E. BACKGROUND

Established in 1969 as a grassroots effort of parents and community leaders concerned about the rising use of street drugs among youth on the Monterey Peninsula, Community Human Services became a nonprofit organization in 1971. Three years later, in response to Grand Jury criticisms about the dearth of substance abuse and mental health services in Monterey County, several local cities and school districts adopted Community Human Services and formed a Joint Powers Authority (JPA) to provide much needed services to their constituencies. Community Human Services merged with the Family Service Agency of Monterey County in 2002, forming one agency dedicated to serving the youth and families of Monterey County. Today fifteen cities and school districts comprise the membership of the nonprofit JPA. Each member entity appoints a representative and an alternate to the governing policy-making board and makes a financial contribution to the agency annually. In this way, JPA members are directly invested in the agency's success. This unique organizational structure gives Community Human Services the ability to pool local resources and leverage State and Federal funding for maximum impact, and respond rapidly to emerging community needs
