RECOMMENDATION:

It is recommended that the Board of Supervisors:

Receive an oral presentation from the Employee Wellness Program, outlining its history, progress, and plan for continuous improvement.

SUMMARY/DISCUSSION:

The Employee Wellness Program was created in 1985 as a partnership between management, unions, and employees to address three main areas: Employee health and safety, Health insurance costs, and Worker's Compensation claims. The mission of the Employee Wellness Program is to promote work environments, policies, and programs that preserve the health of employees and promote their ability to excel at their jobs while honoring the importance of family and community.

This presentation will address the program's history, progress, and plan to ensure continuation of success in providing County employees the education and tools necessary to improve their health and quality of life.

This work supports the MCHD 2018-2022 Strategic Plan Initiative (s): 1. Empower the community to improve health; Goal 2. Enhance public health and safety through prevention; and Goal 3. Ensure access to culturally and linguistically appropriate, customer-friendly, quality health services. It also supports the following of the ten essential public health services, specifically: Inform, educate, and empower people about health issues and assure competent public and personal health care workforce.
