Introduction

Government Code Section 65400 requires Resource Management Agency (RMA) – Planning to provide an annual report to the legislative body by April of each year, regarding the progress of General Plan implementation, progress in meeting the County’s share of regional housing needs, implementation of the housing element (for details see attached Exhibit 2) and compliance of the General Plan (GP) with the General Plan Guidelines adopted by the Governor’s Office of Planning and Research (OPR).

A total of **52** General Plan tasks have been in process during since the adoption of the 2010 General Plan.

Background

- 1965: Monterey County’s first adopted General Plan
- 1982: Comprehensive update to the County’s General Plan adopted, including 12 Areas Plans, Master Plans. Coastal Land Use Plans adopted between 1982 and 1986.
 - June 15, 2010: 2009-2014 Housing Element adopted
 - August 24, 2010: 2009-2014 Housing Element certified by HCD
 - January 26, 2016: 2015-2023 Housing Element adopted;
 - May 10, 2016: 2015-2023 Housing Element certified by HCD
- October 26, 2010: Monterey County Board of Supervisors adopted the 2010 General Plan (GP) affecting the non-coastal unincorporated areas of the county.
- November 26, 2010: the 2010 General Plan became effective.
- January 25, 2011: The BOS adopted a General Plan Implementation Work Program addressing policies that require the drafting of over 100 new ordinances, plans and programs to implement the goals of the General Plan. Staff estimated this would be a multi-year program, with a cost of about \$8 million. The process involves interdepartmental coordination, obtaining technical information from county consultants, and scoping with stakeholders through extensive public outreach.
- December 13, 2011: Board of Supervisors approved a Professional Services Agreement with EMC Planning Group Inc. to provide technical support for development of certain priority GP implementation documents for an amount not to exceed about \$1 million through June 30, 2015.
- In response to settlement agreements related to litigation over the General Plan EIR, General Plan Amendments were adopted in 2013 and are described below in the Litigation section.

2010 General Plan

The Monterey County 2010 General Plan complies with the OPR General Plan Guidelines. State law requires that General Plans address a range of issues. The mandatory elements of a general plan are: land use, circulation, housing, conservation, open space, noise and safety. These elements provide the County’s objectives, goals and policies to guide land development decisions. Additionally, general plans may include additional elements that are necessary as directed by the governing legislative body and must be consistent with Government Code Section 65300 et seq.

The 2010 Monterey County General Plan (GP) contains the following required elements:

- Land Use Element (LU); adopted 10/26/2010
- Circulation Element (CIRC); adopted 10/26/2010
- Conservation and Open Space Element (C/OS); adopted 10/26/2010
- Safety Element (S) (Note: Includes Noise Element); adopted 10/26/2010
- Housing Element 2015-2023, certified by HCD (replaced Housing Element 2009-2014)
- Public Service Element (PS); adopted 10/26/2010, amended 02/12/13
- Agriculture Element (AG); adopted 10/26/2010
- Economic (ED); adopted 10/26/2010

Area/Master Plans for the following Planning Areas:

- Cachagua Area Plan (CACH); adopted 10/26/2010
- Carmel Valley Master Plan (CV); adopted 10/26/2010, amended 2/12/13
- Central Salinas Valley Area Plan (CSV); adopted 10/26/2010
- Greater Monterey Peninsula Area Plan (GMP); adopted 10/26/2010
- Fort Ord Master Plan (FO); adopted 10/26/2010; requires certification by Fort Ord Reuse Authority
- Greater Salinas Area Plan (GS); adopted 10/26/2010
- North County, Inland Area Plan (NC); adopted 10/26/2010
- South County Area Plan (SC); adopted 10/26/2010
- Toro Area Plan (T); adopted 10/26/2010
- Agricultural and Winery Corridor Plan (AWCP); adopted 10/26/2010

Litigation

Following adoption of the 2010 General Plan, four lawsuits were filed in late 2010 against the County challenging the certification of the 2010 General Plan Environmental Impact Report and approval of the 2010 General Plan. The County settled two of the lawsuits. This settlement agreement resulted in the County adopting amendments to the General Plan (described below).

- 1) Carmel Valley Association, Inc. v. Board of Supervisors of the County of Monterey (Monterey Superior Court case no. M109442); case settled. General Plan amended consistent with terms of the Settlement Agreement (February 12, 2013).
- 2) Salinas Valley Water Coalition et al v. County of Monterey (Monterey Superior Court case no. M109451); case settled. General Plan amended consistent with terms of the Settlement Agreement (February 12, 2013).
- 3) LandWatch Monterey County v. County of Monterey (Monterey Superior Court case no. M109434). Supplemental petition challenging February 12, 2013 General Plan amendment filed March 21, 2013. Settlement Agreement entered in early 2015; litigation stayed pending consideration of proposed General Plan amendments and the lawsuit will be dismissed if the amendments are adopted and other settlement conditions are met.
- 4) The Open Monterey Project (TOMP) v. Monterey County Board of Supervisors (Monterey Superior Court case no. M109441). Supplemental petition challenging February 12, 2013 General Plan amendment filed March 21, 2013. Settlement Agreement entered in early 2015; litigation stayed pending consideration of proposed General Plan amendments and the

lawsuit will be dismissed if the amendments are adopted and other settlement conditions are met.

The County adopted two General Plan Amendments:

County initiated amendment of the Carmel Valley Master Plan pursuant to terms of a settlement agreement responding to litigation filed by the Carmel Valley Association:

Resolution approving Addendum No. 1 to Final Environmental Impact Report (FEIR) #07-01, SCH#2007121001, and amending Policies CV-1.6 (Residential Build-out), CV-2.17 (Traffic evaluation/methodology), CV-2.18 (Carmel Valley Traffic Improvement Program), CV-3.11 (Tree Protection), and CV-3.22/CV-6.5 (Non-agricultural Development on slopes).

Resolution No. 13-029: Adopted by the Board of Supervisors on February 12, 2013

County initiated amendment of the Public Services Element pursuant to terms of a settlement agreement responding to litigation filed by the Salinas Valley Water Coalition:

Resolution approving Addendum No. 2 to FEIR #07-01, SCH#2007121001, and amending Policies PS-3.1 (Long-Term Sustainable Water Supply), PS-3.3 (Domestic Wells) and PS-3.4 (High Capacity Wells).

Resolution No. 13-028: Adopted by the Board of Supervisors on February 12, 2013

The County has initiated amendments of the 2010 General Plan pursuant to terms of settlement agreements responding to litigation filed by LandWatch Monterey County and The Open Monterey Project.

The agreements require the County to consider amendments to the following policies: PS – 3.1 (relating to long term sustainable water supply), OS - 3.5 (relating to Agriculture and the conversion of uncultivated land on slopes greater than 25%), OS - 3.1 (relating to Best Management Practices regarding erosion control), OS-3.9 (relating to a program to address cumulative hydrologic impact of the conversion of hillside rangeland to cultivated croplands), OS-5.16 (relating to biological report requirements), OS-5.24 (relating to wildlife corridor/linkages and the addition of an illustrative wildlife corridor map to the 2010 General Plan);and amend the Agricultural Winery Corridor Plan and Glossary. An addendum to the General Plan EIR for these amendments has been prepared. As a result of Settlement Agreements with LandWatch Monterey County and The Open Monterey Project, General Plan amendments have been processed to the Planning Commission starting in February 2015 and to the Board of Supervisors in April 2015; the Board has continued the hearing on the amendments from time to time. To date discussions have not concluded.

Fort Ord

In 1997, the Fort Ord Base Reuse Plan (BRP) was adopted for the former Fort Ord area. The Fort Ord Reuse Authority was formed with representatives from interested jurisdictions and agencies to oversee implementation of the BRP. The Fort Ord Reuse Authority (FORA) Board of Directors must certify that jurisdictions' general plans within the Fort Ord territory are intended to be carried out in full conformance with the Fort Ord Reuse Authority Act and are consistent with the BRP and FORA's plans and policies. The process for such a consistency review is established by Section 8.01.020 of the FORA Master Resolution.

In 2001, Monterey County amended the County's 1982 General Plan to incorporate a Fort Ord Master Plan with relevant sections of the BRP. In 2002, FORA certified that the Fort Ord Master Plan is consistent with the BRP. In 2010, the County adopted an updated Fort Ord Master Plan as part of the 2010 General Plan, but the Fort Ord Reuse Authority has not certified the 2010 Fort Ord Master Plan.

General Plan Implementation

Since the adoption of the 2010 General Plan, a number of ordinances, plans and programs have been adopted. In the 2016 for the reporting period of March 26, 2016 to March 30, 2017 the items listed below have been approved, adopted and in some cases, as indicated, require on – going monitoring. If additional action is required, it is indicated in the last column titled Next Steps in the Long Range Planning Work Program Summary Matrix (Exhibit 1).

Salinas Valley Zone 2C - Salinas River Ground Water Basin Study, LRWP Task No. 155

Policy PS-3.1 requires a study on the state of the Salinas River Groundwater Basin relative to quantity, quality, drought, groundwater storage and seawater intrusion. On December 16, 2014, the Board of Supervisors received an Executive Summary of the State of the Salinas River Groundwater Basins Study (SRGBS). On March 22, 2016, the BOS approved a cooperative joint agreement with the United States Geological Survey (USGS) to complete the SRGBS. Stakeholder outreach meetings were held in Salinas, Soledad, and King City on July 12, 13 and 14, 2016 respectively. On November 15, 2016 the project team met with Salinas Valley agricultural experts to discuss topics such as water balance and climate regions, land use mapping, and crop groupings. On March 2, 2017, the project team met with various representatives from the grower community to discuss an approach to land use data and crop rotations. On March 14, 2017, a meeting of the technical advisory committee was held to present initial model calibration results and discuss next steps prior to a scheduled presentation on July 11, 2017 of an integrated hydrologic model of the Salinas Valley calibrated over the historical period 1967 to 2014 (SVIHM-14).

Ag Land Mitigation Program (REF160008), LRWP Task No. 21

Policy No. AG-1.12, which requires preparation, adoption and implementation of a program that requires projects involving a change of land use designation resulting in the loss of Important Farmland (as mapped by the Department of Conservation [DoC] Farmland Mapping and Monitoring Program) to mitigate the loss of that acreage. On May 2, 2016, County of Monterey RMA-Planning submitted a Sustainable Agricultural Lands Conservation Program (SALC) grant application to the State of California DoC in an amount up to \$182,366 to provide funding for the development of the Agricultural Land Mitigation Program. In August of 2016 the DoC notified the RMA Planning department that it had received the Strategy and Outcome grant award through the SALC program. Staff will work with the Ag Commissioners Office to complete the Ag Land Mitigation Program/Ordinance.

Tracking System/Reporting, Agricultural Wine Corridor Plan & Carmel Valley Unit Count (REF160037), LRWP Task No. 172, 193 & 194

Policy LU 1.20 requires the preparation of a tracking system to monitor development build-out, based on specific land use/density designations, as identified in the adopted area plans of the 2010 General Plan. In addition, there are several policies that limit development and therefore need to be tracked. For instance, Carmel Valley Master Plan policies CV-1.6 and CV-1.15 cap residential and visitor serving developments, and the

Agricultural and Winery Corridor Plan limits certain winery related development. In October 2012, the tracking system was presented to the Board of Supervisors. The tracking system incorporates all limited development, updating the information periodically and requires that the information be presented to the Planning Commission on an annual basis. The current year effort relates to developing the program for identifying the tracking intervals and establishing a schedule to presented the updated information to the appropriate hearing authority. The annual report was scheduled to be considered by the Planning Commission on October 26, 2016. However, due to scheduling priorities it was continued to November 16, 2016 at which time the report was presented to and accepted by the Commission.

Hazard Mitigation Plan (HMP) (Emergency Plan/Procedures) (REF130070), LRWP Task No. 59

Policies S-5.1, S-5.2, S-5.3, S 5.5 & S- 5.6 require the preparation of Emergency Plans that provide a coordinated and effective response to emergency and disaster events within Monterey County. The 2013-2014 plan update process was led by Monterey County's Office of Emergency Services, with technical assistance from consultant AECOM, and through a collaborative partnership with the National Oceanic and Atmospheric Administration (NOAA), Federal Emergency Management Agency (FEMA), and National Association of Counties (NACo). Also providing assistance was a multi-jurisdictional planning team that includes representation from participating communities and other key stakeholders, and will be informed through a sustained public outreach and engagement strategy. The process updated the existing plan to better reflect current conditions, along with the incorporation of new information, to help address the potential long-term effects of climate change and sea level rise. Monterey County Office of Emergency Services submitted the Multi-Jurisdictional Hazard Mitigation Plan to Federal Emergency Management Agency (FEMA) for review and approval on March 25, 2015. The updated Multi-Jurisdictional Hazard Mitigation Plan was then subsequently approved by the Board of Supervisors on February 23, 2016. No additional action is required by FEMA. The Multi-Jurisdictional Hazard Mitigation Plan is valid for a five period. The next update to the Hazard Mitigation Plan will be in 2021.

Local Agency Management Program (LAMP), LRPWP Task Nos. 54 & 55

Policies PS-4.8, PS-4.10, PS-4.12 & CV-5.5 as well as the Basin Plan require the development of area specific On-site Wastewater Management Plans (OWMP), which have been superseded by a County-wide Local Agency Management Program (LAMP). Technical assistance has been secured from the Wallace Group. Environmental Health Bureau has taken the lead and submitted a draft LAMP to the Board of Supervisors on May 10, 2016 and to the Central Coast Regional Water Quality Control Board on May 13, 2017. Staff is preparing a revised draft LAMP based on feedback received from the public and the Central Coast Water Board and intends to submit it to the Central Coast Water Board in October 2017. Once the LAMP is approved, staff will return to the Board of Supervisors in or around May 2018 with proposed amendments to Monterey County Code Chapter 15.20, to make it congruent with the approved LAMP.

Water and Energy Efficient Landscape Ordinance (REF110056), LRWP Task No. 42, 47 (portion), 61, 89, 97

Water conservation is critical to Monterey County and its residents, and landscaping is a key area where this can be achieved. Requiring installation and maintenance of landscape designs that use less water will result in water conservation. There are six General Plan policies that are related to landscaping and landscape activities, and adoption of a Landscape Ordinance will result in the implementation of those policies. The main principles of four policies (PS-2.8; PS-3.11; PS-3.12; and OD-5.6) are potable water conservation and ground water recharge. Implementation of these policies will require planting with low water use, drought tolerant, and native or native compatible vegetation; designing irrigation systems to be water efficient; and incorporating Low Impact Development landscape techniques to capture and maintain storm water onsite. Implementation of Policies OS-5.14 and S-2.4 require the encouraging the exclusion and eradication of invasive plants and incorporating the use of fire-resistant plants. In addition to the General Plan policies, state law, the “State Water Conservation in Landscaping Act” requires local jurisdictions to either adopt the State Model Water Efficient Landscape ordinance (MWELo) or a local ordinance that is at least as effective in water conservation. Staff has drafted Coastal and Inland Water and Energy Efficient Landscape ordinances and an accompanying design manual that incorporates the requirements of the General Plan and state law. The ordinances were brought before the Planning Commission at workshops on December 12, 2012 and April 9, 2014. Input and comments were received by the public and commission. Due to the technical nature of the regulations, the design manual was distributed to local landscape architects, contractors and nurseries for review and input. The Planning Commission considered the draft ordinances and recommended approval to the Board of Supervisors on March 25, 2015. On April 15, 2015, the Governor of the State of California issued Executive Order B-29-15 revising the MWELo, resulting in the need for staff to revise the proposed ordinances. Staff revised the ordinances accordingly, and the ordinances were introduced at the Board of Supervisors on February 23, 2016. The Board of Supervisors directed further consultation with the interested public, and staff was scheduled to present a status update to the Board multiple times in 2016. However, due to competing priorities the Board schedule did not allow the item to be heard. Staff intends to present the final Coastal and Inland Water and Energy Efficient Landscape ordinances and accompanying Landscape Manual for consideration and approval in 2017.

Development Evaluation System (REF120030), LRWP Task No. 35

Community Areas, Rural Centers and Affordable Housing Overlay Districts are identified as areas of top priority for future development. Outside of those areas, Policy LU-1.9 of the General Plan requires a Development Evaluation System (DES) be established to provide a systematic, consistent, predictable and quantitative method for decision-makers to evaluate developments of five or more lots or units and developments that will have the equivalent or greater impact regarding traffic, water or wastewater. Over the past three years staff has been working on developing the evaluation system and has received input from various stakeholders. In February 2015, a second Planning Commission workshop was conducted. The public requested additional discussion with staff, and the Commission directed further outreach to stakeholders primarily to resolve

agricultural development in relation to the policy. As a result, a DES Focus Group was created. Staff held three meetings with the group in late 2015 and early 2016. The Planning Commission directed staff to continue to refine the DES and return with a pass or fail system.

Zoning Maps Update (REF140023), LRWP Task No. 44

This task requires both an update to the zoning maps and the development of new zoning regulations within the inland zoning ordinance (Title 21) to develop new zoning and overlay districts that were established by the 2010 General Plan. Staff presented a draft of these zoning regulations at a workshop before the Planning Commission in November of 2015. The Affordable Housing Overlay draft regulations were heard by the Housing Advisory Committee in January of 2016. Staff is currently revising these draft regulations to incorporate comments and feedback received at both of these meetings.

County Traffic Impact Fee (REF130108), LRWP Task No. 11

Policies C-1.2.c and 1.8 requires the preparation of a Traffic Impact Fee Program. In February 2014, a Nexus Study was completed and presented to the Planning Commission and the public for review and discussion. The study identifies the transportation projects to be funded by the fee program, the fees to be implemented and documents the relationship between anticipated development impacts and fee rates. The Nexus study has been completed, and an ordinance establishing the fee is being drafted. Hearings on the program and ordinance are expected in 2017.

Community Climate Action Plan (REF120045), LRWP Task No. 14

Policy OS-10.11 requires the County to adopt a greenhouse gas reduction plan with a target to reduce emissions by 2020 to a level that is 15% less than 2005 emission levels. With assistance from the Association of Monterey Bay Area Governments (AMBAG), an inventory of 2005 baseline emissions has been completed. Staff has forecasted 2020 emission levels based on a Business as Usual scenario, assuming no efforts are made to reduce emissions. RMA staff has lead stakeholder outreach efforts. Public meeting and an online poll was posted on the County web-site to obtain feedback from the public the importance of climate change and get ideas/suggestions on how to address climate change. A focus group was formed to develop a list of reduction measures for inclusion in the plan. A contract proposal from ICF International has been received to prepare a model and detailed analysis of reduction measure costs and benefits to complete the Community Climate Action Plan. Staff will manage the preparation of the CEQA document and processing through hearings.

Conclusion

Since the adoption of the Long Range Work Program, 52 General Plan tasks have been completed.

Housing

East Garrison Housing Development – (PLN030204, Greater Monterey Peninsula Area Plan)

On October 4, 2005, the Board of Supervisors approved entitlements to allow development of the East Garrison area within the former Fort Ord Army Base. The entitlements included adoption of the East Garrison Specific Plan (EGSP) and a Combined Development Permit. The EGSP outlines distribution, location and extent of land uses and major infrastructure components and includes implementation measures and design guidelines for development. The Combined Development Permit included a vesting tentative map for the creation of parcels and construction of approximately 1400+/- residential dwelling units, commercial and public uses, and public facilities.

The East Garrison Community includes three phases of development along with a Town Center and a Historic-Arts District. Since its approval in 2005, the Final Maps for Phases 1 and 2 have been recorded, horizontal construction (subdivision improvements) for both phases have been completed, and vertical construction of new homes is under way.

As of June 30, 2017, 2016, vertical development of Phase 1's 397 dwelling units is 95 percent complete, including construction and occupancy of Manzanita Place, a 65-unit low income apartment complex, 234 detached market rate single-family dwellings and 12 market rate Condominiums 16.; nine moderate income inclusionary units and three Workforce II units.

Vertical construction of Phase 2's 470 dwelling units continues. As of June 30, 2016, 2016 there are approximately 167 market rate detached single family dwelling and two Workforce II units. This new fire station is under construction and is scheduled to be completed in Spring 2018. Two neighborhood parks are 50 percent complete, and a 6-acre community park known as Lincoln Park will be completed and accepted by the East Garrison Community Services District in September 2017.

The Final Map and subdivision improvement plans for Phase 3 are anticipated to be approved by the Board of Supervisors in September 2017, with infrastructure construction scheduled to be complete in 2018. Vertical construction of Phase 3 will begin in 2019, and will include 533 dwelling units, the 34,000 s.f. commercial Town Center development and park, the Historic-Arts District, an additional neighborhood park, and a new public library.

ANNUAL ELEMENT PROGRESS REPORT

Housing Element Implementation

(CCR Title 25 §6202)

Jurisdiction	MONTEREY COUNTY
Reporting Period	01/01/2016 - 12/31/2016

Pursuant to GC 65400 local governments must provide by April 1 of each year the annual report for the previous calendar year to the legislative body, the Office of Planning and Research (OPR), and the Department of Housing and Community Development (HCD). By checking the "Final" button and clicking the "Submit" button, you have submitted the housing portion of your annual report to HCD only. Once finalized, the report will no longer be available for editing.

The report must be printed and submitted along with your general plan report directly to OPR at the address listed below:

Governor's Office of Planning and Research
P.O. Box 3044
Sacramento, CA 95812-3044

Table C

Program Implementation Status

Program Description (By Housing Element Program Names)	Housing Programs Progress Report - Government Code Section 65583. Describe progress of all programs including local efforts to remove governmental constraints to the maintenance, improvement, and development of housing as identified in the housing element.		
Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
H-2.c Extremely Low Income and Special Needs Individuals and Households	Assist 20 extremely low income individuals and households in new or expanded residential care facilities, emergency shelters, transitional housing, supportive housing, or SRO facilities over eight years.	Ongoing	Since funding a portion of the construction cost for a transitional housing unit at Rancho Cielo, located outside of Salinas, the County continues its support by providing CDBG funds to Rancho Cielo for services for six at-risk youth living in transitional housing. The County actively participates in making funding recommendations to HUD for Continuum of Care and ESG programs/projects. Additionally, the County is an active participant in a newly formed group which includes multiple county departments, other jurisdictions, and private foundations and businesses to address the lack of housing for the homeless. Finally, the county also has a seat on the newly formed Monterey Bay Economic Partnership which has been formed to address the housing crisis in the region.
H-2.e Housing Choice Vouchers	Support Housing Authority of Monterey County efforts to provide vouchers to very low income individuals and families annually. (At least 75 percent of the vouchers are	Ongoing	The County continues to support the Section 8 Program by referring inquiries to the Housing Authority of the County of Monterey. This support is applicable to Project Based vouchers as well.

	required to be for extremely low income households pursuant to HUD regulations.)		
H-3.c Adequate Sites for RHNA	As part of the development of future Community and Capital Improvement and Financing Plans for Rural Centers, ensure that an adequate inventory of vacant and underutilized residential and mixed use sites is available to accommodate the County's remaining and future RHNA. Monitor the sites inventory annually to assess the County's continued ability to facilitate a range of residential housing types. Provide inventory of vacant and underutilized sites and promote lot consolidation opportunities to interested developers throughout the planning period.	Ongoing	As part of the development of future Community and Capital Improvement and Financing Plans for Rural Centers, ensure that an adequate inventory of vacant and underutilized residential and mixed use sites is available to accommodate the County's remaining and future RHNA. This is to be done within this planning period through 2023.
H-4.a Zoning Ordinances and Permit Processing	If amendment to Title 21 regarding the removal of the UP requirement for multi-family housing is considered, this will be completed within two years of the Housing Element adoption. This amendment would help to remove governmental constraints on the provision of housing in Monterey County by streamlining permit processing procedures and facilitate the provision of housing for special needs and extremely low income households.	2018	RMA-Planning would host a Planning Commission Workshop to solicit feedback about zoning code amendments for multi-family housing development in order to eliminate the UP requirement on multi-family housing. If amendment to the zoning code for multifamily housing development occurs, this would occur two years following the HE adoption, resulting in amendments to occur by 2018.
H-5.a Fair Housing	Include information on County's website and develop written material as needed in 2016. Continue marketing efforts throughout the planning period. Continue to distribute fair housing information at public counters and community locations. Continue to refer	Ongoing	The County has previously provided CDBG funding to two fair housing service providers - Legal Services for Seniors and Project Sentinel. The services provided included training to housing providers as well as to other agencies and jurisdictions in regard to fair housing law. They also provided legal services to individuals with fair housing issues. The County has set aside CDBG funds to issue an RFP for these services for fiscal year 2017-18.

	questions and complaints regarding fair housing to the appropriate fair housing service providers and monitoring agencies.			
H-5.c Homeless Services	Continue to allocate CDBG funds to service providers that provide assistance to the homeless through the annual budgeting process. Provide assistance to 2,000 homeless persons through partnerships with various non-profit organizations and social service agencies.	Ongoing	The County provides financial assistance on an annual basis through its CDBG program to a number of local non-profit agencies that offer direct services to the homeless as well as to those at risk of becoming homeless. Shelter Outreach Plus offer outreach and medical services to the homeless in the unincorporated area of north county known as Pajaro. In 2016, their Mobile Outreach Services Team program provided services to 139 homeless people. The Food Bank and Meals on Wheels provided meals to 533 individuals who were at risk of becoming homeless. Rancho Cielo provided services to six homeless youth in their transitional housing program.	
H-1.a Preservation of Existing Rental Affordable Units	Preserve nine at-risk affordable housing units.	Ongoing	The County assisted MidPen Housing to acquire and rehab Geil Street, an 11 unit project located in Castroville, by providing both CDBG and Housing Successor Agency funds. The owners had allowed the property to fall into disrepair, defaulted on the State loan and, for all intent and purpose, abandoned the property. MidPen negotiated to purchase the property, take over the state loan and fund the rehab through County funding. Acquisition and the work occurred in 2015. Four of the 11 residents are farmworkers. Deed restrictions provide affordability at the following levels: 2 units @ extremely low, 4 units @ very low, and 5 units at low income.	
H-2.d Homebuyer Assistance Programs	Continue to offer a local first-time homebuyer program. Continue to provide information on other available homebuyer assistance programs (such as the CalHFA and GSFA programs) on County website. Promote CalHFA and GSFA programs to local real estate community to encourage their participation in the programs.	Ongoing	Interest in the County's First Time Homebuyer Program remains high with 155 households prequalified to participate as of year end 2016. The County also continues to provide information about other homebuyer assistance programs such as Golden State Finance Authority's Mortgage Credit Certificate and Down Payment Assistance Grant programs.	
H-5.b Non-Profit Housing Assistance Programs	Continue to support non-profit housing development and market the availability of the County to provide the following assistance.	Ongoing	The County supports the efforts of local non-profits that provide direct housing assistance to lower-income Monterey County households. The County has also provided funding to two non-profits to assist with fair housing efforts. The County will continue to market the availability of these programs through written materials (e.g. brochures, flyers, etc.), on the County's website and at	

			<p>neighborhood and community centers.</p> <p>The County provides technical assistance to non-profit housing developers in regard to funding and specific development issues of new projects. The County also provides direct financial support to projects as funds become available.</p> <p>During 2015 and a portion of 2016, the County continued its assistance to non-profit South County Housing/Eden with financing for the reconstruction of the Camphora Farm Labor Camp that formerly housed 44 extremely low, very low, and low income farmworker families totaling 174 people near Soledad.</p> <p>Additionally, County RDA/ Housing Successor Agency loans funded a portion of the construction which began in January of 2015. Occupancy took place in the first quarter of 2016.</p>
H-2.b Farmworkers and Agricultural Employees Housing	<p>Assist employers with providing 40 lower income farmworker housing units over eight years. Specifically, work to achieve 10 of the 40 units as extremely low income. On an ongoing basis, coordinate with nonprofit developers and employers to identify appropriate sites and funding sources for farmworker housing. Through the NOFA process, continue to provide funding support for farmworker housing using the Affordable Housing Fund.</p> <p>Support applications for farm housing grants when the proposed projects are consistent with the County's General Plan.</p>	Ongoing	<p>During 2015 and part of 2016, the County continued its assistance to non-profit South County Housing/Eden with financing for the reconstruction of the Camphora Farm Labor Camp that formerly housed 44 extremely low, very low, and low income farmworker families totaling 174 people near Soledad. County-provided State</p> <p>CDBG funding previously was used to pay down a portion of the Seller Acquisition Note and complete onsite water storage and distribution system improvements. Additionally, County RDA/ Housing Successor Agency loans funded a portion of the construction which began in January of 2015 and occupancy took place in the first quarter of 2016.</p> <p>The County worked with ag employer T&A to fast track a farmworker project in the unincorporated area of Spreckles. One hundred two-bedroom units house up to 800 farmworkers. The project began construction in mid-2015 and was completed in April of 2016.</p>
H-1.c Energy Conservation	<p>Reduce energy consumption and carbon emissions throughout the planning period. Assist in energy conservation improvements for five homes annually.</p>	Ongoing	<p>The County is undertaking a number of energy conservation related initiatives. Since adopting a Green Building Ordinance and the Municipal Climate Action Plan (MCAP) in 2013, the County has continued to work on a Community Climate Action Plan. The County has also developed a sustainable webpage called Go Green! Monterey County showcasing the steps Monterey County government is taking to make this community sustainable by adoption of policies, taking action and partnering with sustainable entities in order to further the goal of living in a sustainable and healthy community. This page provides resources to Monterey County residents and businesses.</p> <p>The County also awarded HUD CDBG funding to GRID Alternatives for installation of solar energy systems which resulted in 6 low income households benefited from these installations on their single family houses.</p>

H-2.f Inclusionary Housing	Facilitate the development of 10 affordable inclusionary housing units annually.	Annually	<p>The County continues to implement the Inclusionary Housing Program and analyze new development applications to ensure that they are conditioned to supply affordable units as appropriate.</p> <p>The County's Inclusionary Housing Program was last amended in 2011. In 2015, the Housing Advisory Committee requested that the program be reviewed and updated to ensure that the program continues to meet the County's affordable housing goals. The County will review both the Ordinance and the Administrative Manual in 2017 to ensure consistency with the General Plan and reflect market conditions. As necessary and appropriate, the County will amend the Inclusionary Housing Ordinance to enhance the effectiveness of the Ordinance in addressing the County's housing needs for all income groups.</p> <p>After a long drought, developers are now proposing new projects to the County which will result in new inclusionary units. A number of projects have been or are in process of becoming entitled. Due to the time required for development, no new units were completed in 2016.</p> <p>In 2016, the County did not have to buy back any inclusionary units at risk of being lost to foreclosure.</p> <p>In 2012, a Pebble Beach project was approved which requires at least 18 Inclusionary units or a \$5 million in-lieu fee to be used to develop at least 18 Inclusionary units at an off-site location. The developer has identified a site for 24 units and is still in the entitlement process. The first phase of the for-sale component of the East Garrison Project began construction in 2013. It includes 19 moderate-income Inclusionary townhouse units and 47 workforce for-sale houses which are currently under construction. The Ferini Ranch project was approved for entitlements in December of 2013 and will include 25 units of moderate-income single-family housing as well as an In-Lieu fee of \$4,015,250.</p>
H-3 b Community and Specific Plans	<p>Pursue the General Development Plan for the Cypress Opportunity Area in Castroville Community Plan within this Housing Element planning period.</p> <p>Continue to work with the developers of East Garrison and Butterfly Village to implement Specific Plans throughout the planning period. Continue the development of Community Plans for the Pajaro, Chualar, and Moss Landing Community Areas.</p>	2015-2023	<p>The County will continue developing planning documents for various unincorporated areas. The following Community and Specific Plans have been in development in recent years:</p> <p>Castroville, East Garrison, Butterfly Village, Moss Landing.</p> <p>The following Community or Specific Plans will be developed in the current HE planning period: Boronda, Chualar, and Pajaro. Also, the following Rural Centers will be developed in the current HE planning period: Bradley, Lockwood, Pine Canyon in King City, Playto, River Road, San Ardo and San Lucas.</p>
