

needs of vulnerable children in the foster care system and allows seamless transition to permanency.

Binti, Inc. is a mission-driven technology company committed to supporting better outcomes for children and families by developing software for foster care and adoption agencies. The Binti software is designed to assist and support child welfare professionals in doing their jobs more effectively and efficiently, as well as enhancing recruitment efforts by creating accessibility for potential caregivers in the community. Binti's software has a custom-built platform for California counties that includes daily data feeds allowing instant access to data to inform day to day practices, conduct quality assurance, and monitor services.

If approved by your Board, this will be the second year that DSS uses the Binti software. The ease and accessibility of the Binti software has shown increased productivity in meeting the timelines required by Senate Bill 1013. This software system has been customized to work with the California's Child Welfare Case Management System and allows the County to comply with State requirements for accessing Federal funding.

DSS recommends your Board approve the nonstandard liability and indemnification provisions contained in this software agreement. While the terms are not standard to the County, they are standard to the software industry and will allow DSS to continue use of the Binti software.

OTHER AGENCY INVOLVEMENT:

The Auditor-Controller and Purchasing have reviewed and approved this Agreement. Risk Management has reviewed but cannot approve the nonstandard liability and indemnification provisions. County Counsel has approved the agreement as to form.

FINANCING:

Funding for this agreement is provided through Federal and State RFA Funds. Sufficient appropriations and estimated revenues in SOC005 are included in the FY 2018-19 Adopted Budget.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:

This Agreement correlates to the Health & Human Services Strategic Initiative adopted by the Board of Supervisors by allowing DSS to improve the quality of life for foster children by expanding capacity for timely completion of resource family approvals.
