ORDINANCE NO. \_\_\_\_\_

## AN ORDINANCE OF THE COUNTY OF MONTEREY, STATE OF CALIFORNIA, AMENDING TITLE 21 (NON-COASTAL ZONING) OF THE MONTEREY COUNTY CODE RELATING TO MEDICAL CANNABIS USES

### County Counsel Summary

*This ordinance amends Title 21 (non-coastal zoning) of the Monterey County Code to regulate commercial medical cannabis activities in the inland unincorporated area of Monterey County consistent with state law. This ordinance establishes certain specified commercial medical cannabis activities--including cultivation within greenhouses and industrial buildings as well as manufacturing, testing, delivery, and transport-- as a use allowed subject to a Use Permit in each case within specified zoning districts. These zoning districts include the Light Commercial, Heavy Commercial, Agricultural Industrial, Light Industrial, Heavy Industrial, and Farmland non-coastal zoning districts, with allowance of the particular use within each zoning district dependent on factors specified by the ordinance. This ordinance also defines terms and adds Chapter 21.67 to the Monterey County Code to establish regulations governing the issuance of use permits for commercial medical cannabis activities, including cultivation, dispensaries, manufacturing, testing, transportation, and distribution. The ordinance also contains provisions for enforcement of the ordinance.*

The Board of Supervisors of the County of Monterey ordains as follows:

#### SECTION 1. Findings and Declarations

A. Pursuant to Article XI, section 7 of the California Constitution, the County of Monterey may adopt and enforce ordinances and regulations not in conflict with general laws to protect and promote the public health, safety, and welfare of its citizens.

B. The federal Controlled Substances Act (21 U.S.C. §§ 801, *et seq.*) prohibits, except for certain research purposes, the possession, distribution, and manufacture of cannabis, and there is no medical necessity exception to prosecution and conviction under the Controlled Substances Act.

C. The federal government has issued guidelines for states and local governments that have enacted laws authorizing cannabis related conduct, requiring them to implement strong and effective regulatory and enforcement systems that will address the threat that medical cannabis activity could pose to public safety, public health, and other law enforcement interests.

D. California statutes specify that, except as authorized by law, the possession, cultivation, possession for sale, transportation, administration, or furnishing of cannabis are state criminal violations. State law further punishes one who maintains a place for the purpose of unlawfully selling, using or furnishing, or who knowingly makes available a place for storing, manufacturing, or distributing cannabis.

E. On November 5, 1996, California voters approved Proposition 215, the Compassionate Use Act of 1996 (Health & Safety Code § 11362.5, “CUA”), an initiative that exempted certain patients and their primary caregivers from criminal liability under state law for the possession and cultivation of cannabis for medical purposes. One of the stated purposes of the CUA is to ensure that seriously ill Californians have the right to obtain and use cannabis for medical purposes where that medical use has been recommended by a physician.

F. On January 1, 2004, Senate Bill 420, the Medical Marijuana Program Act (Health & Safety Code §§ 11362.7-11362.83, “MMP”), became law to clarify the scope of the CUA and to facilitate the prompt identification of qualified patients and their primary caregivers.

G. On October 9, 2015, the State enacted the Medical Marijuana Regulation and Safety Act (Business & Professions Code §§ 19300, *et seq.*; the “MMRSA”). The MMRSA creates a state licensing program for commercial medical cannabis activities. The MMRSA allows counties and cities to maintain local regulatory authority over medical cannabis. The state will not issue a state license without first receiving authorization by the applicable local jurisdiction.

H. It is the purpose and intent of this Chapter to accommodate the needs of the seriously ill and protect their health and safety, while protecting the health, safety, and general welfare of the residents and businesses within the unincorporated areas of Monterey County and comply with state law and federal guidelines.

I. It is the intent of the County of Monterey to have a strong and effective regulatory and enforcement system with regard to medical cannabis that addresses threats to public safety, health and other law enforcement interests through robust controls and procedures that are effective in practice.

J. This draft ordinance provides regulations for the local permitting of medical marijuana operations in specified locations and under specified conditions in the inland unincorporated areas of the County.

K. To address the added financial burden to the County that may result from this ordinance, including costs associated with processing applications under this ordinance as well as additional law enforcement and other costs, this ordinance requires voter passage of a County tax on commercial medical cannabis activities prior to this ordinance becoming operative.

L. This ordinance, together with the ordinance adding Chapters 7.90 and 7.95 to the Monterey County Code requiring a Cannabis Business Permit for all cannabis operations, are intended to establish criteria for issuing local permits pursuant to the MMRSA and to establish

an effective regulatory and enforcement system consistent with the guidance issued by the United States Department of Justice.

The purpose of this Chapter is to protect the public health, safety, and welfare, enact strong and effective regulatory and enforcement controls in compliance with state law and federal enforcement guidelines, protect neighborhood character, and minimize potential for negative impacts on people, communities, and the environment in the unincorporated areas of Monterey County by establishing minimum land use requirements for commercial medical cannabis activities. Although cultivation of medical cannabis is not “development” within the meaning of the 2010 General Plan, this Chapter recognizes that commercial medical cannabis activities require land use controls due to the unique federal and state legal constraints on commercial medical cannabis activity, and the potential environmental and social impacts associated with commercial medical cannabis activity.

- c. The loss or unauthorized alteration of records related to cannabis, registered qualifying patients, primary caregivers, or dispensary employees or agents; or
- d. Any other breach of security.

10. Possession or delivery of any other form of illegal drugs without proper legal authorization shall be grounds for revocation of permits.

C. Required Findings: A Use Permit for a medical cannabis dispensary shall not be granted by the Appropriate Authority unless all of the following findings are made based on substantial evidence:

1. The dispensary, as proposed, has demonstrated that it can and will comply with all of the requirements of the State and County to operate a medical cannabis dispensary.

B. Regulations: Medical cannabis cultivation shall comply with all of the following regulations:

1. It is the intent of the County to provide for the adaptive reuse of greenhouses in Monterey County and to restrict the proliferation of greenhouses or other structures on productive agricultural lands. To this end, within the Farmland (“F”) zoning district, indoor and mixed-light medical cannabis cultivation and medical cannabis nurseries (Type 1A, 1B, 2A, 2B, 3A, 3B, and 4 state license types) may be permitted with a Use Permit in each case provided that within the Farmland (F) zoning district, the cultivation occurs only within a greenhouse or industrial building that was permitted or legally established prior to January 1, 2016. Greenhouses and industrial buildings may be improved for cannabis activities after January 1, 2016 provided that the footprint of the existing greenhouse(s) or industrial building(s) does not change.

2. Within the Light Industrial (“LI”), Heavy Industrial (“HI”), and Agricultural Industrial (“AI”) zoning districts, indoor or mixed-light medical cannabis cultivation or medical cannabis nurseries (Type 1A, 1B, 2A, 2B, 3A, 3B, or 4 state license types) may be permitted subject to a Use Permit in each case, except that type 3A, 3B and 4 cultivation types shall not be permitted in the Light Industrial (“LI”) zoning district, and provided that the cultivation occurs only within a greenhouse or industrial building that was permitted or legally established prior to January 1, 2016. 3. In no case shall a building intended for residential use be used for the cultivation of medical cannabis.

4. Medical cannabis cultivation shall not be located within six hundred (600) feet of a school, public park, or drug recovery facility.

Unique identifiers shall be attached at the base of each plant and shall be traceable through the supply chain back to the cultivation site. Once a state program has been established, all cultivation activities permitted under this Chapter shall comply with the state requirements for unique identifiers and the trace and track program.

6. Security measures sufficient to restrict access to only those intended and to deter trespass and theft of medical cannabis or medical cannabis products shall be provided and maintained. If on-site security is utilized, such on-site security shall not use or possess firearms or other lethal weapons.
