Consider receiving an update on the Lease of Monterey County Water Resources Agency land at San Antonio Reservoir to County of Monterey - Monterey County Public Works Facilities and Parks; and support authorizing the General Manager to continue negotiations.

RECOMMENDATION:

It is recommended that the Reservoir Operations Advisory Committee:

- a. Receive an update on the Lease of Monterey County Water Resources Agency land at San Antonio Reservoir to County of Monterey - Monterey County Public Works Facilities and Parks; and
- b. Support authorizing the General Manager to continue negotiations.

SUMMARY/DISCUSSION:

On April 15, 1969 the Board of Supervisors and the governing Board of the Monterey County Flood Control and Water Conservation District approved Resolution No. 69-160, leasing certain lands at Lake San Antonio to the County of Monterey. Remaining lands around Lake San Antonio stayed under the control of the Flood Control District and over the years have been leased out for cattle grazing.

On February 9, 1982, the Board of Supervisors of the County of Monterey, acting as the Governing Board of the Monterey County Flood control and Water Conservation District and as the Governing Board of the County of Monterey approved Resolution No. 82-80, expanding the recreation areas leased to the County to conform with the areas of land actually being utilized by the public for recreational purposes at Lake San Antonio.

In June of 2019, Monterey County Water Resources Agency reached out to the Monterey County Parks Department to discuss updating the existing San Antonio Reservoir Lease to include, but not be limited to, bringing up to date the current lease agreement, lease boundaries, and revenue considerations for general operations and special events on recreational lands.

OTHER AGENCY INVOLVEMENT:

SUBJECT	APPROVE RESOLUTION EXPANDING THE LAKE SAN ANTONIO RECREATION AREA	BOARD MEETING DATE 2/9/82	AGENDA NUMBER
DEPARTMENT	Parks Department and Flood Control and W.C.D.		

Recommendation

We recommend that: Your Board approve the enclosed resolution leasing certain lands at Lake San Antonio to the County of Monterey.

Background

On April 15, 1969 your Board, acting as the Board of Supervisors and the governing Board of the Monterey County Flood Control and Water Conservation District approved Resolution No. 69-160, leasing certain lands at Lake San Antonio to the County of Monterey. These lands comprise the recreation areas at North and South Shore where the developed campgrounds, launch ramps, and Marinas are located. The remaining lands around Lake San Antonio stayed under the control of the Flood Control District and over the years have been leased out for cattle grazing by the District.

Monterey County Park Rangers, as limited Peace Officers, are authorized to enforce the Monterey County Park Ordinance within the geographical boundaries of the County Park units only. Therefore, they are presently unable to act as limited Peace Officers regarding the management of Flood Control properties along a great extent of the shoreline at the Lake even though this shoreline has, for years, been used for fishing, day boat camping, and general recreation by the public. The enclosed resolution will expand the recreation areas leased to the County to conform with the areas of land actually being utilized by the public for recreational purposes at Lake San Antonio and will enable the Park Rangers to enforce the park ordinances thereupon.

Reservoir Release Update

Reservoir Release Update

SUMMARY/DISCUSSION:

The Board of Directors receives monthly updates on the status of Agency reservoirs.

RESERVOIR ELEVATION /STORAGE: As of August 17, 2021, San Antonio Reservoir has a water surface elevation of approximately 666.7 feet (NGVD 29), with 23,710 acre-feet of storage. Nacimiento Reservoir has a water surface elevation of approximately 711.45 feet, with 52,688 acre-feet of storage. San Antonio Reservoir is currently at 7% of storage capacity and Nacimiento Reservoir is at 14% of capacity.

RESERVOIR RELEASES: From April 5 until July 27, the Agency made conservation releases from both reservoirs to recharge the Salinas Valley Groundwater Basin and provide flow to the Salinas River Diversion Facility. Due to limited volume in the reservoirs, conservation releases were halted on July 28. The Agency has since made releases of 60 cfs from Nacimiento Reservoir and 10 cfs from San Antonio Reservoir to support fish habitat below the dams.

The Salinas River Lagoon has been closed to the ocean since March 3, 2021.

Minor deviations in release rates are not presented in this report but are documented in the Salinas Valley Water Project Annual Flow Reports.

Releases as of August 17, 2021:

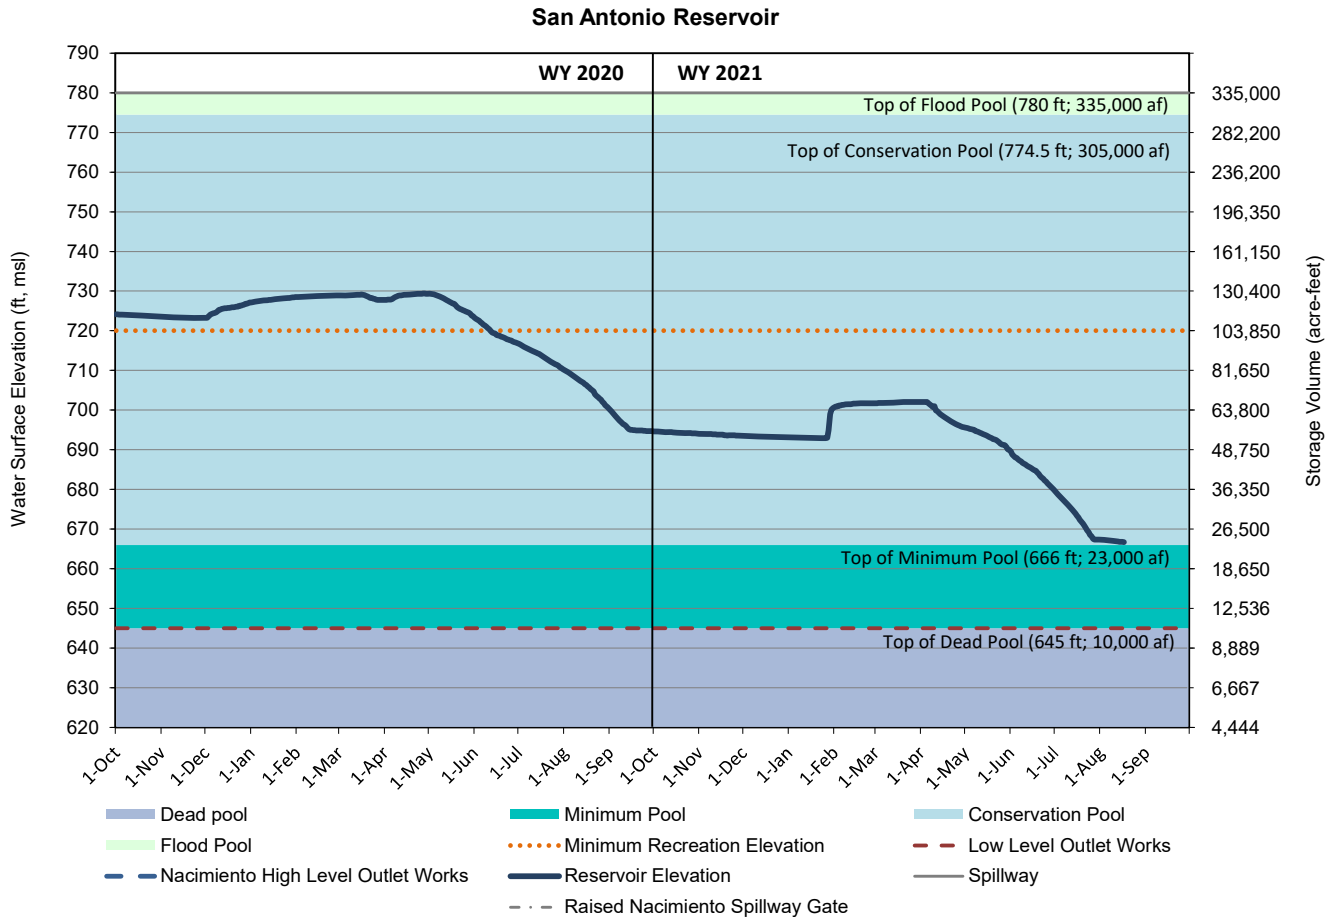

- Nacimiento Reservoir: 60 cfs
- San Antonio Reservoir: 10 cfs

Total releases from both reservoirs to the Salinas River are approximately 70 cfs. The following “provisional” flows have been recorded by the USGS:

- Salinas River near Bradley: 78 cfs
- Salinas River at Soledad: 0 cfs
- Salinas River near Chualar: 0 cfs
- Salinas River near Spreckels: 0 cfs
