SUMMARY/DISCUSSION:

Healthcare organizations are faced with an increase in patients with mental illness requiring hospitalization. Due to the vulnerability of such patients, psychiatric units are heavily regulated. The Joint Commission, California Department of Public Health, and Centers for Medicare and Medicaid Services each have regulations and standards specific to psychiatric units that require compliance in order to maintain licensure, accreditation, and participation in federally funded programs.

The Consultant shall provide support and guidance to the Mental Health Unit Nursing Director related to specific requirements for psychiatric units and best practices for care of patients with mental illness. Contractor will help ensure ongoing compliance with accreditation and regulatory requirements and develop plans of correction, as needed.

The Consultant will be available to NMC for consulting on other licensing and accreditation issues as determined by the hospital Chief Executive Officer. Potential areas of consultation may include matters related to the Joint Commission, Centers for Medicare & Medicaid Services (CMS) and the California Department of Public Health (CDPH).
