STRATEGIC GRANT SERVICES PROGRAM

The Board of Supervisors created the Strategic Grants Service Program to concentrate funding efforts on the County's highest priority project needs, and projects which require a high-level collaboration among County departments and community partners. The Program works to support the Board's Strategic Initiatives (Economic Development, Administration, Health and Human Services, and Public Safety), and in close collaboration with the Board's Legislative Program to advocate for maximum funding for state and federal programs which translate into local grant funding opportunities.

Purpose:

In close collaboration with County departments, the Strategic Grant Services Program coordinates, facilitates and provides strategic expertise from the identification of a grant funding opportunity for a high priority project, through application submittal and award. Priority projects must align with the Board's Strategic Initiatives and Legislative Program goals, and meet all grant requirements to submit a strong and competitive application.

Typical Activities:

The level of service provided for each application is dependent upon the needs of the department, complexity of the application, level of coordination required, available department expertise and resources, and Program capacity. To facilitate priority project grant applications, Program staff engages in a number of activities such as:

- Continuously updates the inventory of County grant funding needs;
- Conducts research to identify and analyze grant opportunities to meet priority needs;
- Notifies departments of funding opportunities;
- Conducts initial consultations with County departments and grantor agencies to determine project eligibility and competitiveness;
- Partners with County departments on the application process, including the development of an agreement outlining roles, responsibilities and timeline for application development and submittal;
- Partners with outside organizations to implement projects critical to the County (e.g. partner with the Transportation Agency for Monterey County on road, rail, and transit projects);
- Provides strategic expertise throughout the application development process aimed at putting forth a complete, compelling, and competitive application;
- Offers strategic advice related to framing the application in a way that minimizes administrative resources required for post-award grant management;
- Provides strategic advice during the development of the grant application package – including project narrative, scope, schedule, budget, and exhibits;
- Provides and coordinates internal review of the draft application, including review with the grantor agency if allowable;
- Aids with post-application adjustments as requested by the grantor agency;
- Monitors grant award announcements;
- Announces grant awards in partnership with the lead department.

Program Guidance and Administration:

The Program has a limited workload capacity which is directed by the Board of Supervisors through an annually adopted Work Plan. Following Work Plan adoption, the Board's Legislative Committee provides routine Program guidance and direction. The County Administrative Office – Intergovernmental & Legislative Affairs (CAO-IGLA) Division administers the Program, which receives expert advice from the County's grant consultants at Nossaman LLP.

Policies Governing Program Activities:

The CAO-IGLA Division executes the Strategic Grant Services Program with the assistance of the County's grant consultants, and with a high level of collaboration with County departments. The Policies Governing Program Activities outline the roles of the Board of Supervisors, CAO-IGLA staff, the County's grant consultants, and County departments in the execution of the Program. These policies can be found in the Board Policy Manual:

G-230 Strategic Grant Services Program - Policies Governing Program Activities

EXHIBIT A: 2019 WORK PLAN:

A result of close collaboration with County departments, the Work Plan strategically identifies priority projects and funding sources to guide Program efforts over a 12-month period. The Work Plan is designed to be flexible to adjust to the County's changing priorities, and leaves approximately 20% of Program capacity unallocated in order to take advantage of new or unanticipated funding opportunities. The Work Plan presents a timeline of grant applications which the Program will assist departments with in calendar year 2019.

EXHIBIT B: 2019 GRANT NEEDS INVENTORY:

In coordination with the Board of Supervisors and department heads a comprehensive Grant Needs Inventory has been compiled, organized by Board Strategic Initiative, to provide an all-inclusive listing of County projects which require a source of grant funding. The Grant Needs Inventory guides the research of Strategic Grant Program Staff and the County's grant consultant on funding opportunities.
