Receive an oral report and presentation on Monterey County Gang Violence Prevention Initiative

### RECOMMENDATION:

It is recommended that the Board of Supervisors:

Receive an oral report and presentation with an update regarding the planning efforts underway for the Monterey County Gang Violence Prevention Initiative.

### SUMMARY/DISCUSSION:

Staff will provide an oral report and presentation with an update regarding the planning efforts underway for the implementation of the Monterey County Gang Violence Prevention (MCGVP) Initiative. The MCGVP Initiative will consist of a comprehensive strategic plan to be implemented in support of local initiatives using the Collective Impact Model.

Key points to be covered:

- The County Administrative Office has established the Office of Community Engagement and Advocacy with key staff leading the planning and development of the MCGVP Initiative.
- Office of Community Engagement and Advocacy staff have established and continue to establish collaborative partnerships with Monterey County departments, community based organizations, grass roots organizations and local municipalities to further advance local efforts to reduce youth and gang violence.
- The MCGVP Initiative's comprehensive strategic plan will be developed founded on a framework that will guide the coordination and leveraging of County resources around concerted activities, with a

vision of efficient, effective and equitable County Services that support our community members, most specifically youth and those with the greatest need, ultimately making Monterey County a safe, vibrant and thriving Monterey County.

- The framework and strategic plan will include a Community based Social Marketing Campaign. The purpose of a Community Based Social Marketing Campaign is to shift attitudes and behaviors community wide as a way to regain the community's "Moral Voice of Authority" regarding gang violence by reducing tolerance for acts of violence and increasing a sense of moral cohesiveness in implementing community-wide responses to "take back neighborhoods."
