Subject: Cal-Am/CV Mutual/Hidden Hills Water Availability

Date: August 5, 2019 at 3:42:44 PM PDT

To: Eric Rey <ericrey@mac.com>

Hi Eric,

MPWMD manages the water supply and process Water Permits for all properties within its boundaries. The Hidden Hills neighborhood is served by a system known as Carmel Valley Mutual, a water company that was purchased by Cal-Am some years ago. The system currently has water available for new connections and additions. MPWMD will process a Water Permit application for a new connection when a complete approved set of construction plans is submitted with a signed application.

Please be aware that Cal-Am did file for a proposed moratorium in the Hidden Hills, Bishop and Ryan Ranch systems of Cal-Am. It has to go through an approval process with the PUC, which may take anywhere for 5 months to 18 months. If its approved before you set your meter for your project it would prevent you from getting a connection to the system for your lot.

Thank you,

Stephanie Kister Campbell

To Whom It May Concern:

This letter serves as notification that the above-referenced property (the "Service Address") is located within the California American Water ("CAW") water service area. CAW will provide water service to the Service Address pursuant to the rules, regulations, and tariffs of the California Public Utilities Commission (CPUC), and in accordance with all applicable federal, state and local laws, regulations, rules, ordinances and restrictions, including those of the Monterey Peninsula Water Management District (MPWMD), and including any order of the California State Water Resources Control Board (SWRCB) that may be issued prior to the date service is initiated.

A party wishing to initiate water service (the "Applicant") must comply with all CAW Tariff Schedules that are on file with the CPUC, as they may be amended from time to time. Among other things, the Tariff Schedules require that the Applicant submit an application to CAW, obtain all required permits (which may include a water permit from MPWMD), and pay all required fees as a condition of initiation of service. CAW's Tariff Schedules are available on its website, www.calamwater.com. Availability of water service to the Service Address is subject to change before the Applicant has applied for water service and has received all required permits and paid all applicable fees required to initiate such service.

Sincerely,

California American Water
