

the cellular phone system located at the Government Center.

RSRF designed and installed The Cellular Enhancement System equipment at the Government Center, which consists of an external mounted antenna that rebroadcasts the cellular signals from local cell phone providers (AT&T and Verizon) inside the building.

The installation of this system boosts the cellular service within the Government Center enhancing the business experience for County employees as well as the public.

The proposed Agreement will provide cellular signal monitoring, maintenance, repair, and technical support as needed during the three-year term of the Agreement.

The Chief Information Officer recommends the approval of this Agreement.

OTHER AGENCY INVOLVEMENT:

County Counsel has reviewed the agreement with Staircase 3, Inc, dba RSRF and approves as to legal form. Auditor-Controller's Office reviewed the contract but does not agree to the non-standard payment provisions.

FINANCING:

Required funds have been included in the FY22-23 Adopted Budget as well as the FY23-24 Requested Budget for the Information Technology Department, ITD 1930, Appropriations Unit INF002. Fund requirements for future years will be included in all future year budget submittals.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:

The execution of the proposed Agreement furthers the efficient support of County business by enabling the County to provide the County's communications.

- Economic Development
- Administration
- Health & Human Services
- Infrastructure
- Public Safety
