SUMMARY

On March 9, 2022, the Planning Commission adopted Resolution No. 22-003 approving a Coastal Development Permit (PLN200124) to allow a Lot Line Adjustment between two legal lots of record. To satisfy Condition of Approval No. 7 of the Lot Line Adjustment (PLN200124), the current owner, 3175 Del Ciervo, LLC, a California Registered Limited Liability Company, proposes to remove and replace the Conservation & Scenic Easement recorded on County of Monterey Recorder Reel 2153 Pages 268 through 281, with two new

Conservation and Scenic Easements, (one for each of the adjusted lots). The amended easements accomplish the following:

1. Adjust the easement configurations to align with the amended property boundaries.
2. Align the easement configurations with the final building envelope boundaries.
3. Specify in the text of the easement the specific resources intended for protection.

The Planning Commission applied the easement condition to protect visual and biological resources in accordance with the applicable policies of the Del Monte Forest Land Use Plan. The property has an unnamed stream running along the eastern portion of the property which drains into Carmel Bay. The property is also potentially visible to the public from 17-Mile Drive and Point Lobos. The amended easements would allow biological resources such as forest, riparian, and wetland habitats to flourish by protecting them from future development, sources of erosion and pollution. Limiting development in these areas would benefit the sensitive wildlife living within the Del Monte Forest, while protecting visual resources and allowing these habitats to be enjoyed by the public on a long-term basis.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):

Acceptance of the scenic easement qualifies for a Class 17 categorical exemption under CEQA because it constitutes the acceptance of easements to maintain the open space character of the area (CEQA Guidelines, § 15317).

OTHER AGENCY INVOLVEMENT:

The Office of the County Counsel has approved the Conservation and Scenic Easement Deeds as to form.

FINANCING:

Funding for staff time associated with this project is included in the FY2023-24 Adopted Budget for HCD Appropriation Unit HCD002, Unit 8543. All costs associated with maintenance of the CSED will be borne by the project applicant (Grantor), not the County (Grantee).

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:

This action represents effective and timely response to our HCD customers. Processing this application in accordance with all applicable policies and regulations also provides the County accountability for proper management of our land resources.
