels of the study intersections with project-generated traffic under this scenario. Operation of study intersections will be evaluated based on the LOS results. Calculations will be made to determine the level of traffic contributed by each of the development projects at the study intersections. These calculations will be made by comparing the overall growth in traffic to the project trips using the intersection.

### **8. Evaluate Site Access, and On-Site Circulation**

Site access and on-site circulation will be evaluated for the three proposed development projects based on the site design, adjacent roadways, and driveway layout. The extent of this review will be dependent on the site plan provided. The number of proposed access points and the required traffic control devices will be reviewed as part of this task.

To the extent possible, the existing parking supply and the projected parking demand will be evaluated. This analysis will include comparing the proposed supply to city standards.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **9. Identify Significant Impacts and Recommend Mitigation Measures**

Significant impacts will be identified using appropriate criteria for each travel mode and circulation issue. Project impacts from the proposed development will be identified by comparing the results of the level of service calculations for Background Conditions to the results for individual Project Conditions. Year 2030 (long-term) impacts of the proposed Community Plan will be identified by comparing the results of the level of service calculations for Year 2030 No Project Conditions. County and Caltrans TIA guidelines will be used to identify impacts for the facilities.

For significant impacts, feasible mitigation measures will be recommended to reduce impacts to a less than significant level where possible. Measures could include physical improvements such as adding turn lanes, installing traffic signals, or restricting turning movements. Schematic diagrams of physical improvements will be provided as an additional service and potential secondary impacts of those mitigation measures (e.g., additional right-of-way, tree removal, negative impacts to bicyclists and pedestrians) will be identified based on field observations.

Safety on Highway 1 is the primary traffic issue for the Moss Landing Planning Area. Previous and ongoing traffic studies have examined the need to provide access to adjacent land use and serve regional through traffic in a safe and efficient manner. The ongoing Caltrans' Highway 1 Corridor System Management Program is considering options to improve traffic flow and safety within the planning area. These options range from improvements within the existing alignment to creating a new by-pass of the planning area. Fehr & Peers will review the recommendations from previous studies and coordinate with Caltrans and the County regarding ongoing planning effort in order to develop a comprehensive approach to providing access to the planning area and enhancing the safety on Highway 1.

Project impacts to the surrounding transit, bicycle, pedestrian facilities and parking will also be identified. Measures to mitigate project impacts on these facilities will be recommended including providing appropriate linkages to adjacent land uses, and improving facilities for all modes including bus turnouts, shelters, etc.

### **10. Prepare Documentation**

Fehr & Peers will prepare a stand-alone transportation impact analysis (TIA) report, which will include text, graphics, and tables to describe the potential impacts of the proposed project and corresponding mitigation measures. An administrative draft of the report will be submitted for review and comment. Fehr & Peers will address any questions and make any corrections needed to the document and a draft report will be prepared for review by

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

County staff, Fehr & Peers will address any questions and make any corrections needed to the document and prepare a final TIA for public review and circulation with the environmental document.

This report would be included as an appendix to the EIR.

### **2.14 EFFECTS FOUND TO BE LESS THAN SIGNIFICANT**

This section of the EIR will briefly summarize environmental impacts that were found to be less than significant and eliminated from further discussion.

### **2.15 CUMULATIVE IMPACTS**

If the County's General Plan Update has been adopted prior to beginning this section of the EIR, EMC would use the County's General Plan Update EIR to prepare this section. If the Update has not yet been adopted, EMC will work with County staff to develop a cumulative impact scenario to evaluate in the EIR.

### **2.16 OTHER SECTIONS REQUIRED BY CEQA**

Other areas that will be addressed, consistent with the CEQA Guidelines, include irretrievable commitment of resources. Significant and unavoidable impacts will also be summarized. The EIR will include all sections required by CEQA including the summary, a project description, and impacts and mitigation measures.

### **2.17 ALTERNATIVES**

The EIR will evaluate up to three alternatives in addition to the no project alternative. These alternatives will be developed in consultation with County staff.

**3.0**

**SCOPE OF WORK**

EMC Planning Group Inc. (“Consultant”) proposes to prepare documentation in compliance with CEQA as identified in the County’s request for proposals. The scope of work includes the following deliverables:

- Project Description for the EIR;
- Notice of Preparation;
- Technical Reports;
- Administrative Draft Environmental Impact Report (EIR);
- Proof Draft EIR;
- Draft EIR;
- Response to Comments; and
- Final EIR with Mitigation Monitoring & Reporting Program.

In addition, two optional tasks are presented:

- CEQA Noticing
- CEQA Findings and Statement of Overriding Considerations

The EIR will be prepared in a manner that is concise, clear, and easy to read for the general public. The environmental documents will be prepared in accordance with CEQA and the state CEQA guidelines. The scope to be undertaken toward the completion of the environmental review services involves the tasks outlined below.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **Tasks**

The proposed tasks are presented below.

#### **Task 1 Administration/Management**

- 1.1 Contract negotiations and management.
- 1.2 Initiate subconsultants and project team coordination.
- 1.3 Provide CEQA consultation and management services for client.
- 1.4 Provide regular email progress reports to County project manager.

#### **Task 2 Site Investigation/Research/Kick-Off Meeting**

- 2.1 Conduct a site visit to document existing conditions and surrounding land uses.
- 2.2 Review previous documentation prepared for the community and vicinity.
- 2.3 Attend a kick-off meeting with County staff and the applicants to discuss the project and obtain all project materials. Issues expected to be addressed include the following: project description and objectives, scheduling, and scope of work.

#### **Task 3 Prepare Complete and Detailed Project Description**

- 3.1 Prepare a draft project description for review and approval by County staff. The project description will include the anticipated build-out scenario for the Community Plan Update, a general description of projects that are anticipated but for which no application has been received, and a detailed description of each development project for which the County has received an application. It will also include all anticipated infrastructure improvements, both “on-site” and “off-site”. The project description will provide a description of the entire “program” at the level of details the program components have been developed. Once the County staff has approved the project description for the EIR process, any changes to the project description that would have an affect on the environmental analysis, may require a contract amendment. Therefore, it is imperative to the budget and the schedule that project description remain static throughout the process.

Provide five (5) hard copies of the draft project description and one (1) electronic version.

- 3.2 Prepare a final project description for use in both the NOP and the EIR.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

Section II - Liability Coverage

A. Coverage

We will pay all sums an insured legally must pay as damages because of bodily injury or property damage to which this insurance applies, caused by an accident and resulting from the ownership, maintenance or use of a covered auto.

We will also pay all sums an insured legally must pay as a covered pollution cost or expense to which this insurance applies, caused by an accident and resulting from the ownership, maintenance or use of covered autos. However, we will only pay for the covered pollution cost or expense if there is either bodily injury or property damage to which this insurance applies that is caused by the same accident.

We have the right and duty to defend any insured against a suit asking for such damages or a covered pollution cost or expense. However, we have no duty to defend any insured against a suit seeking damages for bodily injury or property damage or a covered pollution cost or expense to which this insurance does not apply. We may investigate and settle any claim or suit as we consider appropriate. Our duty to defend or settle ends when the Liability Coverage Limit of Insurance has been exhausted by payment of judgments or settlements.

1. Who Is an Insured

The following are insureds:

- a. You for any covered auto.
- b. Anyone else while using with your permission a covered auto you own, hire or borrow except:
  - (1) The owner or anyone else from whom you hire or borrow a covered auto. This exception does not apply if the covered auto is a trailer connected to a covered auto you own.
  - (2) Your employee if the covered auto is owned by that employee or a member of his or her household.

(3) Someone using a covered auto while he or she is working in a business of selling, servicing, repairing, parking or storing autos unless that business is yours.

(4) Anyone other than your employees, partners (if you are a partnership), members (if you are a limited liability company), or a lessee or borrower or any of their employees, while moving property to or from a covered auto.

(5) A partner (if you are a partnership), or a member (if you are a limited liability company) for a covered auto owned by him or her or a member of his or her household.

c. Anyone liable for the conduct of an insured described above but only to the extent of that liability.

## 2. Coverage Extensions

### a. Supplementary Payments

In addition to the Limit of Insurance, we will pay for the insured:

- (1) All expenses we incur.
- (2) Up to \$2,000 for cost of bail bonds (including bonds for related traffic law violations) required because of an accident we cover. We do not have to furnish these bonds.
- (3) The cost of bonds to release attachments in any suit against the insured we defend, but only for bond amounts within our Limit of Insurance.
- (4) All reasonable expenses incurred by the insured at our request, including actual loss of earnings up to \$250 a day because of time off from work.
- (5) All costs taxed against the insured in any suit against the insured we defend.
- (6) All interest on the full amount of any judgment that accrues after

entry of the judgment in any suit against the insured we defend, but our duty to pay interest ends when we have paid, offered to pay or deposited in court the part of the judgment that is within our Limit of Insurance.

### b. Out-of-State Coverage Extensions

While a covered auto is away from the state where it is licensed we will:

(1) Increase the Limit of Insurance for Liability Coverage to meet the limits specified by a compulsory or financial responsibility law of the jurisdiction where the covered auto is being used. This extension does not apply to the limit or limits specified by any law governing motor carriers of passengers or property.

(2) Provide the minimum amounts and types of other coverages, such as no-fault, required of out-of-state vehicles by the jurisdiction where the covered auto is being used.

We will not pay anyone more than once for the same elements of loss because of these extensions.

Section IV - Business Auto Conditions

The following conditions apply in addition to the Common Policy Conditions:

A. Loss Conditions

1. Appraisal for Physical Damage Loss

If you and we disagree on the amount of loss, either may demand an appraisal of the loss. In this event, each party will select a competent appraiser. The two appraisers will select a competent and impartial umpire. The appraisers will state separately the actual cash value and amount of loss. If they fail to agree, they will submit their differences to the umpire. A decision agreed to by any two will be binding. Each party will:

- a. Pay its chosen appraiser; and
- b. Bear the other expenses of the appraisal and umpire equally.

If we submit to an appraisal, we will still retain our right to deny the claim.

2. Duties in the Event of Accident, Claim, Suit or Loss

We have no duty to provide coverage under this policy unless there has been full compliance with the following duties:

- a. In the event of accident, claim, suit or loss, you must give us or our authorized representative prompt notice of the accident or loss. Include:

- (1) How, when and where the accident or loss occurred;
- (2) The insured's name and address; and
- (3) To the extent possible, the names and addresses of any injured persons and witnesses.

- b. Additionally, you and any other involved insured must:

- (1) Assume no obligation, make no payment or incur no expense without our consent, except at the insured's own cost.

- (2) Immediately send us copies of any request, demand, order, notice, summons or legal paper received concerning the claim or suit.
  - (3) Cooperate with us in the investigation or settlement of the claim or defense against the suit.
  - (4) Authorize us to obtain medical records or other pertinent information.
  - (5) Submit to examination, at our expense, by physicians of our choice, as often as we reasonably require.
- c. If there is a loss to a covered auto or its equipment you must also do the following:
- (1) Promptly notify the police if the covered auto or any of its equipment is stolen.
  - (2) Take all reasonable steps to protect the covered auto from further damage. Also keep a record of your expenses for consideration in the settlement of the claim.
  - (3) Permit us to inspect the covered auto and records proving the loss before its repair or disposition.
  - (4) Agree to examinations under oath at our request and give us a signed statement of your answers.

### 3. Legal Action Against Us

No one may bring a legal action against us under this Coverage Form until:

- a. There has been full compliance with all the terms of this Coverage Form; and
- b. Under Liability Coverage, we agree in writing that the insured has an obligation to pay or until the amount of that obligation has finally been determined by judgment after trial. No one has the right under this policy to bring us into an action to determine the insured's liability.

### 4. Loss Payment - Physical Damage Coverages

At our option we may:

- a. Pay for, repair or replace damaged or stolen property;
- b. Return the stolen property, at our expense. We will pay for any damage that results to the auto from the theft; or
- c. Take all or any part of the damaged or stolen property at an agreed or appraised value.

If we pay for the loss, our payment will include the applicable sales tax for the damaged or stolen property.

### 5. Transfer of Rights of Recovery Against Others to Us

If any person or organization to or for whom we make payment under this Coverage Form has rights to recover damages from another, those rights are transferred to us. That person or organization must do everything necessary to secure our rights and must do nothing after accident or loss to impair them.

## B. General Conditions

### 1. Bankruptcy

Bankruptcy or insolvency of the insured or the insured's estate will not relieve us of any obligations under this Coverage Form.

### 2. Concealment, Misrepresentation or Fraud

This Coverage Form is void in any case of fraud by you at any time as it relates to this Coverage Form. It is also void if you or any other insured, at any time, intentionally conceal or misrepresent a material fact concerning:

- a. This Coverage Form;
- b. The covered auto;
- c. Your interest in the covered auto; or
- d. A claim under this Coverage Form.

### 3. Liberalization

If we revise this Coverage Form to provide more coverage without additional premium charge, your policy will automatically provide

the additional coverage as of the day the revision is effective in your state.

#### 4. No Benefit to Bailee - Physical Damage Coverages

We will not recognize any assignment or grant any coverage for the benefit of any person or organization holding, storing or transporting property for a fee regardless of any other provision of this Coverage Form.

#### 5. Other Insurance

- a. For any covered auto you own, this Coverage Form provides primary insurance. For any covered auto you don't own, the insurance provided by this Coverage Form is excess over any other collectible insurance. However, while a covered auto which is a trailer is connected to another vehicle, the Liability Coverage this Coverage Form provides for the trailer is:

- (1) Excess while it is connected to a motor vehicle you do not own.
- (2) Primary while it is connected to a covered auto you own.

- b. For Hired Auto Physical Damage Coverage, any covered auto you lease, hire rent or borrow is deemed to be a covered auto you own. However, any auto that is leased, hired, rented or borrowed with a driver is not a covered auto.

- c. Regardless of the provisions of Paragraph a. above, this Coverage Form's Liability Coverage is primary for any liability assumed under an insured contract.

- d. When this Coverage Form and any other Coverage Form or policy covers on the same basis, either excess or primary, we will pay only our share. Our share is the proportion that the Limit of Insurance of our Coverage Form bears to the total of the limits of all the Coverage Forms and policies covering on the same basis.

#### 6. Premium Audit

- a. The estimated premium for this Coverage Form is based on the exposures you

told us you would have when this policy began. We will compute the final premium due when we determine your actual exposures. The estimated total premium will be credited against the final premium due and the first Named Insured will be billed for the balance, if any. The due date for the final premium or retrospective premium is the date shown as the due date on the bill. If the estimated total premium exceeds the final premium due, the first Named Insured will get a refund.

- b. If this policy is issued for more than one year, the premium for this Coverage Form will be computed annually based on our rates or premiums in effect at the beginning of each year of the policy.

#### 7. Policy Period, Coverage Territory

Under this Coverage Form, we cover accidents and losses occurring:

- a. During the policy period shown in the Declarations; and
- b. Within the coverage territory.

The coverage territory is:

- a. The United States of America;
- b. The territories and possessions of the United States of America;
- c. Puerto Rico;
- d. Canada; and
- e. Anywhere in the world if:

- (1) A covered auto of the private passenger type is leased, hired, rented or borrowed without a driver for a period of 30 days or less; and

- (2) The insured's responsibility to pay damages is determined in a suit on the merits, in the United States of America, the territories and possessions of the United States of America, Puerto Rico, or Canada or in a settlement we agree to.

We also cover loss to, or accidents involving, a covered auto while being transported between any of these places.

8. Two or More Coverage Forms or Policies Issued by Us

If this Coverage Form and any other Coverage Form or policy issued to you by us or any company affiliated with us apply to the same accident, the aggregate maximum Limit of Insurance under all the Coverage Forms or policies shall not exceed the highest applicable Limit of Insurance under any one Coverage Form or policy. This condition does not apply to any Coverage Form or policy issued by us or an affiliated company specifically to apply as excess insurance over this Coverage Form.

The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

## 10. RECORDS AND CONFIDENTIALITY.

- 10.01 Confidentiality. CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.
- 10.02 County Records. When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.
- 10.03 Maintenance of Records. CONTRACTOR shall prepare, maintain, and preserve all reports and records that may be required by federal, state, and County rules and regulations related to services performed under this Agreement. CONTRACTOR shall maintain such records for a period of at least three years after receipt of final payment under this Agreement. If any litigation, claim, negotiation, audit exception, or other action relating to this Agreement is pending at the end of the three year period, then CONTRACTOR shall retain said records until such action is resolved.
- 10.04 Access to and Audit of Records. The County shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. Pursuant to Government Code section 8546.7, if this Agreement involves the expenditure of public funds in excess of \$10,000, the parties to this Agreement may be subject, at the request of the County or as part of any audit of the County, to the examination and audit of the State Auditor pertaining to matters connected with the performance of this Agreement for a period of three years after final payment under the Agreement.

CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations, which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.
12. **COMPLIANCE WITH TERMS OF STATE OR FEDERAL GRANT.** If this Agreement has been or will be funded with monies received by the County pursuant to a contract with the state or federal government in which the County is the grantee, CONTRACTOR will comply with all the provisions of said contract, to the extent applicable to CONTRACTOR as a subgrantee under said contract, and said provisions shall be deemed a part of this Agreement, as though fully set forth herein. Upon request, County will deliver a copy of said contract to CONTRACTOR, at no cost to CONTRACTOR.
13. **INDEPENDENT CONTRACTOR.** In the performance of work, duties, and obligations under this Agreement, CONTRACTOR is at all times acting and performing as an independent contractor and not as an employee of the County. No offer or obligation of permanent employment with the County or particular County department or agency is intended in any manner, and CONTRACTOR shall not become entitled by virtue of this Agreement to receive from County any form of employee benefits including but not limited to sick leave, vacation, retirement benefits, workers' compensation coverage, insurance or disability benefits. CONTRACTOR shall be solely liable for and obligated to pay directly all applicable taxes, including federal and state income taxes and social security, arising out of CONTRACTOR's performance of this Agreement. **PROJECT UNDERSTANDING**

The County of Monterey is in the process of preparing an update to the Moss Landing Community Plan, which is a component of the North County Land Use Plan, Local Coastal Program. In addition, the County is processing several development applications within the planning area. The County desires to have one comprehensive, programmatic EIR prepared that would evaluate the Community Plan Update at a general level and several development or improvement projects at a specific level. The purpose of a programmatic EIR and various facets of the overall proposed project are discussed below.

**1.1 PROGRAM EIR**

CEQA Guidelines section 15168 states that a program EIR is an EIR that may be prepared on a series of actions that can be characterized as one large project and are related either 1) geographically, 2) logical parts in the chain of contemplated actions, 3) in connection with issuance of rules, regulations, plans, or other general criteria to govern the conduct of a continuing program, or 4) as individual activities carried out under the same authorizing statutory or regulatory authority and having generally similar environmental effects that can be mitigated in similar ways.

The advantages of a program EIR can 1) provide for a more exhaustive consideration of effects and alternatives than would be practical in an EIR on an individual action, 2) ensure consideration of cumulative impacts that might be slighted in a case-by-case analysis, 3) avoid duplicative reconsideration of basic policy considerations, 4) allow the lead agency to consider broad policy alternatives and program-wide mitigation measures at an early time when the agency has greater flexibility to deal with basic problems or cumulative impacts, and 5) allow reduction in paperwork.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **1.2 MOSS LANDING COMMUNITY PLAN UPDATE**

The Moss Landing Community Plan Update will be prepared by County staff. To assist with this effort, the County has retained Applied Development Economics (ADE) to conduct an economic development study. According to the RFP, the focus of the update will be to remove and replace out of date references, address policies that were applicable in the past but require revisions in response to changed circumstances, update the manner in which the Community Plan treats utility infrastructure including the need to address water availability, updating the sewer allocation system to accommodate existing and proposed development and allow for future development on land that has been granted land use, address Highway 1 circulation needs, address Periodic Review comments made by the California Coastal Commission, and update the design guidelines for the Community Plan. As enumerated in the RFP, specific modifications include the following: changes to the Land Use Map in four locations; revisions to land use designations in three locations; updating the design guidelines that are sensitive to the existing character of the community (all for expanded styles of historic architecture); revisions to the infrastructure plans associated with sewer, water, pedestrian and bicycle circulation, traffic, street lights, and wireless communications; and expand the Urban Services Boundary to include the Moss Landing Business Park, the Moss Landing Power Plant, and Moss Landing Switch Yard.

In addition to the specific development/improvement projects discussed in the next section, the following levels of development were considered in the Community Plan Update committee meetings:

- North Harbor
  - 130 motel rooms
  - 100-seat restaurant
  - Retail buildings (10,000 square feet)
- The Island
  - Commercial buildings (20,000 square feet)
- The Downtown
  - 20 residential units
  - 150-seat restaurant
  - Commercial buildings (10,000 square feet)
  - 30-unit motel

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

    - 3. Pisto Restaurant (DA070532) – Construction of 6,000 square foot restaurant.

- Moss Landing Downtown Merchants

Planning within the downtown area would include diversification of land uses, and may include, but not be limited to the following:

- a. 20 residential units;
- b. 150-seat restaurant;
- c. 10,000-square feet of commercial space;
- d. 30-unit motel;
- e. bed and breakfast opportunities; and
- f. other downtown uses to be determined.

- Moss Landing Green Business Park

This property is the old National Refractories site, which is located east of SR 1. It currently consists of approximately 295,687 square feet of existing, enclosed buildings and the County approved the development of a new 70,060 square foot warehouse in July 2008. This approval is currently on appeal at the Coastal Commission. The Community Plan Update is anticipated to include up to 400,000 square feet in additional buildings; however, this number has yet to be finalized for the draft Community Plan Update. Approved and anticipated uses include Coastal Dependent and Coastal Related Heavy Industrial Uses.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **1.3 DEVELOPMENT/IMPROVEMENT PROJECTS**

In addition to evaluating the environmental impacts of buildout of the Community Plan Update at a general level, the EIR would evaluate the following projects to a degree of specificity involved with the underlying activity. At the time of preparation of this proposal, no details beyond the information presented below about individual development projects were available. Although the team has attempted to identify the environmental issues that may be associated with these projects, any additional project details not included herein, may require revisions to the scope of work.

## **2.0**

# **ENVIRONMENTAL ISSUES AND ANALYSIS METHODOLOGY**

The EIR would focus on the following environmental issues. Methodologies for addressing the environmental issues are discussed.

## **2.1 AESTHETICS**

The community of Moss Landing is located within a unique coastal setting. The impacts associated with buildout of the Community Plan update will be generally analyzed and the detailed specific development projects will be analyzed in more detail. Determination of significance of impacts will be based upon Monterey County and Coastal Act policies.

## **2.2 AGRICULTURAL RESOURCES**

The EIR will consider the potential impacts to existing farmland to the south at the existing agricultural/residential interface along the southern boundary of the plan area along Potrero Road as well east of the plan area behind the power plant and industrial park.

## **2.3 AIR QUALITY AND CLIMATE CHANGE**

### **Air Quality**

EMC Planning Group Inc. will prepare an air quality analysis that looks at buildout of the Community Plan Update at a programmatic level and each of the defined development projects at a project level. Each “project” will be evaluated consistent with the Monterey Bay Unified Air Pollution Control District CEQA Guidelines for demolition, construction, and operations.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **Climate Change**

A project's contribution to climate change is now addressed in the CEQA process. A greenhouse gas emissions analysis will be conducted using the methodology recommended by the State Office of Planning & Research.

EMC will conduct the following tasks to analyze the project's contribution to climate change.

1. Present existing policy and regulatory setting (Title 24 Standards/Energy Conservation, AB 1493, Executive Order S-3-05, AB 32, SB 97, proposed CEQA Guidelines revisions, Executive Order S-01-0-7, SB 375) and any efforts under way by the Monterey Bay Unified Air Pollution Control District to address the issue District-wide, and by the County of Monterey to address the issue at a county-wide level.
2. Discuss thresholds of significance or lack thereof.
3. Discuss the science and effects of global warming and the inventories of greenhouse gas emissions.
4. Quantify, to the extent feasible, the project's greenhouse gas emissions.
5. Identify impacts and recommend mitigation measures.

These reports would be included as appendices to the EIR.

## **2.4 BIOLOGICAL RESOURCES**

The Moss Landing area is located within a unique environment, incorporating the Pacific Ocean, a harbor, sand dunes, and the mouth of Elkhorn Slough. The harbor serves as the gateway to the Elkhorn Slough National Estuarine Research Reserve, California's second largest marine wetland. This expansive tidal wetland is an important habitat for terrestrial and marine species, including sea otters, harbor seals, and over 250 resident and migratory bird species. Dune and wetland habitats also provide habitat for a number of rare plants.

For purposes of this EIR, terrestrial and marine resources will be included under the umbrella of the Biological Resources section. Tasks associated with both analyzing both types of resources are included below.

## EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS

### ***Terrestrial Biological Resources***

A review of the California Natural Diversity Database (California Department of Fish and Game 2009) found the following special status plant species identified within the vicinity of Moss Landing that may occur within the plan boundary:

- Coast wallflower , (*Erysimum ammodendrum*), CNPS list 1B.2 species
- Congdon's tarplant, (*Centromadia parryi* spp. *congdonii*), CNPS list 1B.2 species

The following tasks will be implemented to address biological resources within the plan area:

1. Compile and review all available project information, including topographic maps, plan maps indicating the areas of potential effect (i.e., vegetation removal, building envelopes, etc.), and project descriptions. Conduct peer review of the Biological Survey prepared by Rana Creek Habitat Restoration dated October 10, 2008 and the Biotic Assessment by Assegued & Associates.
2. Conduct a background data search to determine biological resources known to occur in the vicinity of the plan area. These data will be obtained from the Inventory of Rare and Endangered Vascular Plants of California (California Native Plant Society, 2001), the California Department of Fish and Game (CDFG) Natural Diversity Data Base (CNDDDB), lists from CDFG and U. S. Fish and Wildlife Service, and biological inventories conducted on adjacent properties, if available.
3. Conduct a reconnaissance-level field survey of the plan area and with a focus on the three project areas in order to (1) identify and map the principal plant communities, (2) assess the potential for special-status species and their habitats, wildlife movement corridors, potential jurisdictional wetlands, protected trees, and other significant biological resources to occur in the project area, and (3) identify and map any observed locations of special-status species and/or sensitive habitats occurring in the project area.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

4. Prepare biological resources section of the EIR analyzing the Community Plan as a whole as well as each of the three specific projects. This section will include a description of existing habitats and plant and animal species found and the occurrence of and/or potential for special-status species and their habitats. Maps will be prepared illustrating habitat types and the location(s) of special-status species occurring in each of the three project areas, if necessary. Potential impacts to biological resources will be identified, and mitigation measures will be provided to minimize potential impacts to the extent possible.

**Note:** Focused or protocol-level surveys for animal species are not included in this proposed scope of work. The presence or absence of certain species can be determined during the reconnaissance-level site assessment. If appropriate habitat for special status species is observed during the site assessment, species-specific surveys may be required (i.e., surveys for annual plants not in bloom at the time of the reconnaissance-level survey, protocol-level surveys for special-status wildlife species, etc.).

### ***Marine Biological Resources***

In addition to potential impacts to terrestrial biological resources, impacts to marine resources may also occur. Projects requiring disturbance to ocean environments (such as pier construction or removal) may impact marine mammals, fish, and benthic communities. Marine mammals are protected under the Marine Mammal Protection Act, and fish and benthic flora and fauna are protected by the Magnuson-Stevens Act and the Endangered Species Act. EMC Planning Group Inc. proposes to team with Applied Marine Sciences to address marine issues. Their scope of work is as follows:

1. Collection of Applicable Literature

The first step in producing the EIR for the update of the MLCP will be to collect applicable documents, reports and other literature for marine biological resources and water quality in the Moss Landing area. AMS has an extensive library of documents, including the Proponents Environmental Assessment for the proposed desalination facility at the Moss Landing Power Plant and other literature gathered by AMS for the Coastal Water Project EIR.

AMS also will obtain the following project documents:

- Biological Survey prepared by Rana Creek Habitat Restoration dated October 10, 2008;
- Essential Fish Habitat Report for the North Harbor Redevelopment Project by Terrestrial & Aquatic Biological Resources;

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

- Survey of North Harbor Eelgrass Beds by ABA Consultants;
- Marine Habitats and Bathymetry Around Skippers Restaurant & North Harbor Visitor Serving Area by ABA Consultants; and
- Biotic Assessment by Assegued & Associates.

All this material will be reviewed for applicability to the project and to help determine whether additional information might be needed to adequately describe existing conditions and determine impacts and mitigations for the development activities included in the MLCP update.

### **2. Describe Existing Conditions, Marine Biological Resources**

Occurring near the mouth of an estuary with extensive wetlands and agricultural drainages, the Moss Landing area supports diverse marine biological resources. These include will be thoroughly described including the following:

- Regional setting;
- Regulatory setting;
- Habitats in the area with associated benthic and planktonic invertebrates, algae, fishes, birds and mammals;
- Sensitive habitats, such as eelgrass beds and essential fish habitat; and
- Special status species, such as green sturgeon, Chinook and Coho salmon, southern sea otter and other marine mammals.

Emphasis will be placed on sensitive habitats and foraging or resting areas for marine mammals and special status species. Tabular information will be provided including lists of species by major group, with their likelihood of occurring in the project area and season of occurrence.

### **3. Analysis of Potential Impacts**

Impacts associated with implementation of the MLCP update could result from construction and operation of new or revised developments. Construction impacts could include the following:

- Physical disturbances or loss of habitats and associated temporary or permanent loss of biota;
- Disturbances of wildlife associated with construction activities, noise and light;

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

- Reduced water quality or degraded habitats associated with resuspension of contaminated sediments or runoff from land of spilled fuel, construction materials, or sediments.
- Operational impacts could include the following:
- Disturbances of wildlife associated with elimination of habitat or increased activities, noise and light;
- Reduced water quality due to increased storm runoff associated with possible increases in impervious area.

All impacts will be characterized by their duration, significance and potential for mitigation. Short-term impacts will typically be associated with construction activities. Long-term impacts will be associated with permanent operational activities. The significance of impacts will be determined by comparing them with applicable regulatory standards and criteria, including:

- The California Ocean Plan,
- National Marine Fisheries Service criteria for disturbance or “take” of marine mammals,
- The likelihood for increasing contaminant concentrations in prey items of special status species,
- The comparison between the amount of habitat affected by the proposed implementation of the updated MLCP and the total amount of that habitat in the area, and
- The availability of suitable measures for mitigation.

#### **4. Mitigation Strategy**

Mitigation measures will be developed wherever possible to reduce impacts to less than significant. Potential mitigations could include the following:

- Restriction of some construction activities to certain hours of the day or months of the year;
- Use of construction methods or practices to reduce disturbances, resuspension of sediments and runoff, such as use of wattle, detention basins, boom skirts, etc.;
- Implementation of design practices, such as Low Impact Development, to reduce storm runoff from impervious surfaces;

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

- Remediation of disturbed habitat; and
- Construction of eliminated habitat elsewhere.

This report would be included as an appendix to the EIR.

### **2.5 CULTURAL RESOURCES**

Archaeological Consulting will prepare a Cultural Resources Evaluation Report, which will consist of the following scope of work:

1. Request a background search of the records at the Northwest Regional Information Center at Sonoma State University to determine the locations of previously recorded archaeological sites and historical resources within the project area and in the immediate vicinity, as well as to obtain a complete bibliography of all reports completed to date in Moss Landing, Monterey County, California. We will also complete local research at historical societies and county agencies. We will review the previous project reports, site records and updates, and local research data and will include all pertinent findings in the Cultural Resources Evaluation Report for the current project.
2. Request a Sacred Lands File Search through the Native American Heritage Commission and will conduct consultation with Native American individuals and/or groups and other interested parties as directed by the Commission.
3. Undertake site visits to those specific project areas with currently proposed short and long range plans/projects which have not yet been subject to archaeological study. We will also make site visits, where necessary, to confirm the findings of existing cultural resources reports in order to determine the overall cultural resources sensitivity of the area.
4. Complete a Cultural Resources Evaluation Report which will contain findings and recommendations, including testing and/or mitigation measures, as appropriate, for the Moss Landing Community Plan project area.

This report would not be included as an appendix to the EIR, but would be submitted to the County staff under separate cover.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **2.6 GEOLOGY AND SOILS**

This section of the EIR will address the general nature of the Community geology and soil. Issues to be addressed include the following: faulting and seismic shaking, liquefaction, landslides, erosion, and soil capabilities. The issues will be addressed in a general nature unless site specific investigation has been conducted on development sites and those reports are available for our use.

### **2.7 HAZARDS AND HAZARDOUS MATERIALS**

This section of the EIR will be completed based upon existing information available from public sources and from the applicants of specific development projects. A significant amount of work was accomplished for projects in the vicinity, some of which is available in EMC's library.

### **2.8 SURFACE WATER HYDROLOGY AND WATER QUALITY**

EMC Planning Group Inc. will prepare a surface water hydrology and water quality section of the EIR that looks at buildout of the Community Plan Update at a programmatic level and each of the defined development projects at a project level. Where it applies to marine resources, coordination on the section will occur with Applied Marine Resources as described below. We will identify proposed mitigation measures as appropriate. Water demand and supply will be addressed in the utilities section of the EIR.

Marine water quality in the project area is influenced by complex interactions among oceanographic, tidal, meteorological and land use processes. In particular, a description of marine water quality in the project area will require consideration of the following:

- The Monterey Submarine Canyon comes within 2.25 miles of shore;
- The Salinas and Pajaro rivers, as well as agricultural drainages surrounding Elkhorn Slough discharge into the area;
- There is regular tidal exchange between Moss Landing Harbor/Elkhorn Slough and Monterey Bay;
- Historic land uses around Moss Landing Harbor have contributed to high concentrations of contaminants in the sediments.

All these factors help create seasonally varying water quality in Moss Landing Harbor and Elkhorn Slough that contribute to existing conditions.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **2.9 LAND USE AND PLANNING**

This section of the EIR will address the proposed project's consistency with the North County Land Use Plan (the focus of the consistency analysis), the County General Plan, Title 20, the Coastal Act, the Clean Air Plan, and the Regional Transportation Plan. EMC Planning Group Inc. will incorporate a consistency matrix prepared by County staff discussing consistency with relevant policies of the North County Land Use Plan, if available.

### **2.10 NOISE**

The level of development envisioned for the Community Plan Update would result in noise-related construction and operational activities. Brown-Buntin Associates will conduct a noise analysis and prepare a technical report for the EIR. The scope of work follows:

1. Document existing ambient noise levels within the plan area by conducting 24-hour noise measurements at up to four (4) representative locations within the plan area. Identify major sources of community noise within the plan area and develop generalized noise exposure information for those sources for existing conditions. Known sources of noise in the area include State Highway 1, commercial/industrial uses, and the existing power plant.
2. Develop future noise exposure information for potential new transportation and stationary noise sources in the community plan area, including the prospective projects identified in the RFP. This task will also include consideration of potential short-term noise impacts related to construction of roadways and other infrastructure improvements in the plan area. Future traffic noise in the community plan area will be quantified based upon the FHWA Traffic Noise Model and traffic data to be provided by other members of the project team.
3. Compare project-related noise levels and expected long-term changes in the ambient noise environment within the plan area to applicable Monterey County noise compatibility criteria and the CEQA Guidelines. Prepare generalized recommendations for noise mitigation as may be required.
4. Prepare a report describing the methods, data, findings and recommendations for noise mitigation of the study.

This report would be included as appendix to the EIR.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **2.11 POPULATION AND HOUSING**

This section of the EIR will evaluate whether or not the Community Plan Update and development projects would induce population growth in the area, displace existing housing, or displace people, thereby necessitating the construction of housing elsewhere.

### **2.12 PUBLIC SERVICES AND UTILITIES**

#### **Water**

The key water supply issue is the long-term availability of supply to meet additional demand in Moss Landing. Pajaro Sunny Mesa Community Services District (PSMCSD or CSD) is the major provider of water supply to Moss Landing, having recently assumed responsibility for water supply from the Alisal Water Company. PSMCSD also serves multiple communities in northern Monterey County, including Pajaro and Sunny Mesa within the Pajaro Valley Water Management Agency (PVWMA).

The Moss Landing water system uses local groundwater from the lower Salinas Valley groundwater basin. This basin has been in overdraft with significant seawater intrusion of the 180-foot and 400-foot aquifers; Moss Landing is situated on the northern margin of the 500-mg/L chloride area mapped by Monterey County Water Resources Agency (MCWRA) as indicating seawater intrusion. Seawater intrusion (indicated by 100 mg/L chloride concentrations) also has been mapped to the north of Elkhorn Slough by PVWMA. As described by Monterey County LAFCO, local groundwater also is affected by nitrate contamination.

A portion of the Moss Landing Community Plan (MLCP) area extends north of Elkhorn Slough into PVWMA, although this area is not within the existing or proposed Urban Services Boundary. According to the LAFCO Municipal Services Review, the Moss Landing water system is located beyond the jurisdictional area of the PVWMA and export of water from the PVWMA to Moss Landing is prohibited by PVWMA ordinances. PSMCSD has been exploring additional water supplies, including a regional desalination plant in Moss Landing.

With regard to the proposed MLCP, the Moss Landing Community Plan Update Committee expressed concern over the sufficiency and capacity of water supply facilities to provide existing and proposed needs and the long-term sustainability of water sources. PSMCSD has indicated that water supply is sufficient for existing connections and planned development, but not for additional growth. The CSD also indicated additional needed facilities including a water pipeline, storage tank, and other improvements. Committee recommendations include possible phasing of new development, encouragement of water demand management, and pursuit of

## EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS

additional water sources (e.g., desalination) to provide long-term supply while minimizing seawater intrusion.

The issue of long-term water supply sustainability will be addressed with a Water Supply Assessment (WSA) prepared in accordance with California Water Code section 10910 (also termed Senate Bill 610 or SB 610). This statute requires detailed assessment of water supply availability prior to the approval of large projects. In order to ensure compliance, our approach will follow the Department of Water Resources (DWR) Guidebook for Implementation of Senate Bills 610 and 221 and provide step-by-step documentation of water supply and demand.

The existing Moss Landing water supply is groundwater; if any planned additional demand as part of the MLCP is satisfied with groundwater, then the California Water Code section 10910, subdivision (f) requires analysis of the sufficiency of the groundwater basin to meet the projected water demand associated with the proposed project. This includes documentation of the groundwater basin, as defined by the DWR and modified by recent court decisions such as *OWL Foundation v. City of Rohnert Park*. Documentation also is required of the condition of overdraft and efforts being undertaken to eliminate the overdraft. The water code also requires detailed description of the amount and location of existing and future groundwater pumping (based on readily available information).

Our proposed scope of work includes documentation of local groundwater resources. We recognize that PSMCSD has not proposed to provide groundwater to satisfy additional growth beyond what already is planned. However, groundwater could potentially be used, barring strict regulation of private well pumping.

If the water supply and demand analysis indicates that water supply is insufficient, we will summarize PSMCSD plans for acquiring additional water supply. As described in the 2006 LAFCO Municipal Services Review, PSMCSD secured a 98-year lease for a 20 acre site including existing seawater intake and outfall pipes, and entered into a development agreement with Poseidon Resources Corporation to pursue permits and other approvals for the project. The CSD also was reported to be seeking other agencies interested in partnering in this project. The WSA will document current efforts to obtain additional supplies. To fulfill SB 610 requirements, the summarized plans will include an estimate of costs, identification of required permits, and a timeframe to develop the water supplies.

If the water supply is deemed insufficient, the County may still approve the project but it must include that determination, based on the entire record, in the findings for the project. It must include substantial evidence in the record to support its approval of the project.

Todd Engineers will address groundwater issues and prepare the WSA. Their scope of work is as follows:

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

1. Kick-off Meeting, Data Acquisition and Review. Todd Engineers will attend the project kick-off meeting and acquire and review relevant existing information regarding water supply and demand for the project. The WSA will focus on the MLCP area, with appropriate reference to the lower Salinas Valley groundwater basin. We understand that no Urban Water Management Plan—a foundational document for a Water Supply Assessment—is available from PSMCSD, reflecting its limited number of connections.

The data acquisition task will begin with review of the water-related sections of the Moss Landing Economic Development Strategy, prepared by Applied Development Economics, which will provide important background information on water supply and demand. In addition, we will utilize information from our own extensive files, including hydrogeologic reports and existing water supply studies. As needed, we will contact the CSD and the Monterey County Department of Health, Environmental Health Division (EHD) to acquire available information on the Moss Landing water system, including recent and historical water supply and water demand data. We will also contact the CSD, EHD and MCWRA to obtain information on local wells and pumping. Existing MCWRA documents will be used to document local groundwater overdraft and seawater intrusion conditions and the effectiveness of the Salinas Valley Water Project in limiting seawater intrusion. We will also gather relevant information on the proposed Coastal Water Project in terms of future regional water supplies and potential cumulative impacts of any proposed groundwater development.

We anticipate provision of specific population and water demand data for the proposed phased alternatives for the next 20 years. If the data are not provided in five-year increments suitable for a WSA, we will provide the necessary estimates (e.g., interpolations) using available information. For this scope, it is assumed that data will be provided electronically in spreadsheets (Excel) and/or databases (GIS).

2. Water Supply and Demand Assessment. Evaluate water supply and demand for the project during normal and drought conditions in five-year increments with projections over the next 20 years. Water supply and demand will be compared to assess the sufficiency of water supply for the MLCP project in light of Moss Landing's total water supply and demand. If the supply is deemed insufficient, we will appropriately document PSMCSD plans for water supply augmentation.
  - 2a. Assess Water Demand. Water demands are required to be quantified by water use sectors in five-year increments, insofar as data are available. Recognizing that the MLCP involves no expansion of the plan boundary or definition of new land uses on undeveloped land, then the focus of this assessment will be on comparison of existing and planned future water demands in order to quantify any additional demand. The additional demand of the MLCP will be evaluated using information from the Moss

## EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS

Landing Economic Development Strategy. We anticipate receiving land use data for each phased alternative, such as number of hotel units, retail floor space, industrial uses, and irrigated park acreage, plus water use factors. Our assessment will include independent review of water demand estimates.

- 2b. Assess Water Supply. Groundwater is the existing source of supply; accordingly, we will provide the documentation of groundwater required by section 10910. The CSD currently has wells in the service area that provide water supply and historical groundwater use will be documented insofar as data are available, for example, from the Moss Landing Economic Development Strategy document. The assessment will provide a succinct evaluation of the groundwater supply in terms of quantity, quality, and sufficiency. This will involve using DWR and MCWRA documents to describe the groundwater basin, local groundwater management, and condition of the basin in terms of overdraft. This section will include an assessment of the sufficiency of groundwater as a possible source of supply for the project. A summary table will document existing and planned water supplies for the Moss Landing service area of PSMCSD in 5-year increments over a 20-year projection.
- 2c. Evaluate Drought Supply and Demand. This evaluation will address water supply not only for normal years, but also for single-year and multiple-year droughts. We anticipate defining drought conditions for each source of supply by using information from the PSMCSD, Monterey County Planning Department, Monterey County Health Department, and other local agencies. We will also estimate the expected reduction in water demand in response to water conservation.
- 2d. Determine Sufficiency. The water supply assessment will provide a discussion of the sufficiency of water supply for the project. This will involve comparison of total water supply and demand for the service area with and without the project under normal conditions with a projection in five-year increments over a 20-year period. The discussion will also address the 20-year projected water supply and demand under single-year and multiple-year drought conditions.

If the analysis indicates that water supply is insufficient, we will describe PSMCSD plans for acquiring additional water supply. In accordance with WSA requirements, these plans will include an estimate of costs, identification of required permits, and a timeframe to develop the water supplies.

- 2e. Evaluate Impacts and Identify Mitigation. We propose combining the CEQA evaluation of potential impacts into the WSA report; this is not only cost-effective, but will allow consideration of water supply and groundwater issues in one cohesive document. The evaluation will focus on the potential impacts of possible increased

## EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS

groundwater pumping in the future, including potential drawdown impacts on nearby wells, and cumulative impacts on regional overdraft and seawater intrusion. Evaluation of the availability of long-term water supply will be addressed in Task 2d.

If impacts are deemed significant, mitigation measures recommended for the project are likely to include measures to reduce demand. These could involve alternative project design and phasing, additional water conservation measures, and acquisition of additional supplies. With regard to cumulative impacts, development of mitigation measures will be based in part on ongoing water management planning.

3. Reporting. This task involves preparation of an administrative draft, draft and final WSA report.
  - 3a. Administrative Draft WSA Report. The water supply assessment will be presented in an administrative draft report for EMC and County staff review; we anticipate that this draft also will be provided to MCWRA. The text of the report will be concise and focused on relevant tables. Graphics may be limited to a study area location map and a map of water supply facilities; we anticipate that existing GIS graphics would be available.
  - 3b. Draft WSA Report. Comments will be incorporated into the draft WSA report, which will be provided to PSMCSD for review and comments; these will be addressed in the Final WSA Report.
  - 3c. Final WSA Report. The Final WSA Report will be included as an appendix to the DEIR. The PSMCSD, as the water purveyor, should approve the report prior to release of the draft EIR.
4. Meetings. We assume Todd Engineers will participate in at least one meeting in Monterey County. Todd Engineers can participation in additional meetings and hearings on an as-needed basis.

### Wastewater

The proposed project includes expanding the Urban Service Line to include the Moss Landing Business Park, the Moss Landing Power Plant, and the Moss Landing Switch Yard so that they may remove existing septic systems and connect to the sewer system. This would likely result in a beneficial environmental impact. The Monterey Regional Water Pollution Control Agency indicates that they have sufficient capacity in the regional treatment plant to serve the new projects. The EIR will evaluate the physical environmental effects of the local infrastructure upgrades (piping, lift station, etc.) in order to serve buildout. EMC Planning Group Inc. will base this EIR section on the results of Harris and Associates, *Addendum – Engineering Report for*

## EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS

*Sanitary Sewer System Loss Landing California*, and SFE Global, *City of Moss Landing, Sanitary Sewer Flow Monitoring* reports as well as technical information provided as the Moss Landing Storm Sewer Authority project description develops.

### Emergency Services

This section of the EIR will address law enforcement, fire protection and ambulance service. The existing locations of the nearest stations and service providers will be described, as well as the existing response times. Environmental impacts, if any, will be described.

## 2.13 TRANSPORTATION/TRAFFIC

The purpose of the transportation analysis is to evaluate the impacts of the updated Moss Landing Community Plan and three specific projects proposed within the planning area. The Community Plan needs only a program level CEQA analysis, while the individual projects will need project level analyses. A stand-alone transportation impact analysis report will be prepared.

Traffic studies have been prepared for some of these proposed projects and these studies are available as input into the current analysis. These previous traffic studies as well as on-going planning studies by Caltrans have identified some potential improvements along Highway 1 to improve operations and safety. These improvements will be considered in the evaluation of the impacts and potential mitigation.

The impacts of the Community Plan and the developments will be evaluated following guidelines of the Monterey County and incorporate guidelines from Caltrans and the Transportation Agency for Monterey County (TAMC) as needed. While the focus of the analysis will be on the Highway 1 corridor and access to the local roadway system, it will also consider potential impacts to the bicycle, pedestrian, and transit systems. For the individual project, the transportation analysis will also address site access and on-site circulation where detailed site plans are available.

The intersections will be evaluated for the highest peak hour occurring during the weekday morning (7:00 – 9:00 AM) and evening (4:00 – 6:00 PM) peak periods for the following scenarios:

**Scenario 1:** Existing Conditions – Existing volumes obtained from previous traffic studies plus projected traffic generated by existing but unoccupied buildings in the Moss Landing Green Business Park site. .

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

**Scenario 2:** Individual Project Conditions – Existing volumes plus traffic generated by each of the development projects listed below:

- Monterey Bay Aquarium Research Institute (MBARI)
- Moss Landing Marine Lab-California State University (Marine Labs)
- Gregg's Drilling

**Scenario 3:** No Project Cumulative Analysis – Year 2030 cumulative analysis scenario will be developed using the AMBAG model to determine a growth factor for through traffic on Highway 1 with origins and destinations outside the immediate Moss Landing study area.

**Scenario 4:** Community Plan Cumulative Analysis – Year 2030 cumulative traffic volumes including the Community Plan Buildout and the three projects listed above. The AMBAG model will be used to determine a growth factor for through traffic on Highway 1 with origins and destinations outside the immediate Moss Landing study area.

The following key intersections will be evaluated for potential impacts during the weekday peak periods:

### **Intersections:**

1. Highway 1 / Dolan Road
2. Highway 1 / Moss Landing (North)
3. Highway 1 / Moss Landing (South) – Potrero Road
4. Highway 1 / Merritt Road (Highway 183)

Fehr & Peers Transportation Consultants will complete the following tasks for the transportation analysis:

1. Review Existing Reports & Collect Available Data

Fehr & Peers will review the previous traffic studies and collect the available data for the planning area. Traffic studies have been performed by Higgins & Associates (now Hatch-Mott-McDonald), James Jeffery, and Hexagon Transportation Consultants. The most recent report was prepared in July 2008 and will be the primary source of data used for the analysis.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

Fehr & Peers will also work with Monterey County staff to get a concise definition of the Community Plan land uses and the details of the individual development projects.

### **2. Kick Off Meeting & Site Reconnaissance**

A meeting will be held between Fehr & Peers, Monterey County, and Caltrans to discuss the study scope, technical approach, and analysis methodologies. The meeting will also include a discussion of existing operational or safety issues within the study area and the proposed or planned transportation improvements within the study area. Following the kick off meeting, Fehr & Peers will visit the study area to access the existing conditions as compared to the information provided in the earlier reports and to better understand the proposed or planned roadway improvements.

### **3. Prepare Trip Estimates & Finalize Scope of Work**

The amount of traffic generated by the proposed Community Plan and the individual projects will be developed. Additionally, Fehr & Peers will develop trip generation estimate for the existing unoccupied buildings on the Moss Landing Green Business Park site. Since many of the proposed uses are specialized services or activities, it may be necessary to use sources other than the Institute of Transportation Engineers Trip Generation publications to prepare the trip generation estimates. In these cases, the trip generation may be estimated based on operational factors such as the number of employees, number of visitors, hours of operation, etc.

The directions of approach and departure for the Community Plan, project traffic, and unoccupied buildings will be estimated based on the existing travel patterns and the relative locations of complementary land uses (e.g., location of residential neighborhoods). The distribution will be further refined using the knowledge for previous studies, input from county staff and output from the AMBAG travel demand model.

The trip distribution pattern and trip assignments will be submitted to County staff for review and approval. Refinements to the trip assignments will be made based on staff comments and the list of study intersections may be modified based on these refinements. If needed, the scope of work will be refined to address issues raised during consultation with County staff and Caltrans.

### **4. Evaluate Existing Conditions**

Existing intersection and highway segment traffic counts will be obtained from published reports and each jurisdiction's data sources. All counts will be dated 2008 or later. Any new counts will be conducted as an additional service. Trips developed in Task 3 above

## EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS

associated with the unoccupied existing buildings on the Moss Landing Green Business Park site will be added to the counts to develop volumes under Existing Conditions.

The physical characteristics of the site and the surrounding roadway network will be reviewed during a site visit to verify existing roadway cross-sections, intersection lane configurations, traffic control devices, surrounding land uses, and the locations of pedestrian, bicycle, and transit facilities. Observations of traffic operations will be conducted to verify or explain calculated service levels.

The existing operation of the key intersections will be evaluated with level of service calculations using the *2000 Highway Capacity Manual* (HCM) operations method to provide consistency with County and Caltrans guidelines. The SYNCHRO 6 analysis software will be used to calculate the Level of Service of unsignalized intersections. This approach is consistent with previous County studies for the Moss Landing planning area and Caltrans TIA guidelines. A description of existing transit, bicycle, and pedestrian facilities will also be included as part of this task.

In addition to evaluating the operations of the intersections, Fehr & Peers will review the available accident data for Highway 1. Request will be made to both the County and Caltrans for updated information on accidents within the study area. This data will be used in preparing potential mitigation and recommendations for improved access within the planning area.

### 5. Evaluate Each Specific Development Project

The project generated trips estimated in Task 3 above will be added to the Existing Conditions. Level of service calculations will be prepared for each individual project to estimate the operating levels of the study intersections with project-generated traffic under this scenario. Operation of study intersections will be analyzed based on the LOS results. In addition, the need for extending left-turn pockets at study intersections near the site to accommodate projected queues from the SYNCHRO analysis will be noted for key left-turn movements where the projects add traffic. If the addition of a project's traffic results in an operational or safety deficiency, those issues will be identified.

The effect of the proposed project on bicycle, pedestrian, and transit facilities and services will also be addressed under this task. Potential conflicts with existing or planned non-automobile mode improvements will be identified. The level of this analysis may vary between projects depending on the availability of a detailed site plan. Since Fehr & Peers specializes in bicycle and pedestrian planning, we will note any impediments to these forms of access to the project site.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

In order to simplify the review of the project level evaluations, the results of the project level analyses will be summarized in a matrix or graphic format. This matrix will identify if there are specific impacts at intersections that are generated by an individual project.

### **6. Evaluate Year 2030 with No Project Conditions**

An annualized growth factor will be applied to existing volumes to estimate additional through traffic growth to Year 2030. The growth factor will be determined in consultation with County staff using historical traffic counts and information from the Association of Monterey Bay Area Governments (AMBAG) travel demand model.

Intersection level of service calculations will be conducted to estimate the operating levels of the study intersections without project generated traffic. Operation of study intersections will be evaluated based on the LOS results. Calculations will be made to determine the level of traffic contributed by each of the development projects at the study intersections. These calculations will be made by comparing the overall growth in traffic to the project trips using the intersection.

### **7. Evaluate Year 2030 with Community Plan Conditions**

The traffic generated by the Community Plan and the individual developments will be added to the 2030 No Project Conditions to create the Cumulative Project Conditions. The Year 2030 Community Plan Conditions analysis will assume full development of the Community Plan land uses and the individual development projects. The traffic generated from the Community Plan and the individual development projects will be added to the Year 2030 No Project Conditions.

Intersection level of service calculations will be conducted to estimate the operating levels of the study intersections with project-generated traffic under this scenario. Operation of study intersections will be evaluated based on the LOS results. Calculations will be made to determine the level of traffic contributed by each of the development projects at the study intersections. These calculations will be made by comparing the overall growth in traffic to the project trips using the intersection.

### **8. Evaluate Site Access, and On-Site Circulation**

Site access and on-site circulation will be evaluated for the three proposed development projects based on the site design, adjacent roadways, and driveway layout. The extent of this review will be dependent on the site plan provided. The number of proposed access points and the required traffic control devices will be reviewed as part of this task.

To the extent possible, the existing parking supply and the projected parking demand will be evaluated. This analysis will include comparing the proposed supply to city standards.

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

### **9. Identify Significant Impacts and Recommend Mitigation Measures**

Significant impacts will be identified using appropriate criteria for each travel mode and circulation issue. Project impacts from the proposed development will be identified by comparing the results of the level of service calculations for Background Conditions to the results for individual Project Conditions. Year 2030 (long-term) impacts of the proposed Community Plan will be identified by comparing the results of the level of service calculations for Year 2030 No Project Conditions. County and Caltrans TIA guidelines will be used to identify impacts for the facilities.

For significant impacts, feasible mitigation measures will be recommended to reduce impacts to a less than significant level where possible. Measures could include physical improvements such as adding turn lanes, installing traffic signals, or restricting turning movements. Schematic diagrams of physical improvements will be provided as an additional service and potential secondary impacts of those mitigation measures (e.g., additional right-of-way, tree removal, negative impacts to bicyclists and pedestrians) will be identified based on field observations.

Safety on Highway 1 is the primary traffic issue for the Moss Landing Planning Area. Previous and ongoing traffic studies have examined the need to provide access to adjacent land use and serve regional through traffic in a safe and efficient manner. The ongoing Caltrans' Highway 1 Corridor System Management Program is considering options to improve traffic flow and safety within the planning area. These options range from improvements within the existing alignment to creating a new by-pass of the planning area. Fehr & Peers will review the recommendations from previous studies and coordinate with Caltrans and the County regarding ongoing planning effort in order to develop a comprehensive approach to providing access to the planning area and enhancing the safety on Highway 1.

Project impacts to the surrounding transit, bicycle, pedestrian facilities and parking will also be identified. Measures to mitigate project impacts on these facilities will be recommended including providing appropriate linkages to adjacent land uses, and improving facilities for all modes including bus turnouts, shelters, etc.

### **10. Prepare Documentation**

Fehr & Peers will prepare a stand-alone transportation impact analysis (TIA) report, which will include text, graphics, and tables to describe the potential impacts of the proposed project and corresponding mitigation measures. An administrative draft of the report will be submitted for review and comment. Fehr & Peers will address any questions and make any corrections needed to the document and a draft report will be prepared for review by

## **EXHIBIT A – SCOPE OF SERVICES/PAYMENT PROVISIONS**

County staff, Fehr & Peers will address any questions and make any corrections needed to the document and prepare a final TIA for public review and circulation with the environmental document.

This report would be included as an appendix to the EIR.

### **2.14 EFFECTS FOUND TO BE LESS THAN SIGNIFICANT**

This section of the EIR will briefly summarize environmental impacts that were found to be less than significant and eliminated from further discussion.

### **2.15 CUMULATIVE IMPACTS**

If the County's General Plan Update has been adopted prior to beginning this section of the EIR, EMC would use the County's General Plan Update EIR to prepare this section. If the Update has not yet been adopted, EMC will work with County staff to develop a cumulative impact scenario to evaluate in the EIR.

### **2.16 OTHER SECTIONS REQUIRED BY CEQA**

Other areas that will be addressed, consistent with the CEQA Guidelines, include irretrievable commitment of resources. Significant and unavoidable impacts will also be summarized. The EIR will include all sections required by CEQA including the summary, a project description, and impacts and mitigation measures.

### **2.17 ALTERNATIVES**

The EIR will evaluate up to three alternatives in addition to the no project alternative. These alternatives will be developed in consultation with County staff.

**3.0**

A. Coverage

We will pay all sums an insured legally must pay as damages because of bodily injury or property damage to which this insurance applies, caused by an accident and resulting from the ownership, maintenance or use of a covered auto.

We will also pay all sums an insured legally must pay as a covered pollution cost or expense to which this insurance applies, caused by an accident and resulting from the ownership, maintenance or use of covered autos. However, we will only pay for the covered pollution cost or expense if there is either bodily injury or property damage to which this insurance applies that is caused by the same accident.

We have the right and duty to defend any insured against a suit asking for such damages or a covered pollution cost or expense. However, we have no duty to defend any insured against a suit seeking damages for bodily injury or property damage or a covered pollution cost or expense to which this insurance does not apply. We may investigate and settle any claim or suit as we consider appropriate. Our duty to defend or settle ends when the Liability Coverage Limit of Insurance has been exhausted by payment of judgments or settlements.

1. Who Is an Insured

The following are insureds:

- a. You for any covered auto.
- b. Anyone else while using with your permission a covered auto you own, hire or borrow except:
  - (1) The owner or anyone else from whom you hire or borrow a covered auto. This exception does not apply if the covered auto is a trailer connected to a covered auto you own.

- (5) All costs taxed against the insured in any suit against the insured we defend.

entry of the judgment in any suit against the insured we defend, but our duty to pay interest ends when we have paid, offered to pay or deposited in court the part of the judgment that is within our Limit of Insurance.

### b. Out-of-State Coverage Extensions

While a covered auto is away from the state where it is licensed we will:

(1) Increase the Limit of Insurance for Liability Coverage to meet the limits specified by a compulsory or financial responsibility law of the jurisdiction where the covered auto is being used. This extension does not apply to the limit or limits specified by any law governing motor carriers of passengers or property.

(2) Provide the minimum amounts and types of other coverages, such as no-fault, required of out-of-state vehicles by the jurisdiction where the covered auto is being used.

Section IV - Business Auto Conditions

The following conditions apply in addition to the Common Policy Conditions:

A. Loss Conditions

1. Appraisal for Physical Damage Loss

If you and we disagree on the amount of loss, either may demand an appraisal of the loss. In this event, each party will select a competent appraiser. The two appraisers will select a competent and impartial umpire. The appraisers will state separately the actual cash value and amount of loss. If they fail to agree, they will submit their differences to the umpire. A decision agreed to by any two will be binding. Each party will:

- a. Pay its chosen appraiser; and
- b. Bear the other expenses of the appraisal and umpire equally.

If we submit to an appraisal, we will still retain our right to deny the claim.

2. Duties in the Event of Accident, Claim, Suit or Loss

We have no duty to provide coverage under this policy unless there has been full compliance with the following duties:

- a. In the event of accident, claim, suit or loss, you must give us or our authorized representative prompt notice of the accident or loss. Include:
  - (1) How, when and where the accident or loss occurred;
  - (2) The insured's name and address; and
  - (3) To the extent possible, the names and addresses of any injured persons and witnesses.

- b. Additionally, you and any other involved insured must:

- (1) Assume no obligation, make no payment or incur no expense without our consent, except at the insured's own cost.

- (2) Immediately send us copies of any request, demand, order, notice, summons or legal paper received concerning the claim or suit.
  - (3) Cooperate with us in the investigation or settlement of the claim or defense against the suit.
  - (4) Authorize us to obtain medical records or other pertinent information.
  - (5) Submit to examination, at our expense, by physicians of our choice, as often as we reasonably require.
- c. If there is a loss to a covered auto or its equipment you must also do the following:
- (1) Promptly notify the police if the covered auto or any of its equipment is stolen.
  - (2) Take all reasonable steps to protect the covered auto from further damage. Also keep a record of your expenses for consideration in the settlement of the claim.
  - (3) Permit us to inspect the covered auto and records proving the loss before its repair or disposition.
  - (4) Agree to examinations under oath at our request and give us a signed statement of your answers.

### 3. Legal Action Against Us

No one may bring a legal action against us under this Coverage Form until:

- a. There has been full compliance with all the terms of this Coverage Form; and
- b. Under Liability Coverage, we agree in writing that the insured has an obligation to pay or until the amount of that obligation has finally been determined by judgment after trial. No one has the right under this policy to bring us into an action to determine the insured's liability.

### 4. Loss Payment - Physical Damage Coverages

At our option we may:

- a. Pay for, repair or replace damaged or stolen property;
- b. Return the stolen property, at our expense. We will pay for any damage that results to the auto from the theft; or
- c. Take all or any part of the damaged or stolen property at an agreed or appraised value.

If we pay for the loss, our payment will include the applicable sales tax for the damaged or stolen property.

### 5. Transfer of Rights of Recovery Against Others to Us

If any person or organization to or for whom we make payment under this Coverage Form has rights to recover damages from another, those rights are transferred to us. That person or organization must do everything necessary to secure our rights and must do nothing after accident or loss to impair them.

## B. General Conditions

### 1. Bankruptcy

Bankruptcy or insolvency of the insured or the insured's estate will not relieve us of any obligations under this Coverage Form.

### 2. Concealment, Misrepresentation or Fraud

This Coverage Form is void in any case of fraud by you at any time as it relates to this Coverage Form. It is also void if you or any other insured, at any time, intentionally conceal or misrepresent a material fact concerning:

- a. This Coverage Form;
- b. The covered auto;
- c. Your interest in the covered auto; or
- d. A claim under this Coverage Form.

### 3. Liberalization

If we revise this Coverage Form to provide more coverage without additional premium charge, your policy will automatically provide

the additional coverage as of the day the revision is effective in your state.

#### 4. No Benefit to Bailee - Physical Damage Coverages

We will not recognize any assignment or grant any coverage for the benefit of any person or organization holding, storing or transporting property for a fee regardless of any other provision of this Coverage Form.

#### 5. Other Insurance

- a. For any covered auto you own, this Coverage Form provides primary insurance. For any covered auto you don't own, the insurance provided by this Coverage Form is excess over any other collectible insurance. However, while a covered auto which is a trailer is connected to another vehicle, the Liability Coverage this Coverage Form provides for the trailer is:

- (1) Excess while it is connected to a motor vehicle you do not own.
- (2) Primary while it is connected to a covered auto you own.

- b. For Hired Auto Physical Damage Coverage, any covered auto you lease, hire rent or borrow is deemed to be a covered auto you own. However, any auto that is leased, hired, rented or borrowed with a driver is not a covered auto.

- c. Regardless of the provisions of Paragraph a. above, this Coverage Form's Liability Coverage is primary for any liability assumed under an insured contract.

- d. When this Coverage Form and any other Coverage Form or policy covers on the same basis, either excess or primary, we will pay only our share. Our share is the proportion that the Limit of Insurance of our Coverage Form bears to the total of the limits of all the Coverage Forms and policies covering on the same basis.

#### 6. Premium Audit

- a. The estimated premium for this Coverage Form is based on the exposures you

told us you would have when this policy began. We will compute the final premium due when we determine your actual exposures. The estimated total premium will be credited against the final premium due and the first Named Insured will be billed for the balance, if any. The due date for the final premium or retrospective premium is the date shown as the due date on the bill. If the estimated total premium exceeds the final premium due, the first Named Insured will get a refund.

- b. If this policy is issued for more than one year, the premium for this Coverage Form will be computed annually based on our rates or premiums in effect at the beginning of each year of the policy.

We also cover loss to, or accidents involving, a covered auto while being transported between any of these places.

8. Two or More Coverage Forms or Policies Issued by Us

If this Coverage Form and any other Coverage Form or policy issued to you by us or any company affiliated with us apply to the same accident, the aggregate maximum Limit of Insurance under all the Coverage Forms or policies shall not exceed the highest applicable Limit of Insurance under any one Coverage Form or policy. This condition does not apply to any Coverage Form or policy issued by us or an affiliated company specifically to apply as excess insurance over this Coverage Form.

- (2) Up to \$2,500 for the cost of bail bonds (including bonds for related traffic law violations) required because of an accident we cover. We do not have to furnish these bonds.
- (4) All reasonable expenses incurred by the insured at our request, including substantiated loss of earnings up to \$500 a day, because of time off from work.

**M. Duties in the Event of Accident, Claim, Suit or Loss - Amended**

However, if you unintentionally fail to disclose any hazards existing at the inception date of this policy, we will not deny coverage under this Coverage Form because of such failure. However, this provision does not affect our right to collect additional premium or exercise our right of cancellation or non-renewal.

**O. Fellow Employee Coverage**

Section II - Liability Coverage, B. Exclusions, 5. Fellow Employee, the following is added:

However, this exclusion does not apply if the bodily injury results from the use of a covered auto you own or hire, and provided that any coverage under this provision only applies in excess over any other collectable insurance.

**P. Limited Mexico Coverage**

**WARNING**

AUTO ACCIDENTS IN MEXICO ARE SUBJECT TO THE LAWS OF MEXICO ONLY - NOT THE LAWS OF THE UNITED STATES OF AMERICA. THE REPUBLIC OF MEXICO CONSIDERS ANY AUTO ACCIDENT A CRIMINAL OFFENSE AS WELL AS A CIVIL MATTER.

IN SOME CASES THE COVERAGE PROVIDED HERE MAY NOT BE RECOGNIZED BY THE MEXICAN AUTHORITIES AND WE MAY NOT BE ALLOWED TO IMPLEMENT THIS COVERAGE AT ALL IN MEXICO. YOU SHOULD CONSIDER PURCHASING AUTO COVERAGE FROM A LICENSED MEXICAN INSURANCE COMPANY BEFORE DRIVING IN MEXICO.

THIS ENDORSEMENT DOES NOT APPLY TO ACCIDENTS OR LOSSES WHICH OCCUR OUTSIDE OF 25 MILES FROM THE BOUNDARY OF THE UNITED STATES OF AMERICA.

Form CA0001 (if attached to this policy), SECTION IV - BUSINESS AUTO CONDITIONS, B. General Conditions, item 7.; and form CA0012 (if attached to this policy), SECTION V - TRUCKERS CONDITIONS, B. General Conditions, item 7.; the following is added:

- b. For trips into Mexico of 10 days or less; and
- c. If the covered auto is principally garaged and principally used in the United States; and
- d. If the insured is a resident of the United States.

If a loss to a covered auto occurs in Mexico, we pay for such loss in the United States. If the covered auto must be repaired in Mexico in order to be driven, we will not pay for more than the actual cash value of such loss as determined by us at the nearest United States point where the repairs can be made.

Any insurance provided under this provision will be excess over any other collectible insurance.

Q. Extended Glass Coverage

If glass can be repaired and is actually repaired rather than replaced, the deductible will be waived. You have the option of having the glass repaired rather than replaced.

R. Broadened Definition of Bodily Injury

Form CA0001 (if attached to this policy), SECTION V - DEFINITIONS, item C.; and Form CA0012 (if attached to this policy), SECTION VI - DEFINITIONS, item C.; is replaced by the following:

- C. Bodily Injury means bodily injury, sickness or disease sustained by a person including death or mental anguish resulting from any of these at any time. Mental anguish means any type of mental or emotional illness or disease.

S. Customer Lease or Loan Physical Damage Coverage Extension

Form CA0001 (if attached to this policy), SECTION III - PHYSICAL DAMAGE COVERAGE, C. Limit Of Insurance; and form CA0012 (if attached to this policy), SECTION IV - PHYSICAL DAMAGE COVERAGE, C. Limits Of Insurance; item 4. is added as follows:

- (b) The outstanding indebtedness under the initial finance agreement for the covered auto and its equipment.

As used here, outstanding indebtedness means the amount you owe on the finance agreement at the time of total loss:

- (i) Less any amounts representing taxes, overdue payments, penalties, interest, or charges resulting from overdue payments, additional mileage, excess wear and tear, or lease termination fees; and
- (ii) Less any administrative costs or overhead fees assessed by the finance company who has leased the covered auto to you; and
- (iii) Less security deposits not returned by the lessor; and
- (iv) Less costs for extended warranties, Credit Life Insurance, Health, Accident or Disability Insurance purchased with the loan or lease; and
- (v) Less carry-over balances from previous loans or leases.

## BUSINESS AUTO COVERAGE FORM

Various provisions in this policy restrict coverage. Read the entire policy carefully to determine rights, duties and what is and is not covered.

Throughout this policy the words "you" and "your" refer to the Named Insured shown in the Declarations. The words "we", "us" and "our" refer to the company providing this insurance.

Other words and phrases that appear in quotation marks have special meaning. Refer to Section V – Definitions.

### SECTION I – COVERED AUTOS

Item Two of the Declarations shows the "autos" that are covered "autos" for each of your coverages. The following numerical symbols describe the "autos" that may be covered "autos". The symbols entered next to a coverage on the Declarations designate the only "autos" that are covered "autos".

#### A. Description Of Covered Auto Designation Symbols

Symbol	Description Of Covered Auto Designation Symbols	
1	Any "Auto"	
2	Owned "Autos" Only	Only those "autos" you own (and for Liability Coverage any "trailers" you don't own while attached to power units you own). This includes those "autos" you acquire ownership of after the policy begins.
3	Owned Private Passenger "Autos" Only	Only the private passenger "autos" you own. This includes those private passenger "autos" you acquire ownership of after the policy begins.
4	Owned "Autos" Other Than Private Passenger "Autos" Only	Only those "autos" you own that are not of the private passenger type (and for Liability Coverage any "trailers" you don't own while attached to power units you own). This includes those "autos" not of the private passenger type you acquire ownership of after the policy begins.
5	Owned "Autos" Subject To No-fault	Only those "autos" you own that are required to have no-fault benefits in the state where they are licensed or principally garaged. This includes those "autos" you acquire ownership of after the policy begins provided they are required to have no-fault benefits in the state where they are licensed or principally garaged.
6	Owned "Autos" Subject To A Compulsory Uninsured Motorists Law	Only those "autos" you own that because of the law in the state where they are licensed or principally garaged are required to have and cannot reject Uninsured Motorists Coverage. This includes those "autos" you acquire ownership of after the policy begins provided they are subject to the same state uninsured motorists requirement.
7	Specifically Described "Autos"	Only those "autos" described in Item Three of the Declarations for which a premium charge is shown (and for Liability Coverage any "trailers" you don't own while attached to any power unit described in Item Three).
8	Hired "Autos" Only	Only those "autos" you lease, hire, rent or borrow. This does not include any "auto" you lease, hire, rent or borrow from any of your "employees", partners (if you are a partnership), members (if you are a limited liability company) or members of their households.
9	Non-owned "Autos" Only	Only those "autos" you do not own, lease, hire, rent or borrow that are used in connection with your business. This includes "autos" owned by your "employees", partners (if you are a partnership), members (if you are a limited liability company) or members of their households but only while used in your business or your personal affairs.

19	Mobile Equipment Subject To Compulsory Or Financial Responsibility Or Other Motor Vehicle Insurance Law Only	Only those "autos" that are land vehicles and that would qualify under the definition of "mobile equipment" under this policy if they were not subject to a compulsory or financial responsibility law or other motor vehicle insurance law where they are licensed or principally garaged.
----	--	---

## B. Owned Autos You Acquire After The Policy Begins

1. If Symbols 1, 2, 3, 4, 5, 6 or 19 are entered next to a coverage in Item Two of the Declarations, then you have coverage for "autos" that you acquire of the type described for the remainder of the policy period.
2. But, if Symbol 7 is entered next to a coverage in Item Two of the Declarations, an "auto" you acquire will be a covered "auto" for that coverage only if:
  - a. We already cover all "autos" that you own for that coverage or it replaces an "auto" you previously owned that had that coverage; and
  - b. You tell us within 30 days after you acquire it that you want us to cover it for that coverage.

## C. Certain Trailers, Mobile Equipment And Temporary Substitute Autos

If Liability Coverage is provided by this coverage form, the following types of vehicles are also covered "autos" for Liability Coverage:

1. "Trailers" with a load capacity of 2,000 pounds or less designed primarily for travel on public roads.
2. "Mobile equipment" while being carried or towed by a covered "auto".
3. Any "auto" you do not own while used with the permission of its owner as a temporary substitute for a covered "auto" you own that is out of service because of its:
  - a. Breakdown;
  - b. Repair;
  - c. Servicing;
  - d. "Loss"; or
  - e. Destruction.

## SECTION II – LIABILITY COVERAGE

### A. Coverage

We will pay all sums an "insured" legally must pay as damages because of "bodily injury" or "property damage" to which this insurance applies, caused by an "accident" and resulting from the ownership, maintenance or use of a covered "auto".

We will also pay all sums an "insured" legally must pay as a "covered pollution cost or expense" to which this insurance applies, caused by an "accident" and resulting from the ownership, maintenance or use of covered "autos". However, we will only pay for the "covered pollution cost or expense" if there is either "bodily injury" or "property damage" to which this insurance applies that is caused by the same "accident".

We have the right and duty to defend any "insured" against a "suit" asking for such damages or a "covered pollution cost or expense". However, we have no duty to defend any "insured" against a "suit" seeking damages for "bodily injury" or "property damage" or a "covered pollution cost or expense" to which this insurance does not apply. We may investigate and settle any claim or "suit" as we consider appropriate. Our duty to defend or settle ends when the Liability Coverage Limit of Insurance has been exhausted by payment of judgments or settlements.

#### 1. Who Is An Insured

The following are "insureds":

- a. You for any covered "auto".
- b. Anyone else while using with your permission a covered "auto" you own, hire or borrow except:
  - (1) The owner or anyone else from whom you hire or borrow a covered "auto".

This exception does not apply if the covered "auto" is a "trailer" connected to a covered "auto" you own.

- (2) Your "employee" if the covered "auto" is owned by that "employee" or a member of his or her household.
  - (3) Someone using a covered "auto" while he or she is working in a business of selling, servicing, repairing, parking or storing "autos" unless that business is yours.
  - (4) Anyone other than your "employees", partners (if you are a partnership), members (if you are a limited liability company) or a lessee or borrower or any of their "employees", while moving property to or from a covered "auto".
  - (5) A partner (if you are a partnership) or a member (if you are a limited liability company) for a covered "auto" owned by him or her or a member of his or her household.
- c. Anyone liable for the conduct of an "insured" described above but only to the extent of that liability.

## **2. Coverage Extensions**

### **a. Supplementary Payments**

We will pay for the "insured":

- (1) All expenses we incur.
- (2) Up to \$2,000 for cost of bail bonds (including bonds for related traffic law violations) required because of an "accident" we cover. We do not have to furnish these bonds.
- (3) The cost of bonds to release attachments in any "suit" against the "insured" we defend, but only for bond amounts within our Limit of Insurance.
- (4) All reasonable expenses incurred by the "insured" at our request, including actual loss of earnings up to \$250 a day because of time off from work.
- (5) All court costs taxed against the "insured" in any "suit" against the "insured" we defend. However, these payments do not include attorneys' fees or attorneys' expenses taxed against the "insured".
- (6) All interest on the full amount of any judgment that accrues after entry of the judgment in any "suit" against the "insured" we defend, but our duty to pay interest ends when we have paid, offered to pay or deposited in court the part of the judgment that is within our Limit of Insurance.

These payments will not reduce the Limit of Insurance.

### **b. Out-of-state Coverage Extensions**

While a covered "auto" is away from the state where it is licensed we will:

- (1) Increase the Limit of Insurance for Liability Coverage to meet the limits specified by a compulsory or financial responsibility law of the jurisdiction where the covered "auto" is being used. This extension does not apply to the limit or limits specified by any law governing motor carriers of passengers or property.
- (2) Provide the minimum amounts and types of other coverages, such as no-fault, required of out-of-state vehicles by the jurisdiction where the covered "auto" is being used.

We will not pay anyone more than once for the same elements of loss because of these extensions.

## **B. Exclusions**

This insurance does not apply to any of the following:

### **1. Expected Or Intended Injury**

"Bodily injury" or "property damage" expected or intended from the standpoint of the "insured".

### **2. Contractual**

Liability assumed under any contract or agreement.

But this exclusion does not apply to liability for damages:

- a. Assumed in a contract or agreement that is an "insured contract" provided the "bodily injury" or "property damage" occurs subsequent to the execution of the contract or agreement; or
- b. That the "insured" would have in the absence of the contract or agreement.

### **3. Workers' Compensation**

Any obligation for which the "insured" or the "insured's" insurer may be held liable under any workers' compensation, disability benefits or unemployment compensation law or any similar law.

This exclusion applies:

- (1) Whether the "insured" may be liable as an employer or in any other capacity; and
- (2) To any obligation to share damages with or repay someone else who must pay damages because of the injury.

But this exclusion does not apply to "bodily injury" to domestic "employees" not entitled to workers' compensation benefits or to liability assumed by the "insured" under an "insured contract". For the purposes of the coverage form, a domestic "employee" is a person engaged in household or domestic work performed principally in connection with a residence premises.

#### 5. Fellow Employee

"Bodily injury" to:

- a. Any fellow "employee" of the "insured" arising out of and in the course of the fellow "employee's" employment or while performing duties related to the conduct of your business; or

#### 6. Care, Custody Or Control

"Property damage" to or "covered pollution cost or expense" involving property owned or transported by the "insured" or in the "insured's" care, custody or control. But this exclusion does not apply to liability assumed under a sidetrack agreement.

#### 7. Handling Of Property

"Bodily injury" or "property damage" resulting from the handling of property:

- a. Before it is moved from the place where it is accepted by the "insured" for movement into or onto the covered "auto"; or

- b. After it is moved from the covered "auto" to the place where it is finally delivered by the "insured".

#### 8. Movement Of Property By Mechanical Device

"Bodily injury" or "property damage" resulting from the movement of property by a mechanical device (other than a hand truck) unless the device is attached to the covered "auto".

#### 9. Operations

- a. Any equipment listed in Paragraphs 6.b. and 6.c. of the definition of "mobile equipment"; or
- b. Machinery or equipment that is on, attached to or part of a land vehicle that would qualify under the definition of "mobile equipment" if it were not subject to a compulsory or financial responsibility law or other motor vehicle insurance law where it is licensed or principally garaged.

#### 10. Completed Operations

"Bodily injury" or "property damage" arising out of your work after that work has been completed or abandoned.

In this exclusion, your work means:

- a. Work or operations performed by you or on your behalf; and
- b. Materials, parts or equipment furnished in connection with such work or operations.

Your work includes warranties or representations made at any time with respect to the fitness, quality, durability or performance of any of the items included in Paragraph a. or b. above.

Your work will be deemed completed at the earliest of the following times:

- (1) When all of the work called for in your contract has been completed.
- (2) When all of the work to be done at the site has been completed if your contract calls for work at more than one site.
- (3) When that part of the work done at a job site has been put to its intended use by any person or organization other than another contractor or subcontractor working on the same project.

Work that may need service, maintenance, correction, repair or replacement, but which is otherwise complete, will be treated as completed.

#### 11. Pollution

"Bodily injury" or "property damage" arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of "pollutants":

- a. That are, or that are contained in any property that is:
  - (1) Being transported or towed by, handled or handled for movement into, onto or from the covered "auto";
  - (2) Otherwise in the course of transit by or on behalf of the "insured"; or
  - (3) Being stored, disposed of, treated or processed in or upon the covered "auto";
- b. Before the "pollutants" or any property in which the "pollutants" are contained are moved from the place where they are accepted by the "insured" for movement into or onto the covered "auto"; or

All "bodily injury", "property damage" and "covered pollution cost or expense" resulting from continuous or repeated exposure to substantially the same conditions will be considered as resulting from one "accident".

No one will be entitled to receive duplicate payments for the same elements of "loss" under this coverage form and any Medical Payments Coverage endorsement, Uninsured Motorists Coverage endorsement or Underinsured Motorists Coverage endorsement attached to this Coverage Part.

## SECTION IV – BUSINESS AUTO CONDITIONS

The following conditions apply in addition to the Common Policy Conditions:

### A. Loss Conditions

#### 1. Appraisal For Physical Damage Loss

If you and we disagree on the amount of "loss", either may demand an appraisal of the "loss". In this event, each party will select a competent appraiser. The two appraisers will select a competent and impartial umpire. The appraisers will state separately the actual cash value and amount of "loss". If they fail to agree, they will submit their differences to the umpire. A decision agreed to by any two will be binding. Each party will:

- a. Pay its chosen appraiser; and
- b. Bear the other expenses of the appraisal and umpire equally.

If we submit to an appraisal, we will still retain our right to deny the claim.

#### 2. Duties In The Event Of Accident, Claim, Suit Or Loss

We have no duty to provide coverage under this policy unless there has been full compliance with the following duties:

- a. In the event of "accident", claim, "suit" or "loss", you must give us or our authorized representative prompt notice of the "accident" or "loss". Include:

- (1) How, when and where the "accident" or "loss" occurred;
- (2) The "insured's" name and address; and
- (3) To the extent possible, the names and addresses of any injured persons and witnesses.

- b. Additionally, you and any other involved "insured" must:

- (1) Assume no obligation, make no payment or incur no expense without our consent, except at the "insured's" own cost.
- (2) Immediately send us copies of any request, demand, order, notice, summons or legal paper received concerning the claim or "suit".
- (3) Cooperate with us in the investigation or settlement of the claim or defense against the "suit".
- (4) Authorize us to obtain medical records or other pertinent information.

- (5) Submit to examination, at our expense, by physicians of our choice, as often as we reasonably require.

- c. If there is "loss" to a covered "auto" or its equipment you must also do the following:

- (1) Promptly notify the police if the covered "auto" or any of its equipment is stolen.
- (2) Take all reasonable steps to protect the covered "auto" from further damage. Also keep a record of your expenses for consideration in the settlement of the claim.
- (3) Permit us to inspect the covered "auto" and records proving the "loss" before its repair or disposition.
- (4) Agree to examinations under oath at our request and give us a signed statement of your answers.

#### 3. Legal Action Against Us

No one may bring a legal action against us under this coverage form until:

- a. There has been full compliance with all the terms of this coverage form; and
- b. Under Liability Coverage, we agree in writing that the "insured" has an obligation to pay or until the amount of that obligation has finally been determined by judgment after trial. No one has the right under this policy to bring us into an action to determine the "insured's" liability.

#### 4. Loss Payment – Physical Damage Coverages

At our option we may:

- a. Pay for, repair or replace damaged or stolen property;
- b. Return the stolen property, at our expense. We will pay for any damage that results to the "auto" from the theft; or
- c. Take all or any part of the damaged or stolen property at an agreed or appraised value.

If we pay for the "loss", our payment will include the applicable sales tax for the damaged or stolen property.

#### 5. Transfer Of Rights Of Recovery Against Others To Us

If any person or organization to or for whom we make payment under this coverage form has rights to recover damages from another, those rights are transferred to us. That person or organization must do everything necessary to secure our rights and must do nothing after "accident" or "loss" to impair them.

## **B. General Conditions**

### **1. Bankruptcy**

Bankruptcy or insolvency of the "insured" or the "insured's" estate will not relieve us of any obligations under this coverage form.

### **2. Concealment, Misrepresentation Or Fraud**

This coverage form is void in any case of fraud by you at any time as it relates to this coverage form. It is also void if you or any other "insured", at any time, intentionally conceal or misrepresent a material fact concerning:

- a. This coverage form;
- b. The covered "auto";
- c. Your interest in the covered "auto"; or
- d. A claim under this coverage form.

### **3. Liberalization**

If we revise this coverage form to provide more coverage without additional premium charge, your policy will automatically provide the additional coverage as of the day the revision is effective in your state.

### **4. No Benefit To Bailee – Physical Damage Coverages**

We will not recognize any assignment or grant any coverage for the benefit of any person or organization holding, storing or transporting property for a fee regardless of any other provision of this coverage form.

### **5. Other Insurance**

- a. For any covered "auto" you own, this coverage form provides primary insurance. For any covered "auto" you don't own, the insurance provided by this coverage form is excess over any other collectible insurance. However, while a covered "auto" which is a "trailer" is connected to another vehicle, the Liability Coverage this coverage form provides for the "trailer" is:

- (1) Excess while it is connected to a motor vehicle you do not own.
- (2) Primary while it is connected to a covered "auto" you own.

- b. For Hired Auto Physical Damage Coverage, any covered "auto" you lease, hire, rent or borrow is deemed to be a covered "auto" you own. However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

- c. Regardless of the provisions of Paragraph a. above, this coverage form's Liability Coverage is primary for any liability assumed under an "insured contract".

- d. When this coverage form and any other coverage form or policy covers on the same basis, either excess or primary, we will pay only our share. Our share is the proportion that the Limit of Insurance of our coverage form bears to the total of the limits of all the coverage forms and policies covering on the same basis.

### **6. Premium Audit**

- a. The estimated premium for this coverage form is based on the exposures you told us you would have when this policy began. We will compute the final premium due when we determine your actual exposures. The estimated total premium will be credited against the final premium due and the first Named Insured will be billed for the balance, if any. The due date for the final premium or retrospective premium is the date shown as the due date on the bill. If the estimated total premium exceeds the final premium due, the first Named Insured will get a refund.
- b. If this policy is issued for more than one year, the premium for this coverage form will be computed annually based on our rates or premiums in effect at the beginning of each year of the policy.

### **7. Policy Period, Coverage Territory**

Under this coverage form, we cover "accidents" and "losses" occurring:

- a. During the policy period shown in the Declarations; and
- b. Within the coverage territory.

The coverage territory is:

- (1) The United States of America;
- (2) The territories and possessions of the United States of America;
- (3) Puerto Rico;
- (4) Canada; and
- (5) Anywhere in the world if:
  - (a) A covered "auto" of the private passenger type is leased, hired, rented or borrowed without a driver for a period of 30 days or less; and
  - (b) The "insured's" responsibility to pay damages is determined in a "suit" on the merits, in the United States of America, the territories and possessions of the United States of America, Puerto Rico or Canada or in a settlement we agree to.

We also cover "loss" to, or "accidents" involving, a covered "auto" while being transported between any of these places.

**8. Two Or More Coverage Forms Or Policies Issued By Us**

If this coverage form and any other coverage form or policy issued to you by us or any company affiliated with us applies to the same "accident", the aggregate maximum Limit of Insurance under all the coverage forms or policies shall not exceed the highest applicable Limit of Insurance under any one coverage form or policy. This condition does not apply to any coverage form or policy issued by us or an affiliated company specifically to apply as excess insurance over this coverage form.

Tort liability means a liability that would be imposed by law in the absence of any contract or agreement;
  - 6. That part of any contract or agreement entered into, as part of your business, pertaining to the rental or lease, by you or any of your "employees", of any "auto". However, such contract or agreement shall not be considered an "insured contract" to the extent that it obligates you or any of your "employees" to pay for "property damage" to any "auto" rented or leased by you or any of your "employees".

An "insured contract" does not include that part of any contract or agreement:

## BUSINESS AUTO COVERAGE FORM

Various provisions in this policy restrict coverage. Read the entire policy carefully to determine rights, duties and what is and is not covered.

Throughout this policy the words "you" and "your" refer to the Named Insured shown in the Declarations. The words "we", "us" and "our" refer to the company providing this insurance.

Other words and phrases that appear in quotation marks have special meaning. Refer to Section V – Definitions.

### SECTION I – COVERED AUTOS

Item Two of the Declarations shows the "autos" that are covered "autos" for each of your coverages. The following numerical symbols describe the "autos" that may be covered "autos". The symbols entered next to a coverage on the Declarations designate the only "autos" that are covered "autos".

#### A. Description Of Covered Auto Designation Symbols

Symbol	Description Of Covered Auto Designation Symbols	
1	Any "Auto"	
2	Owned "Autos" Only	Only those "autos" you own (and for Liability Coverage any "trailers" you don't own while attached to power units you own). This includes those "autos" you acquire ownership of after the policy begins.
3	Owned Private Passenger "Autos" Only	Only the private passenger "autos" you own. This includes those private passenger "autos" you acquire ownership of after the policy begins.
4	Owned "Autos" Other Than Private Passenger "Autos" Only	Only those "autos" you own that are not of the private passenger type (and for Liability Coverage any "trailers" you don't own while attached to power units you own). This includes those "autos" not of the private passenger type you acquire ownership of after the policy begins.
5	Owned "Autos" Subject To No-fault	Only those "autos" you own that are required to have no-fault benefits in the state where they are licensed or principally garaged. This includes those "autos" you acquire ownership of after the policy begins provided they are required to have no-fault benefits in the state where they are licensed or principally garaged.
6	Owned "Autos" Subject To A Compulsory Uninsured Motorists Law	Only those "autos" you own that because of the law in the state where they are licensed or principally garaged are required to have and cannot reject Uninsured Motorists Coverage. This includes those "autos" you acquire ownership of after the policy begins provided they are subject to the same state uninsured motorists requirement.
7	Specifically Described "Autos"	Only those "autos" described in Item Three of the Declarations for which a premium charge is shown (and for Liability Coverage any "trailers" you don't own while attached to any power unit described in Item Three).
8	Hired "Autos" Only	Only those "autos" you lease, hire, rent or borrow. This does not include any "auto" you lease, hire, rent or borrow from any of your "employees", partners (if you are a partnership), members (if you are a limited liability company) or members of their households.
9	Non-owned "Autos" Only	Only those "autos" you do not own, lease, hire, rent or borrow that are used in connection with your business. This includes "autos" owned by your "employees", partners (if you are a partnership), members (if you are a limited liability company) or members of their households but only while used in your business or your personal affairs.

19	Mobile Equipment Subject To Compulsory Or Financial Responsibility Or Other Motor Vehicle Insurance Law Only	Only those "autos" that are land vehicles and that would qualify under the definition of "mobile equipment" under this policy if they were not subject to a compulsory or financial responsibility law or other motor vehicle insurance law where they are licensed or principally garaged.
----	--	---

#### **B. Owned Autos You Acquire After The Policy Begins**

1. If Symbols 1, 2, 3, 4, 5, 6 or 19 are entered next to a coverage in Item Two of the Declarations, then you have coverage for "autos" that you acquire of the type described for the remainder of the policy period.
2. But, if Symbol 7 is entered next to a coverage in Item Two of the Declarations, an "auto" you acquire will be a covered "auto" for that coverage only if:
  - a. We already cover all "autos" that you own for that coverage or it replaces an "auto" you previously owned that had that coverage; and
  - b. You tell us within 30 days after you acquire it that you want us to cover it for that coverage.

#### **C. Certain Trailers, Mobile Equipment And Temporary Substitute Autos**

If Liability Coverage is provided by this coverage form, the following types of vehicles are also covered "autos" for Liability Coverage:

1. "Trailers" with a load capacity of 2,000 pounds or less designed primarily for travel on public roads.
2. "Mobile equipment" while being carried or towed by a covered "auto".
3. Any "auto" you do not own while used with the permission of its owner as a temporary substitute for a covered "auto" you own that is out of service because of its:
  - a. Breakdown;
  - b. Repair;
  - c. Servicing;
  - d. "Loss"; or
  - e. Destruction.

## **SECTION II – LIABILITY COVERAGE**

### **A. Coverage**

We will pay all sums an "insured" legally must pay as damages because of "bodily injury" or "property damage" to which this insurance applies, caused by an "accident" and resulting from the ownership, maintenance or use of a covered "auto".

We will also pay all sums an "insured" legally must pay as a "covered pollution cost or expense" to which this insurance applies, caused by an "accident" and resulting from the ownership, maintenance or use of covered "autos". However, we will only pay for the "covered pollution cost or expense" if there is either "bodily injury" or "property damage" to which this insurance applies that is caused by the same "accident".

We have the right and duty to defend any "insured" against a "suit" asking for such damages or a "covered pollution cost or expense". However, we have no duty to defend any "insured" against a "suit" seeking damages for "bodily injury" or "property damage" or a "covered pollution cost or expense" to which this insurance does not apply. We may investigate and settle any claim or "suit" as we consider appropriate. Our duty to defend or settle ends when the Liability Coverage Limit of Insurance has been exhausted by payment of judgments or settlements.

#### **1. Who Is An Insured**

The following are "insureds":

- a. You for any covered "auto".
- b. Anyone else while using with your permission a covered "auto" you own, hire or borrow except:
  - (1) The owner or anyone else from whom you hire or borrow a covered "auto".

This exception does not apply if the covered "auto" is a "trailer" connected to a covered "auto" you own.

(2) Your "employee" if the covered "auto" is owned by that "employee" or a member of his or her household.

(3) Someone using a covered "auto" while he or she is working in a business of selling, servicing, repairing, parking or storing "autos" unless that business is yours.

(4) Anyone other than your "employees", partners (if you are a partnership), members (if you are a limited liability company) or a lessee or borrower or any of their "employees", while moving property to or from a covered "auto".

(5) A partner (if you are a partnership) or a member (if you are a limited liability company) for a covered "auto" owned by him or her or a member of his or her household.

c. Anyone liable for the conduct of an "insured" described above but only to the extent of that liability.

## **2. Coverage Extensions**

### **a. Supplementary Payments**

We will pay for the "insured":

- (1) All expenses we incur.
- (2) Up to \$2,000 for cost of bail bonds (including bonds for related traffic law violations) required because of an "accident" we cover. We do not have to furnish these bonds.
- (3) The cost of bonds to release attachments in any "suit" against the "insured" we defend, but only for bond amounts within our Limit of Insurance.
- (4) All reasonable expenses incurred by the "insured" at our request, including actual loss of earnings up to \$250 a day because of time off from work.
- (5) All court costs taxed against the "insured" in any "suit" against the "insured" we defend. However, these payments do not include attorneys' fees or attorneys' expenses taxed against the "insured".
- (6) All interest on the full amount of any judgment that accrues after entry of the judgment in any "suit" against the "insured" we defend, but our duty to pay interest ends when we have paid, offered to pay or deposited in court the part of the judgment that is within our Limit of Insurance.

These payments will not reduce the Limit of Insurance.

### **b. Out-of-state Coverage Extensions**

While a covered "auto" is away from the state where it is licensed we will:

(1) Increase the Limit of Insurance for Liability Coverage to meet the limits specified by a compulsory or financial responsibility law of the jurisdiction where the covered "auto" is being used. This extension does not apply to the limit or limits specified by any law governing motor carriers of passengers or property.

(2) Provide the minimum amounts and types of other coverages, such as no-fault, required of out-of-state vehicles by the jurisdiction where the covered "auto" is being used.

We will not pay anyone more than once for the same elements of loss because of these extensions.

## **B. Exclusions**

This insurance does not apply to any of the following:

### **1. Expected Or Intended Injury**

"Bodily injury" or "property damage" expected or intended from the standpoint of the "insured".

### **2. Contractual**

b. That the "insured" would have in the absence of the contract or agreement.

This exclusion applies:

- (1) Whether the "insured" may be liable as an employer or in any other capacity; and
- (2) To any obligation to share damages with or repay someone else who must pay damages because of the injury.

But this exclusion does not apply to "bodily injury" to domestic "employees" not entitled to workers' compensation benefits or to liability assumed by the "insured" under an "insured contract". For the purposes of the coverage form, a domestic "employee" is a person engaged in household or domestic work performed principally in connection with a residence premises.

#### 5. Fellow Employee

"Bodily injury" to:

- a. Any fellow "employee" of the "insured" arising out of and in the course of the fellow "employee's" employment or while performing duties related to the conduct of your business; or

#### 6. Care, Custody Or Control

#### 7. Handling Of Property

"Bodily injury" or "property damage" resulting from the handling of property:

- a. Before it is moved from the place where it is accepted by the "insured" for movement into or onto the covered "auto"; or

- b. After it is moved from the covered "auto" to the place where it is finally delivered by the "insured".

#### 8. Movement Of Property By Mechanical Device

"Bodily injury" or "property damage" resulting from the movement of property by a mechanical device (other than a hand truck) unless the device is attached to the covered "auto".

- a. Any equipment listed in Paragraphs 6.b. and 6.c. of the definition of "mobile equipment"; or

#### 10. Completed Operations

"Bodily injury" or "property damage" arising out of your work after that work has been completed or abandoned.

In this exclusion, your work means:

- a. Work or operations performed by you or on your behalf; and
- b. Materials, parts or equipment furnished in connection with such work or operations.

Your work includes warranties or representations made at any time with respect to the fitness, quality, durability or performance of any of the items included in Paragraph a. or b. above.

Your work will be deemed completed at the earliest of the following times:

- (1) When all of the work called for in your contract has been completed.
- (2) When all of the work to be done at the site has been completed if your contract calls for work at more than one site.
- (3) When that part of the work done at a job site has been put to its intended use by any person or organization other than another contractor or subcontractor working on the same project.

Work that may need service, maintenance, correction, repair or replacement, but which is otherwise complete, will be treated as completed.

#### **11. Pollution**

"Bodily injury" or "property damage" arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of "pollutants":

- a. That are, or that are contained in any property that is:
  - (1) Being transported or towed by, handled or handled for movement into, onto or from the covered "auto";
  - (2) Otherwise in the course of transit by or on behalf of the "insured"; or
  - (3) Being stored, disposed of, treated or processed in or upon the covered "auto";
- b. Before the "pollutants" or any property in which the "pollutants" are contained are moved from the place where they are accepted by the "insured" for movement into or onto the covered "auto"; or
- c. After the "pollutants" or any property in which the "pollutants" are contained are moved from the covered "auto" to the place where they are finally delivered, disposed of or abandoned by the "insured".

Paragraph a. above does not apply to fuels, lubricants, fluids, exhaust gases or other similar "pollutants" that are needed for or result from the normal electrical, hydraulic or mechanical functioning of the covered "auto" or its parts, if:

- (1) The "pollutants" escape, seep, migrate or are discharged, dispersed or released directly from an "auto" part designed by its manufacturer to hold, store, receive or dispose of such "pollutants"; and
- (2) The "bodily injury", "property damage" or "covered pollution cost or expense" does not arise out of the operation of any equipment listed in Paragraphs 6.b. and 6.c. of the definition of "mobile equipment".

Paragraphs b. and c. above of this exclusion do not apply to "accidents" that occur away from premises owned by or rented to an "insured" with respect to "pollutants" not in or upon a covered "auto" if:

- (a) The "pollutants" or any property in which the "pollutants" are contained are upset, overturned or damaged as a result of the maintenance or use of a covered "auto"; and
- (b) The discharge, dispersal, seepage, migration, release or escape of the "pollutants" is caused directly by such upset, overturn or damage.

#### **12. War**

- a. War, including undeclared or civil war;
- b. Warlike action by a military force, including action in hindering or defending against an actual or expected attack, by any government, sovereign or other authority using military personnel or other agents; or
- c. Insurrection, rebellion, revolution, usurped power or action taken by governmental authority in hindering or defending against any of these.

#### **13. Racing**

Covered "autos" while used in any professional or organized racing or demolition contest or stunting activity, or while practicing for such contest or activity. This insurance also does not apply while that covered "auto" is being prepared for such a contest or activity.

#### **C. Limit Of Insurance**

Regardless of the number of covered "autos", "insureds", premiums paid, claims made or vehicles involved in the "accident", the most we will pay for the total of all damages and "covered pollution cost or expense" combined resulting from any one "accident" is the Limit of Insurance for Liability Coverage shown in the Declarations.

All "bodily injury", "property damage" and "covered pollution cost or expense" resulting from continuous or repeated exposure to substantially the same conditions will be considered as resulting from one "accident".

No one will be entitled to receive duplicate payments for the same elements of "loss" under this coverage form and any Medical Payments Coverage endorsement, Uninsured Motorists Coverage endorsement or Underinsured Motorists Coverage endorsement attached to this Coverage Part.

### **SECTION III – PHYSICAL DAMAGE COVERAGE**

#### **A. Coverage**

1. We will pay for "loss" to a covered "auto" or its equipment under:

##### **a. Comprehensive Coverage**

From any cause except:

- (1) The covered "auto's" collision with another object; or

#### **3. Glass Breakage – Hitting A Bird Or Animal – Falling Objects Or Missiles**

If you carry Comprehensive Coverage for the damaged covered "auto", we will pay for the following under Comprehensive Coverage:

- a. Glass breakage;
- b. "Loss" caused by hitting a bird or animal; and

- c. "Loss" caused by falling objects or missiles.

However, you have the option of having glass breakage caused by a covered "auto's" collision or overturn considered a "loss" under Collision Coverage.

#### **4. Coverage Extensions**

##### **a. Transportation Expenses**

We will pay up to \$20 per day to a maximum of \$600 for temporary transportation expense incurred by you because of the total theft of a covered "auto" of the private passenger type. We will pay only for those covered "autos" for which you carry either Comprehensive or Specified Causes Of Loss Coverage. We will pay for temporary transportation expenses incurred during the period beginning 48 hours after the theft and ending, regardless of the policy's expiration, when the covered "auto" is returned to use or we pay for its "loss".

##### **b. Loss Of Use Expenses**

For Hired Auto Physical Damage, we will pay expenses for which an "insured" becomes legally responsible to pay for loss of use of a vehicle rented or hired without a driver under a written rental contract or agreement. We will pay for loss of use expenses if caused by:

#### **B. Exclusions**

1. We will not pay for "loss" caused by or resulting from any of the following. Such "loss" is excluded regardless of any other cause or event that contributes concurrently or in any sequence to the "loss".

##### **a. Nuclear Hazard**

- (2) Nuclear reaction or radiation, or radioactive contamination, however caused.

**b. War Or Military Action**

- (1) War, including undeclared or civil war;
- (2) Warlike action by a military force, including action in hindering or defending against an actual or expected attack, by any government, sovereign or other authority using military personnel or other agents; or
- (3) Insurrection, rebellion, revolution, usurped power or action taken by governmental authority in hindering or defending against any of these.

2. We will not pay for "loss" to any covered "auto" while used in any professional or organized racing or demolition contest or stunting activity, or while practicing for such contest or activity. We will also not pay for "loss" to any covered "auto" while that covered "auto" is being prepared for such a contest or activity.

3. We will not pay for "loss" due and confined to:

  - d. Any accessories used with the electronic equipment described in Paragraph c. above.
5. Exclusions 4.c. and 4.d. do not apply to equipment designed to be operated solely by use of the power from the "auto's" electrical system that, at the time of "loss", is:
- a. Permanently installed in or upon the covered "auto";

b. Removable from a housing unit which is permanently installed in or upon the covered "auto";

c. An integral part of the same unit housing any electronic equipment described in Paragraphs a. and b. above; or

d. Necessary for the normal operation of the covered "auto" or the monitoring of the covered "auto's" operating system.

6. We will not pay for "loss" to a covered "auto" due to "diminution in value".

**C. Limit Of Insurance**

1. The most we will pay for "loss" in any one "accident" is the lesser of:

a. The actual cash value of the damaged or stolen property as of the time of the "loss"; or

**D. Deductible**

For each covered "auto", our obligation to pay for, repair, return or replace damaged or stolen property will be reduced by the applicable deductible shown in the Declarations. Any Comprehensive Coverage deductible shown in the Declarations does not apply to "loss" caused by fire or lightning.

## SECTION IV – BUSINESS AUTO CONDITIONS

The following conditions apply in addition to the Common Policy Conditions:

### A. Loss Conditions

#### 1. Appraisal For Physical Damage Loss

If you and we disagree on the amount of "loss", either may demand an appraisal of the "loss". In this event, each party will select a competent appraiser. The two appraisers will select a competent and impartial umpire. The appraisers will state separately the actual cash value and amount of "loss". If they fail to agree, they will submit their differences to the umpire. A decision agreed to by any two will be binding. Each party will:

- a. Pay its chosen appraiser; and
- b. Bear the other expenses of the appraisal and umpire equally.

If we submit to an appraisal, we will still retain our right to deny the claim.

#### 2. Duties In The Event Of Accident, Claim, Suit Or Loss

We have no duty to provide coverage under this policy unless there has been full compliance with the following duties:

- a. In the event of "accident", claim, "suit" or "loss", you must give us or our authorized representative prompt notice of the "accident" or "loss". Include:
  - (1) How, when and where the "accident" or "loss" occurred;
  - (2) The "insured's" name and address; and
  - (3) To the extent possible, the names and addresses of any injured persons and witnesses.
- b. Additionally, you and any other involved "insured" must:
  - (1) Assume no obligation, make no payment or incur no expense without our consent, except at the "insured's" own cost.
  - (2) Immediately send us copies of any request, demand, order, notice, summons or legal paper received concerning the claim or "suit".
  - (3) Cooperate with us in the investigation or settlement of the claim or defense against the "suit".
  - (4) Authorize us to obtain medical records or other pertinent information.

- (5) Submit to examination, at our expense, by physicians of our choice, as often as we reasonably require.

- c. If there is "loss" to a covered "auto" or its equipment you must also do the following:

- (1) Promptly notify the police if the covered "auto" or any of its equipment is stolen.
- (2) Take all reasonable steps to protect the covered "auto" from further damage. Also keep a record of your expenses for consideration in the settlement of the claim.
- (3) Permit us to inspect the covered "auto" and records proving the "loss" before its repair or disposition.
- (4) Agree to examinations under oath at our request and give us a signed statement of your answers.

#### 3. Legal Action Against Us

No one may bring a legal action against us under this coverage form until:

- a. There has been full compliance with all the terms of this coverage form; and
- b. Under Liability Coverage, we agree in writing that the "insured" has an obligation to pay or until the amount of that obligation has finally been determined by judgment after trial. No one has the right under this policy to bring us into an action to determine the "insured's" liability.

#### 4. Loss Payment – Physical Damage Coverages

At our option we may:

- a. Pay for, repair or replace damaged or stolen property;
- b. Return the stolen property, at our expense. We will pay for any damage that results to the "auto" from the theft; or
- c. Take all or any part of the damaged or stolen property at an agreed or appraised value.

If we pay for the "loss", our payment will include the applicable sales tax for the damaged or stolen property.

#### 5. Transfer Of Rights Of Recovery Against Others To Us

If any person or organization to or for whom we make payment under this coverage form has rights to recover damages from another, those rights are transferred to us. That person or organization must do everything necessary to secure our rights and must do nothing after "accident" or "loss" to impair them.

## **B. General Conditions**

### **1. Bankruptcy**

Bankruptcy or insolvency of the "insured" or the "insured's" estate will not relieve us of any obligations under this coverage form.

### **2. Concealment, Misrepresentation Or Fraud**

This coverage form is void in any case of fraud by you at any time as it relates to this coverage form. It is also void if you or any other "insured", at any time, intentionally conceal or misrepresent a material fact concerning:

- a. This coverage form;
- b. The covered "auto";
- c. Your interest in the covered "auto"; or
- d. A claim under this coverage form.

### **3. Liberalization**

If we revise this coverage form to provide more coverage without additional premium charge, your policy will automatically provide the additional coverage as of the day the revision is effective in your state.

### **4. No Benefit To Bailee – Physical Damage Coverages**

We will not recognize any assignment or grant any coverage for the benefit of any person or organization holding, storing or transporting property for a fee regardless of any other provision of this coverage form.

### **5. Other Insurance**

- a. For any covered "auto" you own, this coverage form provides primary insurance. For any covered "auto" you don't own, the insurance provided by this coverage form is excess over any other collectible insurance. However, while a covered "auto" which is a "trailer" is connected to another vehicle, the Liability Coverage this coverage form provides for the "trailer" is:

- (1) Excess while it is connected to a motor vehicle you do not own.
- (2) Primary while it is connected to a covered "auto" you own.

- b. For Hired Auto Physical Damage Coverage, any covered "auto" you lease, hire, rent or borrow is deemed to be a covered "auto" you own. However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

- c. Regardless of the provisions of Paragraph a. above, this coverage form's Liability Coverage is primary for any liability assumed under an "insured contract".

- d. When this coverage form and any other coverage form or policy covers on the same basis, either excess or primary, we will pay only our share. Our share is the proportion that the Limit of Insurance of our coverage form bears to the total of the limits of all the coverage forms and policies covering on the same basis.

### **6. Premium Audit**

- a. The estimated premium for this coverage form is based on the exposures you told us you would have when this policy began. We will compute the final premium due when we determine your actual exposures. The estimated total premium will be credited against the final premium due and the first Named Insured will be billed for the balance, if any. The due date for the final premium or retrospective premium is the date shown as the due date on the bill. If the estimated total premium exceeds the final premium due, the first Named Insured will get a refund.
- b. If this policy is issued for more than one year, the premium for this coverage form will be computed annually based on our rates or premiums in effect at the beginning of each year of the policy.

### **7. Policy Period, Coverage Territory**

Under this coverage form, we cover "accidents" and "losses" occurring:

- a. During the policy period shown in the Declarations; and
- b. Within the coverage territory.

The coverage territory is:

- (1) The United States of America;
- (2) The territories and possessions of the United States of America;
- (3) Puerto Rico;
- (4) Canada; and
- (5) Anywhere in the world if:
  - (a) A covered "auto" of the private passenger type is leased, hired, rented or borrowed without a driver for a period of 30 days or less; and
  - (b) The "insured's" responsibility to pay damages is determined in a "suit" on the merits, in the United States of America, the territories and possessions of the United States of America, Puerto Rico or Canada or in a settlement we agree to.

We also cover "loss" to, or "accidents" involving, a covered "auto" while being transported between any of these places.

#### **8. Two Or More Coverage Forms Or Policies Issued By Us**

If this coverage form and any other coverage form or policy issued to you by us or any company affiliated with us applies to the same "accident", the aggregate maximum Limit of Insurance under all the coverage forms or policies shall not exceed the highest applicable Limit of Insurance under any one coverage form or policy. This condition does not apply to any coverage form or policy issued by us or an affiliated company specifically to apply as excess insurance over this coverage form.

A. "Accident" includes continuous or repeated exposure to the same conditions resulting in "bodily injury" or "property damage".

B. "Auto" means:

C. "Bodily injury" means bodily injury, sickness or disease sustained by a person including death resulting from any of these.

D. "Covered pollution cost or expense" means any cost or expense arising out of:

2. Any claim or "suit" by or on behalf of a governmental authority for damages because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to, or assessing the effects of, "pollutants".

"Covered pollution cost or expense" does not include any cost or expense arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of "pollutants":

a. That are, or that are contained in any property that is:

- (1) Being transported or towed by, handled or handled for movement into, onto or from the covered "auto";

- (3) Being stored, disposed of, treated or processed in or upon the covered "auto";

b. Before the "pollutants" or any property in which the "pollutants" are contained are moved from the place where they are accepted by the "insured" for movement into or onto the covered "auto"; or

c. After the "pollutants" or any property in which the "pollutants" are contained are moved from the covered "auto" to the place where they are finally delivered, disposed of or abandoned by the "insured".

Paragraph a. above does not apply to fuels, lubricants, fluids, exhaust gases or other similar "pollutants" that are needed for or result from the normal electrical, hydraulic or mechanical functioning of the covered "auto" or its parts, if:

- (1) The "pollutants" escape, seep, migrate or are discharged, dispersed or released directly from an "auto" part designed by its manufacturer to hold, store, receive or dispose of such "pollutants"; and
- (2) The "bodily injury", "property damage" or "covered pollution cost or expense" does not arise out of the operation of any equipment listed in Paragraph 6.b. or 6.c. of the definition of "mobile equipment".

Paragraphs **b.** and **c.** above do not apply to "accidents" that occur away from premises owned by or rented to an "insured" with respect to "pollutants" not in or upon a covered "auto" if:

- (a) The "pollutants" or any property in which the "pollutants" are contained are upset, overturned or damaged as a result of the maintenance or use of a covered "auto"; and
  - (b) The discharge, dispersal, seepage, migration, release or escape of the "pollutants" is caused directly by such upset, overturn or damage.

Tort liability means a liability that would be imposed by law in the absence of any contract or agreement;
  - 6. That part of any contract or agreement entered into, as part of your business, pertaining to the rental or lease, by you or any of your "employees", of any "auto". However, such contract or agreement shall not be considered an "insured contract" to the extent that it obligates you or any of your "employees" to pay for "property damage" to any "auto" rented or leased by you or any of your "employees".

An "insured contract" does not include that part of any contract or agreement:

- a. That indemnifies a railroad for "bodily injury" or "property damage" arising out of construction or demolition operations, within 50 feet of any railroad property and affecting any railroad bridge or trestle, tracks, roadbeds, tunnel, underpass or crossing;
  - b. That pertains to the loan, lease or rental of an "auto" to you or any of your "employees", if the "auto" is loaned, leased or rented with a driver; or

    - a. Air compressors, pumps and generators, including spraying, welding, building cleaning, geophysical exploration, lighting and well-servicing equipment; or
    - b. Cherry pickers and similar devices used to raise or lower workers; or

6. Vehicles not described in Paragraph 1., 2., 3. or 4. above maintained primarily for purposes other than the transportation of persons or cargo. However, self-propelled vehicles with the following types of permanently attached equipment are not "mobile equipment" but will be considered "autos":

a. Equipment designed primarily for:

- (3) Street cleaning;

b. Cherry pickers and similar devices mounted on automobile or truck chassis and used to raise or lower workers; and

However, "mobile equipment" does not include land vehicles that are subject to a compulsory or financial responsibility law or other motor vehicle insurance law where it is licensed or principally garaged. Land vehicles subject to a compulsory or financial responsibility law or other motor vehicle insurance law are considered "autos".

**SECTION I – COVERED AUTOS**

Item Two of the Declarations shows the "autos" that are covered "autos" for each of your coverages. The following numerical symbols describe the "autos" that may be covered "autos". The symbols entered next to a coverage on the Declarations designate the only "autos" that are covered "autos".

**A. Description Of Covered Auto Designation Symbols**

Symbol	Description Of Covered Auto Designation Symbols	
1	Any "Auto"	
2	Owned "Autos" Only	Only those "autos" you own (and for Liability Coverage any "trailers" you don't own while attached to power units you own). This includes those "autos" you acquire ownership of after the policy begins.
3	Owned Private Passenger "Autos" Only	Only the private passenger "autos" you own. This includes those private passenger "autos" you acquire ownership of after the policy begins.
4	Owned "Autos" Other Than Private Passenger "Autos" Only	Only those "autos" you own that are not of the private passenger type (and for Liability Coverage any "trailers" you don't own while attached to power units you own). This includes those "autos" not of the private passenger type you acquire ownership of after the policy begins.
5	Owned "Autos" Subject To No-fault	Only those "autos" you own that are required to have no-fault benefits in the state where they are licensed or principally garaged. This includes those "autos" you acquire ownership of after the policy begins provided they are required to have no-fault benefits in the state where they are licensed or principally garaged.
6	Owned "Autos" Subject To A Compulsory Uninsured Motorists Law	Only those "autos" you own that because of the law in the state where they are licensed or principally garaged are required to have and cannot reject Uninsured Motorists Coverage. This includes those "autos" you acquire ownership of after the policy begins provided they are subject to the same state uninsured motorists requirement.
7	Specifically Described "Autos"	Only those "autos" described in Item Three of the Declarations for which a premium charge is shown (and for Liability Coverage any "trailers" you don't own while attached to any power unit described in Item Three).
8	Hired "Autos" Only	Only those "autos" you lease, hire, rent or borrow. This does not include any "auto" you lease, hire, rent or borrow from any of your "employees", partners (if you are a partnership), members (if you are a limited liability company) or members of their households.
9	Non-owned "Autos" Only	Only those "autos" you do not own, lease, hire, rent or borrow that are used in connection with your business. This includes "autos" owned by your "employees", partners (if you are a partnership), members (if you are a limited liability company) or members of their households but only while used in your business or your personal affairs.

19	Mobile Equipment Subject To Compulsory Or Financial Responsibility Or Other Motor Vehicle Insurance Law Only	Only those "autos" that are land vehicles and that would qualify under the definition of "mobile equipment" under this policy if they were not subject to a compulsory or financial responsibility law or other motor vehicle insurance law where they are licensed or principally garaged.
----	--	---

#### B. Owned Autos You Acquire After The Policy Begins

1. If Symbols 1, 2, 3, 4, 5, 6 or 19 are entered next to a coverage in Item Two of the Declarations, then you have coverage for "autos" that you acquire of the type described for the remainder of the policy period.
2. But, if Symbol 7 is entered next to a coverage in Item Two of the Declarations, an "auto" you acquire will be a covered "auto" for that coverage only if:
  - a. We already cover all "autos" that you own for that coverage or it replaces an "auto" you previously owned that had that coverage; and
  - b. You tell us within 30 days after you acquire it that you want us to cover it for that coverage.

#### C. Certain Trailers, Mobile Equipment And Temporary Substitute Autos

If Liability Coverage is provided by this coverage form, the following types of vehicles are also covered "autos" for Liability Coverage:

1. "Trailers" with a load capacity of 2,000 pounds or less designed primarily for travel on public roads.
2. "Mobile equipment" while being carried or towed by a covered "auto".
3. Any "auto" you do not own while used with the permission of its owner as a temporary substitute for a covered "auto" you own that is out of service because of its:
  - a. Breakdown;
  - b. Repair;
  - c. Servicing;
  - d. "Loss"; or
  - e. Destruction.

## SECTION II – LIABILITY COVERAGE

### A. Coverage

We will pay all sums an "insured" legally must pay as damages because of "bodily injury" or "property damage" to which this insurance applies, caused by an "accident" and resulting from the ownership, maintenance or use of a covered "auto".

We will also pay all sums an "insured" legally must pay as a "covered pollution cost or expense" to which this insurance applies, caused by an "accident" and resulting from the ownership, maintenance or use of covered "autos". However, we will only pay for the "covered pollution cost or expense" if there is either "bodily injury" or "property damage" to which this insurance applies that is caused by the same "accident".

We have the right and duty to defend any "insured" against a "suit" asking for such damages or a "covered pollution cost or expense". However, we have no duty to defend any "insured" against a "suit" seeking damages for "bodily injury" or "property damage" or a "covered pollution cost or expense" to which this insurance does not apply. We may investigate and settle any claim or "suit" as we consider appropriate. Our duty to defend or settle ends when the Liability Coverage Limit of Insurance has been exhausted by payment of judgments or settlements.

#### 1. Who Is An Insured

The following are "insureds":

- a. You for any covered "auto".
- b. Anyone else while using with your permission a covered "auto" you own, hire or borrow except:

- (1) The owner or anyone else from whom you hire or borrow a covered "auto".

This exception does not apply if the covered "auto" is a "trailer" connected to a covered "auto" you own.

(2) Your "employee" if the covered "auto" is owned by that "employee" or a member of his or her household.

## SECTION IV – BUSINESS AUTO CONDITIONS

The following conditions apply in addition to the Common Policy Conditions:

### A. Loss Conditions

#### 1. Appraisal For Physical Damage Loss

If you and we disagree on the amount of "loss", either may demand an appraisal of the "loss". In this event, each party will select a competent appraiser. The two appraisers will select a competent and impartial umpire. The appraisers will state separately the actual cash value and amount of "loss". If they fail to agree, they will submit their differences to the umpire. A decision agreed to by any two will be binding. Each party will:

- a. Pay its chosen appraiser; and
- b. Bear the other expenses of the appraisal and umpire equally.

If we submit to an appraisal, we will still retain our right to deny the claim.

#### 2. Duties In The Event Of Accident, Claim, Suit Or Loss

We have no duty to provide coverage under this policy unless there has been full compliance with the following duties:

- a. In the event of "accident", claim, "suit" or "loss", you must give us or our authorized representative prompt notice of the "accident" or "loss". Include:
  - (1) How, when and where the "accident" or "loss" occurred;
  - (2) The "insured's" name and address; and
  - (3) To the extent possible, the names and addresses of any injured persons and witnesses.
- b. Additionally, you and any other involved "insured" must:
  - (1) Assume no obligation, make no payment or incur no expense without our consent, except at the "insured's" own cost.
  - (2) Immediately send us copies of any request, demand, order, notice, summons or legal paper received concerning the claim or "suit".
  - (3) Cooperate with us in the investigation or settlement of the claim or defense against the "suit".
  - (4) Authorize us to obtain medical records or other pertinent information.

- (5) Submit to examination, at our expense, by physicians of our choice, as often as we reasonably require.

c. If there is "loss" to a covered "auto" or its equipment you must also do the following:

- (1) Promptly notify the police if the covered "auto" or any of its equipment is stolen.
- (2) Take all reasonable steps to protect the covered "auto" from further damage. Also keep a record of your expenses for consideration in the settlement of the claim.
- (3) Permit us to inspect the covered "auto" and records proving the "loss" before its repair or disposition.
- (4) Agree to examinations under oath at our request and give us a signed statement of your answers.

#### 3. Legal Action Against Us

No one may bring a legal action against us under this coverage form until:

- a. There has been full compliance with all the terms of this coverage form; and
- b. Under Liability Coverage, we agree in writing that the "insured" has an obligation to pay or until the amount of that obligation has finally been determined by judgment after trial. No one has the right under this policy to bring us into an action to determine the "insured's" liability.

#### 4. Loss Payment – Physical Damage Coverages

At our option we may:

- a. Pay for, repair or replace damaged or stolen property;
- b. Return the stolen property, at our expense. We will pay for any damage that results to the "auto" from the theft; or
- c. Take all or any part of the damaged or stolen property at an agreed or appraised value.

If we pay for the "loss", our payment will include the applicable sales tax for the damaged or stolen property.

#### 5. Transfer Of Rights Of Recovery Against Others To Us

If any person or organization to or for whom we make payment under this coverage form has rights to recover damages from another, those rights are transferred to us. That person or organization must do everything necessary to secure our rights and must do nothing after "accident" or "loss" to impair them.

## **B. General Conditions**

### **1. Bankruptcy**

Bankruptcy or insolvency of the "insured" or the "insured's" estate will not relieve us of any obligations under this coverage form.

### **2. Concealment, Misrepresentation Or Fraud**

This coverage form is void in any case of fraud by you at any time as it relates to this coverage form. It is also void if you or any other "insured", at any time, intentionally conceal or misrepresent a material fact concerning:

- a. This coverage form;
- b. The covered "auto";
- c. Your interest in the covered "auto"; or
- d. A claim under this coverage form.

### **3. Liberalization**

If we revise this coverage form to provide more coverage without additional premium charge, your policy will automatically provide the additional coverage as of the day the revision is effective in your state.

### **4. No Benefit To Bailee – Physical Damage Coverages**

We will not recognize any assignment or grant any coverage for the benefit of any person or organization holding, storing or transporting property for a fee regardless of any other provision of this coverage form.

### **5. Other Insurance**

- a. For any covered "auto" you own, this coverage form provides primary insurance. For any covered "auto" you don't own, the insurance provided by this coverage form is excess over any other collectible insurance. However, while a covered "auto" which is a "trailer" is connected to another vehicle, the Liability Coverage this coverage form provides for the "trailer" is:
  - (1) Excess while it is connected to a motor vehicle you do not own.
  - (2) Primary while it is connected to a covered "auto" you own.
- b. For Hired Auto Physical Damage Coverage, any covered "auto" you lease, hire, rent or borrow is deemed to be a covered "auto" you own. However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".
- c. Regardless of the provisions of Paragraph a. above, this coverage form's Liability Coverage is primary for any liability assumed under an "insured contract".

- d. When this coverage form and any other coverage form or policy covers on the same basis, either excess or primary, we will pay only our share. Our share is the proportion that the Limit of Insurance of our coverage form bears to the total of the limits of all the coverage forms and policies covering on the same basis.

### **6. Premium Audit**

- a. The estimated premium for this coverage form is based on the exposures you told us you would have when this policy began. We will compute the final premium due when we determine your actual exposures. The estimated total premium will be credited against the final premium due and the first Named Insured will be billed for the balance, if any. The due date for the final premium or retrospective premium is the date shown as the due date on the bill. If the estimated total premium exceeds the final premium due, the first Named Insured will get a refund.
- b. If this policy is issued for more than one year, the premium for this coverage form will be computed annually based on our rates or premiums in effect at the beginning of each year of the policy.

### **7. Policy Period, Coverage Territory**

Under this coverage form, we cover "accidents" and "losses" occurring:

- a. During the policy period shown in the Declarations; and
- b. Within the coverage territory.

The coverage territory is:

- (1) The United States of America;
- (2) The territories and possessions of the United States of America;
- (3) Puerto Rico;
- (4) Canada; and
- (5) Anywhere in the world if:
  - (a) A covered "auto" of the private passenger type is leased, hired, rented or borrowed without a driver for a period of 30 days or less; and
  - (b) The "insured's" responsibility to pay damages is determined in a "suit" on the merits, in the United States of America, the territories and possessions of the United States of America, Puerto Rico or Canada or in a settlement we agree to.

We also cover "loss" to, or "accidents" involving, a covered "auto" while being transported between any of these places.

#### **8. Two Or More Coverage Forms Or Policies Issued By Us**

If this coverage form and any other coverage form or policy issued to you by us or any company affiliated with us applies to the same "accident", the aggregate maximum Limit of Insurance under all the coverage forms or policies shall not exceed the highest applicable Limit of Insurance under any one coverage form or policy. This condition does not apply to any coverage form or policy issued by us or an affiliated company specifically to apply as excess insurance over this coverage form.

- c. After the "pollutants" or any property in which the "pollutants" are contained are moved from the covered "auto" to the place where they are finally delivered, disposed of or abandoned by the "insured".

Paragraph a. above does not apply to fuels, lubricants, fluids, exhaust gases or other similar "pollutants" that are needed for or result from the normal electrical, hydraulic or mechanical functioning of the covered "auto" or its parts, if:

- (1) The "pollutants" escape, seep, migrate or are discharged, dispersed or released directly from an "auto" part designed by its manufacturer to hold, store, receive or dispose of such "pollutants"; and
- (2) The "bodily injury", "property damage" or "covered pollution cost or expense" does not arise out of the operation of any equipment listed in Paragraph 6.b. or 6.c. of the definition of "mobile equipment".

Paragraphs **b.** and **c.** above do not apply to "accidents" that occur away from premises owned by or rented to an "insured" with respect to "pollutants" not in or upon a covered "auto" if:

Tort liability means a liability that would be imposed by law in the absence of any contract or agreement;
  - 6. That part of any contract or agreement entered into, as part of your business, pertaining to the rental or lease, by you or any of your "employees", of any "auto". However, such contract or agreement shall not be considered an "insured contract" to the extent that it obligates you or any of your "employees" to pay for "property damage" to any "auto" rented or leased by you or any of your "employees".

An "insured contract" does not include that part of any contract or agreement:

- a. That indemnifies a railroad for "bodily injury" or "property damage" arising out of construction or demolition operations, within 50 feet of any railroad property and affecting any railroad bridge or trestle, tracks, roadbeds, tunnel, underpass or crossing;
