**Subject:** July 11, 2018 Workshop: Oil and Gas Exploration Zoning Overlay Workshop REF180021

Hello Melissa,

Thank you for taking the time to speak with me today. I have two inquires I would like to direct to Staff regarding its recommendation to pursue Option 4 in the Agenda Item No. 3 summary;

1) The summary states in Option 4 "Staff recommends that the Planning Commission support Option 4, being representative of the total area where existing permits for oil wells have been approved." How will the staff determine the "total area"; will new well permits be processed that lie in the "Total Area"?

2) What is the rationale for developing zoning regulations regarding prohibition of new oil and gas exploration in Monterey County? Is it to lessen Greenhouse Gas emissions i.e., climate change policy?

Thank you,

Cliff Conkle
