

This new policy is also referenced in policy A-40 titled “Healthy Vending Machine Policy”. Policy A-40’s scope is limited to providing County standards for vending machine provision and operation in County facilities and references the nutritional requirements of beverages and snacks in in those vending machines. Policy G-120, establishes more comprehensive health nutrition standards to be met County wide, so any old references in Policy A-40 are deemed obsolete and should be replaced with the standards in G-120.
