

population/resource imbalance.

The goal is to allow stop the growth of these populations through the spay/neuter program, thereby reducing the spreading of disease through the cat population and the local human community. As County resources cannot address this need for this fiscal year, this grant will help accomplish this goal with minimal resources and no County funds.

This pilot program will be funded through grand funds by Friends of Community Animal Services (FoCAS), a local 501(c)(3) non-profit whose mission “is to adequately fund and support the protection, shelter, and care of lost and abandoned animals throughout Monterey County.”

Expenditures will be invoiced to FoCAS on monthly basis and will not exceed \$1590.01 per month or a total of \$5,000 for the program.

This work supports the Monterey County Health Department 2018-2022 Strategic Plan initiative: 2) Enhance community health and safety by emphasizing prevention. It also supports one of the ten essential public health services, specifically: 6) Enforce laws and regulations that protect health and ensure safety.
