CONSTRUCTION MANAGEMENT PLAN

Names and Contact Information of parties responsible for project during construction:

Mastec Network Solutions

3443 Airport Road

Sacramento, CA 95834

Primary Contact Name: Roshell Yocum

Primary Contact Phone: (916) 837-6494

Primary Contact Email: Roshell.Yocum@mastec.com

Secondary Contact Name: Levi Kubeldis

Secondary Contact Phone: (562) 233-00081

Secondary Contact Email: Levi.Kubeldis@mastec.com

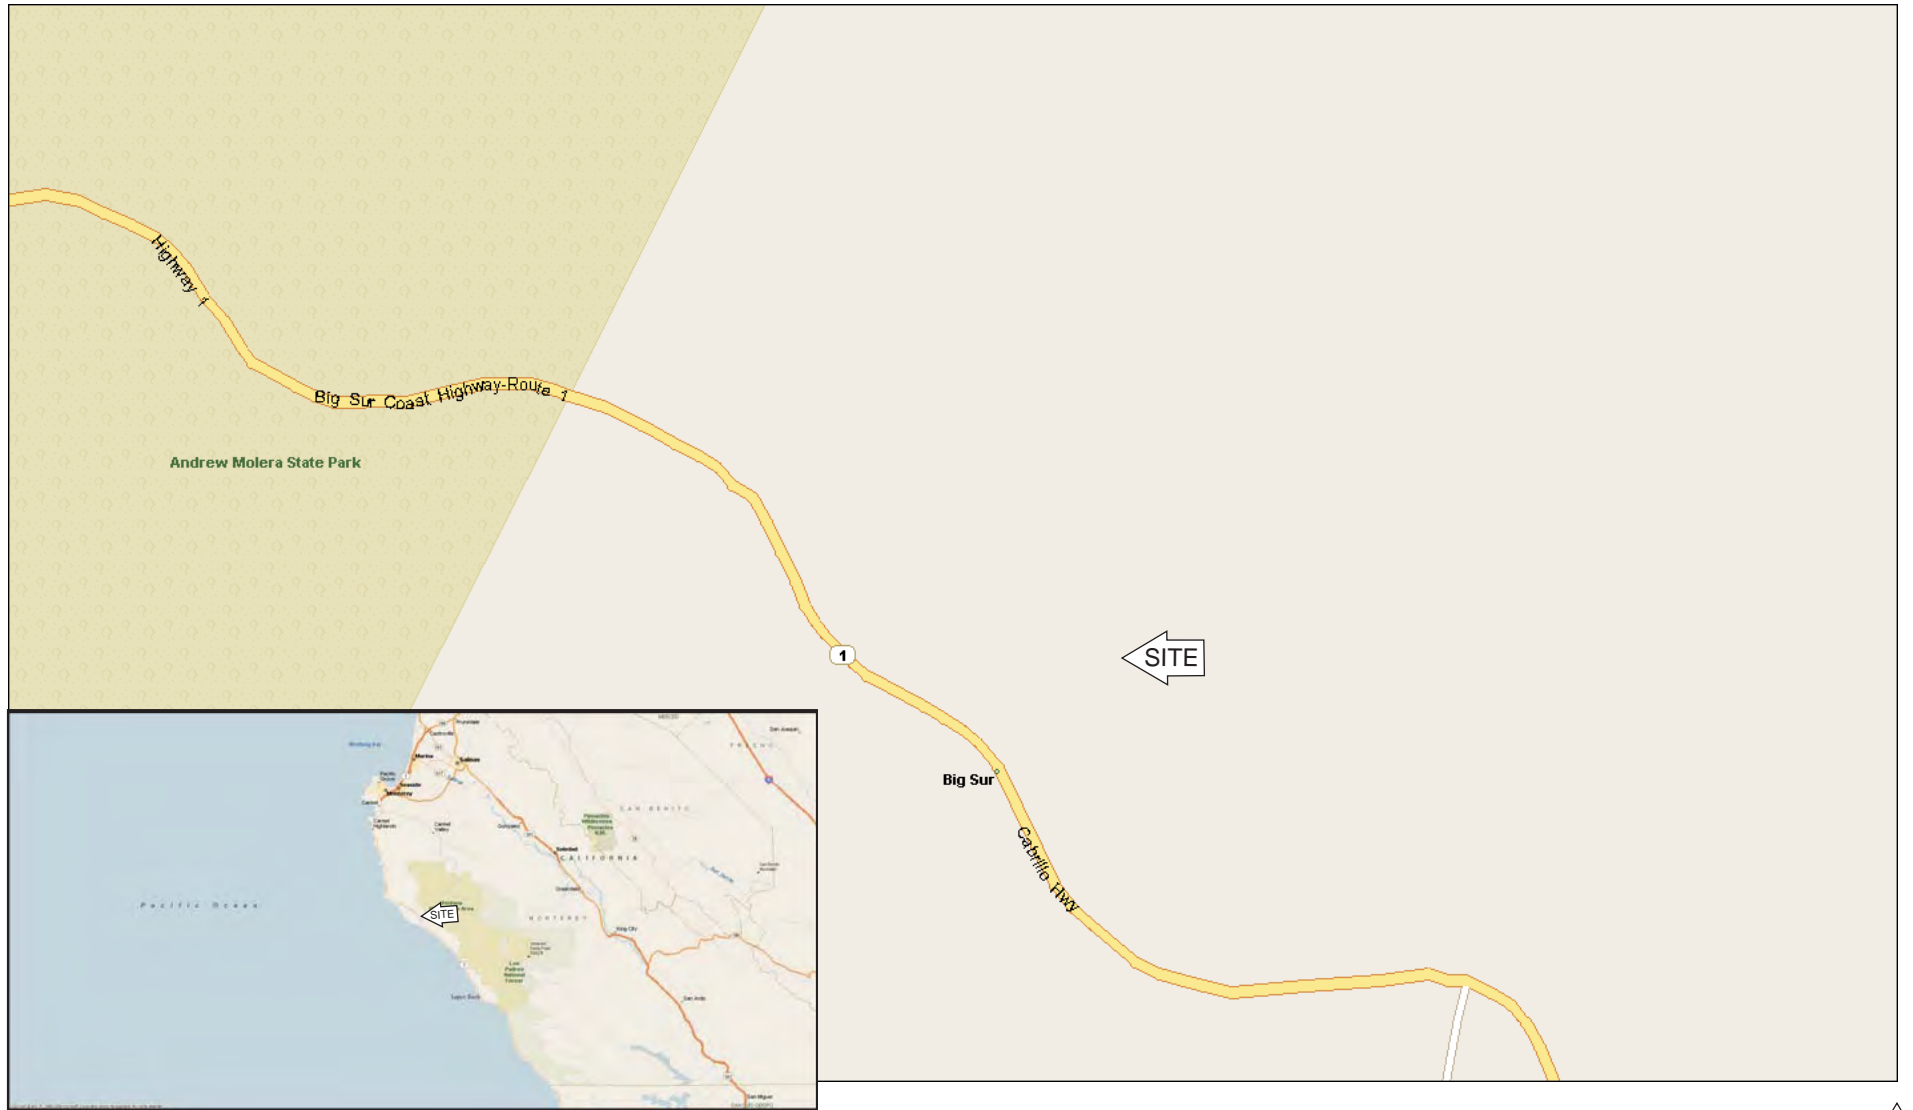

Summary Table:

- Types of Construction Vehicles: Between two (2) and three (3) service trucks ranging between ½ ton and 1 ton (i.e. Ford F150) each accessing the site once per day. AT&T also to use one (1) man-lift.
- Amount of Grading Per Day: None.
- Hours of Operation: 8am to 5pm
- Project Scheduling: TBD. No construction shall occur during rainy or drizzly conditions or when access roads are damp.

Map Illustrating:

- Location of Project (Vicinity Map): See attached.
- Proposed route for Hauling Material: See attached.
- Location of Sensitive Receptors (schools, hospitals) along haul route: None.
- Location of stockpiles and parking for construction vehicles: See attached.
- Sensitive areas: The site is located within designated critical habitat Unit MNT-3 established by the USFWS for the federally threatened California red-legged frog. In order to prevent significant impacts to the California red-legged frog no construction shall occur during rainy or drizzly conditions or when access roads are damp. Straw wattles, silt fencing or other similar best management practice (BMP) should be installed at the downslope edge of the construction zone, ensuring that loose soils do not slide down the hillside beyond the construction zone.

VICINITY MAP

Description: Looking into the existing facility. The facility lies just beyond the coast live oak tree on the right side of the access road.

View: Facing southeast.

Description: View of the access road which travels through this mixed forest.

View: Access road

Description: View of the lower portion of the access road which travels through old growth redwood forest.

View: access road

Description: Typical view of habitat at the site, described as coyote brush chaparral.

View: Facing northwest

Description: Gated entrance to the access road off of State Highway 1

View: Facing north

Above: View of access road (entrance from Hwy 1).

Below: View parking for construction vehicles.
