

Monterey County

Item No.

Board Report

Board of Supervisors
Chambers
168 W. Alisal St., 1st Floor
Salinas, CA 93901

Legistar File Number: WRAG 21-021

February 9, 2021

Introduced: 1/28/2021

Current Status: Agenda Ready

Version: 1

Matter Type: WR General Agenda

- a. Adopt a resolution authorizing the Auditor-Controller to amend the FY 2020-21 Adopted Budget by increasing appropriations in the County's Administrative Office's Other Financing Uses Budget Unit (001-1050-CAO017-8038) by \$399,499, financed by a release of the Cannabis Tax Assignment, Balance Sheet Account 3132 (4/5ths vote required); and
- b. Adopt a resolution authorizing the Auditor-Controller to amend the Water Resources Agency's Castroville Seawater Intrusion Project Operations Fund (131-9300-WRA020-8491) FY 2020-21 adopted budget to increase appropriations in the amount of \$2,640,567, financed by a transfer from 001-1050-CAO017-8038 in the amount of \$399,499, and an increase in estimated revenues in the amount of \$2,241,068 (4/5ths vote required).

RECOMMENDATION:

- a. It is recommended that the Monterey County Board of Supervisors:

Adopt a resolution authorizing the Auditor-Controller to amend the FY 2020-21 Adopted Budget by increasing appropriations in the County's Administrative Office's Other Financing Uses Budget Unit (001-1050-CAO017-8038) by \$399,499, financed by a release of the Cannabis Tax Assignment, Balance Sheet Account 3132 (4/5ths vote required).

- b. It is recommended that the Monterey County Water Resources Agency Board of Supervisors:

Adopt a resolution authorizing the Auditor-Controller to amend the Water Resources Agency's Castroville Seawater Intrusion Project Operations Fund (131-9300-WRA020-8491) FY 2020-21 adopted budget to increase appropriations in the amount of \$2,640,567, financed by a transfer from 001-1050-CAO017-8038 in the amount of \$399,499, and an increase in estimated revenues in the amount of \$2,241,068 (4/5ths vote required).

SUMMARY/DISCUSSION:

On May 19, 2020 the Monterey County Water Resources Agency (MCWRA) Board of Supervisors approved a recommendation for the MCWRA to enter into an agreement with the State Water Resources Control Board (SWRCB) to receive and implement a Proposition 1 Implementation Grant for the destruction of approximately 105 wells in the Lower Salinas Valley within Monterey County. Destroying abandoned or inactive wells in the project area will prevent conduits that are allowing vertical migration of seawater- and nitrate-contaminated groundwater to drinking water supply wells in the Salinas Valley Groundwater Basin.

Financing for the *Protection of Domestic Drinking Water Supplies for the Lower Salinas Valley*

project (Project) totals \$9,125,524 over a three-year period with 54% funded by the State Water Resources Control Board grant, and the remaining 46% funded as a local match that is met through a combination of MCWRA in-kind services totaling \$1,534,495 and additional funds totaling \$2,663,300 over the three-year period as shown in Tables 1 and 2 in Attachment 1. MCWRA will meet the in-kind services amount of \$1,534,495 through work performed by MCWRA staff. The additional funds requirement of \$2,663,300 became a challenge as MCWRA lacks the ability to fund these costs. MCWRA originally identified reserves in Funds 131, 132 and 134 as possible sources, but utilization of these reserves would require reprioritization of projects identified for funding over the three-year period. These projects include routine maintenance at the tertiary treatment plant and on the Castroville Seawater Intrusion Project (CSIP) Distribution system; cathodic protection; water scheduling improvements to assist with reducing delivery shortages; electrical upgrades; and, improvements to keep facilities operable during routine maintenance activities further reducing full shutdowns.

As a result of the \$2,663,300 additional funding requirement, MCWRA reached out to landowners within the project area and local water companies benefitting from the well destruction to offset the \$2,663,300. MCWRA continues to work with the water companies but stakeholders have stated that they are already paying assessments. To mitigate impacts to the CSIP, MCWRA pursued a contribution from the Cannabis Assignment.

On September 3, 2020, the MCWRA Board of Director Finance Committee supported a request to the Monterey County Board of Supervisors for a Cannabis Assignment contribution of \$2,663,300 over three years. On September 21, 2020, the MCWRA Board of Directors supported the request to move forward to the Board of Supervisors. On October 7, 2020, the Budget Committee did not unanimously approve the request but agreed to move the item forward for consideration and discussion by the full Board of Supervisors. On October 27, 2020, the Board of Supervisors approved the total contribution through a 3-2 vote. On January 27, 2021, the Budget Committee was asked to support authorizing the actions in this report. The Budget Committee did not unanimously recommend the action, but agreed to move the item forward for consideration and discussion by the Board of Supervisors.

This report seeks the authority to amend the necessary budgets to allow for the transfer of \$399,499 from the Cannabis Assignment to the MCWRA for FY 2020-21, and amend the CSIP Operations budget to increase appropriations necessary to perform the work necessary to begin working on the project. For the remaining two fiscal years, the approved contributions from the Cannabis Assignment to the MCWRA will be included in the MCWRA's adopted budget.

OTHER AGENCY INVOLVEMENT:

The County Administrative Office - Budget & Analysis Division and County Cannabis Program reviewed this report.

FINANCING:

The Cannabis Tax Assignment fund balance is \$8,821,173.99 as of January 25, 2021 so the FY 2020-21 transfer of \$399,499 will result in an estimated Cannabis Tax Assignment fund balance of \$8,421,674.99. For the remaining two fiscal years, the approved contributions from the Cannabis

Assignment to the MCWRA will be included in the MCWRA's adopted budget. The \$2,241,068 in estimated revenues that fund part of the appropriation increase represent a portion of the State's contribution toward the project. The remaining \$2,686,661 in State reimbursements will occur during the ensuing two fiscal years of the project.
