Board Report

File #: RES 16-007, **Version:** 1

Adopt a Resolution approving the June 2015 revision to the County of Monterey Multi-Jurisdictional Hazard Mitigation Plan to receive formal approval from the Federal Emergency Management Agency (FEMA).

RECOMMENDATION:

It is recommended that the Board of Supervisors adopt a Resolution approving the June 2015 revision to the County of Monterey Multi-Jurisdictional Hazard Mitigation Plan to receive formal approval from the Federal Emergency Management Agency (FEMA).

SUMMARY:

FEMA and the State of California have completed a preliminary review of the County's plan and has given tentative approval of the plan, pending local adoption. The approval of the plan ensures the County's eligibility and pre-qualification for potential federal mitigation funding, to include grant programs as well as pre-and post-disaster funding. The plan includes hazard identification, risk and vulnerability assessments, and mitigation strategies, all based on the County's unique geography and demographics. The County and twelve incorporated cities located are included in this plan.

DISCUSSION:

The County of Monterey and the cities of Carmel-by-the-Sea, Del Rey Oaks, Gonzales, Greenfield, King City, Marina, Monterey, Pacific Grove, Salinas, Sand City, Seaside, and Soledad (hereafter referred to as the participating jurisdictions) meet the requirements of Section 409 of the Stafford Act and Section 322 of the Disaster Mitigation Act 2000 and therefore the County of Monterey and each participating jurisdiction must adopt the Multi-Jurisdictional Hazard mitigation Plan (MJHMP). For this version of the Plan, Special District are not participating jurisdictions but are identified within the County wide plan and hazard analysis.

While the County of Monterey and the other local Agency participants are not guarantors of the public safety nor absolute protector of property, the adoption of the attached Plan can act to facilitate and coordinate services and education to promote appropriate mitigation activities related to local emergencies and disasters.

OTHER AGENCY INVOLVEMENT:

The Multi-Jurisdictional Hazard Mitigation revision process brought together representatives of involved stakeholder agencies and organizations who could have a role in mitigation planning and implementation of mitigation strategies as identified in the plan. The revision process initially began in 2013 under the supervision of a County OES Emergency Services Planner, with the assistance of a contractor from AECOM Corporation to lead the working group through the planning processes outlined in the plan. The cities of Carmel-by-the-Sea, Del Rey Oaks, Gonzales, Greenfield, King City, Marina, Monterey, Pacific Grove, Salinas, Sand City, Seaside, and Soledad all participated in the planning and completion of the plan.

FINANCING:

The MJHMP revision process was funded as a special project by the FY 2013/14 General Fund Grant. Adoption of the County of Monterey Multi-Jurisdictional Hazard Mitigation Plan will have no impact on future

General Fund.

Prepared by:

Sherrie Collins
Emergency Services Manager

Approved by:

Nicholas E. Chiulos
Assistant County Administrative Officer
