Post Office Box 930
Salinas, California 93902-0930

Nacimiento Dam, No. 1008
San Luis Obispo County

Dear Mr. Chardavoyne:

We have reviewed the inundation maps submitted on December 22, 2017, for Nacimiento Dam. The submittal includes: (1) the map dated October 30, 2014 for the main dam, and (2) the map dated December 19, 2017 for the gated spillway.

We have identified the gated spillway as the only critical appurtenant structure and determined that the submitted inundation map is consistent with the direction contained in the *Federal Guidelines for Inundation Mapping of Flood Risks associated with Dam Incidents and Failures* (FEMA P-946, 2013). Therefore, the inundation map associated with the failure of the gated spillway is approved.

However, we found that the estimated flood elevations noted on the inundation map for the main dam at various locations downstream does not adequately convey the expected flood depths in accordance with FEMA P-946. Some of these areas are inhabited; therefore, your submitted inundation map for the main dam is judged to be insufficient for emergency preparedness. This inundation map needs to be revised and resubmitted for review. The California Governor's Office of Emergency Services requires all inundation maps for a dam system to be approved and incorporated into the EAP to consider it complete, and they will not initiate their review per Division 3, section 6161(b) of the California Water Code until the EAP is complete.

Please submit a plan and schedule to complete this map for our review by July 1, 2018. All new maps must be prepared in accordance with Title 23, Division 2, Chapter 1, Article 6 of the California Code of Regulations.

If you have any questions or need additional information, you may contact Design Engineer Jesse Dillon at (916) 227-4639 or Project Engineer Ariya Balakrishnan at (916) 227-6742.

Sincerely,

A handwritten signature in cursive script that reads 'Sharon K. Tapia'.

**Subject: Monterey Peninsula Water Management District
Annual Mitigation Report (2016-2017)**

To Whom It May Concern:

Since 1991, the Monterey Peninsula Water Management District (MPWMD) has carried out a comprehensive *Mitigation Program* that addresses the environmental impacts associated with providing water to the community from the Carmel River and Seaside Groundwater Basins. The program focuses on gathering baseline information on hydrology and water quality, the Carmel River steelhead population, the Carmel River riparian habitat, and the Carmel River Lagoon to inform management decisions about needed projects. The *Mitigation Program* is a required component of the MPWMD Water Allocation Program Environmental Impact Report that was certified by the District Board in November 1990. Each year, a detailed Annual Report is prepared that describes the District's specific mitigation activities, data collected, and results. A copy of the report can be downloaded by visiting the District website at: <http://www.mpwmd.net/environmental-stewardship/mitigation-program/>.

If you prefer to have a CD sent in the mail or to be removed from our mailing list, please email sara@mpwmd.net.

Sincerely,

A handwritten signature in blue ink that reads "Thomas Christensen".

May 31, 2018

Chair Luis Alejo
Monterey County Board of Supervisors
168 West Alisal Street, 2nd Floor
Salinas, CA 93901

RE: Agricultural Advisory Committee Nominations
Monterey County Water Resources Agency Board of Directors

Dear Chair Alejo:

At the Board of Supervisors' meeting of February 27, 2018, Item WRAG 18-040 was not approved. The Board of Supervisors requested that the Agricultural Advisory Committee (AAC) submit two new names as candidates to the Monterey County Water Resources Agency (MCWRA) Board of Directors.

On May 24, 2018, the AAC met to consider candidates. Pursuant to MCWRA Act, Chapter 52-49, **John Baillie** and **Benny Jefferson** were nominated as candidates for the position on the MCWRA Board of Directors. Both candidates are submitted to the Board of Supervisors for consideration with equally weighted endorsement from the AAC. They are part of multi-generational farming families; no résumés were submitted; however, their applications are attached for your consideration.

The AAC has an important role in Monterey County land use and carries out these responsibilities with great thought and consideration. The responsibility of adhering to the requirements of the Act to fill the MCWRA vacancy has been and is taken very seriously.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Robert A. Roach
Assistant Agricultural Commissioner
On behalf of the Agricultural Advisory Committee
