SUMMARY/DISCUSSION:

Bickmore Risk Services, Inc. ("Bickmore") operates as a risk management and actuarial consulting company. The County has contracted with Bickmore for the past four years. Under the existing contract, Bickmore Risk Services firm has provided assistance in actuarial analysis of workers' compensation and self-insurance programs, including estimation of outstanding liabilities, projected aggregate costs, departmental cost allocations, and related actuarial projects.

Bickmore was founded in 1984, and is privately held with 11 principals and 110 employees. It is headquartered in Sacramento, California and has offices in Long Beach, California and Portland, Oregon. Bickmore is ranked as the largest independent risk consulting firm in the western United States and is the second largest independent JPA management firm in the nation. Bickmore currently provides actuarial services to 35 individual counties (e.g. including the County of Monterey). Bickmore also provides professional actuarial services to CSAC, a self-insured public entity pool which provides primary and excess insurance overages to over 200 counties, cities, and other public entities in the State of California. The company's services include non-brokerage risk management administration, litigation management, health and benefits actuarial, employment practice liability and human resources consulting and training, ergonomic training and consulting, workers' compensation programs, return-to-work programs, risk control and safety, finance management and accounting, and feasibility studies.

The proposed terms of Amendment #4, extending the contract for a three year period and increasing the total dollar amount by \$300,000, is based upon the historical needs of the County (approximately \$100,000 per year in services) yet provides flexibility to address unanticipated spikes in the County's need for services. Negotiation of these proposed terms was done in consultation with the Contracts/Purchasing Department.
