SUMMARY/DISCUSSION:

The Digital Connections Program supports the California Department of Aging’s Digital Inclusion initiative and provides one-time funding designed to support older adults and individuals with disabilities that are impacted or at risk of isolation and loneliness in their communities.

The purpose of the program is to ensure the digital divide is closed for program participants and that they may experience an improved quality of life as they are able to connect and interact with their community and resources in a more dynamic way.

Monterey County Area Agencies on Aging (AAA) plans to utilize the Digital Connections Program funding to provide tablet devices, basic literacy skills training, and broadband connection to eligible members of the target population. This includes adults 60 years of age and older, and individuals 18 years of age and older with a disability as defined by the Americans with Disabilities Act (ADA). Additionally, unpaid informal/family caregivers of the target population, may be eligible for broadband services provided under the Connectivity Fund only.

This state agreement was received after the start term of the agreement and therefore is retroactive back to the effective date of February 1, 2023.

OTHER AGENCY INVOLVEMENT:

AAA plans to contract with Loaves, Fishes and Computers to provide the digital literacy training, technical support and assistance.

County Counsel has approved the agreement as to form.

FINANCING:

This funding agreement allocates \$149,478 to the Department of Social Services, Area Agency on Aging in providing technology, connectivity, and digital literacy resources to support older adults and individuals with disabilities that are impacted by the digital divide, social isolation and loneliness. The term of the agreement goes through December 31, 2023. The Department is assessing the appropriation needs and will be going to the Budget Committee and the Board of Supervisors to increase appropriations for FY 2022-23.
