

The recommendation to approve this new Agreement, that restates the terms of the prior agreement including Addenda 1 and 2 through October 31, 2017, is being made to continue with the existing business relationship. The extended term will allow for Management Services of the resort operations through collaboration between both parties.

Since 2011, UPC has done a very respectable job while trying to meet expenditure and revenue forecasts set forth in the initial Agreement. Historic low water levels at the Monterey County lakes continue to challenge the current and future success of the operations. At this time, the department will continue to work with UPC to maintain the status quo level-of-service to the community. In FY 2016, Lake San Antonio was closed to the public and it is anticipated to remain closed next fiscal year. In preparation of this report, County staff met with representatives of S.E.I.U. and the Ranger Association on Wednesday, May, 4, 2016.

OTHER AGENCY INVOLVEMENT:

In addition to the Parks Department, Water Resources Agency and Parks Ad Hoc Committee, County Counsel has reviewed and approved the Agreement as to form. The CAO - Budget Analysis Division has also reviewed this report.

FINANCING:

This new Agreement restates the terms of the prior agreement approved and executed on May 11, 2011, including the two addenda approved in 2012 and 2014. The Management Agreement with UPC will be valid through October 31, 2017.

In Section 3.9 of the Agreement, the Annual Fee of \$30,000 paid to UPC for Marketing Leadership and Creative Guidance that was eliminated by Addendum No. 2 is being reinstated. This will allow for the enhanced website and marketing that has occurred to date and enhancements planned and supported by the Parks Department staff. This investment in marketing and web presence should return more in revenue than what will be expended through the term of the agreement. Without investment in advertising, marketing and web presence, it is hard for potential users to find the location and make reservations.

This Agreement also includes UPC paying the County eight percent of gross alcohol sales. Currently, the County does not get any percentage of gross alcohol sales. This income is expected to be approximately \$8,000 per year.

Both of these financial changes will be retroactively included in the UPC Profit and Loss Statement effective July 1, 2015.
