Condition of Approval and Mitigation Monitoring and Report Program

2016 Annual Report

Summary

This is the Annual Report on the status of compliance with condition of approval/mitigation monitoring and reporting plans for all land use projects with mitigation measures approved by the County of Monterey in 2016, any related code enforcement actions undertaken in 2016, related trainings, and any proposed action to modify conditions of approval for land use projects approved in 2016. This report is required pursuant to Section III.E of the County of Monterey Condition of Approval and Mitigation Monitoring and Reporting Program (“Program”).

2016 Projects

In 2016, two EIR and seven Mitigated Negative Declarations were adopted (**Exhibit 1**). As demonstrated in **Exhibit 2**, the projects on the list are in compliance or currently working towards compliance with their conditions of approval and mitigation measures are being monitored. None of them have asked for modifications to the conditions of approval, and none of them are under a code enforcement action to require compliance with the conditions of approval or mitigation measures. Some projects have been recently approved and have not commenced the process of condition compliance. On February 14, 2017, the Board of Supervisors approved amendments to the Program. The amendments include requirements for additional staff training, tracking and reporting of conditions of approval and compliance of mitigation measures. In addition, the amendment outlined reporting of on-going conditions of approval and mitigations measures for projects approved in previous years that an Environment Impact Report (EIR) was certified and the project not implemented and on Subdivisions, where the final map has not been recorded. The addition of 11 projects have been included in the Annual Report.

The projects are:

SB000841 - Oak Knowles Subdivision
SH93001 - Moro Cojo CHISPA Subdivision
PC7704 - Pasadera/Bishop Ranch Subdivision
965120PC - Canada Woods North
PLN980516 - Moshine -Somoske Subdivision
PLN990391 - Sunridge Views Subdivision
PLN010001 - Poterero Subdivision
PLN020344 - Omni Enterprise LLC
PLN040758 - Bollenbacher & Kelton Inc (Ferrini Ranch)
PLN100138 - Pebble Beach Company
PLN120294 - California Flats Solar LLC (Hearst Corporation)

Enforcement

RMA-Planning staff continues to work with project applicants to secure condition compliance on projects that were approved in previous years.

In one case, California Flats Solar, LLC (Hearst Corporation PLN120294, Rincon Consultant, Inc consulting firm was retained to perform monitoring and compliance tasks and submit technical memoranda summarizing the review of each compliance document along with next steps, if applicable. County staff conducts weekly conference calls with the staff from Rincon

and California Flats Solar representatives to discuss the timeframe for submittal of the requested documentation. Prior to submittal of construction permits, California Flats Solar, LLC is to submit pre-construction reports before issuance of building permits. The project is currently in compliance, and we continue to work with the consultant and the applicant regarding mitigation monitoring.

Training

The RMA has procedures for clearing conditions and mitigation measures. “Standard Comments” were created to for specific conditions to make documentation uniform. Agencies are required to input the date the condition was met, how it was met, and the person in the land use department who cleared the condition into the County’s permits tracking database, Accela Automation. This information is available to the public through the public access component of the database called Accela Citizen Access (<<https://aca.accela.com/monterey/default.aspx>>). This public access portal allows any member of the public access to Planning and Construction permit information for the unincorporated areas of Monterey County 24 hours a day, 7 days a week. Information can be searched by street address, Assessor’s Parcel Number, or Permit File Number.

The RMA Chief of Planning oversee the implementation of the Program and provides training to the other land use departments on tracking condition compliance per the terms of the Program. All planners are assigned condition compliance; however, there is a core team (one senior, an associate and two assistants) that specialize in condition compliance. New staff is trained on these requirements as part of introductory training. “Responsible Departments” and “Advisory Agencies,” as those terms are defined in the Program, met on six occasions in 2016 at the Inter-Agency Review (IAR) meeting. Most recently a major training was conducted on March 2, 2017 to review the amended Program procedures on reporting and inputting Condition Compliance documentation into Accela, along with the new expectations and responsibilities for tracking and monitoring mitigation measures on previously approved projects.

Meet and Confer

During the 2017, County staff met and conferred with representatives from the Save Our Peninsula Committee (“SOPC”) to review the proposed amendments to the Program prior to the Board’s consideration of the amendments. The February 14, 2017, were amendments of conjoint agreement. County staff continually seeks to improve our public communications and accessibility to project information.

Application Title: LOMBARDO LAND GROUP I LP (RANCHO CANADA VILLAGE)

File No: PLN040061

Decision Date: 12/13/2016

Entitlement: Combined Development Permit

Location: 9999 TO BE ASSIGNED, TO BE ASSIGNED, CA 9999

Planning Area: Carmel Valley Master Plan

Current Status: Condition Compliance

Description

The proposed development application consists of: two alternative residential subdivision scenarios for the West Course of the Rancho Canada Golf Club, located on the south side of Carmel Valley Road (4860 Carmel Valley Road), approximately 0.6 miles east of Highway 1. One alternative is a 281-unit residential project consisting of a mix of single family residences (141 units) and townhomes and condominiums (140 units). The second alternative is a lower density, 130-unit project consisting primarily of single family lots, but also includes 12 condominium units. The alternatives occupy the same general area of the West Course, except that the 130-unit alternative also includes a 4.3 acre parcel, approximately one-half mile northeast of the main project area, presently developed with maintenance facilities. The subject site is designated Public/Quasi-Public (P/Q-P) by the Monterey County General Plan and Carmel Valley Master Plan, with a Special Treatment designation allowing for residential development under certain conditions. Consistent with the General Plan and the site's existing public golf course use, the site is in the P/Q-P Zoning District. An environmental impact report (EIR) will be prepared for the project analyzing both subdivision scenarios. The properties are located on Carmel Valley Road, Carmel [No addresses have been assigned to the parcels] (Assessor's Parcel Numbers 015-162-017-000, 015-162-025-000, 015-162-026-000, 015-162-039-000 and 015-162-040-000), Carmel Valley Master Plan.
