

trauma registry is a crucial component. According to the ACS, trauma registries should be concurrent at a minimum, where 80% of cases must be entered within 60 days of discharge as per Centers for Medicare & Medicaid Services Qualified Health Plan (QHP) Application Chapter 16 (CD 16-6). ACS recommends that one full-time dedicated trauma registrar captures the National Trauma Data Standard (NTDS) data set for 500-750 admitted patients annually (CD 15-9).

NMC continues to surpass the volume recommendation and requires assistance due to the high volume of patients treated at the trauma center. Natividad is requesting additional assistance to help current staff with fulfilling the requirements of ACS and need this assistance until the time in which the hospital is up-to-date and able to meet the required abstraction demands based on the trauma center's current volume. NMC will evaluate the need to increase permanent staff levels to accommodate the census should it continue to increase while maintaining a concurrent registry and meeting the ACS requirements.

OTHER AGENCY INVOLVEMENT:

County Counsel has reviewed and approved this amendment no. 2 as to legal form, and the Auditor-Controller has reviewed and approved as to payment provisions. This amendment no. 2 has also been reviewed and approved by NMC's Finance Committee on June 28, 2018 and by its Board of Trustees on July 13, 2018.

FINANCING:

The cost for this amendment no. 2 is \$375,000, of which \$125,000 is included in the Adopted Budget for Fiscal Year 2018-19. Amounts for remaining years of the agreement will be included in those budgets as appropriate.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:

This agreement provides NMC with the additional support it needs to be able to provide reliable and quality patient care which improves the health and quality of life for patients and their families; such as, trauma registry services which are a crucial component of a functioning trauma center. These services ensure regulatory compliance and have enabled NMC to operate its trauma center efficiently and effectively regardless of volumes.
