### SUMMARY/DISCUSSION:

On August 31, 1988 the Monterey County Planning Commission approved a Coastal Development Permit (File No. PC6613) for development of a single-family dwelling on the subject property (Planning Commission Resolution No. 88-280). The permit was approved subject to a number of conditions including the granting to the County of a Scenic Easement covering all portions of the parcel outside of the designated building envelope. A Scenic and Conservation Easement Deed was recorded on September 30, 1991 for the area of the easement. It has come to the attention of both the Grantor and the Grantee of the easement that a minor portion of the improvements approved under the Coastal Development Permit was built encroaching approximately six inches on the area of the scenic easement. Such encroachment has not affected any of the resources protected within the area of the easement. Therefore, the original deed for the easement must be amended to exclude the encroachment from the easement area. The Title Report for the property shows that there are no liens or encumbrances on the property and therefore a subordination agreement is not required for the amendment of the Conservation and Scenic Easement.

OTHER AGENCY INVOLVEMENT:

The Office of the County Counsel has approved the Amended Conservation and Scenic Easement Deed as to form.

FINANCING:

Funding for staff time associated with this project is included in the FY13-14 Adopted Budgets for RMA-Planning. Fees have been collected to finance the processing and review required for the applicant to proceed.
