**SUMMARY/DISCUSSION:**

A base wage compensation study of the Fleet Manager classification was requested by the County Administrative Office citing an increase in span of control and responsibilities to include the addition of Public Safety Install operations, County fuel site compliance and maintenance responsibilities, South County maintenance shop at San Antonio Lake and competitiveness in the marketplace. The County’s Fleet Administration services and tracks the repair and maintenance actions for over 1,600 pieces of equipment ranging from passenger cars to heavy equipment. Additionally, Fleet has an automated vehicle rental program (Invers), operates multiple fueling sites, and manages a vehicle replacement program.

The base wage analysis of the County’s comparable agencies found that based on the duties performed, the salary of the benchmark classification of Fleet Manager was matched to six (6) of the nine (9) comparable agencies and is approximately 4.98% below the salary mean of the comparable agency’s classifications. To promote the Human Resources Department’s mission to make the County the employer of choice, the goal is to provide labor market competitive wages by setting base wages within five percent (5% = - 4.495% with rounding) of the average of the agencies identified. The County’s philosophy is to maintain a competitive

compensation package that attracts and retains the highest quality candidates and employees to serve the community while maintaining sound fiscal standards.

Therefore, in accordance with the Compensation Philosophy, the Human Resources Department recommends adjusting the base wage salary of the Fleet Manager classification by approximately 5% at top step in order to align with the labor market average.
