

# Monterey County Water Resources Agency **RECOMMENDED BUDGET**

Fiscal Year Ending June 30th **2018**

This page intentionally left blank.

# Water Resources Agency

The Salinas River was the original main source for irrigation, but by 1872, farmers in the Salinas Valley turned to groundwater. By 1900, wells were so common to the point by 1930 there were concerns about seawater intrusion. Combined with continual flooding in the valley, the concerns prompted the formation of the Monterey County Flood Control and Water Conservation District (MCFCWCD) in 1947.

The MCFCWCD became the Monterey County Water Resources Agency (MCWRA) in 1991, with an updated mandate to provide for the control of flood and storm waters, conservation of such waters through storage and percolation, control of groundwater extraction, protection of water quality, reclamation of water, exchange of water, and the construction and operation of hydroelectric power facilities. MCWRA area covers all of Monterey County, including the Salinas Valley Groundwater Basin. The MCWRA consists of 27 funds.

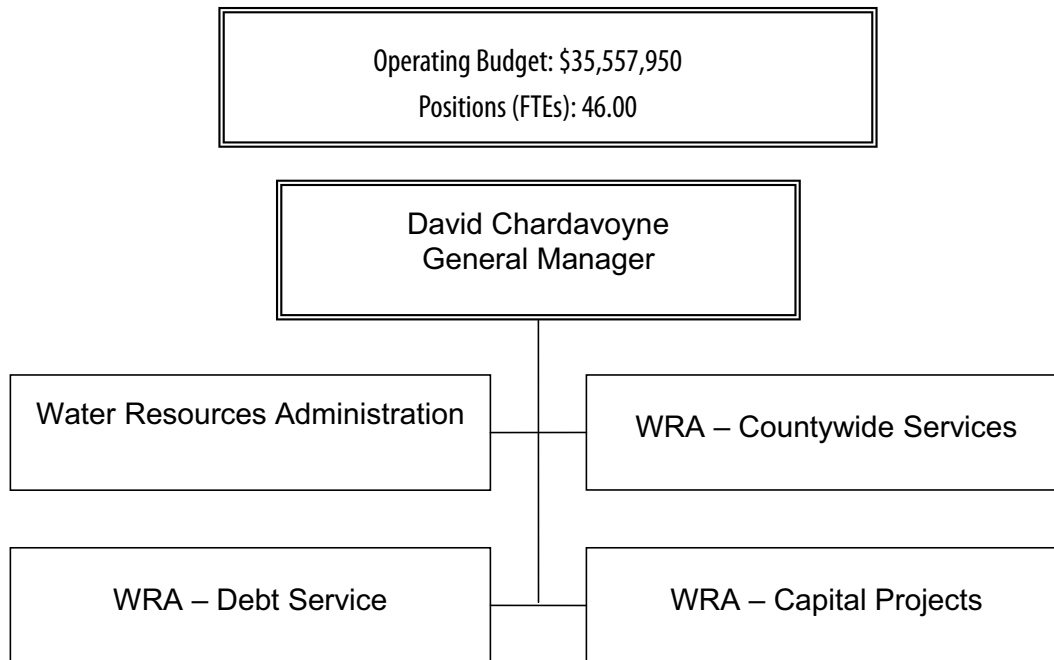

The MCWRA has a nine-member board. The board is made up of members appointed by the Monterey County Farm Bureau, Monterey Grower-Shipper Association, the County Agricultural Advisory Committee, five members appointed by the County Board of Supervisors (one from each district), and a member appointed by the Mayor Select Committee. The board is under the governance of the Board of Supervisors.

The MCWRA actively addresses the following Board Strategic Initiatives: Strategic Initiative No. 3 - Streamline County operations for greater accountability and efficiency of service delivery and cost savings; Strategic Initiative No. 5 - Plan and develop a sustainable physical infrastructure that improves the quality of life for County residents and supports economic development initiatives; and Strategic Initiative No. 6 - Promote the use of alternative energy sources and related best practices that benefit the environment.

The biggest challenge for MCWRA is halting seawater intrusion in the Salinas Valley Groundwater Basin, which was studied, identified and documented by the State of California Department of Public Works (who later became the Department of Water Resources) in 1946. Since the study in 1946, seawater intrusion has progressed steadily inland. The MCWRA has continued to study the seawater intrusion mechanisms and selected and implemented several projects to halt seawater intrusion.

MCWRA major funds consist of: Administration (Fund 111); Pajaro River Levee (Fund 112); Countywide (Fund 113); Nacimiento and San Antonio Non Operations and Maintenance (Funds 114/115); Zone 2C Dam Operations and Administration (Fund 116); Castroville Seawater Intrusion Project (CSIP) Zone 2B (Fund 119); Reclamation Ditch Operations and Maintenance (Fund 122); Nacimiento Hydroelectric Plant Operations and Maintenance (Fund 130); Castroville Seawater Intrusion Project (CSIP) Operations and Maintenance (Fund 131); Salinas Valley Reclamation Project (SVRP) (Fund 132); Salinas Valley Water Project (SVWP) Bond Revenue (Fund 133); Salinas River Diversion Facility Operations and Maintenance (Fund 134); Castroville Seawater Intrusion Project (CSIP) Debt Service (Fund 303); the Monterey Financing Authority Debt Service (Fund 313); and Interlake Tunnel Project (Fund 426).

**Staffing Trends**

**Expenditure/Revenue History (in millions)**

WRA has an internal performance measurement program with related performance measures. Their standard reports are visualized in graphs and charts and will be available in the Managing for Results Annual Report.

## Summary of Recommendation

The FY 2017-18 Recommended Budget for the Monterey County Water Resources Agency (MCWRA) programs is \$35,557,950. Anticipated Revenues are \$33,851,496 and the use of \$1,706,454 in fund balance will provide a statutorily balanced budget. Budgeted unassigned fund balances at 06/30/2018 are anticipated to be \$13,910,814.

Salaries and Benefits increased by \$222,501 from the FY 2016-17 due to pay increases, Social Security Benefits (SSN-FICA), and post-retirement benefits.

Service and Supplies increased by \$856,192, a 35% increase over the FY 2016-17 Adopted Budget. This is primarily due to increases in County health benefits, property insurance, general liability, mail courier, Internal Legal Counsel, External Legal Counsel, and internal data processing.

There are no Capital Assets in the FY 2017-18 Recommended Budget.

Other Financing Uses increased by \$3,738,000 from the FY 2016-17 Adopted Budget. The Agency will transfer \$3,600,000 from Fund 119-Zone 2B special assessments to the Castroville Seawater Intrusion Project Fund 131 and the Salinas Valley Reclamation Project Fund 132. In addition, the Agency will transfer \$405,000 from Fund 130-Nacimiento Hydro-electric Power Plant Fund to Fund 113-Countywide, Fund 114-Nacimiento Non-O&M and Fund 115-San Antonio Non-O&M.

Revenue estimates changed from the FY 2016-17 Adopted Budget, the Agency predicts that hydroelectric sales revenues reach \$1,117,484 due to the recent 2017 winter storms. This is a revenue increase of 82% from the FY 2016-17 Budget. The Agency continues to reduce expenditures in all Agency funds and will implement a 3% cost of living increase on most Agency Zones.

Though MCWRA budget is statutorily balanced, the budget fails to meet the County of Monterey financial guideline of a structurally balanced budget. A structurally balanced budget matches ongoing sustainable budget. MCWRA recognizes that a transition period will be required to achieve a structurally balanced budget. The Agency is working on interim and long-term strategic plans to meet County Fiscal Guidelines where fund balances are not used to sustain ongoing operations. The strategic plan will consider organizational restructuring with a focus on service level and financial sustainability, as well as fund balance growth and positive cash balances.

Staff positions for the FY 2017-18 Recommended Budget are 46 positions.

### Budget Impacts

The 2017 Winter Storms have reduced the continued drought conditions that have negatively impacted hydro-electric revenue for four years. The Agency estimates a full year of hydro-electric revenue sales estimated at \$1,117,484 for FY 2017-18 Budget.

### Prior Year Accomplishments

Agency continues to work on the Salinas River Channel Maintenance Program and continues to work on a long-term strategy to keep the project moving forward and to include the Salinas River Lagoon.

Agency continues to work with Santa Cruz County Flood Control and Water Conservation District on the U.S. Army Corps of Engineer Pajaro River Levee Project.

Agency continues to work on satisfying the conditions precedent in the Amended and Restated Water Recycling Agreement.

The Agency accepted a \$10,000,000 dollar grant from Department of Water Resources effective September 13, 2016 for the Interlake Tunnel Project.

### Budget Year Goals

Development of an interim and long-term strategic plan to render MCWRA structurally balanced, where expenditures are matched with estimated revenue. MCWRA's focus is to meet County Financial Guidelines and ongoing operations that are sustainable and not reliant on fund balance and onetime source of funds.

Establish a sustainable funding source or alternative requirement for the Salinas Valley Water Project fish monitoring.

Establish funding sources for the Interlake Tunnel Project.

Develop a strategic plan for resolving reservoir real property issues.

Develop a strategy to move forward with a long term Salinas River Channel Maintenance Program.

Implement a Cloud Seeding Program in collaboration with San Luis Obispo County.

Develop a long term financing solution for Zones 2B - Castroville Seawater Intrusion Project (CSIP), Zones 2Y - Salinas Valley Reclamation Project (SVRP), and water delivery/service charges with recommendations from Raftelis Financial Consultants, Inc.

### Pending Issues

Determination of Ground Water Sustainability Agency.

Take steps necessary to increase the Agency's credit rating by January 2018.

### Policy Considerations

Implement Agency Board approved Fund Accounting Recommendations by CPA Rodney Goodman to improve the transparency of Revenue transfers between Funds.
