

	Group 1	Group 2	Group 3	Group 4
Q1. What funding option should be pursued immediately?	Just fix the stuff that needs fixing, let groundwater plans develop, then move forward together, adopt Annexation Policy to avoid having to redraw boundaries, incorporate Special Assessment with Annexation Policy for Zone 2C.	Prop 218 process using Zone 2C, Annexation Policy adoption	Grants & Federal Opportunities to reduce total, benefit define. Urban, Consider expanding 2C, Marketing, General tax, Add Annexation Process, Assessment of legal risks, extraction fee	Weighted Assessment Dist. to reduce legal challenges, spread costs over residential uses, increase the base of payers, and be able to apply appropriate cost to grazing land. Investigate Pay as You Go to eliminate interest paid and finishing paying for project to allow for GSA funding needs. Public/Private options such as leverage growers to put up money up front for cash flow/keeps interest monies in Monterey County.
Q2. Should there be multiple funding requests for all projects?	There should be multiple requests (Deferred and Et al projects)	I Vote, repair and replace Spillway & Deferred Maintenance Phase 1 & Phase 2, Interlake Tunnel	Multiple, all or nothing big risk segments	Separate! You can't wait for "perfect alignment." There are different opinions on each project. O&M must be addressed (funding mech.)
Q3. Should there be other projects included?	Unaddressed	ILT is contingent upon funding requesting #1 passing	Timing priority, Deferred Maintenance, I Vote considered	No. They need to be kept separate. If included, ILT could "kill" Deferred Maintenance Project.
