Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.

(Note: any proposed modifications to these insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. The sweeping operation shall consist of removing all dirt, mud, silt, sand, paper, rocks, leaves, cans, glass, sediment, and other debris. Unforeseen conditions, such as weather, illicit discharge, can bring unusual amounts of debris to these facilities. Removal of all debris is the responsibility of CONTRACTOR. These conditions include but are not limited to leaves, heavy silt, sand or other types of large debris.

EXHIBIT A - SCOPE OF SERVICES/PAYMENT PROVISIONS

Attachments to and incorporated into this Scope of Services and Specifications include: Inventory listing and distance categories, including centerline miles and curb miles, and provide for cleaning and sweeping of all paved surfaces (asphalt concrete and concrete) as 1) identified and requested by RMA – Public Works; and/or 2) within the areas described in Attachment A, Road Listing, for NPDES Phase II.

CONTRACTOR may propose a schedule that satisfies timing required by the NPDES Permit. Cleaning/sweeping frequency/schedule may be changed upon written approval from the RMA - Director of Public Works or his designee to add or delete a sweep due to excessive amounts of rainfall, debris, farming operations, storm damage or other causes.

Sweeping shall normally consist of a single pass over an area. CONTRACTOR shall make as many additional passes or such extra effort as may be required to adequately clean the street. Obstructions such as accumulations of silt, compacted dirt, leaves and similar debris will be removed unless removal of such obstruction cannot be accomplished without damage to equipment, inflicting personal injury or if removal is clearly beyond the capabilities of the specified equipment. Obstructions such as small tree limbs and rocks shall be removed from the sweeping path and hauled away by the CONTRACTOR. Larger obstructions such as impaired vertical and/or horizontal clearance by tree limbs, fallen tree limb equipment or materials, and/or other similar items shall be reported per "Notification of Obstruction", resulting in deficient performance beyond CONTRACTOR's control. Inspections, spot checks and responses to complaints shall be performed on a regular basis. County shall decide upon the adequacy of sweeping.

In the event CONTRACTOR's performance results in a sweep which is determined to be unsatisfactory by the County, CONTRACTOR shall re-sweep the area determined to be unsatisfactory by County, at CONTRACTOR's expense, within twenty-four (24) hours after notification of County's determination. (See Section q of this Scope of Services)

County reserves right to withhold payment for missed, incomplete or unsatisfactory sweeping performance.

p. DEFICIENT PERFORMANCE

Liquidated damages shall be applied to deficient performance and/or late completion. The CONTRACTOR and County hereto understand and agree that it is impracticable or extremely difficult to determine actual damages the County shall sustain by reason of delay in performance. Therefore, three hundred dollars (\$300.00) shall be deducted and withheld from payments due or to become due to CONTRACTOR for each calendar day work is incomplete beyond the scheduled day. CONTRACTOR shall be granted an extension of time and shall not be assessed liquidated damages for delays caused by acts of God. The provisions shall apply to submittal of the cleaning/sweeping schedule and to performance according to that schedule. Repeated instances of failure to perform shall result in cancellation of the Agreement.

NPDES fines assessed to Monterey County shall be paid by the CONTRACTOR in the event CONTRACTOR does not complete all of the cleaning/sweeping scheduled in this Agreement.

In order to comply with permit requirements, Permittees have developed a Monterey Regional Storm Water Management Program (MRSWMP) which contains Model Maintenance Procedures with Best Management Practices (BMPs) that parties conducting municipal activities must adhere to. BMPs applicable to street sweeping consist of: 1) street sweeping scheduled two (2) times per year; 2) street sweeping will be disposed of at the landfills and not left in piles along roads; 3) equipment will be maintained and cleaned with drainage to a sanitary sewer, and; 4) print ads and website information will also be used to notify residents of the street sweeping schedules. These Model Maintenance Procedures apply to any party conducting municipal activities and contain pollution prevention and source control techniques to minimize the impact of those activities upon dry weather urban runoff, storm water runoff, and receiving water quality. Work performed under this Agreement shall conform to permit requirements, MRSWMP, and Model Maintenance Procedures. CONTRACTOR shall fully understand Model Maintenance Procedures applicable to activities that are being conducted under this Agreement prior to conducting them and maintain copies of Model Maintenance Procedures throughout Agreement duration.
