SUMMARY/DISCUSSION:

In order to establish a consistent matter in which funding from the 1991 Social Services Realignment (SSR) subaccount is passed on to the Health Department for existing programs, The Health Department (Health) requests approval by the Board of Supervisors to transfer \$1,711,466 from the 1991 Social Services Realignment (SSR) subaccount to the 1991 Health Realignment subaccount. This is similar to transfers made in prior years.

This requested action consistently accounts for SSR revenue used to fund programs operated by the Health Department. If approved, all SSR revenue used to fund programs operated by the Health Department will be accounted for in Health Realignment Fund 025 prior to being transferred to operational programs in Fund 001. This will eliminate the direct transfers from SSR in Fund 025 to the Health Department operational units in Fund 001.

Bright Beginnings is an opportunity for the community to work together to ensure that children from the prenatal stage through age eight have what they need to succeed. Bright Beginnings has been funded with both direct transfers from SSR in Fund 025 to Health in Fund 001 and with transfers from SSR to Health Realignment and then to Fund 001. An increase of appropriations or estimated revenue in Health Realignment is not needed for the \$250,000 Bright Beginnings transfer because the Board already approved Bright Beginnings appropriations and estimated revenue in the FY 2018-19 Adopted Budget for Health Realignment.

Children's Medical Services (CMS) provides services to improve health status, mitigate morbidity and reduce health disparities by assuring access to quality preventive and specialty medical care for all Monterey County children. CMS has historically been funded with direct transfers from SSR in Fund 025 to Health in Fund 001.

Nurse Family Partnership (NFP) has been shown to improve health outcomes among participants, including decreased prenatal cigarette smoking, reduced hypertensive disorders of pregnancy, decreased childhood injuries, reduced subsequent pregnancies, and increased intervals between births. Maternal, Child, and Adolescent Health (MCAH) provides resources and information about reproductive health, family planning, and pregnancy. The focus is on the individual's physical, emotional, and mental health. NFP and MCAH have historically been funded with transfers from SSR to Health Realignment and then to Health in Fund 001.

The total Social Services Realignment funding used for programs operated by the Health Department in FY 2018-19 is summarized below.

Bright Beginning	\$250,000
Children's Medical Services	\$1,218,318
NFP and MCAH	<u>\$243,148</u>

\$1,711,466

This transfer of funds supports the Monterey County Health Department 2018-2022 Strategic Plan Initiatives: 3) Ensure access to culturally and linguistically appropriate, customer-friendly, quality health services; and 4) Engage Monterey County Health Department workforce and improve operational functions to meet current and developing population health needs.

OTHER AGENCY INVOLVEMENT:

Social Services has reviewed this request and concurs with the recommendations.

FINANCING:

This report requests approval by the Board of Supervisors to transfer \$1,711,466 from the 1991 Social Services Realignment subaccount to the 1991 Health Realignment subaccount to fund existing programs in the Health Department. There is no impact to the General Fund contribution.

The recommended action provides for the technical accounting needed to transfer the funding from the 1991 SSR Realignment subaccount to the 1991 Health Realignment subaccount and then out to the operational programs in Fund 001 which include \$250,000 for Bright Beginnings program, \$1,218,318 Children's Medical Services programs and, \$243,148 Nurse Family Partnership (NFP) and Maternal, Child, and Adolescent Health (MCAH) programs.
